5 January 2004

Written Ministerial Statements

Monday 5 January 2004

TRADE AND INDUSTRY

British Energy

The Secretary of State for Trade and Industry (Ms Patricia Hewitt): On 1 December 2003, *Official Report*, cols 50–51WS, I informed the House that, following a request from British Energy, I was temporarily increasing the maximum amount available to the company under the Government's credit facility to £275 million. The increase was subject to the condition that it was limited to the period prior to the expected receipt of the proceeds from the sale of the company's interest in Amergen, or 22 February 2004, if earlier, whereafter it would be reduced to £200 million.

This is the first opportunity I have had to inform the House that British Energy announced on 23 December it had completed, and received the proceeds from, the sale of its interest in Amergen. Accordingly, the maximum amount available to the company under the facility has been reduced back to £200 million. Subject to the conditions of the restructuring, the facility will continue to be available to the company while the restructuring is agreed.

TREASURY

Equitable Life

The Financial Secretary to the Treasury (Ruth Kelly): Lord Penrose delivered the report of his inquiry into Equitable Life on 23 December. The Treasury and its legal advisers and a limited number of people at the FSA are now reviewing the contents of the report. Subject to these discussions, it is the Treasury's intention to publish the report in full as soon as possible. Further details will be announced in due course.

INTERNATIONAL DEVELOPMENT

Iran Earthquake

The Secretary of State for International Development (Hilary Benn): On 26 December 2003, at 1.57 am Greenwich Mean Time (5.27 am local time) a powerful earthquake, of magnitude 6.7 on the Richter scale, struck Kerman Province in south eastern Iran. The epicentre was near to the city of Bam. The earthquake hit the city while people were sleeping and the resultant human tragedy has been immense. The Government of Iran now estimate that between 30,000 and 32,000-people have lost their lives. Some 16,000 suffered injuries and 70,000 have been left homeless.

The Iranian Government has long experience of dealing with earthquakes and other natural disasters, but the sheer scale of this disaster meant that it welcomed international assistance. The situation was compounded by the fact that many of the city officials in Bam were themselves killed during the earthquake.

The first priority was search and rescue support for those still trapped in the rubble, and the provision of medical care for the injured. With Bam's only surviving hospital completely overwhelmed, the injured were flown to Kerman, 125 miles away, where they were stabilised before being flown on to Tehran and Isfahan. Providing shelter for those facing the freezing desert night was also critical. Water and electricity supplies took a while to be restored, so some local people were relying on open fires, in low winter temperatures. The Iranian authorities mobilised 20,000 volunteers for the relief effort and the Iranian Red Crescent treated approximately 30,000 casualties in the first four days, of which 10,000 were evacuated to receive tertiary care in seven other centres in Iran. The United Nations report that food and water supply is now adequate at this stage and that health needs are being addressed.

The United Kingdom played its part in responding quickly to the tragedy. In London, DFID opened its emergency crisis co-ordination room on the morning the earthquake happened, from where staff helped to co-ordinate efforts on the ground, liaise with other international relief organisations and worked with the Iranian Government and the British Embassy in Tehran to ensure that humanitarian assistance was delivered as quickly as possible. The Foreign Secretary spoke to the Iranian Foreign Minister, Kamal Kharrazi, on the afternoon of 26 December, to express his deep condolences at the loss of so many Iranian people in the earthquake and to offer the Iranian Government the services of specialised search and rescue teams to help in the immediate aftermath of the earthquake.

On 27 December, the day after the earthquake, 68 search and rescue specialists from the UK landed in Kerman on a DFID-organised charter flight from Stansted. The team, comprising UK fire service teams, specialists from British non-governmental organisations including the International Rescue Corps, Canis, Rapid and Bird, and four staff from DFID, took with them sniffer dogs and thermal imaging equipment. They were amongst the first international teams to reach Bam. The search and rescue phase has now come to a close and the UK teams have returned home. The United Nations report that the collective efforts of the Iranian and international search and rescue teams saved approximately 1,000 lives.

In addition to the immediate search and rescue effort, DFID immediately committed £150,000 towards the International Federation of the Red Cross/Red Crescent appeal for shelter, heating and water purification equipment and on 29 December organised an airlift of 450 winter tents and other shelter materials, from DFID's warehouse, for distribution by the Iranian Red Crescent. We also leased two Antonov 12 cargo aircraft and put them at the disposal of the Government of Iran for the first few days to assist in maintaining the flow of relief items from congested airports to the areas where they are most needed. Also, following an urgent appeal from the World Health Organisation, DFID allocated £59,000 for the immediate purchase of 20,000 doses of tetanus vaccine, to be donated to the Ministry of Health and the Iranian Red Crescent. To date, in total, we have contributed some £900,000, including the

UK share (approximately £280,000) of the European Community commitment towards the international relief effort. DFID is maintaining a presence in the country to look at potential further help in the light of assessments currently underway.

The Government of Iran has asked the United Nations to develop and launch a Flash appeal. It will address the relief, recovery and early rehabilitation needs of those affected by the disaster and cover a period of three months. The Flash appeal is expected to be launched, in Tehran, on 8 January 2004.

I want to pay tribute to the professionalism and dedication of the teams from Britain and Iran, and from other nations, that immediately responded to the call for help. The preparedness of the British teams meant that the UK was able to react as soon as news of the earthquake began to reach us. I am also grateful for the excellent assistance provided by the British Embassy in Tehran in facilitating and supporting the teams during this period. Since the start of the crisis DFID has made available its situation reports on the DFID website. A copy of the latest report will also be placed in the Libraries of the House.

Helping the people of Bam has become a genuinely global effort, with assistance pouring in from all around the world. One thousand, six hundred international search and rescue, health and relief personnel drawn from 44 countries operated in the disaster area. Since the earthquake, the UN in Bam and Kerman has registered 1,400 flights carrying relief teams and emergency supplies. At moments of great human need like this, the international community must do all that it can to help. It is notable that over 50 countries are doing so, including significant commitments from the Gulf Co-operation Council for reconstruction.

Finally, I am sure that the House will wish to express its heartfelt condolences to the people of Bam and of Iran on the terrible tragedy that they have suffered. Our thoughts are with them.

Written Ministerial Statements

Tuesday 6 January 2004

DEFENCE

Ground Based Air Defence

The Minister of State, Ministry of Defence (Mr. Adam Ingram): The Defence Procurement Agency has agreed contracts with European Aeronautic Defence Systems and Lockheed Martin for a three-year competitive assessment phase for the Ground Based Air Defence phase 1 programme.

The contracts will pave the way for low-risk incremental introduction of enhanced command and control capability to our GBAD forces as well as providing them with world-class situational awareness in the joint battlespace management environment. This capability will provide interoperability within the joint UK forces and with all of our principal allies. The combined value of the contracts is around £85 million and the work will be conducted in the UK, headed from offices in Havant and Bristol, with a significant proportion being sub-contracted to MBDA missile systems at Stevenage and Thales Air Defence Ltd in Belfast. The GBAD investment will not only start a process of considerable networked enabled capability enhancement, but will support a wide variety of highly skilled jobs within the UK.

ECHR Judgments—Courts Martial

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): On 16 December 2003 the Grand Chamber of the European Court of Human Rights delivered its judgment in the cases of Cooper and Grieves. The two cases concerned whether trial by court martial in the United Kingdom—under the system in place since the coming into force of the 1996 Armed Forces Act—was compatible with article 6.1 of the Convention.

This statement sets out the main findings of the Court and future conduct of courts martial.

Mr. Cooper was a serving member of the Royal Air Force (RAF). On 18 February 1998 he was convicted of theft by an Air Force district court martial (DCM). He was sentenced to 56 days' imprisonment, to be reduced to the ranks and dismissed from the service. The DCM comprised a permanent president, two other officers lower in rank and a civilian judge advocate.

On 3 April 1998 the Reviewing Authority, having received advice from the Advocate General, upheld the DCM's finding and sentence. The applicant appealed unsuccessfully to the Appeal Court (CMAC).

The applicant took the case to the European Court, basing his case mainly on a decision of the European Court in *Morris* v. *UK (2002)* that courts martial were non-compliant in certain respects relating to their composition and the practice of post-trial review (under which a conviction may be quashed or sentence reduced by a service reviewing authority). In *Cooper* v. *the United Kingdom*, the Court unanimously overturned its decision in *Morris* and held that there had been no violation of article 6.1 (right to a fair hearing and to an independent and impartial tribunal) of the European convention on human rights.

Mr. Grieves was a member of the Royal Navy. On 18 June 1998 he was convicted by a Royal Navy court martial of wounding with intent to do grievous bodily harm. He was sentenced to three years' imprisonment, reduced in rank, dismissed from the service and ordered to pay £700 in compensation. The court martial comprised a president (a Royal Navy captain), four naval officers and a judge advocate, who was a serving naval officer and barrister.

On 29 September 1998 the Admiralty Board, having received advice from the Judge Advocate of the Fleet (JAF), upheld the court martial's finding and sentence. The applicant appealed unsuccessfully to the CMAC.

Mr. Grieves took his case to the European Court. Part of his case was based on *Morris*. In addition he argued that the use of a serving naval officer as the judge advocate was non-compliant (in Army and RAF courts martial the judge advocates are civilians). In *Grieves* v. *the United Kingdom* the Court, as in *Cooper*, rejected the arguments based on *Morris*, but concluded that the use of serving naval officers as judge advocates in the Royal Navy did not provide a strong guarantee of the independence of naval courts martial. It thus held unanimously that there had been a violation of article 6§ 1. Under Article 41 (just satisfaction), the Court did not award the applicant any damages, but awarded him 8,000 euros for costs and expenses, less the amount received in legal aid.

The system of discipline within the armed forces is a vital contribution to their operational effectiveness and their success, to which this House has so often paid tribute. It is clearly welcome that the European Court has ruled that, as a whole, the service court martial system with its safeguards to guarantee its independence and impartiality is compliant with the ECHR. It is disappointing that the Court concluded on the more limited point in the case of Mr. Grieves that there was a violation under article 6. As explained already this does not affect Army or RAF courts martial where the judge advocates are civilians.

We are reviewing the implications of the details of judgment as a matter of urgency. On the issue of the appointment of uniformed judge advocates we have already concluded that their use should cease with immediate effect. Following legal advice, we have concluded that the judgment also requires the amendment of existing legislation to change the arrangements for the appointment of judge advocates in naval proceedings, as these appointments are made by a serving naval officer. We will shortly be putting a remedial order before both Houses for this purpose under section 10 of the Human Rights Act 1998. We aim to cause the minimum disruption to courts martial already scheduled in the new year, though some delay may be inevitable.

TREASURY

Citizen Information Project

The Chief Secretary to the Treasury (Mr. Paul Boateng): The Registrar General for England and Wales will announce later today that he is leading the next stage of development work for a UK population register, which will inform a further decision by Ministers in 2005 on whether this work should proceed to implementation.

A population register would become, for the public sector, the prime source of address and other core contact information relating to people usually resident in the UK. The development would pave the way for more responsive and personalised public services, by supporting joined-up delivery and more efficient and effective transaction and back office services.

A critical consideration in developing plans for a population register will be the protection of individual privacy. To that end, if a population register were implemented, individuals would be able to see the contact details held on them and to know which parts of government were accessing this information.

The work will build on a feasibility study that reported to Ministers in June. The Registrar General will place an information note summarising the feasibility study on the Office for National Statistics and General Register Office website. A copy has been placed in the Library of the House.

The project team will continue to work closely with other Government Departments, the devolved Administrations, agencies and local authorities.

HEALTH

HFEA Code of Practice

The Parliamentary Under-Secretary of State for Health (Miss Melanie Johnson): The new edition of the Human Fertilisation and Embryology Authority's code of practice for infertility clinics has been approved and laid before Parliament today. Copies have been placed in the Library.

Written Ministerial Statements

Wednesday 7 January 2004

NORTHERN IRELAND

Independent Monitoring Commission

The Secretary of State for Northern Ireland (Mr. Paul Murphy): The Government have today exchanged letters with the Irish Government to bring the agreement establishing the Independent Monitoring Commission into force. The final draft of the agreement was placed in the Library of the House on 4 September 2003. Following signature on 25 November 2003 the agreement was published as Command Paper Cm 6068 and laid before Parliament on 3 December 2003 in accordance with the Ponsonby "rule".

Both Governments have been committed to doing all they can to ensure that the Commission can begin its work as early as possible. We are confident that in agreeing an early date for entry into force with the Irish Government—before the 21 days required by the Ponsonby "rule" have elapsed—we have acted with the will of the House.

DEFENCE

Reserve Forces

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): Following the expiry of the call-out Order made last January, I am informing the House that a new Order has been made under the Reserve Forces Act 1996 so that reservists may continue to be called out into service to support operations in Iraq. The new Order is effective until 6 January 2005.

Some 8,500 reservists were called out and accepted into service under the Order made last year. The proportion of reservists deployed with the UK force in theatre is currently just under 20 per cent. but this is expected to reduce to just over 10 per cent. during the course of the year. The next tranche of reservists, involving some 1,100 personnel, will shortly be called out for mobilisation and then deployed in early April where the majority will complete six month tours. We will continue to keep the size and mix of forces in theatre under careful review. We are very appreciative of the continuing support and commitment shown by both reservists and their employers.

CABINET OFFICE

Civil Contingencies Bill

The Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster (Mr. Douglas Alexander): I am today publishing the "Government's response to the report of the Joint Committee on the draft Civil Contingencies Bill (incorporating the Government's response to the House of Commons Defence Committee on the draft Civil Contingencies Bill)" (Cm 6078).

The Government are grateful for the contribution of the Joint Committee and the Defence Committee to the development of the thinking on the draft Bill as set out in their reports of 2 July and 28 November. We have considered in detail the recommendations put forward. Copies of the Government's response are available in the Libraries of both Houses and can also be viewed on the UK Resilience website http://www.ukresilience.info/

I am also today publishing the Cabinet Office report on The Government's Response to the Public Consultation on the Draft Civil Contingencies Bill, that was carried out last summer from 19 June until 11 September. This is also available in the Libraries of both Houses and can be viewed at http://www.ukresilience.info/

Written Ministerial Statements

Thursday 8 January 2004

DEFENCE

Duke of York's Royal Military School and Queen Victoria School

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): The Quinquennial review into the Duke of York's Royal Military School and Queen Victoria School has been discontinued before the production of a report in view of the constraints imposed by the royal warrants underpinning both foundations that effectively ruled out the review team's main recommendations, which involved removing the schools from Government control. The review did, however, identify a number of issues for further study. These will be taken forward by the Adjutant-General's headquarters in conjunction with the chief executive or head of each school. In the meantime, the two schools will remain as agencies of the Ministry of Defence.

HOME DEPARTMENT

L21A1 Baton Round

The Minister for Crime Reduction, Policing and Community Safety (Ms Hazel Blears): I have placed in the Library of the House a statement by the Defence Scientific Advisory Council (DSAC) on the ricochet potential of the L21A1 baton round. This baton round is used as a less lethal option by the police and the Army.

The Ministry of Defence has carried out research on the post-ricochet trajectories and kinetic energy of baton rounds. The Sub-Committee, Defence Scientific Advisory Council has assessed the medical implications of the ricochets and has made a statement.

The DSAC statement concluded that the experimental studies and analysis undertaken were an acceptable technical approach to the prediction of the risks.

DSAC has recommended:

Users should be made aware that L21A1 baton rounds can ricochet in some circumstances with high energy, and that the presence of obstacles and of personnel other than the intended target should form part of their risk assessment in the decision to fire the weapon;

A desire for a reduction of the ricochet potential should be stated in the research and operational requirements of future kinetic energy weapon systems, and be evaluated experimentally.

The Association of Chief Police Officers tell me that police firearms training addresses the ricochet potential of ammunition used by the police service. However, in order to ensure that this issue is specifically addressed, the results of these studies will be brought to the attention of persons responsible for firearms training in all forces throughout the United Kingdom. Current Army training on the use of baton rounds already addresses the issue of ricochet potential.

FOREIGN AND COMMONWEALTH AFFAIRS

NATO Parliamentary Assembly

The Secretary of State for Foreign and Commonwealth Affairs (Mr. Jack Straw): The hon. Member for Hereford (Mr. Keetch) has replaced the hon. Member for Portsmouth, South (Mr. Hancock) as a member of the United Kingdom delegation to the NATO Parliamentary Assembly.

TRADE AND INDUSTRY

Small Business

The Parliamentary Under-Secretary of State for Trade and Industry (Nigel Griffiths): The Small Business Service (SBS) is today publishing a Government action plan for small business. It builds on existing Government support for small business, marshalling the whole of government behind the small business agenda. I am placing copies in the Libraries of both Houses.

In December 2002, the SBS published *Small Business and Government—The Way Forward*—a strategic framework for a Government-wide approach to helping small businesses based around seven core themes: building an enterprise culture; encouraging a more dynamic start-up market; building the capability for small business growth; improving access to finance for small businesses; encouraging more enterprise in disadvantaged communities and under-represented groups; improving small businesses' experience of Government services; and developing better regulation and policy. These themes were identified as key drivers for economic growth, improved productivity and enterprise for all.

Since then, partners at national, regional and local level have worked together using the strategic framework to develop a set of practical actions focused on improving policy and delivery as it affects small business.

Actions identified in the plan, include:

Consideration being given to extending the concept of common commencement dates for legislative and regulatory changes subject to the results of the employment law pilot now underway. Government will consult business on the priority areas and preferred dates;

A review of the routes off benefits into self-employment to establish if more can be done to encourage and facilitate moves into self employment;

The launch of a "core offer" for start-ups defining the service that all start-up businesses, wherever they are located, can expect;

Completion of the establishment of a Council for Graduate Entrepreneurship;

The publication of a "no nonsense guide" to access to finance for small businesses;

A second phase of the Government's Phoenix Fund, to encourage specialist business support and entrepreneurship in disadvantaged areas;

The development of a small business procurement concordat, to be signed by public sector bodies; and

Further work to improve the coherence, accessibility and quality of Government services for small businesses building on the success of the cross-Government www.businesslink.gov.uk portal available since November 2003.

Implementation of the Action Plan will require the involvement of a wide range of Government Departments and agencies and delivery partners. A web-based implementation programme is being made available at www.sbs.gov.uk setting out milestones and target dates for the implementation of the new actions. It will be updated on a regular basis to show the progress that is being made.

Gas Quality

The Minister for Energy, E-Commerce and Postal Services (Mr. Stephen Timms): My predecessor, the hon. Member for Cunninghame, North (Mr. Wilson), launched a three-phase strategy on 5 June 2003 to look at the issue of gas quality, as the UK becomes increasingly import dependent. Phase one was a scoping study on whether there would be a gas quality problem, in particular but not exclusively in relation to the Wobbe number. ILEX Energy Ltd was appointed to take this work forward. This study is now complete and an edited version of this report, without commercially sensitive information, is available on the DTI/Energy Website [www.dti.gov.uk/energy shtml/domestic_markets/gas_market/index]

ILEX approached this study by carrying out a supply-demand analysis and identifying the main sources of gas required to meet the forecast demand. An assessment was then made of the likely quality of the various sources of imported gas and the implications of those gas supplies for Great Britain's entry terminals. ILEX had a number of meetings with future and potential future suppliers to gather quantitative data on the likely quality of gas from new import sources. These data, much of which are commercially sensitive, will be used by DTI, HSE and Ofgem to inform this exercise.

During Phase 1 the DTI, HSE and Ofgem held a workshop to engage industry at the early stages of this exercise. The workshop was successful in providing a forum for industry to discuss gas quality issues.

ILEX's work confirms that the future Wobbe[1] specification of much gas imported into the UK before processing, is likely to fall outside the current upper Wobbe limit in the Gas Safety Management Regulations (GSMR). The UK's increasing dependence on imported gas does therefore raise the question whether the current upper Wobbe limit should be increased.

In the light of this result I have asked my officials to proceed with phase 2. Phase 2 will be a tripartite (DTI, HSE, Ofgem) consultation on the appropriate policy response. As my predecessor said, our broad policy options appear to be: the default option, to retain the current Wobbe limit (this would avoid the need to remove household appliances, but it would have the disadvantage of limiting UK access to the global gas market); or to change the current Wobbe limit (this would require the identification and removal of non-compliant gas appliances, but with an advantage in terms of facilitating gas imports).

My officials, together with HSE and Ofgem, will be working over the next months to prepare the ground for a consultation exercise on the policy option. My officials are also in discussion with the European Commission and representatives of the gas industry in the EU, about the work being carried out at the EU level on gas quality and the interaction with the present exercise.

I shall make a further statement to the House in due course to announce the forthcoming public consultation document. My Department would propose to hold a further workshop at that time.

This exercise has been developed by the DTI as a member of the Sustainable Energy Policy Network (SEPN), which is working to deliver the Energy White Paper "Our Energy Future—creating a low carbon economy".

[1] The Wobbe Number represents a measure of the heat release when a gas is burned at constant gas supply pressure. The Wobbe limit range in The Gas Safety Management Regulations is between 47.20 MJ/cubic metre and 51.41 MJ/cubic metre.

INTERNATIONAL DEVELOPMENT

CDC

The Secretary of State for International Development (Hilary Benn): On 27 November 2002, the then Secretary of State for International Development made a written statement to the House on the plans to reorganise CDC. This set out how CDC was to be reorganised into two separate organisations; an investment company and a new management company. I am now submitting a further written statement to inform the House on how these plans are being carried through.

The purpose of the reorganisation of CDC is to maximise the creation and long-term growth of viable businesses in poorer developing countries, by making responsible investments and mobilising private capital alongside public funds. These objectives, which were set out in the 1997 and 2000 White Papers on International Development, remain unchanged.

CDC's business now focuses on regions (South Asia and sub-Saharan Africa) and sectors where more investment is needed in order to help meet the Millennium Development Goals. It follows a set of pioneering responsible business principles that commit it to ethical, environmental and social best practice. CDC is also subject to an Investment Policy, which sets out the countries (the "CDC Universe") in which it may invest. The Policy includes two targets; that 70 per cent. of new CDC investment should be made in poorer developing countries, and that 50 per cent. of new investments should be in sub-Saharan Africa and South Asia.

In order to improve CDC's performance and enhance the mobilisation of private investment in poorer developing countries, I have recently approved a reorganisation proposal on behalf of the Government.

CDC is to be separated into two corporate entities and a family of Funds.

Firstly, an investment company, which will continue to be named CDC and will be wholly-owned by the Government, will hold the existing and future cash and investment assets of CDC and its subsidiaries. This company will be responsible for ensuring that our capital is used in accordance with the investment policy. Secondly, a new independent management company, to be known as Actis, will be formed as a limited liability partnership between its management and staff (who will together have majority control) and the Government. Actis will raise and invest capital from CDC, from other development finance institutions and from private investors. It will follow responsible business principles and provide leadership and supervision for a family of Funds,

The Funds will focus on Africa, South Asia, power, and SMEs, with smaller funds for China and Malaysia. Each will be managed by a dedicated fund management subsidiary of Actis or on a joint venture basis, and will be run on a commercial basis in order to attract capital from private investors and development finance institutions. This structure of a management company and a family of Funds is an accepted norm in the international fund management industry. It will allow Actis to manage Funds with a range of objectives, from strongly developmental to fully commercial, according to the requirements of target markets and the objectives and return requirements of investors including CDC.

This dual company approach will help to establish Actis as an independent investment manager specialising in developing country markets, especially the poorer ones. It will also enable CDC, after an initial five year contract with Actis, to select its future investment manager(s) and thereby strengthen CDC's and the Government's ability to hold Actis and any other investment managers to their targets.

I have agreed to the appointment of Malcolm Williamson as Chair of the Board of the new CDC. He has an admirable track record in the banking and financial sector and I expect that he will take up this new position within the next few weeks when the two new companies are formally established. The current Chair of CDC, Lord Cairns, has agreed to become Chair of Actis. I am very pleased that two such experienced and highly qualified professionals will be leading the new companies.

I am writing to the Chair and members of the Select Committee on International Development about these changes. Later today, I will be making a public announcement about the new arrangements.

Written Ministerial Statements

Monday 12 January 2004

HOME DEPARTMENT

Investors Scheme

The Minister for Citizenship and Immigration (Beverley Hughes): The investor category of the immigration rules was introduced on 1 October 1994 for investors who wish to come to the UK to invest £1 million. This must include a £750,000 investment in UK Government bonds, or in share or loan capital in active and trading UK registered companies as set out within the immigration rules. At present the UK attracts around 26 investors to the UK a year, providing around £26 million of investment in the UK a year.

As part of the Government's approach to sensible, managed migration where it is in the UK's economic interest, we are revising this category in the light of the experience of other countries who have similar investment routes. The Government recognises that it is important to have effective opportunities for major investors and that the category could be improved to attract more high net worth migrants to come to the UK.

We have decided to allow overseas investors in future to use loaned money from an authorised financial institution (those regulated by the Financial Services Authority) where the potential investor has a personal net worth of £2 million. In Canada, similar changes were made to their investors category resulting in an increase in investors moving to Canada. The UK hopes to emulate this success.

Investors whose funds are tied up in illiquid assets and investors who prefer to invest their own money in higher interest investment products will now be able to apply to enter the UK as a result of these changes.

The revised arrangements for the investors route will be reflected in the immigration rules on 13 January 2004.

Crime Victims (Compensation and Support)

The Secretary of State for the Home Department (Mr. David Blunkett): I am today publishing a consultation paper entitled "Compensation and Support for Victims of Crime". This sets out proposals to provide a wider range of support for victims of crime and to amend the criminal injuries compensation scheme.

We are determined to deliver a better deal for victims and witnesses and to provide a wider package of support. The consultation paper proposes the establishment of a new victims fund in England and Wales to provide a broader and more effective range of services for victims and witnesses. Part of the Fund will be used for voluntary sector support to victims.

Money for the fund will come principally from making offenders pay more towards compensation and support for victims through placing a surcharge on criminal convictions and fixed penalty notices for criminal offences. It will also come from resources released from changes to the criminal injuries compensation scheme.

The paper also asks for views on how best to compensate workers who are injured in the course of duty more fairly and more efficiently.

These changes are expected to release some £25 million to provide a wider range of services for victims of crime.

We want compensation to victims to be targeted in the right way, and to come from the most appropriate sources. We believe that the proposals set out in the consultation paper should help us achieve that. They will build on the measures set out in the National Strategy for Victims and Witnesses, published last year.

We are also committed to ensuring that the criminal injuries compensation scheme is administered as efficiently and cost-effective as it possibly can be and are taking forward measures to achieve this.

We welcome comments on all the proposals and ideas set out in the consultation paper. We will consider all responses carefully. Subject to the outcome of the consultation exercise, we propose to legislate to make the changes, where necessary, through amendments to the Domestic Violence, Crime and Victims Bill currently before Parliament.

DEFENCE

Civil Contingency Reaction Forces

The Minister of State, Ministry of Defence (Mr. Adam Ingram): Civil contingency reaction forces (CCRFs) achieved full operating capability by 31 December 2003 as planned. Fourteen CCRFs are now available to support the civil authorities if they ask for military assistance.

The emergency services would lead on the response to any incident and can call on a range of support, which includes the specially trained CCRFs as required. A programme of exercises between local CCRFs and emergency services began in 2003 to test how they would work together in an emergency. CCRFs will provide general duties support consistent with the established military aid framework, and the normal Ministry of Defence command structure.

It is important to remember that CCRFs are just one of the ways in which the armed forces can provide support, and that support itself would be part of a much wider response.

Veterans Initiative Education Programme

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): I am pleased to announce the launch today of a new collaborative education programme called "Their Past Your Future" across the United Kingdom. I am grateful to my right hon. Friends the Secretaries of State for Education and Skills and for Culture, Media and Sport for their enthusiastic support for this project, all the funding for which is being provided by the national lottery new opportunities fund. The programme will enable young people at school the opportunity to research and understand the

role played by service veterans and civilian groups in ensuring our national security and survival. It will focus on the important Second World War commemorative events taking place in 2004–05, but is intended to develop into a long-term project recognising the importance of peace and reconciliation as well as conflict. A website will provide information about the programme and ways of linking up veterans and eye-witnesses with schools so that children can draw on those memories and experiences for their own understanding. There will be resources for schools to use in the citizenship and history curricula and this will also stretch out into other subject areas such as English and Geography. Opportunities for young people to participate in commemorations at home and abroad are also central to this programme. As part of this last element, there will be an initial research-based competition available with a prize of participation in the D-Day commemorations in June 2004.

This programme is a good example of collaboration on veterans-related issues across the official and voluntary sectors. It was developed as part of the veterans initiative but the Imperial War Museum will lead this project. Key partners include the Department for Education and Skills, the Confederation of British Service and Ex-Service Organisations, the Royal British Legion, the Commonwealth War Graves Commission and Service Museums as well as the Ministry of Defence.

As I said before, I am particularly pleased that the national lottery new opportunities fund has undertaken to provide funding and that the Department for Culture, Media and Sport is also closely involved in the collaborative effort that is necessary for a project of this nature. This is an excellent example of lottery money being used for a good cause.

I hope that projects of this kind will help future generations to remember and understand the experiences and sacrifices of veterans of all types and their role in our nation's history. I also urge right hon. and hon. Members to make schools and colleges in their constituencies aware of this project.

WORK AND PENSIONS

Pension Credit

The Secretary of State for Work and Pensions (Mr. Andrew Smith): I can now provide the third monthly progress report on the take-up of pension credit, which became payable on 6 October 2003.

There are now 2.12 million pensioner households (2.53 million individuals) being paid pension credit, including 60,000 new pension credit households (79,000 individuals) in December 2003. As at 31 December 2003, there are 1.44 million households (1.71 million individuals) now receiving more money as a result of the introduction of pension credit. The pension credit application line, at our four sites across the country, has received 1.84 million calls since it became operational on 7 April 2003 and 96 per cent. of calls have been answered within 30 seconds. The average Pension Credit award is £44.20 per week.

Our direct mail campaign is continuing, supported by a major advertising campaign on TV and in the press which began in September last year. We are continuing to work with organisations such as Help The Aged, Age Concern and Citizens Advice, amongst others, both at a national and local level, to encourage eligible people to take up their entitlement.

There is plenty of time for pensioners to apply for pension credit. To ensure that pensioners do not lose out, there is a twelve-month backdating provision until October of this year. This will allow applications to be backdated to October 2003, where entitlement exists, or to the date entitlement begins if this is later.

I am placing in the Library a report showing progress so far, including regional breakdowns of the number of pension credit households and numbers of pension credit awards in Parliamentary constituencies in Great Britain. Copies of the report are also available for hon. Members in the Vote Office.

I am also placing in the Library a summary of recent independent research which found high levels of customer satisfaction with the pension credit application line and with the application process overall.

TREASURY

Shipbuilders' Relief

The Economic Secretary to the Treasury (John Healey): I am today confirming the abolition, in full and with immediate effect, of shipbuilders' relief.

Council Regulation (EC) No. 1540/98 which established new rules on aid to shipbuilding requires the phasing out of state operating aid within the community. The regulation specifically refers to commercial vessels and fishing vessels for export from the community and stipulates that state operating aid be abolished with effect from 31 December 2000. HM Customs and Excise will continue to honour claims for contracts signed on or before 31 December 2000, in respect of such vessels.

Shipbuilders' relief has additionally been payable in respect of warships and other fishing vessels. However, the purpose of EC Regulation 1540/98 was to bring an end to state operating aid in the Community and in order to comply with the spirit of the EC regulation and with state aid law, these other categories of vessel must also lose their eligibility, and will do so from today. Customs will therefore honour claims for contracts signed on or before 12 January 2004 in respect of such categories of vessel not explicitly included in the text of EC regulation 1540/98.

The Government believes that the best way to support a strong shipbuilding industry in the United Kingdom is not through providing such old-style operating subsidies but by promoting international competition and through support for enterprise, research and development, science and innovation and tackling skills needs.

The DTI has provided a £3 million grant to the Link Shipbuilding Research Project being led by the Shipbuilders' and Shiprepairers' Association. Launched in June 2001, this is a five-year project with total funding

of £6 million, which combines academic studies with master classes tailored to the needs of individual yards. The scheme is making good progress, and the yards involved have attributed recent improvements in business activity and productivity to the master classes.

To support skills development across the UK economy, the Government is setting up new councils to identify and help deliver the skills that employers need. The Science, Engineering and Manufacturing Technologies (SEMTA) Sector Skills Council, which covers the shipbuilding industry, has already been established. SEMTA is preparing a sector skills agreement which will identify the skill needs, priorities and scope for collective action by the employers it represents.

To further support skills and workforce development in shipbuilding staff, the Government is prepared to invest up to an additional £500,000 to support SEMTA on the implementation of its sector skills agreement, where it applies to shipbuilding. This additional funding will be conditional on the SEMTA sector skills agreement being approved by Government, and founded on the clear commitment to collaborative action from shipbuilding employers as well as unions and other stakeholders.

Written Ministerial Statements

Tuesday 13 January 2004

NORTHERN IRELAND

Priorities and Budget 2004–06

The Parliamentary Under-Secretary of State for Northern Ireland (Mr. Ian Pearson): Following consultation on the Government's Draft Priorities and Budget for Northern Ireland which was launched on 6 October 2003, I am today setting out the Government's priorities and spending plans for Northern Ireland Departments for the next two years 2004–05 to 2005–06.

When devolution was suspended in Northern Ireland we pledged that we would work tirelessly to rebuild trust across the political parties and bring about an early restoration of devolved Government. We have, and we will continue to work towards that aim. However, for as long as direct rule continues we are determined to govern in an open and fair way to improve the delivery of public services for the people of Northern Ireland in ways that meet their needs and expectations.

The Priorities and Budget which we are publishing today builds on the progress made by the Northern Ireland Executive under devolution and continued by Northern Ireland Ministerial Team since devolution was suspended. It is our view that the policies and priorities identified in the former Executive's Draft Programme for Government in September 2002, and continued in the "Building on Progress Priorities and Plans" which I announced in December 2002, remain relevant in the context of the economic and social challenges facing Northern Ireland. For this reason we have retained the five priorities as the basis for our work over the coming year.

The continuing priorities for delivery of public services in Northern Ireland therefore are:

Growing as a community;

Working for a healthier people;

Investing in education and skills;

Securing a competitive economy; and

Developing North/South, East/West and International Relations.

We want to ensure that the four key cross cutting themes announced by the Secretary of State for Northern Ireland in his statement on "Progress and Priorities" in June last year are fully reflected in all aspects of our work. These themes are:

(i) Tackling sectarianism, community division and disadvantage;

(ii) Equality, rights and victims;

(iii) Improving service delivery; and

(iv) Reinvestment and reform.

These priorities and themes are central to the work of Government in Northern Ireland and as such they are reflected in, and permeate through, all aspects of the Priorities and Budget we are announcing today.

Sectarianism and inter community conflict act as barriers to social and economic growth and recovery and as a disincentive to investment. Building trust and confidence between and within communities, promoting equality of opportunity and justice, for all, developing social capital and tackling sectarianism are key priorities for us.

Tackling poverty and social exclusion continues to be a key priority for us. Under devolution the former Executive adopted New Targeting Social Need as its strategic approach to combating poverty and committed to evaluating the effectiveness of this approach. This review is now complete and we will soon publish and consult on proposals for future policy and strategy to combat poverty and social exclusion.

We are committed to working in partnership with the voluntary and community sector, which plays a vital role in community development and in helping to promote social inclusion, tackle disadvantage and community division. We will therefore continue to support and facilitate better partnership working with the sector.

In pursuing these priorities we will seek to work in partnership with social and economic partners and to harness actions within and across departments and agencies to achieve measurable improvements in equality, poverty and disadvantage and community cohesion. We will continue to promote respect for cultural diversity and community understanding through a broad range of policies and programmes.

We remain fully committed to driving forward the equality and human rights agenda, which was central to the work of the former Executive. Work will continue across departments and agencies to ensure that equality considerations are fully mainstreamed into policy development across Government, and that there is effective operation of the statutory duties under Section 75 of the Northern Ireland Act 1998.

In acknowledging our fundamental accountability to the people of Northern Ireland we recognise the importance of being able to demonstrate what is being achieved from the resources available to us. A particular focus of the Priorities and Budget we are announcing today is on improving the delivery of public services. We are committed to ensuring better public services for the people of Northern Ireland through improvements in the delivery of these services.

Last spring, departments published reform plans setting out priorities for reforming key services to improve the quality and delivery of services to the public. Those plans represented a useful first step, but the challenge now is not only to identify new ways of

improving service delivery through reform and modernisation but also to demonstrate how and when improvement has been achieved. For this reason we have selected a number of key targets in the Public Service Agreements which are of particular importance and which my Ministerial colleagues and I will review on a regular basis over the coming year and beyond. These key targets reflect the cross cutting themes underlying the Priorities and Budget and cover a number of key public services including Health, Education, Employment; the Environment, Roads and Transport and Economic development.

Turning specifically to the Budget, I am now in a position to confirm our plans for 2004–05 and 2005–06, building on the proposals we outlined in the Draft Budget which we launched in October last year. The key development is a clear shift of spending power from consumption to investment. This is a clear step to increase the drive for significant reforms in the way public services are delivered in Northern Ireland, so that we can do even more to promote reinvestment than we had planned up to now.

In the course of last year's national Spending Review, the Chancellor allocated significant additional resources to Northern Ireland for the period up to April 2006, and the region's share of the sustained additional provision for health in 2006–07 and 2007–08. This year the resources available to us remain essentially those allocated at that time, supplemented by local revenue and the use of the borrowing power available under the Reinvestment and Reform Initiative as well as some £15 million for Northern Ireland announced in the Chancellor's pre-Budget report in December.

As I have indicated, improving the delivery of public services is a key focus of the Budget being announced today. We will do this by ensuring that the progress of reform and modernisation is accelerated so as to provide better public services, and by continuing to take forward the significant programme of infrastructure development initiated under the Reinvestment and Reform Initiative. This means some significant downward pressure on administrative costs in departments and Non-Departmental Public Bodies.

The budget allocations we are announcing today have been determined taking account of the level of revenue necessary to secure access to borrowing under the Reinvestment and Reform Initiative. After taking account of the additional revenue from the introduction of rating of vacant property and the phasing out of industrial de-rating an increase of approximately 9 per cent. on the domestic regional rates and 3.3 per cent. in the non domestic sector is necessary. If we assume that district councils increase their domestic rates by around 6 per cent. this will mean an increase of around £35 per year—less than 70p a week—in the average domestic rates bill and will ensure the continuation of the infrastructure development necessary for our public services. The Strategic Investment Programme which I announced in February last year provided for spending on infrastructure development in excess of £2 billion. The continued access to borrowing, which has been secured through increased revenue from rates means that we can continue to maintain the momentum of the Strategic Investment Programme, the total value of which is now in excess of £2.7 billion.

The resources available to us over the next two years provide for an increase of nearly 14 per cent. on spending on services. This is a substantial allocation which will provide for sustained economic growth and development across all key public services. The budget allocations reflect our commitment to improve public services through sustained investment. Capital allocations for almost all of the key public services have been increased above the levels in the draft Budget.

In seeking to provide better service delivery a key objective of this budget is to ensure more resources are directed to front line services by reducing bureaucracy and increasing efficiency. The budget provides for a reduction in departmental administration costs for the majority of departments of around 2 per cent. for next year, with further reductions in 2005–06, compared with the draft Budget in October.

Health remains the Government's top priority in Northern Ireland. The Budget provides for a rise of more than 16 per cent. in spending on health over the next two years. This will enable investment in priority services such as renal, cancer and other critical care services and will provide for enhancement to community, primary and intermediate care services and services for the elderly and those with mental illnesses.

Spending on Education will increase by almost 11 per cent. over the Budget period. The increased resources will enable schools to build on the impressive educational achievements of pupils in Northern Ireland. It will also enable Government to address a number of pressing issues in the educational sector including the continuation of existing support measures for schools in interface areas which are being adversely affected by continuing community tension. The schools estate will benefit significantly from investment under the Strategic Investment Programme with projects in excess of £246 million being taken forward over the next two years.

The Budget provides for increased spending on Regional Development of more than 15 per cent. over the next two years. This reflects the substantial additional resources for investment in roads, water and transport infrastructure, including a number of major capital programmes, and Public Private Partnership schemes to the value of some £530 million.

In agreeing the Priorities and Budget we have sought to ensure that resources are allocated to key public services to secure continuation of the required infrastructure development, fundamental to the

effective delivery of key services such as Health, Education and Regional Development. At the same time we have sought to ensure that the planned allocations and the processes for managing them will secure the necessary improvements for better public services.

The Priorities and Budget fully reflect our determination to ensure that during this continuing period of suspension we will govern in an open and fair way to improve the delivery of public services for the people of Northern Ireland in ways that meet their needs and expectations.

I have placed copies of the "Priorities and Budget 2004–06" document in the Library.

CABINET OFFICE

Civil Service (Management Functions) Act 1992

The Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster (Mr. Douglas Alexander): Since the last report to Parliament, *Official Report*, 28 January 2003, column 34WS, new authorisations have been made to the Assets Recovery Agency and to the Chief Land Registrar, HM Land Registry from 20 February and 1 October 2003 respectively.

The authorisations were made subject to the condition that recipients comply with the provisions of the civil service management code as amended from time to time. Copies of the civil service management code are available in the Library of the House and electronically at http://www.cabinet-office.gov.uk/civilservice/managementcode/index.htm.

Written Ministerial Statements

Wednesday 14 January 2004

HEALTH

National Service Framework for Renal Services

The Secretary of State for Health (Dr. John Reid): I am today publishing "National Service Framework for Renal Services, Part One: Dialysis and Transplantation".

The national service framework (NSF) programme is a major part of our agenda to tackle health inequalities and to drive up standards across the National Health Service. Part one of this NSF covers dialysis and transplantation; and sets standards and identifies markers of good practice that will help the NHS, and its partners, to manage the demand for renal services, increase fairness of access, and improve choice and quality in dialysis and kidney transplantation.

This is an important part of our modernisation programme to improve renal dialysis and transplantation services over the next 10 years. The framework sets out five quality standards to provide a flexible, responsive service that provides patients with better access and choice. It identifies 30 markers of good practice drawn from national and international evidence. This NSF builds on the programme of modernisation set out in the NHS Plan and the national service frameworks for diabetes, coronary heart disease, older people, and children. It reflects the principles of empowering patients and frontline staff contained in the NHS Plan and "Shifting the Balance of Power", and of extending patient choice as set out in "Building on the Best: Choice, Responsiveness and Equity in the NHS" (Cm 6079).

This NSF complements "Saving Lives, Valuing Donors—A Transplant Framework for England" and supports our aim to increase the number of kidneys available for transplantation.

The five NSF standards for renal services set out a vision of a service that is equitable and integrated, and that provides people with the support they need to make individual choices and to manage their own condition.

The NSF for renal services sets out five steps for the NHS to take by 2006:

- use national data to support planning and to identify local priorities, including the needs of black and minority ethnic groups;
- continue to expand haemodialysis capacity;
- join the UK renal registry and take part in national audit;
- implement National Institute for Clinical Excellence (NICE) guidance on home haemodialysis;
- implement forthcoming NICE guidance on immunosuppressive therapy for transplantation.

In addition we will establish five modernisation programmes to support the implementation and delivery of the NSF. These programmes are to:

- re-design the renal dialysis and transplantation workforce;
- re-engineer elective dialysis access surgery;
- re-design access to hospital (patient transport);
- re-design care plans to enable partnership and choice;
- re-design the built environment.

We will continue to work with doctors, nurses, allied healthcare professionals, NHS managers and people with renal failure to develop part two of the NSF concentrating on prevention of established renal failure, primary care and care towards the end of life.

Copies of "National Service Framework for Renal Services, Part One: Dialysis and Transplantation" have been placed in the Library.

CONSTITUTIONAL AFFAIRS

British-Irish Council Summit (St. Fagans)

The Parliamentary Under-Secretary of State for Constitutional Affairs (Mr. Christopher Leslie): My right hon. Friend the Prime Minister led the UK delegation and was accompanied by the Parliamentary Under-Secretary of State at the Northern Ireland Office and my right hon. Friend the Secretary of State for Constitutional Affairs.

The Council noted the recent elections for the Northern Ireland Assembly and Executive and looked forward to the restoration of the devolved institutions in Northern Ireland, established under the agreement.

The main issue for discussion was indigenous, minority and lesser-used languages, and the Council has agreed a programme to take forward joint working in this area. I have placed a copy of the communiqué in the Libraries of the House.

HOME DEPARTMENT

Police Information Technology Organisation (PITO)

The Minister for Crime Reduction, Policing and Community Safety (Ms Hazel Blears): I am announcing today that I have commissioned an end-to-end review of the Police Information Technology Organisation (PITO) and its business processes, including its role in the provision of information technology and communications services to the police.

PITO is a non-departmental public body established as a body corporate under the Police Act of 1997. PITO was to have been reviewed under the now superseded quinquennial arrangements. We now intend that the review will address itself primarily to an examination of how PITO delivers its organisational objectives of ICT provision to the police. Within that context the review will also examine the current structure of PITO, to determine whether it is appropriate to deliver the best possible provision of ICT to the police service and the criminal justice system.

The provision of high quality information and communications technology to the police and the criminal justice system is vital, not only to manage

efficiency throughout the system, but also to ensure officers are better equipped to deliver front-line policing. PITO has a key role to play and the purpose of this review is to look at how well its current structure supports that objective and to make recommendations for changes if necessary.

I have asked Robert McFarland to lead the review. He has previous experience of public sector reviews, having served on the review of the Crown Prosecution Service in 1998, and having led the review of the Forensic Science Service in 2002–03.

Streets Ahead Initiative

The Minister for Crime Reduction, Policing and Community Safety (Ms Hazel Blears): A copy of the Government's response to Streets Ahead—a report on the street crime initiative—has been placed in the House Library.

Eight Inspectorates undertook a joint inspection of the progress of the street crime initiative between October 2002 and April 2003. The resulting report—Streets Ahead—was published in July 2003. Copies of the report are also available in the House Library.

Home Detention Curfew Scheme (HDC)

The Parliamentary Under-Secretary of State for the Home Department (Paul Goggins): I am today announcing a change to the home detention curfew scheme (HDC).

HDC has been in operation since 1999. It provides an effective and measured transition for offenders moving from custody into the community. Eligible prisoners are subject to a careful risk assessment before any decision is taken to grant them early release. Previous amendments to the scheme have balanced extensions to the period of early release with restrictions designed to maintain public confidence in the scheme as a whole. In April 2003 the then Parliamentary Under-Secretary of State announced an extension of HDC to a maximum of four and a half months. The extension was accompanied by the introduction of a presumption against release for prisoners convicted of certain serious offences—those which the Government consider cause the public particular concern.

Prisoners released under the HDC scheme serve the remainder of their custody period at home under electronic curfew, usually from 7pm to 7am. At present there are approximately 3,700 prisoners on electronic tag. The scheme is kept under constant review.

Public confidence in the scheme is essential. It is for this reason that the Home Secretary has already made it clear that offenders serving sentences for certain current offences and prisoners with any history of sexual offending must be considered unsuitable for release on HDC unless exceptional circumstances exist. This presumption against HDC will continue to apply.

A recent case has highlighted the fact that, in addition, there will be exceptional cases where an offender may be considered unsuitable for HDC even though he or she has not committed one of the offences which give rise to the presumption, if to grant HDC would undermine public confidence in the scheme. This will depend on the circumstances of the particular case.

The Home Secretary has decided that such exceptional cases should be referred to the Chief Executive of the National Offender Management Service who will take the decision whether or not to grant HDC.

TRANSPORT

Urban Bus Challenge 2003

The Parliamentary Under-Secretary of State for Transport (Mr. Tony McNulty): I am pleased to announce today the results of the 2003 urban bus challenge competition. A total of £20 million has been awarded to 25 local authorities for 40 schemes which will provide improved local transport in deprived urban areas. This announcement brings to over £53 million the sum awarded under the urban bus challenge scheme, supporting a total of 106 projects. A list of the 2003 awards has been placed in the Library of the House.

DEPUTY PRIME MINISTER

Planning and Compulsory Purchase Bill

The Minister for Housing and Planning (Keith Hill): The Government have always been clear that county councils and other authorities with strategic planning expertise would play a key part in preparing draft revisions of regional spatial strategies and in their implementation. Draft planning policy statement 11, which we published for consultation in October, sets out in some detail how the county councils and these other authorities can assist the regional planning body, including exercising functions on behalf of that body within a partnership arrangement.

The Planning and Compulsory Purchase Bill already encourages regional planning bodies to enter into arrangements with county councils and these other authorities but it does not require them to do so. The Local Government Association, the County Councils Network and others have expressed concern that, without a guarantee of involvement for county councils on the face of the Bill, their role could be marginalised under the new arrangements.

I have discussed with the Association and the County Councils Network how we might secure in legislation our policy intention for the future role of county councils without creating unnecessary bureaucracy or providing opportunities for unreasonable delay or obstruction. I am pleased to announce to the House that, as a result of these discussions, we will be tabling an amendment to the Planning and Compulsory Purchase Bill that is currently in the House of Lords. Whether or not the Bill is amended is ultimately a matter for that House to decide.

This amendment would require regional planning bodies to seek advice on the preparation, review and monitoring of the implementation of regional spatial strategies from county councils and other authorities with strategic planning expertise. They would in turn be under an obligation to provide advice, providing that their delivery of services was affected in some way. I

would also amend our draft planning policy statement 11 on regional planning to explain in more detail how this would work in practice.

The amendment would also allow regional planning bodies to enter into arrangements with counties, other authorities with strategic planning expertise and district councils to carry out functions on behalf of the regional planning body.

I am delighted that, in the light of this proposal, the Local Government Association and the County Councils Network have agreed to give their full support to making the new regional planning arrangements a success. I look forward to our promoting together a system that I believe will deliver better strategic plans for our regions in the years ahead.

Growth Areas Fund

The Parliamentary Under-Secretary of State, Office of the Deputy Prime Minister (Yvette Cooper): "*Creating sustainable communities: Making it Happen: Thames Gateway and the Growth Areas*" published in July 2003 announced outline plans for a £164 million package for the three newer growth areas of Ashford, Milton Keynes-South Midlands, and London/Stansted/Cambridge. Commitments were made then to fund individual schemes to a total value of £88 million.

I am announcing today detailed allocations for a further £63 million from the £164 million package. This includes £11.5 million allocated to environmental projects in Ashford, Milton Keynes/South Midlands and London/Stansted/Cambridge to kick start the Government's long-term vision for green spaces. They will improve landscapes, country footpaths and valuable habitats in those areas. More than £50 million has been awarded to 18 other projects to provide key transport and economic infrastructure for three growth areas.

The flagship schemes announced today include the following green developments:

A completely new country park to be created on farmland at Coton, west of Cambridge, improving the quality of the green belt and providing a green buffer between Cambridge and the village of Coton.

A £1.5 million kickstart to the new River Nene Regional Park in Northamptonshire.

Three new areas of woodland and a new cycle path through the Forest of Marston Vale, improving poor quality land and providing green buffers between the growing towns of Bedford and Milton Keynes.

Protecting and improving valuable habitats, including chalk downland at Dunstable Downs, and fenland at Wicken, north of Cambridge.

New footpaths and bridges to improve access to the Lee Valley Regional Park in north-east London.

Key improvements to infrastructure announced today include:

The sum of £9.5 million for the London-Stansted-Cambridge growth area, bringing the total to over £20 million. New projects will provide access to new housing sites on Cambridge's southern fringe, and will fund design and preparation work for the Cambridge to Huntingdon guided bus, recently awarded £65 million by the Department for Transport.

Over £35 million for the Milton Keynes South Midlands growth area. Flagship schemes include £10.6 million for the construction of a new access road and bridge to enable early delivery of 3,400 new homes in Wellingborough and £5 million for a new road at Bedford, which together with funding from the Department for Transport and English Partnerships will enable 3,450 to be provided which would not otherwise go ahead.

The sum of £2.8 million for schemes to support job creation and improve the urban environment in Corby, £1.7 million to improve the town centre in Aylesbury and £3 million to regenerate the historic Bletchley Park complex.

An additional £4.5 million to kick start the regeneration of Ashford town centre, on top of the £9 million announced in July, 2003.

A further £19.5 million has been set aside for further schemes in the London/Stansted/Cambridge corridor, details of which we will announce in April 2004.

Full details of the projects announced today will be available in the Libraries of both Houses.

FOREIGN AND COMMONWEALTH AFFAIRS

Export Licence Applications (Iraq)

The Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Mr. Bill Rammell): Following consultation with the Foreign and Commonwealth Office and the Ministry of Defence, the Department of Trade and Industry recently approved further licences to export Military List Goods to Iraq. The arms embargo against Iraq remains in place under United Nations Security Council resolution 1483 (2003), with the exception of

"arms and other related material required by the (Coalition Provisional) Authority to serve the purposes of this and other related resolutions".

Accordingly, Her Majesty's Government consider it appropriate to grant exemptions for the export of:

(i) smoke grenades which are to be used by private security firms contracted to provide close protection for employees of the Coalition Provisional Authority (CPA) and

(ii) small arms ammunition which is to be provided to the Coalition Provisional Authority for use by the Ministry of the Interior in Iraq.

These exports are consistent with the Consolidated EU and National Arms Export Licensing Criteria. Future applications will continue to be assessed on a case by case basis against the UN Embargo and Consolidated Criteria, taking into account the circumstances prevailing at the time.

Export Licence Applications (Democratic Republic of the Congo)

The Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Mr. Chris Mullin): Following consultations with this Department, the Department for International Development and the Ministry of Defence, the Department of Trade and Industry issued a licence for the export to the Democratic Republic of the Congo (DRC) of bomb disposal suits and equipment. This equipment will be used by the Royal Nepalese Army, who are part of the Ituri Brigade of the UN Mission in the DRC (MONUC).

UN Security Council Resolution (SCR) 1493 (2003), adopted on 28 July 2003, implemented an embargo on the provision of arms and any related material to all armed groups operating in the east of the country.

Operative Paragraph 21 of the SCR provides an exemption to the embargo for "supplies to MONUC . . . ".

TRADE AND INDUSTRY

Employment Regulations (2004)

The Parliamentary Under-Secretary of State for Trade and Industry (Mr. Gerry Sutcliffe): The Department of Trade and Industry is helping business and other stakeholders adapt to changes to employment law and practice. Beginning in 2004, the DTI will implement those changes, which arise from within the UK and on which the Department leads, on only two dates in each year. It will also say at the beginning of each year, through an annual statement of forthcoming employment regulations, what those changes are expected to be.

The two common commencement dates are:

April 6—the start of the tax year

October 1—when the minimum wage is revised

The harmonisation of commencement dates is intended to ensure that changes to employment policy are made in a co-ordinated fashion and to provide businesses, employee representatives and individuals with greater clarity and awareness about when changes will be made. This should assist all parties to plan for new measures and help implement them effectively. Other Government Departments are considering how they might follow the DTI's lead where appropriate.

This first annual statement details changes to employment law and practice that are due to commence in 2004 where DTI has the lead. It comprises of four Sections:

Section A details changes to employment law and practice that are due to commence on 6 April 2004

Section B details changes to employment law and practice that are due to commence on 1 October 2004

Section C details employment regulations arising from Europe where the coming into force date is different and not aligned to either common commencement date

Section D details other key activity by DTI that will impact on the employment law framework in 2004 and beyond.

Further information on employment laws and the supporting framework is available on the DTI website http://www.dti.gov.uk/er/

Section A

Regulations to commence on 6 April 2004

Section A details changes to employment law and practice that are due to commence on 6 April 2004.

6 April '04 Conduct of Employment Agencies and Employment Businesses Regulations

These regulations will apply to the private recruitment industry and will largely update the existing requirements that govern their conduct. Regulations that are out of date and unnecessary are being repealed.

Further information: www.dti.gov.uk/er/agency.htm

6 April '04 Extension of Acas Arbitration Scheme to Scotland

ACAS presently provides an arbitration service to resolve complaints concerning unfair dismissal and flexible working, as an alternative to resolution at Employment Tribunal in England and Wales. This Order will provide arbitration for complaints arising in Scotland. It only impacts on those employers and employees in Scotland who are seeking to use arbitration to resolve a complaint.

Further information: www.acas.org.uk

6 April '04 Maternity leave and paternity, and adoption leave and pay regulations

Technical amendments to fine-tune the operation of the new laws for working parents introduced in April 2003

Further information:
http://www.dti.gov.uk/workingparents/

6 April '04 Regulations to amend the National Minimum Wage to introduce new fair piece rate regime

The amendments introduce a system of fair piece rates for output workers (workers that are paid according to how many pieces they produce). Output workers will either have to be paid the minimum wage for all hours worked, or paid under a system called rated output work.

Further information: www.dti.gov.uk/er/nmw

Section B

Regulations to commence on 1 October 2004

Section B details changes to employment law and practice that are due to commence on 1 October 2004.

1 October '04 Annual revision of National Minimum Wage

The Low Pay Commission has recommended that on 1 October 2004 the National Minimum Wage should rise to £4.85 per hour for adult workers and £4.10 per hour for those aged 18–21. It is due to report on any fine-tuning of this recommendation in light of economic conditions in February 2004.

The Government have also asked the Commission to report by February 2004 on the possible introduction of a minimum wage for workers aged 16 and 17. It is possible that a new minimum wage rate may be introduced for this group in October 2004. The Government will not make any decision until the Commission has reported.

Further information: www.dti.gov.uk/er/nmw

1 October '04 Dispute Resolution Regulations

The regulations will introduce new statutory procedures to encourage the resolution of dismissal, disciplinary and grievance disputes in the workplace.

Further Information:
www.dti.gov.uk/er/disputeresolution.htm

1 OCTOBER '04 DISCIPLINE AND GRIEVANCE CODE OF PRACTICE

To take account of the new statutory procedures a revised version of the widely-used ACAS Code of Practice will take effect. The Code of Practice sets out practical advice and guidance for dealing with disciplinary and grievance matters in the workplace.

Further information: www.acas.org.uk

1 OCTOBER '04 EMPLOYMENT APPEAL TRIBUNAL (EAT) RULES

Amendment of existing EAT Rules arising out of the Employment Act 2002 relating to the handling of costs and expenses. The EAT President has also tabled proposals for changes to the appeal process. The changes will only impact on employers and employees who are resolving a dispute at the EAT.

Further information:
www.employmentappeals.gov.uk

1 OCTOBER '04 EMPLOYMENT TRIBUNAL (CONSTITUTION AND RULES OF PROCEDURE) REGULATIONS

The new regulations and rules of procedure will seek to modernise the tribunal system and render it more efficient. The regulations will cover both England and Wales, and Scotland and will impact on employees and their employers who are seeking to resolve a dispute at an employment tribunal.

Further information:
www. dti.gov.uk/er/individual/etregs_consult. htm

1 OCTOBER '04 EMPLOYMENT TRIBUNALS: NEW APPLICATION FORMS

Both applicants and respondents (typically employers) will be required to use new forms when dealing with an employment tribunal case. These new forms will require both parties to share more information earlier in the tribunal process. The changes will impact on employees and their employers who are seeking to resolve a dispute at an employment tribunal.

Further information:
www.employmenttribunals.gov.uk

1 OCTOBER '04 EQUAL PAY ACT, RULES OF PROCEDURE IN EQUAL VALUE CLAIMS

The regulations simplify and streamline the complex rules of procedure relating to equal value tribunal cases. The aim is to speed up the independent expert procedure that presently can cause delay.

Further information:
www. womenandequalityunit.gov.uk/legislation

1 OCTOBER '04 EQUAL PAY ACT, "NO REASONABLE GROUNDS" PROVISION

A short set of regulations will amend the "no reasonable grounds" provision in the Equal Pay Act, in order to clarify it.

Further information:
www.womenandequalityunit.gov.uk/legislation

1 OCTOBER '04 TUPE REGULATIONS (PROBABLE)

The revision of the Transfer of Undertakings (Protection of Employment) Regulations 1981 (TUPE) take on board amendments to the EC Acquired Rights Directive and will provide more clarity over whether or not the regulations apply to particular contracting-out or analogous situations. They will apply to all businesses in England, Wales, Scotland and Northern Ireland.

Note: It is possible that the commencement of the regulations may not take place until 2005.

Further information:
http://www.dti.gov.uk/er/individual/tupe-pl699.htm

Section C

Other regulations arising from Europe which are not aligned to either common commencement date

The commencement dates of regulations arising from Europe are not fully within the control of the DTI. Section C details employment regulations arising from Europe where it has not been possible to align the coming into force dates with either of the two common commencement dates.

AUGUST '04 WORKING TIME: JUNIOR DOCTORS

Provisions in the existing Working Time (Amendment) Regulations 2003 which cover doctors in training will commence on 1 August 2004.

Further information:
www.dti.gov.uk/er/work_time_regs/wtr2.htm#special

8 OCTOBER '04 THE EUROPEAN COMPANY STATUTE

The Regulation for the European Company Statute, which is entirely voluntary, takes direct effect in all Member States on 8 October. The Regulation is supplemented by a Directive covering the employee involvement arrangements that apply to a European Company. The regulations implementing the Statute will also implement the Directive. It is not possible to align the date with either common commencement date.

Further information:
www.dti.gov.uk/cld/condocs.htm

Section D

Other key activity

Section D highlights other key activity by DTI that will have an impact on the employment law framework in 2004 and beyond. This is not intended to be a comprehensive list. Detailed information on new and existing employment regulations and policies is available on the DTI website www.dti.gov.uk/er

2004 CONSULTATIONS IN 2004

Details of new employment policies and issues under consultation are available on the DTI website. The web page is updated regularly and contains an option to be notified by email whenever a news items is added.

Further information:
www.dti.gov.uk/er/hot_topics.htm

2004 EMPLOYMENT RELATIONS BILL 2003

A new Bill on employment relations is currently being taken forward by Parliament. The Bill is mainly concerned with collective labour law and trade union

rights. It is too early to say with certainty when any employment regulations arising from the Bill will commence which will depend on when the Bill receives Royal Assent.

Further information:
www.dti.gov.uk/er/erbill_2003.htm

ANNUALLY (1 FEBRUARY '04) ANNUAL REVISION OF EMPLOYMENT TRIBUNAL AWARD LIMITS.

The law requires the upper limits of the various employment tribunal awards and payments to vary in line with the movement of the Retail Prices Index. These annual changes take effect on 1 February each year and impact on employees and their employers who seek to resolve a dispute at an employment tribunal.

Further information:
www.dti.gov.uk/er/pay/limits-pl827.htm

ANNUALLY REVISION OF THE STANDARD RATES OF STATUTORY MATERNITY PAY (SMP), STATUTORY (4 APRIL (04)) PATERNITY PAY (SPP) AND STATUTORY ADOPTION PAY (SAP)

The standard rates of SMP, SPP and SAP are to be increased to £102.80 per week (or 90 per cent. of the person's average weekly earnings if that is less than £102.80). The changes will be included in the Department for Work and Pensions annual uprating order—the Social Security Benefits Uprating Order 2004. For 2004, the increased rates will apply from Sunday 4 April. This is because SMP payment weeks typically begin on a Sunday and follows the precedent for previous years.

Further information:
www.dti.gov.uk/workingparents

SPRING 2005 INFORMATION AND CONSULTATION DIRECTIVE

Implementation of the Information and Consultation Directive, which gives employees in larger firms new rights to information and consultation about the business and the prospects for employment. The intention is to publish a revised version of regulations and draft guidance early in 2004, and to lay the final version of the regulations in Parliament when the Employment Relations Bill has received Royal Assent in 2004. The legislation will come into force in Spring 2005.

Further information:
www.dti.gov.uk/er/consultation.htm

2005 EQUAL TREATMENT DIRECTIVE

Implementation of the amended Equal Treatment Directive, which requires equal treatment for men and women. It strengthens the principle of equal treatment contained in the 1976 Equal Treatment Directive. It takes a similar line, where appropriate, to the Employment and Race Directives under Article 13. Further consultation will take place during 2004. Legislation will come into force no later than October 2005.

Further information:
www.womenandequalityunit.gov.uk/legislation

OCTOBER 2006 AGE DISCRIMINATION LEGISLATION

Implementation of the elements of the European Discrimination Directive which will outlaw discrimination in employment on the grounds of age. The aim is to make draft regulations by end 2004, after further consultation in the Spring. To allow businesses and employee representatives sufficient time to prepare for the changes, the regulations will not be brought into force until October 2006.

Further information:
www.dti.gov.uk/er/equality/age.htm

Notes

The harmonisation of the commencement dates of employment regulations stems from a recommendation in the Better Regulation Taskforce 2002 report "Employment Regulation: Striking a balance". The Taskforce reported that a common complaint by employers was that changes to employment policy seem to happen in an uncoordinated fashion. It proposed common commencement dates for employment policy.

The Secretary of State for Trade and Industry announced on 31 March 2003 that the DTI would take the following action:

6 April (the beginning of the tax year) and 1 October (when the minimum wage is revised) will become the two set commencement dates for domestic employment regulations for which the DTI is responsible.

For European legislation there will be a three stage approach:

(i) the "coming into force" dates in 2003, which have been in the public domain for some time, will remain unchanged;

(ii) from January 2004, the DTI will plan the "coming into force" dates for Directives where deadlines have already been set, but which have not yet been implemented, on a case-by-case basis;

(iii) the DTI will aim to negotiate three-year transposition deadlines for future EU Directives so that it will have enough time to consult and still align with the two set dates.

Beginning in 2004, DTI will publish an annual statement of forthcoming employment regulations every January.

The DTI will ask central Government to foster inter-departmental co-operation with these changes.

In Budget 2003 the Chancellor said other Government Departments should adopt the same approach.

An email alert system (www.dti.gov.uk/email/subscribe.htm) is now available on the DTI website for users to subscribe. Over 3,000 people have already registered.

Written Ministerial Statements

Thursday 15 January 2004

HOME DEPARTMENT

Terrorism Act

The Secretary of State for the Home Department (Mr. David Blunkett): I am pleased to say that Lord Carlile of Berriew QC has completed the report on the operation of part VII of the Act, which will be laid before the House today.

Language Analysis Pilot

The Minister for Citizenship and Immigration (Beverley Hughes): I refer to the statement that I made on 21 October 2003 about the outcome of the pilot testing of language analysis for selected asylum applicants who claimed to be nationals of Afghanistan, Somalia and Sri Lanka. My statement quoted a figure of 21 per cent. for the detection of false Somali nationals and it is necessary to clarify this finding. As the summary of findings of the three-country language analysis pilot which was placed in the Library of the House showed 12 per cent. of those tested who claimed to be from Somalia were found to be false nationals. The figure of 21 per cent. related to the Somali applicants who were tested and were found not to be from the region or tribe they claimed. Overall, 34 per cent. of the claimed Somali applicants who were tested were either not from Somalia or not from the region or tribe that they had claimed. I apologise for any confusion that may have been caused by the presentation of the figures in my earlier statement.

Criminal Records Bureau

The Minister for Crime Reduction, Policing and Community Safety (Ms Hazel Blears): On 27 February 2003, my right hon. Friend the Home Secretary announced, *Official Report*, cols. 32WS–36WS, the Government's response to the recommendations of the independent review ream, appointed the previous September to take a fundamental look at the operation of the Criminal Records Bureau (CRB). One of their recommendations was that the Capita contract should be renegotiated to align the contract to the changed and evolving circumstances that had occurred since the original contract was signed back in August 2000. Following a thorough and constructive period of negotiation, the Criminal Records Bureau and Capita signed a revised contract on 22 December 2003.

The revised contract is a major step forward for the CRB and represents a substantial improvement over the previous terms. The revised contract now provides for:

- as a result of recent and planned efficiency savings, from October 2004, a significant reduction in the price paid to Capita for processing each disclosure application;
- the ability to achieve year-on-year operational cost reductions with further incentives to reduce operational costs over the lifetime of the contact; any such cost savings would be reflected in further price reductions;
- pricing levels matched to guaranteed volumes, agreed on a bi-annual basis;
- additional contractual performance measures including both qualitative and quantitative standards to enhance further the Disclosure service;
- far greater clarity of roles and responsibilities within the partnership;
- incentives to allow Capita to further enhance the IT and other technical systems to meet evolving process and output requirements;
- the implementation of recommendations made by independent consultants on the IT system;
- an improved agreement in respect of financial penalties for failing to meet agreed performance standards which have been revised to meet the evolving circumstances that had occurred since the original contract was signed back in August 2000;
- a one off payment to Capita of £3.6 million in final settlement of the earlier agreed contract change which provided for the introduction of the blank application form. The payment covered the additional cost of processing the blank application forms in the period February to September 2003.

Capita's part in the re-negotiation underlined their commitment to this partnership and to this important public service, it also reinforced our belief that it was preferable to continue with the partnership if at all possible. The partnership approach, with continued 'open book' accounting, and commitment shown during this re-negotiation augurs well for the future.

The CRB is now on a sound footing and through the revised contract will now have far greater flexibility to improve and develop the Disclosure service over the coming years.

DEPUTY PRIME MINISTER

Electoral Registration

The Minister for Local Government, Regional Governance and Fire (Mr. Nick Raynsford): As the Government reaffirmed in its White Paper Response—"The Government's Response to the Electoral Commission's report: The Shape of Elections to Come—A Strategic Evaluation of the 2003 Electoral Pilot Schemes" (CM5975)—we are committed to developing multi-channelled, e-enabled elections, culminating in an e-enabled general election sometime after 2006. As a further step to achieving this goal we are today, in partnership with the Department for Constitutional Affairs including the Scotland Office, launching a new project to modernise the electoral registration process in Great Britain and which will lead to the registration infrastructure that can underpin multi-channelled, e-enabled elections.

This project—CORE (Co-ordinated Online Register of Electors)—will be in two phases. The first will standardise local electronic electoral registers across the country and make them fully interoperable regardless of the local system in use. The second phase will allow authorised users to access local registration data centrally and will support a multi-channelled, e-enabled general election. The project replaces the earlier proposed LASER project to modernise the registration

process, which was to have been led by the Improvement and Development Agency. Copies of a project outline, which the Office of the Deputy Prime Minister is publishing today is available in the Libraries of both Houses.

Throughout the project we will be working closely with local government, the registration software suppliers, and other key stakeholders. Government are providing £12 million Capital Modernisation Fund resources to meet the costs of the project, and we will shortly be consulting local government and others on the details for taking forward the project, including details of the funding arrangements.

We are committed to making voting more accessible and straightforward for the electorate and to allow people more flexibility in where and when they vote. This project aims to improve the quality of electoral registers and ensure that accurate and timely registration will support the needs of the electorate and authorised users and help facilitate voting in the future. It is an essential element of our electoral modernisation agenda.

Regional and Local Referendums

The Minister for Local Government, Regional Governance and Fire (Mr. Nick Raynsford): I have today published for consultation a paper discussing the provisions to be made for the Electoral Commission to pay counting officers for the expenses they incur in connection with the regional assembly referendums and the associated local government referendums. The Office of the Deputy Prime Minister expects to hold the referendums in autumn.

Copies of the documents are available in the Libraries of the House. They will also be available on the Office of the Deputy Prime Minister's website:

http://www.odpm.gov.uk/stellent/groups/odpm_control/documents/contentservertemplate/odpm_index.hcst?n=4095&l=2

This consultation, and the two launched on 18th December concerned with the combination of the regional and local referendums and on registration and spending limits respectively, will run until 16th February. We would be very grateful for all comments on these proposals.

Planning Appeals

The Minister for Housing and Planning (Keith Hill): When the Office of the Deputy Prime Minister introduced new procedures in August 2000 to improve the handling of planning appeals we said that their operation would be monitored and reviewed. The outcome of the most recent review has suggested a need for some changes to be made.

There was concern expressed during the course of the review by a wide range of stakeholders about the perceived inequity for third parties taking part in the appeals process. It was considered anomalous that the rules do not allow third parties to comment on the appeal statements made by the main parties. In order to address this inequity and more fully involve all members of the community in the planning process, we intend to conduct a consultation on proposals to amend the rules for written representations, hearings and inquiries procedures. The proposed amendment would allow third parties that have commented at the 6-week stage a further opportunity to comment on main parties' appeal statements at the 9-week stage of an appeal.

We shall also be amending the rules to take account of drafting amendments suggested by the Joint Committee on Statutory Instruments and to correct minor technical anomalies.

TRANSPORT

Night Flying Restrictions

The Parliamentary Under-Secretary of State for Transport (Mr. Tony McNulty): On 8 April 2003, *Official Report*, cols 9–10WS, we announced publication of a consultation paper on night flying restrictions at Heathrow, Gatwick and Stansted. The present night restrictions regime for those airports applies until 31 October 2004: the consultation paper explained our proposal to defer our intended review of those night restrictions and to continue the present regime for a further year. The consultation period ended on 11 July 2003.

Briefly, the reasons for our proposal were:

(a) that it seemed wise to defer consultation on a long term night noise policy until the responses to the consultation on The future development of air transport in the United Kingdom: South East, including views about the appropriate review cycle for night restrictions, had been considered and the air transport White Paper published, thus enabling all options to be considered in the light of the wider policy context;

(b) that it seemed preferable to wait until we had the judgment of the Grand Chamber of the European Court of Human Rights on a case concerning the 1993 night restrictions regime at Heathrow before reviewing our objectives and bringing forward detailed proposals for a further night restrictions regime;

(c) that European Directive 2002/30/EC requires us to describe the environmental objective(s) for each airport concerned, before proposing and assessing what restrictions would be appropriate in order to achieve those objectives, and we considered it preferable to establish those objectives in the context of the White Paper.

The proposal to extend the current night restrictions regime for one further year indicated that all the common arrangements—the hours of the restrictions, the system for classifying aircraft and other detailed aspects of the regime—should continue unchanged until the end of the summer season 2005 (30 October 2005).

We also proposed that the movement limits and noise quotas for the winter season 2004–05 and for the summer season 2005 should remain the same as those for winter 2003–04 and summer 2004 respectively at each of the three airports.

The consultation paper also

(a) commenced consultation on some of the general principles and policies underlying the night restrictions; in particular, the present policy of having common arrangements at all three airports and the broad issues relating to the possible extension of the night quota period (currently 2330–0600);

(b) explained how we intend to take forward the results of two reviews relating to the classification of aircraft for night restrictions purposes;

(c) explained how we intend to take forward the results of a separate review of the departure noise limits and the related noise monitoring arrangements.

The consultation responses encompassed the full range of interests, including airport consultative committees, local authorities and parish councils, environmental and other groups and individuals from around all three airports, plus airlines and aviation bodies. The decision that I am announcing today relates only to the arrangements for 2004–05.

After careful consideration of all relevant points made in the responses, we have decided to extend the night restrictions regime at all three airports as proposed. The reasons for doing so remain largely as set out in the consultation paper and summarised in this statement, and were accepted by many of those responding to the consultation. We welcomed the judgment of the Grand Chamber of the European Court of Human Rights, received three days before the consultation period closed. That judgment clears the way for our forthcoming review of policy on night flights at Heathrow, Gatwick and Stansted.

There was a wide but not universal acceptance among those who responded specifically on the proposal to extend the current regime for a further year, that this was appropriate, although a substantial number of local authorities and local groups from around all three airports indicated that they want a reduction in night flights, or a complete ban, in the longer term. There was some comment on the size of the movement limits and noise quotas for 2004–05, especially from those commenting on the findings of the main technical review about the classification of aircraft for night restrictions purposes.

The issue that has attracted attention from this review is the finding that the version of the Boeing 747 most commonly operating at Heathrow during the restricted hours was noisier in normal operations than its certificated noise levels by the noise certification procedures of the International Civil Aviation Organisation (ICAO). There are many reasons why monitored noise levels will not match certificated noise levels, particularly because certification testing is carried out under strictly controlled meteorological and acoustical conditions and using defined flight path procedures which may differ from those used in-service. However, we have drawn the results of the work to the attention of international experts currently examining the ICAO noise certification requirements to ensure that they reflect modern operating practices and conditions.

Some consultees suggested or implied there should be an immediate substantial cut in the noise quotas if these aircraft were not reclassified. The Government does not accept immediate action would be appropriate. This is a matter which the Government believes should be considered in the context of the new arrangements and requirements which flow from Directive 2002/30/EC (now transposed into domestic law: SI 2003 No. 1742) when the wide ranging review takes place.

At Gatwick and Stansted the mix of aircraft operating at night is different, as are issues relating to the size of the noise quotas. The 1999 decision included small progressions (downwards at Gatwick, upwards at Stansted) in the noise quotas over the five years of the night restrictions regime. In the consultation paper we indicated that we had considered whether to continue these progressions for a further year but that, as the progressions were small and the services operating at night were in a considerable state of flux, we believed it better to have no change between the last year of that scheme and a one year extension. None of those who responded to the consultation paper suggested an increase in the quotas for Stansted but at Gatwick some local consultees suggested cutting the movements limits and noise quotas which are currently under used, particularly in winter. Given the difficulty in the current consultation round of establishing whether and to what extent any cut might be appropriate, the Government remains of the view that the status quo should be maintained pending a full consideration of all the issues.

We have therefore decided that, at each of the three airports, the movement limits and noise quotas for the winter season 2004–05 and the summer season 2005 shall be the same as those for winter 2003–04 and summer 2004 respectively. These are:

WINTER SEASON 2004–05

	Movements Limit	Noise Quota
Heathrow	2550	4140
Gatwick	5250	6640
Stansted	5000	3550

SUMMER SEASON 2005

	Movements Limit	Noise Quota
Heathrow	3250	5610
Gatwick	11200	9000
Stansted	7000	4950

This decision maintains the balance struck between the conflicting interests in 10 June 1999, *Official Report*, cols 378–79. We are satisfied that this will remain the appropriate balance for 2004–05 whilst we carry out the further review of night flying restrictions at Heathrow, Gatwick and Stansted.

Copies of all the responses, except where the author has requested confidentiality, are available for six months for inspection by prior appointment at the DfT Library and Information Centre, Ashdown House, 123 Victoria Street, London SW1E 6DE.

I am placing in the House Library a summary of the responses, including points relating to the general principles and policies underlying the night restrictions and to the ways in which we intend to take forward the results of the reviews relating to the classification of aircraft for night restrictions purposes and of the separate review of the departure noise limits and the related noise monitoring arrangements. The responses on these other matters will be taken into account in developing proposals for the next night restrictions regime for consultation in due course. The summary of responses is also available on the Department's website: www.aviation.dft.gov.uk

DEFENCE

Gurkha MAS Policy

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): On 4 June 2003, it was announced that the Ministry of Defence would

undertake a review of Gurkha Married Accompanied Service (MAS) policy. The aim of the Review was to consider whether the current arrangements were satisfactory and what changes, if any, would be necessary. In examining possible changes the Review team are also considering whether any of the special circumstances of Gurkha employment justify MAS restrictions and, if so, to what extent.

The Review team is studying a number of options, the detailed work of which is not yet complete. I had originally hoped to announce the outcome of the review to the House by the end of 2003. I anticipate being in a position to make a full and substantive announcement on the outcome of the review to the House later in the year.

Armed Forces Pensions and Compensation

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): The House of Commons Defence Committee published its report on armed forces pensions and compensation on 16 December 2003 (HC 96). The Government's response is published today in a Command Paper (Cm 6109), ahead of the second reading debate on the Armed Forces (Pensions and Compensation) Bill on Tuesday 20 January. Copies are available in the Vote Office from 12 o'clock.

Normandy Landings (Commemoration)

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): I am pleased to announce that Her Majesty The Queen and my right hon. Friend the Prime Minister have accepted invitations from the President of France to attend commemorations of the 60th anniversary of the Normandy Landings in France in June this year. Further information about the programme, including attendance by other members of The Royal Family and representatives of the Government, will be issued in due course.

TREASURY

Museums

The Chief Secretary to the Treasury (Mr. Paul Boateng): The "*Securing the Best for our Museums: Private Giving and Government Support*" report has been published today and copies are available in the Libraries of both Houses and in the Vote Office. Copies will also be sent to the Scottish Parliament and the National Assembly for Wales.

I appointed Sir Nicholas Goodison to lead a review of the effectiveness and efficiency of support to regional and national museums and galleries to help them acquire works of art and culture of distinction that might otherwise be sold abroad, and to make those items accessible to the public. This review was announced by the Chancellor of the Exchequer in Budget 2003. The review is now complete and the "*Securing the Best for Our Museums: Private Giving and Government Support*" report contains Sir Nicholas Goodison's findings and recommendations.

The Government will carefully consider the recommendations ahead of Budget 2004 and as part of the 2004 Spending Review.

Tax Avoidance

The Paymaster General (Dawn Primarolo): Legislation to prevent tax avoidance using transactions in strips of Government bonds is to be included in Finance Bill 2004. The legislation applies to holdings of such strips where the profits or losses are chargeable to income tax and addresses the artificial creation of losses that can be set against other income. The changes will have effect from today.

A copy of today's Inland Revenue News Release giving the relevant background to this measure is being deposited in the Libraries of both Houses and is also accessible on the Inland Revenue's website: http://www.inlandrevenue.gov.uk/

TRADE AND INDUSTRY

Oil and Gas Production

The Minister for Energy, E-Commerce and Postal Services (Mr. Stephen Timms): I am pleased to inform the House that I am today offering ATP Oil and Gas (UK) Ltd. an oil and gas production licence on seaward block 2/15 in the northern North Sea.

The successful applicant will have a fixed period in which to decide whether or not to accept the offers.

The DTI undertook an environmental screening assessment to ensure compliance with environmental legislation, and concluded that

> "the screening had not identified any environmental concern that would prejudice the offering of block 2/15 for licence".

Written Ministerial Statements

Monday 19 January 2004

HOME DEPARTMENT

Overseas Surveillance Officers

The Parliamentary Under-Secretary of State for the Home Department (Caroline Flint): Article 40 of the Schengen Convention sets out the basis for cross border surveillance by police officers from member states. Subject to a Justice and Home Affairs (JHA) Council decision authorising the United Kingdom to begin applying the relevant provisions of the Schengen Acquis, we have decided that in strictly pre-planned operations, and on a basis of full reciprocity, overseas surveillance officers should be able to travel armed by sea or rail to the UK, but not by air.

Foreign Officers would not be able to carry their firearms beyond the confines of the port or rail station at which they arrive. The purpose of this agreement is to allow for continuing, without putting officers at additional risk, the surveillance of a dangerous individual leaving the UK or of one coming to the UK who will then be followed from the port by armed UK surveillance teams.

Each foreign officer will require authority from the Home Secretary to carry firearms under section 5 of the Firearms Act 1968, and an import licence. Before an authorisation is given to allow the carriage of firearms, the operation will be risk assessed by a UK police officer of at least Assistant Chief Constable rank.

Foreign officers on urgent operations under Article 40(2) of the Schengen Convention will not be able to carry firearms in any circumstances.

HEALTH

NHS Foundation Trusts

The Minister of State, Department of Health (Mr. John Hutton): The Secretary of State has decided to support the applications of 24 NHS trusts in becoming NHS foundation trusts.

The applications will now be sent to the office of the independent regulator. The final decision on whether a trust can become an NHS foundation trust rests with the independent regulator.

The NHS trusts concerned are:

Addenbrooke's NHS Trust
Basildon & Thurrock General Hospitals NHS Trust
Bradford Hospitals NHS Trust
Calderdale & Huddersfield NHS Trust
City Hospitals Sunderland NHS Trust
Countess Of Chester Hospital NHS Trust
Doncaster & Bassetlaw Hospitals NHS Trust
Gloucestershire Hospitals NHS Trust
Guy's & St Thomas Hospital NHS Trust
Homerton University Hospital NHS Trust
King's College Hospital NHS Trust
Moorfields Eye Hospital NHS Trust
North Tees & Hartlepool NHS Trust
Papworth Hospital NHS Trust
Peterborough Hospitals NHS Trust
Rotherham General Hospitals NHS Trust
Royal Devon & Exeter Health Care NHS Trust
Sheffield Teaching Hospitals NHS Trust
Southern Derbyshire Acute Hospital Services NHS Trust
Stockport NHS Trust
The Queen Victoria Hospital NHS Trust
The Royal Marsden NHS Trust
University College London Hospitals NHS Trust
University Hospital Birmingham NHS Trust

CABINET OFFICE

Government Communications Review

The Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster (Mr. Douglas Alexander): The full report of the independent review of Government communications, chaired by Bob Phillis, has been published today. The Minister for the Cabinet Office is grateful to the review for its work and consideration of these issues.

The Report builds on the Review Team's interim report published in the summer. The Government accepted the interim report's recommendations. Central to the process is the appointment of a new Permanent Secretary, Government Communications, which the Cabinet Office is currently in the process of recruiting.

Departments have the responsibility to devise and implement communications operations and strategies appropriate to their needs. Bearing this in mind, the new Permanent Secretary will take forward, in consultation with Departments, recommendations relating to a redefinition of the overall role of Government communications, the structures necessary to deliver this activity and the improved training and development of all communications specialists.

The Permanent Secretary will also consider whether the existing rules and guidance are fit for purpose and whether any additional clarification is required. We note the Committee's conclusion on ministerial involvement in the selection processes for communications professionals which will be taken forward in discussions already underway with the Civil Service Commissioners.

The Government also agree that it must communicate with the public in the widest possible way, including greater use of regional briefings and electronic communications. It will look at how Departments' websites could be better coordinated and structured to encourage greater public participation in the development and communication of Government policies.

The Government remain committed to the principle, reflected in the Ministerial Code, that when the House is sitting announcements of Government policy should, in the first instance, be made in Parliament. It agrees that

more Ministers should host lobby briefings and that these should be open and televised. The Government will now enter into discussions with the relevant public authorities, including Parliament, and the Parliamentary Lobby, on how best to pursue these proposals.

The Government also note the review's recommendations on the implementation of the Freedom of Information Act. A great deal of work is going on to ensure that departments are fully prepared for the legislation which comes into force on 1 January 2005 and the Government are fully committed to ensuring full and effective implementation of the Act across the whole of the public sector. The review's recommendations will be taken into account as part of this implementation process.

On the use of statistics, the Government welcome the review's acknowledgement that some important steps have been taken to reinforce the independence of the statistical service. The Government note the review's recommendations on access to pre-release national statistics. Under the National Statistics Code of Practice and its associated protocol on release practices, issued in September 2002, there are already long-established and effective procedures in place to restrict early access to certain data to a small number of Ministers and officials, so that they are able to provide an authoritative response when questions arise at the time of release. There are no plans to change this.

FOREIGN AND COMMONWEALTH AFFAIRS

Falkland Islands

The Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Mr. Bill Rammell): Air links between the Falkland Islands and the South American mainland are the subject of two understandings reached between HMG and the Argentine Government, under a sovereignty umbrella (which protects both sides' positions on the question of sovereignty). Following the UK/Argentine Joint Statement of July 1999, LAN Chile resumed their weekly flight between Punta Arenas (in southern Chile) and the Falkland Islands. Once a month this flight makes a stopover in each direction in Rio Gallegos (in southern Argentina). In February 2001 a further understanding was signed to permit private flights. Under these arrangements aircraft, including Argentine aircraft, can undertake private flights between Argentina and the Falkland Islands. These arrangements continue in place and are unaffected by developments set out below.

In recent years there have also been a number of charter flights to the Falkland Islands, mostly originating in Chile and servicing tourist cruise ships. These charter flights are not covered by either of the two understandings described above. They require permission to use Argentine airspace between Chile and the Falkland Islands. Until this season Argentina has not raised any difficulties with these charter flight authorisations, though it had periodically indicated that it would wish to review the situation at some point.

On 3 November 2003, without warning, Argentina announced the suspension of permission for charter flights to use Argentine airspace and proposed that a scheduled air service between Argentina and the Falkland Islands by an Argentine carrier be put in place. The weekly LAN Chile scheduled flight was not affected by this announcement.

We made clear to Argentina that while we were prepared to enter into discussions about ways of building on existing arrangements for air links between the Falkland Islands and the South American mainland, any future arrangements must be acceptable to the Falkland Islanders, and that the Falkland Islanders were not prepared to accept a scheduled service by an Argentine carrier. We also made clear that such discussions needed to take place against the backdrop of charter flight authorisations proceeding normally.

Regrettably, despite considerable efforts it has not been possible to reach agreement with the Argentine Government on opening talks on air services on acceptable terms. This means that there is little prospect of charter flights to the Falkland Islands being authorised to overfly Argentine airspace for the rest of this tourist season. Unless such an understanding can be reached with the Argentine Government, it seems likely that charters for the next tourist season will also be affected. Falkland Island Councillors have been kept fully informed of our exchanges with the Argentine Government.

The cancellation of the charter flights will obviously have some negative impact on the tourist industry in the Falkland Islands. However, Falkland Islanders believe that there are principles at stake here which outweigh short term economic costs. We respect and agree with that view. Argentina is fully aware of our position and we hope that an acceptable arrangement can be reached in the interests of all parties to resolve the charter flight issue.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Emission Trading Scheme

The Minister for the Environment (Mr. Elliot Morley): I have today issued a consultation paper "*EU Emissions Trading Scheme—UK Draft National Allocation Plan for 2005 to 2007*", which invites views from individuals and organisations on the Government's proposals for allocating allowances to participants in the first phase of the EU scheme and on a number of operational issues.

The EU emissions trading scheme will start in 2005 and will establish the world's largest ever market in emissions allowances. The scheme is the most significant measure in the EU climate change programme. Its objective is to reduce, in the most cost effective way, EU emissions of greenhouse gases that contribute to the problems associated with global warming. The Government stated in last year's Energy White Paper that the scheme will be a central plank of its future emissions reductions policies. The scheme will regulate the carbon dioxide emissions of up to 10,000 installations across the EU including those in the power

generation, mineral oil, iron and steel, mineral and pulp and paper sectors. Approximately 1,500 UK installations are expected to be within the scope of the scheme which are responsible for about 50 per cent. of total UK emissions of carbon dioxide.

The Government is firmly committed to its national goal of moving towards a 20 per cent. reduction of carbon dioxide by 2010. The initial allocation of allowances for the first phase of the scheme is consistent with an overall reduction in UK carbon dioxide emissions of 16.3 per cent. The overall level of allowances to be allocated for the second phase, which runs from 2008–2012, will be strengthened to be consistent with the trading sector's contribution to achieving the 20 per cent. goal.

The consultation documents explain the decisions that the Government has taken in the light of responses to earlier consultation. In particular it explains how the total quantity of allowances has been calculated, how these allowances are to be distributed between each of the industry sectors covered by the scheme in 2005–2007, how sector totals are to be distributed between individual installations and the proportion of allowances to be allocated each year. They also set out proposals for allocating allowances to new installations and for dealing with plants which close, including making use of the auctioning provision to distribute any unused allowances set aside for new entrants.

Each EU member state is required to draw up a draft national allocation plan for submissions to the European Commission by the end of March 2004. Consultation will run until Friday 12 March. The Government will be holding a consultation seminar and meetings with individual sectors of industry during the consultation period to discuss the proposals. Following this the draft national allocation plan will be refined to take account of comments made during consultation before it is submitted to the European Commission.

Written Ministerial Statements

Tuesday 20 January 2004

DEPUTY PRIME MINISTER

"The Planning Service: Costs and Fees"

The Minister for Housing and Planning (Keith Hill): The Office of the Deputy Prime Minister have today published "*The Planning Service: Costs and Fees*". This is a report prepared by Arup Economics and Planning into the way in which the powers in clause 51 of the Planning and Compulsory Purchase Bill might be used. Using the report, we are considering the nature and scope of any fees and charges that might be prescribed by the Secretary of State under that clause. The objective is to ensure the proper resourcing of planning services so that they can deliver for business and communities. We will bring forward full proposals for public consultation in the summer.

Copies of the report are available in the Libraries of both Houses and on the website of The Office of the Deputy Prime Minister at

http://www.odpm.gov.uk/stellent/groups/odpm_control/documents/contentservertemplate/odpm_index.hcst?n=2445&l=2.

TRANSPORT

King's Cross Underground Station

The Minister of State, Department for Transport (Dr. Kim Howells): I have asked for a review of the final phase of the planned development of the London Underground station at King's Cross.

The Department is funding works being undertaken by London Underground to deliver a significantly enhanced Underground station at King's Cross, in order to assist dispersal of passengers from the Channel Tunnel Rail Link and in part to meet the recommendations of the Fennell Inquiry into the 1987 King's Cross fire.

The works under way to improve the existing Underground ticket hall and to construct a new Western Ticket Hall are not affected by the review. They will deliver a significant increase in capacity and meet the Fennell recommendations, and are on course to be delivered by the beginning of 2007.

Progress with the final phase of the works, involving construction of a new Northern Ticket Hall, is at a much less advanced stage. The cost has roundly doubled since 1999, to something of the order of £250 million. I have concluded that the case for proceeding with these works should be reviewed before further significant expenditure is undertaken.

I have therefore asked Mott Parsons Gibb, the Department's technical advisers for the CTRL project, to undertake a thorough review of the case for the Northern Ticket Hall works, in consultation with key stakeholders who might be affected by a change in the current plans, and to report back to me by the summer on the options and their practical, operational, and financial implications.

HOME DEPARTMENT

Anti-Terrorism Crime and Security Act 2001

The Secretary of State for the Home Department (Mr. David Blunkett): I am today laying before Parliament a draft Order to continue the powers of detention in the Anti-terrorism Crime and Security Act 2001 (ATCS) for a further twelve months. It will be debated, by both Houses of Parliament, by early March.

The public emergency which necessitated the introduction of these powers—and which arises principally as a result of the threat of international terrorism posed by foreign nationals—still exists. Where terrorism is concerned, our paramount responsibility is to ensure public safety and national security. Where a foreign national is suspected of terrorism of the sort which led to September 11 2001 and is considered to be a threat to national security but cannot currently be removed—and for whom a criminal prosecution is not an option—we believe that it is necessary and proportionate to provide for extended detention, pending removal. The person would be free to leave the United Kingdom if he wished to do so.

The draft Anti-terrorism Crime and Security Act 2001 (Continuance in force of sections 21–23) Order 2003 provides for the continuation of the immigration powers under Part 4 of the 2001 Act to certify, and to detain pending removal, suspected international terrorists, subject to safeguards. The continuation is from 14 March 2004 until 13 March 2005.

To date, 16 people have been certified and detained under the powers contained in Part 4 of the ATCS Act. Two of these have chosen to leave the United Kingdom as the detainees are free to do at any time. One further individual has been certified but is currently detained under other powers.

My decisions to certify and detain these individuals were made on the basis of detailed and compelling evidence. All those certified have appealed to the Special Immigration Appeals Commission (SIAC) including the two who left the United Kingdom. SIAC have rejected the appeals against certification made by the first ten ATCS detainees which were heard between May and July last year. The determination for a further two cases that have been heard have not yet been handed down.

The Special Immigration Appeals Commission is a superior court of record. It has the power to overturn the certificates which I have issued in respect of these detained.

The detention powers in Part 4 of the Anti-terrorism Crime and Security Act are a cornerstone of the UK's anti-terrorism measures. It is essential that we are able to take firm, swift action against those who threaten the safety of this country. We will be looking carefully at the conclusions and recommendations of the report of Lord Newton and his Committee, which I laid before the House on 18 December 2003, together with the reports of Lord Carlile, the second of which will be laid before

the House shortly. We will be reporting to the House when we come to debate Lord Newton's report and the renewal powers, and I look forward to a full and vigorous debate. Nonetheless, we continue to believe that the part 4 powers are a necessary and proportionate response to the current threat.

CABINET OFFICE

Code of Practice on Consultation

The Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster (Mr. Douglas Alexander): Today I am launching a revised Code of Practice on Consultation. It will come into force on 1 April 2004 and replaces the Code of Practice on Written Consultation published in November 2000.

This revised Code will help in the Government's continued drive to improve consultation. It is shorter and clearer; it strengthens the commitment to providing respondents with feedback and to following better regulation best practice in developing policy options.

The Code is supported by web-based guidance available at www.cabinet-office.gov.uk/regulation/consultation-guidance. I encourage all Departments and relevant public bodies to use it effectively.

Copies of the Code have been placed in the Libraries of the House.

Written Ministerial Statements

Wednesday 21 January 2004

HOME DEPARTMENT

UK Passports (Birth Certificates)

The Minister for Citizenship and Immigration (Beverley Hughes): I have decided that the shortened form of birth certificate, which omits names of parents, will no longer be acceptable evidence of nationality for the purpose of applying for a British passport in the United Kingdom. This will help with our aims of combating identity fraud and in ensuring the integrity of the British passport. It will also bring practice in the UK into line with that at British consular posts overseas, the Channel Islands and Isle of Man.

Since the British Nationality Act 1981 came into force on 1 January 1983, British nationality has not automatically been acquired by the fact of birth in the UK or a British Overseas Territory. The Act provides that a child born in the UK will be a British citizen if one of the parents is a British citizen or is settled in the UK. Equivalent provisions apply to the overseas territories. A short birth certificate, which establishes only the place and date of birth, is therefore not sufficient to establish eligibility for a passport. The practice introduced on 1 January 1983 was to accept the passport applicant's own declaration on the application form as to the identity and nationality of the parents upon whom the child's British nationality depended. This was a satisfactory interim measure, but is no longer appropriate over 20 years after the change in the law.

The new requirement will introduce an important safeguard against false claims of British nationality and will make identity fraud more difficult. I am aware that although over 75 per cent. of new parents obtain a full standard certificate when registering a birth, many people only have a short birth certificate and will therefore face a small additional expense in obtaining a passport. However it is in everyone's interest that British passports are issued only on production of adequate evidence of British nationality. The change, which will normally affect only those applying for their first passport, will be implemented on 4 May 2004.

TREASURY

Commemorative Crown

The Chancellor of the Exchequer (Mr. Gordon Brown): Her Majesty the Queen has been graciously pleased to approve my recommendation that a commemorative crown should be issued in 2004 to mark the 100th anniversary of the entente cordiale between Britain and France.

Collector versions of the coin will be released at a premium above face value and, during the course of the year, the coin will also become available at its face value of five pounds from banks and post offices.

TRADE AND INDUSTRY

Gas Desulphurisation Plant

The Minister for Energy, E-Commerce and Postal Services (Mr. Stephen Timms): I have today granted consent under Section 36 of the Electricity Act 1989 to Rugeley Power Limited for the construction of flue gas desulphurisation plant at the 1,000 MW coal-fired power station at Rugeley in Staffordshire. Planning permission for the plant has also been deemed to be granted, subject to 47 planning conditions agreed with the Staffordshire County Council, the Cannock Chase District Council and the Lichfield District Council.

Copies of the press notice and decision letter are being placed in the Library of the House.

HEALTH

Human Fertilisation and Embryology Act

The Parliamentary Under-Secretary of State for Health (Miss Melanie Johnson): I am pleased to announce that, after a two year period of consultation and consideration, we propose to seek Parliament's approval for regulations, under the Human Fertilisation and Embryology Act 1990, to enable people conceived by donated sperm, eggs or embryos in future to know the identity of their donor.

We propose that donors who donate from 1 April 2005 will do so on the understanding that any child born as a result of their donation will be able to obtain from the Human Fertilisation and Embryology Authority identifying details about them when the child reaches the age of 18. This will not apply to people who have donated before that time. It means that the first donor-conceived people to receive identifying information about their donors would do so in 2023.

I must stress that removal of anonymity will not lead to the donor having any responsibility, parental, financial or otherwise, for the child.

In addition, as we announced on 28 January 2003, the regulations will provide for non-identifying information about donors to be given, on request, to donor-conceived people who were born after the Human Fertilisation and Embryology Authority's register came into effect in 1991. This will be available to 18 year olds in 2010. The non-identifying information will be standardised so that, from 2022, all donor-conceived people who request it will be able to receive the same categories of information.

The decision that it is right to remove donor anonymity has been informed by a public consultation on the provision of information to donor-conceived people; a programme of work with clinics and donors; consideration of the position in other countries; and a comparison with the information available to adopted people. We have also listened to the voices of donor-conceived people. Our conclusion is that the interests of the child are paramount, and that the position of donor-conceived people should be aligned more closely with that of adopted people, with access to identifying information about their donor when they reach age 18.

We intend to use the opportunity of the removal of anonymity to encourage a change in the culture of sperm, egg and embryo donation. By bringing more openness to it, we want to see wider recognition of the value and importance of such donations, and greater public appreciation of the dramatic difference that the donors can make to lives and families. To support the transition to identifiable donors we will raise consciousness of the need for donors and the contribution they make to our society through a campaign for public awareness.

The regulations will be laid before Parliament as soon as possible.

We have also considered developments that are taking place more widely in the assisted reproduction area. The Human Fertilisation and Embryology Act has been in force since 1991. It was landmark legislation at the time, setting up the Human Fertilisation and Embryology Authority and introducing the first regulatory regime in the world specifically for the newly developing field of assisted reproduction. Since then, over 73,000 babies have been born in the UK as a result of treatment procedures regulated under the Act.

Bearing in mind the speed at which new technologies in the fertility field develop, and the complex ethical issues often associated with them, the Act has stood the test of time remarkably well.

However, any cutting-edge legislation, no matter how successful, at some stage needs to be reconsidered and any necessary readjustments made to ensure that it continues to be effective. The Human Fertilisation and Embryology Act is no exception. Developments in new technologies, changes in public perception of ethical issues, and the effect of international developments all have an impact and need to be considered.

I have concluded, therefore, that it is time to review the Human Fertilisation and Embryology Act 1990. The review will begin in 2004 and will include a full public consultation exercise in 2005. The review will be carried out by the Department, and will include taking account of the work of the Science and Technology Committee, which is considering human reproductive technologies and the law and plans to report later this year. We welcome the work of the Committee.

The review will be wide-ranging, but will exclude certain issues such as embryo research, stem cells and cloning which have been extensively and conclusively debated in Parliament in recent years. The issues that we envisage the review addressing include the range of procedures covered by the Act, checking the safety and efficacy of techniques, ethical considerations and effective regulation.

The Act has been very successful landmark legislation. We believe that it is right to review it to ensure that it continues to be effective in the 21st century.

TRANSPORT

Rural Bus Challenge

The Parliamentary Under-Secretary of State for Transport (Mr. Tony McNulty): I am pleased to announce today the results of the 2003 rural bus challenge competition. A total of £20 million pounds has been awarded to 33 local authorities for 42 schemes which will provide improved local transport in rural areas.

This announcement brings to £110 million the sum awarded under the rural bus challenge scheme, supporting a total of 300 projects. A list of the 2003 awards will be deposited in the Library of the House.

DEPUTY PRIME MINISTER

Sound Insulation

The Parliamentary Under-Secretary of State, Office of the Deputy Prime Minister (Phil Hope): I have decided to allow robust details, as developed by the House Builders Federation (HBF), to be used as an alternative to pre-completion testing to demonstrate compliance with Part E of the Building Regulations. This applies only to the sound insulation between new houses and flats. The HBF's proposals have been subjected to public consultation with a generally favourable response. They have also been considered by the Building Regulations Advisory Committee (BRAC) who have recommended acceptance, subject to a monitoring procedure, and a review of the situation in three years. I anticipate that the option to use robust details will come into force on 1 July 2004, and I propose to publish amendment regulations before then.

Future development, maintenance and monitoring of the robust details will be carried out by an independent company set up for the purpose called Robust Details Ltd. This company will be run by a management board whose members represent industry (building and product manufacturers), building control, and consumer interests. The Office of the Deputy Prime Minister will be represented by an Observer.

I am confident that use of robust details will result in significantly improved standards of sound insulation, while imposing much less of a burden on industry than pre-completion testing.

FOREIGN AND COMMONWEALTH AFFAIRS

Wassenaar Arrangement

The Minister for Europe (Mr. Denis MacShane): Hon. Members will wish to be aware of the outcome of the plenary of the Wassenaar arrangement on export controls for conventional arms and dual-use goods and technologies which took place in Vienna on 10–12 December 2003.

The arrangement is the only multilateral export control forum dealing with conventional arms. Its purpose is to prevent de-stabilising accumulations of conventional weapons in sensitive parts of the world by promoting transparency and responsibility in transfers of arms and dual-use goods. The Government believe the arrangement has an important role to play in improving arms exporting practices amongst its current participating states, and can help to spread good practice to other countries.

The plenary meeting concluded a year-long review of the arrangement, which has agreed a number of important changes to its operations, including:

enhanced controls on conventional arms with special emphasis on strengthening capabilities of participating states to combat the threat of terrorism;

increased transparency with the addition of mandatory reporting for all small arms and light weapons (SALW) exports;

strict controls on man-portable air defence systems (MANPADS) transfers;

guidelines on arms brokering;

and adopting end-use oriented controls encouraging member Governments to impose export controls on certain unlisted items when necessary to support the United Nations arms embargoes.

The question of admission of new participating states was discussed, although no decisions in this area were taken at the plenary. The plenary also agreed on the importance of work to explain the arrangement's merits to non-participating states.

A ministerial statement was agreed in the name of Ministers from all Wassenaar arrangement states and released at the end of the plenary. The purpose of this statement was to reaffirm the importance participating states attach to the Wassenaar arrangement as a forum for the promotion of peace and stability, as well as to raise the arrangement's public profile. It reads as follows:

"Ministers of the thirty-three participating States in the Wassenaar arrangement on export controls for conventional arms and dual-use goods and technologies are pleased that the quadrennial assessment of the functioning of the Arrangement has concluded with several important agreements to advance further the Wassenaar arrangement's non-proliferation and international security and stability goals.

We wish to affirm the importance of the Wassenaar arrangement as one of the pillars of multilateral efforts towards peace and stability. We believe agreements reached in the context of the Wassenaar arrangement can play a critical role in preventing the diversion of legal arms transfers and in promoting responsible national export control policies for conventional arms and dual-use goods and technologies. In this context, we strongly endorse multilateral efforts to develop strict controls on the transfer of man-portable air defence systems (MANPADS) that continue to pose one of the most serious threats to the safety of international civil aviation.

As we look at ahead and consider the future threats to international security and stability, we are convinced that countries committed to a stable international order must work together closely to prevent conventional weapons and sensitive dual-use technologies from being used to perpetrate terrorist acts. Terrorists must be stopped from diverting weapons from legitimate channels. Building upon the momentum developed during the 2003 assessment, we believe that continued collaboration between the participating states of the Wassenaar arrangement will make a significant contribution to global security"

The Government will continue to work for further changes to the arrangement so that it becomes an even more effective forum for the promotion of responsible and transparent exporting practices for strategic goods.

CONSTITUTIONAL AFFAIRS

Postal Elections (Pilot Regions)

The Parliamentary Under-Secretary of State for Constitutional Affairs (Mr. Christopher Leslie): In December it was announced that, subject to the European Parliamentary and Local Elections Pilot Bill achieving Royal Assent, the north-east and east midlands regions would pilot all postal voting at the combined European Parliamentary and local elections in June 2004. I can today announce it is our intention that two further regions will also hold all-postal pilots. These regions will be Yorkshire and the Humber and the north-west.

I am pleased to be able to announce these further regions so that the important work of preparing for the pilot elections can begin in earnest. We have identified Yorkshire and the Humber and the north-west after discussion with electoral administrators and look forward to those regions, alongside the north-east and east midlands, helping us to progress our electoral modernisation agenda.

DEFENCE

UK Gulf Veterans' Mortality Data

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): As part of the Government's commitment to investigate Gulf veterans' illnesses openly and honestly, data on mortality of veterans of the 1990–91 Gulf conflict are regularly published. The most recent figures, for the period 1 April 1991 to 31 December 2003, were published on 15 January 2004. The key tables from that publication are set out below. Table 1 gives the causes of death to UK Gulf veterans over that period; table 2 shows the deaths due to malignant neoplasms among UK Gulf veterans. As with previous information, the data for Gulf veterans are compared to that of a control group, known as the Era cohort, which is made up of armed forces personnel of a similar age, gender, service, regular/reservist status and rank who were not deployed.

Table 1: Deaths to UK Gulf veterans[1] 1 April 1991–31 December 2003

Causes[2]

ICD Chapter	*Cause of death*	*Gulf*	*Era*	*Mortality Rate Ratio*	*95% Confidence Interval*
	All deaths	**632**	**643**	**0.98**	**(0.88–1.09)**

Written Ministerial Statements

Thursday 22 January 2004

NORTHERN IRELAND

Justice Oversight Commissioner

The Secretary of State for Northern Ireland (Mr. Paul Murphy): The Government has received and welcomed the first report from the Justice Oversight Commissioner, the right hon. the the Lord Clyde, on the progress achieved in implementing the recommendations of the Criminal Justice Review in Northern Ireland. Consistent with his terms of reference, the report was submitted to the Attorney-General, Lord Filkin, Minister for the Northern Ireland Court Service, and myself in December.

Lord Clyde concludes that the degree of progress achieved so far in the process of implementation has been significant and impressive. He also acknowledges the real commitment of the criminal justice agencies in Northern Ireland to taking the recommendations forward. The Government warmly endorses these conclusions.

Copies of the Commissioner's report have been placed in the Library.

HEALTH

Medication Safety

The Minister of State, Department of Health (Ms Rosie Winterton): The Department's document "Building a safer NHS for patients: improving medication safety" has been published today. Copies have been placed in the Library.

TRADE AND INDUSTRY

Power Failures (London and Birmingham)

The Minister for Energy, E-Commerce and Postal Services (Mr. Stephen Timms): On 10 September I announced that DTI's engineering inspectorate would be launching an investigation into the power cuts that affected large areas of south London and parts of Kent on 28 August, and the West Midlands on 5 September. In particular, investigators were to check for compliance with the Electricity Safety, Quality and Continuity Regulations 2002. With the agreement of the Secretary of State for Transport, the investigation also looked into the security of electricity supplies to Network Rail (Southern and Midlands Regions) and London Underground.

I also referred to the separate and independent Ofgem investigation, which is focusing on whether any of the companies involved have breached, are breaching or are likely to breach their statutory duties and/or licence conditions, and what if any enforcement action should be taken or penalty applied should a breach be found.

The engineering inspectorate investigation has now been concluded, and it has highlighted a number of issues in connection with the power cuts. The inspectors' conclusions and recommendations are being passed to the electricity companies concerned, so that they can take the necessary action to enhance the robustness of their networks, and so make such occurrences less likely. The engineering inspectorate will be holding discussions with the companies concerned and monitoring the action they take. It has powers to ensure compliance with any recommendations made.

The material the engineering inspectorate has gathered in connection with this investigation is commercially sensitive and its disclosure is restricted by the provisions of the Utilities Act 2000. Therefore the report will not be published. The recommendations and conclusions are being passed to the companies concerned on a confidential basis so that they can take the necessary action.

Once the Ofgem investigation has been concluded, it will be for the Gas and Electricity Markets Authority to make a decision as to whether there have been statutory or licence breaches, and what if any enforcement action should be taken or penalty should be imposed.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Rural White Paper

The Minister for Rural Affairs and Local Environmental Quality (Alun Michael): Following the publication of the review of the Rural White Paper, hard copies are now available in the House of Commons and House of Lords Libraries. Further copies are available from DEFRA Publications, Admail 6000, London, SW1A 2XX Tel: 08459 556000 Email: defra@iforcegroup.com

HOME DEPARTMENT

Scientific Response to Terrorism

The Minister for Citizenship and Immigration (Beverley Hughes): I am today publishing the Government's reply to the Eighth Report from the Science and Technology Select Committee, Session 2002–03, on the scientific response to terrorism. The Government thank the Committee for their report of 6 November 2003. We have considered in detail the recommendations put forward. Copies of the Government's response are available in the Libraries of both Houses and can also be viewed on the Home Office website at http://www.homeoffice.gov.uk/terrorism

Written Answers to Questions

The following answers were received between Friday 19 December 2003 and Friday 2 January 2004

LEADER OF THE HOUSE

Sitting Hours

Mr. Ben Chapman: To ask the Leader of the House how many representations have been made to his Office which are *(a)* for and *(b)* against (i) the present sitting hours of the House and (ii) September sitting of the House. [145067]

Mr. Hain: Most of the representations I have received on these matters have been oral and informal, and have not been recorded by my Office. And many could not be simply categorised as entirely for or against the changes.

TREASURY

Banking Payments System

Brian Cotter: To ask the Chancellor of the Exchequer if he will give new powers to the Office of Fair Trading to enable it to address competition issues within the banking payments system; and if he will make a statement. [145255]

Ruth Kelly: The Government announced in the pre-Budget Report that the Office of Fair Trading will shortly take on an enhanced role in relation to payment systems for a period of four years. The Government will not legislate to give the OFT new statutory powers to carry out this enhanced role. However, the Government will review competition in the industry after a period of four years and legislate unless there has been significant improvement. Further details on these proposals will be announced by the OFT in due course.

Brian Cotter: To ask the Chancellor of the Exchequer on what evidence he has based his decision to adopt a non-legislative route to tackle competition issues within the banking payments system; and if he will make the evidence public. [145256]

Ruth Kelly: Since the publication of the Cruickshank report on Competition in UK Banking, the payments industry has made moves to address some of the competition concerns the report identified, in areas such as price transparency, wholesale pricing, access, and governance. In addition, in response to the findings of the Competition Commission report into SME banking, the OFT has negotiated agreements with the main clearing banks to improve conditions for competition and consumer choice in SME accounts. Finally, the OFT is currently investigating the interchange fee arrangements in the MasterCard credit and charge card schemes under the Competition Act 1998. The OFT will continue to use Competition Act powers where appropriate to address competition concerns in this sector.

However, the Government recognises that problems remain and that an increased focus on competition in the industry would deliver significant benefits. It believes that the OFT could provide this focus and address the remaining concerns, in advance of any legislation. The Government therefore announced in the pre-Budget Report that the Office of Fair Trading will shortly take on an enhanced role in relation to payment systems for a period of four years. The Government will then review competition in the industry and legislate unless there has been significant improvement. Further details on these proposals will be announced by the OFT in due course.

Brian Cotter: To ask the Chancellor of the Exchequer what recent discussions he has had with *(a)* the banking industry and *(b)* small business organisations in relation to competition within the banking payments system. [145258]

Ruth Kelly: Ministers and officials regularly meet representatives from the banking industry and small business organisations and discuss a range of issues, including competition in payment systems.

Iraqi Money

Mr. Gordon Prentice: To ask the Chancellor of the Exchequer what steps are being taken to trace funds which may have been deposited in UK banks by members of the former Iraqi regime; and if he will make a statement. [145198]

Ruth Kelly: All financial institutions in the UK have been obliged to identify and freeze Iraqi funds since August 1990. The implementation of United Nations Security Council Resolution 1483, 22 May 2003, subsequently required that such funds be transferred to the Development Fund for Iraq, with serious penalties for non-compliance.

While active monitoring continues, this process is now largely complete. To date the UK has transferred £112 million to support the reconstruction effort in Iraq. If further such funds were identified, they would be immediately transferred to the DFI.

Income and Corporation Taxes Act

Brian Cotter: To ask the Chancellor of the Exchequer what measures have been used by the Inland Revenue to notify small businesses of their obligations under section 660A of the Income and Corporation Taxes Act 1988; and if he will make a statement. [145233]

Dawn Primarolo: The Inland Revenue's Trusts Settlements and Estates Manual is publicly available and contains some guidance on this. Further detailed guidance (with examples) of the interpretation and application of Section 660A Income and Corporation Taxes Act 1988 was published in Tax Bulletin 64 in April 2003 and was followed by further explanations and examples in November and December 2003. More guidance will be in the February edition of Tax Bulletin.

Brian Cotter: To ask the Chancellor of the Exchequer how much revenue has been raised under section 660A of the Income and Corporation Taxes Act 1988 in each of the past six years. [145234]

Dawn Primarolo: The information is not available.

Brian Cotter: To ask the Chancellor of the Exchequer if he will make a statement on the impact that backdating payments under section 660A of the Income and Corporation Taxes Act 1988 will have on small businesses. [145235]

Dawn Primarolo: Section 660A Income and Corporation Taxes Act 1988 applies to individuals. By paying tax under this section for earlier years individuals are simply paying the tax that would have been due if they had not sought to avoid tax.

Brian Cotter: To ask the Chancellor of the Exchequer how many inquiries the Inland Revenue has received from small businesses in regard to section 660A of the Income and Corporation Taxes Act 1988. [145236]

Dawn Primarolo: The information is not available.

Brian Cotter: To ask the Chancellor of the Exchequer how many companies have *(a)* been investigated for possible contraventions of section 660A of the Income and Corporation Taxes Act 1988 and *(b)* had action taken against them as a result in each year that the Act has been in operation. [145238]

Dawn Primarolo: None. Section 660A Income and Corporation Taxes Act 1988 applies to individuals not companies.

Brian Cotter: To ask the Chancellor of the Exchequer what recent information has been made available to small businesses about how section 660A of the Income and Corporation Taxes Act 1988 will be applied; and if he will make a statement. [145239]

Dawn Primarolo: The Inland Revenue's Trusts Settlements and Estates Manual is publicly available and contains some guidance on this. Further detailed guidance (with examples) of the interpretation and application of Section 660A Income and Corporation Taxes Act 1988 was published in Tax Bulletin 64 in April 2003 and was followed by further explanations and examples in November and December 2003. More guidance will be in the February edition of Tax Bulletin.

National Statistics

Dr. Cable: To ask the Chancellor of the Exchequer if he will list the *(a)* names of, *(b)* positions of and *(c)* length of pre-release access for Office for National Statistics staff, excluding those who have pre-release access to the retail sales first release and the associated briefing under the (i) pre-release access arrangements and (ii) Macro-Economic Statistic Service Level Agreement. [143374]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Dr. Vincent Cable, dated 23 December 2003:

As National Statistician I have been asked to reply to your recent Parliamentary Question concerning the list of *(a)* names, *(b)* positions and *(c)* length of pre-release access for Office of National Statistics (ONS) staff, excluding those who have pre-release access to the retail sales first release and the associated briefing under the (i) pre-release access arrangements and (ii) Macro-Economic Statistic Service Level Agreement. (143374)

Pre-release access to official statistics is tightly controlled and, in the normal course of events, restricted to those who are involved in the statistical production and dissemination process. A number of staff in the ONS will, in the course of their duties, have access to the results before their public release—be they collectors, compilers, IT staff, reprographics staff, publication staff, or myself and my senior colleagues. To compile the names, positions, and length of pre-release access for all these staff, and for each release, would incur disproportionate cost.

Access has not been provided to persons in the ONS outside the list above, except where explicitly provided for in the National Statistics code of practice, and the protocol for release of statistics.

HOME DEPARTMENT

Asylum and Immigration

Tim Loughton: To ask the Secretary of State for the Home Department (1) on what grounds children of asylum seekers would be taken into care under his proposals to change asylum laws; [141050]

(2) who will be responsible for the care of children removed from the care of asylum seekers; [141051]

(3) whether the children of failed asylum seekers removed from their parents will be deported contemporaneously with their parents; [141052]

(4) what funding will be made available for local authorities responsible for the care of child asylum seekers. (141053)

Beverley Hughes: There is nothing in the Bill which changes in any way the grounds on which children may be taken into care. The Bill simply provides that families, illegally resident in the UK once their claims have failed, would no longer be entitled to support at the expense of the taxpayer if they refuse opportunities to leave the country. If, by putting themselves in this position, parents put their children at risk, it would be for the local authority to decide how the interests of their children should be protected under existing child protection legislation. We do not believe that many, if any, parents would put their children in this position. If this were to happen the costs would be met by central Government. We intend that in all cases the children concerned would be removed along with their parents.

Mrs. Anne Campbell: To ask the Secretary of State for the Home Department what assessment he has made of the impact of UK immigration policies on the health services of developing countries, with particular reference to Malawi; and if he will make a statement. [144103]

Beverley Hughes: International healthcare recruitment makes a key contribution to the delivery of services in the NHS. It can also benefit the migrant and the country of origin; but in certain contexts, migration of skilled workers, including health professionals, can have negative impacts. For that reason, the Department of Health, in consultation with the Department for International Development, has published a Code of Practice for NHS employers involved in international recruitment of healthcare professionals. This seeks to ensure that developing countries such as Malawi and countries suffering significant skill shortages of their own are not targeted.

Mr. Oaten: To ask the Secretary of State for the Home Department what estimate he has made of the numbers likely to be imprisoned under Clause 2 of the Asylum and Immigration (Treatment of Claimants, etc.) Bill. [143405]

Beverley Hughes: The offence is intended to act as a strong deterrent. For anyone who nevertheless arrives undocumented without reasonable excuse, the possibility of prosecution will exist. Enforcement and prosecution guidelines will be developed for this offence.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department where, in his proposals for a new asylum and immigration appeals system, the burden of proof will lie for establishing that a person has destroyed their documents. [143472]

Paul Goggins: For the criminal offence in clause 2 of the Asylum and Immigration (Treatment of Claimants, etc.) Bill, it will be for the prosecution to prove beyond reasonable doubt that the offence of arriving undocumented has been committed. It will be a defence for the defendant to prove that he or she had a reasonable excuse for not being in possession of a document.

Clause 6 of the Bill on claimant's credibility sets out various behaviours that a deciding authority must take into account when considering an asylum or human rights claim, including the destruction of a document without reasonable explanation. It will be for the deciding authority to come to a view, based on all the relevant information (including explanations provided by the applicant), as to whether one of these behaviours is present.

Mr. Rosindell: To ask the Secretary of State for the Home Department what his latest estimate is of the number of asylum seekers in the United Kingdom; and how many of them are illegal asylum seekers. [143516]

Beverley Hughes: Information on the total number of asylum seekers currently in the UK, including failed asylum seekers, is not available. This could be obtained only at disproportionate cost by examination of individual case records. In addition some applicants may leave the United Kingdom without informing the Immigration Service.

There is no official estimate of the size of the illegally resident population in the United Kingdom. The Government have commissioned research into the methods used in other countries to estimate the size of the illegal population in order to define methods appropriate for the UK.

The work required is challenging because, by definition, illegal migrants fall outside of official statistics and are therefore difficult to measure. People illegally present in the UK are also motivated to ensure they remain hidden, which is a challenge to conducting research.

The number of cases (principal applicants) awaiting initial decision or awaiting appeal determinations continues to fall as the level of applications falls, initial decisions continue to outstrip the number of applications, and record numbers of appeals are determined by the IAA.

Information on asylum applications is published quarterly. The next publication will be available at the end of February 2004 on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Lynne Jones: To ask the Secretary of State for the Home Department what percentage of asylum applicants granted *(a)* asylum, *(b)* exceptional leave to remain, *(c)* humanitarian protection and *(d)* discretionary leave arrived in the United Kingdom without travel documents or other identity documentation in the last year for which figures are available. [143600]

Beverley Hughes: The information requested is not available and could be obtained only at disproportionate cost. However, management information indicates that, in the first half of 2003, undocumented arrivals (which may include dependants) represented in the region of 70 per cent. of port asylum cases.

Information on asylum initial decisions is published quarterly. The next publication will be available at the end of February 2004 on the Home Office Research Development and Statistics Directorate website at: http://www.homeoffice.gov.uk/rds/immigration1.html

Mr. Laxton: To ask the Secretary of State for the Home Department how many instances there have been of asylum seekers from the Democratic Republic of the Congo being deported to their homeland and refused entry in the last five years. [143676]

Beverley Hughes: Information on the number of failed asylum seekers who were returned to the Democratic Republic of the Congo and subsequently refused entry there is not available. However, the Immigration Service does not attempt to effect an individual's removal unless it is satisfied that the individual concerned is assured of entry in their final destination.

Deportations are a specific subset of removals alongside persons subject to administrative removal, removal due to illegal entry action or those refused entry at port and subsequently removed. Information on the nationality of those people removed as a result of deportation action is not available.

Mr. Coleman: To ask the Secretary of State for the Home Department how many failed asylum seekers have been deported to Gaza in each of the last 12 months; and to which *(a)* ports and *(b)* airports they were returned. [143856]

Beverley Hughes: I regret that this information is not available. It is not possible to identify separately Gaza within the available statistics on removals of unsuccessful asylum seekers from the United Kingdom.

Mr. Coleman: To ask the Secretary of State for the Home Department how many asylum seekers have been refused support in each of the last six months under section 55 of the Nationality, Immigration and Asylum Act 2002. [143857]

Beverley Hughes: The information is not available in the form requested.

Section 55 of the Nationality, Immigration and Asylum Act 2002 came into force on 8 January 2003, restricting the availability of NASS support to those asylum seekers who make an asylum application as soon as reasonably practicable.

Figures in respect of asylum seekers refused under Section 55 of the Nationality, Immigration and Asylum Act 2002 are for each quarter:

	Number of cases refused under Section 55 of the NIA Act 2002
2003	
Quarter 1	2,850
Quarter 2	1,830
Quarter 3	2,810

Mr. Coleman: To ask the Secretary of State for the Home Department how many failed asylum seekers from *(a)* Somalia, *(b)* Afghanistan and *(c)* Iraq have been deported in each of the last six months. [143858]

Beverley Hughes: Deportations are a specific subset of removals alongside persons subject to administrative removal, removal due to illegal entry action or those refused entry at port and subsequently removed.

Estimates of the number of nationals of Somalia, Afghanistan and Iraq who had sought asylum at some stage and who were removed between January and June 2003 are shown in the table. These figures include persons departing 'voluntarily' after the initiation of enforcement action against them, and persons leaving under Assisted Voluntary Returns Programmes run by the International Organization for Migration.

Removals and voluntary[1] departures of asylum applicants, excluding dependants, of Somalia, Afghanistan and Iraq, January to June 2003[2,3,4]

Nationality	*January*	*February*	*March*	*April*	*May*	*June*	*Total*
Afghanistan	20	15	30	45	60	40	210
Iraq	20	35	40	45	25	20	175
Somalia	*	5	*	*	5	5	25

[1] Includes persons departing "voluntarily" after enforcement action had been initiated against them, persons leaving under Assisted voluntary return programmes run by the International Organisation for Migration, and removals on safe third country grounds.
[2] Figures rounded to the nearest five with * = 1 or 2.
[3] Data have been estimated due to data quality issues
[4] Provisional figures

Information on the nationality of asylum seekers removed from the United Kingdom during the third quarter of 2003 will be published at the end of February 2004 on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Mr. Brazier: To ask the Secretary of State for the Home Department with which countries the *(a)* UK and *(b)* EU has agreements concerning the re-documentation of illegal immigrants found in the UK. [141553]

Beverley Hughes *[holding answer 4 December 2003]:* Re-documentation agreements are not necessary to enable us to return to most countries. Wherever possible (and this is the case with more than 160 countries), we return using the EU laissez passer, because this is the simplest and quickest approach. But where third countries do not accept the EU letter, we have sought to conclude a range of informal or formal agreements.

The UK signed its first three bilateral readmission agreements with Romania and Bulgaria in February 2003 and Albania in October 2003. These agreements are due to enter into force in 2004. We will continue to negotiate bilateral readmission agreements and less formal re-documentation arrangements in order to facilitate removals operations.

In addition, at EU level, the Commission has been authorised by the Council to negotiate Community readmission agreements with 11 third countries: Morocco, Sri Lanka, Russia, Pakistan, Hong Kong, Macao, Ukraine, Albania, Algeria, China and Turkey. The first of these is due to enter force in 2004.

Mr. Malins: To ask the Secretary of State for the Home Department how many illegal entrants have been discovered at *(a)* Dover and *(b)* other UK ports in the last 12 months; and what percentage have been removed forthwith. [142162]

Beverley Hughes: Locally collated, provisional management information, which may be subject to change, indicates that 2,950 illegal entrants were detected at or close to the port of Dover having entered clandestinely between 1 January 2003 and 30 September 2003. 7.9 per cent. of those detected, 230 did not claim asylum and were speedily removed to their continental port of embarkation. In the corresponding period during 2002, before the Nationality, Immigration and Asylum Act was passed, and before we put in place a wide range of measures, including deployment of new detection technology and enhanced juxtaposed controls, there were 8,370 detections of which 4 per cent., 340 did not claim asylum and were removed immediately.

Similar information for ports outside of Dover indicates that 280 were dealt as clandestine illegal entrants between January and September 2003. We do not routinely break down the percentage who do not claim asylum and who are immediately removed.

We expect that the phased implementation of full juxtaposed controls will further reduce the number of people able to enter the UK illegally.

Mr. Malins: To ask the Secretary of State for the Home Department what proportion of UK ports have more than 10 full-time UK immigration officials in post. [142163]

Beverley Hughes: As of the 1 September 2003, there were 3,119 full-time equivalent Immigration Officers employed by the UK Immigration Service. Of these 2,394 Immigration Officers were deployed at the UK ports of entry.

The remainder were engaged in other immigration activity, including enforcement, intelligence gathering and detention.

At 33 points of entry into the UK where the Immigration Service has permanent staff a total of 26 ports, 79 per cent. have more than 10 full-time Immigration officials in post.

Where there is no permanent presence at ports Immigration Officers attend on a risk-assessed, intelligence-led basis.

Child Protection Referrals

Mr. Oaten: To ask the Secretary of State for the Home Department how many child protection referrals have been made to local area child protection committees by each young offender institution since January. [144364]

Paul Goggins: Data on the number of child protection referrals made to local area child protection committees from each juvenile establishment since January 2003 are shown in the following table:

Establishment	*Number of child protection referrals*
Ashfield	20
Brinsford	47
Brockhill	0
Bullwood Hall	11
Castington	16
Eastwood Park	5
Feltham	51
Hindley	[1]
Holloway	9
Huntercombe	6
Lancaster Farms	4
New Hall	5
Onley	19
Parc	24
Stoke Heath	[1]
Thorn Cross	0
Warren Hill	11
Werrington	43
Wetherby	15

[1] Figures not currently available

Corporate Killing

Mr. Bellingham: To ask the Secretary of State for the Home Department if he will make a statement on the likely impact of a corporate killing Bill on British business. [142841]

Paul Goggins: The results of the Regulatory Impact Assessment are still being assessed but the preliminary indications are that the costs of a change in the law will not be large. As we have made clear, no new burdens will be placed on companies in terms of the standards with which they will be legally required to comply. We will continue to refine the RIA in the context of our proposals for legislation.

Correspondence

Mr. Kaufman: To ask the Secretary of State for the Home Department when he will reply to the letter to him dated 30 October from the right hon. Member for Manchester, Gorton with regard to Mrs. J. Ferns. [142954]

Mr. Blunkett: I responded to my right hon. Friend on 16 December 2003.

Mrs. Gillan: To ask the Secretary of State for the Home Department when he will reply to the letter from the hon. Member for Chesham and Amersham of 15 September, reference PO 13772/3. [144160]

Beverley Hughes *[holding answer 16 December 2003]:* I replied to the hon. Member on 17 December 2003.

Mr. Kaufman: To ask the Secretary of State for the Home Department when he will reply to the letter to him dated 4 November from the right hon. Member for Manchester, Gorton with regard to Mrs. R. Amjad. [144647]

Mr. Blunkett: I responded to my right hon. Friend on 12 December 2003.

Mr. Kaufman: To ask the Secretary of State for the Home Department when he will reply to the letter to him dated 4 November from the right hon. Member for Manchester, Gorton with regard to Mr. Riaz Amer. [144648]

Mr. Blunkett: I wrote to my right hon. Friend on 12 December 2003.

Crime and Disorder Reduction Partnerships

Ross Cranston: To ask the Secretary of State for the Home Department when he expects to place the findings of the 2002 exercise on crime and disorder reduction partnerships and their implications for nuisance and noise associated with fireworks in the Library; whether he has conducted a similar exercise for 2003; and if he will make a statement. [143912]

Ms Blears: I have placed copies of the Home Office Fireworks Monitoring Report in the Libraries of the House today. We have no plans at present to repeat this exercise.

Custody Death Investigations

Joan Ruddock: To ask the Secretary of State for the Home Department what steps have been taken to ensure that investigations into deaths in prison or police custody are *(a)* independent, *(b)* thorough, *(c)* in compliance with relevant mental health standards and *(d)* respond to the concerns of the families of the deceased. [142885]

Paul Goggins: An external team investigates all deaths in prison custody. Out of area investigations are recommended as good practice. A review of investigations into deaths in custody has resulted in some investigations being led by an investigator independent of the Prison Service or with the support of a multi-agency advisory panel. In two recent cases the Prisons and Probation Ombudsman has been commissioned to conduct an investigation and plans are in hand to transfer the function to him.

Prison Service staff leading investigations into deaths in custody attend two training courses, the first covering investigations generally and the second dealing specifically with investigating deaths in custody. Two detailed and comprehensive Prison Service Orders (1300 "Investigations" and 1301 "Investigating death in custody") provide guidance and advice to ensure that investigations are thorough.

Through its partnership with the Department of Health, the Prison Service is working to establish links locally and nationally with the National Institute Mental Health England (NIMHE) in implementing Standard Seven "Preventing Suicide" of the National

Service Framework for Mental Health published in 1999. Learning lessons and changing practice as a result of the thorough investigations that follow a death in custody is a key factor in this framework.

Investigators always offer to meet bereaved families and investigation reports are disclosed to families in consultation with the Coroner before the inquest. In order to provide greater insight and explanation for bereaved families, investigators are now required to include families in the investigation process.

Deaths in police custody are subject to investigation under the statutory complaints system set out in the Police Act 1996 and police forces voluntarily refer all such deaths to the Police Complaints Authority (PCA) to oversee the investigations undertaken.

Under the provisions of the Police Reform Act 2002, a new police complaints system will be implemented on 1 April 2004. The Independent Police Complaints Commission (IPCC) will replace the Police Complaints Authority. Under the new system, all deaths in police custody which involve potential misconduct from a member of a police force must be referred to the IPCC, whether or not a complaint has been made.

Depending on the circumstances of the case, the IPCC can investigate the incident using its own investigators, or it can choose to manage or supervise a police investigation. The IPCC and the police will have all the necessary powers and will be expected to conduct thorough investigations which comply with all relevant standards.

Complainants and other interested persons—including family members—will have the opportunity to participate in the conduct of an investigation and will have a right to be kept informed of its progress and outcome.

Highly Skilled Migrants

Dr. Evan Harris: To ask the Secretary of State for the Home Department how many highly skilled migrants have been accepted in each year since the inception of the highly skilled migrant programme, broken down by country. [140703]

Beverley Hughes: The highly skilled migrant programme was launched on 28 January 2002. As at 30 November 2003 a total of 8,628 applications have been received. From 28 January to 31 December 2002—1,194 applications were approved. From 1 January to 30 November 2003—3,864 applications have been approved.

Current management information limitations do not, at present, provide a breakdown in the format requested. However, up to 30 August 2003 the number of applications received for the top 10 nationalities were as follows:

India—832
United States of America—751
Nigeria—454
Pakistan—381
South Africa—319
Australia—307
Zimbabwe—176
Canada—153
China People's Republic of—126
Russia—123

Identity Fraud

Mr. Oaten: To ask the Secretary of State for the Home Department how many individuals have been *(a)* arrested, *(b)* charged and *(c)* convicted as a result of the actions taken by the Immigration Crime Team against suspected identity hijackers on 8 October 2002; what the sentence was in each case; and how many passports were recovered in the operation. [143381]

Beverley Hughes: Operation Wisdom, targeting individuals who have obtained passports using the identities of dead children, was co-ordinated by the National Crime Squad and involved 18 UK police forces and the Immigration Service.

On 8 October 2002, 30 individuals were arrested, 12 were charged and 16 others were identified as suitable for removal under Immigration Act powers, five of whom received police cautions. Sentences for others on conviction ranged from seven days to 11 months.

Some 100 further arrests have since been made as the result of on-going work by the agencies involved.

No central record was kept of the number of passports recovered in the operation.

Judicial Review

Mr. Oaten: To ask the Secretary of State for the Home Department which decisions by his Department were challenged by judicial review in each session since 1997; and in how many cases the *(a)* Department's decision was upheld by the court, *(b)* court found for the applicant, *(c)* Department submitted to the judgment and *(d)* Department appealed successfully against the decision. [143410]

Beverley Hughes: This information is not available and could be obtained only at disproportionate cost.

Juvenile Offenders

Mr. Oaten: To ask the Secretary of State for the Home Department how many juvenile prisoners have been refused early release on home detention curfew because they had no suitable accommodation in each of the last 12 months. [144353]

Paul Goggins: Data on the reasons for juvenile prisoners being refused early release on home detention curfew are not collected centrally, and could be obtained only at disproportionate cost.

Mr. Oaten: To ask the Secretary of State for the Home Department how many children have been transferred out of secure training centres to prisons for reasons of bad behaviour in each of the last 12 months. [144354]

Paul Goggins: The following table shows the number of juveniles transferred from Secure Training Centres to Young Offender Institutions for reasons of bad behaviour in each of the last 12 months.

Month	Number of children transferred
December 2002	0
2003	
January	1
February	3
March	3
April	4
May	0
June	0
July	5
August	5
September	1
October	4
November	2

Mr. Oaten: To ask the Secretary of State for the Home Department what representations he has received on the use of special cells in young offender institutions; and if he will place copies in the Library. [144362]

Paul Goggins: The Home Office has only received letters from Amnesty International regarding the use of solitary confinement for juveniles. These letters are private correspondence and cannot be placed in the Library without the consent of the originator.

Paedophiles

Mr. Burns: To ask the Secretary of State for the Home Department how many convictions there have been of paedophiles as a result of photographs taken of children at *(a)* school nativity plays, *(b)* school sports days, *(c)* other community based sport activities, *(d)* school drama and cultural activities and *(e)* other community based drama and cultural activities in each of the last five years for which figures are available. [143950]

Paul Goggins *[holding answer 16 December 2003]:* The information requested is not available centrally.

There is no definitive list of offences relating to paedophilia. The information collected centrally simply relates to a range of offences (including those involving direct contact with the victims and others that do not) against victims of a variety of ages, some of which span the legal age of consent to sexual activity, and details of the nature of the offences are not collected.

Prison Education

Stephen Hesford: To ask the Secretary of State for the Home Department what recent progress has been made in improving adult prisoner *(a)* literacy and *(b)* numeracy. [142923]

Paul Goggins: Since April 2003, prisoners have achieved around 28,000 qualifications in literacy, language and numeracy. At this rate, the 2003–04 target of 36,600 qualifications will be exceeded by March 2004. As a result prisons have been set an ambitious but achievable target of 60,000 basic skills qualifications for 2004–05.

Prisons (Suicide Prevention)

Joan Ruddock: To ask the Secretary of State for the Home Department what proportion of the budgets of HM Prison Service establishments holding females has been specifically dedicated to suicide prevention in each of the past 10 years. [142891]

Paul Goggins: The Prison Service's efforts to reduce the numbers of self-inflicted deaths in prisons are supported by a number of broader strategies for which money is allocated at a national level. It is not, therefore possible to identify the resources that have been allocated to suicide prevention specifically.

A proactive three-year programme to develop policies and practices to reduce prisoner suicide and manage self-harm in prisons commenced in April 2001. The main principles of the strategy apply across all types of prisons and prisoners whether male or female. An investment of over £21 million through the three-year programme is enabling physical improvements (now 75 per cent. complete) to be made at six 'Safer Local' pilot sites, one of which is the women's prison and YOI Eastwood Park. At Eastwood Park where there is a centrally funded Project Manager, £1.5 million has been dedicated to Reception and the Healthcare Centre, while a further £1.5 million is being spent on installing safer cells (cells which contain specially designed furniture and fixtures which are manufactured and installed to make the attachment of ligatures very difficult).

A targeted and separate suicide prevention and self-harm management strategy is being developed specifically for women prisoners. In addition £1 million from the Department of Health has been allocated to the Women's Estate to be spent on the recruitment of psychiatric nurses, and 11 out of the 17 prisons for women now have mental health in-reach facilities.

Brockhill, Eastwood Park, Holloway, New Hall and Styal prisons were among the first establishments to have full-time, dedicated Suicide Prevention Co-ordinators (SPCs). All women's prisons now have a designated full-time or part-time SPC. All women's establishments deliver suicide awareness training to staff.

Sexual Offences

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on *(a)* offences for which sexual activity in public lavatories may be prosecuted and *(b)* the suitability of those offences for dealing with such behaviour. [143478]

Paul Goggins: Sexual activity in public lavatories will be covered by a specific new offence in section 71 of the Sexual Offences Act 2003. Persons engaging in such activity may also commit the existing common law offence of outraging public decency or an offence under section 5 of the Public Order Act 1986. The Government believe that sexual activity in public lavatories is unacceptable and the new offence will cover any activity that:

> "a reasonable person would, in all the circumstances but regardless of any person's purpose, consider to be sexual".

The maximum penalty will be six months imprisonment, or a level five fine, or both.

The new offence will not require that someone should be caused "alarm, distress, or offence" by the activity, which is a requirement of section 5 of the Public Order Act. Similarly, the common law offence contains a requirement that the conduct must be lewd, obscene or disgusting. While it is a requirement that it should not be inordinate, the common law offence does not have a maximum penalty and so could be used to prosecute more serious cases where the conduct is particularly unacceptable. This offence has been made triable summarily, as well on indictment, by the Criminal Justice Act 2003 which should give greater flexibility in its use.

Terrorism

Mr. Oaten: To ask the Secretary of State for the Home Department what the total cost to date has been of detaining suspects held under Part 4 of the Anti-Terrorism, Crime and Security Act 2001. [144583]

Paul Goggins: The approximate cost from 19 December 2001 to 16 December 2003 of detaining those held under the Anti-Terrorism, Crime and Security Act 2001 is £905,000.

The cost of holding a detainee in prison is equivalent to the cost of holding a prisoner in the same establishment.

Unregistered Ships

Mr. Carmichael: To ask the Secretary of State for the Home Department how many people have been stopped trying to enter the United Kingdom on unregistered ships in each of the last 10 years. [140672]

Beverley Hughes: The information requested is not available and could be obtained only by examination of individual case-files at disproportionate cost.

Women Prisoners

Julie Morgan: To ask the Secretary of State for the Home Department if he will take steps to ensure that gender specific suicide and self-harm figures are *(a)* reported to Parliament and *(b)* monitored by the Women's Estate Policy Unit. [144541]

Paul Goggins: Women's Estate Policy Unit monitor female prisoner suicide and self-harm figures, and will be producing a report for 2003–04 which will be lodged in the Library.

Vera Baird: To ask the Secretary of State for the Home Department under HM Prison Service's plans to manage the Women's Prison Estate geographically instead of functionally *(a)* what safeguards will be put in place to ensure that the needs of women prisoners are responded to appropriately, *(b)* what steps he will take to ensure that the budget set aside for the operational group remains ring-fenced for work with women in prison and *(c)* what specialist staff, with particular reference to those with skills and experience in suicide and self-harm prevention, mental health and detoxification for women will be maintained. [141621]

Paul Goggins: The Director of Operations will formally take responsibility for the Women's Estate from 1 January 2004 in order to facilitate a smooth transfer to the new arrangements on 1 April 2004. The Prison Service will retain a dedicated policy and management group to ensure that the needs of women prisoners are met across the prisons estate. The Director of Operations will hold responsibility for the work of that group which will be headed by a senior operational manager who reports directly to him. The new management structure will be appropriately funded to reflect the particular needs of women in custody.

The details of the staffing arrangements for the new structure are still being worked out but the women's policy and management group will include specialist staff with knowledge and skills in the prevention of suicide and self-harm and in the treatment of drug abuse and mental illness.

Vera Baird: To ask the Secretary of State for the Home Department what estimate he has made of the number of children under 18 years of age whose mothers are in prison, where the mother is the child's primary carer. [141625]

Paul Goggins: The most recent information available on this matter is derived from a survey of 301 white and Afro-Caribbean (or mixed-race) female prisoners who were drug users. This survey was carried out in 2001 and published in 2003. It showed that 70 per cent. (211) had children under the age of 18. Between them, the 211 mothers had 473 children. This suggests that, for every female prisoner, there are roughly 1.5 children in the community. The same survey also indicates that, prior to going to prison, 60 per cent. of the female prisoners who were mothers had been looking after their children at home.

Joan Ruddock: To ask the Secretary of State for the Home Department what plans he has to survey the women's prison population to determine prisoners' home locations in order to facilitate resettlement. [142887]

Paul Goggins: I would refer my hon. Friend to the reply given to a Question from my hon. and learned Friend the Member for Redcar (Vera Baird) on 8 December 2003 (141620).

Joan Ruddock: To ask the Secretary of State for the Home Department what the Government's strategy is for improving the level of support available to prisoners who have been victims of *(a)* domestic violence and *(b)* sexual abuse. [142888]

Paul Goggins: A range of support is offered to prisoners who report that they have been victims of domestic violence or sexual abuse. This includes: individual support and/or counselling; the provision of advice or information; and referral to appropriate outside agencies.

The Prison Service is currently seeking to improve the level of support offered. The specific initiatives include drawing up good practice principles for support services; developing links with community agencies and ensuring that assessment of risk is included in the sentence planning process.

Joan Ruddock: To ask the Secretary of State for the Home Department what progress has been made in extending the First Night in Custody Project from HMP Holloway to all female prison establishments. [142896]

Paul Goggins: The First Night in Custody Project at Holloway prison is part of a range of interventions across the women's prisons estate designed to reduce levels of suicide and self-harm as well as provide support and advice for women with a range of family, housing and other personal issues. These interventions are focused on prisons with a local function. There is no single model; the way in which the programme is delivered reflects local needs and circumstances, but important lessons have been learned from the Holloway project.

Joan Ruddock: To ask the Secretary of State for the Home Department what proportion of the female prisoners who committed suicide had previously been identified as at risk through the use of the HM Prison Service form F2052SH in each of the past four years. [142897]

Paul Goggins: All of the women who took their own lives in prison from 1 January 1999 up to 8 December 2003 had been on an open F2052SH (self-harm at risk form) at some point during their period of imprisonment. The number of these women who were on an open F2052SH at the times of their deaths is shown in the following table.

Calendar year	*Number of female self-inflicted deaths (SIDs)* [1]	*Number of female SIDs on an open F2052SH at the times of their deaths*	*Proportion of female SIDs on an open F2052SH at the times of their deaths (per cent.)*
1999	5	2	40
2000	8	3	38
2001	6	4	67
2002	9	3	33
2003[2]	14	9	64
Total	42	21	50

[1] The Prison Service employs the term 'self-inflicted death' rather than 'suicide'. This includes all those deaths where it appears the person may have acted specifically to take his/her own life
[2] To 8 December 2003

The general prison population, and the women's estate in particular, contains a very large number of prisoners exhibiting a combination of factors which raise their risk of suicide: these include psychiatric disorders, relationship problems, previous abuse and family background problems; and histories of self-harm, drug and alcohol abuse and homelessness. As women tend to be the primary carers in their families, concerns about child care arrangements and associated issues also come to the fore with imprisonment.

Any member of staff who has cause for concern that a prisoner may be at-risk can open an F2052SH and it is mandatory to open an F2052SH following any incident of self-harm. The inherent vulnerability of many women in custody, combined with the high levels of self-harm in the women's estate, results in a very large number of women prisoners presenting themselves as requiring special care, and being made subject to F2052SH procedures. However, staff caring for women prisoners face exceptional difficulties in distinguishing between those women who are intensely vulnerable and those who may be actively suicidal.

To address this issue, the F2052SH system is under review. The pilot of a replacement care planning system will begin in January 2004 at five establishments, one of which is the women's prison and YOI Low Newton. The potential replacement for the F2052SH aims to build on the successful aspects of the existing system, yet be more flexible and task teams of specially trained staff to assess the level of risk that at-risk prisoners present.

In parallel with the review of the F2052SH, information booklets and posters to improve staff understanding of the issues surrounding self-harm have been widely distributed, and detailed guidance for staff on how to manage and care for prisoners who self-harm, as well as a video discussing self-harm, are under development.

Joan Ruddock: To ask the Secretary of State for the Home Department what steps he is taking to ensure *(a)* that women prisoners have equal access to bail information and *(b)* that the information available is consistent and accurate. [142898]

Paul Goggins: All the remand prisons in both the male and the female estate have bail information schemes through which all new remand prisoners are made aware of the help available. All female remand prisoners have equal access to bail information schemes and assistance in seeking bail.

Bail information schemes provide information to courts to assist with decisions on individual prisoner's bail applications. The information provided will therefore vary from prisoner to prisoner, but in each case the information must be verified as accurate before being sent to the court.

Joan Ruddock: To ask the Secretary of State for the Home Department what counselling and support is available in women's prisons to assist prisoners who have been victims of *(a)* domestic violence and *(b)* sexual abuse. [142886]

Paul Goggins: A survey carried out by the Prison Service in 2003 demonstrates that a wide range of support is given across the prison estate to women who report that they have been abused. This includes offering women individual support and/or counselling; the provision of advice and information and referral to appropriate outside agencies. Individual establishments work closely with local community agencies with specialist expertise in abuse issues. The support offered to individual women who report that they have suffered any kind of abuse and have asked for help, will be determined following a full assessment of their needs.

The support offered varies between establishments and reflects local circumstances. The Prison Service is currently working with a small group of local practitioners, including both prison staff and voluntary agencies, to develop good practice principles so that consistency in the standard of support offered can be achieved. This work will be completed by March 2004 and will draw on a recently published literature review by Carol-Ann Hooper (2003), from the University of York on "Abuse, Interventions and Women in Prison".

In addition, examples of specific work being done for women who are the victims of domestic violence include working to help women avoid going back into

circumstances that are high risk for violence when they are released and the provision in many establishments of posters/helpline information supplied by local domestic violence networks.

Working Holidaymakers

Dr. Evan Harris: To ask the Secretary of State for the Home Department how many working holidaymakers have been accepted in each of the last two years for which figures are available, broken down by country of origin. [140702]

Beverley Hughes: Information on the number of working holidaymakers admitted to the United Kingdom, during 2001 and 2002, is given in the table.

Passengers given leave to enter the United Kingdom as working holidaymakers, by nationality, 2001 to 2002[1]

	Total	*Australia*	*Canada*	*New Zealand*	*South Africa*	*Others*
2001	35,775	16,820	2,885	5,295	8,830	1,945
2002[1]	41,700	17,175	3,205	4,935	13,235	3,150

[1] Provisional

Note:
Data rounded to nearest five.

DEFENCE

"Delivering Security in a Changing World"

Lady Hermon: To ask the Secretary of State for Defence what assessment he has made of the effect on Northern Ireland of the Defence White Paper, "Delivering Security in a Changing World"; and if he will make a statement. [145075]

Mr. Hoon: The Defence White Paper sets out our analysis of the future security environment, its implications for defence, and how we intend to adapt our planning and force structures to meet the potential threats. It says:

> "The Armed Forces will continue to support the Police Service for Northern Ireland's public order and counter-terrorist operations for as long as they are needed. We will reduce the level of forces committed to this task as soon as the improving security situation and the capability and confidence of the PSNI allow.
>
> Ultimately, our aim is to achieve a situation where an element of our deployable force structure is permanently based in Northern Ireland, just as throughout the rest of the United Kingdom."

Aircraft Carriers

Mr. Rosindell: To ask the Secretary of State for Defence if he will make a statement on the plan to reduce the size of the two Royal Navy aircraft carriers. [144685]

Mr. Ingram: Final decisions have yet to be taken on the main specifications for CVF. The programme is currently in its Assessment Phase, which is aimed at increasing the maturity of the design as well as optimising capability and value for money. The size of the vessels will continue to evolve as the design matures to meet the required capability.

Armoured Vehicles

Mr. Soames: To ask the Secretary of State for Defence what the operational availability is of *(a)* FV430 series, *(b)* CVR (T) and *(c)* Saxon, broken down by unit; and what the overall availability targets are for these vehicles. [144131]

Mr. Ingram: I will write to the hon. Member and a copy of my letter will be placed in the Library of the House.

Arms Contracts

Adam Price: To ask the Secretary of State for Defence if he will make a statement on the allegations of fraud and bribery in relation to the Al Yamamah arms contracts. [145217]

Mr. Ingram: I refer my hon. Friend to the answer I gave on 3 November 2003, *Official Report*, column 429W, to the hon. Members for Leyton and Wanstead (Harry Cohen) and for North Norfolk (Norman Lamb).

Army Strength

Mr. Hoyle: To ask the Secretary of State for Defence what the present shortfall is in army personnel. [144800]

Mr. Caplin: The strengths and requirements of the Army are available in Tri-Service Publication (TSP) Number 3 entitled UK "Armed Forces Strengths and Trained Requirements"

A copy of the publication is available in the House of Commons Library.

The most recent copy contains details as at 1 November 2003.

Mr. Soames: To ask the Secretary of State for Defence what the current deployed strength is of *(a)* Queen's Royal Hussars, *(b)* 1st Battalion, The Light Infantry, *(c)* 1st Battalion, The Royal Regiment of Wales, *(d)* 2nd Battalion, The Parachute Regiment, *(e)* 1st Battalion, The Royal Scots, *(f)* 26 Regiment Royal Artillery and *(g)* 35 Engineer Regiment. [144130]

Mr. Ingram: As at 11 December 2003, the deployed strength of the above units was as follows:

Unit	*Deployed strength*
Queen's Royal Hussars	517
1st Battalion, The Light Infantry	773
1st Battalion, The Royal Regiment of Wales	556
2nd Battalion, The Parachute Regiment	516
1st Battalion, The Royal Scots	330
26 Regiment, Royal Artillery	490
35 Engineer Regiment	668

Attitude Surveys

Angus Robertson: To ask the Secretary of State for Defence how many and what percentage of respondents to the last assessed Royal Navy/Royal Marine Continuous Attitude Survey responded *(a)* A great deal, *(b)* Quite a lot, *(c)* Partly, *(d)* Not very much and *(e)* Not at all to Question 21; and if he will make a statement. [143619]

Mr. Caplin: The information requested is drawn from the May 2003 edition of the Continuous Attitude Survey.

	Number	*Percentage*
Royal Navy		
Great deal	179	19.40
Quite a lot	407	44
Partly	268	29
Not very much	49	5
Not at all	8	0.90
Total	911	98.50
Royal Marines		
Great deal	14	17.10
Quite a lot	37	45
Partly	23	28
Not very much	6	7
Not at all	2	2.40
Total	82	100.00

Angus Robertson: To ask the Secretary of State for Defence how many and what percentage of respondents to the last assessed Royal Navy/Royal Marine Continuous Attitude Survey responded Yes to Question 25.4; and if he will make a statement. [143620]

Mr. Caplin: The information requested is drawn from the May 2003 edition of the Continuous Attitude Survey.

I should point out that question 25.4 in the September 2002 survey appears as question 29.2 in the last assessed survey.

	Number	*Percentage*
Royal Navy		
Yes	58	6.30
Responses	907	98.10
Royal Marines		
Yes	6	7.30
Responses	80	97.60

Angus Robertson: To ask the Secretary of State for Defence how many respondents to the last assessed Royal Navy/Royal Marine Continuous Attitude Survey who responded Yes to Question 25.4 then responded *(a)* I do not think people would believe me, *(b)* I was worried that there would be recriminations from the perpetrator*(s)*, *(c)* I was worried that if I reported it the problem would get worse, *(d)* I did not believe anything would be done about it, *(e)* I was worried that reporting it might affect my career and *(f)* I considered the incident(s) to be too minor to report to Question 28; how many respondents identified (i) one, (ii) two, (iii) three, (iv) four and (v) five of the possible options; and if he will make a statement. [143622]

Mr. Caplin: The information requested is drawn from the May 2003 edition of the Continuous Attitude Survey. I should point out that question 28 in the September 2002 survey appears as Question 32 in the last assessed survey.

Royal Navy

	Number	*Percentage*
a. I did not think people would believe me	38	9.90
b. Worried about recriminations from the perpetrators	43	11.20
c. Worried the problem would get worse	Not an option in May 2003 CAS	
d. Did not believe anything would be done about it	64	16.70
e. I was worried reporting it might effect my career	64	16.70
f. I considered the incident too minor to report	59	15.40
Total number of responses to all options—383		

Royal Marines

	Number	*Percentage*
a. I did not think people would believe me	1	3.40
b. Worried about recriminations from the perpetrators	5	17.20
c. Worried the problem would get worse	Not an option in May 2003 CAS	
d. Did not believe anything would be done about it	5	17.20
e. I was worried reporting it might affect my career	5	17.20
f. I considered the incident too minor to report	5	17.20
Total number of responses to all options—29		

Breakdown in terms of single and multiple options

	Number

Q40	0.00	17	31.70	30.50	20.70	82
Q42	0	23.20	48.80	14.60	3.70	82

[1] At the time of the administration of the survey, Minimum Time Ashore applied to rates from Leading Hand to Warrant Officer only, Able rates being governed by Separated Service guidelines.
From 1 April 2004 the Separated Service guidelines will apply to all.

Angus Robertson: To ask the Secretary of State for Defence how many and what percentage of respondents to the last assessed Royal Navy/Royal Marine Continuous Attitude Survey responded *(a)* I am leaving and I have already given notice, *(b)* I am planning to leave but I have not yet given notice and *(c)* I am considering giving notice to Question 17; and if he will make a statement. [143625]

Mr. Caplin: The information requested is drawn from the May 2003 edition of the Continuous Attitude Survey:

Intentions with regard to future career in Royal Navy/Royal Marines.

	Number	Percentage
Royal Navy		
I am leaving and have already given notice	28	3.00
I am planning to leave but I have not yet given notice	53	5.70
I am considering giving notice	75	8.10
Royal Marines		
I am leaving and have already given notice	3	3.70
I am planning to leave but I have not yet given notice	14	4.90
I am considering giving notice	12	14.60

Angus Robertson: To ask the Secretary of State for Defence how many and what percentage of respondents to the last assessed Royal Navy/Royal Marine Continuous Attitude Survey responded *(a)* 70, *(b)* 77 and *(c)* 82 to Question 18; what the five reasons most often cited under "Other" were; how many respondents ticked (i) two and (ii) all three of the above answers; and if he will make a statement. [143626]

Mr. Caplin: The information requested is drawn from the May 2003 edition of the Continuous Attitude Survey:

	Number	Percentage
Royal Navy		
(a) No. 70—Had always intended to leave after this period of time	21	5
(b) No. 77—Wish to take up another career	81	19.50
(c) No. 82—Other	71	17.10
Royal Marines		
(a) No. 70—Had always intended to leave after this period of time	1	2.30
(b) No. 77—Wish to take up another career	10	23.30
(c) No. 82—Other	7	16.30

The total number of responses to all options—456.

Respondents ticking (i) two and (ii) all three of the above answers:

	(i)	(ii)
Royal Navy	36	6
Royal Marines	0	1

Five external reasons most often cited under the "Other" option:

	Number
Royal Navy	
1. General disillusionment/dissatisfaction with lifestyle	19
2. Concern about marriage and children/life outside of work	11
3. Pay	9
4. Promotion prospects	8
5. RN has changed for the worse	6
Royal Marines	
1. Dissatisfaction with lifestyle	3
2. Concern about marriage and children/life outside of work	1
3. Job satisfaction	1
4. Promotion prospects	1
5. To travel	1

Chemical Weapons (United Kingdom)

Harry Cohen: To ask the Secretary of State for Defence what quantities of chemical weapons are stored in the UK; whether Agent Orange has ever been *(a)* stored in the UK and *(b)* used by UK forces; and if he will make a statement. [145028]

Mr. Hoon: The United Kingdom gave up its offensive chemical weapons programmes in 1956. No chemical weapons are stored in the United Kingdom. However, from time to time old chemical weapons from the Second World War, and before, are recovered. These are taken to Dstl Porton Down where they are declared to the Organisation for the Prohibition of Chemical Weapons and then destroyed in accordance with our obligations under the Chemical Weapons Convention.

The United Kingdom does not possess Agent Orange. As far as can be ascertained from historical records, it has never been used by UK forces and has not been stored in the UK.

Decommissioning (UK Naval Ships)

Mr. Mandelson: To ask the Secretary of State for Defence (1) what the Government's policy is regarding the break-up, recovery and recycling of United Kingdom naval vessels; [143887]

(2) which United Kingdom naval vessels have been broken up over the past five years; and where each vessel was broken up; [143888]

(3) which United Kingdom naval vessels are being considered for breaking up; [143889]

(4) what criteria are used to determine where work to break up United Kingdom naval vessels is carried out. [143890]

Mr. Ingram: When declared surplus to requirements, named RN ships are sold via the Ministry of Defence's Disposal Services Agency (DSA). The DSA actively promotes sales on a Government-to-Government basis but, if a buyer cannot be found, vessels may be sold by means of a competitive tender exercise and bidders may include parties interested in scrapping the vessels. Of all the vessels sold over the past five years, the following (including Royal Fleet Auxiliaries) were sold for breaking:

	Financial year	*Scrapped in:*
HMS Birmingham	2000–01	Spain
HMS Beaver	2000–01	Turkey
RFA Olwen	2000–01	India
RFA Olna	2000–01	India

When disposing of surplus vessels, the Government's policy is to comply with all national and international environmental legislation (including the Basel Convention) while ensuring the maximum return for the taxpayer.

The DSA is currently examining disposal options for HMS Intrepid, one of which is a sale for scrapping overseas.

Defence Fire Service

Angus Robertson: To ask the Secretary of State for Defence if he will list the Defence Fire Service stations located in Scotland; how many *(a)* civilian personnel and *(b)* service personnel are employed at each; how many have been employed at each in each year since 1997; what the personnel costs were for (i) each of the stations, (ii) the DFS in Scotland and (iii) the DFS in total in each year since 1997; and if he will make a statement. [143564]

Mr. Ingram: The Defence Fire Service stations located in Scotland are completely manned by civilian personnel. The locations and numbers employed at each station since 1997–98 are shown in the following table.

	Numbers of Personnel						
	1997–98	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*
Faslane	36	36	36	36	36	36	36
Coulport	30	30	30	30	30	30	30
East Riggs	20	20	20	20	20	20	20
Lossiemouth	29	30	30	30	30	30	30
Leuchars	49	49	49	49	45	44	37

In addition there are three other stations at RAF Buchan, RAF Kinloss and RAF Saxa Vord which are manned by service personnel.

I will write to the hon. Member with details of the number of service personnel and personnel costs and place a copy of my letter in the Library of the House.

Depleted Uranium

Ms Walley: To ask the Secretary of State for Defence when the Depleted Uranium Oversight Board was first set up. [144020]

Mr. Caplin: The formation of the Depleted Uranium Oversight Board (DUOB) was announced by the then Under-Secretary, my hon. Friend the Member for Kirkcaldy (Dr. Moonie) on 26 September 2001. The first meeting took place on 27 September 2001. Details of the Oversight Board including all minutes to meetings since September 2001 can be found on its website at www.duob.org.uk.

Ms Walley: To ask the Secretary of State for Defence what health and safety guidance is given to Service men and women in relation to their work where areas may be contaminated with depleted uranium; and if he will make a statement. [144105]

Mr. Caplin: As required by the United Kingdom health and safety legislation, specific instructions are prepared for each operation or situation in which MOD Service or civilian personnel may encounter depleted

uranium contamination. The instructions issued for the recent deployment to Iraq (Operation Telic) are on the Department's website at: www.mod.uk/issues/depleted_uranium/gulf_safety_instructions.htm

Earlier safety guidance is also on the Department's website at: www.mod.uk/linked_files/gulf_du_safety_guidance.pdf

Equipment Upgrades

Mr. Rosindell: To ask the Secretary of State for Defence whether there will be further investment in and upgrades of *(a)* SkyNet 5, *(b)* Bowman, *(c)* Falcon and *(d)* Watchkeeper. [144687]

Mr. Ingram: All of these equipment projects are due to come into service on an incremental basis in the period from 2004 to the end of the decade. Our first priority is to ensure that the currently planned capability (including planned upgrades where appropriate) is brought into service on time and to cost. We keep all our equipment capability requirements under review and will consider making further investment in, and upgrades to, these assets if that were the best way of meeting our future capability requirements. For Skynet 5, where we have contracted for service provision for a period of 15 years under PFI arrangements, the contractor will need to invest to meet his service obligations and is incentivised to provide technology refresh during the course of the contract.

Fair Trade Products

Mr. Bercow: To ask the Secretary of State for Defence whether it is the policy of his Department to use fair trade products, as a matter of course, in *(a)* sales on Departmental premises and *(b)* receptions and meetings involving staff and visitors. [142802]

Mr. Ingram: The Government are committed to supporting ethical trading wherever possible, and provide support to the Fair Trade Foundation's efforts in promoting the supply and marketing of Fairtrade products, but does not provide specific advice on this issue to departments. The Ministry of Defence does not have a specific policy related to the use of these products.

Future Rapid Effects Systems

Mr. Rosindell: To ask the Secretary of State for Defence if he will make a statement on the plan to procure future rapid effects systems, with particular reference to *(a)* costs, *(b)* efficiency and *(c)* potential for storage. [144684]

Mr. Ingram: The future Rapid Effects System project is currently in the Concept Phase. The Department is considering how best to take forward the requirement and will have regard to all relevant factors in determining the future direction of the programme.

Future Strategic Tanker Aircraft

Mr. Ben Chapman: To ask the Secretary of State for Defence when he expects to make an announcement on the contract for the Future Strategic Tanker Aircraft project. [144698]

Mr. Ingram: I refer my hon. Friend to the answer I gave on 9 December 2003, *Official Report*, column 356W, to my hon. Friend the Member for Chorley (Mr. Hoyle).

Harrier Aircraft

Mr. Rosindell: To ask the Secretary of State for Defence what plans he has for the withdrawal of Sea Harrier fighters over the next five years. [144673]

Mr. Ingram: I refer the hon. Member to the answer I gave on 28 February 2002, *Official Report*, column 1453W to the hon. Member for Broxtowe (Dr. Palmer).

Mr. Rosindell: To ask the Secretary of State for Defence if he will make a statement on *(a)* the availability and *(b)* the value for money of spare parts for RAF GR7 and GR9 Harriers compared with Sea Harriers. [144674]

Mr. Ingram: The availability and value for money of spares for the Harrier GR7/9 are comparable to those of the Sea Harrier. The current availability of spares fully meets our requirements.

Mr. Rosindell: To ask the Secretary of State for Defence how much has been spent on *(a)* repair and *(b)* upgrading of RAF Sea Harrier fighters within the last 18 months. [144680]

Mr. Ingram: The maintenance and repair of the Sea Harrier is undertaken at a variety of locations: operating units (first and second line); the Defence Aviation Repair Agency (third line); and a number of aerospace companies in the United Kingdom (fourth line). Maintenance work falls into a number of categories, some is preventative or routine, other work is based around fault diagnosis and rectification. The wide range of information is not held centrally and could only be provided at disproportionate cost.

No Sea Harrier upgrade programme has been undertaken in the last 18 months and there are no plans for one in the future.

Mr. Rosindell: To ask the Secretary of State for Defence how much he estimates it would cost to adapt the planned RAF GR7 and GR9 Harriers to accommodate *(a)* air-to-air radar and *(b)* the beyond visual range advanced medium range missile system. [144681]

Mr. Ingram: There are no plans to further enhance the air defence capability of the RAF's Harrier GR7/9 fleet. However, it is estimated that the cost of fitting air to air radar and the beyond visual range advanced medium missile system to these aircraft would be in excess of £600 million.

Mr. Rosindell: To ask the Secretary of State for Defence what plans he has to provide RAF GR7 and GR9 Harriers with further air defence capabilities in addition to the provision of Sidewinder missiles. [144682]

Mr. Ingram: When the Harrier GR7 fleet is upgraded to GR9 standard it will be optimised for the offensive support role rather than air defence. Harriers will continue to carry the very capable Sidewinder AIM 9-L missile, but we currently have no further plans to enhance the air defence capabilities of the GR7 or GR9 Harriers.

HMS Echo/HMS Enterprise

Mr. Hancock: To ask the Secretary of State for Defence if he will make a statement on why *(a)* HMS Echo and *(b)* HMS Enterprise are not in service; for how long they will be laid up; and what the annual cost of their (i) repairs and (ii) crew is. [143367]

Mr. Ingram: HMS Echo was accepted into service on 17 October 2003. HMS Enterprise was accepted from the prime contractor, Vosper Thornycroft in September 2003 and is expected to enter service in the third quarter of 2004. Both vessels' in-service dates have been delayed by design and production difficulties at the shipbuilder and subsequent technical difficulties. Neither vessel is laid up; however, HMS Enterprise's trials programme is currently on hold because of technical problems with her propulsion system. She is expected to resume her trials programme in April next year and in the meantime her crew are using the time to undertake training and vessel familiarisation.

These ships are maintained under novel contractor logistic support arrangements, the annual costs of which are commercially sensitive and I am withholding them in accordance with Exemption 7 of the Code of Practice on Access to Government Information, which relates to effective management and operations of the public service.

The annual crew costs for both vessels is approximately £3.8 million, excluding seagoing allowances and training costs.

Iraq

Dr. Murrison: To ask the Secretary of State for Defence how many road traffic *(a)* accidents and *(b)* deaths involving UK services personnel there have been in Iraq in each month since March; and how many military vehicles have been (i) written off and (ii) damaged in road accidents in Iraq since March. [R] [141059]

Mr. Ingram: The following table provides the information requested.

Month	*Total RTAs involving UK forces in Iraq*	*Total UK military fatalities as a result of an RTA in Iraq*	*Total vehicles beyond economic repair after being involved in RTAs in Iraq*
March	81	0	3
April	77	0	2
May	57	1	1
June	65	0	2
July	101	0	0
August	75	0	3
September	53	0	3
October	54	0	0
November	23	1	0

The number of vehicles that have been damaged in Road Traffic Accidents, but are not beyond economic repair, is not held centrally and would be provided only at disproportionate cost.

Adam Price: To ask the Secretary of State for Defence how many claims for compensation have been submitted by Iraqis in connection with fatalities allegedly involving British Forces since 1 May. [141688]

Mr. Ingram: Iraqis have submitted 23 claims for compensation in connection with alleged fatalities involving United Kingdom Forces since the 1 May 2003. Of these, seven have been repudiated, 13 are still under investigation, and three have received compensation payment.

Mr. Keetch: To ask the Secretary of State for Defence how much compensation has been paid by UK authorities in *(a)* Basra and *(b)* all of Iraq for injuries caused by UK forces; and if he will make a statement. [142177]

Mr. Ingram *[holding answer 9 December 2003]:* Of the 73 claims submitted for compensation by Iraqi civilians claiming to have been injured by United Kingdom Forces since 1 May 2003, 15 have been rejected, 39 are still under investigation and 19 have received payment. Of the 19 successful claims, seven were paid to people in Basra (total £2,000) and 12 were paid in the rest of Iraq (total £4,625).

Mrs. Liddell: To ask the Secretary of State for Defence if he will give an update on United Kingdom operations in Iraq as part of Operation Telic. [143728]

Mr. Ingram: United Kingdom Forces continue to mount security operations in Iraq. Recent operations against smuggling, for example, have been a considerable success and were widely welcomed by the Iraqi people. Our forces are also closely engaged in developing Iraq's own security capabilities so that Iraqis can take greater responsibility for their own security. Already more than 10,500 Iraqi police are on patrol in the Multinational Division (South East), and more are being trained; other Iraqi security personnel are guarding vital infrastructure, facilities and coastline.

I refer my right hon. Friend to the statement to the House of my right hon. Friend the Secretary of State for Defence on 15 December 2003, *Official Report*, column 1302, for the most recent announcement on troop deployments.

Mr. Rosindell: To ask the Secretary of State for Defence if he will make a statement on the level of deployment of *(a)* armoured Land Rovers, *(b)* Puma helicopters and *(c)* Gazelle helicopters to Iraq in relation to the number of British troops in the area. [144686]

Mr. Ingram: United Kingdom forces in Iraq currently operate 208 armoured Land Rovers. The helicopter fleet includes six Gazelles and six Pumas.

We keep equipment and force levels under constant review, but there are no immediate plans to significantly alter the Land Rover or helicopter fleets.

Mrs. Liddell: To ask the Secretary of State for Defence if he will list the UK *(a)* naval and *(b)* air components deployed in the Gulf. [143732]

Mr. Ingram: There are two Royal Navy frigates deployed to the Gulf, currently HMS St. Albans and HMS Norfolk, and a supporting Royal Fleet Auxiliary, currently RFA Bayleaf.

The air assets deployed to the region are six Tornado GR4s, two VC10s, two Hercules C130Js, one HS125 and three Nimrod aircraft.

Kosovo

Mr. Rosindell: To ask the Secretary of State for Defence if he will make a statement on the security situation in Kosovo. [143440]

Mr. Ingram: The overall security situation in Kosovo is stable. Within the secure environment provided by KFOR, the International Community continues to develop the capacity of the Kosovans to provide their own security, including through the Kosovo Police Service.

Legislation

Mr. Redwood: To ask the Secretary of State for Defence what percentage of *(a)* primary and *(b)* secondary legislation sponsored by his Department in 2002–03 was introduced to implement EU requirements. [141136]

Mr. Ingram: The Ministry of Defence did not sponsor any primary legislation during the 2002–03 session.

In the case of secondary legislation the Department was responsible for the making of 11 general statutory instruments, none of which was introduced to implement EU requirements.

Military Personnel (Psychiatric Treatment)

Tim Loughton: To ask the Secretary of State for Defence if he will list private mental health establishments used by his Department for treatment of military personnel in each of the last six years; and what the cost was in each year. [144152]

Mr. Caplin: The private mental health establishments that have been used by the Ministry of Defence for treatment of military personnel, referred from secondary care, in each of the last six years were:

Harrogate Clinic (Cygnet); Newcastle Nuffield; Lindisfarne; The Priory Altrincham; Middleton St. George; Cheadle Royal; Marchwood Priory Southampton; The Retreat (York); Priory Hospital (Chelmsford); Foxleigh Grove (Maidenhead); Tree's Park; The Priory Glasgow; The Priory Ticehurst and The Priory Bristol.

The total costs in each year are detailed in the table. The costs shown are actual outturn prices.

Financial year	*Total cost £*
1998–99	114,000
1999–2000	173,000
2000–01	261,000
2001–02	176,328
2002–03	91,441
2003–04[1]	155,234

[1] Cost up to and including November 2003

Some additional referrals have been made from Service primary care centres across the United Kingdom. This information is not held centrally and could only be provided at disproportionate cost.

Queen's Lancashire Regiment

Mr. Hoyle: To ask the Secretary of State for Defence if he will make a statement on *(a)* recruitment in the Queen's Lancashire Regiment and *(b)* the future of the Regiment. [144796]

Mr. Caplin: Recruitment in the Queen's Lancashire Regiment (QLR) remains steady and current enlistment shows an improvement on that achieved at this point last year.

There are currently no plans regarding the future of the QLR. The Defence White Paper provides the policy context for shaping the structure of our armed forces. Subsequently, the details of individual systems and units within that structure will need to be developed, but presently no decisions have been taken.

Mr. Hoyle: To ask the Secretary of State for Defence how many members of the Queen's Lancashire Regiment were deployed in Iraq. [144798]

Mr. Ingram: Some 484 members of The Queen's Lancashire Regiment have been, or are, currently deployed in Iraq. Of these, 64 are Territorial Army personnel.

Saudi Arabia

Norman Lamb: To ask the Secretary of State for Defence how many claims for payment for visa support and visa-related services by the Saudi Government have been endorsed since 1 January 1997 by staff of his Department's Director General of the Saudi Armed Forces project regarding the Al-Yamamah programme; and what the value has been of claims for visa support and visa-related services since then. [141987]

Mr. Ingram: None.

Seawolf

Mr. Soames: To ask the Secretary of State for Defence if he will make a statement on the Seawolf Mid-life Update programme; and what slippage there has been in the project. [144132]

Mr. Ingram: The Seawolf Mid-Life Update will improve the performance of this short range air defence system which is fitted to the Royal Navy's frigates, and will maintain its effectiveness well into this century. Against an original forecast In-Service Date (ISD) of late 2004, slippage of 13 months was reported in the 2001 Major Project Report. Following incorporation of an associated programme into the project to realise efficiency benefits through the harmonisation of work packages, the programme to ISD will be reviewed early in 2004. While slippage to ISD will delay the first ship fit, compression of the ship fitting programme will enable earlier delivery of the total capability across the frigate fleet.

Service Pensions

Mr. Gerald Howarth: To ask the Secretary of State for Defence whether the formula to be applied to compensation payable to ex-servicemen wrongly taxed on their service attributable pension will provide a return on the income wrongly deducted which is at least equivalent to the return which would have been

obtainable had the individual lent the equivalent sum to the Government under the National Savings scheme and received an element of damages; and whether the sum payable will be based on interest compounded *(a)* annually and *(b)* semi-annually. [145140]

Mr. Caplin: The formula for determining the gross compensation to ex-servicemen whose invaliding pensions were wrongly taxed for more than six years, involves uprating the sum owed by the Retail Prices Index plus 2 per cent. per annum. The sum payable is to be based on compounding annually. Over the last 20 years this provides a slightly lower return on average than applying the National Savings rate (based on a deposit of £10,000). However, in the preceding decade the Ministry of Defence's formula gives the higher return. Over the whole 30 years, the return using MOD's formula is slightly more generous than one linked to the National Savings rate.

Staffordshire Regiment

Michael Fabricant: To ask the Secretary of State for Defence if he will make a statement on the future of the Staffordshire Regiment following the publication of the Defence White Paper on 11 December. [144392]

Mr. Ingram *[holding answer 17 December 2003]*: There are currently no plans regarding the future of the Staffordshire Regiment. The Defence White Paper provides the policy context for shaping the structure of our armed forces. Subsequently, the details of individual systems and units within that structure will need to be developed, but presently no decisions have been taken.

Subcontractors

Mr. Hancock: To ask the Secretary of State for Defence (1) if he will make a statement on his policy with regard to bringing the delivery, cost and quality records of potential subcontractors to the notice of a defence prime contractor; [143368]

(2) in what circumstances he would direct the attention of a defence prime contractor to the delivery, cost and quality records of a potential subcontractor. [143448]

Mr. Ingram: The Ministry of Defence and its suppliers operate within the terms of the Codes of Best Practice to promote better working relationships in defence acquisition.

It is principally the responsibility of the Department's prime contractors to select and manage the performance of their subcontractors. Many prime contractors deploy their own schemes for tracking supplier performance.

It is not general policy to disclose details of an individual supplier's performance to other suppliers because such information would be commercially confidential. Only in exceptional cases involving, for example, national security or safety issues, would potential subcontract sourcing be considered as part of the Invitation to Tender for the prime contract.

Territorial Army

Mr. Rosindell: To ask the Secretary of State for Defence what percentage of members of the Territorial Army have been paid on time in each of the last 12 months. [144683]

Mr. Caplin: Although a percentage figure is not held, the vast majority of Territorial Army personnel have been paid on time during the last 12 months. We are aware, however, that a small number of personnel mobilised during the early stages of recent operations in Iraq did experience delays in receiving the correct pay and allowances.

Type 45 Destroyer

Mr. Rosindell: To ask the Secretary of State for Defence what plans he has to alter the planned number of Type 45 destroyers to be purchased over the next decade. [144688]

Mr. Ingram: There are six Type 45 Destroyers currently on order. Construction on the first has already begun at BAE Systems' yards on the Clyde and at the new Vosper Group facility at Portsmouth. Decisions about further orders of Type 45 Destroyers are not anticipated until the middle of this decade.

Monday 5 January 2004

INTERNATIONAL DEVELOPMENT

Angola

Hugh Bayley: To ask the Secretary of State for International Development with specific reference to Angola, what the indicators are that define a good poverty reduction strategy paper; and what the criteria are by which the Government will measure governance and transparency credentials. [146161]

Hilary Benn: The indicators for a good poverty reduction strategy paper (PRSP) are those defined by the Joint Staff Assessment (JSA) Guidelines of the World Bank and International Monetary Fund. The JSA guidelines reflect the main principles underlying the PRSP approach. The PRSP should be prepared by the Government, including broad participation that promotes country ownership of the strategy and its implementation as well as partnerships among the government, domestic stakeholders and development partners. The JSA guidelines also reflect the expectation that, although the specific content of PRSPs will vary widely among countries, a PRSP will include four core elements: a description of the country's participatory process; poverty diagnosis; targets, indicators, and monitoring systems; and priorities for public action. Good governance measures, including those which address transparency and corruption fall under the public action section.

The UK has been working closely with the Government of Angola to ensure that the PRSP adheres to all of the JSA guidelines. The donor community in Angola fully expects the next draft version of the paper, likely to be published early in the new year, to include a strategy for good governance. Key components of that strategy will be greater transparency on Government income and expenditure as well as plans to eradicate corruption from all levels of government. The UK will continue to work closely with the World Bank and other donors to ensure that the text and implementation of the Angola PRSP meets the high standards demanded by the JSA guidelines.

Colombia

Mr. Drew: To ask the Secretary of State for International Development what aid his Department is providing to Colombia, with particular reference to aid to *(a)* help the development of civil society, *(b)* improve human rights and *(c)* encourage the activity of free trades unions. [144923]

Mr. Gareth Thomas: DFID provides assistance to Colombia through the Civil Society Challenge Fund. 'War on Want' has received a £213,948 grant over four years for a 'Promotion of Workers and Human Rights' project in South West Colombia, which aims to increase trade union and social organisations' capacity to defend human and workers' rights. UNISON has received a £25,000 grant over three years to work with activists within civil society organisations and trade unions across Latin America to improve their capacity for dialogue with international global institutions such as the World Trade Organisation and the International Labour Organisation.

DFID also contributes to the EC's Euro 105 million Country Programme for Colombia (2001–06), which contains four elements—two of which directly support efforts to improve human rights (support to administrative and judicial reform and promotion of human rights). DFID funds a £140,000 Small Grants Scheme in Colombia, which is managed by the embassy and supports projects with civil society groups.

Disabled Civil Servants

Tim Loughton: To ask the Secretary of State for International Development how many senior civil servants in his Department are disabled, expressed in *(a)* numbers and *(b)* as a percentage of whole-time equivalents. [144976]

Hilary Benn: Statistical information about senior civil servants with disabilities is available on the Civil Service Statistics website at http:/www.civil-service.gov.uk/statistics/documents/pdf/disability-oct03.pdf

As there are less than five members of the senior civil service in DFID with a disability, the actual number is not published in order to protect the privacy of the individual in line with exemption 12 of the Code of Practice on Access to Government Information.

Emergency Food Aid

Hugh Bayley: To ask the Secretary of State for International Development what action is being taken to respond to emergency food needs in *(a)* southern Mozambique and *(b)* Lesotho. [146156]

Hilary Benn: DFID is currently helping over 600,000 people in drought affected areas in southern Mozambique, working in co-ordination with other donors. DFID has recently provided an additional £2.3 million for WFP's operation, which includes a contribution to further vulnerability assessments. In addition, a further £350,000 has been given to support UNICEF's emergency response and vulnerability reduction programme. This programme includes nutritional and epidemiological surveillance, supplementary feeding, and nutrition support for people living with HIV/AIDS. While a good harvest is predicted for April 2004, we shall continue to monitor the situation closely.

In Lesotho, DFID is working closely with the WFP and has already provided £3 million to support feeding programmes and to assist agricultural recovery. However prospects for the 2004 harvest remain grim, with the poorest seasonal rains since records began in 1915. It is evident that food shortages will continue and that vulnerable groups will require on-going assistance. We have earmarked funds to respond to a new emergency appeal which is being prepared.

Eritrea

Mr. Sarwar: To ask the Secretary of State for International Development if he will make a statement on assistance being provided in Eritrea. [145435]

Hilary Benn: I refer my hon. Friend for Glasgow, Govan to the answer that I gave the hon. Member for Stroud (Mr. Drew) on 16 December 2003, *Official Report*, column 829W.

EU Aid (Fraud)

Mr. Rosindell: To ask the Secretary of State for International Development what discussions he has had with his EU counterparts on the subject of fraud in EU aid programmes. [144675]

Mr. Gareth Thomas: The progress of the on-going reforms aimed at improving EC financial accountability was reviewed by the Secretary of State and the representatives of other member states in the discussion of the annual report for 2002 at the November General External Affairs Council. The investigation by the Commission's Internal Audit Service into all Commission directorates and agencies, including AIDCO, will report early in the new year. All accusations of fraud are taken very seriously and followed up by DFID.

Since the late 1990s, DFID has supported the reform of the EC's aid programmes and policies, in particular the establishment of the EuropeAid office, the reform of the Management Committees, the reduction in the backlog of unspent Commission funds and the reform of the financial management of the Commission's external assistance. These measures should improve the transparency and accountability standards of the EC aid programme financial management through better scrutiny, a key and integral feature of the overall reform process.

European Constitution

Mr. Bercow: To ask the Secretary of State for International Development what recent discussions he has had with representatives of non-governmental organisations about the proposal in the Draft European Constitution to merge the roles of High Representative and External Affairs Commissioner of the European Union. [140875]

Mr. Gareth Thomas: I met with the heads of CONCORD, a Brussels-based platform for development NGOs, ActionAid and Eurostep during my visit to Brussels in early September. We discussed the outcome of the Convention debate on development and humanitarian assistance and agreed important progress had been made in these areas so far. We also agreed our main aim for the Inter-governmental Conference, which started in early October, would be to maintain these gains. I also discussed the issue of merging the role of EU's High Representative for the Common Foreign and Security Policy and the External Affairs Commissioner with non-governmental organisations.

Give as You Earn Scheme

John Barrett: To ask the Secretary of State for International Development how many and what percentage of staff in his Department contribute to a charity through the Give as You Earn scheme; how much money is donated to charity per month by staff in his Department through the scheme; and what steps he is taking to encourage greater participation in the scheme by staff in his Department. [143910]

Hilary Benn: In the financial year 2002–03, 64 DFID employees were regular contributors through the Give as You Earn scheme, representing approximately 3.8 per cent. of the Department's Home Civil Service Staff. The total value of contributions was £16,190, equivalent to £1,349 a month.

The scheme is promoted on our departmental intranet with information about how to contribute and regular updates on scheme initiatives. At our invitation, a representative of the Giving Campaign recently made a presentation about the scheme to DFID Directors and other senior managers.

We know that many staff in DFID support good causes in other ways and the information provided above does not represent the full extent of the charitable activity of our employees.

HIV/AIDS

Mr. Woodward: To ask the Secretary of State for International Development what funding the Government provided for HIV/AIDS programmes in *(a)* Burundi, *(b)* Democratic Republic of the Congo, *(c)* Rwanda and *(d)* Uganda in (i) 2001, (ii) 2002 and (iii) 2003; what funding will be provided in (A) 2004, (B) 2005 and (C) 2006; and what research has been commissioned on the number of people infected in each country. [146022]

Hilary Benn: Support to HIV/AIDS is being provided as follows:

Burundi: £5.1 million over a three-year period (2002 to 2005) through Action Aid for support to the National AIDS Control Programme and Population Services International (PSI) for condom social marketing. Research and monitoring is carried out nationally by the National AIDS Control Programme.

DRC: In 2002–03 a total of £375,622 through MSF for an AIDS Care project in Bukavu was spent; in 2003–04 a total of £500,000 to Population Services International (PSI) for an expanded programme of condom social marketing has been spent. Research and monitoring is carried out nationally by the National AIDS Control Programme based in Kinshasa. DFID is doubling its core contribution next year as are others. DPID recently published its Country Engagement Plan for the DRC which sets out the key aims for a post-conflict DRC. The fight against HIV/AIDS is one of those aims and we will be working with partners on this as we build up our programme.

Rwanda: £2.95 million to the National AIDS Commission over the period April 2002 to March 2005. The primary objective is to substantially enhance the effectiveness of Rwanda's response to HIV/AIDS. DFID has also committed £895,993 to PSI over the period February 2002 to February 2005 to support social marketing of condoms and £521,000 to support an HIV/AIDS unit within the Ministry of Education, Science and Technology over the period April 2001 to March 2006. In addition, since 2000–01 DFID has provided £65.4 million in general budget support to the Government of Rwanda (GoR) and is planning to provide a further £84 million over the period 2003–04 to 2005–06. This provides core funding so that GoR can tackle its Poverty Reduction Strategy objectives, which include improving HIV/AIDS related health care activities.

Research on the number of people infected with HIV/AIDS was carried out in Rwanda before 1994 and looked at the historical background of HIV infection. In 1997 the Ministry of Health carried out research on the number of people infected and 11.1 per cent. were found to be HIV positive. During six months

of every year all hospitals in Rwanda are asked to carry out a survey on the number of infected pregnant women for both rural and urban areas. The GoR currently estimate that 400,000 of its population are infected with HIV/AIDS. GoR will be carrying out an HIV/AIDS demographic survey in early 2004.

Uganda: In 2000–01 a total of £1.5 million was spent on HIV/AIDS; in 2001–02 £0.9 million was spent; in 2002–03 £1.23 million was spent. A total of £0.78 million has so far been spent in 2003–04 (£1.27 million is forecast for this financial year). For 2004–05 and 2005–06 £2 million is forecast respectively for each year. In addition, since 2000–01 general budget support has been provided to the Government of Uganda. However, it is impossible to estimate how much is being spent on HIV-related and health care activities. The numbers of people infected are currently measured through a sentinel surveillance system where they are anonymously tested. A survey of 30,000 people is planned for early 2004 and will be undertaken by USAID and the Government of Uganda.

Mr. Woodward: To ask the Secretary of State for International Development what estimate he has made of the number of children orphaned as a result of HIV/AIDS in *(a)* Burundi, *(b)* Democratic Republic of the Congo, *(c)* Rwanda and *(d)* Uganda in (i) 2001, (ii) 2002 and (iii) 2003. [146050]

Hilary Benn: Accurate data of the number of children orphaned as a result of HIV/AIDS is limited throughout the Great Lakes region. In Burundi it is estimated to be about 30,000 a year. In DRC it is estimated to be about 800,000 a year. In Rwanda it is estimated to be about 40,000 a year. In Uganda, according to the situation analysis of orphans in Uganda November 2002, it is estimated that there are a total of 2 million orphans of which 884,000 are AIDS orphans. This information was based on 2001 data. We have no more recent data.

Mr. Woodward: To ask the Secretary of State for International Development if he will make a statement on the HIV/AIDS situation in the countries of the Great Lakes Region in Africa. [146051]

Hilary Benn: More than two-thirds of all HIV-infected people live in Sub-Saharan Africa—some 25 million people (and over 13 million have already died as a result of AIDS). The Great Lakes region remains the most severely affected and most countries there face a serious crisis.

According to UN AIDS estimates for 1999, the cumulative total number infected and cumulative deaths for Rwanda, Burundi, Tanzania and Uganda are as follows:

	Cumulative total of number infected	*Cumulative deaths*
Burundi	360,000	39,000
Rwanda	400,000	40,000
Tanzania	1,300,000	140,000
Uganda	820,000	11,000

Only Uganda has achieved an apparently sustainable reduction in the rate of new infection.

In the case of DRC, according to a recent report by the UN, half of the hospital beds are occupied by people with HIV/AIDS and it will take years to measure the exact impact in the country. Efforts to combat HIV/AIDS have been hampered by nearly five years of civil war. The UN mission in-country is using the media to increase awareness as well as working through non-governmental organisations. DFID recently published its Country Engagement Plan for the DRC which sets out the key aims for a post-conflict DRC. The fight against HIV/AIDS is one of those aims and we will be working with partners on this as we build up our programme in the DRC.

Iraq

Mr. Carmichael: To ask the Secretary of State for International Development what the average wage paid to engineers from *(a)* Iraq, *(b)* the USA and *(c)* the UK who are working on reconstruction projects in Iraq is. [145280]

Hilary Benn: Insufficient information is available on rates of pay for individuals working in Iraq to be able to assess average wages for particular professions or nationalities. DFID's policy is not to make public the salaries paid to individual consultants and contractors.

It can reasonably be assumed that pay rates for engineers working in Iraq vary significantly according to the qualifications, experience and circumstances of the individual, the type of contract and the employing organisation.

Mr. Carmichael: To ask the Secretary of State for International Development what steps are being taken to recruit Iraqi engineers for reconstruction programmes in Iraq. [145281]

Hilary Benn: Iraqi engineers are already involved in identifying Iraq's reconstruction needs, setting priorities and supporting implementation of projects. UN agencies and NGOs employ large numbers of Iraqi technical staff including engineers. In the south DFID funds the Recovery and Infrastructure Group (RIG), which is refurbishing key government buildings, and another project, which is rehabilitating the offices for the Governorate teams. We are also funding the Emergency Infrastructure Project, which is carrying out emergency refurbishment of power, water and fuel supply infrastructure. The consultants leading those projects employ Iraqi engineers as integral members of their teams. DFID staff have been impressed by the technical competence of the Iraqi engineers.

Mr. Gardiner: To ask the Secretary of State for International Development if his Department will work with the Coalition Provisional Authority to ensure that efforts are made in the forthcoming school year to ensure gender equality for *(a)* the number of children attending school and *(b)* the number of children taking exams in Iraq. [145604]

Hilary Benn: DFID is funding three education advisers to work with CPA South and liaise with CPA, including on gender equality. We have provided significant support in Iraq to UNICEF, who share our concerns about all Iraqi children being able to complete their schooling and who have a particular responsibility for championing gender equality. Over the coming year we also expect to make a substantial contribution to the multi-donor trust fund for Iraq, a significant proportion of which is likely to be used to support the education sector.

Tom Brake: To ask the Secretary of State for International Development when *(a)* he and *(b)* departmental officials last met Paul Bremer (i) in Iraq, (ii) in the UK and (iii) elsewhere. [145914]

Hilary Benn: DFID's Permanent Secretary and I met Paul Bremer in Iraq in September 2003.

Regular contact between the Government and Ambassador Bremer is conducted through the Prime Minister's Special Representative to Iraq, Sir Jeremy Greenstock. DFID staff in Baghdad are also in frequent contact with US officials in the Coalition Provisional Authority.

Rwanda

Tom Brake: To ask the Secretary of State for International Development what mechanisms his Department has available to it to encourage Rwanda to adhere to the Memorandum of Understanding. [145797]

Hilary Benn: The commitments made by the Government of Rwanda in the UK/Rwanda Memorandum of Understanding are drawn in large part from Rwanda's Poverty Reduction Strategy, the National Programme for Strengthening Good Governance for Poverty Reduction, the international and African human rights agreements which the Government have ratified, and the regional peace and stability Agreements which the Government have signed. The Government's accountability for honouring their commitments therefore primarily rests with the Rwandan people, through Parliament and civil society organisations. We are helping the Government to meet their commitments through maintaining a constructive dialogue with key individuals and organisations, by establishing regional and national networks, for example between Governments and between Government and civil society, and by providing targeted technical assistance.

Tom Brake: To ask the Secretary of State for International Development what the notification process is for informing the Rwandan Government of any failure to adhere to the Memorandum of Understanding. [145798]

Hilary Benn: Should we believe that the Government of Rwanda have taken or plans to take action incompatible with their commitments within the UK/Rwanda Memorandum of Understanding, we would formally notify the Government of Rwanda of our concern, drawing their attention to the potential implications of a failure to honour their commitments, and discuss what remedial action might be taken and how the UK might support such action. Notification could be effected through a written exchange between myself and His Excellency the President of Rwanda or, on my instructions, at a local level.

The UK/Rwandan Memorandum of Understanding provides for a period of discussion between the two Governments, before any decision to change the UK's programme of assistance is made. Our aim in any re-change in our engagement will be to continue to make the greatest possible impact on poverty in Rwanda.

Southern Africa

Hugh Bayley: To ask the Secretary of State for International Development what steps he is taking to ensure that the Southern Africa Hunger and Vulnerability Strategy will have sufficient resources to ensure that the lessons learned from the International Development Committee enquiry on the humanitarian crisis in southern Africa are acted upon. [146157]

Hilary Benn: The Southern Africa Hunger and Vulnerability Strategy has been developed in response to the issues raised in the International Development Select Committee's Report. We will work to strengthen vulnerability monitoring and assessment systems that can feed into the design of safety nets in the region and will explore how the role of the private sector in enhancing food security can be encouraged. We also intend to provide support for policy networks working on food security issues in Southern Africa so that a longer-term focus on regional food security can be maintained.

We are in the process of designing a programme of support along these lines. We will look for opportunities to work with national Governments and with bilateral and multilateral donors in order that DFID's resources can leverage longer-term investment in regional food security.

Hugh Bayley: To ask the Secretary of State for International Development what steps are being taken to ensure food aid in southern Africa is *(a)* only distributed where it can be demonstrated to be the best response and *(b)* allocated on the basis of national Vulnerable Assessment Committee data. [146158]

Hilary Benn: DFID is one of the major funders of Vulnerability Assessment Committees in Southern Africa. We continue to support the work of the VACs in Lesotho, Malawi, Mozambique, Swaziland, Zambia and Zimbabwe in an effort to better track vulnerability trends, and to provide a more detailed assessment of humanitarian needs and the most appropriate response to them.

VAC data has already been used to help programme our response to current humanitarian needs in the region. We are providing support for food aid operations in Zimbabwe, Lesotho, Swaziland and Mozambique, where VACs have recommended continued food aid programming. In situations where food aid is not considered to be an appropriate response, we are providing a range of other support aimed at encouraging agricultural recovery. Seed fairs, targeted input schemes, and support for public works programmes that provide incomes for the rural poor, are examples of non-food aid relief that DFID is currently funding.

Hugh Bayley: To ask the Secretary of State for International Development what plans the Government has to *(a)* prevent the deterioration of health and education services in southern Africa as a consequence of the HIV/AIDS crisis and *(b)* support the strengthening of these services. [146159]

Hilary Benn: DFID is currently working on this issue at a number of levels. Activities in the southern Africa region include increasing information on the impact of HIV/AIDS on the social services; the promotion of

national plans that address its impact; funding for HIV/AIDS prevention and mitigation programmes; and capacity building support for health and education services. DFID is working closely with Governments, civil society, the private sector, and other donors to tackle HIV and AIDS which is the major challenge for the region.

The Government's recent "Call for Action on HIV/AIDS" promises to make HIV/AIDS a priority for the additional £320 million a year which DFID will be devoting to Africa by 2006, fulfilling the UK pledge to increase development assistance to Africa to £1 billion per annum.

World Trade Organisation

Mr. Rosindell: To ask the Secretary of State for International Development if he will make a statement on the impact of the breakdown of the world trade talks in Cancun on developing countries. [144678]

Hilary Benn: I refer the hon. Gentleman to the statement made by the Secretary of State for Trade and Industry on 17 September 2003, *Official Report*, column 861.

Zimbabwe

Mr. Rosindell: To ask the Secretary of State for International Development what recent discussions he has had with officials from the *(a)* EU and *(b)* UN regarding human rights in Zimbabwe. [144679]

Hilary Benn: Human rights abuses are an increasing cause for concern in Zimbabwe. There continue to be high levels of political violence and repression, particularly against trade unions and the independent media. Failed economic policies have also undermined basic social and economic rights. This is reflected in the 5.5 million people requiring food aid and the collapse of basic services.

The subject of human rights in Zimbabwe is regularly discussed by officials at meetings of the EU's Africa Working Group. In Harare, we work closely with the UN Resident Representative and EU Ambassadors to promote human rights. This has included work on humanitarian principles to ensure relief and recovery programmes are not politicised and reach those most in need.

Hugh Bayley: To ask the Secretary of State for International Development what the criteria are for identifying recipients of food aid in Zimbabwe. [146154]

Hilary Benn: Criteria for the distribution of food aid through the World Food Programme have been set out in a recent Memorandum of Understanding between WFP and the Government of Zimbabwe. These criteria use a number of different indicators of vulnerability to ensure that food assistance is distributed on the basis of need. The households that receive highest priority include those with chronically ill adults, those headed by children or disabled people, and those without access to land or income.

In addition to these general rations distributed to households, DFID and other humanitarian partners are providing supplementary feeding through clinics and home based care programmes. Priority has been given to areas where there is limited coverage of general distributions, high rates of childhood malnutrition and poor harvests last year.

Hugh Bayley: To ask the Secretary of State for International Development what contingency plans are in place in the event that food needs remain unmet in *(a)* Zimbabwe and *(b)* other parts of southern Africa before the next harvest. [146155]

Hilary Benn: In Zimbabwe it is unlikely that there will be sufficient food for the 5.5 million people who are expected to need assistance during the pre-harvest season, i.e. January to April. DFID is again providing almost £20 million for emergency feeding programmes this year, but the Government of Zimbabwe's contribution to the humanitarian feeding operation is expected to be negligible. The World Food Programme has responded by reducing rations, and is now providing about 50 per cent. of daily needs. DFID is working with the World Food Programme, other UN agencies and various non-governmental organisations to ensure that the available humanitarian resources are used efficiently and prioritised to reach the most vulnerable, including households affected by AIDS.

We are monitoring closely the situation in other countries in the region. We have already provided almost £3 million for food aid programmes in Mozambique, Lesotho and Swaziland to cover immediate requirements until the harvest season, and are augmenting this with support for agricultural recovery activities. We are also funding the work of the Vulnerability Assessment Committees to provide more detailed information on vulnerability, and have used this data to target nutritional support operations in Mozambique and Lesotho to complement food aid deliveries in these countries.

ELECTORAL COMMISSION

Boundary Review

26. **Dr. Evan Harris:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission, what plans the Commission has to reform the process of parliamentary boundary review. [145853]

Mr. Viggers: The Commission has no such plans. Section 16 of the Political Parties, Elections and Referendums Act 2000 provides for the functions of the Boundary Commissions to be transferred to the Electoral Commission, but these provisions have not yet been implemented. Consequently, the Electoral Commission has no responsibility yet for the process of parliamentary boundary review.

Voting Procedures

27. **Mr. Carmichael:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission, what discussions the Committee has had with the Electoral Commission on ensuring that people unable to sign or mark proxy or postal application forms are able to vote. [145854]

Mr. Viggers: The Speaker's Committee's statutory remit does not normally require it to discuss such matters with the Electoral Commission, and no such discussions have taken place. The Commission considered this matter in its report on absent voting, published in March 2003, but having regard to the practical difficulties in preventing abuse if the law allowed severely disabled voters to be assisted outside a polling station, recommended that the law should not be changed in relation to the application procedure for proxy votes.

TRANSPORT

Air Transport

Mrs. May: To ask the Secretary of State for Transport when he expects to start the consultation on a new night noise regime at *(a)* Heathrow, *(b)* Gatwick and *(c)* Stansted. [145636]

Mr. Darling: In the first half of this year.

Mrs. May: To ask the Secretary of State for Transport (1) if he will define the phrase 'longer term' in the context of paragraph 11.103 of, The Future of Air Transport; [145638]

(2) pursuant to paragraph 11.103 of The Future of Air Transport what his conclusion is regarding future use of White Waltham airfield. [145639]

Mr. Darling: In paragraphs 12.15 to 12.18 of the SERAS consultation, the Department asked for views on the potential of six existing business aviation sites including Farnborough, Northolt and Southend, to accommodate future demand for business aviation. This took account of the findings from the Department's study of business aviation in the South East which was published as the part of the consultation in July 2002.

In addition to these sites, the business aviation study also considered that two predominantly general aviation airfields, White Waltham and North Weald, were well located to meet some of the demand for business aviation in the longer term, but the case for White Waltham would be largely dependent on the future provision of capacity at Luton, Farnborough, and Northolt during the 30 year period of the White Paper. Consequently, the White Paper recognised this potential but did not arrive at any conclusions about whether White Waltham should be expanded to meet demand for business aviation.

BAA

Mr. Donohoe: To ask the Secretary of State for Transport if he will make a statement on the ownership of BAA following the publication of the Government's White Paper on aviation; and what plans he has to break up the company. [145157]

Mr. McNulty: The Government's position on the ownership of BAA is set out in its response to the Transport Committee's Report on Aviation, Cm 6047, published in parallel with the White Paper.

Birmingham Airport

Mrs. Spelman: To ask the Secretary of State for Transport whether the counter proposal for a second runway produced by Birmingham International Airport is formally being considered as part of the consultation process on the future of aviation; and if he will make a statement. [142025]

Mr. McNulty: The Department considered Birmingham International Airport's proposal as a refinement of the wide-spaced parallel runway option which was included in the Midlands Consultation Document. For the reasons set out in the White Paper "The Future of Air Transport", we have decided to support it.

Child Pedestrians (Road Accidents)

Mr. Sheerman: To ask the Secretary of State for Transport what the location was of each incident resulting in the death or serious injury of a child pedestrian on UK roads in 2002; what the posted speed limit was at each of these locations; and what the actual speed was at which the vehicle involved was travelling at the time of incident. [144713]

Mr. Jamieson: The total number of fatally and seriously injured child pedestrians in road accidents in Great Britain in 2002 was 2,828. Details of every such accident could be provided only at disproportionate cost.

The following table shows the number of road accidents in Great Britain in 2002, where at least one child (0–15) pedestrian was either killed or seriously injured, by the speed limit and road class.

Information on actual vehicle speeds at the time of the accidents is not recorded as part of the Department's road accident data collection system.

Fatal or serious accidents

Road type	[1]*BU*	[2]*NBU*
Motorway	0	2
A	709	65
B	318	19
C	274	12
Unclassified	1,392	19
Total	2,693	117

[1] Built-up roads, roads with a speed limit of 40mph.
[2] Non built-up roads, roads with a speed limit of 70mph.

Drink Driving

Mrs. May: To ask the Secretary of State for Transport how much the Department spent on advertising the Drink Drive Campaign in each year since 1997. [144830]

Mr. Darling: Campaign advertising costs for drink drive since 1997 are as follows:

	£
1997–98	1,334,000
1998–99	1,404,000
1999–2000	2,106,000
2000–01	1,700,000
2001–02	1,346,000
2002–03	1,644,000
2003–04	[1]2,150,000

[1] estimated outturn

Peter Bottomley: To ask the Secretary of State for Transport what research he *(a)* has commissioned and *(b)* plans to commission on the reasons for the number of drink drive fatalities. [144553]

Mr. Jamieson: Estimates of drink drive deaths and injuries are produced annually and routine information is obtained from Coroners on the level of alcohol in road accident fatalities. These enable monitoring of trends.

For the purpose of developing road safety publicity we continue to gauge attitudes and behaviour in omnibus research carried out throughout the year and also in qualitative research with targeted groups on both the effectiveness of various creative strategies and on attitudes and behaviour towards drink driving.

Our road safety research programme has included many projects on alcohol related accidents. Most recent projects have examined the behaviour of High Risk Offenders and the effectiveness of Drink Drive Rehabilitation Courses. We are about to place a contract to investigate the usefulness, acceptability and impact on lifestyle of Alcohol Ignition Interlocks for drink driving offenders. We are also the main sponsor of the worlds largest conference on this subject—the 17th International Conference on Alcohol, Drugs and Traffic Safety which meets in Glasgow in August 2004.

Peter Bottomley: To ask the Secretary of State for Transport if he will list the issues on which views were invited in Combating Drink Driving: Next Steps, published in February 1998; and what action has been taken with regard to each of them. [144555]

Mr. Jamieson: Each of the issues and the action taken are listed in the following table below.

Proposal	*Action taken*
1. Introducing powers to authorise breath testing without prior suspicion.	Not proceeded with. A proposal to give the police powers to carry out targeted breathtesting was included in the Road Safety Strategy. In the event, this was deemed unnecessary as the police already undertake intelligence-led enforcement against drink-driving.
2. Where Bail Act powers are used to prevent driving between an offence and a court appearance, reducing the final period of any disqualification by any period by the amount of time that the driver was banned as part of his or her bail.	Not proceeded with. This was not an issue which attracted significant comment in the public response.
3. Streamlining prosecution proceedings by conditional fixed penalty offers to drivers not to take court proceedings and by evidential roadside breath testing.	Conditional fixed penalty offers were not proceeded with. This proposal received little support in the public response. The Government agree with those who consider that the seriousness of drink-driving offences should require a court appearance. The Government are planning to introduce legislation giving the police powers to carry out evidential roadside breathtesting as soon as parliamentary time permits.
4. Reducing the drink-drive limit to 50mg/100ml	The Government have decided not to lower the legal limit.
5. In the event of a 50mg limit, whether the current 12 months' period of disqualification should be retained or lesser penalties applied to offences in the 50–80mg range.	No action taken in view of decision on 4.
6. Introducing a specially low drink-drive limit for novice drivers.	Not proceeded with. The Government consider that allowing drivers to drink more once they cease to be novices might convey the wrong message.
7. The effectiveness of drink-drive rehabilitation courses and ideas for extending or modifying the scheme or the range of offenders to be sent on courses.	A permanent drink-drive rehabilitation scheme was introduced throughout Great Britain from 1 January 2000. The Government are planning to introduce legislation enabling courts to refer offenders to driver retraining and improvement courses as soon as parliamentary time permits.
8. Promoting self-test breathalysers.	The Government expressed doubts about the value of such devices in the consultation document and, in the light of the response, sees no reason actively to promote them.

Fuel Efficiency (Road Transport)

Mr. Challen: To ask the Secretary of State for Transport what steps his Department will be taking to implement the EU voluntary agreement for improving average fuel efficiency for new cars. [145733]

Mr. Jamieson: The Government strongly supports the Voluntary Agreements on new car fuel efficiency between the European Commission and the automotive industry, and has put in place a number of policies to incentivise the uptake of fuel-efficient vehicles in the UK. These are set out in detail in the Powering Future Vehicles strategy, copies of which are available in the Libraries of the House and via the Department's website.

The main measures include a number of fiscal incentives to encourage the purchase of more fuel-efficient vehicles, such as the graduated Vehicle Excise Duty and company car tax regimes. We also provide Government grants to support the purchase of certain types of fuel-efficient vehicle, including petrol-electric 'hybrid' vehicles. In recent months, we have been piloting colour-coded energy efficiency labels for new cars in some showrooms, as a way of getting clearer information on fuel efficiency to consumers, and we will be supporting the European Commission as it seeks to develop an EU-wide car energy efficiency labelling scheme. As a result of these and other measures, average new car fuel efficiency in the UK has improved by almost 10 per cent. since 1995.

The Government's Energy White Paper, published in February 2003, confirmed the Government's strong support for the Voluntary Agreements, and committed us to working with the European Commission in developing further Voluntary Agreements to continue the improvement in average new car fuel-efficiency. We have written to the European Commission setting out our view that new Agreements should be reached at an early date, establishing a new time horizon such as 2015. We have suggested that new targets should be based on authoritative evidence on available technology improvements, having regard to the full range of environmental, social and economic factors.

Mr. Challen: To ask the Secretary of State for Transport what incentives his Department is giving to the use of road transport fuels which produce the least greenhouse gas emissions. [145745]

Mr. Jamieson: "Powering Future Vehicles—The Government Strategy", published in July 2002, describes the action which the Government are taking to promote the shift to clean, low carbon fuels and vehicles, including low duty rates for liquefied petroleum gas, natural gas, hydrogen and biofuels, the introduction of CO_2 -based graduated VED (Vehicle Excise Duty) and company car tax, and grants towards the purchase or conversion of cleaner fuelled vehicles, including electric and hybrid vehicles. Details of these purchase grants can be found at: www.transportenergy.org.uk The First Annual Report on implementation of the Strategy was published in October. Copies of both documents are available in the Libraries of the House.

Legislation

Mr. Redwood: To ask the Secretary of State for Transport what percentage of *(a)* primary and *(b)* secondary legislation sponsored by his Department in 2002–03 was introduced to implement EU requirements. [141129]

Dr. Howells: No primary legislation sponsored by the Department for Transport in the 2002–03 Parliamentary session was introduced to implement EU requirements. The secondary legislation sponsored by the Department comprised both general and local instruments. The proportion of all these instruments which were introduced to implement EU requirements was approximately 1 per cent. In the case of general instruments alone the proportion was approximately 13 per cent.

Maritime and Coastguard Agency

Mr. Waterson: To ask the Secretary of State for Transport how many prosecutions have been brought by the Maritime and Coastguard Agency in each of the last 10 years; and how many of them have resulted in convictions. [145242]

Mr. Jamieson: Prior to 1995, prosecutions by the Maritime and Coastguard Agency were conducted by local offices. In 1995 the process was started to centralise these prosecutions, and by 1998 the central unit had became fully functional. Data prior to 1995 is not available.

Year	*Number of prosecutions*	*Number of convictions*
1995	1	1
1996	2	2
1997	4	4
1998	8	8
1999	10	10
2000	9	9
2001	[1]10	9
2002	[1]13	12
2003	7	7

[1] In both 2001 and 2002 the Maritime and Coastguard Agency did joint investigations with the police. The Crown Prosecution Service and not the Maritime and Coastguard Agency undertook the prosecutions which did not result in a conviction.

Marketing

Mrs. May: To ask the Secretary of State for Transport how much his Department spent on marketing in each year since 1997. [144886]

Mr. Darling: Annual expenditure for the years requested are as follows:

	£ million
1997–98	18.8
1998–99	18.2
1999–2000	26.9
2000–01	32.0
2001–02	15.0
2002–03	17.6

For the latest year, 2002–03, approximately $\frac{3}{4}$ of the expenditure relates to Think! which promotes road safety messages to adults and children and is a vital part of the Government's strategy to reduce deaths and injuries.

Until 2001 figures for expenditure cover the Department for Transport, Local Government and the Regions, (DTLR) and the Department for Environment, Transport and the Regions (DETR). Breaking out the transport element for the years 1997–98 to 2000–01 could be done only at disproportionate cost.

Motorways

Mr. Goodman: To ask the Secretary of State for Transport which bodies are responsible for the safe use of traffic cones on motorways. [145781]

Mr. Jamieson: The prime responsibility for the safe use of traffic cones on motorways lies with the highway authority and its consultants and contractors. In general, the Highways Agency, acting on behalf of the Secretary of State for Transport, is the highway authority for motorways in England.

In emergency situations, the police take responsibility for the direction of traffic on motorways, and may use traffic cones to facilitate this task.

New Airport (Thames Estuary)

Bob Spink: To ask the Secretary of State for Transport if he will make it his policy to rule out, for the foreseeable future, any further schemes for a new airport in the Thames estuary. [145163]

Mr. McNulty: On 16 December 2003, my right hon. Friend the Secretary of State for Transport published a White Paper, The Future of Air Transport, which sets out policies in airport development up to 2030.

Pollution Tracking

Mr. Waterson: To ask the Secretary of State for Transport what use is made of satellite tracking systems in detecting pollution incidents in United Kingdom waters. [145240]

Mr. Jamieson: My Department have been involved in recent trials which made use of satellite data for detecting pollution incidents in UK waters. Overall the trials were deemed a success.

The Maritime and Coastguard Agency has recently let a contract with a satellite company to provide analysed images from satellites linked specifically to the identification of oil spills. This will run for two months during January and February, and will cover the English Channel and South West approaches.

A further operational programme using satellites for oil detection is scheduled for March over a period of five months. This will be a transnational project involving Germany, the Netherlands and the UK.

Public Service Obligations (Air Services)

Mr. Carmichael: To ask the Secretary of State for Transport if he will make a statement on the compatibility of public service obligations on regional air services with European Commission regulations. [145284]

Mr. McNulty: The imposition of Public Service Obligations on regional air services is governed by EC Regulation 2408/92. All applications for the imposition of PSOs on regional air services are considered against the criteria set out in the relevant Regulations.

Railways

Mr. Drew: To ask the Secretary of State for Transport what investigation he has undertaken of the condition of signalling equipment on the rail line between Gloucester and Bristol; and what safety appraisal he has sought from the different rail authorities. [144908]

Mr. McNulty: The condition of the signalling equipment on the rail line between Gloucester and Bristol is an operational matter for Network Rail.

The Health and Safety Executive (HSE) advise that they have not received any reports of any specific problems with the signalling equipment along this rail line. However, the HSE's Railway Inspectorate (HMRI) recently requested infrastructure reports about this region from Network Rail which they will be analysing.

Miss McIntosh: To ask the Secretary of State for Transport when he expects *(a)* rail freight facility grants and *(b)* track access grants to recommence. [145011]

Mr. McNulty: The Strategic Rail Authority hopes to re-launch its freight grant schemes when funds become available. It plans to replace track access grants with a new Company Neutral Revenue Support scheme.

Road Charging

Dr. Kumar: To ask the Secretary of State for Transport if he will make a statement further to the recent Commission for Integrated Transport Report on proposals fundamentally to review how motorists pay to use the road network. [144814]

Mr. Jamieson: On 9 July 2003, *Official Report*, columns 1175–79 my right hon. Friend the Secretary of State announced a feasibility study into road charging. The terms of reference are contained in the Department for Transport publication "Managing our Roads". The study will report to him next summer.

Road Resurfacing

Mr. Robathan: To ask the Secretary of State for Transport how many road resurfacing projects have been delayed since 2001 from their provisional or planned dates owing to value management work. [140803]

Mr. Jamieson: Value management is a structured process used by the Highways Agency to establish priorities and best value from the available budget for maintaining the strategic road network. A range of factors is taken into account in programming maintenance projects that include the latest information on surface conditions and opportunities to combine maintenance work with other projects in order to minimise disruption to traffic. The re-phasing of projects is not the result of value management work, but arises from a reappraisal of factors that influence the appropriate timing for works to be undertaken, in the light of better information.

Safety Cameras

Mr. Chope: To ask the Secretary of State for Transport how many people are employed *(a)* full time and *(b)* part time by (i) his Department and (ii) consultants engaged by his Department in supervision and monitoring of safety camera partnerships. [143094]

Mr. Jamieson *[holding answer 9 December 2003]:* There are five people (four exclusively) employed in the Department working on the safety camera programme which includes the supervision and monitoring of partnerships. The number of consultant staff involved in supervising or monitoring the safety camera programme varies from time to time.

Mr. Chope: To ask the Secretary of State for Transport what statistical data safety camera partnerships are required to submit to his Department each quarter; and to what use such statistical data is put. [143096]

Mr. Jamieson *[holding answer 9 December 2003]:* Partnerships are required to provide quarterly monitoring information and data covering traffic speeds, casualties, public opinion and costs. The information is collated, analysed and presented to inform policy development. The results are published annually on the DfT website and are available in the Libraries of the House.

Mr. Damian Green: To ask the Secretary of State for Transport how many fixed speed cameras there are on the A28 between Ashford and Margate. [142942]

Mr. Jamieson: Five. When Kent joined the scheme there were already three cameras enforcing at high-risk sites on this route. The Partnership have recently installed a further two cameras at sites where 11 people had been killed or seriously injured over the past three years.

Bob Spink: To ask the Secretary of State for Transport if he will list the uses to which surplus funds from *(a)* speed and *(b)* red light cameras are put in Essex. [145164]

Mr. Jamieson: All surplus funds arising from safety camera activity within partnerships operating within the netting off programme, that is over and above the amount required to cover their costs, are passed to the Treasury. Where areas are not yet in the scheme all fine revenue from camera activity passes to the Treasury in the usual way.

Bob Spink: To ask the Secretary of State for Transport what the cost of running *(a)* speed and *(b)* red light cameras in Essex was in each of the last five years; and what the estimated costs are for the current financial year. [145168]

Mr. Jamieson: The cost to the Essex Safety Camera Partnership for operating their safety cameras for the most recent audited years was £1,846,480 in 2000–01 and £3,179,304 in 2001–02. Estimated costs for 2002–03 and 2003–04 are £5,150,286 and £5,980,765 respectively. Costs for speed and traffic signal cameras cannot be apportioned separately. Prior to the start of the safety camera netting off trial in April 2000 local authorities were not obliged to provide information on camera activity.

Bob Spink: To ask the Secretary of State for Transport how many people were killed in road traffic accidents on Essex roads in each of the last five years. [145169]

Mr. Jamieson: The information requested is shown in the following table:

Fatalities in accidents on roads in Essex

Year	*Number*
1998	84
1999	112
2000	86
2001	121
2002	92

Traffic Management Bill

Mr. Chope: To ask the Secretary of State for Transport what salaries will be payable to traffic officers appointed under the Traffic Management Bill. [145539]

Mr. Jamieson: Traffic officers will be paid within a salary range of £15,800 to £20,000. They will receive an additional allowance of up to 20 per cent. for working a shift system. Other staff, such as supervisors and control centre personnel, who will be co-ordinating operations and fulfilling customer service functions, will be paid from aligned pay ranges.

Mr. Chope: To ask the Secretary of State for Transport whether there will be a standard national uniform for traffic officers appointed under the Traffic Management Bill; and if it will include a requirement to wear headgear. [145540]

Mr. Jamieson: A national standard uniform for traffic officers has been developed. It includes a hard hat for wearing at the scene of incidents when there is a risk of head injury.

A uniform is required to make traffic officers easily visible and recognisable, to establish authority and credibility, and to protect the public from persons impersonating a traffic officer.

Transport Council

Mr. Jim Marshall: To ask the Secretary of State for Transport what the outcome was of the Transport Council held in Brussels on 4 to 5 December; what the Government's stance was on the issues discussed, including its voting record; and if he will make a statement. [142977]

Mr. Jamieson: The transport session of the Transport, Telecommunications and Energy Council met in Brussels on 5 December. My right hon. Friend the Secretary of State represented the United Kingdom.

The Presidency gave a progress report on the proposed Directive on sanctions for ship-source pollution, indicating that further work was needed. The Transport Council would call on the Justice and Home Affairs Council to look at the parallel proposal for a framework decision for criminal sanctions. The UK is among Member States seeking to ensure the exclusion of criminal sanctions from the Directive.

The Council reached a General Approach on an amendment to the Regulation which established the European Maritime Safety Agency (EMSA). The Regulation extends EMSA's role into the areas of certification of third country seafarers, counter-pollution measures and ship security. The security role is to be limited, on the basis of a Presidency compromise proposal, to ships only (thereby excluding the ship/port interface and ports themselves). This was accepted by all delegations.

The Council reached a General Approach on a Regulation on transfer of vessels between Community registers. The text is acceptable to the UK.

The Council reached Political Agreement on an amending Regulation on airport slot allocation. The Presidency explained that the proposal concerned technical amendments to the existing rules on slot allocation, with market measures left to a later phase. A compromise text safeguarded the possibility of secondary slot trading at congested airports (the key issue for the UK), and removed a time limit on the re-letting of public service contracts. My right hon. Friend joined others in speaking in support of the compromise. The Commission said it would come forward in 2004 with a proposal to introduce market elements to the slot allocation system.

The Commissioner reported on her recent informal talks with the US on EU/US air service negotiations. The US had said that they envisaged the negotiations focusing on ownership and control issues, competition, leasing, and airport access.

The Council reached Political Agreement on a revised proposal to amend the guidelines to the transport Trans-European Network. This provides for: simpler environmental assessment requirements; tighter conditions for start-up aid in the context of 'motorways of the sea'; greater Commission consultation with Member States over action in response to project delays; and scope for adding to or amending the list of priority projects on the basis of two-yearly Commission reports. The amendments are largely acceptable to all Member States, including the UK.

Among AOB items, the Commission reported on progress in negotiations with the United States on interoperability of the Galileo satellite navigation system with the US Global Positioning System (GPS). The Commission also welcomed the commercial and development agreement reached with China on Galileo.

The Council reached a General Approach on the Directive on interoperability of European electronic road tolling systems. The UK has particular interest in this measure because of our plans to introduce lorry road-user charging. We were able to accept the revised text at the Council, which had moved a considerable way to accommodate concerns we had had.

There was a policy debate on the directive on charging of heavy goods vehicles (the Eurovignette directive), on the basis of three questions put in advance by the Presidency. The written submissions by Member and accession States will be used to inform future negotiations during the Irish Presidency. We explained specific points in the UK submission, in particular pressing for the scope of the Directive to permit the inclusion of congestion and environmental costs in any charges and arguing against mandatory hypothecation of toll revenue.

The Council failed to reach agreement on the Directive on weekend lorry bans. We joined a number of other Member States in speaking in support of the proposal. However, the number of Member States opposed to even minimal EU rules prevented agreement. This issue will now be examined further and put to a future Council.

The Commission presented two new legislative proposals in the area of road transport: the third driving licence directive; and a proposal requiring more frequent checking of commercial vehicles for compliance with drivers' hours legislation. These will now be examined in detail before being submitted to a future Council for agreement.

The Council agreed Conclusions on road safety, confirming the agreement reached at the informal meeting in Verona in October. The UK welcomes the Conclusions as a significant contribution to European road safety, and will support future proposals which stand up to the tests of subsidiarity and proportionality. The Commission also presented a Recommendation on enforcement in the field of road safety.

No formal votes were taken.

US Ships (Decommissioning)

Norman Baker: To ask the Secretary of State for Transport what inspections *(a)* have been carried out and *(b)* are planned into the sea-worthiness of the US Navy ships moored in Hartlepool to assess their safety for returning to the United States; and if he will place copies of the completed assessments in the Library. [143762]

Mr. Jamieson *[holding answer 15 December 2003]*: Inspections of the vessels are being undertaken to ensure that they do not pose any risk while remaining in Hartlepool.

To ensure that the vessels are in a suitable condition to cross the Atlantic, a survey would be necessary before Load line Exemption Certificates can be issued.

Norman Baker: To ask the Secretary of State for Transport what assessment the Government has made of the *(a)* safety and *(b)* speed with which the US Navy ships moored in Hartlepool could be returned to the US with the use of a heavy lift vessel; and if he will place a copy of such assessments in the Library. [143764]

Mr. Jamieson *[holding answer 15 December 2003]*: Initial risk assessments and routing plans have been produced for the return voyage of the vessels, under tow. No assessment has been produced for using a heavy lift vessel.

Norman Baker: To ask the Secretary of State for Transport pursuant to his Answer of 16 December 2003, *Official Report*, column 794W, on US Ships (decommissioning), by whom an application could be made. [145193]

Mr. Jamieson: By the owner of the vessels concerned.

Vehicle Licensing

Mr. Chope: To ask the Secretary of State for Transport what his latest estimate is of how many people are driving *(a)* without a licence and *(b)* without insurance; and how many unlicensed vehicles he estimates are on the road. [145528]

Mr. Jamieson: The Department's Report, "Research into Unlicensed Driving", published on 15 December 2003, estimated that the number of people driving without a valid driving licence would lie in a range between 620,000 and just over 1 million. The Government are committed to tackling this. We are already taking action with the widespread Automatic Number Plate Recognition (ANPR) cameras allowing police to target unlicensed vehicles on the road. All police services have 24-hour access to DVLA driving licence records via the Police National Computer.

The number of people driving without insurance is estimated at approximately 1.25 million[1]. The Department has facilitated links between the Motor Insurance Database and the Police National Computer. The database contains details of every motorist's insurance and every vehicle insured. The police are currently making up to 25,000 checks each day on this database to detect and correct uninsured driving. In addition, the Government have appointed Professor David Greenaway of the University of Nottingham to

carry out an independent review of motor insurance arrangements in the U.K, to advise on how to improve procedures and to reduce uninsured driving.

The number of unlicensed (i.e. untaxed) vehicles is estimated at 1.76 million[2]. Reforms of the vehicle registration system include:

a system of continuous registration starting in January 2004, requiring vehicle users to re-licence their vehicles on time every year, with automatic penalty notices served on those who fail to comply;

new registration documents, and tighter but simpler procedures to keep DVLA's vehicle register informed when vehicles change hands;

new powers given to local authorities to tackle abandoned cars and to bring car dumpers to book;

bar codes on tax discs and on re-licensing reminders to improve the accuracy of the vehicle register; and

an increase in DVLA's wheel clamping operations together with the introduction of a DVLA telephone hotline to target evaders.

In combination, the above measures are designed to improve the accuracy of the vehicle register from around 92 per cent. now to 97.5 per cent. by 2005 and to reduce evasion from around 4.5 per cent. to no more than 2.5 per cent. by 2007.

PRIME MINISTER

Asylum Law

Andrew Selous: To ask the Prime Minister pursuant to his answer to the hon. Member for Wokingham of 15 December 2003, *Official Report*, column 1334, what the basis was for his statement that the United Kingdom is not giving up the power to set asylum law. [145323]

The Prime Minister: EU competence over asylum and immigration does not mean we lose national control. The UK's opt-in to Title IV of the Treaty on European Union, negotiated at Amsterdam, means that we will only participate where it is in British interests. We shall continue to work with European partners—both bilaterally and within the EU—where this is good for Britain.

Chechnya

Tom Brake: To ask the Prime Minister when he last raised the issue of human rights in Chechnya with President Putin. [145800]

The Prime Minister: I refer the hon. Member to the answer I gave to the hon. Member for Reigate (Mr. Blunt) on 18 June 2003, *Official Report*, column 355.

EU Policy

Mr. Spring: To ask the Prime Minister if he will make a statement on the role that Roger Liddle has with respect to EU policy. [145953]

The Prime Minister: Roger Liddle is a special adviser covering European issues.

EU Reform

Keith Vaz: To ask the Prime Minister what progress has been made in respect of the joint letter he sent with Chancellor Schröder on the reform of the EU. [145410]

The Prime Minister: In June 2002, the European Council at Seville agreed a number of practical changes to improve the effectiveness and transparency of the Council, in line with proposals made in the Prime Minister's joint letter of 25 February 2002 with Chancellor Schröder.

Further reforms of the Council have been considered in the Convention on the Future of Europe and the subsequent Intergovernmental Conference. The Government will continue to pursue these issues as negotiations on a new EU Treaty progress.

Give as You Earn Scheme

John Barrett: To ask the Prime Minister how many and what percentage of staff in his office contribute to a charity through the Give as You Earn scheme; how much money is donated to charity per month by staff in his Department through the scheme; and what steps he is taking to encourage greater participation in the scheme by staff in his Department. [143898]

The Prime Minister: For these purposes, my office is part of the Cabinet Office. Currently 58 individuals, approximately 3 per cent. of staff in the Cabinet Office, contribute around £1,600 each month to charities through the Give as You Earn scheme.

The Cabinet Office regularly promotes the scheme through internal staff publications and on the Cabinet Office intranet.

Giving to charity is a personal matter. The Give as You Earn scheme is not the only method by which staff can donate to charity. For example, they may donate money through Gift Aid or volunteer their time and skills direct to charities.

Public Sector Investment

Mr. Andrew Turner: To ask the Prime Minister pursuant to his answer to the right hon. and learned Member for Folkestone and Hythe (Mr. Howard) of 17 December 2003, *Official Report*, column 1564, what his definition is of public sector investment; and where else in official publications his definition has been employed. [146107]

The Prime Minister: Public sector investment is defined as capital formation plus the net acquisition of land plus expenditure on capital grants. Capital formation is defined as expenditure, net of sales, on fixed assets (such as buildings, vehicles and machinery), and net stock building.

Public sector investment can be measured gross or net of depreciation. Public sector net investment and public sector gross investment are measured using data from the national accounts as defined and measured by the Office for National Statistics.

Several official publications use these definitions, including the Financial Statement and Budget report, pre-Budget report and Public Expenditure Statistical Analyses.

Romania

Keith Vaz: To ask the Prime Minister (1) what plans he has to visit Romania; [145409]

(2) when he last met the Prime Minister of Romania; and if he will make a statement. [145411]

The Prime Minister: I have no current plans to do so.

I met Prime Minister Nastase in March last year in London. I have also met him at multilateral meetings since then, including European Council.

The UK looks forward to welcoming Romania to NATO in 2004 and to the EU in 2007 and we continue to provide political and practical support to Romania in pursuit of these aims.

Saddam Hussein

Llew Smith: To ask the Prime Minister whether former President Saddam Hussein is being held in custody as a prisoner of war under the provisions of the Geneva Convention. [145183]

The Prime Minister: Saddam Hussein is being afforded the rights of a prisoner of war under the Third Geneva Convention until such time as his status is otherwise determined by a tribunal.

Yemen

Keith Vaz: To ask the Prime Minister when he next plans to meet the President of Yemen. [145412]

The Prime Minister: I have no current plans to do so.

EDUCATION AND SKILLS

Performing Arts

Dr. Kumar: To ask the Secretary of State for Education and Skills what assistance is available to children from low income families who wish to pursue careers in the performing arts; and what the most recent figures are for regional uptake. [144744]

Mr. Miliband: Through the Music and Dance Scheme, the Department is providing significant means-tested support for over 800 exceptionally talented children aged eight and over at eight independent specialist schools in England. Around one in five families using the scheme are entitled to full remission of fees because of the level of their incomes. Figures for the regional take-up of places are not collected centrally although we are aware of regional disparities in provision. To help address those disparities we are seeking to develop the scheme, over time, by introducing non-residential complementary models to serve as focal points in regions currently poorly served.

The Dance and Drama Awards are national scholarships for students aged 16 and above and are offered on the basis of talent demonstrated at open audition. Over 60 per cent. of students with these awards have an annual family income of less than £20k.

There is a range of other assistance available, notably through the national youth music organisations such as the National Youth Orchestra of Great Britain, and through Arts Council England supported programmes such as the National Youth Theatre and through Creative Partnerships. Many Local Education Authority Music Services also provide assistance.

Aimhigher Programme

Mr. Woodward: To ask the Secretary of State for Education and Skills what plans the Government has to expand the Aimhigher programme in Merseyside. [144324]

Alan Johnson: Aimhigher (formerly Excellence Challenge) operates in Excellence in Cities (EiC) areas, Education Action Zones (EAZ) and some Excellence Clusters. In April 2004 Aimhigher will merge with Partnerships for Progression, an initiative funded by HEFCE and the LSC. The new Aimhigher will be a coherent national outreach programme operating most intensively in disadvantaged areas and will cover all of Merseyside.

Child Referrals

Mr. Gardiner: To ask the Secretary of State for Education and Skills how many referrals there have been of children up to the age of five years to social services departments in England and Wales in each year since 1997; and who initiated these referrals. [144136]

Margaret Hodge: Information on the number of referrals by age group is not collected centrally in England or Wales and nor are details of who initiated referrals. Information was collected for the first time in 2002 on the total number of referrals to social services departments of 0–17 year olds in England and the figure during the year ending 31 March 2002 was 569,400. Total figures for 2003 will be released in the publication "Referrals, Assessments and Children and Young People on Child Protection Registers, England—Year ending 31 March 2003" which is due to be published in January 2004.

Child Support

Ms Keeble: To ask the Secretary of State for Education and Skills what strategies are being developed for supporting the children of people with no recourse to public funds. [140464]

Margaret Hodge: Local authority social service departments have a range of powers and duties in relation to children and their families under the Children Act 1989.

A general duty is placed on local authorities by section 17 of the Children Act 1989 to safeguard and promote the welfare of children in their area who are in need by providing a range of services appropriate to those needs. The definition of a child in need is set out in section 17(10) of the Act, which applies to all children, regardless of whether or not their family has recourse to public funds. Services may be provided for members of the child's family under section 17 if those services help to promote the child's welfare.

There is also a duty under section 20 of the Children Act to provide accommodation for children in need.

Children At Risk Green Paper

Mr. Hancock: To ask the Secretary of State for Education and Skills if he will make a statement on how the Green Paper on children at risk will be taken forward; and what major issues attracted most comment during the consultation. [142413]

Margaret Hodge: The level of response to the Green Paper 'Every Child Matters' has been exceptionally high with over 4,500 responses received of whom over 3,000 were from children and young people. But as most the responses were received in the final week and just after the consultation period it is too soon to say what major issues attracted most comment. The majority of those that have been processed are broadly in support of the aims of the Green Paper.

I propose to publish a report in February which will set out the way forward.

Children in Care

Julie Morgan: To ask the Secretary of State for Education and Skills what proportion of children taken into care in each of the past 10 years had mothers in prison service custody at the time at which they were taken into care. [144068]

Margaret Hodge: The information requested is not collected centrally.

Mr. Woodward: To ask the Secretary of State for Education and Skills how many children under 18 there were in the care of the local authority in *(a)* St. Helens and *(b)* Merseyside in (i) 2001, (ii) 2002 and (iii) 2003. [145150]

Mr. Miliband: The information requested is shown as follows for the years 2001 and 2002. Local and regional figures for looked after children for 2003 are due to be published in March 2004.

Number of children looked after at 31 March 2001 and 31 March 2002

	2001	*2002*
St. Helens	270	260
Merseyside	2,425	2,405

Source:
SSDA903 survey

Children in Prisons

Mr. Dawson: To ask the Secretary of State for Education and Skills what advice he has issued to social services departments following the recent judgement that the Children Act 1989 applies to children in prisons. [144023]

Alan Johnson *[holding answer 16 December 2003]:* The duties of Councils with Social Services Responsibilities towards children, including those in prisons, are set out in the Children Act 1989 and its associated regulations and guidance.

A revised Prison Service Order 4950 Regimes for Prisoners Under 18 Years Old will be issued early in the New Year in two stages; the first by February 2004 and a further more thorough version subsequently, following a recent review of safeguarding procedures in prison services, on which work is still taking place.

The booklet What To Do If You're Worried A Child Is Being Abused, published in May2003, applies to all children and young people irrespective of whether they are living at home with their families and carers or away from home.

Education (North-west)

Mr. Woodward: To ask the Secretary of State for Education and Skills how many children are benefiting from the Sure Start programme in *(a)* St. Helens South, *(b)* St. Helens, *(c)* Merseyside and *(d)* the North West Region. [141474]

Margaret Hodge: The approximate numbers of children aged under 4 who live in areas covered by Sure Start local programmes, are as follows:

(a) 2,100 are eligible for services covered by the three Sure Start local programmes in St. Helens South constituency;

(b) 3,300 are eligible in the St. Helens local authority area;

(c) 20,000 are eligible in Merseyside (including Knowsley, Liverpool, Sefton, St. Helens and the Wirral local authority areas); and

(d) 76,000 are eligible in the North West Region.

Further Education

Chris Grayling: To ask the Secretary of State for Education and Skills how many qualified further education lecturers were working in further education colleges in England on the last date for which figures are available. [144286]

Alan Johnson: The numbers of staff teaching in FE colleges in England in 2001/02 and holding a teaching qualification are shown in the following table.

	Fully qualified	*Part-qualified*	*Total*
Full-time staff	22,400	5,500	27,800
Part-time staff	18,200	13,700	31,800
Total	40,500	19,100	59,700

Source:
LSC Staff Individualised Record, 2001/02.

Chris Grayling: To ask the Secretary of State for Education and Skills in what circumstances further education staff members can be *(a)* removed from post and *(b)* redeployed because they do not hold specific qualifications. [144793]

Alan Johnson: Following the enactment of the Further and Higher Education Act 1992, Further Education colleges were established as independent corporations. As such, colleges are responsible for setting the pay and conditions of service of their staff.

The Further Education Teachers' Qualifications (England) Regulations 2001(http://www.legislation.hmso.gov.uk/si/si2001/20011209.htm) provide, as of September 2001, that new FE teachers must gain a

teaching qualification appropriate to their role within a time limit. This requirement does not apply, however, to those who have previously worked either as an FE teacher, a teacher in a maintained school or an equivalent elsewhere in the UK or EEA. Where a teacher fails to obtain such a qualification it is for the employing corporation to decide what action it should take to meet its legal obligations within the regulations, it is for the employing college to decide what action it should take.

Chris Grayling: To ask the Secretary of State for Education and Skills which further education staff have to hold a qualification in mathematics as a prerequisite for holding their positions. [144794]

Alan Johnson: Under the terms of the Further and Higher Education Act 1992 the recruitment of all staff, including those teaching mathematics, is the responsibility of individual FE colleges. Colleges need to ensure all staff have appropriate skills to meet the needs of learners. In order to support the Skills for Life agenda, the Department's policy is that from September 2002, new teachers and subject support staff who wish to specialise in teaching adult numeracy obtain, within specified timescales, an approved specialist numeracy qualification in addition to their generic initial teacher training.

Chris Grayling: To ask the Secretary of State for Education and Skills what changes there have been to the regulatory framework for further education in the past five years that require staff to meet specific qualification levels to entitle them to continue to hold their positions. [144795]

Alan Johnson: The Further Education Teachers' Qualifications (England) Regulations 2001 (http://www.legislation.hmso.gov.uk/si/si2001/20011209.htm) provide, as of September 2001, that new FE teachers must gain a teaching qualification appropriate to their role within a time limit. This requirement does not apply, however, to those who have previously worked either as an FE teacher, a teacher in a maintained school or an equivalent elsewhere in the UK or EEA. Where a teacher fails to obtain such a qualification it is for the employing corporation to decide what action it should take to meet its legal obligations within the regulations, it is for the employing college to decide what action it should take.

Joan Walley: To ask the Secretary of State for Education and Skills what proportion of 16 to 18-year-olds in Stoke-on-Trent who started further education courses in each year since 1997 completed their course. [143249]

Mr. Ivan Lewis: The Learning and Skills Council (LSC) calculate and publish retention (completion) rates by the year the qualification was expected to end as opposed to the year it was started. The proportions of qualifications completed at further education colleges in Stoke-on-Trent by 16–18 year olds in the three years to 2001/02 are shown in the following table.

Retention rates in LSC funded provision for 16–18 year olds studying at FE colleges in Stoke-on-Trent by college and expected end year

Percentage

College	*Expected end year*		
	1999/2000	*2000/01*	*2001/02*
Stoke-on-Trent College	73	78	75
City of Stoke-on-Trent Sixth Form College	74	82	93

Source:
Individualised Student Record

Chris Grayling: To ask the Secretary of State for Education and Skills if he will list initiatives launched by his Department in each of the past three years which required *(a)* higher education institutions, *(b)* further education institutions and *(c)* schools to make a formal response to his Department. [144279]

Alan Johnson: A list of the initiatives my Department has consulted on in the past three years can be found at www.dfes.gov.uk/consultations/. Consultation on initiatives launched by the Department adheres to the guidance in the Cabinet Office code of practice on written consultation. There is no requirement for higher education institutions, further education institutions or schools to formally respond to initiatives the Department consults on.

Identity Cards

Mr. Webb: To ask the Secretary of State for Education and Skills what assessment he has made of the implications of the introduction of compulsory identity cards for his Department. [143354]

Mr. Charles Clarke: The Home Office has lead responsibility for developing the national identity cards scheme, which was announced by the Home Secretary on 11 November. I welcome the incremental introduction of a secure form of identification as offering the opportunity to develop and realise a number of potential benefits for learners, funding bodies and providers. The introduction of the scheme is a long-term undertaking and my officials will continue to work closely with the Home Office during the next phase of development.

List 99

Mr. Oaten: To ask the Secretary of State for Education and Skills in how many cases in the last five years schools have turned down a job applicant following checks against List 99. [144965]

Mr. Miliband *[holding answer 18 December 2003]:* My Department does not hold this information.

Mr. Oaten: To ask the Secretary of State for Education and Skills what duties are placed on social services departments to pass relevant details to the Department of Health and Department for Education and Skills for additions to List 99. [144966]

Mr. Miliband *[holding answer 18 December 2003]:* Under the Protection of Children Act (POCA) 1999, all regulated child care organisations have a statutory duty to refer names for possible inclusion on the POCA list

of those individuals considered unsuitable to work with children. POCA amended the Education Reform Act 1988 to provide that anyone included on the POCA list (other than provisionally) should also be included on List 99.

Mr. Osten: To ask the Secretary of State for Education and Skills whether it is compulsory for schools to check List 99 before employing an individual; and what safeguards are in place to ensure that schools do so. [144967]

Mr. Miliband *[holding answer 18 December 2003]:* Employers in the education service are required to check List 99 before employing a person to work with children. My Department has issued guidance to the education service about List 99 and other pre-employment checks and I have no reason to believe that employers are not complying with this.

Literacy and Numeracy Hours

Mr. Gibb: To ask the Secretary of State for Education and Skills what assessment he has made of the findings in the Ofsted report on National Literacy and Numeracy Strategy on the quality of teaching in the daily literacy and numeracy hours. [144375]

Mr. Stephen Twigg: We welcome this year's Ofsted report on the National Literacy and Numeracy Strategies which found that they continue to have a considerable positive impact on primary schools. Teachers have broadened their approaches to teaching across the curriculum, but we recognise too the significant issues identified by Ofsted that schools need to address, including unsatisfactory teaching and teachers' weak subject knowledge. Through the strategy set out in "Excellence and Enjoyment" we have a comprehensive agenda for schools and local education authorities to address the strengths and weaknesses identified in the report. By having a greater focus on teaching and learning we will help schools build their capacity to embed the literacy and numeracy strategies across a rich and broad curriculum.

Local Education Authorities

Mr. Blizzard: To ask the Secretary of State for Education and Skills if he will list for each local education authority the aggregated amount of money carried forward in its schools devolved budgets at April. [143016]

Mr. Miliband: The information requested is not yet available. The Department is awaiting section 52 outturn statements for 2002–03 from six LEAs. Once the data is available I will write to my hon. Friend.

Maintenance Loan

Mr. Steinberg: To ask the Secretary of State for Education and Skills pursuant to his answer of 15 December, *Official Report*, column. 666W, on higher education, at what level of parental income students will no longer be eligible for the full maintenance loan; and at what level of parental income students will be eligible for no more than 75 per cent. of the maintenance loan. [145131]

Alan Johnson: For English and Welsh students attending institutions in the UK in academic year 2004/05, the required information is set out in the following table:

(£000)

Support covered	*Full year Household residual income*	*Final year Household residual income*
Entitlement to 100 per cent. loan	31,973	31,973
Entitlement to 75 per cent. of the loan at:		
London rate	43,943	42,375
Elsewhere rate	41,710	40,428
Parental home rate	39,668	38,670

Non-resident Parents

Tim Loughton: To ask the Secretary of State for Education and Skills (1) whether it is his policy to establish a legal presumption of contact with children for non-resident parents; [141186]

(2) whether he plans to bring forward proposals to change the law to establish a legal presumption of contact with children for non-resident parents. [141187]

Margaret Hodge: The fundamental principle of the Children Act 1989 is that any court decision must be based on what is best for the child. There is no automatic "right" to contact for either fathers or mothers, but in practice the courts have taken the view that in most cases the child's welfare is best served by contact with both parents. This was stated by the Court of Appeal in Re: O (Contact: Imposition of Conditions) [1995] 2 FLR 124 in the following terms:

> "Where parents of a child are separated and the child is in the day-to-day care of one of them, it is almost always in the interests of the child that he or she should have contact with the other parent."

This judgment means that inherent in the courts' interpretation of the Children Act 1989, is a belief that there would normally be contact between children and both their parents.

The Adoption and Children Act 2002 contains a provision that clarifies the definition of harm set out in the Children Act 1989. This makes clear that harm includes any harm a child may suffer or is at risk of suffering as a result of witnessing the ill-treatment of another person. The Adoption and Children Act 2002 received Royal Assent on 7 November 2002. When implemented, this new definition will apply to family proceedings relating to contact and residence applications.

There are currently no plans to establish a legal presumption of contact between children and their non-resident parents. The interest of the child should be the basis for any decision. However, the Government support the view that, in general, children benefit from a continuing relationship with both parents following parental separation, where it is in the best interests of the child and safe for all family members.

A recent study suggested that it was rare for courts to refuse a father all contact with his children and that of finalised contact cases initiated by fathers, only

10 per cent. resulted in an order for indirect contact. A copy of this research report has been placed in the House of Commons Library.

Non-vocational Community Education

Mr. Willis: To ask the Secretary of State for Education and Skills what instructions he has given to *(a)* Learning and Skills Councils and *(b)* local education authorities regarding the provision of non-vocational community education; and if he will make a statement. [144626]

Mr. Ivan Lewis: As set out in the Skills Strategy White Paper, "21st Century Skills Realising our Potential", in each local area the Learning and Skills Council (LSC) is responsible for securing a full range of lifelong learning opportunities for adults suitable to meet local needs. Adult and Community Learning programmes will be seen as an integral part of the wider learning opportunities for the areas.

To safeguard the availability of these types of learning, the Government and the LSC have agreed an overall indicative budget to support non-qualification bearing programmes. That budget covers, for example, family learning, learning for older people, active citizenship, community development, and learning through cultural activities.

From within that national budget, the LSC will agree with local LSCs a minimum figure to spend on such learning activities. Each local LSC will now decide with its local partners-including local education authorities, colleges, community and voluntary groups-the priorities for spending those funds in order to maximise the civic, social and cultural gain for the area.

Mr. Willis: To ask the Secretary of State for Education and Skills if he will list the resources allocated by central Government to non-vocational community education in the years 1997–98 to 2003–04. [144627]

Mr. Ivan Lewis: I have set out in the following tables figures for expenditure as set by central Government for (i) adult and community learning run through local education authorities; (ii) learndirect; and (iii) Skills for Life. Together these equate most closely to non-vocational community education.

Adult and community learning

Date	*Funding (£ million)* [1]
2000–01	145
2001–02	153
2002–03	183
2003–04	206

[1] Annual budget, by financial year, on adult and community learning run through local education authorities (recurrent figures). The figures for 2002–03 and 2003–04 include the budgets for neighbourhood learning and family learning, starting from a nil base in 2001–02. Prior to 2000–01, national figures are not available for adult and community learning as responsibility adult and community learning rested with local education authorities.

learndirect

Date (academic year)	*Funding (£ million)* [1]
1999/2000	5 (pilot)
2000/01	49
2001/02	134
2002/03	171
2003/04	178

[1] Figures for learndirect do not go back further than 1999/2000, as it was not in existence before that date.

Skills for Life

Date (academic year)	*Funding (£ million)* [1]
2001/02	253
2002/03	259
2003/04	290

[1] Figures do not go back before 2001/02 as the Skills for Life programme began in 2001.

Pre-school Places

Helen Jones: To ask the Secretary of State for Education and Skills how many *(a)* full-time and *(b)* part-time nursery places were available in Warrington, North in each year since 1997. [143456]

Margaret Hodge: The information is not available in the form requested.

Figures on the number of free nursery education places taken up by three and four-year-olds in Warrington local education authority area are shown in the table.

The latest figures on early years provision in England were released by the Department on 27 November 2003 in the Statistical Bulletin "Provision For Children Under Five Years Of Age In England—January 2003", electronic copies of which are available from the Department's website, www.dfes.gov.uk/statistics.

We have made the commitment that by April 2004, six months ahead of our original target, all three-year-olds in England whose parents want one, will have access to a free, part-time early education place.

Number of free nursery education places[1,2] *taken up by three and four-year-old children— Warrington Local Education Authority area 1997–2003, position in January each year*

	Number of places
1997	3,200
1998	3,300
1999	3,200
2000	3,400
2001	4,300
2002	4,400
2003	4,400

[1] Part-time equivalent number of free nursery education places taken up by three and four-year-old children.

[2] A free nursery education place comprises five two-and-a-half-hour sessions of early years education per week, for thirty-three weeks of the year, usually three terms of eleven weeks.

Mr. Swire: To ask the Secretary of State for Education and Skills what plans he has to increase the *(a)* number of sessions and *(b)* terms for the pre-school sector in Devon. [142508]

Margaret Hodge: The Code of Practice already makes clear that the 55 sessions of funded early education represents a minimum annual entitlement for four year olds, and from April 2004, for three year olds. There is also flexibility within the Code to allow providers to spread the annual entitlement over a term of up to 14 weeks.

Special Educational Needs Co-ordinators

Mr. Swire: To ask the Secretary of State for Education and Skills what additional financial resources he will provide to enable the pre-school sector to employ special needs co-ordinators for individual children. [142507]

Margaret Hodge: There is no plan to employ special needs co-ordinators for individual children. Every setting is required to have a lead person, or special educational needs co-ordinator, with responsibility for overall policy for all the children in the setting with special educational needs and for co-ordinating services for individual children.

Specialist Schools

Mr. Hoban: To ask the Secretary of State for Education and Skills how many local education authorities have made it a condition of supporting a school's bid for specialist status that the school does not exercise its right to select pupils by aptitude. [144847]

Mr. Miliband *[holding answer 18 December 2003]:* No local education authorities (LEA) have informed the Department for Education and Skills that a condition of the authority's support for a school's bid for specialist status is that the school does not select pupils by aptitude. The LEA is the admission authority for many specialist schools and may decide that it would not choose to admit by aptitude.

Mr. Hoban: To ask the Secretary of State for Education and Skills how many specialist schools have exercised their right to select pupils by aptitude. [144848]

Mr. Miliband *[holding answer 18 December 2003]:* On the basis of the latest collated information, 40 specialist schools have chosen to select pupils by aptitude.

Speech Therapists

Mr. Jenkin: To ask the Secretary of State for Education and Skills (1) if he will make a statement on the availability of speech and language therapists for those with special educational needs in Essex; [144774]

(2) what recent estimate his Department has made of the waiting time for children with special educational needs to access speech and language therapy; and through which organisations this service is provided. [144775]

Dr. Ladyman: I have been asked to reply.

Primary care trusts in partnership with strategic health authorities, local authorities, and other local stakeholders have the responsibility of improving the health of the community, securing the provision of high quality services, and integrating health and social care locally. They have the resources to commission services, and to identify the number of professional staff that they need to deliver those services. This process provides the means for addressing local needs within the health community including the provision of speech and language therapy. Information on waiting times for these services is not collected centrally.

Statementing (Portsmouth)

Mr. Hancock: To ask the Secretary of State for Education and Skills how many children have been statemented as having special needs in the constituency of Portsmouth South in each year since 2001. [141350]

Margaret Hodge: The available information relates to the number of pupils with statements of special educational needs attending schools in the constituency of Portsmouth South, and is shown in the following table.

All schools: Number of pupils with Statements of Special Educational Needs (SEN)

Position in January each year 2001 to 2003

Portsmouth South constituency	*Number of pupils with statements of SEN*
2001[1]	n/a
2002[2]	221
2003[2]	174

n/a = Not available.

[1] For 2001 SEN data are known to be incomplete and estimates at this level are not deemed reliable.

[2] Changes in the way stages of SEN are reported were introduced in 2002 and more widely used in 2003. It is possible that some discontinuity in the time series data has resulted from this underlying change.

Source:
Annual Schools' Census

The number of pupils who have been newly statemented is not available at parliamentary constituency level.

Top-up Fees

Chris Grayling: To ask the Secretary of State for Education and Skills pursuant to his answer of 3 December 2003, *Official Report*, column 94W, on top-up fees, when he expects to publish the regulatory impact assessment. [145118]

Alan Johnson: The Regulatory Impact Assessment will be published in the new year.

Workforce Reform

Mr. Willis: To ask the Secretary of State for Education and Skills if he will place a copy of the paper, "Workforce Reform—Blue Skies", in the Library. [143418]

Mr. Miliband *[holding answer 11 December 2003]:* I refer the hon. Member to the reply given on 15 December 2003, *Official Report*, column 671W.

WALES

Children's Commissioner

Tim Loughton: To ask the Secretary of State for Wales if he will list reports produced by the Children's Commissioner for Wales. [145042]

Mr. Touhig: : Since the establishment of the post of Children's Commissioner for Wales in March 2001 the Commissioner has produced three reports. The three reports published to date are:

The Annual Report 2001–2002—Published Oct 02

The Annual Report 2002–2003—Published Oct 03

Telling Concerns—Published Feb 03

I expect a further two reports will be published in late January/early February 2004 along with a third in the spring of 2004.

Disabled Civil Servants

Tim Loughton: To ask the Secretary of State for Wales how many senior civil servants in his Department are disabled, expressed in *(a)* numbers and *(b)* as a percentage of whole-time equivalents. [144986]

Mr. Touhig: : None. There is only one member of the Senior Civil Service in the Wales Office.

Potato Ring Rot

Mr. Wiggin: To ask the Secretary of State for Wales what consultations he has had with the National Assembly of Wales about the discovery of potato ring rot in mid-Wales. [141163]

Mr. Touhig: My right hon. Friend has regular meetings with the First Secretary and I meet the Assembly Minister for Environment, Planning and Countryside to discuss a variety of issues, including the recent outbreak of potato ring rot.

The Plant Health and Seeds Inspectorate and the Welsh Assembly took swift action to contain the outbreak following it's discovery, during a routine annual check. Notices were issued under the Plant Health Order, stopping all movements of potatoes from the farm and three additional farms in England that had recently taken a delivery of seed potatoes from the infected farm.

The variety sent to the English farms has tested negative for ring rot but will not be used as seed as a precautionary measure. Tests have now been completed on 1,500 tonnes of potatoes at Middlewood Farm. Two stocks associated with the variety 'Provento' have been found to be infected. The remaining 20 stocks of other varieties of seed potatoes, at the outbreak farm have been found free from potato ring rot.

It is a credit to the systems that the Welsh Assembly and UK Government have in place that the disease was identified during a routine check and that the swift action taken by all concerned successfully contained and managed the outbreak.

CONSTITUTIONAL AFFAIRS

Asylum Appeals

Mr. Oaten: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many asylum appeal cases remitted back to the Immigration Appellate Authority by the Immigration Appeals Tribunal were *(a)* reconsidered by an adjudicator and *(b)* withdrawn by (i) the Home Office and (ii) the applicant in the last year for which figures are available; and of those asylum appeal cases remitted and reconsidered by the Immigration Appellate Authority; how many were (A) successful and (B) unsuccessful. [145065]

Mr. Lammy: For the period 1 October 2002 to 30 September 2003 there were 3,339 asylum appeals remitted from the Immigration Appeal Tribunal to the Immigration Appellate Authority Adjudicators of which a total of *(a)* 2,466 remitted asylum appeals have been promulgated by adjudicators. *(b)* (i) Appeals before the Immigration Appellate Authority are appeals against a Home Office decision and can only be withdrawn by the Appellant pursuant to Rule 42 of The Immigration and Asylum Appeals (Procedure) Rules 2003. (ii) A total of 55 remitted asylum appeals were withdrawn by the appellant from the 1 October 2002 to 30 September 2003. (A)(B) There have been 2,466 remitted asylum appeals promulgated between 1 October 2003 and 30 September 2003 for which the Immigration Appellate Authority has recorded an outcome of appeal allowed, appeal dismissed or appeal withdrawn. A total of 1,772 remitted asylum appeals were dismissed, with 639 remitted asylum appeals being allowed.

Entry Clearance

Mr. Lidington: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many appeals against the refusal of entry clearance from Pakistan for *(a)* spouses, *(b)* fiancés, *(c)* dependent children and *(d)* dependent elderly relatives are now awaiting consideration by the Independent Appellate Authority; what the average time taken between the IAA receiving papers and an appeal being heard was in 2003; and if he will make a statement. [145396]

Mr. Lammy: The Immigration Appellate Authority does not differentiate between different categories of immigration and non-asylum appeals and is unable to provide the information without incurring disproportionate costs; For the period from the 1 October 2002 to the 30 September 2003 the average time for an immigration and non-asylum appeal to reach a substantive hearing before an Adjudicator is 14 weeks following the receipt of the appeal papers by the Immigration Appellate Authority.

European Court of Human Rights

Mr. McNamara: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will publish the *(a)* procedures and *(b)* timetables being followed by the Government to produce the list of nominees for election by the Parliamentary Assembly of the Council of Europe as United Kingdom Judge on the European Court of Human Rights; and whether the list will include at least one man and one woman. [142453]

Mr. Rammell *[holding answer 18 December 2003]:* The procedures adopted by the Government for the nomination of candidates for the position of UK judge at the European Court of Human Rights follow those used previously for this and other international judicial appointments. The timetable is as follows:

11–16 November 2003: advertisement of position in national press

28 November 2003: closing date for written applications

December 2003: panel meets to select candidates for interview

January 2004: panel interviews potential candidates and recommends three nomination list

By 30 January 2004: list of three nominees to be approved by UK Ministers

30 January 2004: transmission of list to the Council of Europe

In view of the above procedure, it is not possible at this stage to comment on the composition of the list of three candidates to be nominated at the end of January.

Mr. Kevin McNamara: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many senior appointments in the administration of the European Court of Human Rights are unfilled; and for how long the vacancies have been unfilled. [142454]

Mr. Rammell *[holding answer 18 December 2003]:* There is one senior appointment in the administration of the European Court of Human Rights which is unfilled. This vacancy has existed since November 2002. The UK Government hopes this position can be filled in the near future.

Mr. McNamara: To ask the Parliamentary Secretary, Department for Constitutional Affairs what steps he has taken to resolve the outstanding difficulties relating to the pensions and social security rights of judges of the European Court of Human Rights; and when he expects the matter to be concluded. [142455]

Mr. Rammell *[holding answer 18 December 2003]:* The UK is currently waiting to see an actuarial review of the proposals made in relation to improving the benefits package for judges at the European Court of Human Rights. Once this has been published the Committee of Ministers will then be in a position to assess the feasibility of the schemes proposed. Publishing of the actuaries' report is expected in early 2004, with a decision on a package to be taken later in the year.

Postal Voting

Mr. Hoyle: To ask the Parliamentary Secretary, Department for Constitutional Affairs who took the decision to ask the Electoral Commission to determine which regions should be selected for postal voting pilot schemes in the forthcoming European parliamentary elections in 2004. [145550]

Mr. Leslie: The decision to ask the Electoral Commission to recommend which regions would be suitable for piloting and the type of pilots they should hold was a collective decision, taken by the Government.

SOLICITOR-GENERAL

Fair Trade Products

Mr. Bercow: To ask the Solicitor-General whether it is the policy of her Department to use fair trade products, as a matter of course, in *(a)* sales on Departmental premises and *(b)* receptions and meetings involving staff and visitors. [142818]

The Solicitor-General: Neither the Legal Secretariat to the Law Officers nor the Serious Fraud Office sells products. It is the policy of both Departments to support the principles of government procurement ensuring that it obtains overall value for money and complies with EU procurement rules. This is the policy applied for all products.

The Crown Prosecution Service (CPS) encourages ethical purchasing as a key element of its procurement policy. The CPS contracted catering facility at its Headquarters in Ludgate Hill, London sells a selection of Fair Trade products which are available to staff and for meetings involving staff and visitors.

HM Crown Prosecution Service Inspectorate (HMCPSI) does not sell products of any sort on its premises. Catering for receptions and meetings involving staff and visitors is provided by local contractors. HMCPSI does not specify how contractors should obtain their supplies. The procurement policy for all goods and services is to use reliable suppliers of suitable products that offer good value for taxpayers' money. When Government policy exists in respect of specific types of goods or services then this is taken into account for contracts of material value.

The Treasury Solicitor's Department has no provision for making sales of any sort on its premises. Fair trade tea and coffee is, however, used where it is served at meetings and receptions involving staff and visitors

Guantanmo Bay

Mr. Streeter: To ask the Solicitor-General what assessment she has made of the case for bringing charges of treason against British detainees in Guantanamo Bay upon their return to the United Kingdom. [144840]

The Solicitor-General: Decisions to prosecute are made independently by the Crown Prosecution Service in accordance with the Code for Crown Prosecutors. A prosecution will be brought if there is sufficient evidence for a realistic prospect of conviction and it is in the public interest to prosecute. If a decision to prosecute is made all relevant charges will be considered in deciding what charge an individual should face.

Timber

Mr. Gardiner: To ask the Solicitor-General by what means the Law Officers' Department's policy for purchasing timber and timber products ensures that they are obtained from legal and sustainable sources. [141337]

The Solicitor-General: The Crown Prosecution Service (CPS) does not purchase timber and timber products directly. Furniture and building refurbishments are the two areas where the CPS may purchase products containing timber.

The CPS purchases furniture from framework contracts available from OGC buying solutions, whose products have been certified as being from legal and sustainable sources. For refurbishment work, the CPS engages its property managing agents to undertake a competitive tender using the National Building Specifications as part of standard specification, which includes the requirement to use certified timber.

HM Crown Prosecution Service Inspectorate (HMCPSI) is a small Department and it does not have a policy relating to procurement of timber or timber products. It does not purchase timber and purchase of timber products is limited to paper and occasional purchases of office furniture. The procurement policy for all goods and services is to use reliable suppliers of suitable products that offer good value for taxpayers' money. When Government policy exists in respect of specific types of goods or services then this is taken into account for contracts of material value.

The SFO when purchasing timber and timber products requires suppliers to provide written verification that the products are from legal and sustainable sources.

The Legal Secretariat to the Law Officers and the Treasury Solicitor's Department are not major consumers of timber or timber products but when timber is required, it is the Departments' policy to instruct contractors that it must be obtained lawfully only from sustainable sources, and to verify that this is done.

CABINET OFFICE

Hutton Inquiry

Mr. Lilley: To ask the Minister for the Cabinet Office if he will list meetings and discussions that *(a)* his Department and *(b)* other Government departments have held on the report by Lord Hutton into the circumstances surrounding the death of Dr. David Kelly, broken down by date; and if he will list those present at each meeting. [145324]

Mr. Alexander: Lord Hutton has yet to present his report to the Government. The Prime Minister has already made clear he will be making a statement to the House on the day of publication.

Mr. Lilley: To ask the Minister for the Cabinet Office if he will place in the Library the official minutes for the series of running meetings on 7 and 8 July referred to during the inquiry by Lord Hutton into the death of Dr. David Kelly (ref: Hutton Inquiry Evidence, CAB/7/0009–13). [145325]

Mr. Alexander: The notes of the meetings referred to are on the website of the Hutton Inquiry listed as evidence number CAB/7/0009–13.

FOREIGN AND COMMONWEALTH AFFAIRS

Gibraltar

Tim Loughton: To ask the Secretary of State for Foreign and Commonwealth Affairs supplementary to his oral answer to question No. 4, 16 December 2003:

"Given that 98.5 per cent. of the population of Gibraltar again voted in a referendum against any sharing of sovereignty with the Spanish, that the Chief Minister of Gibraltar has been re-elected with more than 50 per cent. of the vote on that platform, that Gibraltarians will be represented in the European Parliament from next year, and that the Spanish have apparently just negotiated a deal for sub-Mediterranean tunnel with the Moroccans, with whom they have territorial disputes, will the Minister tell us what progress has been achieved on the availability of the phone lines and health care that the Spanish provide for the Gibraltarians? What progress has been made on the ridiculous business involving having to fly over Spanish territory on Gibraltar flights that cannot land? Such a right would be accorded under treaty to any other member of the EU". [144039]

Mr. MacShane *[pursuant to his answer, 16 December 2003, Official Report c. 1418]:* I made an error in my answer, in the House, of 16 December to the hon. Member. The answer should have read as follows:

"The hon. Gentleman makes good and fair points. We want Spanish recognition of the 00350 number for Gibraltar, but they are not yet willing to concede that. The Government of Gibraltar had asked us to investigate the possibility of creating a wider Crown Dependencies number of 00350, but the other Crown Dependencies were not interested in that solution. We will continue negotiating with the Spanish and talking to them about the problem. They could send a positive signal to the people of Gibraltar and be helpful on the situation with the telephone lines".

Arms Trade

Mr. Laurence Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with representatives of other governments about restricting international arms trading; what restrictions he plans to introduce; and if he will make a statement. [145373]

Mr. MacShane: I refer the hon. Member to the answer I gave to the hon. Member for Portsmouth, South (Mike Hancock) on 23 October 2003, *Official Report*, column 654W.

Mr. Laurence Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the Government's policy on the export of arms. [145374]

Mr. MacShane: Britain has one of the strictest and most transparent arms export licensing systems in the world. All export licence applications are rigorously assessed on a case by case basis against the consolidated EU and national arms export licensing criteria, taking account of the circumstances prevailing at the time and other announced Government policies. Our criteria clearly set out our commitment to take account of the risk that exports might be used for either internal repression or external aggression.

The British Government have been in the forefront of international efforts to strengthen the regulation of the arms trade and proliferation. We were instrumental in getting agreement for an EU Code of Conduct on Arms Exports, and we regularly encourage other countries to adopt stricter and more transparent arms export policies. We are active members of all the key regimes that work to prevent the proliferation of weapons of mass destruction, such as the Missile Technology Control Regime, the Nuclear Suppliers Group, and the Australia Group (which deals with chemical and biological weapons). The UK is also a member of key arms control treaties, such as the Ottawa Convention on Landmines, the Nuclear Non Proliferation Treaty, the Chemical Weapons Convention and the Biological and Toxin Weapons Convention.

We remain committed to working with other states to find common ground on the issue of export controls. The UK aims to forge partnerships across regions, with states who have different perspectives and approaches to the export of arms, in an effort to secure a universal commitment to strengthening export controls, thereby making an important contribution to the global effort to combat weapons of proliferation.

Art Acquisition

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department has spent on the acquisition of works of art in each year since 1997, broken down by amounts spent on *(a)* paintings and *(b)* sculpture; what the single most expensive piece of art purchased by his Department since 1997 was; how much it cost; and what the total revenue raised by his Department through sales of its works of art has been since 1997. [142368]

Mr. Rammell: The Foreign and Commonwealth Office has spent the following in acquiring works of art since 1997:

£

	Paintings	*Sculptures*	*Total*
1997–98	190,820	125,989	316,809
1998–99	15,300	—	15,300
1999–2000	67,054	85,000	152,054
2000–01	72,000	190,000	262,000
2001–02	—	—	—
2002–03	—	—	—
Total	345,174	400,989	746,163

The single most expensive piece of art purchased over this time was 'Dancing Columns', a sculpture by Tony Cragg, which cost £190,000 in the financial year 2000–01.

The Department has not sold any works of art over this period.

Brussels Summit

Mr. Cash: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will place in the Library a copy of the text referred to in the Declaration of the President of the EU as a negotiating acquis; and whether it is regarded by the Government as a negotiating acquis not open to further discussion. [145498]

Mr. MacShane: We have placed copies of all the documents produced by the Presidency during the IGC in the Library of the Houses. These include a compromise text tabled for the Naples Conclave on 28–29 November 2003 and a further text tabled in the week preceding the European Council. Yet another compromise text, promised for the second day of the European Council, was not in the event tabled, though the President of the European Council, Mr. Berlusconi, drew on it when summing up at the end of the meeting.

Until the negotiations are completed, all aspects are potentially open to further discussion. But the Italian Presidency went through the normal negotiating process of successive refinements and approximations of a text, in the search for consensus, and we would expect the next Presidency to want to draw upon this work.

Burundi

Mr. Woodward: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what funding his Department has given to Burundi in *(a)* 2001, *(b)* 2002 and *(c)* 2003; [145152]

(2) what assistance has been given in the last five years for the reconstruction of Burundi, including *(a)* assisting returning displaced people and disaster victims and *(b)* disarmament, demobilisation, retraining and rehabilitation of fighters. [145156]

Mr. Mullin: Over the last five years the UK has put over £5 million into bilateral aid to Burundi, mostly in humanitarian and health interventions, including for displaced persons, and peace-building activities. In addition we have put 2 million US dollars into a Trust Fund for debt alleviation. The UK has also contributed 25 million US dollars to another Trust Fund for a regional programme of Disarmament, Demobilisation and Reintegration in the region, of which Burundi will be a beneficiary.

We also disbursed £25,000 in 2002–03 to support mediation efforts in Burundi and have so far spent £134,326 in this financial year on governance issues. We have also provided support to the African Union peacekeeping force (AU African Mission in Burundi) with a contribution of £3.7 million to the Mozambican Government to help equip their 217-strong contingent. Following a request from the AU Chairman (Konare) to my right hon. Friend the Prime Minister, we have agreed to support AMIB further through a contribution of £2 million to the AU administered Trust Fund.

We have also funded a number of small projects in Burundi using FCO/DFID funds, for example:

£

Project	*Cost*
Small grant scheme (SGS)	
2001–02	47,921
2002–03	47,256
2003–04	[1] 75,000
FCO departmental programme budget	
2002–03	6,000
FCO human rights project fund	
2002–03	59,996

[1] Estimate of likely spend.

Mr. Woodward: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the leader of Burundi on preventing the supplying, training and arming of rebel groups in the Democratic Republic of the Congo. [145154]

Mr. Mullin: We strongly support the arms embargo introduced in UN Security Council Resolution 1493 of 28 July 2003 which calls on all states, including the Democratic Republic of the Congo (DRC), to take measures to prevent such support. We are supporting proposals for an arms monitoring mechanism in the DRC.

We have a regular dialogue with the Government of Burundi and continue to encourage the Government of Burundi to pursue a negotiated agreement to bring the remaining rebel group (FNL-Rwasa) into the peace process.

Mr. Woodward: To ask the Secretary of State for Foreign and Commonwealth Affairs what his assessment is of the situation in Burundi. [145155]

Mr. Mullin: Recent developments in Burundi are encouraging but there is a long way to go. The implementation of a cease-fire and inclusion of former rebels into government following agreement in Dar es Salaam in November is good news. The African Mission in Burundi (supported by the UK) is deployed and preparing for the disarmament., demobilisation and reintegration of rebel forces. The country is preparing for elections and the end of the transition in November 2004. However, many challenges remain. Poverty remains widespread and the economic situation is poor. One rebel group remains outside the peace process. The UK will continue to support efforts to bring peace, security, stability and progress to Burundi.

Central Asian Drugs Action Plan

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 9 December 2003, *Official Report*, column 421W, on the Central Asian Drugs Action Plan, what effect the implementation of the Central Asian Drugs Action Plan has had on the importation of heroin from Afghanistan into the UK. [144497]

Mr. Rammell: It is estimated that over 80 per cent. of Afghan heroin reaching the UK arrives via Turkey, with Pakistan and Iran being key staging posts en route. The majority of Afghan heroin trafficked via the Central Asian Republics is judged to be destined for

consumption in Russia and other countries in the region, rather than for onward transit to the European Union and United Kingdom. The trafficking of Afghan heroin via the Central Asian Republics is therefore not a significant factor in determining the amount of heroin reaching the UK.

Chechnya

Tom Brake: To ask the Secretary of State for Foreign and Commonwealth Affairs what actions his Department has taken to advance the cause of human rights in Chechnya. [145799]

Mr. Rammell: We continue to be concerned over the human rights situation in Chechnya and consistent reports of human rights abuses, including reports of rising numbers of abductions and disappearances. We regularly raise UK concerns on the situation in Chechnya with the Russian Government. We most recently did so following the Chechen Presidential elections, when I called for human rights to be upheld in Chechnya. The UK also supported EU statements before and after the elections which raised similar concerns.

China

Mr. Laurence Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Chinese authorities about the case of Tenzin Deleg Rinpoche (Aa'n Zhaxi); and if he will make a statement. [145375]

Mr. Rammell: We have raised Tenzin Deleg Rinpoche's case with the Chinese authorities on a number of occasions. I did so most recently with Assistant Foreign Minister Zhang Yesui in Beijing on 17 December 2003. He replied that Tenzin Deleg Rinpoche had had a fair and public trial and been sentenced in accordance with Chinese law. We will continue to express our concerns about this case.

Colombia

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he is holding with the Colombian Government on human rights and freedom for trade union activities. [144921]

Mr. Rammell: We have a regular dialogue with the Colombian Government as well as with non-governmental organisations and trade unions on these issues. I raised relevant concerns during my visit to Colombia in May 2003 and again when I met the Colombian Foreign Minister in New York in September 2003. These issues were given prominence in the London Declaration issued at the London Meeting on International Support for Colombia in July. A Working Group in Bogota of the governments who attended the Meeting is monitoring, and will evaluate progress on, the implementation of the London Declaration.

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make inquiries about the whereabouts of the two Colombian military officers found guilty of the murder of Manuel Capeda. [145138]

Mr. Rammell: The Colombian authorities have informed us that these officers are currently serving prison sentences for the murder of Manuel Capeda in a state prison in the city of Ibague.

Disabled Civil Servants

Tim Loughton: To ask the Secretary of State for Foreign and Commonwealth Affairs how many senior civil servants in his Department are disabled, expressed in *(a)* numbers and *(b)* as a percentage of whole-time equivalents. [144979]

Mr. Mike O'Brien: At September 2003, eight FCO staff in the Senior Management Structure declared themselves to have a disability. This represents 1.7 per cent. of all staff at this level.

Draft European Constitution

Andrew Selous: To ask the Secretary of State for Foreign and Commonwealth Affairs for what reasons his Department *(a)* tabled an amendment to the draft European constitution to delete sub-clauses 2*(a)* to *(g)* from Article III-167 and *(b)* ceased to have an objection to these sub-clauses. [145210]

Mr. MacShane: Article III-167 paragraph 2 of the Convention on the Future of Europe's draft Constitutional Treaty for the EU concerns the Union's common policy on asylum. The UK tabled an amendment to the Convention draft of this article because it believed that the text could be improved by focusing it more on general provisions setting out the desired purpose and outcomes of European cooperation in this area. However, in the light of discussions during the IGC, and given that any UK participation would be on the basis of the Title IV Protocol, the Government decided not to pursue these proposals, and is content with the latest draft Treaty text.

EU-Israel Association Agreement

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent meetings he has had with EU counterparts to discuss Article II of the EU-Israel Association Agreement relating to adherence to human rights. [145389]

Mr. MacShane: The EU last discussed Israel's adherence to human rights and the EU/Israel Association Agreement at the General Affairs and External Relations Council on 17 November 2003, immediately prior to the EU/Israel Association Council.

The EU has serious concerns about the lack of respect shown for the human rights of both Israeli and Palestinian people in this conflict. Along with our EU partners, we have followed a policy of constructive engagement with Israel on humanitarian and human rights issues. At the EU/Israel Association Council the EU called on Israel to abstain from any punitive measures that are not in accordance with international law, including extra-judicial killings and destruction of houses.

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs what the status is of the city of Jerusalem in the EU-Israel Association Agreement. [145390]

Mr. MacShane: The EU/Israel Association Agreement defines the scope of its coverage as the EU and the State of Israel. It does not define further what is meant by the "State of Israel".

The Government and the International Community consider that the status of Jerusalem is one of the issues to be resolved by negotiations between the Government of Israel and the Palestinian Authority in a permanent status agreement that ends the Israel-Palestinian conflict. Pending agreement, the Government recognises de facto Israeli authority over West Jerusalem, but consider East Jerusalem to be occupied territory. We recognise no sovereignty over the city.

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs what controls exist on the import of products from illegal Israeli settlements to prevent their entry to the UK under preferential treatment within the EU-Israel Association Agreement. [145391]

Mr. MacShane: The European Commission published, in November 2001, a notice to importers in the *Official Journal* of the European Communities alerting EC importers to the ineligibility of products originating in the Occupied Territories for the preferences provided by the EU/Israel Association Agreement.

HM Customs and Excise are verifying the origin of certain products. Where products are found to have originated in the Occupied Territories HM Customs and Excise collect duty from the UK importers. Other EU member states' customs authorities, working with the European Commission, are taking similar action to enforce EC law.

Great Lakes

Mr. Woodward: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the use of child soldiers in the countries of the Great Lakes region in Africa. [145153]

Mr. Mullin: The UK condemns unequivocally the use of child soldiers.

We are particularly concerned about the widespread use of child soldiers in the Great Lakes region. The UK has contributed US$25 million to the Multi-Country Demobilisation and Reintegration Programme (MDRP). The funds for this will be used in part in the Democratic Republic of the Congo (DRC) to enable the Disarmament, Demobilisation and Reintegration (DDR) of child soldiers. We have provided an additional £750,000 directly to UNICEF to help its programme until funding under the MDRP becomes available. The UK has also provided technical assistance to the Congolese to enable them to draw up a National Programme for DDR.

In Uganda, the UK gave £450,000 to UNICEF and Save the Children last Financial Year to rehabilitate children who have escaped from their Lords Resistance Army. We have discussed with the Ugandan Government reports of under-age soldiers being recruited by the Government defence units in the North. The Government of Uganda has assured us that they are co-operating with UNICEF to identify and demobilise the recruits. Our High Commission in Kampala is monitoring the situation.

Indonesia

Mrs. Anne Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government have made since the EU's statement at the 59th Session of the Commission on Human Rights in Geneva in March to encourage the Indonesian Government to comply with its obligations under Security Council Resolution 1410 and allow questioning of those people indicted by the UN's Serious Crimes Unit for the atrocities in 1999; and if he will make a statement. [145353]

Mr. Mike O'Brien: To date we support the work of the Serious Crimes Unit (SCU) and are disappointed that Indonesia has failed to co-operate. We will remain in close contact with the UN, East Timor and other interested countries on what is the best way to meet East Timor's need for justice.

Iraq

Norman Lamb: To ask the Secretary of State for Foreign and Commonwealth Affairs whether *(a)* Ministers and *(b)* officials from (i) his Department and (ii) other Departments have had contact with Mr. Nadhmi Auchi since the conflict in Iraq; and if he will make a statement. [142019]

Mr. Rammell: As far as I am aware, Ministers and officials from the Foreign and Commonwealth Office have not had contact with Mr. Nadhmi Auchi since the conflict in Iraq. I am also not aware of any contact between Government Ministers or officials other than Mr. Auchi writing to my right hon. Friend the Secretary of State for Trade and Industry on 15 May 2003 to introduce the Anglo Arab Organisation. The Secretary of State acknowledged his letter on 29 May 2003.

Norman Lamb: To ask the Secretary of State for Foreign and Commonwealth Affairs whether Mr. Nadhmi Auchi has advised the Government on aspects of post-conflict Iraq on an *(a)* informal and *(b)* formal basis; and if he will make a statement. [142021]

Mr. Rammell: As far as I am aware, Mr. Auchi has not advised the Government on aspects of post-conflict Iraq.

Mr. Best: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the *(a)* numbers and *(b)* origins of non-Iraqi fighters opposed to coalition forces in Iraq. [144327]

Mr. Rammell: We believe foreign fighters from a range of countries are present in Iraq. Most, but not all, have probably travelled from other countries in the Gulf, the Middle East and Africa. A smaller number may have travelled from Europe. We have no precise information on the number of foreign fighters currently in Iraq. Since any estimate of the number of foreign fighters would be based on intelligence, under Exemptions 1 and 2 of Part 2 of the Code of Practice on Access to Government Information, it would not be appropriate to provide further details.

Mr. Godsiff: To ask the Secretary of State for Foreign and Commonwealth Affairs when the full minutes and proceedings for meetings of the International Advisory and Monitoring Board for the Development Fund for Iraq will be published. [145119]

Mr. Rammell: The International Advisory and Monitoring Board (IAMB) held its first meeting on 5 December. According to the Terms of Reference for the Board all minutes of meetings of the IAMB will be made publicly available within 30 days of being finalised by the IAMB. The terms of reference and a press release on the meeting are available on the IMF's website at www.imf.org

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs whether United Kingdom representatives in Iraq had prior knowledge of the raid on the headquarters of the Iraqi Federation of Workers' Trade Unions on Saturday, 6 December. [145218]

Mr. MacShane: The UK Government have no information about an incident at the temporary headquarters of the Iraqi Federation of Trade Unions on 6 December 2003. In any case, the UK is not routinely consulted on US tactical operations where UK forces are not involved.

Mr. Carmichael: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government is taking to provide advice on the security situation in Iraq to UK civilians offered employment there. [145279]

Mr. Rammell: The Government are going to considerable lengths to mitigate and manage the security risks for the British civilians whom they are employing in Iraq. But, for obvious reasons, we do not describe publicly the measures we are taking.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 9 December 2003, *Official Report*, column 422W, on Iraq, what information he has collated about the reasons why families of the Iraqi Governing Council have left Iraq since the coalition invasion. [145674]

Mr. Rammell: The reasons why families of Iraqi Governing Council members come and go from Iraq are personal, and a matter for the families concerned. We have not sought to collate information on their movements.

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs when he next plans to visit Iraq. [146223]

Mr. Rammell: Foreign engagements for my right hon. Friend the Foreign Secretary and other Ministers are kept under constant review. It is not practice to announce such visits until they are firm. Because of the unpredictable nature of world events, final decisions on overseas visits are often not possible until very shortly before the day of travel and occasionally not until they are under way.

Kashmir

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his *(a)* Indian and *(b)* Pakistani counterpart concerning the alleged police killing of two civilians near the Jehum Valley Hospital in Srinagar, Kashmir; and if he will make a statement. [145292]

Mr. Mike O'Brien: I was concerned to hear of the death of two civilians during a gun battle between the security forces and militants in Srinagar on 14 December 2003. Ordinary people have had to pay a heavy price in the continued violence in Kashmir. While I have not raised this specific issue with the Indian and Pakistani Governments, we regularly urge both sides to work together to resolve their differences, including over Kashmir.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had since 4 November with representatives of the Governments of *(a)* Pakistan and *(b)* India on progress in dealing with the Kashmir situation. [145293]

Mr. Mike O'Brien: During my visit to Pakistan from 9 to 12 December 2003, I met both President Musharraf and Foreign Minister Kasuri. My right hon. Friend the Prime Minister met Prime Minister Vajpayee on 6 December 2003 during the Commonwealth Heads of Government Meeting in Abuja. During our discussions with both Governments, we warmly welcomed the recent confidence-building measures, including the ceasefire on the Line of Control in Kashmir. We also encouraged both Governments to make sustained efforts to address each other's concerns and to pave the way for a process aimed at settling all their outstanding differences, including the issue of Kashmir. We very much hope that the South Asian Association for Regional Co-operation Summit in Islamabad on 4 to 6 January 2004 will enable all the countries of South Asia to take forward their ideas for further regional co-operation.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what confidence-building programmes are *(a)* funded, *(b)* supported, *(c)* proposed and *(d)* initiated by his Department aimed at resolving the Kashmir situation; and if he will make a statement. [145294]

Mr. Mike O'Brien: The British Government fully support the Governments of India and Pakistan in their efforts to improve their relations. We have warmly welcomed the recent confidence-building measures taken by both Governments, including the ceasefire along the Line of Control. Through our Global Conflict Prevention Pool, we fund a variety of activities encouraging contact between India and Pakistan and promoting public debate on reducing conflict in the region. We will continue to encourage both Governments to sustain their efforts to address each other's concerns and to pave the way for a process aimed at settling all their outstanding differences, including the issue of Kashmir.

Middle East

Mr. Best: To ask the Secretary of State for Foreign and Commonwealth Affairs what influence the United Kingdom is exerting on the US Administration to urge it to make representations to the Israeli Government on the subject of the security wall. [144382]

Mr. Rammell: I refer my hon. Friend to the answer I gave to my hon. Friend the Member for Strathkelvin and Bearsden (Mr. Lyons) on 16 December 2003, *Official Report*, columns 797–98W.

Official Receptions

Mr. Grogan: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on his Department's policy on the serving of beer at official receptions. [145777]

Mr. Rammell: At official functions organised by the Government Hospitality Section of the Foreign and Commonwealth Office beer is served to guests should it be requested.

Pakistan (Immigration)

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on *(a)* the level of service for immigration cases provided by HM high commission, Islamabad and *(b)* his future plans for that service. [145395]

Mr. Mullin: As a result of the security situation in Pakistan our high commission has operated for a substantial period with severely reduced staff. This reduced our visa section in Islamabad's capacity to provide a full service. In recent months service levels have improved significantly.

My right hon. Friend the Foreign Secretary is committed to restoring a full visa service in Pakistan as soon as is practical and the security situation allows. It was announced by my hon. Friend the Minister of State for Foreign and Commonwealth Affairs and Trade and Industry on 10 December 2003 during his recent visit to Pakistan that the service has been further expanded to include business visitors, and certain categories of permit free employment; including those who wish to set up a business in the UK, sole representatives, investors and retired persons of independent means. This is further to the expansion of services which was implemented on 17 November 2003 to include applications from visitors who have travelled to the UK, Canada. Australia, New Zealand and the United States of America within the last 10 years, fiance*(e)*s applying to settle in the UK, EEA family members and others applying for family reunion. We are committed to reducing the waiting and processing times of all applications and gradually increasing service levels with a view to implementing a full service by April 2004 at a reasonable level of demand. A copy of the Minister's statement is available on the British high commission's website: www.britainonline.org.pk/british-government-statements-and-press-releases.

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs how many appeals from Pakistan against the refusal of entry clearance for settlement by *(a)* spouses, *(b)* fiancés, *(c)* dependent children and *(d)* dependent elderly relatives are waiting to be processed by UK visas. [145400]

Mr. Mullin: Appeals against the refusal of entry clearance for settlement are processed in the UK by the Appeals Processing Centre of the Home Office. Our high commission in Islamabad currently has 575 settlement appeals awaiting despatch to the Appeals Processing Centre of the Home Office. To break down the information further as requested by the hon. Member could be provided only at disproportionate cost by deploying high commission staff to review each of the appeals individually.

Russia

Tom Brake: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the fairness of the recent elections in Russia. [143934]

Mr. Rammell: International observers assessed the conduct of voting as positive in an overwhelming majority of polling stations and election day proceeded in a generally calm and peaceful manner.

However, we take very seriously the OSCE's preliminary conclusions that, while the Duma elections were well organised, the pre-election process failed to meet many international standards.

We look forward to seeing the OSCE's Office for Democratic Institutions and Human Rights report and hope that the Russian Federation will follow-up any recommendations before this year's presidential elections.

Strategy White Paper

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his written statement of 2 December 2003, *Official Report*, columns 57–58WS on the Foreign and Commonwealth Office Strategy White Paper, for what reason protection of the environment is not included in the list of international strategic priorities; and if he will make a statement. [145276]

Mr. Straw: Sustainable development is listed as one of the Government's eight international strategic priorities. Specific aims listed under this priority include reinvigorating action on climate change, and supporting the Johannesburg Summit commitments with a focus on biodiversity, water, sanitation and human settlements.

US-occupied Sites

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the sites on UK territory outside the UK occupied by the US, giving in each case the *(a)* location, *(b)* acreage and *(c)* purpose of occupation. [145148]

Mr. Rammell: Sites occupied by the United States in UK Overseas Territories are as follows:

On Ascension Island, the US Air Force uses a total of 3.600 acres of land, comprising 1,196 acres for Wideawake airfield and a further 2,404 acres mainly for buildings and communications equipment. On Diego Garcia, which is part of the British Indian Ocean Territory, the United States maintains a naval and air support facility consisting of an anchorage, airfield, support and supply elements and ancillary services, personnel accommodation and transmitting and receiving services, as well as a hydro-acoustic monitoring facility. It is not feasible to calculate the precise acreage occupied for these various purposes.

There is no US-occupied land on other UK Territories apart from 0.47 acres occupied by the US Consulate-General in Bermuda.

Zimbabwe

Mr. Boswell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the administrative consequences for nationals of *(a)* the UK and *(b)* Zimbabwe consequent on that country's Government's announced withdrawal from the Commonwealth. [145085]

Mr. Mullin: The immediate impact on UK nationals of Zimbabwe's withdrawal from the Commonwealth is negligible. Our High Commission in Harare, which becomes an Embassy, will continue to provide consular and other services normally afforded to British citizens.

No policy or legislative changes in response to Zimbabwe's withdrawal will be made after detailed consideration of the impact such changes might have on ordinary Zimbabweans. We also intend to remain in step with our key Commonwealth partners and co-ordinate closely with the Commonwealth Secretariat in London.

Under UK legislation, Zimbabwean citizens have the status of "Commonwealth citizens" because Zimbabwe is designated as a Commonwealth State in Schedule 3 of the 1981 British Nationality Act. This entitles them to certain rights and privileges as Commonwealth citizens, such as the right to vote in national, local and European elections held in the UK.

Zimbabweans currently benefit from the provisions of the immigration rules relating to Commonwealth citizens. They are eligible for entry to the UK under the UK Ancestry entry clearance and the Working Holidaymaker provisions of the Immigration Rules. Zimbabweans who have one British parent and are Commonwealth citizens, have right of abode in the UK.

Also affected is the right of Zimbabwean nationals to consular protection in third countries where Zimbabwe has no diplomatic representation.

Zimbabwe's withdrawal affects the eligibility of its nationals to serve in our armed forces and civil service.

There are implications for the UK's extradition arrangements with Zimbabwe, now that it has ceased to be a member of the Commonwealth.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agenda 21

Mrs. May: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the implementation of Agenda 21 by each local authority; and if she will make a statement. [142790]

Margaret Beckett: The Government monitored progress on Local Agenda 21 (LA21) until the end of 2000. By then over 93 per cent. of local authorities in England and Wales had LA21 strategies in place. As these were voluntary strategies developed to reflect local circumstances, we did not carry out any formal assessment. Stakeholders have, however, carried out a number of studies into LA21 in the UK.

The Local Government Act 2000 placed a duty on local authorities to prepare community strategies for promoting the economic, social and environmental well being of their communities and contributing to sustainable development in the UK. The Government's statutory guidance says that authorities should build on the experience of partnership working and community engagement gained through LA21. The Government want to see sustainable development become a mainstream issue for local authorities, their partners, and local communities. We believe that the most effective way to achieve this is to subsume LA21 strategies within statutory community strategies.

Questions about community strategies should be addressed to my right hon. colleague the Minister of State for Local Government, Regional Governance and Fire.

Albatrosses and Petrels

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects the Government to ratify the Agreement on the Conservation of Albatrosses and Petrels; and if she will make a statement. [141072]

Mr. Morley: The Government are working hard to ratify the Agreement and will do so as soon as possible. With South Africa's ratification in November, the Agreement has the five range states needed to allow it to enter into force. This will happen on 1 February 2004.

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs which countries have so far ratified the Agreement on the Conservation of Albatrosses and Petrels. [141073]

Mr. Morley: Australia, New Zealand, Ecuador, Spain and South Africa have now ratified the Agreement.

The UK intends to do so as soon as possible.

Carcinogens

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what the total amount of recognised carcinogens released to the air was in *(a)* England and *(b)* each government region in each year since 1997. [143759]

Mr. Bradshaw: The National Atmospheric Emission Inventory (available on line http://www.naei.org.uk/) compiles annual air pollutant emissions for the United Kingdom. The most recent year for which emissions have been calculated is 2001. Emissions of four known or probable human carcinogens are calculated: benzene, 1,3-butadiene, benzo[a]pyrene and dioxins. Table 1 shows the national annual emissions since 1997 taken from the National Atmospheric Emission Inventory.

Emissions are generally calculated using statistics that are available on a national scale (e.g. fuel use). Inventory experts are gathering the regional information in order to undertake the complex process of calculating regional

totals. So far, emissions for England have been calculated for 1997 to 2001 (Table 2), but emissions for each Government region are not yet available.

Table 1 UK emissions 1997–2001

	Units	*1997*	*1998*	*1999*	*2000*	*2001*
Benzene	kt	35.8	31.7	28.7	15.7	15.4
1,3-Butadiene	kt	7.3	6.4	5.9	5.1	4.5
BaP	tgTE	11.2	9.7	8.6	6.7	7.2
Dioxins	Q	471	411	395	346	341

Table 2 England emissions for 1997–2001

	Units	*1997*	*1998*	*1999*	*2000*	*2001*
Benzene	Kt	27.4	24.3	22.0	12.0	11.8
1,3-Butadiene	kt	6.0	5.3	4.8	4.2	3.7
BaP	t	9.4	8.2	7.3	5.6	6.1
Dioxins	gTEQ	376	328	315	276	272

Notes:

(a) BaP = benzo[a]pyrene (a carcinogen in its own right and a marker for carcinogenic polycyclic aromatic hydrocarbons in ambient air);

(b) The term dioxin refers to a range of polychlorinated dibenzo-p-dioxin and polychlorinated dibenzofuran compounds. The emissions of dioxins are presented in terms of the sum of the weighted emissions expressed as gTEQs. TEQs weight the toxicity of the less toxic congeners as fractions of the toxicity of 2,3,7,8-TCDD, the most toxic congener.

Bovine TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the effect of the reactive cull component of the Government's randomised badger culling trials on the incidence of TB in dairy cattle. [144403]

Mr. Bradshaw: The Independent Scientific Group on Cattle TB carried out an interim analysis of the Randomised Badger Culling Trial data collected up to the end of August 2003. The analysis indicated that there is an increased risk of TB breakdowns occurring in trial areas where reactive culling has taken place, compared to the related control (survey-only) areas. The increase is estimated at 27 per cent.

This conclusion is statistically valid and has been reached after taking into account factors other than culling (e.g. history of breakdowns in the area, number of herds, herd size etc.) which may have an impact on the number of breakdowns in a particular area. This outcome is consistent across nine of the 10 triplets; there has not been any reactive culling in the 10th reactive trial area.

On the basis of these findings, ministers have decided to suspend culling in reactive trial areas, because the evidence suggests that such culling leads to more cases of TB in cattle.

Climate Change

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the outcome of the recent climate change meeting in Milan. [145136]

Mr. Morley: The Ninth Conference of the Parties to the UN Framework Convention on Climate Change (COP9) took place between 1–12 December in Milan, Italy. The Secretary of State and I represented the UK during the ministerial segment on 10–12 December. Agreement was reached on a range of important and forward looking items on the COP agenda, including the following: rules for inclusion of forestry projects (sinks) in the Clean Development Mechanism; the guidelines for operationalising two of the three funds for developing countries agreed at COP7 in Marrakech (the Least Developed Countries Fund and the Special Climate Change Fund); the level of the Convention budget for the biennium 2004–05 including provision for activities to implement the Kyoto Protocol once it comes into effect; two new agenda items, building on the Intergovernmental Panel on Climate Change's Third Assessment Report, examining the scientific, technical and socio-economic aspects of mitigation and adaptation; and the scope of further methodological work required in the next few years to advance the work of the Convention. This means that all the key decisions have now been taken to enable implementation of the Kyoto Protocol.

During the three ministerial round table discussions, many countries underlined the importance of the Kyoto Protocol and looked forward to its entry into force. The view was also widely expressed that further action to tackle climate change is urgently required. Some speakers focussed on the need for further action on the impacts of, and vulnerability and adaptation to, climate change, and on the transfer of low carbon technology to developing countries, while others argued strongly for deeper cuts in emissions from developed countries and the important role of existing and new technologies to achieve them.

Llew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the outcome of the COP9 conference of parties to the United Nations framework convention on climate change held in Milan this month; if she will place in the Library copies of all papers *(a)* submitted by the United Kingdom and *(b)* submitted by other parties which include information relevant to the United Kingdom; and if she will publish details of website addresses which give information on the conference. [144509]

Mr. Morley: The Ninth Conference of the Parties to the UN Framework Convention on Climate Change (COP9) took place between 1–12 December in Milan, Italy. The Secretary of State and I represented the UK during the ministerial segment on 10–12 December. Agreement was reached on a range of important and forward looking items on the COP agenda, including the following: rules for inclusion of forestry projects (sinks) in the Clean Development Mechanism; the guidelines for operationalising two of the three funds for developing countries agreed at COP7 in Marrakech (the Least Developed Countries Fund and the Special Climate Change Fund); the level of the Convention budget for the biennium 2004–05 including provision for activities to implement the Kyoto Protocol once it comes into effect; two new agenda items, building on the Intergovernmental Panel on Climate Change's Third Assessment Report, examining the scientific, technical and socio-economic aspects of mitigation and adaptation; and the scope of further methodological work required in the next few years to advance the work

of the Convention. This means that all the key decisions have now been taken to enable implementation of the Kyoto Protocol.

During the three ministerial round table discussions, many countries underlined the importance of the Kyoto Protocol and looked forward to its entry into force. The view was also widely expressed that further action to tackle climate change is urgently required. Some speakers focussed on the need for further action on the impacts of, and vulnerability and adaptation to, climate change, and on the transfer of low carbon technology to developing countries, while others argued strongly for deeper cuts in emissions from developed countries and the important role of existing and new technologies to achieve them.

In the international climate change negotiations, the UK negotiates as part of the European Union. I have therefore placed copies of all EU statements, which incorporate the UK's views and reflect the EU consensus, in the Libraries of both Houses. The UNFCCC website (http://unfccc.int/) gives complete information on the Conference and copies of all papers.

Crop Areas

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the cost to farmers arising from the over-estimation of the wheat area for this year's harvest. [143590]

Mr. Bradshaw: Defra figures are only one of a number of sources of information available to the market and individual buyers and sellers have to use their own commercial judgment. Although there was an initial increase of approximately £5 per tonne immediately following publication of corrected figures, this had reduced by about half within a few days with the price back on trend. This reflects the UK's position as a price taker rather than a price maker in an international commodity market. UK production is about only 13 per cent. of EU production, and EU production is just over 20 per cent. of world production. On average, however, wheat prices this year are now some £50 per tonne higher than at the same period last year. They have risen steadily throughout the marketing season in response to serious reductions in supply elsewhere in Europe as a result of heat and drought in the summer. This has also coincided with a tighter global market which has seen world wheat prices at their highest levels in recent years. There was no discernable effect on prices when the provisional agricultural census results were published in the middle of September.

Disabled Civil Servants

Tim Loughton: To ask the Secretary of State for Environment, Food and Rural Affairs how many senior civil servants in her Department are disabled, expressed in *(a)* numbers and *(b)* as a percentage of whole-time equivalents. [144977]

Alun Michael: Statistical information about senior civil servants with disabilities is available on the civil service website at: http://www.civil-service.gov.uk/statistics/documents/pdf/disability-oct03.pdf

The data show that 1 per cent. of senior civil servants in the Department have a disability. As there are fewer than five members of the senior civil service in my Department with a disability, the actual number is not published in order to protect the privacy of the individual in line with exemption 12 of the "Code Of Practice on access to Government Information".

Energy Production

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how much energy was produced per person in *(a)* the UK and *(b)* other EU countries in 2002. [143760]

Mr. Timms: I have been asked to reply.

Data on EU and worldwide energy production are collated annually by the International Energy Agency. The latest available data for all EU countries relates to 2001, and is shown in the following table.

tonnes

Country	*Energy production per person, in tonnes of oil equivalent*
Austria	1.20
Belgium	1.27
Denmark	5.07
Finland	2.92
France	2.21
Germany	1.62
Greece	0.91
Ireland	0.45
Italy	0.45
Luxembourg	0.14
Netherlands	3.77
Portugal	0.34
Spain	0.82
Sweden	3.86
UK	4.46
Average for all EU countries	1.57

Flood Prevention

Mrs. May: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what guidance her Department has issued to local authorities wishing to take part in trials of demountable flood barriers; [143167]

(2) what the specification for the Environment Agency's trials of the Pallet Barrier system are in *(a)* Shrewsbury, *(b)* Worcester and *(c)* Ironbridge Gorge; [143168]

(3) what assessment she has made of the impact of temporary demountable flood barriers upon flood prevention. [143169]

Margaret Beckett: Demountable defences have been used in numerous places and include for example gated openings and the demountable wall at Bewdley. Where tested these have all generally performed well as flood defence structures.

In addition we have funded the Environment Agency to trial movable temporary defences including the pallet barrier system. These are at Shrewsbury, Worcester and Ironbridge Gorge. The trials are designed to test the

security of the defence that might be achieved by such systems. The results of these trials will be made publicly available once they have been completed.

We will then make an assessment of the potential impact of temporary flood barriers on flood alleviation and will issue guidance to operating authorities accordingly. However it should be noted that these temporary systems are only likely to be suitable for particular locations and where there is adequate notice of rising river levels such as on the River Severn.

Nuclear Sites

Llew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs which United Kingdom nuclear sites are being considered for complementary access by safeguards inspectors from the International Atomic Energy Agency. [142921]

Nigel Griffiths: I have been asked to reply.

The protocol additional to the UK/Euratom/IAEA safeguards agreement will allow the IAEA to request complementary access to nuclear sites and other locations in the UK under the terms set out in the protocol. Although the protocol is not yet in force, we are willing to allow complementary access visits on a voluntary basis. The IAEA has not requested any such access.

Quality Council Status

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what advantages to parish councils and their communities will follow from an award of quality council status to that council. [145137]

Alun Michael: Achieving quality parish status demonstrates that a council has met certain minimum standards expected from an effective, representative and active parish council. The Council will then be in a position to do more for it's communities on behalf of the principal local authorities thus making services more responsive to local needs. The main beneficiary of Quality status will be the local community as the Council takes on an enhanced role:

As an integral part of all consultation arrangements set up by principal local authorities and other service providers on how services are delivered in its area;

In the management, delivery and discussion about the future of services which parish councils may carry out and deliver, on behalf of the principal local authority; and

In the provision of access points to information on services of principal local authorities and other service providers.

This enhanced role will be achieved through the negotiation of charters with principal local authorities. We shall be monitoring the development of these charters and the impact of the Quality Town and Parish Scheme to ensure it achieves real benefits, but at the level of anecdote there is evidence of real engagements and enthusiasm among parish Councils up and down the country. This is very encouraging.

Racing Greyhounds

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make it her policy to use the proposed Animal Welfare Bill to improve the statutory protection for the welfare of racing greyhounds. [143370]

Mr. Bradshaw: Yes.

Regional Producers (Wiltshire) Ltd.

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 16 December 2003, ref. 143598, if she will list the public objectives of Regional Producers (Wiltshire) Ltd. [145223]

Alun Michael: The organisation describes its purpose on its website as:

"Wiltshire Regional Producers Limited provide high quality produce at affordable prices with emphasis on traditional customer service. All our produce is sourced from local regional producers, be they farmers, cottage industry workers or small businesses working to the standards of ISO9002. We utilise database systems to ensure that our produce comes from fully traceable sources guaranteeing safety and peace of mind for families and businesses alike. Our existing customers testify to high standards and superior taste."

I have asked Great Western Enterprise and Business Link for Berkshire and Wiltshire to write to the hon. Member with details of the technical objectives put forward by Regional Producers (Wiltshire) Ltd. in their applications for grant support.

Small Businesses

Brian Cotter: To ask the Secretary of State for Environment, Food and Rural Affairs whether her Department uses a database of individual small businesses for consultation purposes. [142480]

Alun Michael: The Department has lists that it uses to identify and consult with interested bodies and organisations as appropriate and these lists include small businesses which have expressed an interest in the particular subject. The Department also makes use of the database established by the Small Business Service (SBS) in undertaking such consultations.

The Department recognises the importance of communicating effectively and is developing a centrally controlled database. This, in addition to professional tools and guidance, will continue to enhance our communications with all of our key stakeholders.

DEFENCE

Gulf War Syndrome

Mr. Blunt: To ask the Secretary of State for Defence what assessment he has made of whether the epidemiological evidence available supports the existence of Gulf War Syndrome. [145404]

Mr. Caplin: I refer the hon. Member to the answer I gave on 10 December 2003, *Official Report*, column 135WH, to the hon. Member for North Cornwall (Mr. Tyler) during a debate about Gulf veterans.

Iraq

Mrs. Liddell: To ask the Secretary of State for Defence if he will list the composition of United Kingdom land forces in Iraq. [143727]

Mr. Ingram: I refer my right hon. Friend to the answer I gave on 20 November 2003, *Official Report*, column 1253W, to the hon. Member for Mid-Sussex (Mr. Soames). In addition, the 1st Battalion, The Argyll and Sutherland Highlanders will deploy to Iraq in January 2004, along with additional RMP elements.

Llew Smith: To ask the Secretary of State for Defence what access is being given to Iraqi *(a)* civilians and *(b)* former military personnel to the type of biological monitoring for depleted uranium contamination that is afforded to United Kingdom personnel who served in Iraq. [145182]

Mr. Ingram: This is an issue for the Coalition Provisional Authority (CPA) rather than for my Department. However, the planned United Nations Environment Programme (UNEP) assessment of post-conflict environmental and human health issues in Iraq will include those relating to depleted uranium (DU). We continue to liaise with UNEP and to share information as part of our contribution to efforts to ensure that the Iraqi people and others are protected against ionizing radiation and hazards from whatever source. Although we have not received any request for information or support in relation to biological monitoring, full details of our biological monitoring policy are available to all at www.mod.uk/issues/depleted_uranium/du_biomonitoring.htm; we would be happy to provide advice to the CPA or UNEP if required.

Phil Sawford: To ask the Secretary of State for Defence which British companies are known to have supplied *(a)* weapons and *(b)* weapons technology to Iraq in the 10 years prior to the Gulf war in 1991. [145295]

Nigel Griffiths: I have been asked to reply.

The issue of the export of defence equipment and dual-use goods from the United Kingdom to Iraq in the period 1984–1990 was the subject of the Inquiry by Sir Richard Scott (now Lord Scott of Foscote), copies of which are available in the Libraries of the House. The question relates to a period prior to the Government's decision to publish an annual report on strategic export controls.

Mrs. Liddell: To ask the Secretary of State for Defence if he will make a statement on the roles being undertaken by reservists in Iraq. [143734]

Mr. Ingram: The range of roles provided by reservists to support Operation TELIC broadly reflects those undertaken by the Regular Forces plus a number of specialist areas unique to the Reserves. The range includes: RN amphibious warfare advisers, logisticians, intelligence analysts, linguists, RN mine warfare specialists, media operations, combat engineers, amphibious bridging specialists, signallers, port operating specialists, NEC warfare specialists, movements personnel, medical personnel, meteorologists, aircrew, ground crew, railway specialists, POL operators, HGV drivers, cooks, ambulance crews, administrative staff and the Army and Royal Marine combat arms.

Legal Costs

Mr. McNamara: To ask the Secretary of State for Defence what legal costs have been incurred in defending the retention of Fisher and Wright in HM Armed Services following their release from prison. [145170]

Mr. Ingram: I refer my hon. Friend to the answer I gave on 16 December 2003, *Official Report*, column 842W, indicating the totality of legal bills paid to date in defending Guardsmen Fisher and Wright. Of this sum approximately £11,000 was paid following their release from prison.

Military Personnel (Psychiatric Treatment)

Tim Loughton: To ask the Secretary of State for Defence how many military personnel received treatment at the Priory, Roehampton in the last year; and what the cost was. [144151]

Mr. Caplin: One member of the Services received treatment at the Priory, Roehampton. The cost of the admission and treatment was £73,778.

Territorial Army

Mr. Liddell-Grainger: To ask the Secretary of State for Defence what assistance his Department provides to Territorial Army soldiers returning from overseas duty to secure employment. [145744]

Mr. Caplin: Reservists who are called out into permanent service benefit from employment protection under the Reserve Forces (Safeguard of Employment) Act 1985. Under Section 1 of that Act an employer is required to take back into his employment former employees who have completed called-out service. Should an employer fail to reinstate a reservist in accordance with the provisions of that Act, the reservist may apply to a Reinstatement Committee to hear his case. The Reinstatement Committee can order the employer to reinstate the reservist, or to pay compensation, or both. Failure to comply with an order of a Reinstatement Committee is a criminal offence, and an employer may be fined on summary conviction. All reservists are advised of this process on call out.

Typhoon

Mr. Gerald Howarth: To ask the Secretary of State for Defence what stability problems have been encountered on test flights of the Typhoon when flying with combat loads. [145644]

Mr. Ingram: No stability problems have been encountered to date on test flights of the Typhoon when flying with combat loads.

UK Sites (USA Occupation)

Norman Baker: To ask the Secretary of State for Defence if he will list the sites in the UK occupied by the US, giving in each case the *(a)* acreage and *(b)* purpose of occupation. [145147]

Mr. Caplin: The following table lists the sites made available to the United States Visiting Forces in the UK, together with their purpose of use and size in hectares.

Site/Purpose of use	*Hectares*
Main Operating Bases	
RAF Lakenheath	727.00
RAF Mildenhall	469.62
Standby Deployment Base	
RAF Fairford	470.64
Storage/Support Facilities	
RAF Alconbury	81.13
RAF Church Fenton	Presence
RAF Daws Hill	21.12
Defence Estates Eastcote	7.76
Glasgow Docks	0.10
High Wycombe offices	Presence
RAF Hythe	6.80
Kennington Barracks	0.11
Marchwood Military Port	1.93
RAF Molesworth	270.94
RAF Spadeadam	Presence
RAF Upwood	2.45
RAF Welford	300.16
RAF West Ruislip	13.96
Communications Facilities	
RAF Barford St. John Comms. Site	196.18
RAF Barkway	0.90
Botley Hill Communications Site	Presence
RAF Bovingdon	0.89
DCSA Chelveston	0.33
RAF Christmas Common	1.03
RAF Cold Blow Lane	0.14
RAF Croughton	278.95
RAF Daventry	0.70
RAF Digby	Presence
Dunkirk Communications Site	Presence
RAF Feltwell	129.48
RAF Menwith Hill	220.57
DCSA Oakhangar	Presence
DCSA St. Eval	6.09
RAF St. Mawgan	5.16
Swingate Communications Site	0.22
RAF Uxbridge	Presence

Those sites listed as "Presence" are where the US Visiting Forces have a small presence on site in certain buildings but do not have a measurable hectarage allocated to them.

In addition to the sites in the above table, the US Visiting Forces also have family quarters housing allocated to them, in a variety of locations in the UK.

Wind Turbines

Mr. Hancock: To ask the Secretary of State for Defence if he will make it his policy to include wind turbines in the site development plans for Portsdown West and Porton Down; and if he will make a statement. [142198]

Mr. Caplin: The site development for Portsdown West and Porton Down will provide the opportunity to improve the energy efficiency of its built environment and therefore the planning will consider the use of renewable energy sources, including wind turbines.

All development plans will be subject to statutory consultations and the approval of relevant stakeholders, including the local planning authority.

HOME DEPARTMENT

Art Acquisition

Norman Baker: To ask the Secretary of State for the Home Department how much his Department has spent on the acquisition of works of art in each year since 1997, broken down by amounts spent on *(a)* paintings and *(b)* sculpture; what the single most expensive piece of art purchased by his Department since 1997 has been; how much it cost; and what the total revenue raised by his Department through sales of its works of art has been since 1997. [142352]

Fiona Mactaggart: Since 1997 the Home Office has purchased seven paintings at a total cost of £525. These paintings were acquired for an office in Glasgow in August 2003 from a local visual arts company which specialises in developing projects for disabled adults and children, people with mental health problems, minority ethnic groups and homeless people. An art strategy is also being developed for the new Home Office in 2 Marsham Street. Part of the cost of this, which has not been finalised, will be met by the developer. No works of art have been sold since 1997.

Correspondence

Mr. Kaufman: To ask the Secretary of State for the Home Department when he will reply to the letter to him dated 7 November from the right hon. Member for Manchester, Gorton with regard to Shamus-un-Nissa Kayani. [144635]

Mr. Blunkett: I wrote to my right hon. Friend on 12 December 2003.

Mr. Kaufman: To ask the Secretary of State for the Home Department when he will reply to the letter to him dated 10 November from the right hon. Member for Manchester, Gorton with regard to Mr. George Marneris. [144638]

Mr. Blunkett: I replied to the letter from my right hon. Friend on 12 December.

Crime Reduction Initiatives

Dr. Kumar: To ask the Secretary of State for the Home Department (1) how much money has been invested, and how many retailers have benefited, *(a)* in Middlesbrough, South and Cleveland, East *(b)* in the north-east and *(c)* in total from the Capital Modernisation Fund to assist small retailers in deprived areas; [144746]

(2) what plans there are to develop the Capital Modernisation Fund to assist small retailers in deprived areas; and if he will make a statement. [144747]

Ms Blears: Over the three years of the Small Retailers in Deprived Areas Initiative (2001–04) £120,000 has been provided to Middlesbrough Crime and Disorder Reduction Partnership to improve the security and immediate environment of approximately 19 individual shops and essential businesses. £76,000 has been allocated to the Redcar and Cleveland Partnership helping 23 businesses. These two partnerships cover the Middlesbrough, South and Cleveland, East constituency.

A total of £1,241,018 has been provided to the North East region benefiting at least 1,319 shops.

This project has enabled £14.5 million to be allocated to projects in England and Wales, providing assistance to over 12,500 shops. Many more will have benefited indirectly from this funding. A small amount of the fund (£0.5 million) has been used for evaluation and running costs.

As part of the small retailers' scheme we are providing a national security training package for small businesses in crime prevention and reduction. The Association of Convenience Stores have been selected to run the scheme on behalf of the Home Office from December 2003 to March 2004. The training will target nearly 600 key people in local businesses nation-wide through 28 seminars. Seminars will be held in Middlesbrough on 20 January 2003 and in Redcar and Cleveland on 21 January 2003.

The SRDA initiative is a three year initiative which concludes at the end of March 2004. Financial provision for similar interventions to continue, if Crime and Disorder Reduction Partnerships wish, is made in the Building Safer Communities fund.

We will ensure that the successes of this initiative are disseminated widely and point to effective interventions which have been shown to have a beneficial impact on crime.

Criminal Cases Review Commission

Mr. McNamara: To ask the Secretary of State for the Home Department (1) how many applications for review of alleged wrongful conviction upon indictment have been received during each of the last eight years by the Criminal Cases Review Commission; and how many cases in each year have been *(a)* ruled ineligible, *(b)* investigated with a decision of not to refer where the decision-maker was (i) a case review manager, (ii) a single commissioner and (iii) a panel of three Commissioners and *(c)* investigated with a decision to refer; [141816]

(2) how many applications for review of alleged wrongful conviction upon indictment have been received to date by the Criminal Cases Review Commission; how many *(a)* were ruled ineligible, *(b)* were completed with a decision not to refer and *(c)* were completed with a decision to refer; and how many applications in each case were from (i) unassisted applicants and (ii) legally assisted applicants. [141818]

Paul Goggins: The Commission's data systems have been developed over time and so full data are not available for all years. The Commission first received applications in 1997. In no case is a Case Review Manager the decision-maker. The most recent information on Committee decisions is that 97 per cent. of decisions not to refer were made by a single Commissioner and 3 per cent. were taken by a committee of three Commission members. Data on all applications is as follows and the most recent information on conviction types is that 92 per cent. of applications are for convictions on indictment.

	Applications	*Ineligible*	*Decision not to refer*	*Decisions to refer*
1997–98	1,103	248	51	11
1998–99	1,037	222	239	31
1999–2000	777	298	681	36
2000–01	800	257	808	45
2001–02	834	272	892	38
2002–03	932	299	652	35

The Commission's data do not cover legal assistance for all years. The most recent information (30 September 2003) is that 41 per cent. of applications under review at Stage 2 screen (where eligible cases are examined to see whether they can be reviewed with modest caseworker effort) have legal representation and 59 per cent. of those at Stage 2 (where eligible cases requiring considerable caseworker effort are reviewed).

Mr. McNamara: To ask the Secretary of State for the Home Department how many complaints have been received by the Complaints Manager at the Criminal Cases Review Commission in each of the last eight years; and of those complaints how many were *(a)* resolved to the satisfaction of the complainant and *(b)* upheld. [141819]

Paul Goggins: The complaints received by the Commission and the number upheld are as follows:

	Complaints received	*Upheld*
1997–98	11	7
1998–99	15	2
1999–2000	34	10
2000–01	63	14
2001–02	69	9
2002–03	76	11
2003 to 30 November 2003	39	4

Complainant satisfaction is difficult to measure but only 13 complaints in total have been taken to Stage 2 of the Commission's complaints procedure following adjudication. The Commission is to introduce a feedback process for complainants.

Identity Cards

Mr. Allan: To ask the Secretary of State for the Home Department what discussions he has had with his EU counterparts concerning the mutual recognition of identity cards. [142154]

Beverley Hughes: There have been no recent discussions with European Union (EU) counterparts on mutual recognition of identity cards.

There are currently no EU standards for the content and format of identity cards, and it is for member states to decide whether and how to issue them. However there is mutual recognition in the sense that valid identity cards issued by EU member states are recognised as travel documents throughout the EU, and also as proof that the holder is an EU national entitled to exercise Treaty rights in any member state.

Mr. Oaten: To ask the Secretary of State for the Home Department what estimate he has made of the costs of the identity card scheme in the first three years

of operation; and what proportion of set-up costs will be met from *(a)* charging and *(b)* existing departmental budgets. [144274]

Beverley Hughes: In his response to the hon. Member during his statement on identity cards on 11 November 2003, *Official Report*, column 178WS, my right hon. Friend the Home Secretary set out our current best estimates of the set-up costs of the scheme over a three year period. These are £36 million, £60 million and £90 million, respectively. The proportion of these costs which will be funded from charges as opposed to from existing departmental budgets has not yet been decided.

Identity Fraud

Mr. Oaten: To ask the Secretary of State for the Home Department (1) how many incidents of identity theft have been reported to the police in each of the last 12 months; [143385]

(2) what statistics are gathered by his Department on identity fraud. [143387]

Beverley Hughes: It is not a criminal offence for a person simply to use another identity. However, false identities are often used to facilitate other offences such as deception and money laundering.

The police do not generally record incidents of identity theft because prosecutions are recorded for the offences facilitated by false identities.

Information and Technology Projects

Mr. Oaten: To ask the Secretary of State for the Home Department (1) how many information and technology projects have been initiated by his Department since 1994; [144271]

(2) if he will list the information technology projects that have been *(a)* terminated and *(b)* abandoned by his Department since 1994. [144272]

Fiona Mactaggart: The Home Office and its agencies (excluding non-departmental public bodies) have initiated 36 Information Technology (IT) projects since 1994. This covers IT projects *(a)* where the cost or value of the project exceeds £5 million or *(b)* are essential for delivery of core objectives or services. This does not include projects that were originally initiated by Home Office but are not now my responsibility as a result of Machinery of Government changes.

The Home Office has terminated one project since 1994. This was the Immigration and Nationality Directorate's Casework Programme. No projects have been abandoned.

Northern Ireland Troubles

Mr. Barnes: To ask the Secretary of State for the Home Department (1) if he will make it his policy to co-opt victims of the Troubles onto the Victims' Advisory Panel; [142755]

(2) how many people in Great Britain have made claims to the Criminal Injuries Compensation Authority as a result of the Northern Ireland Troubles; [142756]

(3) what representations he has received concerning the inclusion of the needs of victims of the Northern Ireland Troubles from Great Britain within the remit of the Commissioner for Victims and Witnesses; [142823]

(4) if he will establish an interdepartmental group in the Home Office Victims Unit to study the needs of victims of the Northern Ireland Troubles from Great Britain; [142825]

(5) if he will set up an independent support network for victims of the Troubles. [142861]

Paul Goggins: The answers to the questions are as follows.

Any victim of a crime occurring in England and Wales can apply to be a member of the Victims Advisory Panel. The next recruitment campaign for lay members will take place in 2005. Civilian victims of the Northern Ireland Troubles who live in Great Britain can apply. None did so when we first advertised for members in 2002.

There are no centrally held statistics about claims for compensation from victims of terrorist crime before the introduction of the tariff-based scheme in April 1996. In the period between then and 11 September 2001, the Criminal Injuries Compensation Authority received 588 claims arising from incidents of terrorist bombings in Great Britain. There is no reliable way of giving a definitive breakdown between those related to the Troubles or to other terrorist incidents.

No specific representations have been received about including the needs of victims of the Troubles within the remit of the Commissioner for Victims and Witnesses. The Commissioner, once appointed, will have a responsibility to promote and champion the needs of victims and witnesses of all crimes, who are resident in England and Wales.

The National Strategy for Victims and Witnesses published in July 2003 set out the Government's plans for improving services to all victims. Although not specifically identified as a group separate from others who are bereaved or seriously injured as a result of crime, victims of terrorist incidents in England and Wales are included within the strategy. Work to implement the strategy has now begun, although there are no immediate plans to set up a group to study the needs of the victims of the Northern Ireland Troubles from Great Britain.

There are already a number of independent victims' organisations operating in England and Wales at both national and local level, most notably the voluntary organisation, Victim Support, which this year received a grant of £30 million from the Government. Victim Support provides practical advice and emotional support to victims of all types of crime, including terrorist crime. If people who have been affected by the Troubles wish to set up their own independent support network, they are free to do so.

Passports (Secure Delivery)

Mr. Oaten: To ask the Secretary of State for the Home Department what the projected cost per passport of the

secure delivery service announced on 28 November is; and what the total value of the contract with Special Mail Services Ltd. is. [143484]

Beverley Hughes *[holding answer 11 December 2003]:* The secure delivery service provided by Special Mail Services Ltd. will cost £2.75 per passport including ancillary service provided. The total value of the contract will depend on the number of passports issued by United Kingdom Passport Service (UKPS) but over a three year period, the contract is estimated to be worth up to £55 million.

Prison Spending

Mr. Gibb: To ask the Secretary of State for the Home Department what the prisons budget was for each year since 1995; and what the prisons spending forecast is for each year up to 2009. [142987]

Paul Goggins: The table shows the actual costs of the Prison Service between 1995 and 2003. The figures for 1995–96 to 2000–01 are published in the annual Appropriation Accounts, and the figures for 2001–02 to 2003 are from the Cash Flow Statement in the annual accounts.

Table 1: Prisons Budget 1995 to 2003

£ millions

Financial year	*Current*	*Capital*	*Total*
1995–96	1,336.7	330.2	1,666.9
1996–97	1,388.5	220.1	1,608.6
1997–98	1,462.9	277.9	1,740.8
1998–99	1,611.7	200.4	1,812.1
1999–2000	1,696.8	149.6	1,846.4
2000–01	1,659.5	135.2	1,794.7
2001–02	1,758.4	99.5	1,857.9
2002–03	1,910.5	235.3	2,145.8

The budget plans for the years 2003–04 to 2005–06 are set out in the table. These figures are published in tables 2 and 3 of Section 6 of the Home Office Annual Departmental Report 2003. Both in-year and future year budgets are subject to review and amendment.

Table 2: Budget plans for the Prison Service 2003 to 2006

£ millions

Financial year	*Resource budget plans*	*Capital budget plans*
2003–04	2,331.462	294.796
2004–05	2,403.303	268.730
2005–06	2,520.342	166.730

There are no published budget plans for the years 2006–07 to 2008–09.

Probation Service

Mr. Oaten: To ask the Secretary of State for the Home Department what the percentage change will be in *(a)* the National Probation Service and *(b)* the National Probation Directorate financial settlement for 2004–05. [141801]

Paul Goggins: A final decision about the budget for the National Probation Service, including the National Probation Directorate for 2004–05 has not yet been made.

Mr. Oaten: To ask the Secretary of State for the Home Department whether the *(a)* Warwickshire, *(b)* Dorset, *(c)* Suffolk, *(d)* Norfolk and *(e)* Gloucestershire probation areas will receive less money in real terms during 2004–05 after performance-linked penalties and central recharging are taken into account. [141803]

Paul Goggins: A final decision about the budget for individual areas within the National Probation Service has not yet been made. The Gross Domestic Product (GDP) deflator set by the Treasury is 2.5 per cent. for 2004–05. It is not expected that any of the above mentioned probation areas will have an increase in their main resource allocation of less than the GDP deflator, after performance-linked penalties and central recharging outside the control of the local areas are taken into account.

Mr. Oaten: To ask the Secretary of State for the Home Department how much has been spent on failed IT projects in the Probation Service in each year since 1994. [141804]

Paul Goggins: The National Probation Service Information Systems Strategy (NPSISS) ran from 1994 to 2001 and was the subject of a National Audit Office (NAO) report. A full breakdown of the cost of NPSISS can be found in the NAO report published on 26 April 2001, HC401 Session 2000–01. While the NAO identified significant weaknesses with the management of NPSISS, particularly in the development of the case record and management system, (CRAMS) they did not conclude that the project had 'failed'. As a result of NPSISS, 38 out of which 42 Areas were linked to a network which enabled them to communicate electronically between themselves as well as with the Directorate and other parts of the Home Office.

The National Probation Service was formed in April 2001. Prior to that date individual Probation Services undertook local IT projects. It is not possible to confirm whether the anticipated benefit of each scheme were achieved.

Terrorism

Mr. Oaten: To ask the Secretary of State for the Home Department what meetings of the pilot group of experts on terrorism from EU states and Europol have taken place since 25 June. [144250]

Mr. Blunkett: The informal pilot group held its second workshop on terrorist profiling at the headquarters of Europol on 20 November 2003, with UK representation. This meeting was essentially a stock take as the research needed to inform this long-term and complex project is on-going.

Volunteers in Action Programme

Mr. Drew: To ask the Secretary of State for the Home Department if he will provide support for the Volunteers in Action programme. [143026]

Fiona Mactaggart: I would like to congratulate the Volunteers in Action on the amount of good works they have done over the years. As with many voluntary groups their work is invaluable for supporting active communities and I wish them well for the future.

WORK AND PENSIONS

Women Pensioners

Miss McIntosh: To ask the Secretary of State for Work and Pensions how many women pensioners were means-tested in *(a)* 1997 and *(b)* 2002. [144481]

Malcolm Wicks: The information is not available in the format requested. The following figures include both single women and women who are partners of recipients.

In May 1997 there were 1,350,100 women aged 60 or over receiving income support, income-based jobseeker's allowance, family credit and disability working allowance. In addition, it is probable that there were some other women who received housing benefit or council tax benefit but we are unable to estimate how many.

In May 2002 there were 1,341,400 women aged 60 or over receiving minimum income guarantee and income-based jobseeker's allowance. Including those who were receiving housing benefit and council tax benefit the number was 2,140,000.

Notes:

1. Figures subject to a degree of sampling variation.
2. 1,350,100 rounded to the nearest hundred.
3. 2,140,000 rounded to the nearest ten thousand.
4. Council tax benefit totals exclude any second adult rebate cases. Housing benefit figures exclude any extended payment cases.
5. Overlaps between benefits have been removed.

Source:

IAD Information Centre, 5 per cent. samples IS and JSA, 1 per cent. samples HB/CTB, and 100 per cent. sample DWA.

Chronic Pain

Mr. Sheerman: To ask the Secretary of State for Work and Pensions how many working days were lost in each of the past five years as a result of chronic back pain; and how many days were lost to mental illnesses. [140479]

Ruth Kelly: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Sheerman, dated 5 January 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about the number of working days lost because of chronic back pain and mental illnesses. (140479)

The available information from the Labour Force Survey (LFS) shows that, for the UK as a whole in the 12 month periods ending in August 2001, August 2002 and August 2003, respectively 117 million, 114 million and 108 million working days were lost due to sickness or injury. Comparable information is not available for earlier years.

Information about the types of illnesses or injuries which cause sickness absence is not collected in the LFS, so no figures for numbers of working days lost because of chronic back pain and mental illnesses are available.

As with any sample survey, estimates from the LFS are subject to sampling error.

Occupational Deafness

Mr. Mahmood: To ask the Secretary of State for Work and Pensions what plans he has to amend the criteria for entitlement to state benefit on the grounds of occupational deafness. [143459]

Mr. Browne: We have no current plans to amend the criteria for entitlement to Industrial Injuries Disablement Benefit for occupational deafness.

However, the Industrial Injuries Advisory Council completed a review of occupational deafness last year, all its recommendations have been accepted and amending legislation came into force on 22 September 2003.

Pension Credit

Lembit Öpik: To ask the Secretary of State for Work and Pensions (1) how many individuals are estimated to be eligible for pension credit in Wales in *(a)* 2003–04, *(b)* 2004–05, *(c)* 2005–06 and *(d)* 2006–07; [144628]

(2) what his Department's target is for the number of individuals who will be receiving pension credit in Wales in *(a)* 2003–04, *(b)* 2004–05, *(c)* 2005–06 and *(d)* 2006–07. [144629]

Malcolm Wicks: The information requested is not available. It is estimated that 250,000 households or 350,000 individuals in Wales are eligible for pension credit in 2003–04. As at the end of November 2003 there were 120,000 households (145,710 individuals) in Wales receiving pension credit. There is no departmental target for the number of individuals who will be receiving pension credit in Wales. The Department has a PSA target for at least 3 million pensioner households to be receiving pension credit in Great Britain (GB) by 2006, which is estimated to correspond to around 3.7 million individuals. Reliable estimates of households and individuals entitled to or in receipt of pension credit in future years are not available below GB level. We want all those eligible for pension credit to take up their entitlement.

Notes:

1. Estimates are based on the 2001–02 Family Resources Survey and are rounded to the nearest 50,000.
2. Recipients are based on 100 per cent. Generalised Matching Service (CMS) data at 14 November 2003 and have been rated up to give month end estimates.
3. Figures are for Government Office Region (GOR) of Wales. Government Office Regions are assigned by matching postcodes against the relevant ONS postcode directory.

TRADE AND INDUSTRY

Broadband

Ross Cranston: To ask the Secretary of State for Trade and Industry what information she has collated on the take-up of broadband in each of the last five years in *(a)* Dudley North, *(b)* the West Midlands and *(c)* England; and if she will make a statement. [143893]

Mr. Timms: Information on the take-up of broadband by Parliamentary Constituency is not available. The take-up of broadband in the West Midlands based on historical data from operators, the

number of households and businesses and availability by technology to the post sector level have been estimated by Analysys Consulting Ltd. as:

West Midlands

		Number
2002	Q4	122,914
2003	Q1	130,289
2003	Q3	186,249

On the same basis, the estimated combined total for all English regions for the same periods is:

English regions

		Number
2002	Q4	1,226,767
2003	Q1	1,590,945
2003	Q3	2,355,737

Data for earlier years have not been collated.

Oftel has collated data on the estimated number of UK broadband subscribers since November 2000. Updated figures are published regularly on the Oftel website http://www.oftel.gov.uk From 29 December 2003, data will be published on the Ofcom website.

Michael Fabricant: To ask the Secretary of State for Trade and Industry what her estimate is of the number of broadband connected personal computers in the UK which have, unknown to the owner of the computer, been hijacked by computer programmes written by internet criminals and which also have the potential to serve as a platform for the spread of fraud, spam, paedophile images and organised crime over the internet; and what steps she is taking to counter this problem. [144391]

Mr. Timms *[holding answer 17 December 2003]:* We do not collect data on this and are not aware of reliable estimates. We do undertake a regular survey of information security breaches in the business community based on a sample of one thousand companies. We use the results of this survey to inform our message to business about the importance of protecting information assets and the advice we give, particularly to smaller companies, about techniques and technologies to prevent problems. The Home Office, as a supplement to the British Crime Survey, surveys households' experience of breaches of this kind, though obviously victim surveys only identify those who are aware their machine has been used in this way. The activities described are criminal acts and should be reported to the police when users become aware of them.

Business Innovation

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what targets her Department has set for improving business innovation; and if she will make a statement on the UK's *(a)* G7 ranking, *(b)* European ranking and *(c)* world ranking in business innovation. [143136]

Ms Hewitt: My Department's Public Service Agreement includes a target to increase the rate of business innovation. On 20 November, my Department published an economic report, "Competing in the Global Economy—The Innovation Challenge", that reviewed existing evidence on the UK's innovation performance. The report shows that UK innovation performance across a range of measures was around—or below—average relative to other advanced economies although some indicators have moved in the right direction in recent years. For example, after a period of decline of Research and Development spending from 1.5 per cent. of GDP in 1981, to 1.16 per cent. in 1997, we have seen an upturn in more recent years as summarised in the following table.

	Per cent.
1998	1.17
1999	1.23
2000	1.19
2001	1.23
2002	1.24

A report on the Review of Innovation that we have undertaken this year was published on Wednesday 17 December.

Business Investment

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what assessment she has made of the impact that falling business investment has on economic growth. [143430]

Ms Hewitt: Business investment per worker has increased over the last decade in the UK, although it has been subject to a cyclical decline since 2001, in common with our major G7 competitors. Investment drives long run growth, and the Government are committed to ensuring that the UK provides a business environment where investment can flourish. That is why the Government have made major reforms to the macro-economic framework, which have helped to deliver low and stable inflation and to avoid large, destabilising fluctuations in output. Economic stability helps businesses plans for the long-term, giving them the confidence to invest. The Government have also reformed the corporate tax regime to give powerful incentives to invest, improved institutional investment arrangements through the Higgs and Myners reviews, and removed the regulatory barriers to investment in the planning system.

Business Support Schemes

Brian Cotter: To ask the Secretary of State for Trade and Industry what has happened to those business support schemes in existence in November 2002 which have not been closed to new business, have not been devolved elsewhere and do not remain open to new business. [144236]

Nigel Griffiths: My right hon. Friend the Secretary of State for Trade and Industry's answer to the hon. Member's earlier question on 10 November 2003, *Official Report*, columns 20–21W, listed the 39 schemes that were no longer open to new business, and cited two

schemes that had been transferred on the Regional Development Agencies. This leaves the 52 schemes that are currently open to new business.

In November 2002 over 100 business support schemes were considered to be operational. The figure of 93 reflects in part a consolidation of the previous count. We had, for example, identified and counted separately each of the Link research programmes; these are now aggregated into the reduced total and counted as a single scheme.

Colombia

Mr. Drew: To ask the Secretary of State for Trade and Industry if she will publish the list of licences granted for trade with Colombia which involve the export of military equipment. [144924]

Nigel Griffiths: Details of export licences granted for Colombia are published in the Government's Annual Report on Strategic Export Controls. Copies of the Annual Report are available from the Libraries of the House.

Commission for Equality and Human Rights

Mr. Borrow: To ask the Secretary of State for Trade and Industry which agency *(a)* an employee and *(b)* an employer should approach for (i) legal advice and (ii) advocacy on discrimination and harassment on the grounds of (A) sexual orientation and (B) religion and belief in advance of the establishment of the Commission for Equality and Human Rights. [144405]

Ms Hewitt: The Employment Equality (Sexual Orientation) Regulations and the Employment Equality (Religion or Belief) Regulations were introduced on 1 and 2 December respectively offering protection from discrimination in employment and vocational training. Legislation on these grounds will be enforced in the same way as other employment equality laws: through the Employment Tribunals and the Courts.

The DTI website has information on the legislation aimed at employers and employees (www.dti.gov.uk/er/equality). ACAS, the independent employment relations service, has produced impartial guidance on the sexual orientation and religion or belief regulations and the workplace. It includes possible scenarios and frequently asked questions. The ACAS guidance is available on their website (www.acas.org.uk) and as a free printed booklet. These are both useful sources of information on rights and responsibilities under the new legislation which will help employers to avoid discrimination and help employees recognize where they may have been discriminated against.

Both employers and employees can seek practical advice from ACAS via their national helpline (08457 47 47 47). Employers may also receive advice from their own HR specialists, legal representatives, trade association or business representative organisation.

As with other employment legislation, individuals who wish to make a complaint to a tribunal are able to enlist the support of their trade union, law centres, Pro Bono groups or voluntary organisations with a particular interest in their case, as well seeking independent legal advice from a solicitor. In some cases, they may be eligible for legal advice and assistance under the Community Legal Service (CLS) legal help scheme. The CLS website, 'Just Ask!' (www.justask.org.uk) provides co-ordinated access to several hundred legal information and help websites. Users can use the search facility on 'Just Ask!' to locate local or national legal service providers who can help with their problems. Individuals can also call into their local Citizens Advice Bureau, where free legal advice and representation may be available.

Correspondence

John Barrett: To ask the Secretary of State for Trade and Industry when she will reply to the letter from the hon. Member for Edinburgh West of 30 September on outsourcing of jobs abroad; and what the reasons were for the delay in replying. [143722]

Mr. Timms: I apologise to the hon. Member for the delay in responding to his letter. This was due to an administrative oversight. A reply has been sent to his office today.

Departmental Grants

Brian Cotter: To ask the Secretary of State for Trade and Industry how much funding has been provided by her Department to finance the Business Volunteer Mentoring scheme that is managed by the National Federation of Enterprise Agencies since inception of the scheme. [145517]

Nigel Griffiths: Since its inception, in January 2000, my Department has provided approximately £3.5 million to fund the Business Volunteer Mentoring scheme.

Disabled Civil Servants

Tim Loughton: To ask the Secretary of State for Trade and Industry how many senior civil servants in her Department are disabled, expressed in *(a)* numbers and *(b)* as a percentage of whole-time equivalents. [144982]

Jacqui Smith: Statistical information about senior civil servants with disabilities is available on the Civil Service Statistics web-site at http://www.civil-service.gov.uk/statistics/documents/pdf/disability-oct03.pdf

This information is also made available in the Libraries of the House. The latest statistics show staffing data as at 1 April 2003. The data shows that in my Department there are 10 senior civil servants with a disability. This is 3.4 per cent. of the total number of senior civil servants in my Department.

Electricity Act

Mr. Beggs: To ask the Secretary of State for Trade and Industry what assessment she has made of the effects of the European Water Framework Directive and European habitat regulations on section 36 consents under the Electricity Act 1989. [144188]

Mr. Timms: In deciding whether consent should be granted for individual projects under section 36 of the Electricity Act, my right hon. Friend the Secretary of State for Trade and Industry will take into account a

range of interests and consult with a number of relevant statutory bodies including the nature conservation agencies and the Environment Agency. My right hon. Friend the Secretary of State for Trade and Industry would expect any advice received from the statutory bodies as a result of the consultation to have regard to the legislation applicable to the functions for which they are responsible and for their advice to reflect their expertise in the implementation of such legislation.

Entrepreneurs

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what steps her Department is taking to increase the number of people going into business or becoming self-employed; what targets have been set; if she will make a statement on progress to date; and what estimate she has made of the number of people who were considering going into business or becoming self-employed in each year since 1997. [143042]

Nigel Griffiths: There are a number of Government support initiatives aimed at helping those thinking about starting a business. These include:

A comprehensive range of start-ups service delivered through Business Link and other outlets in England

The publication of the No-nonsense guide to Government rules and regulations for setting up your business

The launch of businesslink.gov.

In 2001, 12 per cent. of adults in England were considering going into business or becoming self-employed. The DTI has a target to increase this to 14 per cent. by 2005.

Equal Opportunities

Mr. Bellingham: To ask the Secretary of State for Trade and Industry whether different standards on promoting equal opportunities will apply to *(a)* companies working on government-funded contracts and *(b)* those engaging in purely private business. [140532]

Fiona Mactaggart: I have been asked to reply.

Private sector companies, including those carrying out public sector contracts, are subject to the provisions of the Sex Discrimination Act 1975, the Race Relations Act 1976 and the Disability Discrimination Act 1995. These prohibit discrimination, respectively, on the grounds of sex, on racial grounds and on the grounds of disability, in the fields of employment, training, education, the provision of goods and services and the provision of housing. From 2 December 2003, it has also been unlawful to discriminate on the grounds of sexual orientation and religion or belief in the fields of employment and vocational training.

The Race Relations Act 1976, as amended by the (Amendment) Act 2000 (RR(A)A) placed a general duty on listed bodies to have due regard to the need:

(a) to eliminate unlawful racial discrimination; and

(b) to promote equality of opportunity and good relations between persons of different racial groups.

The duty applies to public bodies only listed in the Schedule introduced by the RR(A)A. The duty does not apply to private sector bodies.

However, the Government does not want to see a dilution of the general duty in relation to functions which have been contracted out, and bodies to which the duty applies will need to be mindful of their obligations when discharging their functions through others. In placing contracts, for example, such bodies might want to consider whether the contract should be used to specify actions that the contractor should take to ensure that the body in question does not fail to meet its obligations in this area. This does not, however, mean the duty is transferred to the contractor. The responsibility for complying with the duty in relation to public functions relevant to it remains at all times with the listed body.

Equal Treatment at Work Directive

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what research her Department has carried out into the preparedness of United Kingdom companies for the introduction of the Equal Treatment at Work Directive. [142829]

Ms Hewitt: Most of the provisions of the amended Equal Treatment Directive are already reflected in existing Great Britain legislation. There has already been some consultation on the principles of some of the legislative provisions of the amended Equal Treatment Directive, and we said then we planned further consultation and provided a target of late 2005 for implementation.

The Employment Directive makes discrimination in employment and vocational training against an individual on the grounds of his or her religion or belief or sexual orientation unlawful. We have held three consultations since the Employment Directive was first drawn up. We have ensured where possible that the new legislation has been introduced in a way that is consistent with existing long-standing equality legislation. Since the summer DTI has held a series of awareness raising seminars for employers. ACAS has produced guidance to help employers on which they consulted widely and is available online at www.acas.org.uk

Foreign Debt

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what guarantees the Export Credits Guarantee Department has issued to each heavily indebted poor country in each year since 1997; what the *(a)* value and *(b)* project type was in each instance; and what the total outstanding debt owed by each country is (i) in total and (ii) broken down by (A) amounts at risk, (B) unrecovered claims and (C) moratorium interest accrued on the unrecovered claims. [144834]

Mr. Mike O'Brien *[holding answer 18 December 2003]:* Since 1997 ECGD has only supported business in three Heavily Indebted Poor Countries, namely Vietnam, Ghana and Tanzania. Vietnam is a sustainable HIPC requiring no debt restructuring since the early 1990s. Ghana, until relatively recently, was also regarded as a sustainable HIPC but is now benefiting from HIPC debt treatment. Tanzania reached its Completion Point in December 2001 and all historic debt was written off by the UK. The business supported was as follows:

1997 Vietnam—Aircraft, value £21 million.

1998 Vietnam—Paper Mill Equipment, value £6 million.

1999 Vietnam—Coal Fired Power Plant, value £24 million.

1999 Vietnam—Investment in Sugar Refinery, value £16 million.

1997 Ghana—Capital Equipment and Related Services, value £7 million.

1997 Ghana—Waste Water Project, value £17 million.

1997 Ghana—Road Proj ect, value £14 million.

1998 Ghana—Capital Equipment and Related Services, value £6 million.

1999 Ghana—Kotoka airport project, value £19 million.

2000 Tanzania—Investment in Water and Sewerage Contract, value £2 million.

The future amounts at risk on Ghana, Vietnam and Tanzania are £61 million, £23 million and £1 million respectively.

Outstanding balances on heavily indebted poor countries' rescheduled sovereign debt as at December 2003

All values in £ million

Market	*Unrecovered claims*	*Capitalised interest*	*Arrears of interest*	*Total rescheduled debt*
Angola[1]	51.483	4.437	71.744	127.664

[1] indicates that this is a Sustainable HIPC. All other markets are Unsustainable HIPCs.

Identity Cards

Mr. Webb: To ask the Secretary of State for Trade and Industry what assessment she has made of the implications of the introduction of compulsory identity cards for her Department. [142415]

Ms Hewitt: My Department has been fully involved in discussions on the benefits and costs of a national identity card scheme. The introduction of such a scheme is a long-term undertaking and my Department will be involved in on-going analysis of its implications.

As the Home Office document "Identity Cards the Next Steps" (November 2003 Cm 6020) made clear, the Government will be

> "working closely with business—particularly small business—trade unions and others to design the system to maximise the benefits and minimise the compliance costs to law-abiding businesses and to develop an effective enforcement system that will deal with illegal workers and the minority of businesses that deliberately flout the law."

Industrial Development Unit

Mrs. Calton: To ask the Secretary of State for Trade and Industry how many grants and of what value have been made by the Industrial Development Unit in her Department; and how many new jobs have been created as a result of these in the last five years broken down by region. [145758]

Jacqui Smith: The Industrial Development Unit lead on the appraisal of Regional Selective Assistance applications for assistance of £2 million or more. Decisions are made by Ministers. Details of cases over the five years ending 30 September 2003, are as follows:

Region	*Offers accepted (number)*	*Value (£ million)*	*Expected jobs (new and safeguarded)*
East Midlands	2	9.95	2,211
North East	9	102.84	7,215
North West	6	73.94	5,237
South East	2	7.50	631
South West	3	11.71	1,210
West Midlands	6	48.00	5,322
York/Humberside	4	13.01	1,068
Total	32	266.95	22,894

Legislation

Mr. Redwood: To ask the Secretary of State for Trade and Industry what percentage of *(a)* primary and *(b)* secondary legislation sponsored by her Department in 2002–03 was introduced to implement EU requirements. [141130]

Ms Hewitt: My Department sponsored four Bills during the 2002–03 session, of which 25 per cent. implemented EU requirements.

Of the 141 statutory instruments put through Parliament by my Department in 2002–03 session, 26 per cent. were introduced to implement EU requirements.

Manufacturing Industry

Mr. Hepburn: To ask the Secretary of State for Trade and Industry what measures have been taken to promote the manufacturing industry within schools. [145120]

Jacqui Smith: We published the Government's Manufacturing Strategy in May 2002—the first such strategy for 30 years—which we developed in partnership with industry, trade unions and other stakeholders, following a summit meeting on the challenges facing manufacturing held in December 2001. We are working closely with industry and other stakeholders to create a high value and high skill manufacturing sector that attracts young people as an exciting and innovative area of work.

We are supporting a number of key initiatives in order to promote the manufacturing industry within schools. For example, SETNET (The Science, Engineering, Technology and Maths Network) operates through a UK wide network to encourage young people to take an interest in these areas, and to understand the opportunities that a career in industry can offer.

Many of the new Sector Skills Councils are also helping to promote careers in manufacturing. For example, SEMTA—the Sector Skills Council for Science, Engineering and Manufacturing Technologies—runs several schemes to promote careers in industry to young people, including an Engineering Careers Information Service.

Advantage West Midlands and the West Midlands Manufacturing Advisory Service are working in collaboration with the Manufacturing Foundation to support the Inside Manufacturing Enterprise regional company visit programme, which gives both businesses and schools access to some of the best manufacturing and engineering companies in the West Midlands.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what assessment she has made of the change in manufacturing sector investment over the last five years; and if she will make a statement. [143425]

Ms Hewitt: Government's Manufacturing Strategy, published in May 2002, identified the UK's long-standing weakness in investment as a key factor for the gap with our main competitors in manufacturing productivity. Manufacturing investment has declined from £20.4 billion in 1998 to £14.6 billion in 2002, due in part to weakness of external demand, spare capacity and increased uncertainty about the prospects for the global economy. It is also the case that UK manufacturing investment is cyclical with respect to the UK economy. The accelerating economic growth currently being experienced by the UK is likely to engender stronger manufacturing investment, albeit with a lag. This is consistent with the CBI's November 2003 forecast (Economic and Business Outlook) that UK manufacturing investment will grow by 0.8 per cent. in 2004 and 4.8 per cent. in 2005.

The Government are taking action to provide a climate conducive to investment for the long-term in UK manufacturing, by maintaining a stable macro-economic framework, together with measures such as reforming capital gains tax; making permanent enhanced capital allowances for small and medium sized firms; introducing the R&D tax credit for small and large firms; establishing Regional Venture Capital Funds; and extending the Small Firm Loan Guarantee.

The Pre-Budget Report contained a number of announcements that further build on this, including: measures to overcome barriers to raising finance for small business, notably a pathfinder round of Enterprise Capital Funds and proposed enhancements to Venture Capital Trusts and the Enterprise Investment Scheme. It also announced a new, clearer and more accessible R&D tax credit definition and extension of the scope of qualifying costs.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what assessment she has made of the impact that changes in manufacturing investment will have on the competitiveness of UK businesses. [143428]

Ms Hewitt: The Government's Manufacturing Strategy, published in May 2002, has identified the UK's long-standing weakness in investment as a key factor for the gap with our main competitors in manufacturing productivity. Manufacturing investment has declined from £20.4 billion in 1998 to £14.6 billion in 2002, due in part to weakness of external demand, spare capacity and increased uncertainty about the prospects for the global economy. It is also the case that UK manufacturing investment is cyclical with respect to the UK economy. The accelerating economic growth currently being experienced by the UK is likely to engender stronger manufacturing investment, albeit with a lag. This is consistent with the CBI's November 2003 forecast (Economic and Business Outlook) that UK manufacturing investment will grow by 0.8 per cent. in 2004 and 4.8 per cent. in 2005.

As explained in the UK Productivity and Competitiveness Indicators 2003, investment is one of the five key drivers of productivity and thus competitiveness identified by the Government. Investment in physical plant, machinery and buildings helps make workers more productive and is a way of embodying new technology in the production process. As such, investment is vital to manufacturing's long-term prosperity and the Government are committed to creating an environment where such investment can flourish. That is why the Government have reformed the macro economic framework and are undertaking extensive reform of the product, labour and capital markets. For example, in terms of capital markets, the Government have reformed capital gains tax; made permanent enhanced capital allowances for small and medium sized firms; introduced the R&D tax credit for small and large firms; established Regional Venture Capital Funds; and extended the Small Firm Loan Guarantee.

The Pre-Budget Report contained a number of announcements that further build on this, including: measures to overcome barriers to raising finance for small business, notably a pathfinder round of Enterprise Capital Funds and proposed enhancements to Venture Capital Trusts and the Enterprise Investment Scheme. It also announced a new, clearer and more accessible R&D tax credit definition and extension of the scope of qualifying costs.

Ministerial Meetings

Keith Vaz: To ask the Secretary of State for Trade and Industry when she last met the Chairman of British Midland; and if she will make a statement. [144233]

Ms Hewitt: I have not met the Chairman of BMI British Midlands in an official capacity.

Motor Industry

Mr. Bellingham: To ask the Secretary of State for Trade and Industry how much funding has been given by her Department to the Rover Task Force in each year since it was created. [142123]

Jacqui Smith: The information requested is as follows:

Funding for Rover Task Force recommendations by financial year

	(£000)
2000–01	[1]10,238,718
2001–02	[2]6,981,106
2002–03	[3]11,318,157
2003–04	[3]20,935,848

[1] Interim Proposals

[2] Interim Proposals, Modernisation and Diversification

[3] Modernisation, Diversification and Regeneration

We provided the substantial amount of £129 million to implement the recommendations of the Rover Task Force. Some £11 million has been spent on actions which needed to be taken immediately, for example to support the automotive supply chain. A further £17 million has supported the Modernisation of the automotive supply chain and nearly £20 million has been used for Diversification, to support and encourage businesses to engage in new activity. In addition £22 million has been agreed to create three High Tech corridors to attract and develop more high tech and high value added businesses. Overall up to March 2003 £28 million of these amounts has actually been spent and further £21 million is expected to be spent in 2003–04.

We also agreed an overall sum of £2 million to kickstart initiatives in the North Staffordshire area. £10 million was made available to Advantage West Midlands to buy a strategic site in Birmingham for future industrial development. In addition £42 million has been provided for good quality Regional Selective Assistance projects in the region. Some £5 million of the actual £129 million is not yet allocated to specific.

Nuclear Safety Advisory Committee

Llew Smith: To ask the Secretary of State for Trade and Industry what assessment she has made of the section of the Triennial Report of the nuclear safety advisory committee, issued on 9 December 2003, on the environmental hazards posed by the high level radioactive waste tanks at Sellafield. [144508]

Mr. Timms: The Nuclear Safety Advisory Committee's Trienniel Report covers the period 1999–2001. The Health and Safety Executive (HSE) has published detailed reports into the storage of high level radioactive waste at Sellafield. The most recent report, in HSE's Nuclear Installations Inspectorate's Newsletter of February 2003, states that:

> "Overall, BNFL has made satisfactory progress with all the follow-on work from the February 2000 report and there are no short-term matters of significant concern".

Oil-fired Appliances

Jane Griffiths: To ask the Secretary of State for Trade and Industry how many companies in *(a)* England, *(b)* Scotland, *(c)* Wales and *(d)* Northern Ireland undertake (i) installation and (ii) maintenance of oil-fired domestic central heating systems. [143071]

Ms Hewitt: There are many companies within the UK, ranging from major boiler manufacturing companies such as Baxi Potterton and Worcester-Bosch, to small "one man" companies who install and maintain domestic central heating boilers and systems. Many are registered with the Oil Firing Technical Association (OFTEC) and I would refer my hon. Friend to OFTECs own website—http://www.oftec.org/—which gives access to a comprehensive list of these companies.

Post Offices

Mr. Jenkins: To ask the Secretary of State for Trade and Industry whether the Royal Mail is required to conduct environmental impact studies when considering the closure of a large number of post office outlets in urban areas, with particular reference to the effects on the use of private cars to access post offices. [144174]

Mr. Timms: There is no such requirement. The urban network programme is designed to manage change in the urban post office branch network by closing branches where there is oversupply and poor viability and investing in branches which continue to serve the area in order to prevent unmanaged decline of the network. In putting forward proposals under this programme, Post Office Ltd undertakes extensive analysis of an area, using a modelling system showing where customers live and where they shop, and how demand for post office services is currently met. It also shows overlaps in provision where two or more branches are chasing the same customer base and where the network may need to change to create viable businesses while ensuring that branches are still accessible to the customers in the area. Checks are made of local authority plans, environmental and transport information, local shopping habits, and other local developments and features are assessed on site visits. Each closure proposal is subject to a six week public consultation in accordance with the Code of Practice agreed with Postwatch.

At the end of the programme, 95 per cent. of the urban population will still live within a mile of the nearest post office and the majority within half a mile.

Mr. Andrew Turner: To ask the Secretary of State for Trade and Industry what responsibility for defining exceptional circumstances in relation to closure under the network reinvention programme of post offices in the 10 per cent. most deprived wards lies with *(a)* her Department, *(b)* the Royal Mail Group, *(c)* Post Office Ltd. and *(d)* Postwatch. [145054]

Mr. Timms *[holding answer 18 December 2003]:* Responsibility for defining exceptional circumstances in relation to closure under the network reinvention programme of post offices in the 10 per cent. most deprived wards and which are more than half a mile from the next post office rests with Post Office Ltd. All closure proposals are, however, subject to public consultation under the Code of Practice agreed between Post Office Ltd. and Postwatch.

Michael Fabricant: To ask the Secretary of State for Trade and Industry (1) how many proposals for closure have been made under the Urban Reinvention

Programme for the Post Office network; how many closures have been made; how many such proposals have been reversed following consultation; what the locations are of post offices which have been reprieved following consultation; and what the reasons were for those branches remaining open; [143559]

(2) how many and what proportion of sub-postmasters *(a)* have been offered compensation to close under the Urban Reinvention Programme, *(b)* have applied to close with compensation and *(c)* have applied to close with compensation and been refused. [143560]

Mr. Timms *[holding answers 17 December 2003]:* Decisions on post office closure proposals under the urban reinvention programme following public consultation are an operational matter for Post Office Ltd and I have asked the Chief Executive to reply direct to the hon. Member.

Regional Development Agencies

Mr. Andrew Turner: To ask the Secretary of State for Trade and Industry if she will list, for each regional development agency, its board members showing *(a)* for councillor members, their party and local authority and *(b)* for other members, any declared party affiliation and the principal business or voluntary organisation to which they belong. [145060]

Jacqui Smith: RDA Boards are chaired by business people and at least 50 per cent. of Board members have business experience. Each Board has a maximum of 15 members. Ministers have given a commitment that four will be elected local Councillors and one will have knowledge of rural issues. The balance will have backgrounds in Trade Unions, the voluntary and community sector and higher/further education interests.

Board members are there to further the success of the RDA. They should not consider themselves to be the delegates of a particular group or body, but take into account the interests of the region as a whole.

The following table lists the people currently serving on the boards of England's Regional Development Agencies. For those who were appointed to positions allocated for councillors the table gives the relevant authority and the party they represent on that authority.

The Commissioner for Public Appointments Code of Practice, which is followed when making appointments to the Regional Development Agency Boards, requires that when announcing the appointments any press release should include details of the appointee's response to the political activity question. If no political activity has been declared this should be made clear. This information is therefore set out in the biographies of the Board members.

Biographies for all Board members are available in the Libraries of the House.

[3] This Board member did not stand as a candidate in the local elections in May 2003 he is not required to resign but will stand down from the board when his first term of appointment ends on 13 December 2004.

Regulations

Mr. Rosindell: To ask the Secretary of State for Trade and Industry if she will make a statement on the *(a)* number and *(b)* cost of regulations imposed on business by her Department since 1997. [143439]

Ms Hewitt: The number of Statutory Instruments (SIs) that this Department has passed is as follows.

	Number
1997	130
1998	135
1999	178
2000	148
2001	126
2002	109

Only a small proportion of SIs have a significant impact on business. For example, of the 109 SIs produced in 2002, 11 have produced cost savings for business and 77 have had negligible or no impact. A regulatory impact assessment is produced for all SIs that have a cost to or benefit for business, and copies are available from the Libraries of the House.

The Government are committed to regulating only where necessary and with as light a touch as possible. However, regulations are necessary for creating open, dynamic markets and introducing minimum standards. It is important not to confuse the costs of minimum standards with red tape: over 1 million workers have benefited from the national minimum wage and over 3 million people have gained an entitlement to four weeks paid annual leave.

Royal Mail

Mr. Drew: To ask the Secretary of State for Trade and Industry what additional support will be provided to Royal Mail if Postcomm's proposals to change its universal service obligations are permitted. [143025]

Mr. Timms: Universal service obligations are a matter for the Regulator, Postcomm. Postcomm are currently seeking views, via a consultation process that runs through to mid-February, on their proposals which aim to clarify precisely which services make up the universal service in the UK and how they should be provided by Royal Mail. It is Postcomm's primary responsibility to exercise its functions in a manner which it considers is best calculated to ensure the provision of a universal service, as set out in the Postal Services Act 2000.

Small Businesses

Brian Cotter: To ask the Secretary of State for Trade and Industry how many small business schemes have been *(a)* launched and *(b)* proposed by (i) her Department and (ii) other Government departments since November 2002. [144209]

Nigel Griffiths: Since November 2002, four schemes supporting small businesses have been launched.

These are:

The grant for Research and Development (replacing the Smart scheme)

Extension of the Small Firms Loan Guarantee Scheme

Knowledge Transfer Partnerships

Grant for Investigating an Innovative Idea

No activities have been proposed which have not been launched.

These four schemes are those which fall within the responsibility of my right hon. Friend the Secretary of State for Trade and Industry. Schemes operated, or proposed, by other Government Departments are the responsibility of their respective ministers.

Brian Cotter: To ask the Secretary of State for Trade and Industry what discussions she has had with the Treasury regarding *(a)* the decision to backdate payments under section 660A of the Income and Corporation Taxes Act 1988 and *(b)* the impact this will have on small businesses. [145237]

Nigel Griffiths: Section 660A-660G of the Income and Corporation Taxes Act 1988 is a long standing piece of anti-avoidance legislation which prevents avoidance of tax by, for example, a taxpayer with a higher rate of tax transferring income to someone who is liable at a lower rate.

The legislation when applied does not impact on small business but on the very small number of owners who set out to exploit the system and avoid tax.

The DTI has regular contact with the Inland Revenue in relation to the way legislation applies to the owners of SMEs.

Brian Cotter: To ask the Secretary of State for Trade and Industry what estimate she has made of the cost to small businesses of complying with new legislation introduced in each year since 1997. [145257]

Nigel Griffiths: A regulatory impact assessment is produced for all regulations that have a cost to or benefit for business and copies are available from the Libraries of the House.

Venture Capital

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what recent meetings she has had with leading universities to discuss improving their access to venture capital. [140531]

Ms Hewitt: Ministers and officials in my Department are in regular contact with universities to discuss a range of issues including funding. Although neither myself or my noble Friend the Minister for Science and Innovation has had any recent meetings with universities specifically to discuss venture capital, it has formed part of many of the discussions which my noble Friend has had with universities and venture capitalists in the last year. The OST has been supporting universities' access to venture capital through University Challenge and the Higher Education Innovation Fund.

CULTURE, MEDIA AND SPORT

Thornborough Henges

11. **Miss McIntosh:** To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the archaeological value of the Thornborough henges near Nosterfield. [145837]

Estelle Morris: The outstanding archaeological value of the Thornborough Henge site has been recognised by the statutory protection the site enjoys. Recent research commissioned by English Heritage has reinforced that view.

Sports Coaching

12. **Ms Munn:** To ask the Secretary of State for Culture, Media and Sport what action her Department is taking to improve access to sports coaching for children after school. [145838]

Tessa Jowell: My Department is working closely with Sport England to create 3,000 full and part-time Community Sports Coaches by 2006. Community Sports Coaches will work across a range of schools, clubs and local authorities to ensure that the maximum number of young people benefit. This will support delivery of the PSA target that I share with my right hon. Friend the Secretary of State for Education and Skills to increase the percentage of school children who spend a minimum of two hours each week on high quality physical education and school sport within—and beyond—the curriculum to 75 per cent. by 2006.

Performing Arts

13. **Helen Jones:** To ask the Secretary of State for Culture, Media and Sport what steps she is taking to increase public access to national theatre, opera and ballet companies. [145839]

Estelle Morris: One of my Department's strategic priorities is to open up our cultural institutions to the wider community. This is reflected in our Public Service Agreement, which includes increasing arts attendance by under-represented groups. We are working with Arts Council England towards increasing diversity among audiences.

Museum Closures

14. **Shona McIsaac:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement about recent museum closures. [145840]

Estelle Morris: The Government have no direct role in the provision of local authority or independent museum services. However, through the Renaissance in the Regions programme we are providing significant support for major regional museums. As the programme develops, its benefits will spread throughout the museum sector in each region.

Sand Yachting

15. **Mr. Jack:** To ask the Secretary of State for Culture, Media and Sport what her Department's responsibilities towards sand yachting are. [145841]

Mr. Caborn: Sport England recognise sand and land yachting as a sport, although it falls into the category deemed as an extreme sport.

Sport England are in discussion with the British Federation of Sand and Land Yacht Clubs. The British Federation of Sand and Land Yacht Clubs are seeking funding for a national development officer.

Sport England have made two awards to British Landsailing one of £47,600 for the purchase of a national fleet of 60 land yachts. An Award for All grant was given in February 2002 of £2,230.

British Horse Racing

16. **Mr. Laurence Robertson:** To ask the Secretary of State for Culture, Media and Sport what recent discussions she has had with the Office of Fair Trading with regard to their investigation into the control of British horse racing; and if she will make a statement. [145842]

Mr. Caborn: There have been no discussions, and the Office of Fair Trading exercises an independent jurisdiction. My right hon. Friend the Secretary of State has, however, written to the Chairman to draw attention to the public interest in maintaining a full and diverse national programme of racing.

Lottery Grants (Essex)

17. **Mr. Amess:** To ask the Secretary of State for Culture, Media and Sport what proportion of Lottery grants went to Essex in the last year for which figures are available. [145843]

Estelle Morris: Essex received 334 (or 1.6 per cent.) of the 20,314 Lottery grants awarded by the Lottery Distributing Bodies between 1 January 2003 and 23 December 2003.

These numbers are from information supplied by the Distributing Bodies.

Arts (Deprived Areas)

18. **Mr. Blizzard:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on her policy regarding development of the arts as a means of regenerating deprived areas. [145844]

Estelle Morris: The arts have an important part to play in regenerating areas of urban and rural deprivation. My Department is currently examining evidence of the contribution of the arts to regeneration, and we will publish a policy statement in the spring.

British Film Industry

19. **Mr. Dhanda:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the support for the British film industry in the pre-Budget report. [145845]

Estelle Morris: The Chancellor's commitment to consider the extension of fiscal support for the film industry through the tax system is very good news for the industry. It reinforces this Government's commitment to the development of a flourishing and sustainable film industry which brings with it huge cultural and economic benefits for the UK. Over the next few months, DCMS will be working closely with the industry and with the Treasury to identify the best means of delivering the support.

Olympic Bid

20. **Simon Hughes:** To ask the Secretary of State for Culture, Media and Sport what the latest state of preparation is for the Olympic bid in 2012; and if she will make a statement. [145846]

Tessa Jowell: The Olympic bid company, London 2012 Ltd., is making excellent progress, working closely with the Government, the Mayor of London and the British Olympic Association. The reply to the International Olympic Committee's Applicant Questionnaire, which is the first stage of the bidding process, will be delivered on 15 January.

Audio Description

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport (1) what targets she has set for the roll-out of audio description; [145578]

(2) if she will make a statement on the issues that prevent a faster roll-out of audio description. [145579]

Estelle Morris: The Communications Act 2003 sets audio description targets for broadcasters. 10 per cent. of non-excluded programmes are to be audio described for the blind and partially sighted by the tenth anniversary of the start of the service. The Act extends this requirement to digital cable and satellite broadcasters for the first time.

At present, the widespread availability of audio description modules needed to receive the service has been delayed owing to technical, manufacturing and distribution difficulties. However, we understand from discussions with manufacturers that receivers compatible with audio description on the digital terrestrial platform have recently come onto the market. We hope this will increase the take-up of the audio description service.

BBC

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport if she will estimate the cost of the BBC Charter *(a)* review process and *(b)* public consultation. [145462]

Tessa Jowell: No estimate for the total cost for the BBC Charter review process is currently available. The final cost of the review will depend, among other factors, on the scale of the public's engagement with the process and on the issues that emerge from public consultation.

The cost of the first phase of public consultation, launched on 11 December, is estimated to be approximately £300,000 for the remainder of the financial year, excluding staff costs.

Departmental Expenditure

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how much her Department spent on information literature, advertising and campaign material in each financial year since 2000–01. [145224]

Mr. Caborn: The Department's spend on information literature in each financial year since 2001–02 is detailed in the table.

	Spend (£000)
2000–01	538
2001–02	318
2002–03	393
2003–04	[1]494

[1] budgeted outturn

No advertising or publicity expenditure was incurred by the Department during this period.

Departmental Budget

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what the total departmental budget was for each year since 1997; and what the projected figures are for the next five years. [145598]

Mr. Caborn: Information on the departmental budget for the Department for Culture, Media and Sport from 1998–99 to 2005–06 is published in Volume 1 of the Departmental Report 2003, (CM 5920). Copies were laid before Parliament on 15 May 2003. Updated figures will be published in the spring.

Departmental Gifts

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how much has been spent by her Department on gifts to foreign governments *(a)* in the last year and *(b)* since 1997. [145597]

Mr. Caborn: The following table shows departmental expenditure on gifts. A breakdown of gifts to foreign governments is not available and could be provided only at disproportionate cost.

£

Financial year	Expenditure
2003–04 to date	295.35
2002–03	452.26
2001–02	433.75
2000–01	904.84
1999–2000	2,660.96
1998–99	1,251.41
1997–98	227.79

Departmental Staff

Mr. Russell Brown: To ask the Secretary of State for Culture, Media and Sport what percentage of staff employed within her Department are over 55 years of age; and what *(a)* number and *(b)* percentage of staff recruited over the last 12 months are over 55 years of age. [145771]

Mr. Caborn: The percentage of staff currently employed over 55 years of age is 5.8 per cent. The number of staff recruited over the last 12 months over 55 years of age is 4 which represents 4.2 per cent. of staff recruited.

Departmental Travel

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how much has been spent by her Department on taxis for officials in each year since 1997. [145591]

Mr. Caborn: In DCMS travel and subsistence administration is contracted out and there is no electronic record maintained regarding mode of travel. To provide this information would involve a manual check of each travel and subsistence claim, which could only be undertaken at disproportionate costs.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how much has been spent by her Department on train tickets *(a)* in the last year and *(b)* since 1997. [145592]

Mr. Caborn: In DCMS travel and subsistence administration is contracted out and there is no electronic record maintained regarding mode of travel. To provide this information would involve a manual check of each travel and subsistence claim, which could be undertaken only at disproportionate cost.

Digital Television

Ross Cranston: To ask the Secretary of State for Culture, Media and Sport what information she has collated about the take-up of digital television broadcasting in *(a)* Dudley North, *(b)* the West Midlands and *(c)* England; and if she will make a statement. [143884]

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what percentage of households are converted to digital broken down by *(a)* ITV region and *(b)* constituency. [145507]

Estelle Morris: Take-up statistics are not presently collected for these areas. The ITC produces quarterly reports on take-up for the UK. Their most recent report stated that 45.5 per cent. of the UK had digital television as of 30 June 2003. OFCOM will now produce these reports.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how many *(a)* analogue and *(b)* digital transmitters there are in the UK. [145504]

Estelle Morris: There are currently 1,154 analogue transmitters in the UK, 80 of which have been converted to receive digital signals.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what the timescale is for achieving full analogue switch-off; and if she will make a statement. [145505]

Estelle Morris: The criteria set for switchover are that: everyone who can currently get the main public service broadcasting channels in analogue form must be able to receive them on digital systems; switching to digital is an affordable option for the vast majority of people; and as a target indicator of affordability, 95 per cent. of consumers must have access to digital equipment. The objective of the Digital Television Action Plan Project is to ensure these criteria are met so that we can, if we choose, take the decision to proceed to full switchover by ordering the switching off by 2010 of analogue terrestrial transmissions.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what progress has been made in the switchover to digital in the last five years. [145506]

Estelle Morris: Since digital television services were first launched in 1998, nearly 50 per cent. of households have switched at least one set to receive digital television broadcasts. The Government are working closely with broadcasters, manufacturers, retailers, consumer groups and other stakeholders through the Digital Television Action Plan to determine a firm timetable for digital switchover.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport if she will estimate *(a)* the number of households that have access to digital television, *(b)* the total number of television sets in use and *(c)* the proportion of television sets in use that have access to digital services. [145508]

Estelle Morris: The information is as follows:

(a) The ITC produce quarterly reports on take-up for the UK. Their most recent report stated that 45.5 per cent. (11,286,961) of UK households had digital television as of 30 June 2003.

(b) The Household Technology Survey 2003, carried out for the ITC in spring 2003, estimated that there were 55.4 million televisions in use in UK homes.

(c) Indications are that around 30 per cent. of all televisions are converted to digital television, but no assessment has been made as to how many of those not yet converted are in use as a monitor (e.g. with a games console, VCR, DVD player) and not to receive broadcasts.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport which organisations have paid for the conversion of analogue transmitters; and how much each has spent in the last 10 years. [145509]

Estelle Morris: The transmission companies ntl and Crown Castle (who own the transmitter sites and provide transmission services to the broadcasters) have paid for the development of the current network of digital terrestrial transmitters around the UK. The digital multiplex operators (BBC, Digital 3 and 4, SDN and Crown Castle) pay these operators an annual fee for the use of these facilities. The exact amount paid both to develop the network and in broadcasters fees are commercially confidential.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how many households have transferred from analogue to digital television in each of the last five years. [145510]

Estelle Morris: Figures for digital take-up are as follows:

	Digital households	*Source*
June 2003	11,286,961	ITC Multichannel Quarterly
December 2002	10,232,829	ITC Multichannel Quarterly
December 2001	9,256,326	[1]
December 2000	6,577,364	[1]
December 1999	2,722,000	[1]

[1] Figures up to December 2002 are estimates from information on subscriber figures from platform operators to give an indication of the take up figures of digital pay television for different platforms, and from sales of terrestrial non-subscription reception equipment.

Food Advertising

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport (1) what plans she has to change the current regulations on the advertising of food to children; [145573]

(2) upon what evidence the Government bases its view that the regulation of food advertising to children must be tightened. [145576]

Estelle Morris: The Department has no plans at present to change the rules on the advertising of food to children, but is taking part in the consultations being undertaken by the Food Standards Agency on the possible impact of broadcast advertising on childhood obesity. The Secretary of State has also asked OFCOM to review the adequacy of its codes regulating such advertising, in the light of the conclusions of the FSA Report, the Department of Health's Food and Health Action Plan and the Health Select Committee's inquiry into obesity. It is principally the responsibility of OFCOM to ensure that there is an appropriate code for the regulation of broadcast advertising and my right hon. Friend the Secretary of State looks forward to the outcome of their work.

Football Broadcasting

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on football broadcasting rights and the role of the EU Commission. [145577]

Estelle Morris: The European Commission and the Premier League announced that they had agreed the terms of a settlement of the competition inquiry on 16 December. Although the detailed terms of this are yet to be finalised, the agreement is clearly very good news for English football.

One of the Government's primary concerns during the inquiry was the health of football at all levels. Substantial public funds are invested in the development of grass roots football in partnership with the Premier League. So although it was right that the Premier League made its own case to the Commission, the Government encouraged both parties to engage in constructive dialogue throughout the inquiry.

Government Car Service

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how much has been spent by her Department on the Government car service in the past year. [145605]

Mr. Caborn: I refer the hon. Member to the reply provided by the Chief Executive of the Government Car and Despatch Agency (Mr. Nick Matheson) to the hon. Member for Buckingham (Mr. Bercow) in May 2003. Copies of the letter were placed in the Libraries of the House.

Museums

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what recent representations she has received regarding the Government's museums policy. [145555]

Estelle Morris: I have received a wide range of representations, both from individuals and from key sectoral organisations, including the National Museums' Directors' Conference, the Museums Association and the Association of Independent Museums. There is strong support for the main planks of our policy: namely, free access to the National Museums and Galleries in London and the regions, the Renaissance programme for regional museums, and support for improved museum education services, particularly to children. The views received will make an important contribution to the Department's developing thinking during the 2004 Spending Review and thereafter.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport (1) what targets the Government have set to increase social inclusion through museum policy; [145556]

(2) what financial incentives are in place to encourage museums to increase the number of visitors from different sections of the community; [145558]

(3) what the Government's policy is on museums and social inclusion. [145559]

Estelle Morris: As set out in the publication "Libraries, Museums, Galleries and Archives for All" (PP 383 January 2001), our policy objective is that social inclusion should be a priority for all museums and galleries. To that end we have set two Public Service Agreement targets for the 2003–06 period: an 8 per cent. increase in adult C2DE visitors to the national museums and galleries; and 500,000 visits by new users, predominantly from social classes C2DE and ethnic minorities, to regional hub museums participating in the Renaissance in the Regions programme.

Renaissance in the Regions is the main funding programme specifically targeted at increasing the number of visitors from different parts of the community. Two of the programme's eight priority areas—reaching a wider community and improving access to knowledge and information—are particularly relevant. Funding for the programme is £60 million during the 2003–06 period. The grant in aid the Department provides to the national museums and galleries also supports the social inclusion activities they undertake.

From 1 April 2001, all National Museums and Galleries that are free have been able to recover input VAT on their expenditure associated with free access and those that charged previously have been compensated for their loss of admission income.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how many museums have closed since 1997. [145560]

Estelle Morris: Since August 1997, 93 museums have been removed, on grounds of closure, from the museum registration scheme run by Resource: the Council for Museums, Archives and Libraries. During the same period 407 museums joined the registration scheme, of which 101 were newly founded. There are currently a total of 1,725 museums fully registered throughout the UK.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport if she will make an assessment of the impact on collections in museums of the Government's free admission policy. [145561]

Estelle Morris: Free admission together with investment in new galleries has enabled more people to see and appreciate the great collections of the national museums and visit them more frequently. Visits to the former charging museums rose from 9 million in 1998–99 to 15.3 million in 2002–03, an increase of 71 per cent. There is a good mix of new and repeat visitors. In consequence earned income from trading has held up well and was greater in 2002–03 than in 2001–02 before the introduction of full free admission. There is therefore no reason to suppose that free access has inhibited care of collections. All those museums that went free received year-on-year compensation for loss of admissions income.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport if she will make an assessment of the impact of the Government's free admissions policy on museums that are not included in the policy. [145562]

Estelle Morris: I will reply to the hon. Member as soon as possible.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport if she will list the total Government funding to museums in real terms in each year since 1992. [145563]

Estelle Morris: Direct government funding to museums in England is shown in real terms in the following table from 1992–03 to 2005–06. It includes core funding of the National Museums as well as non-core support for regional museums as part of the Regional Renaissance programme.

	DCMS and MoD funding in real terms (£ million)[1,2,3]
1992–93	218.7
1993–94	214.4
1994–95	220.5
1995–96	215.4
1996–97	201.6
1997–98	188.6
1998–99	181.1
1999–2000	197.7
2000–01	203.7
2001–02	213.9
2002–03	230.6
2003–04	248.3
2004–05	254.0
2005–06	263.4
Total increase	43.6

[1] The figures exclude funding for the RAF museums at Hendon and Cosford.
[2] The figures exclude funds from DfES, the Arts Council of England and the National Lottery. DfES does not provide recurrent or direct funding to museums and galleries. Since 1999 DfES has provided approximately £6.8 million to support education work in museums and galleries through various project-funding programmes.
[3] The table does not include funding in Scotland, Wales and Northern Ireland, which is administered separately.

National Lottery

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what recent representations she has had from charities about *(a)* the funding they are able to generate and *(b)* the impact of the National Lottery on donations. [145564]

Estelle Morris: We have received no such representations. Charities have been significant beneficiaries of Lottery funding. Since 1995, the Community Fund has given £2.6 billion to more than 56,000 charities and community groups. This is in addition to the many charities which have benefited from grants from the other Lottery distributors.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how much National Lottery funding has been distributed *(a)* in each constituency, *(b)* in each region and *(c)* to each good cause since 1997. [145565]

Estelle Morris: I am arranging for copies of the answer to be placed in the Libraries of both Houses.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how much revenue was generated by the National Lottery in each year since its launch; and what the projected figures are for the next five years. [145566]

Estelle Morris: Total revenue generated by the National Lottery in each year since its launch is as follows:

	£ million
1994–95	1,191
1995–96	5,217
1996–97	4,723
1997–98	5,514
1998–99	5,228
1999–2000	5,094
2000–01	4,983
2001–02	4,834
2002–03	4,574.5

For the current year and next five years we have advised distributing bodies to plan on an assumption of annual sales of £4.5 billion. But if London's bid for the 2012 Olympic games proves successful, Camelot plans to launch new Olympic Lottery games during 2005–6, which could raise the total value of ticket sales to about £4.7 billion per year, as an average for the five year period covered by the question.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how much money has been distributed to good causes in each year since the launch of the National Lottery. [145567]

Estelle Morris: The information is shown in the following table.

The figures include income both from the operator and from investments.

Year	*£ Thousand Total*
2002–03	1,591,781
2001–02	1,842,233
2000–01	1,772,839
1999–2000	1,766,394
1998–99	1,918,906
1997–98	1,952,219
1996–97	1,587,759
1995–96	1,535,966
1994–95	298,580

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport if she will set out her plans to give Lottery players more choice in determining where the money to good causes goes. [145568]

Estelle Morris: The Government made a commitment in the National Lottery Funding Decision Document to increase the public's involvement in decisions on Lottery spending. The Lottery distributors, in partnership with the National Lottery Promotions Unit and this Department, are already looking at ways to do this—for example, in relation to setting lottery funding themes and making local Lottery awards. The New Opportunities Fund and Community Fund are also developing new ways to consult people about local decisions which the new merged distributor will pioneer.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on her plans to merge the New Opportunities Fund and the Community Fund. [145569]

Estelle Morris: The National Lottery Funding Decision Document, published in July, outlined our plans to merge the New Opportunities Fund (NOF) and the Community Fund to create a new Lottery distributor, to be responsible for distributing 50 per cent. of Lottery money to good causes.

There is significant overlap between NOF and the Community Fund and an opportunity in merging them to create a new, dynamic Lottery distributor, more responsive, more streamlined and better able to exploit opportunities for joining up funding streams. We want the new body to be more than sum of its parts, and we believe it will successfully be able to set the pace for modernising delivery of Lottery funding, making a real difference to the lives of disadvantaged people and communities.

The new body will continue funding for charities and the voluntary sector, and health, education and the environment, and will also assume the Millennium Commission's ability to fund large scale regenerative projects.

Establishing the new body will require primary legislation. We are encouraging NOF and the Community Fund to work as closely together as possible in the meantime to begin to exploit the synergies between the two bodies and to ensure that full merger can happen quickly when the legislation is in place.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what plans she has to reform the National Lottery; and if she will make a statement on the timetable for the reforms. [145570]

Estelle Morris: The National Lottery Funding Decision Document, published July 2003, outlined our proposals for reforming the National Lottery. We intend to publish a summary of the consultation responses early in the New Year. The Department is working closely with the National Lottery Distributing Bodies and implementation of some of the reforms has already begun. Others will require legislation, which we would hope to bring forward over the next two years, subject to the availability of Parliamentary time.

Olympic Games

Pete Wishart: To ask the Secretary of State for Culture, Media and Sport (1) if she will withdraw the departmental minute dated 2 December 2003, reporting contingent liabilities in the event of London winning the bid for the 2012 Olympic Games; [145521]

(2) if she will withdraw the policy of an unlimited funding commitment by the taxpayer to hosting the Olympic Games in the event that the cost exceeds £2.375 billion. [145522]

Tessa Jowell: No. It is normal practice, under Government Accounting rules, for Departments to report contingent liabilities to Parliament. As I made clear in my statement to the House on 15 May 2003, the Government have given their wholehearted support to the Olympic bid, not least because of the benefits which would accrue to the entire country were we to be successful.

Regional Tourist Boards

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how much funding each regional tourist board in England has received from its regional development agency in each year since regional development agencies were established. [145264]

Mr. Caborn: We have contacted the regional development agencies to request the information required, and I will write to the hon. Member as soon as it is available, placing copies of my letter in the Libraries of both Houses.

School Sport

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport (1) if she will make a statement on the Government's policy on sport in school; [145571]

(2) what targets the Government has set for the amount of time children participate in sport at school; [145581]

(3) what the average amount of time a child spent taking part in sport at school was in 2002–03 at key stage *(a)* 1, *(b)* 2 and *(c)* 3, broken down by (i) region, (ii) local education authority and (iii) constituency. [145582]

Mr. Caborn: The Government are investing more than £1 billion in England to transform PE and school sport. This funding will help deliver an ambitious Public Service Agreement target, shared by DCMS and DfES, to increase the percentage of school children who spend a minimum of two hours each week on high-quality PE and school sport within and beyond the curriculum to 75 per cent. by 2006.

The information requested on participation rates is unavailable and could be provided only at disproportionate cost. Data collected during the autumn term 2002 suggested that about a third of schools at Key Stages 1, 3 and 4 and two fifths of schools at Key Stage 2 offered their pupils two hours of high-quality PE and school sport each week within and beyond the curriculum. Data are now being collected for the first time—for publication in April 2004—on the number of pupils who choose to take up this entitlement.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how many school playing fields were sold between 1992 and 1997. [145572]

Mr. Caborn: Statistics on applications for school playing field sales were not collected until our playing fields legislation came into force. Public concern about the loss of school playing fields led directly to the introduction in October 1998 of Section 77 of the School Standards and Framework Act 1998. Before Section 77 was introduced, only grant-maintained schools were required to seek consent from the Secretary of State before selling land, including areas of their playing fields. Local authorities and other schools that owned their own playing fields were free to sell without restriction.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how many school playing fields have been sold in each year since 1997. [145583]

Mr. Caborn: Data on the number of school playing fields sold is not collected. However, the Amendment to Section 77 of the School Standards and Framework Act in October 1998 has introduced powers that require all state schools to seek consent for the sale of playing fields from my right hon. Friend the Secretary of State for Education and Employment. In addition, Sport England monitor the number of planning applications concerning playing fields in their role as statutory consultee.

The Government publish combined figures for *(a)* applications from schools submitted to the Secretary of State for Education and Skills for the disposal or change of use of school playing fields (which are already published monthly), and *(b)* figures from Sport England giving details of planning applications affecting playing fields which have been referred to them as statutory consultee (which are already published quarterly), along with *(c)* relevant data from the Office of the Deputy Prime Minister.

South West Arts

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what the budget is for South West Arts for 2003–04; and what percentage is spent on administration. [145260]

Estelle Morris: The total budget for Arts Council England South West is £18,559,000 in 2003–04. The administration budget is £1,649,000. The percentage of the total budget spent on administration is therefore 8.9 per cent.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what recent assessment has been made of customer satisfaction with South West Arts; and if she will publish the results. [145261]

Estelle Morris: No official assessment of customer satisfaction has yet taken place in the South West. However, Arts Council England is commissioning a national customer satisfaction survey in January 2004. It is expected that interviews will take place in April to June and a report should be available in Autumn 2004.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how many staff are employed by South West Arts. [145262]

Estelle Morris: 41 full time equivalent staff are currently employed by Arts Council England, South West.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport if she will list *(a)* successful and *(b)* unsuccessful applicants for funding from South West Arts in each of the last five years. [145263]

Estelle Morris: I understand from the Arts Council that they could supply the information requested on grant-in-aid applications for Arts Council England, South West funding only at disproportionate cost. They have however provided the following table showing the number of applications for lottery funding in each of the last five years and spreadsheets detailing both successful and unsuccessful applications for 2003 which I will place in the Library of the House.

	1999	*2000*	*2001*	*2002*	*2003*
Accepted lottery applications	48	122	165	216	347
Rejected lottery applications	371	187	176	117	329

Tourism

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how many visitors the United Kingdom received from abroad in the past five years, broken down by *(a)* continent and *(b)* country. [145587]

Mr. Caborn: The information requested is as follows:

(a) The table shows the number of visits the United Kingdom received from overseas residents in each of the past five years broken down by continent.

(b) Data are published in Travel Trends, and are available for 39 countries or groups of countries. Travel Trends may be obtained from the Library of the House and at: < http://www.statistics.gov.uk/STATBASE/Product.asp?vlnk = 1391 >

Number of visits by country of residence 1998 to 2002

(thousands)

	1998	*1999*	*2000*	*2001*	*2002*
Total World	25,745	25,394	25,209	22,835	24,180
Europe	17,382	16,816	16,086	14,855	16,218
North America	4,553	4,599	4,869	4,227	4,271
Asia (including Middle East)	2,264	2,317	2,488	2,199	2,172

International Passenger Survey, National Statistics

DEPUTY PRIME MINISTER

Post Offices

Malcolm Bruce: To ask the Deputy Prime Minister how much of the sum available to support post office branches in deprived areas of England has been allocated; which post offices have benefited; and by what amount. [144805]

Yvette Cooper: To date, £3.5 million of the £15 million Deprived Urban Post Office Fund has been allocated to Post Offices in the 10 per cent. most deprived wards in England. 81 Post offices at risk of closure have been supported by the fund so far, with an average grant of £43,000 going towards refurbishment, improving security, and expanding retail facilities.

Tenancy Deposit Scheme

Mr. Hancock: To ask the Deputy Prime Minister if he will make it his policy to include a statutory tenancy deposit scheme in the Bill on tenancy reform. [145274]

Keith Hill: Making provisions in a Bill on tenancy reform for the safeguarding of tenancy deposits is an option to which the Office of the Deputy Prime Minister are giving very serious consideration.

Decent Homes Standard

Judy Mallaber: To ask the Deputy Prime Minister what the impact will be on the resources available to Amber Valley Housing Ltd. to spend on housing stock, if the Inland Revenue's ruling of 24 October is upheld. [145466]

Diana Organ: To ask the Deputy Prime Minister (1) what assessment he has made of the effect of the Inland Revenue's ruling of 24 October upon the welfare of tenants occupying housing stock owned by Forest of Dean Housing; [145610]

(2) what assessment he has made of the effect of the Inland Revenue's ruling of 24 October on Forest of Dean Housing's ability to achieve the 2010 Decent Homes Standard; [145611]

(3) what support the Government will give Forest of Dean Housing in its attempt to achieve 2010 Decent Homes Standard, following the Inland Revenue's ruling of 24 October. [145612]

Mr. Singh: To ask the Deputy Prime Minister (1) what effect the Inland Revenue's ruling of 24 October will have on Bradford's ability to achieve the 2010 Decent Homes Standard; [145338]

(2) how he estimates the Inland Revenue's ruling of 24 October, if upheld, will affect the welfare of tenants occupying premises of the Bradford and Northern Housing Association; [145339]

(3) how he estimates the Inland Revenue's ruling of 24 October will affect the state of housing in Bradford; [145340]

(4) how the Government will support Bradford in its attempt to achieve the 2010 Decent Homes Standard after the Inland Revenue's ruling of 24 October. [145342]

Keith Hill: I refer my hon. Friends to the answer given on 15 December *Official Report*, columns 745W and 746W.

Jim Dobbin: To ask the Deputy Prime Minister (1) how he estimates the Inland Revenue's ruling of 24 October, if upheld, will affect tenants occupying premises of *(a)* Herefordshire Housing Ltd, *(b)* Haverbury Housing Partnership and *(c)* Hertfordshire Homes Ltd.; [144815]

(2) how the Government will support Maidstone and Bromsgrove in its bid to achieve the 2010 Decent Homes Standard if the Inland Revenue's ruling of 24 October is upheld and Maidstone's proposed transfer of houses to the Maidstone Housing Trust does not take place. [144816]

Mrs. Dunwoody: To ask the Deputy Prime Minister (1) what effect he estimates the Inland Revenue's ruling of 24 October will have on Crewe's ability to achieve the 2010 Decent Homes Standard; [144801]

(2) how he estimates the Inland Revenue's ruling of 24 October, if upheld, will affect Wulvern Housing Limited; [144802]

(3) how he estimates the Inland Revenue's ruling of 24 October will affect housing in Crewe. [144803]

Keith Hill: I refer my hon. Friends to the answer given on 15 December 2003, *Official Report*, columns 745–46W.

Council Housing

Jon Trickett: To ask the Deputy Prime Minister what Wakefield Metropolitan District Council's capital receipts from the sale of council housing stock were in each year since 1997; and how much of these receipts was spent on council housing stock in each year. [146023]

Keith Hill: I refer my hon. Friend to the answer given to him on 16 December 2003, *Official Report*, column 745W.

Departmental Policies (Regent's Park and Kensington, North)

Ms Buck: To ask the Deputy Prime Minister if he will make a statement on the impact of his policies on the constituency of Regent's Park and Kensington, North since 1997. [145420]

Mr. Raynsford: The information requested is not held centrally and can be obtained only at disproportionate cost, as such statistics are normally collected on the basis of administrative units (such as local authorities) rather than Parliamentary constituencies. The matter is further complicated as the constituency in question covers parts of two Local Authorities.

However, many of the Office of the Deputy Prime Minister's policies will have impacted significantly on the Regent's Park and Kensington, North constituency, including increased funding for local government, housing, neighbourhood renewal, and specific programmes to reduce rough sleeping and tackle social exclusion.

Disabled Facilities Grant

Dr. Stoate: To ask the Deputy Prime Minister what plans he has to amend regulations to allow the regular outgoings of a family with a disabled child to be taken into consideration by local authorities when they are determining the level of the family's contribution towards a disabled facilities grant to adapt the family home. [145523]

Keith Hill: The legislative provisions governing the Disabled Facilities Grant means test are set out in the Housing Renewal Grants Regulations 1996. These are reviewed annually to reflect changes in the cost of living and other allowances taken into account in the test. The latest such review took effect last October through the Housing Renewal Grants (Amendment) (England) Regulations 2003.

The Office of the Deputy Prime Minister is also reviewing the DFG programme, including the operation of the means test, in the context of the Spending Review 2004 and will announce its conclusions later this year.

Fenestration Self-assessment Scheme

Mr. Todd: To ask the Deputy Prime Minister what steps he has taken to ensure that work completed by a Fenestration Self-Assessment Scheme registered company meets the same standards as work inspected by a local authority. [145976]

Phil Hope: All Fenestration Self-Assessment Scheme (FENSA) members are required to carry out all work in such a way that it complies with all relevant requirements of the Building Regulations, and FENSA monitors a sample of the work to ensure that this is so. The Office of the Deputy Prime Minister recently commissioned a report which looked at how far FENSA achieved compliance with the Regulations and concluded that on the whole it was successful in doing this.

Homelessness

Simon Hughes: To ask the Deputy Prime Minister how many families have claimed to be homeless in *(a)* London and *(b)* England in each year since 1997; and how many people were homeless in (i) London and (ii) England in each year since 1997. [140852]

Yvette Cooper: Information collected about local authorities' actions under homelessness legislation is in respect of households, rather than families or persons. Estimates of total decisions made on applications, and the number of these where a main homelessness duty was owed, in London and England are tabled as follows:

	Homelessness decisions		*Homelessness acceptances*	
	London	*England*	*London*	*England*
1997	54,540	242,340	24,370	102,000
1998	57,490	245,350	26,310	104,630
1999	59,700	243,290	28,380	105,370
2000	60,790	247,190	28,230	111,340
2001	63,420	256,390	31,370	118,610
2002	60,540	270,280	30,320	125,070

Notes:
1. Figures include estimates for missing data, and have been rounded to the nearest 10.
2. Acceptances refers to households found to be eligible, unintentionally homeless and in priority need.
Source:
ODPM P1(E) quarterly housing activity returns.

A range of national and regional homelessness information—which includes estimates for non-responding local authorities—appears in a quarterly Statistical Release, available in the Libraries of the House and via the Office of the Deputy Prime Minister's website. An accompanying Supplementary Table presents key data at regional and local authority level. The Office of the Deputy Prime Minister website link is: http://www.odpm.gov.uk/stellent/groups/odpm_housing/documents/page/odpm_house_604177.hcsp

Housing

Mr. Woodward: To ask the Deputy Prime Minister how much the Government has invested in *(a)* council housing and *(b)* social housing schemes in (i) St. Helens, (ii) Merseyside and (iii) the north-west in each year since 1992. [144075]

Keith Hill: The information is not available in the form requested. The following table gives details of the Housing Investment Programme and the Approved Development Programme, from 1999 to date. The information from 1992–99 is not held centrally and could be provided only at disproportionate cost.

£ million

	HIP	*ADP*	*Total*
1999–2000			
St. Helens	5.4	1	6.4
Merseyside	45.1	30.9	76
North West	216.7	70	286.7
2000–01			
St. Helens	8.01	1.2	9.21
Merseyside	69.7	28.9	98.6
North West	296.1	59.3	355.4
2001–02			
St. Helens	10.8	1.1	11.9
Merseyside	85.2	15.7	100.9
North West	347.3	0.05	347.35
2002–03			
St. Helens	10.5	0.56	11.1
Merseyside	89	26.7	115.7
North West	363	68.3	431.3
2003–04			
St. Helens	2.7	3.3	6
Merseyside	65	75.6	140.6
North West	323.5	68.3	391.8

Mr. Hayes: To ask the Deputy Prime Minister what arrangements he has put in place to ensure that local authorities in the process of developing empty property strategies to increase housing resources and aid regeneration take empty commercial buildings into account. [145298]

Keith Hill: The Office of the Deputy Prime Minister considers that local authorities should take account of opportunities to convert redundant commercial property for housing use alongside their more traditional role of encouraging the re-use of vacant residential property. This is reflected in guidance we published earlier this year—Empty Property, Unlocking the Potential—which provides guidance to local authorities on establishing empty property strategies and covers a wide spectrum of property from empty homes to commercial property.

Mr. Hayes: To ask the Deputy Prime Minister what arrangements he has put in place to ensure that local authorities are devoting adequate human resources to empty home strategies, with particular reference to the appointment of dedicated empty properties officers. [145299]

Keith Hill: The Office of the Deputy Prime Minister are ensuring that local authorities have adequate financial resources to provide decent local services without making excessive demands on local tax payers. For 2004–05 the Government will be providing total support to local authorities of £54.5 billion, an increase of 30 per cent. since 1997.

It is for local authorities to determine the level of resources, both human and financial, they devote to particular activities such as empty homes reduction strategies in line with local priorities.

Mr. Hayes: To ask the Deputy Prime Minister what plans he has to provide incentives for landlords to ensure that their properties remain occupied. [145300]

Keith Hill: The Office of the Deputy Prime Minister plans to give local authorities discretionary powers to end the present council tax discount on long-term vacant dwellings, which will provide an incentive for owners to ensure their properties do not remain vacant for long periods of time.

The Office of the Deputy Prime Minister has also introduced a range of fiscal incentives to encourage the reuse of vacant dwellings, in particular by reducing to 5 per cent. the rate at which VAT is charged on the renovation of dwellings vacant for 3 or more years.

Mr. Hayes: To ask the Deputy Prime Minister what training the Government *(a)* has given and *(b)* is giving to local authorities to ensure that they are aware of the extent of their power to act as a financial institution in the housing market as provided by the Regulatory Reform Act 2002. [145296]

Keith Hill: Circular 05/2003, entitled 'Housing Renewal' and issued in June 2003 by the Office of the Deputy Prime Minister sets out the extent of local authorities new powers under the Regulatory Reform (Housing Assistance)(England and Wales) Order 2002 to provide financial assistance for the repair, improvement and adaptation of housing accommodation.

In relation to the provision of loan finance, the circular explains that local authorities and housing associations will be exempt from the Financial Services Authority regulatory regime on mortgage lending which will take effect from October 2004. However, local authorities and housing associations must still adhere to the underlying key principles of such mortgage regulation and The Office of the Deputy Prime Minister, in consultation with the Housing Corporation and Local Government Association, is considering what further advice, guidance and training should be provided to them.

Identity Cards

Steve Webb: To ask the Deputy Prime Minister what assessment he has made of the implications of the introduction of compulsory identity cards for his Department. [143984]

Yvette Cooper: The introduction of Identity Cards is a long-term undertaking upon which the Office of the Deputy Prime Minister is in discussion with the Home Office. However, as the scheme is still being developed it is too early to assess the implications for the Office of the Deputy Prime Minister.

Kirklees Council (Funding)

Mr. Sheerman: To ask the Deputy Prime Minister what the total change in Government funding for Kirklees Council was in each year since 1997; how much of this total came from revenue from taxation; and how much was targeted on *(a)* regeneration projects, *(b)* specific grants for education, *(c)* social services and *(d)* direct funds for education not accounted for in the local education authority budget. [144714]

Mr. Raynsford: Tabled as follows are details of revenue grants received by Kirklees Metropolitan Borough Council as part of gross Aggregate External Finance (AEF) between 1996–97 to 2004–05. This does not include the amount raised by the local authority through council tax. Most of the funding is paid as general grant and it is not therefore possible to provide a figure for the amount of this funding which was targeted on specific services. Funding for grants within AEF are paid through local authorities.

£000

	1996–97	1997–98	1998–99	1999–2000	2000–01	2001–02	2002–03	2003–04	2004–05
Revenue Support Grant	132,598	131,230	142,727	144,857	141,631	150,052	144,256	177,435	199,354
National Non-Domestic Rates	90,026	84,653	88,507	96,074	108,810	106,625	117,363	113,867	108,809
Neighbourhood Renewal Fund	—	—	—	—	—	1,496	2,244	2,992	2,992
Education Grants	3,670	4,130	5,713	8,158	15,760	30,843	29,397	27,219	[1]—
Personal Social Service Grants	4,471	3,244	3,460	3,970	5,405	9,258	14,987	12,158	[1]—
Supporting People	—	—	—	—	—	—	—	6,727	[1]—

[1] Data not available until spring 2004 when it will be reported by local authorities on their RA and RA(SG) returns.

Notes:

1. The grants are on an unadjusted basis and may not be comparable between years, because transfers of function may have taken place.
2. Information on specific grants up until 2002–03 is taken from local authority outturn returns. From 2003–04, where outturn information is not yet available this is based on local authority budget returns.

Local Government Finance

Mr. Blizzard: To ask the Deputy Prime Minister whether the number of people in receipt of disability living allowance and attendance allowance within a local authority area is taken into account in determining the amount of central Government block grant funding the local area receives. [145158]

Mr. Raynsford: The number of older people in receipt of disability living allowance and attendance allowance within a local authority area is one of the data indicators used in calculating the Social Services for Older People Formula Spending Share (FSS). An authority's total FSS is one of the major determinants in calculating the amount of Formula Grant for the authority.

Miss McIntosh: To ask the Deputy Prime Minister what additional resources he is giving local authorities to meet the responsibilities he recently gave them. [145010]

Mr. Raynsford: The Government's proposals for the funding of local authority revenue spending in 2004–05 provide for an increase in Government grant of £3.6 billion, which is an increase of 7.1 per cent. over the current financial year on a like for like basis. Additional resources are provided to cover all new responsibilities when local authorities are required to meet.

Over the past seven years, local authorities have received a 30 per cent. real terms increase in grant from Government.

Sir Teddy Taylor: To ask the Deputy Prime Minister if he will make a statement on the procedures adopted to circulate the additional money to local councils announced in the pre-Budget Statement, with particular reference to the allocation to the Southend-on-Sea Unitary Authority. [145354]

Mr. Raynsford: The additional £340 million announced in the pre-Budget Statement was provided to help with the provision of children's services and liveability issues. It was therefore provided to those authorities that have responsibility for these services. This includes all unitary authorities such as Southend-on-Sea.

As announced on the 11 December 2003 the floor for authorities with education and social services responsibilities was raised from 3.5 per cent. to 4.0 per cent. and the ceiling from 5.8 per cent. to 7.5 per cent. For Shire districts, the floor was raised from 2.2 per cent. to 3.0 per cent.

Without the application of floors and ceilings, Southend-on-Sea would have received £125.829 million, a decrease of 0.5 per cent., before the pre-Budget Statement, and £126.993 million, an increase of 0.4 per cent., after the pre-Budget Statement. These increases are obviously below the floor. However in addition to the floors the Government also announced that no authority would receive a smaller grant increase than the increase in their schools FSS. This increased Southend-on-Sea's grant above the 4 per cent. floor to £131.519 million before the pre-Budget Statement. The £4,142 increase in grant received by Southend-on-Sea following the pre-Budget Statement was a consequence of the technical adjustment to the base position for floors and ceilings made for new capital investment.

Mr. Flook: To ask the Deputy Prime Minister if he will list the extra amounts given to each local authority in the pre-Budget report; and what proportion of Government support already announced for 2004–05 this represents in each case. [145622]

Mr. Raynsford: A table showing the provisional distribution of the additional £340 million announced in the pre-Budget report was published on the Office of the Deputy Prime Minister's website on 11 December 2003 (see http://www.local.odpm.gov.uk/finance/0405/con2grntdiff.xls). For convenience a copy of this table is also available in the Libraries of the House.

Ministerial Visits

Mr. Hammond: To ask the Deputy Prime Minister if he will list visits by Ministers in his Department since January 2002, broken down by *(a)* region and *(b)* county and unitary authority. [141897]

Yvette Cooper: The Office of the Deputy Prime Minister was established in May 2002. Since then Ministers have made the following visits on official business (the number of visits to each location is shown in brackets):

Bedfordshire, East of England (3)
Berkshire, South East (2)
Birmingham, West Midlands (37)
Blackpool, North West
Bournemouth, South West (2)
Bradford, Yorkshire and the Humber
Brighton and Hove, South East (4)
Bristol, South West (3)
Buckinghamshire, South East (5)
Cambridge, East
Cheshire, North West (3)
Cornwall, South West
County Durham, North East
Cumbria, North West (3)
Darlington, North East
Derby, East Midlands
Derbyshire, East Midlands (4)
Devon, South West (2)
Dorset, South West
Durham, North East (4)
East Sussex, South East
East Sussex, South East (2)
Essex, East
Essex, East of England (4)
Gloucestershire, South West (2)
Greater London, London (54)
Hertfordshire, East of England (6)
Kent, South East (13)
Kingston upon Hull, Yorkshire and the Humber (9)
Lancashire, North West (2)
Leicester, East Midlands (2)
Lincolnshire, East Midlands (2)
Liverpool, North West (5)
Manchester, North West (12)
Merseyside, North West (2)
Middlesborough, North East
Milton Keynes, South East (3)
Newcastle, North East (9)
Norfolk, East of England (3)
Northamptonshire, East Midlands (4)
Nottingham, East Midlands
Nottinghamshire, East Midlands (2)
Oxfordshire, South East (2)
Peterborough, East (4)
Plymouth, South West (2)
Portsmouth, South East
Shropshire, West Midlands (3)
South Yorkshire, Yorkshire and the Humber (7)
Southampton, South East (2)
Staffordshire, West Midlands (3)
Stoke on Trent, West Midlands
Suffolk, East
Surrey, South East (4)
Torbay, South West
Warrington, North West (4)
West Yorkshire, Yorkshire and the Humber (4)
York, Yorkshire and Humberside (3)

Mobile Phone Masts

Mr. Goodman: To ask the Deputy Prime Minister what reasons he has for allowing mobile phone masts to be erected on top of existing buildings without the need for planning permission; and if he will make a statement. [146056]

Keith Hill: Mobile phone masts up to and including 15 metres in height installed on a building are subject to the same rules on prior approval as ground based masts of the same height. Antennas of less than four metres in height that are attached directly to buildings are subject to permitted development rights.

Police Authority Precepts

Helen Jackson: To ask the Deputy Prime Minister by how much in total police authority precepts have exceeded their grant increase over each of the past five years. [143970]

Mr. Raynsford: The amount by which the increase in police authority precepts has exceeded the increase in grant for the years 1998–99 to 2003–04 is tabled as follows:

	Amount by which increase in precepts exceeds grants to the nearest whole £ million
1998–99 to 1999–2000	-103
1999–2000 to 2000–01	-75
2000–01 to 2001–02	-127
2001–02 to 2002–03	109
2002–03 to 2003–04	129

This table includes all police authorities except the Metropolitan Police and the City of London. In each year, grants have been compared with previous years' grants on a like-for-like basis, taking into account adjustments for changes in function and funding.

The data for the years 1998–99 to 2002–03 are outturn data taken from the RS forms. The data for 2003–04 are budget data taken from the RA forms as outturn data are not yet available. These forms are completed each year by individual local authorities.

The grants included are Police Grant, redistributed business rates and Revenue Support Grant. Amounts received under the SSA Reduction Grant (Police Funding Review), and Central Support Protection Grant have also been included, where appropriate. In addition to the grants included in the table, police authorities also received a number of special and specific grants.

Regional Assemblies

Mr. Curry: To ask the Deputy Prime Minister what the cost was of establishing a website for the Elected Regional Assembly: Your Say campaign. [145987]

Mr. Raynsford: The Your Say website is part of the general Office of the Deputy Prime Minister website. The only cost of establishing the website was the use of a small amount of staff time.

Mr. Curry: To ask the Deputy Prime Minister how many copies of the information leaflet Elected Regional Assembly: "Your Say" have been *(a)* printed and *(b)* distributed in (i) Yorkshire and the Humber, (ii) the North West and (iii) the North East. [145988]

Mr. Raynsford: To date the Office of the Deputy Prime Minister have so far printed and issued 6,200 "Your Say" leaflets for each of the three northern regions.

Mr. Curry: To ask the Deputy Prime Minister (1) what the total cost of expenditure has been on promoting regional assemblies in each year since May 2002; [146047]

(2) what the budget of the information campaign, Elected Regional Assembly: Your Say, is *(a)* in total, *(b)* for the North West, *(c)* for the North East and *(d)* for Yorkshire and the Humber. [146048]

Mr. Raynsford: The information campaign is designed to inform members of the public about elected regional assemblies and referendums. The costs of the launch are estimated at £25,000. These costs included accommodation, venue hire, refreshments and transport.

Material produced for the launch of the campaign, such as exhibition stands and leaflets will continue to be used throughout the information campaign in the three northern regions. The estimated total cost for the "information campaign" for this financial year are expected to be £500,000.

Relationship Managers

Mr. Brady: To ask the Deputy Prime Minister which local authorities he is assessing for *(a)* the introduction of relationship managers and *(b)* transferring the control of their services to other councils; and what criteria he has used in making these assessments. [145229]

Mr. Raynsford: The Office of the Deputy Prime Minister has appointed lead officials to work with the 13 education and social services authorities rated "poor" under the Comprehensive Performance Assessment (CPA) carried out by the Audit Commission in 2002; also with two authorities which were rated "weak" in 2002 but with poor corporate capacity to improve; and at present with one district council rated as "poor" in October 2003. These authorities are: Bedfordshire, Coventry, Hackney, Islington, Kingston-upon-Hull, Lambeth, North East Lincolnshire, North Tyneside, Oldham, Plymouth, Swindon, Torbay, Torridge, Wakefield, Walsall and Waltham Forest.

In addition, the Office of the Deputy Prime Minister has been working on a voluntary basis prior to CPA assessment with Chester-le-Street, Erewash and Rossendale district councils. Discussions are currently also under way with a number of authorities who were rated "weak" in 2002 with a view to working on a voluntary basis with them.

It is for the councils themselves to identify the key steps needed to achieve recovery through improvement. The role of lead officials is to monitor their rate of progress, and to provide advice to Ministers on whether that rate of progress is acceptable. Under the provisions of the Local Government Act 1999, the Government do have power to intervene in authorities which fail to comply with their duty of best value.

Wind Farms

Mr. Liddell-Grainger: To ask the Deputy Prime Minister what planning guidelines apply to wind farms in areas of outstanding natural beauty. [145746]

Keith Hill: The current guidelines are set out in Planning Policy Guidance note 22: Renewable Energy (PPG22). Paragraphs 27 to 29 of the PPG set out the guidelines for assessing development proposals relating to all renewable energy projects in National Parks, Areas of Outstanding Natural Beauty, the Broads and Sites of Special Scientific Interest. A draft revised Planning Policy Statement 22, which will replace the existing PPG22, was issued for three months consultation on 5 November.

TREASURY

Consumer Spending

Mr. Stephen O'Brien: To ask the Chancellor of the Exchequer by how much consumer spending has increased, in real terms, in each quarter since 1997. [146129]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Mike Hughes to Mr. Stephen O'Brien dated 5 January 2004:

The National Statistician has been asked to reply to your recent question on the amount by which consumer spending has increased, in real terms, in each quarter since 1997 [146129]. I am replying in his absence.

Consumer spending is described as "household final consumption expenditure" in the UK National Accounts (series identifier ABJR). The following table shows the seasonally adjusted quarter-on-quarter growth of this series in volume.

Household final consumption expenditure[1]: quarter-on-quarter growth (%) in volume terms, 1997–2003—United Kingdom

	1997	1998	1999	2000	2001	2002	2003
Quarter 1	0.4	1.0	1.7	2.0	1.3	0.1	-0.2
Quarter 2	1.6	0.9	1.0	0.2	0.4	1.1	0.8
Quarter 3	0.1	0.9	0.7	0.6	1.6	0.5	0.9
Quarter 4	1.4	0.8	1.8	0.0	1.4	1.0	

[1] Seasonally adjusted

Government Employees

Mr. George Osborne: To ask the Chancellor of the Exchequer what percentage of the working population in each region of the UK is government employees. [145116]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. George Osborne, dated 5 January 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about government employees in the UK. (145116)

Information from administrative returns shows that, in 2002, 2.8% of employee jobs in the UK were in central government. No statistics from this source are available by region.

The Labour Force Survey (LFS) does provide regional statistics for the proportions of employed people who classify themselves as working in central government or the Civil Service. These figures are based on respondents' own assessments and are not necessarily consistent with the official classification of the organisations they work for. However, for the UK as a whole, the most recent LFS data for the three months ending August 2003, shows 2.9% of people in employment working in central government, very close to the figure from the administrative returns.

The attached table shows the LFS statistics by region.

Percentages of employment in central Government and the Civil Service by region

Three months ending August 2003[1]

Government office region of residence	*Percentage*
East Midlands	2.1
Eastern	2.3
London	3.3
North East	3.5
North West	3.0
Northern Ireland	6.4
Scotland	3.5
South East	2.7
South West	2.7
Wales	3.5
West Midlands	1.8
Yorkshire and Humberside	3.0
United Kingdom	2.9

[1] Percentage, no seasonally adjusted.

Source:
Labour Force Survey

Tonnage Tax

Mr. Carmichael: To ask the Chancellor of the Exchequer how many companies have been rejected for entry into the tonnage tax scheme in each year since the system was introduced; and how many of these were operating under *(a)* the red ensign and *(b)* other flags. [145285]

Dawn Primarolo: No company has had an election for tonnage tax rejected.

Companies can discuss their eligibility for the regime in advance with the Inland Revenue. Where such discussions take place, a company will sometimes decide not to make an election.

Unemployment (Lone Parents)

Bob Spink: To ask the Chancellor of the Exchequer (1) how many lone parent workless households there were in each of the last three years; [145290]

(2) how many children in workless households there were in each of the last three years. [145291]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Bob Spink, dated 5 January 2004:

As National Statistician, I have been asked to reply to your Parliamentary Questions about lone parent workless households and children in workless households. (145290, 145291)

The attached table gives the information requested. These estimates are from the Labour Force Survey (LFS), for the three month period ending May of each year from 2001 to 2003.

As with any sample survey, estimates from the LFS are subject to sampling error.

Workless lone parent households and children living in workless households[1]; United Kingdom

Thousands, not seasonally adjusted

	Workless lone parent households with dependent children[2]	*Children living in workless households[3]*
Spring 2001	684	1,830
Spring 2002	703	1,889
Spring 2003	697	1,796

[1] Households with at least one person of working age where no one is in employment. Figures have been adjusted to include estimates for households with unknown economic activity.
[2] Children under 16 and those aged 16–18 in full-time education.
[3] Children under 16.
Note:
These LFS estimates have not been adjusted to reflect the2001 Census results.
Source:
ONS Labour Force Survey

Agricultural Employment

Mr. Ruffley: To ask the Chancellor of the Exchequer how many people were employed in the agriculture sector in *(a)* Suffolk, *(b)* Norfolk, *(c)* Cambridgeshire, *(d)* Essex and *(e)* England in each year since 1997. [143530]

Mr. Bradshaw: I have been asked to reply.

Figures for the agricultural labour force (paid and unpaid) are collected annually from the June Agricultural Census. They include managerial and office work on the holding, the preparation and marketing of produce and maintenance but exclude gardeners, groundsmen, gamekeepers, grooms, farm shop workers, sales assistants in garden centres, domestic staff in the farmhouse and schoolchildren.

Total agricultural labour force

Thousands

	1997	*1998*	*1999*	*2000*	*2001*	*2002*
(a) Suffolk	11.8	12.2	11.2	11.2	11.6	10.8
(b) Norfolk	17.0	17.5	16.1	15.9	16.4	15.9
(c) Cambridge (including Peterborough)	9.7	9.8	9.2	9.1	9.3	9.2
(d) Essex (including Thurrock and Southend-on-Sea	11.4	11.6	10.9	10.6	10.8	10.4
(e) England	393.1	396.6	379.0	374.3	386.9	371.6

Notes:
1. Figures prior to 2000 relate to main holdings only. From 2000 onwards data for all holdings are included.
2. Due to a register improvement exercise in 2001 labour figures prior to this are not directly comparable with later results.

June Agricultural Census

Decent Homes Standard

Judy Mallaber: To ask the Chancellor of the Exchequer what plans the Government have to compensate Amber Valley Housing Ltd. for the loss of funds resulting from the Inland Revenue ruling of 24 October 2003 to enable them to fulfil their business plan. [145465]

Dawn Primarolo: On 24 October 2003, the Inland Revenue gave its preliminary view on the tax implications of contracts developed by a major accountancy firm. Discussions are continuing.

Mr. Singh: To ask the Chancellor of the Exchequer how the Government will compensate Bradford for the loss of funds available to the Bradford and Northern Housing Association that will result from the Inland Revenue's ruling of 24 October 2003. [145341]

Dawn Primarolo: On 24 October 2003, the Inland Revenue gave its preliminary view on the tax implications of contracts developed by a major accountancy firm. Discussions are continuing.

Diana Organ: To ask the Chancellor of the Exchequer what steps the Government will take to compensate Forest of Dean Housing for the loss of funds arising from the Inland Revenue's ruling of 24 October 2003. [145607]

Dawn Primarolo: On 24 October 2003, the Inland Revenue gave its preliminary view on the tax implications of contracts developed by a major accountancy firm. Discussions are continuing.

Average Income

Andrew George: To ask the Chancellor of the Exchequer what the average income was in the *(a)* 50 most deprived and *(b)* 50 most affluent wards in England in the last year for which figures are available; and what estimate he has made of the percentage of that income which was spent on food. [145980]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Mike Pepper to Mr. Andrew George, dated 5 January 2004:

The National Statistician has been asked to reply to your parliamentary question on income, and proportion of income spent on food, in deprived and affluent wards [145980]. I am replying in his absence.

The Expenditure and Food Survey is the only data source that provides consistent information on both income and expenditure (report available at http://www.statistics.gov.uk/StatBase/Product.asp?vink=361). This is a sample survey covering about 7,500 households in the UK. However, given the limitations of the sample size and the survey design, results from the survey are not published below regional level. Ward level information is not available.

Budget (Responses)

Mr. Flight: To ask the Chancellor of the Exchequer how many responses his Department received to the *(a)* Budget 2002 summary leaflets and *(b)* leaflets summarising the 2002 pre-Budget report. [145326]

Ruth Kelly: The Treasury receives a large number of responses to its Budget and Pre-Budget Report documentation, not only from the public using the freepost service with the Pre-Budget Report leaflet, but also through letters, e-mails and telephone calls to the Treasury's Public Enquiry Unit.

Carers

Mr. Jim Cunningham: To ask the Chancellor of the Exchequer what plans he has to reward people for caring for older relatives. [145109]

Dawn Primarolo: This Government formally recognises the contribution of carers through the National Carers' Strategy ('Caring for Carers') published in 1999. In acknowledgement of their valuable role the Government have instigated a number of measures to ensure financial support for carers, in particular at helping older and poorer carers, those on low income, and those carers who wish to combine caring with employment, including:

the upper age limit to claiming Carer's Allowance was abolished, allowing carers aged 65 and above access to the benefit for the first time;

carers may also qualify for extra help within income related benefits. The amount has increased from £14.15 in March 2001 to £25.10 in April 2003, and helps over 250,000 carers; and

the earnings limit has been increased substantially and is currently £77 a week after allowable expenses.

Carers can now claim Carer's Allowance online using the DWP easy step-by-step electronic claim form.

The Government recently introduced the Pension Credit, which provides a guaranteed minimum income for all people aged 60 and over. Under the Pension Credit additional amounts are included for carers. Those entitled to Carer's Allowance or treated as satisfying the qualifying conditions for the award may benefit from the additional amount.

People receiving Carer's Allowance are credited with National Insurance contributions each week, which protect their future entitlement to benefits such as State Pension and Incapacity Benefit. They also get extra help through the Government's State Second Pension.

Child Tax Credit

Mr. Woodward: To ask the Chancellor of the Exchequer how many families with children were eligible for child tax credit in *(a)* St. Helens and *(b)* Merseyside in (i) 2001, (ii) 2002 and (iii) 2003. [145151]

Dawn Primarolo: Child tax credit was introduced in April 2003. Estimates, based on a sample of cases, of the numbers receiving child tax credit in each local authority and constituency at July 2003 are shown in "Child and Working Tax Credit Statistics. Geographical analyses." This document can be found on the Inland Revenue website, at www.inlandrevenue.gov.uk/stats/personal-tax-credits/menu.htm No estimates are available of the number of families eligible in each constituency or local authority.

Child Trust Funds

Mr. Gardiner: To ask the Chancellor of the Exchequer if he will offer incentives for contributions to child trust funds for those in receipt of child tax credit. [145698]

Ruth Kelly: The child trust fund will benefit all children while making sure that most help goes to those who need it most.

The Government endowments are a powerful incentive for a child's family to save. All eligible children will receive a Government endowment of £250. Children in households with a finalised claim to child tax credit (CTC) and income below the CTC threshold, currently £13,230, will receive an additional Government endowment of £250, making £500 in total. The Government will make further payments into accounts when children turn seven, and again, there will be an additional payment for the poorest children.

Mr. Gardiner: To ask the Chancellor of the Exchequer if he will establish a website dedicated to providing financial education for *(a)* children and *(b)* parents on child trust funds. [145699]

Ruth Kelly: The Inland Revenue is developing a dedicated website to provide a one-stop shop for information on the Child Trust Fund (CTF). It will include resources for a variety of audiences including parents, family members, children and teachers.

The Government will also work with the Financial Services Authority (FSA) to include the CTF in their consumer information activity. This will include incorporating the CTF into the FSA consumer website.

Mr. Gardiner: To ask the Chancellor of the Exchequer which parent will have legal responsibility for their child's trust fund should they divorce. [145701]

Ruth Kelly: The situation for the CTF will be a matter of general law.

When a married couple separates or divorces, both parents retain parental responsibility. They are required to make an arrangement at the time of the divorce or separation specifying the arrangements for the child, which in practice, covers matters like living arrangements and contact arrangements, but would be encouraged to seek advice and agreement on other issues which could include the child's Child Trust Fund.

The general law reflects the principle that parents should not be regarded as losing their position and ability to take decisions about their children, simply because they are in dispute with one another about a particular matter.

Mr. Gardiner: To ask the Chancellor of the Exchequer what scoping exercise his Department has conducted to assess the likely contributions those on low incomes will make to child trust funds. [145702]

Ruth Kelly: We have asked Deloitte, an independent consultancy, to carry out detailed quantitative and qualitative research on the impact of different charge cap structures on the Child Trust Fund (CTF) market. This research includes analysis of likely contributions into CTF accounts.

Mr. Gardiner: To ask the Chancellor of the Exchequer what will happen to contributions and interest payments made to a Child Trust Fund while the Inland Revenue is considering whether or not a child is eligible for the topped-up endowment. [145703]

Ruth Kelly: The Government will pay an initial endowment of £250 into every eligible child's CTF account soon after it is opened. Children in families receiving child tax credit (CTC) and with a household income below the CTC threshold (currently £13,230) will receive an additional £250. This will be added to the CTF account once the CTC award for that year is confirmed.

Any contributions made into the CTF account or interest arising on the funds in that account in the period between payment of the initial Government endowment and the additional endowment will remain in the CTF account and no tax charge will arise on any income and gains.

Mr. Gardiner: To ask the Chancellor of the Exchequer if he will allow investment companies to charge a basic administration fee for Child Trust Funds which would be topped-up by a performance-related administration fee. [145704]

Ruth Kelly: Draft regulations setting out the charges for Child Trust Fund accounts will be published during the passage of the Bill.

Mr. Gardiner: To ask the Chancellor of the Exchequer whether parents under 18 will be able to make decisions on trust funds for their children. [145705]

Ruth Kelly: In England Wales and Northern Ireland where a parent under the age of 18 has a child who is eligible for a CTF account it will not be possible for that parent to manage their child's CTF account. This is because although parents have parental responsibility for their children under the Children Act 1989 they do not have the legal capacity to enter into binding contracts to purchase equities.

As a result they are not able to make decisions about CTF accounts. In these circumstances the Inland Revenue will open a stakeholder account CTF account on behalf of the child. Once the parent reaches the age of 18, they will be able to assume responsibility for managing their child's CTF account.

The situation is different in Scotland where 16 year olds are entitled to make their own decisions about their property, including CTF accounts. This means that a parent aged between 16 and 18 in Scotland will be able to manage their child's CTF account.

Council Tax

Mr. Willetts: To ask the Chancellor of the Exchequer what the average council tax was *(a)* gross and *(b)* net of rebates as a percentage of equivalised disposable income in each income quintile for (i) pensioner households and (ii) non-pensioner households in 1997–98. [146086]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Dr. Mike Pepper to Mr. David Willetts dated 5 January 2004:

The National Statistician has been asked to reply to your recent question on the average gross and net council tax as a percentage of equivalised disposable income in each income quintile for (i) pensioner households and (ii) non-pensioner households in 1997–98 [146086]. I am replying in his absence.

Estimates for council taxes are based on the analysis "The effects of taxes and benefits on household income 2001–02" produced by the ONS and published on the National Statistics website on October 21st 2003. The analysis can be obtained from the House of Commons Library or from the National Statistics website at: http://www.statistics.gov.uk/taxesbenefits. It includes measures of income inequality for the United Kingdom as a whole based on data from the Expenditure and Food Survey. This is a sample survey covering about 7,500 households in the UK and sample sizes are only sufficient to give approximate estimates for pensioner households.

Pensioner households have been defined as those where the Head of Household is retired or unoccupied and aged 65 or more and male, or 60 years of age or more and female, and economically inactive. Answers to other recent parliamentary questions about council tax broken down by household type, relating to 2001–02, have used the definition of the Household Reference Person rather than the Head of Household. Detailed information on the definition of these identifiers can be found on the National Statistics website.

Council tax is not paid in Northern Ireland. Estimates for 1997–98 for Great Britain are shown in the following table for gross and net council tax as a percentage of disposable income for all pensioner households (single and couples) and non pensioner households, and for all households. Equivalised income has been used to divide households into quintiles. However, the estimates of Council tax as a percentage of income use unequivalised rather than equivalised income (i.e. without the adjustment for household size). Equivalisation is a standard methodology that takes into account the size and composition of households and adjusts their incomes to recognise differing demands on resources. It is used for ranking households in particular. It is more usual to analyse unequivalised income in relation to expenditure items (which are unequivalised) such as Council tax. However, if the same equivalisation factors were applied to income and expenditure, the factors would cancel each other out and the percentages would remain the same.

Council tax as a percentage of disposable income for pensioner[1] and non-pensioner households, 1997–98—Great Britain[2]

	Quintile groups of all households ranked by equivalised disposable income					
Households	*Bottom*	*2nd*	*3rd*	*4th*	*Top*	*All households*
Quintile points[3] (equivalised disposable income, £ per year)						
Pensioner	7,701	9,503	11,707	15,393		
Non-pensioner	9,177	13,623	18,449	25,508		
All households	8,504	11,922	16,342	23,457		
Gross council tax as a percentage unequivalised disposable of income						
Pensioner	9.4	7.0	5.8	4.5	3.4	5.1
Non-pensioner	6.0	3.7	2.9	2.3	1.7	2.6
All households	6.8	4.7	3.2	2.6	1.8	2.9

Council tax as a percentage of disposable income for pensioner[1] and non-pensioner households, 1997–98—Great Britain[2]

Households	Quintile groups of all households ranked by equivalised disposable income: Bottom	2nd	3rd	4th	Top	All households
Net council tax[4] as a percentage of unequivalised disposable income						
Pensioner	5.8	4.4	4.2	3.4	3.1	3.8
Non-pensioner	3.0	3.0	2.7	2.3	1.7	2.3
All households	3.5	3.3	2.9	2.5	1.8	2.4

[1] Household reference person is economically inactive and over minimum state pension age.
[2] Council tax is not paid in Northern Ireland
[3] Equivalised disposable income at the boundary point between two quintile groups.
[4] Net council taxes after deducting benefits and discounts.
Source:
Office for National Statistics, based on the analysis 'The effects of taxes and benefits on household income,' published on the National Statistics website

Mr. Willetts: To ask the Chancellor of the Exchequer what the *(a)* average equivalised disposable income and *(b)* gross council tax in money terms was for each income quintile in 2001–02; and if he will make a statement. [146153]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Mike Pepper to Mr. David Willetts, dated 5 January 2004:

The National Statistician has been asked to reply to your recent question asking for average equivalised disposable income and gross council tax for each income quintile group in 2001–02 [146153]. I am replying in his absence.

Estimates in the following table are produced from the Office for National Statistics' analysis "The effects of taxes and benefits on household income" published on the National Statistics website on October 21st 2003 at http://www.statistics.gov.uk/taxesbenefits. The analysis includes measures of income inequality for the United Kingdom as a whole based on data from the Expenditure and Food Survey. This is a sample survey covering about 7,500 households in the UK and sample sizes are only sufficient to give approximate estimates. In particular, results for the lowest quintile are less reliable than for others because of greater variability and because it includes households with members in a state of occupational transition.

The table shows for 2001–02, the average disposable income and average gross council tax paid by all households in Great Britain and for each income quintile group where households are ranked by equivalised disposable income. Although equivalised income has been used to divide households into quintiles, the estimates of average disposable income and average gross council tax are unequivalised. Equivalisation is a standard methodology that takes into account the size and composition of households and adjusts their incomes to recognise differing demands on resources, and is used for ranking households in particular. However, it is more usual to analyse unequivalised income in relation to an expenditure item such as Council tax which is not equivalised.

Average disposable income and gross council tax (£ pa) by equivalised disposable income quintile, 2001–02—Great Britain[1]

Quintile	Income boundary[2]	Average unequivalised disposable income	Average gross council tax
Bottom		7,829	647
	10,397		
2nd		12,720	652
	14,717		
3rd		18,992	721
	20,042		
4th		26,915	789
	28,596		
Top		48,124	895
All households		23,011	741

[1] Council tax is not paid in Northern Ireland

Debt Interest

Mr. Flight: To ask the Chancellor of the Exchequer what his estimate is of the level of central government gross debt interest in *(a)* 2006–07 and *(b)* 2008–09 derived from the projections for public sector net debt up to 2008–09 in Table B5 of the 2003 pre-Budget report. [145179]

Mr. Boateng: PBR projections for public expenditure after the end of the 2002 Spending Review period are based on assumptions about overall growth rates, as set out in paragraph B27 of the pre-Budget report, rather than on forecasts of individual spending components. Therefore no forecasts of debt interest after 2005–06 are available.

Mr. Flight: To ask the Chancellor of the Exchequer if he will make a statement on the size of the increment in central Government gross debt interest from 2004–05 to 2005–06 relative to the size of the increments for the years *(a)* 2002–03 to 2003–04 and *(b)* 2003–04 to 2004–05. [145186]

Mr. Boateng: Estimates of central Government gross debt interest depend on a combination of factors. In the PBR projection there is a large increase between 2002–03 and 2003–04, mainly due to higher RPI inflation in 2003–04, and between 2003–04 and 2004–05, mainly due to assumed interest rates, based on market expectations, which are much higher in 2004–05, and a larger rise in the RPI. The increase in debt interest between 2004–05 and 2005–06 is smaller because assumed interest rates rise by less than in the previous year and RPI inflation is lower.

Mr. Flight: To ask the Chancellor of the Exchequer if he will make a statement on the size of the increment in central Government gross debt interest between 2004–05 and 2005–06 indicated in the pre-Budget report 2003 relative to that indicated in Budget 2003. [145187]

Mr. Boateng: Changes to estimates of central Government debt interest payments since the Budget reflect the revision of projections of a number of factors, as outlined in paragraph B73 of the pre-Budget report.

Departmental Advertising

Michael Fabricant: To ask the Chancellor of the Exchequer what the total expenditure on information campaigns and advertising was for his Department for each year since 1997. [145330]

Mr. Letwin: To ask the Chancellor of the Exchequer what the total expenditure on *(a)* information campaigns and *(b)* advertising was for his Department in each year since 1997. [145708]

Ruth Kelly: I refer to the answer given to the hon. Member for Twickenham (Dr. Cable) on 19 November 2003 *Official Report*, column 1093W.

Domestic Business Tax Allowance

Dr. Iddon: To ask the Chancellor of the Exchequer how many respondents to the recent Treasury consultation on economic instruments to improve household energy efficiency supported domestic business tax allowance. [145423]

John Healey: The Government have published a summary of consultation responses, which is available from the Treasury website. This summary explains that the Government received 126 responses to the consultation, of which 72 supported a domestic business tax allowance.

Employment (Older People)

Miss McIntosh: To ask the Chancellor of the Exchequer how his pre-Budget report plans for full employment will help older people who wish to remain in the labour market. [145129]

John Healey: The 2003 pre-Budget report plans for full employment will help ensure that older workers are given the choice and opportunity to continue working beyond their normal retirement age. Details of these measures are contained in paragraphs 4.31, 5.53 and 5.62 of the pre-Budget report [Cm 6042].

Financial Products (Mis-selling)

Mr. Gardiner: To ask the Chancellor of the Exchequer what resources he is allocating to increase adult financial literacy so that parents of children with child trust funds can make informed decisions about investments for their children. [145711]

Ruth Kelly: We are working with the FSA and key players in adult literacy from Government and the voluntary sector to identify the needs of parents in relation to managing the Child Trust Fund and the best ways of meeting them.

We will continue to work very closely with the FSA and others, like the Personal Finance Education Group (PFEG), to improve financial literacy standards among the population. I am on the Financial Capability Steering Group led by the FSA.

Research has been carried out into the communication needs of parents whose children are eligible for the Child Trust Fund, particularly those of parents who have little or no experience of saving. The findings will inform the information pack that will be sent out with the CTF voucher and a website on the CTF.

This work will develop over 2004 and involve financial providers and community groups too. We expect a range of explanatory materials to be developed to help families make informed decisions about their Child Trust Funds.

Mr. Gardiner: To ask the Chancellor of the Exchequer what discussions he has had with the Secretary of State for Education and Skills about using the child trust fund to improve financial literacy for children and teenagers. [145713]

Ruth Kelly: I am the Minister responsible for the Child Trust Fund and my officials work very closely with the Department for Education and Skills and others involved in delivering financial capability for young people. I also refer my hon. Friend to the answer I am today giving to his question 145719.

Mr. Gardiner: To ask the Chancellor of the Exchequer what resources will be available to teachers to increase their financial literacy so they are able to inform their pupils about child trust funds. [145719]

Ruth Kelly: We have already committed to commissioning the development of a range of Child Trust Fund (CTF) teaching and learning resources. The Inland Revenue will also work closely with the Department for Education and Skills, devolved administrations, FSA and other organisations to assess what additional support will help children engage with their CTF. This could include joint work to consider the professional development needs of teachers teaching personal finance topics and issuing updated guidance on teaching personal finance incorporating the CTF.

A key point of contact will be a website dedicated to the CTF. It will be developed initially to meet the information and guidance needs of parents, then increasingly over time those of teachers and children.

Ensuring teachers are properly equipped to deliver financial capability is important. We await with interest the outcome of work that has been undertaken independently by the Personal Finance Education Group into these issues, which is due to report in the new year.

Gershon Review

Mr. Flight: To ask the Chancellor of the Exchequer when the Gershon Review is expected to report. [145946]

Mr. Boateng: The Efficiency Review led by Sir Peter Gershon is expected to report around the time the Spending Review is announced.

Gift Aid

Tim Loughton: To ask the Chancellor of the Exchequer for (1) what reason he proposes to end gift aid tax relief on admission charges to charity venues; [144987]

(2) what discussions he has had with heritage and conservation charities about the ending of gift aid tax relief on admission charges; [144988]

(3) what his estimate is of the cost to charities of the ending of gift aid tax relief on admission charges; [144989]

(4) if he will list those charities which will be affected by the ending of gift aid tax relief on admission charges; [144990]

(5) how much money has been rebated to charities as a result of gift aid tax relief on admission charges since its inception. [144991]

John Healey: Many heritage and conservation charities benefit from a special exemption which means they can offer free admission to donors, without that admission being regarded as a benefit under Gift Aid rules. This was originally introduced in 1989 and applied to deed of covenant arrangements. Since the change to Gift Aid in April 2000 an increasing number of heritage and conservation charities are granting free admission in return for a donation equal to the entrance fee. Charities are able to claim Gift Aid on such donations. This is an undesirable and unintended side effect of the Gift Aid legislation. It is unfair for some charities to be able to reclaim Gift Aid whilst others cannot.

The amendments to the legislation will ensure that the special exemption for certain heritage and conservation charities applies as it was originally intended and not to "day memberships" of this kind.

The Government will be consulting closely with charities which might be affected, through their associations and representative bodies, on the detail of how the change may be best achieved.

Information on the amount repaid in relation to admission charges is not available, as there is no mechanism within Gift Aid to distinguish amounts repaid to charities according to the type of the donation. For this reason there are no estimates available of the cost to charities of the ending of the relief on admission charges.

Information about individual organisations claiming Gift Aid is not available; Exemption 15 (Statutory and other restrictions) of the Open Government Code applies.

Hoechst Judgment

Mr. Prisk: To ask the Chancellor of the Exchequer what estimate he has made of the amount of tax likely to be repaid as a consequence of the European Court of Justice judgment in the Hoechst case; and how much has been repaid to date. [145732]

Dawn Primarolo: A total of £183 million has been paid to date as a consequence of the judgment of the European Court of Justice in the Hoechst case. Around £100 million of this may be recoverable depending on the outcome of a related court case. Current claims in which repayments have not yet been made are estimated to be in the region of £250 million, of which around £150 million depends on the court case. Any further repayments are subject to the other court decisions and a reliable estimate of the tax potentially repayable is not possible at the present time.

Israel

Richard Burden: To ask the Chancellor of the Exchequer if he will list the types of products that have been imported to the UK under preference according to the EU-Israel Association Agreement but which HM Customs and Excise has reason to believe have originated in Israeli settlements in the Occupied Territories. [145398]

John Healey: The information requested could lead to the identification of individual importers, so the information cannot be made available; Exemption 13 (third party's commercial confidences) and 15 (statutory and other restrictions) of the Code of Conduct on Access to Government Information apply.

IT Systems

Lynne Jones: To ask the Chancellor of the Exchequer what Inland Revenue information technology systems are being privatised; and for what reasons. [145813]

Dawn Primarolo: No Inland Revenue IT systems are being privatised.

Liquefied Petroleum Gas

Mr. Drew: To ask the Chancellor of the Exchequer if he will make a statement on the Government's policy on the duty regime for liquefied petroleum gas for motor vehicles following his pre-Budget statement. [144880]

John Healey: The 2003 pre-Budget report (Cm 6042) announced that the current duty rate for liquefied petroleum gas (LPG) would be gradually increased over time towards a level that is more commensurate with its environmental benefit.

Consistent with the PBR commitment to provide unprecedented rolling three-year certainty on duty rates for all alternative fuels, the duty differentials for LPG for the next three years will be set out in Budget 2004.

National Statistics

Dr. Cable: To ask the Chancellor of the Exchequer if he will take steps to ensure that for every National Statistics first release, the full list of Ministers and officials having pre-release access to the release or the associated briefing is made available, including *(a)* an electronic link for electronic versions of the release and *(b)* the length of pre-release access. [143375]

Ruth Kelly: I refer the hon. Member to the answer I gave him on 18 November 2003, *Official Report*, column 728W.

The list of Treasury Ministers and officials who have authorised pre-release access to National Statistics first releases is available on the Office for National Statistics (ONS) website. In addition, the Macroeconomic Statistics Service Level Agreement, drawn up between ONS and the Treasury in 1998, lists a further small

number of individuals in the Treasury who receive copies of the Treasury's internal briefing on these statistical releases before the publication of the data. Since 1998, this list has been updated to reflect changes to personnel and staff structures.

An updated list of those with authorised access to briefing in line with these procedures will be made available in due course.

Overseas Companies

Nick Harvey: To ask the Chancellor of the Exchequer what precedent there is for the UK Government purchasing an overseas company; and if he will make a statement. [144114]

Mr. Boateng: From time to time, the Boards of state-owned enterprises take commercial decisions involving overseas investments. These decisions are a matter for those Boards under their governance arrangements with the responsible shareholding departments.

Private Finance Initiative/ Public Private Partnerships Contracts

Mr. Flight: To ask the Chancellor of the Exchequer (1) if he will list the value of capital expenditure payments made under private finance initiative/public private partnerships contracts in each year since 1997; [145471]

(2) whether the projected payments under private finance initiative contracts shown in Table C20 of Budget 2003, HC 500, comprise *(a)* capital expenditure and *(b)* other payments; and if he will state what these payment are. [145482]

Mr. Boateng: Table C20 of the Budget shows a forecast of the estimated unitary payments under signed PFI contracts over the next 25 years. PFI: Meeting the Investment Challenge paragraph 2.23 sets out what these payments comprise.

Table C18 of the Budget lists departmental estimates of capital expenditure by the private sector under signed PFI/PPP contracts. Since 1997 these estimates are:

£ billion

	Value
1997–98	1.5
1998–99	3.5
1999–2000	2.7
2000–01	3.2
2001–02	3.5
2002–03	3.7

Mr. Flight: To ask the Chancellor of the Exchequer (1) if he will state the nature of the element of private finance initiative contracts that is stated when these contracts are shown on balance sheet; [145479]

(2) what the total value is of *(a)* all private finance initiative contracts to maturity and *(b)* private finance initiative contracts shown on balance sheet; and what proportion of the total value is on balance sheet; [145480]

(3) if he will list the *(a)* private finance initiative contracts, *(b)* on-balance sheet private finance initiative contracts and *(c)* off-balance sheet private finance initiative contracts; and what proportion of private finance initiative contracts are on balance sheet. [145481]

Mr. Boateng: Where the assets constructed under PFI contracts are reported on departmental balance sheets, the value reported is the full value of the assets concerned in accordance with the requirements of the Accounting Standards Board's Application Note F to FRS 5—Private Finance Initiative and Similar Contracts.

A total of 563 PFI transactions reached financial close by 4 April 2003, with a total capital value of £35.5 billion. The estimated capital value of signed PFI contracts where capital assets are accounted for on departmental balance sheets is £20.2 billion. This represents 57 per cent. of the total estimated capital value.

A list of PFI contracts signed to date is available on the HM Treasury public website. PFI contracts where the assets concerned are on departmental balance sheets are reported in departmental accounts, together with disclosure of information relating to any contracts assessed as off balance sheet.

Pre-Budget Report 2003

Mr. Flight: To ask the Chancellor of the Exchequer (1) if he will make a statement on his plans to look at the policy, funding and regulation activity which impacts on the private sector, referred to in paragraph 6.47 of the pre-Budget report 2003; [145922]

(2) if he will make a statement on his plans to look at the way in which *(a)* policy is set for, *(b)* funding provided to and *(c)* quality regulated in front line public service delivery organisations, referred to in paragraph 6.47 of the pre-Budget report 2003. [145943]

Mr. Boateng: Departments have been asked to bring forward proposals in this area in their Spending Review submissions.

Mr. Flight: To ask the Chancellor of the Exchequer if he will make a statement on his plans to seek to ensure significant improvements in the productive time of front line public service professionals by realising benefits from investments agreed in the 2002 Spending Review, referred to in paragraph 6.47 of the pre-Budget report 2003. [145935]

Mr. Boateng: This is a matter which will be considered in light of the Efficiency Review's further work and report later in the year.

Mr. Flight: To ask the Chancellor of the Exchequer what deadline he has set for the significant improvements in the productive time of front line public service professionals referred to in paragraph 6.47 of the pre-Budget Report 2003. [145948]

Mr. Boateng: A decision on whether, how and at what level any targets for improvements in productive time should be set will be taken in light of the Efficiency Review's report later this year.

Mr. Flight: To ask the Chancellor of the Exchequer how he will measure the significant improvements in the productive time of front line public service professionals referred to in paragraph 6.47 of the pre-Budget Report 2003. [145949]

Mr. Boateng: This is a matter on which the Efficiency Review will report later in the year.

Mr. Flight: To ask the Chancellor of the Exchequer whether he intends to set targets for the significant improvements in the productive time of front line public service professionals referred to in paragraph 6.47 of the pre-Budget Report 2003. [145950]

Mr. Boateng: This matter will be considered when the Efficiency Review reports later in the year.

Pre-Budget Report Summary Leaflet

Mr. Prisk: To ask the Chancellor of the Exchequer how many copies of the Pre-Budget Report Summary Leaflet, "The Strength to Take the Long-Term Decisions; Seizing the Opportunities of the Global Recovery", were printed ahead of the Chancellor's statement to the House; and how many such summary leaflets were printed in each of the last six years. [145444]

Ruth Kelly: Around 1.2 million of 2003 Pre-Budget Report summary leaflets were produced. The number of leaflets distributed in past exercises were: Budget 2001—400,000; Budget 2002—2,097,000; Budget 2003—1,230,000; and PBR 2002—1,500,000.

Private Sector Reviews

Mr. Flight: To ask the Chancellor of the Exchequer what reviews he has conducted since 1997 of the *(a)* policy, *(b)* funding and *(c)* regulation activity which impacts on the private sector; what the scope of each review was; what the outcome of each review was; and what changes have been made as a result of each review, with particular reference to public spending. [145951]

Mr. Boateng: The Government routinely reviews the impact of its activities on the private sector. Details of measures are found in the Budget, Pre-Budget and Spending Review reports published since 1997.

Public Service Delivery Organisations

Mr. Flight: To ask the Chancellor of the Exchequer what reviews he has conducted since 1997 of the way in which *(a)* policy is set for, *(b)* funding provided to and *(c)* quality regulated in front line public service delivery organisations; what the scope of each review was; what the outcome of each review was; and what changes he has made as a result of each review, with particular reference to public spending. [145944]

Mr. Boateng: The Government routinely reviews the impact of its activities on front-line public service delivery organisations. Details of major reforms since 1997 are to be found in subsequent Budget, Pre-Budget and Spending Review reports.

Tax Stamps (Whisky)

Miss McIntosh: To ask the Chancellor of the Exchequer (1) what estimate he has made of the cost to *(a)* the Treasury, *(b)* the whisky industry and *(c)* others of the proposed tax stamps on whisky; [145618]

(2) who will pay the cost of the strip stamps on whisky. [145619]

John Healey: The Government have made it clear that they will proceed with tax stamps for spirits if the industry is unable to put forward an alternative proposal that would be as effective in tackling spirits fraud.

Costs falling to the industry will depend on the measures which the Government take to implement tax stamps, and on the detail of the measures the Government plan to introduce to mitigate the impact on the legitimate industry. Details will be set out in the Budget following discussions with industry, and a regulatory impact assessment produced at the appropriate time.

The Government have begun discussions with the industry on the scope for alternative anti-fraud measures, and on both the impact of tax stamps on costs and measures that might help to minimise that impact. A full, updated estimate of those costs will be published in a draft Regulatory Impact Assessment, alongside draft legislation, in the spring.

The Government have estimated that tax stamps would reduce revenue losses from spirits fraud by at least £160 million a year from 2006–07. Customs will be set a precise outcome target for reducing spirits fraud, and the costs to Customs of administering tax stamps from 2006–07 will be considered, as part of the 2004 Spending Review.

Teenage Pregnancies

Mr. Beggs: To ask the Chancellor of the Exchequer how many teenage pregnancies there were in the last 12 months. [145316]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Beggs, dated 5 January 2004:

As National Statistician I have been asked to reply to your recent question asking how many teenage pregnancies there were in the last 12 months. (145316)

In 2001, the latest year for which provisional figures are available, there were 40,966 teenage pregnancies in England and Wales (pregnancies at ages under 18).

Estimates for March quarter 2002, based on incomplete abortion data, were published in Health Statistics Quarterly 20, copies of which are available in the Libraries of the Houses.

Tonnage Tax Scheme

Mr. Hopkins: To ask the Chancellor of the Exchequer what the value was of financial concessions to the UK shipping industry through the tonnage tax scheme in each financial year since the concession was introduced. [145245]

Dawn Primarolo: 2000–01 an estimated cost of £10 million; 2001–02 an estimated cost of £25 million; 2002–03 an estimated cost of £35 million.

Mr. Hopkins: To ask the Chancellor of the Exchequer what the value was of *(a)* the tonnage tax scheme in (i) 2001–02 and (ii) 2002–03 and *(b)* tax paid by shipping companies in the last financial year of the previous arrangements. [145246]

Dawn Primarolo: The information requested is as follows:

(a) The estimated costs of the tonnage tax regime are published on the Inland Revenue website at www.inlandrevenue.gov.uk/stats/tax_expenditures/00ap_b1.htm.

(b) Shipping companies' tax liabilities for 1999–2000 are estimated at £60 million.

Waste Management (Funding)

Sue Doughty: To ask the Chancellor of the Exchequer if he will list the waste management sector-related payments, subsidies and grants provided by the Government to *(a)* local authorities and *(b)* non-governmental organisations in each of the last five years. [144911]

John Healey: The information is as follows:

(a) Funding to local authorities

Local authorities' waste management responsibilities are funded through Revenue Support Grant, which includes support in respect of new burdens in the waste area. This is a general grant, on the basis of which local authorities are free to invest according to local spending priorities. Local government grant has increased by 30 per cent. in real terms since 1997. Local authorities' spending by area is detailed in table 3.5a of the 2003 edition of Local Government Finance Statistics England, a copy of which is available in the Library of the House.

The following table lists additional grants to local authorities introduced in 2002–03 related to waste management activities.

£ million

Source of funding	*2002–03*	*2003–04*
Waste Minimisation and Recycling Fund	50	114
PFI credits	100	100

(b) Funding to Non-Governmental Organisations

The following table gives details of grants from the Environmental Action Fund since 1999 for projects with a clear waste priority. Information is not available for funding to grant recipients for wider-ranging activities which have had a waste-related component.

£

Funding recipient	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*Total*
Community Recycling Network	59,400	59,400	85,450	200,000	219,250	623,500
Composting Association	0	0	0	84,000	93,750	177,750
Recycling Consortium	0	0	0	30,750	32,125	62,875
Waste Watch	99,000	110,000	198,000	200,000	232,934	839,934
National Waste Awareness Initiative	59,400	55,483	51,388	200,000	237,072	603,343
Miscellaneous 'Regional Environmental Action Fund' Grants[1]	259,599	382,274	135,658	57,808	—	835,339
Total	477,399	607,157	470,496	772, 558	815,131	3,142,741

[1] The regional element of the EAF was wound down in 2002–03. Regional EAF grants were of lower monetary value (starting from £3,500) and individual recipients are not listed.

HEALTH

Adverse Drug Reactions

Mr. Burstow: To ask the Secretary of State for Health how many adverse drug reactions have been reported by *(a)* nurses and *(b)* all health professionals to the electronic yellow card scheme since it was launched. [144313]

Ms Rosie Winterton: By 12 December 2003, the Medicines and Healthcare products Regulatory Agency (MHRA) and Committee on Safety of Medicines (CSM) had received 77 reports of suspected adverse drug reactions (ADRs) submitted by nurses using the electronic Yellow Card, out of a total of 293 electronic Yellow Card reports from all health professionals since the launch of the electronic Yellow Card on 31 October 2002. The MHRA is developing proposals to increase the awareness of the electronic Yellow Card by all healthcare professionals.

Age-related Macular Degeneration

Mr. Dhanda: To ask the Secretary of State for Health what steps his Department is taking to ensure that the National Institute for Clinical Excellence guidance on the use of photodynamic therapy for age-related macular degeneration within the NHS in England and Wales is implemented as soon as possible; and when he expects the implementation to be completed. [142980]

Ms Rosie Winterton: Implementation of the National Institute for Clinical Excellence (NICE) guidance is underway. Patients are already receiving photodynamic therapy (PDT) on the national health service and we expect implementation of the NICE guidance to have been completed by July 2004. We are working with the NHS to facilitate the implementation and to give patients increased access to PDT during this time.

NICE have recommended that PDT should be made available to individuals who have a confirmed diagnosis of classic with no occult subfoveal choroidal neovascularisation (CNV), and best-corrected visual acuity of 6/60 or better. PDT is not recommended for the treatment of people with predominantly classic subfoveal CNV (that is, 50 per cent. or more of the entire area of the lesion is classic CNV but some occult CNV is present) except as part of ongoing or new clinical studies.

Department of Health officials held a meeting on 4 November 2003 with specialised services commissioners who are leading the implementation process. It was made clear to specialised services commissioners that full implementation is to be complete by July 2004 and that it is expected that services that have the capacity to increase more quickly should do so. It was also made clear that patients with suspected classic with no occult CNV, for whom treatment has been recommended, should be treated wherever capacity exists to do so.

Ambulance Service

Mr. Simmonds: To ask the Secretary of State for Health (1) how many trainee paramedics were employed by *(a)* Lincolnshire Ambulance Service and *(b)* each ambulance service in England and Wales on 1 December; [144608]

(2) many full-time paramedics were employed by *(a)* Lincolnshire Ambulance Service and *(b)* each ambulance service in England and Wales on 1 December. [144609]

Mr. Hutton: Information on the number of ambulance staff employed in the National Health Service by grade and organisation in England is shown in the table as at September 2002, the latest figures available. Information is not held centrally on the number of training places for paramedics.

Information for Wales is a matter for the devolved administration.

Notes:
Figures are rounded to the nearest whole number
Source:
Department of Health Non-medical Workforce Census

Mr. Burstow: To ask the Secretary of State for Health if he will list the percentage increase in emergency calls to ambulance trusts *(a)* over the last year and *(b)* over the last six years for (i) England and (ii) each ambulance trust. [144938]

Ms Rosie Winterton: Information about emergency calls to ambulance trusts is published annually in a statistical bulletin. The latest data are in "Ambulance Services, England: 2002–03", available at http://www.doh.gov.uk/sb0313.htm. The information requested is shown in the table.

Percentage increase in emergency calls from 1996–97 to 2002–03 and from 2001–02 to 2002–03 by ambulance service

Ambulance service	Number of emergency calls in 2002–03 (thousand)	Percentage increase 2002–03 over 1996–97	Percentage increase 2002–03 over 2001–02

Form KA34

Arrhythmias

Lady Hermon: To ask the Secretary of State for Health if he will extend the National Service Framework to include targets for the diagnosis and treatment of arrhythmias; and if he will make a statement. [145074]

Miss Melanie Johnson: The Government are committed to reducing the death rate from coronary heart disease (CHD) and stroke and related diseases in people under 75 by at least 40 per cent. by 2010. The national service framework for CHD, published in March 2000, sets the agenda for the modernisation of CHD services over a 10 year period in order to achieve this target.

The focus of the work on cardiac arrhythmia is on early diagnosis for this group of patients. The Department is investing in diagnosis, investigation and treatment of cardiac related problems. In November 2001, the Department announced £65 million from the New Opportunities Fund (NOF) and £60 million from the Department of Health to enable the rapid expansion of facilities for angiography, to fund 89 new or replacement catheterisation laboratories.

Audiology

Mr. Chope: To ask the Secretary of State for Health (1) how many people are waiting for the fitting of hearing aids in each primary care trust, having already had an assessment; and what the average time between assessment and fitting has been in the last 12 months; [144999]

(2) what service standards he has set for NHS audiology services, with particular reference to the length of time for which patients for audiology services wait; and what action the Government is taking to improve performance against standards; [145034]

(3) if he will make it the policy of the Government that those who have been waiting for more than six months for an *(a)* audiology hearing assessment and *(b)* audiology assessment should be able to have such assessments (i) carried out privately and paid for by the NHS and (ii) carried out overseas at NHS expense; [145049]

(4) if he will list in respect of each primary care trust the number of people waiting for a hearing assessment, and the number waiting for more than six months. [145052]

Dr. Ladyman *[holding answer 18 December 2003]:* While there are no targets for waiting times for audiology services, we are taking action to tackle the causes of longer waits as part of our programme to modernise hearing aid services in England.

The modernisation project team at the Royal National Institute for Deaf People and the Action On team from the NHS Modernisation Agency are working with sites to help them reduce waiting times. In this financial year, we are investing £1.56 million in specific initiatives to increase the capacity of individual audiology departments. We are introducing a new, more streamlined patient process in modernised sites. We are looking at ways to increase the number of trained audiologists in the longer term and are encouraging partnerships between national health service trusts and high street registered hearing aid dispensers to increase capacity and make NHS hearing aids available, free of charge, from an increasing number of convenient locations.

Care Homes

Sandra Gidley: To ask the Secretary of State for Health if he will explain the methods used to arrive at his conclusions that *(a)* 80 per cent. of people would like to live at home rather than in a care home and *(b)* 10,000 care home vacancies exist; where these vacancies exist; in what geographical areas there is a shortage; and if he will publish the research documents. [145623]

Dr. Ladyman: A 1999 study titled, "Attitudes and Aspirations of Older People: A Review of the Literature", by Boaz, A, et al and published by the Department of Social Security, found that up to 80 per cent., of older people would strongly prefer to remain in their own home for as long as possible.

The source of the 10,000 spare capacity in care homes is Laing & Buisson's "Care of Elderly People Market Survey 2003". The report indicates in Table 2.2 that there are 470, 600 places in care homes (excluding long stay NHS beds). According to Table 5.1 demand for care places is some 460,000 people. Thus, there is 'spare' capacity of over 10,000 places in the United Kingdom. Further detail about the care home market can be found in the report.

Communicable Diseases

Tim Loughton: To ask the Secretary of State for Health how many specialist consultants in infectious diseases there are in the UK. [145040]

Mr. Hutton: The table shows the number of consultants in the infectious diseases specialty in England as at 30 June 2003. Information for Scotland, Wales and Northern Ireland are matters for devolved administrations.

Hospital, Public Health Medicine and Community Health Services (HCHS): Staff in the infectious diseases specialty in England

Number (headcount)

	30 September 2002	*30 June 2003*
All staff	241	[1]—
of which:		
Consultant	95	107

[1] Figure not available. The data are from the June mini census, which collected only consultant figures.

Source:
Department of Health medical and dental workforce census.

Community Health Council Staff

Mr. Dobson: To ask the Secretary of State for Health how many former Community Health Council staff members have found continuing employment in the health service; how many have officially been declared redundant; and what the cost is to the Exchequer of the redundancy payments to be made to them. [145247]

Ms Rosie Winterton: Figures taken at the end of October show that 119 community health council (CHC) staff had found alternative employment in the health service. We estimate that 470 staff were made redundant as a result of the closure of CHCs on

1 December 2003 at a total cost of redundancy in the region of £14.5 million. The final figures will be confirmed in January.

Complaints (Berkshire)

Mrs. May: To ask the Secretary of State for Health (1) what requirements were included in the contract awarded to SEAP for the provision of an independent complaints advisory service for Berkshire; [144827]

(2) what arrangements he has put in place to provide support and advice to patients with a complaint against the NHS in Berkshire pending establishment of an independent complaints advisory service; [144828]

(3) when he expects an independent complaints advisory service to be established for Berkshire. [144829]

Ms Rosie Winterton: Contracts for the delivery of independent commission advocacy services (ICAS) were awarded through a competitive tendering exercise, which demanded providers to put in place good quality, accessible complaints support for people wishing to complain against the national health service. South East Advocacy Project (SEAP) was judged to meet the criteria and was approved to provide services in the Berkshire area. The Department and the Commission for Patient and Public Involvement in Health (CPPIH) are monitoring the delivery of services against standards and performance indicators.

ICAS was established on 1 September 2003 and has been available nationally, including for Berkshire, since 15 October 2003.

More information can be found at the CPPIH's website at: http://www.cppih.org/index.html

Continuing Care (National Health Service Responsibilities) Directions 2003

Mr. Hammond: To ask the Secretary of State for Health (1) if he will publish the consultation responses his Department has received with regard to the draft Continuing Care (National Health Service Responsibilities) Directions 2003; [144956]

(2) when he will publish the Continuing Care (National Health Service Responsibilities) Directions 2003. [144957]

Dr. Ladyman: The Continuing Care (National Health Service Responsibilities) Directions will be published early in 2004. There were a number of responses to the consultation on the draft Directions, leading to amendments where appropriate. A summary of the responses will be available in due course through http://www.doh.gov.uk/consultations/index.htm

Deaf People

Tim Loughton: To ask the Secretary of State for Health (1) how many interpreters for deaf people are available in each hospital trust; [145016]

(2) how many interpreters for deaf people are employed by the NHS. [145018]

Mr. Hutton: The information requested is not collected centrally.

Tim Loughton: To ask the Secretary of State for Health what arrangements are in place to communicate with deaf mothers in labour in hospital maternity departments. [145017]

Dr. Ladyman: The Department is firmly committed to improving access to information services and levels of awareness of disability issues, in particular by supporting the national health service in meeting legislative requirements. We are working in partnership with the Disability Rights Commission to take forward a series of actions aimed at improving the experiences of disabled people in the health and social care system. A working group is being established to drive forward work on access and communications.

Dentistry

Mr. Burstow: To ask the Secretary of State for Health how many dental practices in *(a)* England and *(b)* each strategic health authority there were in each of the last six years; and how many (i) registered adults exempt from charges and (ii) registered children from nought to 18 years there were in each of the last six years. [144320]

Ms Rosie Winterton: Table 1 shows the available information for the number of general dental service (GDS) practices in England and each strategic health authority in each of the last six years.

Adult patient registrations are not available separately for patients exempt from charges because no charge is made for patients' registrations. The number of registered children at 30 September in each of the last six years is shown in Table 2.

Table 1: General Dental Service—Number of GDS dental practices by strategic health authority at 31 August each year

	Number of dental practices

Source:
Dental Practice Board

Bob Spink: To ask the Secretary of State for Health what proportion of Castle Point residents were registered with an NHS dentist in each of the last five years. [145161]

Dr. Ladyman: Registration rates are shown in the table for the health administration areas, South Essex Health Authority area for September in the years 1999 to 2001, Castle Point and Rochford Primary Care Trust (PCT) area for September in the years 2002 and 2003.

General Dental Service: Proportion of the population registered with a dentist 1999 to 2003 in health areas containing Castle Point

At 30 September	Percentage of population registered with a GDS dentist
South Essex HA area	
1999[1]	44.6
2000[1]	46.3
2001[2]	45.5
Castle Point and Rochford PCT area	
2002[2]	45.5
2003[2]	40.6

[1] 1998–2000 ONS mid year population estimates based on the 1991 census.

[2] 2001 ONS mid year population estimates based on the 2001 census

The registration rates are calculated by dividing the number of patients registered with a dentist who is located in the area by the estimate of the total population for that area. Some patients attend a dentist in a different area from the one in which they live and so the registration and population numbers do not cover the same people.

Registrations lapse if patients do not return to their dentist within 15 months and so the registration figures exclude patients who have not been to their general dental service dentist within the past 15 months. Also excluded from the figures are patients who receive dental treatment from other national health service dental services including dental access centres.

Departmental Policies

Ms Buck: To ask the Secretary of State for Health if he will make a statement on the impact of his Department's policies on the Regent's Park and Kensington, North constituency since 1997. [145417]

Mr. Hutton: Detailed information on the impact of departmental policies nationally is set out in the Department of Health Annual reports. A copy of the most recent report "Department of Health—Government Expenditure Plans 2003/2004" is available in the Library and on the Department's website.

The impact of policies is not examined by constituency and statistics collected centrally by the Department are not collected on a constituency basis.

My hon. Friend's constituency falls within the geographical area covered by Westminster and Kensington and Chelsea Primary Care Trusts (PCT), Chelsea and Westminster National Health Service Trust, St. Mary's NHS Trust and the former Kensington, Chelsea and Westminster Health Authority (HA).

Allocations to Kensington, Chelsea and Westminster HA

Period	Allocation	Cash increase		Real terms increase	
	£000	£000	Percentage	£000	Percentage
1997–98	201,166	8,744	4.54	4,800	2.49
1998–99	212,220	10,976	5.45	5,296	2.63
1999–2000	286,339	22,944	8.71	15,960	6.06
2000–01	321,111	31,368	10.83	23,536	8.12
2001–02	361,234	33,942	10.37	25,131	7.68
2002–03	436,168	45,127	11.68	34,607	8.96

Notes:

1. Figures for 1997–98 and 1998–99 are not comparable to the later figures, as these are for Hospital and Community Health Services (HCHS) only.

2. From 1999–2000 allocations have included HCHS, GMS cash limited and prescribing components (2002–03 saw the addition of HIV/Aids and GMS non cash limited components).

Kensington and Chelsea PCT will receive allocations of £202.06 million in 2003–04, £221.87 million in 2004–05 and £243.04 million in 2005–06. These represent a cash increase of £57.71 million or 31.14 per cent. over the three years, compared to a national average of 30.83 per cent. Kensington and Chelsea PCT will be 15.37 per cent. over target by 2005–06.

Westminster PCT will receive allocations of £263.88 million in 2003–04, £289.44 million in 2004–05 and £316.79 million in 2005–06. These represent a cash increase of £74.58 million or 30.79 per cent. over the three years, compared to a national average of 30.83 per cent. Westminster PCT will be 29.88 per cent. over target by 2005–06.

Kensington, Chelsea and Westminster HA and the trusts within it have also received additional funding for certain policies. This includes:

£745,000 for accident and emergency modernisation in 2000–01.

Nationally, in 2000–01 recurrent investment of £50 million was available for the improvement of cancer services. For 2001–02, an additional £255 million was available nationally for cancer care.

£3.2 million, £599,000 and £905,000 to reduce waiting lists and times in 1998–99, 1999–2000 and 2000–01 respectively.

£1.6 million to expand critical care services in 2000–01.

£2.4 million and £1.6 million to deal with winter pressures in 1998–99 and 2000–01 respectively.

£3.1 million for heart disease services in 2000–01.

I am informed by North West London Strategic Health Authority that in 2002–03, the Westminster and Kensington and Chelsea PCT's overall allocation included the following earmarked funding for certain policies (there has been no earmarked funding in 2003–04):

£845,000 for mental health.

£675,000 for coronary heart disease.

£855,00 for cancer.

£625,000 for information management and technology.

£94,000 for primary care.

£4.785 million for capacity.

One of the public's principal concerns about the NHS has been waiting times. Waiting list information for St. Mary's and Chelsea and Westminster NHS Trusts is shown in the tables.

Patients waiting for elective admission: St. Mary's NHS Trust

Month end	Total waiting list	Patients waiting over nine months	Patients waiting over 12 months
March 1997	5,801	539	149
October 2003	3,726	87	0

Departmental Staff

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 10 December, *Official Report*, columns 502–3W, on departmental staff, (1) if he will list the job titles of each member of staff in the Health and Social Care Delivery Group; [144952]

(2) if he will list the job titles of each member of staff in the Health and Social Care Standards and Quality Business Group; [144953]

(3) if he will list the job titles of each member of staff in the Strategy and Business Development Group. [144954]

Ms Rosie Winterton: The Department is currently undergoing an extensive change programme. The basic framework has been agreed and was detailed in my previous answer. Job titles and details of the structure are subject to confirmation by group directors.

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 10 December, Official Report, columns 502–3W, on departmental staff, what the activities are of each business group. [144955]

Ms Rosie Winterton: The activities of the Department's three business groups are as follows:

Delivery—responsible for supporting the delivery of the targets set out in the NHS Plan. These include reducing waiting times, increasing choice for National Health Service patients, securing resources for NHS and local government organisations, ensuring the NHS has the capacity to deliver services to patients, and integrating NHS information technology systems to deliver modernised patient services.

Standards and Quality—responsible for the majority of our policy-making responsibilities, ranging from leading-edge scientific developments and medical innovations, such as stem cell research, to lifestyle issues such as obesity. The group will set standards and define quality in health and social care services, maintain and promote health and well being, ensure safety of patients and service users, and deliver some of the Government's key programmes, such as tackling coronary heart disease and cancer.

Strategy and Business Development—responsible for important corporate services (such as communications, corporate human resources and information technology), ensuring the Department is run effectively and efficiently. The group also leads important programmes and policies (such as system reform, equality, medicine and pharmacy, user experience and involvement and professional leadership).

The new structure of the Department is as follows:

Department of Health Mangement Board

Permanent Secretary and Chief Executive—Sir Nigel Crisp

John Bacon, Sir Liam Donaldson, Hugh Taylor, Sian Jarvis, Sarah Mullally, Richard Douglas, Directory of Strategy

Health and Social Care Standards and Quality

Group Director—Sir Liam Donaldson

Group Business Team

Mr. Burstow: To ask the Secretary of State for Health what the rationale was for reducing the number of posts in his Department by 1,400; and from which policy areas the posts will be taken. [145024]

Ms Rosie Winterton: We recognised that the Department must change to reflect recent changes in the national health service and social care. It was clear that, with the Government's focus on shifting power to the frontline and the formation of many independent bodies, the Department's role and functions would reduce. We decided a reduction of at least a third was necessary to reflect our new role in providing strategic direction and leadership to the NHS and social care.

The radical Change Programme will reduce the size of the core Department by 1,400—from over 3,600 posts to 2,200—by October 2004. This represents a 38 per cent. reduction at the centre. Half of those posts will not be replaced and will be achieved by efficiency savings, while the rest of the reduction will result from transferring posts to other national bodies, which are also the subject of review.

We have indicated our intention to maintain the current proportion of Departmental staff in Leeds and London. The final numbers at each location are yet to be finalised. We estimate that most of the reductions will be through natural turnover or early retirements. A voluntary scheme has already been launched for those over 50. The Department has had a 'vacancy freeze' in place for the last six months, to ensure staff are given the best opportunities to seek alternative posts, and we are actively monitoring turnover. The Department is using professional support to help those staff affected by the changes.

Diagnostic and Treatment Centres

Mr. Burstow: To ask the Secretary of State for Health what research his Department has commissioned for an evaluation of diagnostic and treatment centres. [144949]

Mr. Hutton: An evaluation of National Health Service treatment centres has been commissioned from a consortium made up of University College London and the University of Southampton, under the NHS service delivery and organisation research programme. The evaluation began in March 2003 and is being carried out over three years.

Doctors' Earnings

Gregory Barker: To ask the Secretary of State for Health what his estimate is of the earnings of *(a)* a locum doctor and *(b)* a doctor with a permanent position within an NHS trust in the last year for which figures are available. [142395]

Mr. Hutton: Estimated annual earnings of hospital doctors as at August 2002 (the latest figures available) are given in the table.

Staff grade	*Mean year earnings (£)*
Consultant	82,936
Non-consultant career grades	56,751
House officer	28,201
Other hospital grades	58,103
Registrars	52,623
Senior house officer	41,124

Information is not held centrally on the average annual earnings of locum doctors.

Domiciliary Care

Mr. Burstow: To ask the Secretary of State for Health how many domiciliary care providers have *(a)* applied for and *(b)* met the registration standards. [140640]

Dr. Ladyman: As at 30 November, 4,322 domiciliary care providers have applied for registration. 3,155 of these applications have been validated and are being processed, and 243 domiciliary care providers met the registration standard.

Mr. Burstow: To ask the Secretary of State for Health how many domiciliary care providers have been registered by the National Care Standards Commission in each region. [140642]

Dr. Ladyman: The information requested is shown in the following table.

Region	*Services registered*
South West	72
South East	70
London	40
West Midlands	20
North West	20
North East	7
Yorkshire and Humberside	6
East Midlands	6
Eastern	2
Total	243

Note:
Information as at 30 November 2003.

Drug Eluting Stents

Dr. Gibson: To ask the Secretary of State for Health (1) how he plans to incorporate guidance from the National Institute for Clinical Excellence on drug eluting stents into the National Standards Framework on coronary heart disease; [145783]

(2) whether his Department has estimated the cost to the NHS of the increased use of drug eluting stents following guidance from the National Institute for Clinical Excellence. [145782]

Miss Melanie Johnson: The national service framework for coronary heart disease (NSF CHD), published in March 2000, sets the agenda for the modernisation of CHD services over a 10 year period. Standard 10 deals with revascularisation and states that 'NHS Trusts should put in place hospital-wide systems of care so that patients with suspected or confirmed coronary heart disease receive timely and appropriate investigation and treatment to relieve their symptoms and reduce their risk of subsequent coronary events'.

The National Institute for Clinical Excellence (NICE) guidance on drug eluting stents (DES) provides clinical guidance highlighting patients who would most benefit from the treatment. NICE guidance is for healthcare professionals and patients and their carers to help them make decisions about treatment and healthcare and to inform their delivery of the NSF standard.

The NICE guidance estimates that the additional cost of drug eluting stents would be between £6 million and £7.2 million per year, assuming the use of about 12,000 DES costing an additional £500 to £600 each.

Electronic Care Record System

Mr. Austin Mitchell: To ask the Secretary of State for Health by what mechanism he proposes to fund the estimated cost of the planned NHS electronic care record system; and where the money for the upkeep of the system will come from. [142704]

Mr. Hutton: The national health service electronic care record is one element of the national programme for information technology (NPfIT) in the national health service. Central funding for the NPfIT in the NHS is to be made available from the Spending Review 2002 as follows: £370 million in 2003–04: £730 million in 2004–05 and £1.2 billion in 2005–06.

Future maintenance costs will form part of the ongoing financial management processes within future Spending Review envelopes. By 2008, IT funding will be in line with the levels proposed within the Wanless Review; that is, to four per cent. of total NHS expenditure.

Electronic Recruitment

Mr. Andrew Mitchell: To ask the Secretary of State for Health what right existing publishers will have to republish listings of jobs advertised via the electronic recruitment project; and how listings will be made available to publishers. [144824]

Mr. Hutton: Jobs which appear on the electronic recruitment site are with national health service employers. These employers are independent statutory corporations. They own the copyright to the job vacancies. The Department of Health hosts the vacancies on their behalf. The Department does not own the copyright and is not able to allow existing publishers to copy vacancies from the site for advertising in other media. The electronic recruitment project is intended to reduce the cost to the NHS of advertising job vacancies and to allow the NHS to make better use of its resources.

The project team is committed to working with existing publishers both through the digital content forum and bi-lateral meetings with individual publishers to develop the service. NHS employers will require a combination of advertising media to meet their recruitment requirements.

Mr. Andrew Mitchell: To ask the Secretary of State for Health what estimate he has made of the percentage of NHS trusts required to use the electronic recruitment service to achieve the desired cost savings. [144826]

Mr. Hutton: The estimated cost savings are based upon 75 per cent. of potential national health service job vacancies being advertised via the electronic recruitment service.

Mr. Andrew Mitchell: To ask the Secretary of State for Health what plans he has to charge NHS users for the services provided by the planned electronic recruitment project; and whether NHS trusts' top line recruitment budgets will be altered to fund the electronic recruitment project. [144904]

Mr. Hutton: The Electronic Recruitment Service will be funded by the Department until April 2006. The method of funding after that date is still to be determined.

EU Health Insurance Cards

Ms Stuart: To ask the Secretary of State for Health if he will make a statement on the introduction of EU health insurance cards in the UK. [143518]

Mr. Hutton: At the Barcelona European Council, the European Union member states, including the United Kingdom, signed up to a new European health insurance card to replace the existing paper form E111, to be introduced by 1 June 2004. Those countries which do not have an existing infrastructure for health card issue may apply for an extension of the date of introduction to 31 December 2005. The UK has obtained such an extension.

A decision has yet to be made on how the Council decision will be implemented in the UK. A scoping study is currently underway.

Food Supplements Directive

Dr. Iddon: To ask the Secretary of State for Health what further practical assistance will be given to industry by *(a)* his Department and *(b)* the Food Standards Agency in relation to the remaining ingredients that will not benefit from the more flexible interpretation of the requirements for dossier production under the provisions of the Food Supplements Directive agreed on 14 October; and if he will make a statement. [144869]

Miss Melanie Johnson: In drafting The Food Supplements Regulations (England) 2003, the Government have already made full use of the flexibilities available in the Food Supplements Directive. The Food Standards Agency secured a valuable meeting between representatives of United Kingdom food supplements manufacturers and the European Food Safety Authority (EFSA) on 14 October to discuss dossier requirements, and has disseminated EFSA's advice to interested parties.

Foundation Status

Mr. Burstow: To ask the Secretary of State for Health how many expressions of interest in membership have been received for each of the first wave of foundation applicant trusts. [144811]

Mr. Hutton: Information on expected membership numbers will be included in the formal applications made to the Independent Regulator. These applications will be placed in the Library.

Mr. Burstow: To ask the Secretary of State for Health if he will place copies of foundation trust applications in the Library. [144951]

Mr. Hutton: The Health and Social Care (Community Health and Standards) Act 2003 provides for National Health Service trusts to submit their applications for NHS foundation trust to the Independent Regulator. I will arrange for copies of the applications submitted to the Independent Regulator to be placed in the Library.

Mr. Burstow: To ask the Secretary of State for Health which applicants for foundation hospital trust status have indicated to him that they are considering pulling out of the application process; and what reasons they have cited. [145012]

Mr. Hutton: All 25 national health service trusts who were invited have submitted preparatory materials seeking the Secretary of State's support for an application for NHS foundation trust status.

General Practitioners

Mr. Burstow: To ask the Secretary of State for Health what procedures are used to collect central statistics to monitor progress towards the 48-hour general practitioner access target; and if he will publish the latest statistics available. [144941]

Mr. Hutton: Performance is monitored through a monthly survey by primary care trusts of their general practices.

In October 2003, this survey showed that nationally, 94 per cent. of patients were able to be offered an appointment to see a general practitioner within two working days.

Mr. Burstow: To ask the Secretary of State for Health what representations he has received from primary care trusts about the effect of high property prices on general practitioners setting up new premises; what his Department's policy is on the issue; and if he will make a statement. [144592]

Mr. Hutton: I am not aware of any general concerns raised by primary care trusts about general practitioners experiencing difficulties setting up new premises because of high property prices. The arrangements to reimburse general practitioner premises costs take account of differing property prices.

Mr. Gordon Prentice: To ask the Secretary of State for Health how many and what percentage of the adult population of England are registered with a general practitioner. [145197]

Mr. Hutton: At 30 September 2002 (the latest published data), 41,635,243 people aged 16 years and over were recorded as registered with a general practitioner or provider of personal medical services in England.

It is not possible to express these figures accurately as a percentage of the adult population, as the phenomenon of "list inflation' means that registered populations are

typically larger than actual populations. This phenomenon arises where a patient moves his or her registration and for a period may be registered on two lists. Similarly, an individual who dies or moves abroad may remain on a list for a time.

Geriatricians

Sandra Gidley: To ask the Secretary of State for Health how many *(a)* consultant geriatricians and *(b)* geriatricians below the level of consultant were employed in England and Wales in each year since 1997. [145627]

Mr. Hutton: Information relating to Wales is a matter for the Welsh assembly.

The available information is shown in the table.

Hospital, public health medicine and community health services (HCHS): medical staff within the geriatric medicine specialty—England[1]

Numbers (headcount)

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*March 2003*	*June 2003*
All staff	2,527	2,560	2,505	2,572	2,558	2,707	[2]—	[2]—
Of which								
Consultant	677	712	719	767	781	861	883	894
All other grades	1,850	1,848	1,786	1,805	1,777	1,846	[2]—	[2]—

[1] Data as at 30 September 1997 to 2002, 31 March 2003 and 30 June 2003.
[2] Denotes not available. This is due to data for March and June 2003 being taken from the mini censuses which collected consultants only.
Source:
Department of Health Medical and Dental Workforce Census

Between September 1997 and June 2003, consultant numbers in geriatric medicine increased by 32 per cent.

Give as You Earn Scheme

John Barrett: To ask the Secretary of State for Health how many and what percentage of staff in his Department contribute to a charity through the Give as You Earn scheme; how much money is donated to charity per month by staff in his Department through the scheme; and what steps he is taking to encourage greater participation in the scheme by staff in his Department. [143905]

Ms Rosie Winterton: On average around 2 per cent. of the Department's staff (100 people) contribute to a charity through the Give as You Earn scheme. For the month of November 2003, £11,124.30 was donated, (this figure will change each month as staff join and leave the scheme).

A range of initiatives are periodically undertaken including inviting charitable organisations onto the Department's premises to promote themselves and encourage staff participation.

Giving to charity through Give as You Earn is unlikely to reflect fully the charitable activity of the Department's employees. Giving to charity is a very personal and often private choice. Many of the Department's employees may donate to charity or volunteer their time and skills.

GP Referrals

Mr. Burstow: To ask the Secretary of State for Health what restrictions there are on direct referral by general practitioners to *(a)* therapists, *(b)* hospital diagnostics and *(c)* other general practitioners with a specialist interest; if he will list the reasons for these restrictions; and what plans his Department has to remove those restrictions. [143703]

Mr. Hutton: There are no centrally imposed restrictions on the direct referral of patients by general practitioners to therapists, hospital diagnostics, or other GPs with a specialist interest.

Haemophilia

Mrs. Calton: To ask the Secretary of State for Health (1) how many haemophiliacs were diagnosed in each year since 1975; [143397]

(2) how many haemophiliacs died from blood product acquired infections in each year since 1975; [143398]

(3) how many haemophiliacs in the UK have been treated in each year since 1975 for *(a)* HIV, *(b)* hepatitis C and *(c)* CJD acquired from contaminated blood products. [143399]

Miss Melanie Johnson: The United Kingdom Haemophilia Centre Doctors Organisation estimate that 40 new Haemophilia A cases and three to four Haemophilia B cases are expected each year. The number of expected mild haemophilia cases is not available.

Viral inactivation of blood products and screening for HIV were first introduced in 1985. The number of haemophilia patients infected with HIV/AIDS from infected national health service blood products, registered with the Macfarlane Trust, who have died before and since 1988 when the Trust was set up, is shown in the table.

	Number or patients infected with HIV/AIDS
Pre 1988	87
1988	39

The latest information from the United Kingdom Haemophilia Centre Doctors Organisation show 212 patients with haemophilia have died from liver disease.

Health Care Commissioning

Mr. Lansley: To ask the Secretary of State for Health when he will publish a statement of the costs, with particular reference to costs relating to NHS reference costs, of commissioning *(a)* independent and *(b)* private sector health care by the NHS. [141316]

Mr. Hutton: Information will be included in "NHS Reference Costs 2003", which I expect to publish shortly. The publication will include separate expenditure data for treatments undertaken by national health service and non-NHS providers. The data does not, however, distinguish between not-for-profit and commercial providers.

Healthy Living Centres

Chris Grayling: To ask the Secretary of State for Health whether his Department monitors the usage of healthy living centres. [144568]

Miss Melanie Johnson: The Department of Health has commissioned the Tavistock Institute to carry out an evaluation of the healthy living centre programme against key health priorities such as cancer and coronary heart disease prevention. The usage of healthy living centres is monitored by the New Opportunities Fund by absolute numbers as well as by gender, ethnicity and age.

Hospital Beds (Christmas)

Virginia Bottomley: To ask the Secretary of State for Health what measures he has put in place to ensure adequate provision of hospital beds over the Christmas period in Waverley and Guildford. [143543]

Ms Rosie Winterton: In line with our policy on "Shifting the Balance of Power", responsibility for local services now rests with local trusts.

Cranleigh Village Hospital and Haslemere Community Hospitals will be closed between 19 December 2003 and 5 January 2004. This is a traditionally quiet period and community hospital beds at the Haslemere site were closed at this time during 2000 and 2001. However, patients will be able to return to the hospitals at short notice if necessary.

County Durham and Darlington Acute Hospitals Trust

Mr. Kevan Jones: To ask the Secretary of State for Health (1) how many North Durham patients chose to have operations carried out at Bishop Auckland hospital in the last 12 months; [144863]

(2) how many patients have been admitted to Bishop Auckland Hospital as a result of beds being unavailable at the University Hospital, Durham. [144865]

Miss Melanie Johnson: This information is not available centrally in the format required. The Department collects data on a trust wide basis. For the year 2002–03, County Durham and Darlington Acute Hospitals National Health Service Trust recorded 108,524 Finished Consultant Episodes.

Mr. Kevan Jones: To ask the Secretary of State for Health how many patients who are under the care of consultants in County Durham and Darlington Acute Hospitals NHS Trust have been treated in the private sector, and at what cost, in the last 12 months. [144864]

Miss Melanie Johnson: This information is not collected centrally.

Mr. Kevan Jones: To ask the Secretary of State for Health if he will list the non-executive members of the County Durham and Darlington Acute Hospitals NHS Trust; and in which parliamentary constituency each lives. [144866]

Miss Melanie Johnson: The information is shown in the following table.

Board member	*Constituency*
Angela Ballatti (Chair)	City of Durham
Kathryn Larkin-Bramley	City of Durham
John Dixon	Bishop Auckland
Valerie Ward	North West Durham
Anthony Wolfe	Bishop Auckland
Charles Magee	Sedgefield

Mr. Kevan Jones: To ask the Secretary of State for Health what the costs were of establishing the County Durham and Darlington Acute Hospitals NHS Trust; and how much of these costs was associated with establishing management structures. [144867]

Miss Melanie Johnson: In establishing the County Durham and Darlington Acute Hospitals National Health Service Trust, no additional funding was provided to North Durham Healthcare NHS Trust and South Durham Healthcare NHS Trust. Costs, including those for transferring from two management structures to a single structure, were contained within trust budgets.

Influenza

Mr. Burstow: To ask the Secretary of State for Health what assessment his Department has made of the impact on *(a)* public health and *(b)* NHS capacity of a new influenza strain entering the United Kingdom. [141703]

Miss Melanie Johnson: All strategic health authorities have developed stringent winter plans to cope with increased seasonal demand for health services. These set out escalation procedures, such as the opening of additional beds, in the event of increased pressure on the national health service.

Hospital trusts have also been preparing for winter by profiling elective activity through the year to ensure maximum availability of beds for the seasonal winter rise in emergency admissions.

Learning Services

Mr. Boswell: To ask the Secretary of State for Health what arrangements he has put in place for co-ordination between NHS Plus and the NHS University in the delivery of learning services to external health care providers. [145241]

Ms Rosie Winterton: NHS Plus is a completely separate service to the NHS University. NHS Plus is a network of 108 national health service trusts which delivers occupational health services to non-NHS employers, including non-NHS health care providers. It does not deliver learning services. The NHS University, on the other hand, is a new kind of educational institution which will provide learning programmes for all levels of staff who work for the NHS with a view to improving service delivery in health and social care and modernisation of the NHS.

LifeBytes

Mr. Beggs: To ask the Secretary of State for Health if he will make a statement on the *(a)* content of and *(b)* links from the LifeBytes website's section on sex and relationships. [145318]

Miss Melanie Johnson: LifeBytes is part of the Wired for Health website: a series of websites managed by the Health Development Agency on behalf of the Department of Health and the Department for Education and Skills. LifeBytes provides information for young people on a range of health related issues such as healthy eating, physical activity, drugs alcohol and tobacco, as well as sex and relationships.

It is important that young people have access to information and know where to go for advice. The links from LifeBytes provide further sources of guidance.

Maintenance Backlog

Mr. Burstow: To ask the Secretary of State for Health if he will list the backlog maintenance cost to reach *(a)* estate code condition B, *(b)* fire safety standards and *(c)* health and safety standards for (i) England, (ii) each strategic health authority and (iii) each NHS trust for the latest year for which figures are available. [143707]

Mr. Hutton: NHS Estates collects data on backlog maintenance from National Health Service trusts through its Estates Return Information Collection. The latest data, relating to 2002–03, is still the subject of statistical validation. I will write to the hon. Member with the information as soon as possible.

Mental Health (Drugs and Alcohol)

Helen Southworth: To ask the Secretary of State for Health what assessment he has made of the provision of specialist NHS services for people who are diagnosed as having a mental illness who also have a drug or alcohol dependency. [142770]

Ms Rosie Winterton: The Government have not undertaken an assessment of specialised services for people diagnosed with a mental illness who also have a drug or alcohol dependency.

The Office for National Statistics (ONS) is responsible for compiling, analysing and disseminating information relating to United Kingdom economic, social and demographic statistics. Their report 'Psychiatric morbidity among adults living in private households, 2000' is available on the website at www.statistics.gov.uk. Along with others due for publication next year, the report contains valuable information about the prevalence of mental disorders including those with problems relating to substance misuse among adults over the age of 16 in private households.

Tim Loughton: To ask the Secretary of State for Health (1) how many patients of mental health hospitals have been found in possession of illegal drugs while resident in the last year; and if he will make a statement; [145023]

(2) what measures he is taking to prevent the sale of illegal drugs to patients of mental health hospitals. [145057]

Ms Rosie Winterton: Guidance on the use of illegal substances in in-patient and day-care settings is being prepared and will be issued in early 2004.

The guidelines will support managers and clinicians in developing local policies promoting the safety of patients, staff and visitors and the effective care and treatment of patients who misuse substances.

The Counter Fraud and Security Management Service (CFSMS) was launched in April 2003 with a new remit encompassing policy and operational responsibility for the management of security in the national health service. The remit is broad but has been defined as protecting people and property. One of the key areas which the CFSMS will be addressing is ensuring the security of drugs, prescription forms and hazardous materials.

No central records are kept of number of patients who are caught misusing illegal substances.

Mental Health Services (Children and Adolescents)

Mr. Burstow: To ask the Secretary of State for Health if he will make a statement on the impact of expenditure in the last five years on mental health services for children and adolescents. [145056]

Dr. Ladyman: The Department has made a significant investment in child and adolescent mental health services (CAMHS) of some £105 million over the period 2000–03.

A number of positive outcomes have been reported including improved access to specialist services, the development of new services for groups that traditionally have found it difficult to access CAMHS and better support to other agencies. In particular, this additional investment has led to a significant increase in multi-disciplinary and joint working across professions and agencies, engaging key local players in the development of the service.

But this is only the first stage in a continuing programme of radical improvements in the quality and quantity of CAMHS. Our current public service agreement target provides for an expansion of the service by at least 10 per cent. per year for the next three years, leading to a comprehensive service, able to respond to all children with mental health needs in all areas, by 2006. This development is underpinned by over £250 million of additional funding, including £140 million for local authorities.

Mental Illness

Dr. Kumar: To ask the Secretary of State for Health what groups he has assessed as being most at risk from and prone to mental illness resulting in them being a danger *(a)* to themselves and *(b)* to others. [144758]

Ms Rosie Winterton: The Office for National Statistics survey "Psychiatric Morbidity Among Adults Living in Private Households, 2000" shows the association between the presence of mental health problems and key socio-demographic and economic characteristics for those with different types of mental disorder. It also examines the relationship between the presence of mental health problems and physical complaints. The survey is available from http://www.statistics.gov.uk/

In addition, the National Institute for Mental Health in England has recently published the first annual report of the National Suicide Prevention Strategy for England. The report, available from http://www.nimhe.org.uk, sets out risk factors for suicide and deliberate self-harm.

Information about factors associated with homicide by people with mental illness is also contained in the National Confidential Inquiry reports, which are available from http://www.national-confidential-inquiry.ac.uk/nic/

Dr. Kumar: To ask the Secretary of State for Health (1) how many ex-offenders have in each of the last five years been *(a)* identified with and *(b)* treated for a mental illness sufficiently severe for them to have been regarded as a danger to themselves or others, broken down by region; [144759]

(2) how many people in each region, in each of the last five years, broken down by age, ethnicity and sex have been identified as a danger to *(a)* themselves and *(b)* others as a result of mental illness. [144761]

Ms Rosie Winterton: Information about people, whether or not they have a history of offending, who may represent a danger to themselves or others is not collected in the format requested.

However, statistical bulletin "In-patients formally detained in hospitals under the Mental Health Act 1983 and other legislation, England: 1992–93 to 2002–03" (http://www.doh.gov.uk/public/sb0322.htm) contains detailed information on people detained under the Mental Health Act 1983 and other legislation.

The annual statistical bulletin "Statistics of mentally disordered offenders" (http://www.homeoffice.gov.uk/rds/pdfs2/hosb1403.pdf) contains information about patients subject to a restriction order admitted to, detained in or discharged from hospitals. It also gives information on the admission to hospital of mentally disordered offenders not subject to restriction orders.

The Office for National Statistics survey "Psychiatric Morbidity Among Adults Living in Private Households, 2000" (http://www.statistics.gov.uk/) shows the associations between the presence of mental health problems and key socio-demographic and economic characteristics for those with different types of mental disorder. It also examines the relationship between the presence of mental health problems and physical complaints.

In addition, the National Institute for Mental Health in England has recently published the first annual report of the National Suicide Prevention Strategy for England. The report (http://www.nimhe.org.uk) sets out risk factors for suicide and deliberate self-harm.

Information about factors associated with suicide and homicide by people with mental illness is also contained in the National Confidential Inquiry reports, which are available from http://www.national-confidential-inquiry.ac.uk/nic/

Dr. Kumar: To ask the Secretary of State for Health how many young people leaving care have been *(a)* identified with and *(b)* treated for mental illness sufficiently severe for them to have been regarded as a danger to themselves or others, broken down by region. [144762]

Dr. Ladyman: This information is not collected centrally. As set out in the Department of Health Priorities and Planning Framework 2003–06, we are establishing a total of 50 early intervention teams to reduce the duration of untreated psychosis to an average time of less than three months (individual maximum less than six months). They will also provide support for the first three years for all young people who develop a first episode of psychosis by 2004.

The latest information available shows 27 early intervention teams are already in place. Work continues in assisting local services to establish teams in line with the service specifications outlined in the Mental Health Policy Implementation Guide.

Dr. Kumar: To ask the Secretary of State for Health what resources were made available *(a)* centrally and *(b)* by health authority for the treatment both on a residential and outpatient basis of people thought to be a danger to (i) themselves and (ii) others as a result of mental illness in each of the last five years. [144763]

Ms Rosie Winterton: Mental health resources made centrally available for dangerous and severe personality disorder, high secure services and prison in-reach since 2001–02 are detailed in the table.

millions

	Allocation
2001–02	11.05
2002–03	20.06
2003–04	25.067

Resource expenditure by health authorities/primary care trusts (PCTs) is not collected by client group and therefore the specific spend on services for people thought to be a danger to themselves and others as a result of mental illness cannot be separately identified.

Allocations to PCTs for mental health in 2003–04 have been in line with the planning and priorities framework, which is in turn based on the NHS Plan. Following "Shifting the Balance of Power", PCTs are responsible for commissioning services for their local populations. They do this in the context of national priorities; the local services that are already available; the evidence; and the resources. These arrangements permit resources to be more closely matched to the

needs of local people and enable PCTs and their partner organisations to take full account of strengths or gaps in local services.

Dr. Kumar: To ask the Secretary of State for Health how many residential treatment facilities are open, broken down by region, for people identified with a serious mental illness; and how many facilities were in operation in each of the last five years. [144764]

Ms Rosie Winterton: This information is not available in the requested format. However, the hospital activity statistics system, which is available at http://www.doh.gov.uk/hospitalactivity/, provides information on the average daily numbers of available and occupied residential beds for people with mental illness within national health service organisations.

In addition, the National Care Standards Commission operates a central register of social care and private and voluntary health care services throughout England. The register includes residential care services for people with mental illness and is available at http://www.carestandards.org.uk/registered + services + directory/default.htm

Dr. Kumar: To ask the Secretary of State for Health what advice has been issued to healthcare professionals when identifying and treating patients thought to be a danger to *(a)* themselves and *(b)* others as a result of mental illness; and how many attacks were made on healthcare professionals in the last 12 months, broken down by region. [144765]

Ms Rosie Winterton: The Department has issued advice on the identification and treatment of those patients thought to be a danger to themselves or others as a result of mental illness.

The first national suicide prevention strategy in England was launched by my right hon. Friend, the then Minister of State for Community (Jacqui Smith) on 16 September 2002 and the first report on progress, which is available at www.nimhw.org.uk, was published on 11 December 2003.

For those detained under the Mental Health Act, practice should follow what is described in the Mental Health Act Code of Practice. For those who may be a danger to others, control and restraint procedures should be regularly reviewed and audited in line with good clinical governance.

The Counter Fraud and Security Management Service (CFSMS), launched in April 2003, has a remit encompassing policy and operational responsibility for the management of security in the national health service. As a key preventative measure to tackle physical assaults on staff and professionals in the NHS, the CFSMS has developed a national syllabus for the provision of conflict resolution training for staff and professionals working in the NHS and is in the process of developing a separate national syllabus for the provision of conflict resolution and physical intervention training in the mental health and learning disability settings. The National Institute for Mental Health in England also has a programme of work on the management of violence in mental health settings.

The table shows the number of incidents indicated in the Department's survey of violence, accidents and harassment reports for 2002–03.

Organisation type	*Estimated total number of incidents*	*Estimated number of incidents per 1,000 staff per month*
Acute trusts	38,000	6
Primary care trusts	21,000	12
Ambulance trusts	5,000	16
Mental health and community trusts	51,000	34
All organisations	116,000	11

Totals include a small number of incidents in strategic health authorities and special health authorities. Totals have been estimated to include organisations which did not provide figures.

Dr. Kumar: To ask the Secretary of State for Health how many beds were available in each type of facility, broken down by region, for the containment and treatment of individuals thought to be a danger to *(a)* themselves or *(b)* others as a result of mental illness in each of the last five years. [144766]

Ms Rosie Winterton: The requested data is not collected by client group and therefore the specific number of beds for people thought to be a danger to themselves and others as a result of mental illness cannot be separately identified.

Average daily numbers of available beds open overnight and residential care beds in the mental illness sector for each of the last five years are shown in the table.

	Beds open overnight	*Residential care beds*
1998–99	35,692	1,364
1999–2000	34,173	1,299
2000–01	34,214	1,280
2001–02	32,783	1,193
2002–03	32,753	1,633

Mindnseek Website

Mr. Burstow: To ask the Secretary of State for Health if he will estimate the cost of the website www.mindnseek.net; and if he will make a statement. [144936]

Ms Rosie Winterton: It is not possible to give an estimated cost for the production of the 'Mindnseek' website as it was just one element of a broader online project with readthesigns.org, with a total cost of £70,000.

MRSA

Denzil Davies: To ask the Secretary of State for Health if he will publish guidelines setting out the circumstances in which general practitioners can record MRSA as a secondary cause of death. [144021]

Miss Melanie Johnson: Guidance is already available and general practitioners, hospital doctors and coroners should include methicillin-resistant staphylococcus aureus (MRSA), or any other condition that they believe contributed to death, on the certificate of cause of death. Instructions on how to complete this are at the front of

every book of certificates. Doctors are expected to complete the certificate to the best of their knowledge and belief. If the doctor believes that MRSA contributed to the death he or she should write it in the appropriate part of the certificate and doctors do include MRSA on death certificates.

National Institute for Clinical Excellence

Dr. Gibson: To ask the Secretary of State for Health (1) when the findings of the investigation into the implementation of National Institute for Clinical Excellence guidance being undertaken will be published; [144122]

(2) which organisations have been formally consulted as part of the investigation into the implementation of National Institute for Clinical Excellence guidance; [144123]

(3) what the scope of the investigation into the implementation of National Institute for Clinical Excellence guidance is; [144124]

(4) who is leading the investigation into the implementation of National Institute for Clinical Excellence guidance. [144125]

Miss Melanie Johnson: Professor Mike Richards, the National Cancer Director, is leading the investigation into the causes of the apparent variation in the uptake of cancer drugs approved by the National Institute for Clinical Excellence.

This work is at an early stage, but representatives from the national health service and pharmaceutical industry have already been consulted, together with the Cancer Taskforce, which includes representatives from the voluntary sector.

Findings are likely to be available in spring 2004.

Dr. Gibson: To ask the Secretary of State for Health if the Government will put in place tracking mechanisms to monitor the implementation of NICE guidance. [144126]

Ms Rosie Winterton: We see a key role for the Commission for Healthcare Audit and Inspection to monitor the implementation of National Institute for Clinical Excellence guidance during the course of its reviews of national health service bodies. Strategic health authorities monitor the performance of primary care trusts and are also in a position to access progress on the implementation of NICE guidance.

NHS Contracts

Mr. Burstow: To ask the Secretary of State for Health what contracts his Department has awarded to KBR; the value of the contracts; and if he will estimate the total fees to date. [144946]

Mr. Hutton: Following a formal competitive procurement exercise, Kellogg, Brown & Root (KBR) were awarded a contract to provide professional programme management and planning services to the national programme for information technology in the National Health Service. The total fees paid from March 2003 to date are £5.8 million.

Mr. Burstow: To ask the Secretary of State for Health what contracts have been awarded under the NHS National Programme for information technology. [144947]

Mr. Hutton: The national programme for information technology in the National Health Service focuses on the key developments that will make a significant difference to improving the patient experience and the delivery of care and services. There are four key deliverables: electronic appointment booking, an electronic care records service, an electronic prescribing service and an underpinning IT infrastructure. The following contracts have been awarded:

to British Telecom to set up and run the national NHS care records service, worth a total of £620 million over 10 years;

to Accenture as the local service provider (LSP) in the North East, worth a total of £1,099 million over 10 years;

to BT as the LSP for London, worth a total of £996 million over 10 years as the LSP in the North East and London clusters;

to SchlumbergerSema to provide core services for the national Electronic Booking System, valued at £64.5 million over five years.

The remaining three LSP contracts for the Southern, Eastern, North West and West Midlands clusters, and the national NHS network (N3) will be awarded in due course.

NHS Live

Chris Grayling: To ask the Secretary of State for Health if he will take steps to ensure that NHS Live 2004 is not used to communicate party political messages. [145221]

Mr. Hutton: NHS Live is a learning programme and event for national health service and social care staff, patients and stakeholders, designed to speed up the pace of healthcare improvement for patients. In line with other Department of Health corporate activity, NHS Live will not be party political.

Nurse Recruitment

Mr. Burstow: To ask the Secretary of State for Health how many international nurse recruitment agencies have failed to adhere to the code of practice on ethical recruitment; and how many such agencies NHS organisations have been instructed not to deal with. [144314]

Mr. Hutton: Of the agencies on the code of practice list, the Department has asked 17 agencies for further details of their recruitment activities to ensure that they are compliant with the code. To date, none has been removed from the list, as no breaches of the code have been identified.

Mr. Burstow: To ask the Secretary of State for Health if he will publish a list of nursing agencies which comply with the code of practice on ethical nursing recruitment. [144315]

Mr. Hutton: The Department has published a list of agencies which adhere to the code of practice on its website: www.doh.gov.uk/international-recruitment.

Mr. Burstow: To ask the Secretary of State for Health what the *(a)* salary and *(b)* support costs of his Department's Director of International Recruitment for Health Services are in 2003–04. [144316]

Mr. Hutton: The former Director of International Recruitment left the post on 30 April 2002, on completion of her secondment.

Mr. Burstow: To ask the Secretary of State for Health which countries have made written representations to his Department regarding recruitment of nurses; and if he will make a statement. [144317]

Mr. Hutton: The Government has nurse recruitment agreements with Spain, the Philippines, India and Indonesia. A Memorandum of Understanding has recently been signed with the Government of South Africa.

Nursing and Midwifery Council

Mr. Gardiner: To ask the Secretary of State for Health if he will publish advice given to the Nursing and Midwifery Council regarding *(a)* the title of Registered Health Visitor, *(b)* the Register of Health Visitors and *(c)* the Third Register. [144340]

Mr. Hutton: Consultation responses by the Department on parts of the Nursing and Midwifery Council register and the existence, function and title of the third part are available in the Library.

Osteoporosis

Sandra Gidley: To ask the Secretary of State for Health what estimates the Department has made of the potential savings to be made by preventing osteoporotic fractures. [145633]

Dr. Ladyman: The Department has made no estimate of the potential savings to be made by preventing osteoporotic fractures rather than treating them.

The National Institute for Clinical Excellence (NICE) have been asked to draw up clinical guidelines for the national health service on prevention and treatment of osteoporosis. The guideline will refer to the work, update and extend the evidence base of previously published guidelines and technology appraisals and those currently under development where appropriate, including NICE clinical guidelines on assessment and prevention of falls. NICE is also conducting an appraisal of the clinical effectiveness and cost effectiveness of prevention and treatment of osteoporosis treatments to give doctors the latest evidence based information on the most effective treatments.

Patients Forums

Mr. Burstow: To ask the Secretary of State for Health if he will list the budget for each patients forum, broken down by *(a)* staff and *(b)* non-staffing costs. [144809]

Ms Rosie Winterton: The Commission for Patient and Public Involvement in Health is resourced to support patients forums in England. It has contracted with not-for-profit voluntary sector organisations called forum support organisations to provide support services to patients forums. The details of those individual contracts are not available due to commercial confidentiality. The requirements for individual patients forums are agreed locally by each forum support organisation, taking into account the individual needs of that forum.

Mr. Burstow: To ask the Secretary of State for Health how many members each patients forum had at 1 December, broken down by *(a)* sex and *(b)* ethnicity. [144810]

Ms Rosie Winterton: At 1 December 2003 the Commission for Patient and Public Involvement in Health (CPPIH) had received over 5,000 applications from members of the public volunteering to become members of the 572 patients forums. Each forum requires seven members to operate and at 1 December 2003, 498 forums had seven or more volunteers.

The information requested broken down by sex and ethnicity is not currently available. However the CPPIH will be analysing the demographic profile of all patients forums as part of its work to ensure that forums reflect their local communities.

Perinatal Pathologists

Mr. Burstow: To ask the Secretary of State for Health if he will list the vacancy rates for perinatal pathologists in *(a)* England and *(b)* each region in each year since 1997. [144950]

Mr. Hutton: The Department of Health does not collect data on perinatal pathology. Perinatal pathology is a sub specialty of histopathology.

Pharmacy Services

Tim Loughton: To ask the Secretary of State for Health how many hospital trusts have antibiotic pharmacists in post; and what the cost is in each case. [145044]

Mr. Hutton: The information requested is not collected centrally.

Brian Cotter: To ask the Secretary of State for Health on what basis it was decided that a threshold of 15,000 square metres should be used to determine which shopping developments should be exempt from full entry requirements in relation to his Department's proposals for the deregulation of pharmacy services. [145228]

Ms Rosie Winterton: The object in choosing shopping developments of 15,000 square metres or more was to include developments which currently attract many consumers but which may have limited retail pharmacy provision.

If a development provides relatively self-contained facilities (that is, shoppers visit retail outlets in that development but tend not to venture into adjacent local neighbourhoods) the current Regulations impose restrictions on competition and access to national health service services by people choosing to visit the development.

Exempting such pharmacies will offer the prospect of immediate improvements in access to pharmaceutical services at a time and place which patients and consumers choose with the impact—if any—on existing pharmacies diluted over a wide geographic area.

The consultation document, 'Proposals to Reform and Modernise the NHS (Pharmaceutical Services) Regulations 1992', was published on 29 August 2003, with the consultation period running until 21 November

2003. An advisory group has been set up to consider how best to implement the reforms. The group is currently reviewing the responses to the consultation and is due to report to Ministers shortly.

Pneumococcal Conjugate Vaccine

Sandra Osborne: To ask the Secretary of State for Health (1) when the Joint Committee of Vaccination and Immunisation will meet *(a)* to review the clinical trials and *(b)* to decide on a policy on whether to include the pneumococcal conjugate vaccine into the childhood immunisation programme; [142971]

(2) what assessment he has made of the effect on incidences of disease in adults in the USA of routine infant pneumococcal immunisation; and what plans he has for such routine immunisation. [142975]

Miss Melanie Johnson: The clinical trials are assessing:

the level of protection that the vaccine offers infants in the United Kingdom;

the optimal schedule of this vaccine in infants;

whether there is a need for a booster dose of vaccine in the second year of life to maintain protection; and the impact that introducing this vaccine to the childhood schedule has on the level of protection given by the other vaccines.

The Joint Committee on Vaccination and Immunisation (JCVI) will meet to review the clinical trials as soon as they have been completed.

The independent expert advisory body, the JCVI, is currently examining the evidence of the potential benefits of introducing pneumococcal conjugate vaccine to the infant immunisation schedule. What is clear is that there are many uncertainties in the evidence, in particular in measuring the burden of pneumococcal disease, and the amount of disease that is expected to be prevented by a vaccine in both the short and longer term because it protects against only seven of the numerous strains of pneumococcus.

Research is being undertaken to try to answer the questions, and the JCVI is assessing the evidence as it develops.

Encouraging data is emerging from the United States on the impact the conjugate vaccine has had on reducing pneumococcal disease both in the children immunised and also in adults. The JCVI is assessing the evidence as it develops.

Dr. Tonge: To ask the Secretary of State for Health what assessment he has made of the comparative costs of *(a)* vaccinating children against pneumococcal disease and *(b)* treating the disease and its complications. [143019]

Miss Melanie Johnson: Studies are in place to assess the cost effectiveness of introducing pneumococcal vaccine into the childhood immunisation schedule by investigating the burden of pneumococcal disease in the United Kingdom and how much of this is vaccine preventable. The ongoing studies take into account the cost of treating the disease and its complications.

What is clear is that there are many uncertainties in the evidence, in particular in measuring the burden of pneumococcal disease, and in the amount of disease that is expected to be prevented by a vaccine in both the short and longer term because it protects against only seven of the numerous strains of pneumococcus.

Prescriptions

Tim Loughton: To ask the Secretary of State for Health what the average cost of NHS prescriptions has been in each of the last six years; and how much of this was recouped by prescription charges. [144143]

Ms Rosie Winterton: The available information is shown in the tables.

Number of prescription items, Net Ingredient Cost (NIC), and average NIC per item of all drugs dispensed in the community in England, 1997–98 to 2002–03

	Number of prescription items (millions)	Net Ingredient Cost (£ millions)	Average NIC per item (£)
1997–98	504.57	4,464.86	8.85
1998–99	516.34	4,799.46	9.30
1999–2000	534.12	5,435.18	10.18
2000–01	561.37	5,651.31	10.07
2001–02	591.87	6,281.07	10.61
2002–03	624.38	7,018.56	11.24

Income from prescription charges, England, 1997–98 to 2002–03

	£ million
1997–98	320.9
1998–99	341.3
1999–2000	366.7
2000–01	388.7
2001–02	407.5
2002–03	423.0

Tim Loughton: To ask the Secretary of State for Health how many *(a)* free and *(b)* chargeable NHS prescriptions have been given in each of the last six years. [144150]

Ms Rosie Winterton: The available information is shown in the tables.

Number of prescription items of all drugs dispensed in the community in England, 1997–98 to 2002–03 (million)

	Community pharmacists and appliance contractors only		
	Total charged	Total exempt	Total
1997–98	67	392	458.49
1998–99	68	402	469.80
1999–2000	73	413	485.84
2000–01	76	434	509.40
2001–02	79	459	537.64
2002–03	81	486	567.42

All dispensed items (community pharmacists and appliance contractors, and dispensing doctors) (million)

	Total charged	Total exempt	Total
2001–02	86	506	591.87
2002–03	89	535	624.38

Notes:
1. Total charged includes 'charge at point of dispensing' and 'prepayment certificates'.
2. Total exempt includes 'exempt and NHS Low Income Scheme', 'no charge contraceptives' and 'personally administered' drugs.

Mr. Burstow: To ask the Secretary of State for Health what protocols written by his Department govern incentives received by *(a)* general practitioners and *(b)* other prescribing staff to prescribe certain prescriptions; how compliance with these protocols is monitored; and if he will make a statement. [144939]

Ms Rosie Winterton: Primary care trusts (PCTs) in England may run prescribing incentive schemes to encourage the quality and cost-effectiveness of prescribing in general practice. Incentive payments generated through such schemes should be used for the benefit of the patients.

We expect PCTs to develop protocols to suit local circumstances and to monitor their effectiveness.

Prisoners

Julie Morgan: To ask the Secretary of State for Health what responsibility the Commission for Health Improvement has for *(a)* prisoners' and *(b)* ex-offenders' health care. [144070]

Mr. Hutton: The Commission for Health Improvement is responsible for conducting reviews and investigations of health care for which national health service bodies or service providers have responsibility. This responsibility encompasses the review or investigation of health services for prisoners where these are commissioned or provided by primary care trusts.

Julie Morgan: To ask the Secretary of State for Health whether the NHS primary care and hospital treatments complaints procedure extends to health care provided in prison. [144521]

Ms Rosie Winterton: The national health service complaints procedure does not currently extend to health care provided in prison. However, with the forthcoming transfer of prison health commissioning responsibility from the Prison Service to the NHS, prisoners will have access to the NHS complaints process where services are commissioned by the NHS.

Julie Morgan: To ask the Secretary of State for Health whether targets for follow-up treatment for mental health patients extend to women with histories of self-harm leaving custody. [144538]

Ms Rosie Winterton: The "National Confidential Inquiry into Suicide and Homicide by People with Mental Illness" recommended that all discharged in-patients who have severe mental illness or a recent history of deliberate self-harm should be followed up within one week.

This recommendation applies to people in prison who have been receiving care from specialist mental health services for any mental health problem, including self-harm.

Sandra Gidley: To ask the Secretary of State for Health if he will make a statement on the services he makes available to prisoners aged over 65 years. [145631]

Dr. Ladyman: All prisons and their local national health service partners undertake regular joint assessments of prisoners' health needs and are responsible for providing, through local delivery plans, any additional services that may be required to meet unmet need identified during the assessment process.

The Department of Health and the Home Office have commissioned, for completion in spring 2004, a health strategy for older prisoners. This will include recommendations on the location and type of residential accommodation needed by older prisoners, the nature of the prison regime, and individual healthcare planning and throughcare arrangements. It will also identify the core principles that should apply to the management of older prisoners throughout their period in custody, including the transfer to residential or nursing homes of prisoners with degenerative diseases.

Psychiatrists

Mr. Burstow: To ask the Secretary of State for Health if he will list the *(a)* rate and *(b)* number of vacancies for consultant psychiatrists in (i) England and (ii) each strategic health authority in each of the last six years. [144291]

Mr. Hutton: The information requested has been placed in the Library. Vacancy rates have only been collected by the Department since March 1999. For March 1999 to 2000 data was collected for the whole psychiatry group only. From 2001 to 2003, data is available by psychiatric speciality. These data have been provided by health authority and regional office from 1999 to 2001 and by strategic health authority and Government office from March 2002.

School Nurses

Mr. Burstow: To ask the Secretary of State for Health if he will list for each *(a)* strategic health authority and *(b)* primary care trust the number of school nurses in each year since 1996. [144787]

Mr. Hutton: The information requested is not collected centrally.

Mr. Burstow: To ask the Secretary of State for Health if he will list for each *(a)* strategic health authority and *(b)* primary care trust the three month vacancy figures for school nurses in each year since 1996. [144788]

Tim Loughton: To ask the Secretary of State for Health how many school nurses are employed in each primary care trust. [145022]

Mr. Hutton: To date, information on the three month vacancy rate and the number of school nurses has not been collected centrally.

This information will be available in the future. The September 2003 census and the March 2004 Vacancy Survey will include data on school nurses.

Security Passes

Mr. Burstow: To ask the Secretary of State for Health how many security passes have been reported *(a)* lost and *(b)* stolen by staff in his Department in the last 12 months. [144593]

Ms Rosie Winterton: From the records available, we estimate that about 110 Department of Health headquarters building photo passes have been lost or stolen in the period 17 October to 16 December 2003.

Skin Cancer

Mr. Baron: To ask the Secretary of State for Health (1) what plans he has to promote a long-term public health education programme on how to reduce the risk of skin cancer; [145142]

(2) what assessment his Department has made of the benefits of the SunSmart Campaign; and whether further funding will be provided to continue the campaign. [145143]

Miss Melanie Johnson: For details of the SunSmart campaign and wider plans to increase the profile of skin cancer and methods of effective sun protection I refer the hon. Member to the reply I gave my hon. Friend the Member for Tamworth (Brian Jenkins) on 9 December 2003, *Official Report*, columns 371–72W.

The effectiveness of the SunSmart campaign is being evaluated. The lessons learnt will be fed into future development of the campaign and will inform decisions on funding.

Smallpox Vaccination

Mr. Burstow: To ask the Secretary of State for Health how many people *(a)* the Department would like to see vaccinated and *(b)* have so far been vaccinated against smallpox as part of the Government's plans; and if he will make a statement. [144942]

Mr. Hutton: I refer the hon. Member to the written statement of 15 December 2003, *Official Report*, column 125WS. The smallpox plan requires that each standard Government region should have a regional response group, consisting of five response teams, each comprised of five members. In England, this requires 261 people to be vaccinated. That target has been reached and exceeded. In addition, a target of 90 ambulance staff to be vaccinated has been set for England.

Smoking

Keith Vaz: To ask the Secretary of State for Health what his policy is on banning smoking in public places; and what plans he has to propose legislation on this topic. [143720]

Miss Melanie Johnson: The Government has consistently said that smoke-free places are the ideal. We have also said that we do not think a universal ban on smoking in all public places is justified while we can make fast and substantial progress in partnership with industry. Over the years we have seen real increases in smoke-free workplaces. In 1996, 40 per cent. of people reported their workplace as being completely smoke-free. The latest figures for 2002 show this has risen to 50 per cent. We look forward to faster and more substantial progress from employers and businesses.

Speech and Language Therapists

Mr. David Stewart: To ask the Secretary of State for Health what the ratio of speech and language therapists to the population was in England in each year since 1993. [144542]

Mr. Hutton: Information on the number of qualified speech and language therapists per 100,000 population is shown in the table. Between 1997 and 2002, the headcount ratio has increased from 10 to 12.

NHS Qualified scientific, therapeutic and technical staff within the speech and language therapy area of work and rate per 100,000 of the population, 1993–2002

	staff inpost		*rate per 100,000 of population*	
	Whole-time Equivalent	*headcount*	*whole-time equivalent*	*headcount*
2002	4,365	5,960	9	12
2001	4,207	5,685	9	12
2000	4,066	5,430	8	11
1999	3,939	5,185	8	11
1998	3,831	5,031	8	10
1997	3,742	4,871	8	10
1996	3,585	4,705	7	10
1995	3,354	4,335	7	9
1994	3,344	4,076	7	8
1993	3,469	4,201	7	9

Notes:
Figures are rounded to the nearest whole number

Department of Health Non-Medical Workforce Census
ONS Population Census

Suicide

Dr. Kumar: To ask the Secretary of State for Health if he will make a statement on the national suicide prevention strategy. [144760]

Ms Rosie Winterton: The National Institute for Mental Health in England (NIMHE) published the first annual report of its suicide prevention programme on 11 December 2003. It sets out progress made so far and further action that needs to be taken in the medium and longer term. The report incorporates suicide rates for the year 2002, the most recent available, which show that the number of suicides is at the lowest rate recorded. An electronic version of the report is available at http://www.nimhe.org.uk/downloads/78129-DoH-SuicidePrevention.pdf. A copy of the report is available in the Library.

Tinnitus

Mr. Todd: To ask the Secretary of State for Health if he will list research projects on tinnitus funded by his Department in the last 10 years; and if he will make a statement. [144029]

Ms Rosie Winterton: Details of research projects on tinnitus funded by, or of interest to, the national health service are available on the national research register (NRR) at www.doh.gov.uk/research/nrr.htm. The NRR currently contains details of six on-going and 26 completed projects on tinnitus.

The Medical Research Council (MRC) funds research on hearing, some of which would be relevant to tinnitus. Figures for MRC spend on hearing research are available for the years shown in the table:

	£ million
2001–02	3.94
2000–01	4.96
1999–2000	3.34
1998–99	3.49
1997–98	3.23

The MRC always welcomes high quality applications from the scientific community for support for research into any aspect of human health, including tinnitus, and these are judged in open competition with other demands on funding.

Transplants

Mr. Kevin Hughes: To ask the Secretary of State for Health how he intends primary care trusts to use the guidance set out in the Transplant Framework for England, Saving Lives, Valuing Donors, to tackle organ donation among ethnic minorities. [144894]

Ms Rosie Winterton: The Department continues to explore concerns about the relatively low rate of organ donation with ethnic minority communities. The South Asian Campaign was launched in February 1999 specifically to raise awareness within the South Asian community which is prone to kidney disease. A campaign launched in 2002 is targeting the black community, which has similar problems. The Department also funded the National Kidney Research Fund to explore methods of raising awareness in local ethnic minority communities. Primary care trusts will be able to build on these programmes to develop and monitor local initiatives.

Mr. Jim Cunningham: To ask the Secretary of State for Health what changes have been made to transplant services since 2001. [145425]

Ms Rosie Winterton: Since 2001 the Department has provided around £7 million via UK Transplant to boost organ donation through the employment of

35 donor liaison nurses working with staff in critical units to help identify potential donors;

23 living donor co-ordinators working with families considering live donation;

10 non-heartbeating programmes to increase the number of organs from non-heartbeating donors.

The number of transplants taking place since 2001 has increased. In 2002–03 the changes led to 6 per cent. more kidney transplants; 6 per cent. more liver transplants; 12 per cent. more cornea transplants; and 5 per cent. more thoracic transplants.

But it is not only Government which saves lives through transplantation. "Saving Lives, Valuing Donors"—A Transplant Framework for England, published on 7 July 2003, identifies the part the Government, individuals, the national health service and other stakeholders can play in:

encouraging people to donate organs and tissues;

raising the quality and effectiveness of transplant services;

improving the clinical outcomes and quality of life of people who receive an organ or tissue transplant;

increasing the supply of viable organs and tissues for transplantation.

Mr. Jim Cunningham: To ask the Secretary of State for Health if he will take steps to ensure there is a transplant co-ordinator in every hospital. [145426]

Ms Rosie Winterton: All hospitals with transplant services have recipient transplant co-ordinators in post to care for those patients who receive transplants.

In addition, there are currently 100 donor co-ordinators based in 21 teams across the United Kingdom and there are 35 donor liaison nurses who are part of the donor co-ordinator team based in intensive care units.

West Sussex Social Care NHS Trust

Tim Loughton: To ask the Secretary of State for Health how much has been spent by the West Sussex Social Care NHS trust on funding nurses to travel to Australia; and what the purpose of their visits was. [145006]

Ms Rosie Winterton: In line with our policy on "Shifting the Balance of Power", responsibility for local services now rests with local national health service trusts. In the same way continuing professional development and post-registration training needs for all NHS health care staff are determined locally through skills auditing of teams against priority local needs and through the appraisal process.

I am informed by the Surrey and Sussex Strategic Health Authority that two senior nurses attended the 14th International Symposium for the Psychological Treatment of Schizophrenia in Melbourne to present a paper on early intervention into psychosis, and to acquire and share knowledge and good practice.

In addition to the conference itself there were also visits to assertive outreach and early intervention services.

The hotel bills and airfare came to £3,000 and were purchased through Hourds who are on the national contract. There were also subsistence expenses of around £200 each.

Working Time Directive

Mr. Evans: To ask the Secretary of State for Health what assessment has been made of the overtime needed in each NHS trust arising from the implementation of the Working Time Directive. [141404]

Mr. Hutton: The organisation and delivery of services is a matter for individual trusts. The national health service has been aware of the implications of implementing the Working Time Directive for doctors in training since 1998, and planning for it forms part of overall NHS planning.

Strategic health authorities are currently ensuring that plans will achieve compliance by 2004.

Gregory Barker: To ask the Secretary of State for Health what estimate he has made of the cost of implementing the EU working time directive for each *(a)* NHS hospital trust and *(b)* primary care trust in England. [142394]

Mr. Hutton: I refer the hon. Member to the reply I gave the hon. Member for Ribble Valley (Mr. Evans) on 15 December 2003, *Official Report*, column 790W.

Wigs

Mr. George Osborne: To ask the Secretary of State for Health what plans he has to end payments for wigs for chemotherapy patients in England. [145149]

Ms Rosie Winterton: Our policy is to give priority to helping people who may have difficulty in paying charges, rather than extending the exemption arrangements. We have no plans to change the current charging arrangements. However, people receiving certain benefits or tax credits do not have to pay. Those who would otherwise have to pay may seek help through the National Health Service Low Income Scheme.

Written Answers to Questions

Tuesday 6 January 2004

TRANSPORT

Bus Services

12. **Mr. Don Foster:** To ask the Secretary of State for Transport if he will make a statement on the role of his Department in the dissemination of best practice on bus services. [145876]

Mr. McNulty: The Department for Transport plays an active role in disseminating good practice in the bus sector, both alone and in partnership with other stakeholders in the industry and local authorities. Recent examples include a "Good Practice Guide on rural bus service provision" and revised guidance on "Protecting Bus and Coach Crews".

Transport Schemes

13. **Paul Farrelly:** To ask the Secretary of State for Transport what assistance his Department gives to local government in respect of formulating bids for *(a)* light rail and *(b)* other transport schemes. [145877]

Mr. McNulty: We are always happy to discuss with local authorities, without prejudice, emerging proposals for light rail and other local transport schemes, and to explain what information will be required to support any bids for funding. A manual of guidance on our appraisal methodology is also available.

Speed Cameras

14. **Mr. Flook:** To ask the Secretary of State for Transport if he will make a statement about the *(a)* amount of and *(b)* uses of revenue from speed cameras. [145878]

Mr. Jamieson: The latest audited figures are for the year 2000–01, in which £8.6 million of speeding fine receipts was passed to seven safety camera partnerships, and for 2001–02 in which £11.4 million was passed to 14 safety camera partnerships in England and Wales. In those two years £1.2 million and £4.3 million respectively, was returned to the Treasury.

Mr. Baron: To ask the Secretary of State for Transport how much money raised in fines from speed cameras during the last year for which records are available was spent in *(a)* Billericay and District, *(b)* Basildon and District and *(c)* Essex; and how that money was spent. [145792]

Mr. Jamieson: In 2001–02 the Essex Safety Camera Partnership claimed £3,003,763 to cover the costs of purchasing and operating cameras in their area which includes Billericay and Basildon, for which separate figures are not available.

Mr. Baron: To ask the Secretary of State for Transport how much money was raised in fines from speed cameras in the last year for which records are available in *(a)* Billericay and District, *(b)* Basildon and District and *(c)* Essex. [145793]

Mr. Jamieson: In 2001–02 £3,524,120 in conditional offer fixed penalties was collected by the Essex Safety Camera Partnership which includes Billericay and Basildon, for which separate figures are not available.

Mr. Baron: To ask the Secretary of State for Transport how many speed cameras *(a)* there are and *(b)* there have been in each of the last five years in (i) Billericay and District, (ii) Basildon and District and (iii) Essex [145794]

Mr. Jamieson: The Essex Safety Camera Partnership covers all of Essex and includes Billericay and Basildon. The number of fixed camera sites are shown in the following table.

	Fixed camera added	*Total sites*
Pre-1999	20	20
1999	8	28
2000	0	28
2001	28	56
2002	9	65
2003	17	82

In addition, six mobile camera units work at approximately 300 locations in Essex.

School Transport

15. **Mr. Simon Thomas:** To ask the Secretary of State for Transport what recent representations he has received on making the wearing of seat belts on school transport compulsory. [145879]

Mr. Jamieson: None. The Department is however in the process of implementing EU Directive 2003/20/EU of 8 April 2003 on seat belt wearing. This requires the wearing of seat belts by passengers in buses and coaches where they are installed.

Train Punctuality

16. **Mr. Cameron:** To ask the Secretary of State for Transport if he will make a statement on the latest statistics on train punctuality. [145380]

Mr. McNulty: Performance figures published by the Strategic Rail Authority on 11 December showed that year on year performance was up 0.5 per cent. to the end of September 2003. We are putting in funding to reverse the decades of under-investment and improve reliability. Early indications are that performance this autumn has been significantly better than in 2002.

A303

17. **Mr. Liddell-Grainger:** To ask the Secretary of State for Transport if he will make a statement on the dualling of the A303. [145881]

Mr. Jamieson: We are hoping to reach a decision on the route choice for the A303 improvement west of Ilminster in the spring after we have received the comments of the Regional Assembly on the Highways Agency's further work.

Airport Capacity (South-East)

18. **Tim Loughton:** To ask the Secretary of State for Transport to what extent he proposes details of development at airports in the south-east of England under "The Future of Air Transport" White Paper should remain a matter of local determination through the planning system. [145882]

Mr. McNulty: I refer the hon. Member to the Aviation White Paper which says that it is for owners and operators to bring forward airport development proposals which will need to be considered through the planning system in the normal way.

Cycling

19. **Mrs. Calton:** To ask the Secretary of State for Transport if he will make a statement on his Department's strategy for *(a)* increasing cycling journey numbers and *(b)* reducing cycling injuries and deaths. [145883]

Mr. McNulty: We are improving cycling infrastructure and, having initiated the Cycling Projects Fund, we have given over £4 million for local cycling facilities and training. On the safety front, we are promoting training and measures which cyclists can take to protect themselves, such making themselves conspicuous. We are also improving training and testing for motorists.

Aviation Industry

Mr. Challen: To ask the Secretary of State for Transport what assessment has been made of varying levels of aviation capacity on the competitiveness of the UK's international trade. [145736]

Mr. McNulty: Assessments of the impact of the growth in the aviation industry in increasing productivity growth across the economy were made by Oxford Economic Forecasting ("The Contribution of the Aviation Industry to the UK Economy", November 1999). However, the appraisal of airport development options made in the regional air transport consultation documents focus on the direct benefits to passengers of increased airport capacity. No estimates were made of wider economic benefits to the economy arising from factors such as improvements in the UK's competitiveness, but the potential effect of additional airport capacity on productivity across the economy can be gauged from the resulting increase in business passengers and air freight activity.

Mr. Challen: To ask the Secretary of State for Transport what assessment has been made of the effects of the growth in aviation-related employment on other employment sectors. [145737]

Mr. McNulty: Assessments of the contribution of aviation to employment growth in other sectors of the economy have been undertaken by Oxford Economic Forecasting ("The Contribution of the Aviation Industry to the UK Economy", November 1999) and by ECOTEC Research and Consulting Ltd. ("The Local and Regional Economic Impacts of the Expansion of Regional Air Services", January 2001). "The Future Development of Air Transport in the United Kingdom: North of England" consultation document included material from these studies on aviation-related employment.

Birmingham New Street Station

Mr. Laurence Robertson: To ask the Secretary of State for Transport (1) what discussions he has had with the Strategic Rail Authority regarding possible refurbishment of Birmingham New Street Station; and if he will make a statement; [145377]

(2) what discussions he has had with Network Rail regarding possible closures of Birmingham New Street Station during peak times; and if he will make a statement. [145378]

Mr. McNulty: I understand that in the short term, Network Rail is developing a plan to continue to manage passenger capacity efficiently while improving passenger circulation at Birmingham New Street. The Strategic Rail Authority and Network Rail are also working together and with local and regional stakeholders to continue the safe and efficient operation of the station, and to develop a series of station capacity and infrastructure enhancements to improve its environment. This will ensure that the predicted substantial growth in demand for rail services in the region in the medium to longer term can be addressed.

Bristol/Bath to South Coast Study

Dr. Murrison: To ask the Secretary of State for Transport if he will make a statement on the reasons for the delay in completing the Bristol/Bath to South Coast Study; and what estimate he has made of the likely completion date. [145226]

Mr. McNulty: The study, which was commissioned to address the concerns of Bath and North East Somerset Council and the South West Regional Assembly over the proposed de-trunking of the A36/A46, has been further delayed because it has taken longer than anticipated for the consultants to complete the modelling and firm up their conclusions. It is now anticipated that the revised Final Reports will be cleared by the Steering Group by late January 2004. Once approved, they will be submitted to the South West Regional Assembly for comment and possibly additional brief consultation with their partners, in particular regarding the de-trunking issue which gave rise to the study being commissioned.

Following receipt of the study report and comments from the Regional Assembly, I will be in a position to make a response.

Congestion Charging

Richard Ottaway: To ask the Secretary of State for Transport if he will make a statement on the use of satellite technology for congestion charging. [145381]

Mr. Jamieson: My right hon. Friend the Secretary of State for Transport made a statement to the House on 9 July 2003, *Official Report*, columns 1175–95, announcing a feasibility study into the potential for road charging in the UK, which is expected to report this summer. The Terms of Reference were published on 9 July in "Managing our Roads", which is available on my Department's website.

Heathrow Airport

Dr. Tonge: To ask the Secretary of State for Transport what assessment his Department made of the need to widen major roads into and out of Heathrow, in the event of a third runway at Heathrow being built. [145447]

Mr. McNulty: The South East and East of England Regional Air Services Study (SERAS) included an assessment of the road and rail infrastructure enhancements that would be needed to support a third runway at Heathrow. The results of this appraisal were summarised in Chapter 7 of "The Future Development of Air Transport in the United Kingdom: South East" consultation document.

The White Paper, "The Future of Air Transport", recognised that the further expansion of Heathrow will place pressure on already congested road and rail networks. It stated that the Government have no plans for further motorway widening in this area beyond that which we announced in our response to the Thames Valley and Orbit multi-modal studies in July 2003, and that the solution would need to be based on improvements to public transport.

North Downs Tunnel

Jonathan Shaw: To ask the Secretary of State for Transport what the thickness was of the invert of the North Downs Tunnel approved by the Channel Tunnel Rail Link Act 1996; and what change there has been in the specification. [145977]

Mr. McNulty: The Channel Tunnel Rail Link Act 1996 contains no specifications of the tunnel lining thickness. The specifications relating to such details in the North Downs Tunnel were first drawn up later. The tunnel has a concrete lining with a relatively flat invert and reinforced concrete base slab, which supports the ballasted track. The concrete is about 1 metre thick in the invert and the average ballast thickness is 600 mm.

Railways (Disabled Access)

Mr. Norman: To ask the Secretary of State for Transport what recent representations he has received from the Strategic Rail Authority concerning the ability of railway stations to conform to the requirements of the Disability Discrimination Act 1995. [145089]

Mr. McNulty: The SRA is considering how best to prioritise a programme of works to meet the accessibility requirements of the Disability Discrimination Act and will be consulting on draft criteria this year.

Mr. Wiggin: To ask the Secretary of State for Transport what assessment he has made of whether the Strategic Rail Authority will be liable for prosecution if railways do not have disabled access by the required date in 2004. [145403]

Mr. McNulty: With effect from 1 October 2004, providers of services will be under new duties to take reasonable steps to ensure that a disabled person can make use of a service, pursuant to section 21(2)(a)-(c) of the Disability Discrimination Act 1995.

Section 19(2)(b) of the Act defines a provider of services as being a person concerned with the provision in the United Kingdom of services to the public or a section of the public. Interpretation is a matter for the courts, but the Strategic Rail Authority's assessment is that the section 21 duties will apply to train operating companies that lease stations, and to Network Rail in respect of the stations it operates itself.

The SRA is working with the rail industry and disabled people to ensure a more accessible transport network, with the greatest possible choice for disabled people within the available resources.

Road Crossings

Mr. Laurence Robertson: To ask the Secretary of State for Transport what guidance he has recently issued to local authorities on the number of road crossings to help people who are *(a)* disabled and *(b)* partially sighted; and if he will make a statement. [145379]

Mr. McNulty: Local Transport Notes 1/95 and 2/95 cover the general assessment and design of road crossings, respectively. The latter includes guidance on installing audible and tactile signals to help disabled pedestrians at signalled crossings. In addition, we have issued specific guidance on meeting the needs of disabled people, including blind and partially sighted people, in "Guidance on the Use of Tactile Surfaces" (1999) and "Inclusive Mobility" (2002).

Traffic Calming

Mr. Steen: To ask the Secretary of State for Transport how many deaths he estimates have resulted from delay caused by speed humps and traffic calming preventing the emergency services reaching emergency incidents since 2000. [145822]

Mr. Jamieson: The Department has received no evidence that speed humps cause additional deaths.

Transport Infrastructure (South Bedfordshire)

Andrew Selous: To ask the Secretary of State for Transport what assessment he has made of the impact of planned future house building on the transport infrastructure of South Bedfordshire. [145873]

Mr. McNulty: The London to South Midlands Multi-Modal Study took account of the likely scale of growth that is now proposed in the Milton Keynes South Midlands draft strategy. Following the multi-modal study we were able to add three major schemes which serve South Bedfordshire to the Targeted Programme of Improvements.

CABINET OFFICE

Government Information and Communication Service

25. **Norman Baker**: To ask the Minister for the Cabinet Office how much has been allocated this financial year to the Government Information and Communication Service. [145861]

Mr. Alexander: Mr. Speaker, the budget for the Government Information and Communication Service Centre in the Cabinet Office for the current financial year is £2,458,395.

Members of the GICS as a whole are employed and their work funded by individual Departments. The overall figures are not collected centrally.

Better Regulation

26. **Mrs. Gillan:** To ask the Minister for the Cabinet Office how many personnel are working on the better regulation brief in the department. [145862]

Mr. Alexander: The Regulatory Impact Unit leads on the better regulation agenda in my Department. The unit had 58 full-time equivalent staff as at December 2003.

Internet Use

Mr. Stephen O'Brien: To ask the Minister for the Cabinet Office what proportion of internet users have transacted with a government department online in each year since 1997; and what steps are being taken to increase this proportion. [146132]

Mr. Alexander: The Office for National Statistics (ONS) measures the use of e-government services on a quarterly basis. Currently 8 per cent. of internet users claim to have transacted with government online, where transaction is defined as submitting a form, making a payment or booking an appointment. Many more visit web sites for information—50 per cent. of the internet population. These figures are based on a question recently added to the ONS Omnibus Survey and data exists for 2003 only.

To improve the take-up of online services the Cabinet Office is working with departments to ensure that online services become more focussed around customer needs rather than following the structure of government. An enhanced customer offering for the delivery of electronic services will also be piloted which will present, service information in a consistent useable way clustered around topics and audience groups.

Correspondence

Mr. Barnes: To ask the Minister for the Cabinet Office when he will respond to the correspondence to his Department containing the Tim Parry Jonathan Ball Trust's Legacy Project study. [144453]

Mr. Alexander: I have written to the organisation concerned today.

I responded to the Tim Parry Jonathan Ball Trust on 30 December 2003.

Public Appointments

27. **Ian Stewart:** To ask the Minister for the Cabinet Office what steps the Government take to ensure that people appointed to public bodies are representative of the society that they serve. [145863]

Mr. Alexander: This Government want boards of public bodies to be representative of society as a whole. On 17 December, we published Delivering Diversity in Public Appointments 2003. This outlines the Government's commitment to achieving greater diversity in public appointments. It includes action plans for individual Departments, together with targets to be achieved by 2006.

Mr. Andrew Turner: To ask the Minister for the Cabinet Office, if he will list vacancies for posts on public bodies which have been advertised since 2001, indicating in such case the number of *(a)* posts, *(b)* applicants, *(c)* persons interviewed and *(d)* appointments made. [145277]

Mr. Alexander: This information is not held centrally. Individual departments are responsible for making appointments to their own public bodies.

The Government is committed to ensuring greater access to public appointments. A new public appointments vacancy web-site (www.publicappts-vacs.gov.uk) was launched by my Department on 27 March 2003. This provides information about current and forthcoming vacancies, helping people to find details of the appointments that are of most interest to them.

Public Bodies

Andrew George: To ask the Minister for the Cabinet Office if he will list all regional *(a)* advisory non-departmental public bodies, *(b)* executive non-departmental public bodies and *(c)* other autonomous public bodies, identifying those which are related to health, broken down by region; if he will indicate those which have been created since 1 May 1997; and if he will list those bodies which have been (i) abolished since 1 May 1997 and (ii) abolished but whose functions have been transferred to other public bodies. [145955]

Mr. Alexander: Information about non-departmental public bodies is contained in "Public Bodies 2003", and previous years' editions, copies of which are available in the House Libraries, and on the Cabinet Office website at http://www.cabinet-office.gov.uk/agencies-publicbodies/publicbodies/index.shtm

The information is not broken down to regional level, nor are creation or abolition dates of bodies separately identified. This level of detail could be provided only at disproportionate expense. Public bodies related to health are primarily listed in the entry for the Department of Health, though some public bodies attached to other Departments (e.g. the Department for Environment, Food and Rural Affairs) also deal with health-related issues.

TREASURY

Correspondence

David Winnick: To ask the Chancellor of the Exchequer when he will reply to the letter of 11 November from the

hon. Member for Walsall, North concerning the statement by members of the Royal Commission on Long Term Care. [144854]

Mr. Boateng: I have done so.

Departmental Policies (Regent's Park and Kensington, North)

Ms Buck: To ask the Chancellor of the Exchequer if he will make a statement on the impact of his policies on the constituency of Regent's Park and Kensington, North since 1997. [145421]

Mr. Boateng: Over the past five years, the Government have built a platform of economic stability and sound management of public finances, delivering benefits across the UK, including in London and the constituency of Regent's Park and Kensington North.

The UK is now enjoying the longest period of sustained low inflation since the 1960s, with long-term interest rates around their lowest levels since that time. Since spring 1997, employment has increased by almost 1.7 million, and public investment increases, including the biggest ever sustained growth in the history of the NHS, are tackling the legacy of under-investment in public services.

Employment Incentives

Mr. David Stewart: To ask the Chancellor of the Exchequer if he will make an assessment of *(a)* provision for young, single, working adults on low incomes and *(b)* incentives for those aged under 25 to move off benefits into employment. [144534]

Dawn Primarolo: To help young people move off benefits and into employment, the Government have introduced the New Deal for Young People, increased financial incentives to work through the National Minimum Wage and the reduction in the starting rate of income tax from 20 per cent. to 10 per cent. and improved opportunities to participate in training and education, for example through the Modern Apprenticeships scheme.

Forward Contracts

Mr. Austin Mitchell: To ask the Chancellor of the Exchequer how many forward contracts have been granted to individuals and corporations *(a)* domiciled and *(b)* non-domiciled in the UK. [142719]

Dawn Primarolo: The Inland Revenue have identified 17 cases where forward contracts have been granted. In two instances the agreements related to individuals or companies domiciled in the UK; the other 15 cases related to individuals or companies non-domiciled in the UK.

The Inland Revenue no longer make these agreements.

Growth

Bob Spink: To ask the Chancellor of the Exchequer what proportion of the increase in forecast growth he estimates results from increases in public spending for each of the next three years. [145162]

Mr. Boateng: Table A4, on page 182 of pre-Budget report 2003 (Cm 6042), presents information on the contributions to forecast GDP growth from expenditure components, including government spending, between 2003 and 2006.

IR35

Mr. Prisk: To ask the Chancellor of the Exchequer what additional revenue has been secured from investigations under the IR35 regulation *(a)* in total and *(b)* for each year since its implementation. [145747]

Dawn Primarolo: Establishing whether or not the intermediaries legislation applies is undertaken as part of the Inland Revenue's Employer Compliance Review programme. As such it is not possible with any accuracy to isolate data relating solely to this legislation.

Mr. Prisk: To ask the Chancellor of the Exchequer what estimate has been made of the *(a)* administration and *(b)* employment costs arising from pursuing investigations under IR35 regulation. [145748]

Dawn Primarolo: There is no data held on administration and employment costs relating solely to this legislation.

Mr. Prisk: To ask the Chancellor of the Exchequer how many investigations under the IR35 regulation have *(a)* been initiated, *(b)* resulted in additional revenue and *(c)* been concluded without securing additional revenue. [145749]

Dawn Primarolo: Establishing whether or not the intermediaries legislation applies is undertaken as part of the Inland Revenue's Employer Compliance Review programme. As such it is not possible with any accuracy to isolate data relating solely to this legislation.

Spirits Seizures

Mr. Alan Reid: To ask the Chancellor of the Exchequer how many bottles of *(a)* whisky and *(b)* other spirits were seized by Customs and Excise in the last 12 months because duty had not been paid. [145973]

John Healey: The information is not available in the format requested. HM Customs and Excise central records collate the volume of spirit seized but do not distinguish the specific type of spirit.

Details of the volume of spirits seized for this period will be included in HM Customs and Excise Annual Report and Accounts for 2003–04.

Details of spirits seizures in the period 2001–02 are given in Appendix C of the HM Customs and Excise Annual Report 2002–03 (HC 52).

Mr. Alan Reid: To ask the Chancellor of the Exchequer how many *(a)* successful and *(b)* unsuccessful prosecutions there have been for evading duty on *(a)* whisky and *(b)* other spirits in the last 12 months. [145974]

John Healey: The information is not available in the format requested. HM Customs and Excise central records collate the number of successful and unsuccessful prosecutions which involve spirits duty fraud but do not distinguish the specific type of spirit for which a prosecution is brought.

TRADE AND INDUSTRY

Tetra Communications System

Mr. Peter Ainsworth: To ask the Secretary of State for Trade and Industry what representations she has received regarding the effect of the Tetra communications system on terrestrial television reception; from which areas representations have been received; and if she will make a statement. [144670]

Mr. Timms *[holding answer 18 December 2003]:* Ofcom is aware of instances of interference to domestic installations from Airwave radio base stations. Airwave is the new police/public safety radio communications system currently being rolled out across the country. In all the instances so far investigated the consumers own masthead aerial amplifier, used to boost weak signals has had a pass-band wide enough to boost the television signal and, inadvertently, the unwanted radiocommunications signal.

Testing has shown that the Tetra transmitters were operating correctly and within their designated licence parameters. In most cases a suitable filter fitted between the masthead amplifier and the TV aerial will resolve the interference and affected residents have been advised to have such filters fitted to their TV installations. As a goodwill gesture Airwave has arranged for filters to be fitted to the affected television installations in certain circumstances. The problem however is with the TV aerial amplifiers or the aerial system. Consumers should take problems up with their suppliers.

BNFL

Mr. Bellingham: To ask the Secretary of State for Trade and Industry (1) what the total costs of BNFL's business operations in the United States were in each of the last five years; [142133]

(2) what the total revenue generated by BNFL as a result of business activities in the United States was in each of the last five years; [142134]

(3) how many business contracts BNFL has agreed in the United States in each of the last five years. [142135]

Mr. Timms: BNFL operates in several sectors in the US, principally environmental clean-up through its subsidiary BNFL Inc and fuel manufacture and reactor services through its subsidiary Westinghouse Electric Company. In BNFL's annual report and accounts, Note 2 identifies the sales and profit for the group arising from America (North and South combined). In 2002–03 the total sales arising from America were £747 million, and the profit before tax and exceptional items was £59 million.

Following is a table that shows BNFL's sales and profit figures going back five years (for North and South America combined):

£ million

	Sales	*Profit*
2002–03	747	59
2001–02	830	(11)
2000–01	945	(27)
1999–2000	73	(7)
1998–99	74	n/a

Note:
Drawn from Annual Report & Accounts.

Business Premises

Brian Cotter: To ask the Secretary of State for Trade and Industry how many statutory inspections of business premises took place in each of the last five years. [145231]

Nigel Griffiths: There is no central database for inspections.

Brian Cotter: To ask the Secretary of State for Trade and Industry how many statutory inspections carrying a right to entry onto business premises were carried out in each year since 1997. [145232]

Nigel Griffiths: There is no central database for inspections.

Carbon Reduction Targets

Dr. Kumar: To ask the Secretary of State for Trade and Industry pursuant to the carbon reduction targets outlined in the Energy White Paper, what Government support is being given to research and development into *(a)* low carbon technologies and *(b)* lightweight vehicle design initiatives; and how much of that Government support has gone to companies conducting such research in (i) Middlesbrough, South and Cleveland, East and (ii) the north east. [144770]

Mr. Timms: Pursuant to the carbon reduction targets in the Energy White Paper, the Government is supporting research into low carbon and carbon-free energy generation through my Department's Renewable Energy Programme and through the Research Councils. There are no projects currently being supported under the Renewable Energy Programme in the Middlesbrough, South and Cleveland East, area. There are, however 14 projects and I recently completed project that are receiving or have received funding in the north east region as a whole. This amounts to total funding of over £6.5 million and has been provided for projects including Solar PV Field Trials and the Stingray Tidal Stream Energy Device.

A New and Renewable Energy Centre (NAREC) has been set up by One North East in Blyth, Northumberland, to promote renewable energy in the north east. This is one of five centres of excellence designed to encourage the development of new technologies originating from the region's research base.

The Government are also pursuing its carbon reduction targets through research into energy efficiency, and has accepted the recommendation of the Chief Scientific Adviser in his Energy Research Report that this should be a priority area for investment. An inter-departmental group, on which the Energy Saving Trust and the Carbon Trust are represented, is co-ordinating work in this field.

In 2002, the Carbon Trust established the Low Carbon Innovation Programme to accelerate the development of new and emerging low carbon and energy efficient technologies in the UK, by investing in research, demonstration and development projects and leveraging in further funding.

As stated in the Government's Powering Future Vehicles Strategy, the Government supports research and development for the encouragement of low carbon vehicles through a number of initiatives including the New Vehicle Technology Fund (NVTF) and Foresight Vehicle programmes. At present, of the 20 projects that are being supported through NVTF, none is based in the north east, although the programme is open to all regions.

The Foresight Vehicle LINK programme supports technology transfer through collaborative R&D, aiming to raise the innovation performance of the automotive industry in the UK. The programme includes a wide portfolio of projects, valued in excess of £100 million. We do not keep separate records for each thematic group under the programme, but included in this funding is light-weighting and engine control which help reduce CO_2 emissions and alternative propulsion systems. DTI has committed £12.4 million to this programme.

Departmental Grants

Brian Cotter: To ask the Secretary of State for Trade and Industry how much money has been allocated to fund the Grant for Investigating an Innovative Idea pilot scheme. [145492]

Nigel Griffiths: £2 million has been allocated for financial year 2003–04. £1 million has been allocated for financial year 2004–05 with a further £2 million being sought to supplement this.

E-mail

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what steps are being taken to increase international collaboration in dealing with spam. [146134]

Mr. Timms: Spam is widely recognised to be a global problem and the UK is active in discussions on international cooperation to tackle cross-border spam, both multilaterally (for example, at the World Summit on the Information Society and in the Organisation for Economic Cooperation and Development) and bilaterally with the USA and other national governments. Proposals now being explored include cooperation between national enforcement agencies and the development of common international guidelines for governments and for business.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what estimate she has made of the proportion of *(a)* e-mails and *(b)* unwanted junk e-mails received in the UK that are sent from within the UK. [146135]

Mr. Timms: The Government do not have an estimate of the total proportion of e-mails received here that are sent from within and outside the UK. Industry estimates suggest that between 80 and 90 per cent. of unwanted junk e-mails received here come from outside the UK.

Fuel Cells UK

Dr. Kumar: To ask the Secretary of State for Trade and Industry if she will make a statement on the role of, and funding given to, Fuel Cells UK. [144772]

Mr. Timms: The role of Fuel Cells UK is to act as an umbrella body for the emerging UK fuel cells industry. My Department is providing pump-priming funding for a two year period for Fuel Cells UK to undertake a series of activities which will help to develop the UK fuel cell industry and to establish Fuel Cells UK as a potential trade association. Fuel Cells UK was launched on 7 May 2003 and key activities to date have included the development of a UK Fuel Cell Vision, the preparation of an industry capability guide, and representation on standards work through the BSI. Proposed future activities include the preparation of an academic research capability guide, and the development of a UK Fuel Cells Roadmap.

Funding to date by DTI since the start of this project has totalled £68,585.

Gas Prices

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry (1) what discussions she has had with Ofgem concerning the decision by the Financial Services Authority to join in its inquiry into wholesale gas prices; if she will publish the minutes of the meetings; and if she will make a statement; [146078]

(2) what discussions she has had with the Financial Services Authority concerning its decision to join Ofgem in its inquiry into wholesale gas prices; if she will publish the minutes of any such meetings; and if she will make a statement. [146082]

Mr. Timms: None. This was a matter for Ofgem and the Financial Services Authority.

Regulation

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how many regulations her Department has *(a)* removed and *(b)* reformed in each of the last five years. [146121]

Nigel Griffiths: Figures can only be obtained by a manual sift of all regulations and Statutory Instruments in force from 1997 onwards.

Renewables Obligation

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how much money was paid into the buy-out fund by electricity suppliers as a result of failing to present renewables obligation certificates to Ofgem, in each year since the scheme began. [146130]

Mr. Timms: The Renewables Obligation has only been operating since 1 April 2002 and therefore data is only available for the first period of the obligation, i.e. financial year 2002–03. For this period, payments into the buy-out by electricity suppliers totalled £78,853,260 for England and Wales, and £11,210,730 for Scotland.

Small Businesses

Brian Cotter: To ask the Secretary of State for Trade and Industry how many inspectors are employed by Government Departments and agencies to carry out statutory inspections of small business premises. [145230]

Nigel Griffiths: There is no central database containing this information.

Brian Cotter: To ask the Secretary of State for Trade and Industry what estimate she has made of the costs to small businesses resulting from the recent strike by postal workers. [145259]

Mr. Timms: I have made no such estimate. Strike action, whether official or unofficial, is damaging and inconvenient to businesses that rely on Royal Mail's services. Royal Mail had in place contingency arrangements that attempted to minimise the impact on businesses of all sizes.

Transport, Telecommunications and Energy Council

Mr. Connarty: To ask the Secretary of State for Trade and Industry what the outcome was of the Transport, Telecommunications and Energy Council held on 15 December; what the Government's stance was on the issues discussed, including its voting record; and if she will make a statement. [144901]

Mr. Timms: Anne Lambert, Deputy Permanent Representative to the European Union, represented the UK at the EU Energy Council in Brussels on 15 December.

The Council considered several matters of interest to the United Kingdom. Chief among these were the directive on gas security of supply and a proposed directive on energy efficiency standards for energy using products.

The Presidency introduced a short debate on a proposal on eco-design requirements for energy using products, which will set common EU energy efficiency standards for Energy Using Products (EuP), and is intended to make environmental improvements in areas that market forces cannot not handle. Describing it as a framework directive with a flexible approach, which took account of the characteristics of each sector, the Commission said that it wished to use the proposal to encourage industry to agree sectoral voluntary agreements. The Commission commended an integrated rather than thematic or sectoral approach, but rejected the idea of a priority product list as likely to trigger lengthy debates with industry on what should be included or excluded.

Member states broadly welcomed the proposal and its general approach of setting selection criteria but leaving the detailed product selection to a Regulatory Committee, but many saw more clarification on the detail as needed. Most supported an integrated approach and rejected the notion of a priority product list, though some MS asked the Commission to list the kind of products expected to be covered by the instrument. The UK suggested that the Commission develop a consultation strategy to identify the product categories. Others urged that the directive sets out clearly the criteria to be applied to product selection and emphasised the need to assess the impact on competitiveness, in particular the potential adverse impact on SMEs.

Following withdrawal of reserves by the UK and others, a general approach was agreed on the Presidency text for the proposed gas security of supply directive which sets minimum European security of supply standards and requires member states to define and publish non-discriminatory and transparent national security of supply policies compatible with the internal market. It establishes a Gas Coordination Group, outlines an approach to dealing with a major supply disruption at Community level, puts in place reporting and monitoring requirements, and provides for Commission intervention in the case of a perceived insufficiency of supplies to meet long-term gas demand. The Commission's agreement to the text, including a legal base of Article 100 EC was subject to a new Recital stating that security of supply obligations should not impede the functioning of the internal market nor impose unreasonable and disproportionate burdens.

The Commission presented a package of proposals on energy security: a Regulation on access to gas network in the internal market which mirrors a similar electricity Regulation adopted earlier this year as part of the internal market package; a directive on security of electricity supply and infrastructure investment, mirroring the gas measures agreed earlier; and a directive on energy end-use efficiency and energy services, which sets an energy efficiency savings target.

In lunchtime discussion on security of supply, the Commission argued that the need for action was underlined by forecasts showing the EU's need for 700 MW of extra weekly capacity by 2012 and given the 6–7 year time lag needed for building new capacity. The UK and most other member states argued against market intervention, stating that Governments and regulators were not responsible for investment in capacity or networks, and that the key need was for a stable investment framework. Drawing attention to our domestic evidence of the market working and sending investment signals, the UK emphasised that the Directive should not interfere with effective liberalisation and that we would not support any measures to control prices. Some member states supported the Commission's ideas, arguing the need for reinforced co-operation between transmission operators and regulators and for further reflection on the cause of recent price increases, which some consumers blamed on liberalisation, and for new impetus on interconnection.

In a short exchange on cost of compliance with the Kyoto Protocol, the Commission argued that the EU needs to embrace technology to combat climate change and for all options to be explored including nuclear. The Commission also said there was a need for the EU and its MS to re-assess the EU position in the light of Russia's failure to ratify the Kyoto Treaty.

Council Conclusions on Energy in a Wider Europe were adopted.

The Presidency, with Greece and the Commission, reported on the Euro-Med Ministerial conference in Rome on 1–2 December. With 38 participating countries, involving industry participation from the oil, gas and electricity sectors and with the objective of implementing the conclusions of the Athens ministerial in May 2003, the event had been a success.

The Commission briefed on the Energy Charter Treaty, the EU/Russia dialogue and relations with South East Europe. On the Energy Charter, given that Russia had not yet ratified and was still creating difficulties over the transit protocol, the Commission said that the EU and others needed to consider how to take things forward. In contrast, the Commission argued, progress had been made in the EU/Russia dialogue, e.g. investment increases in Russia by EU companies, and resolution of the problem of destination clauses (which prevent on-selling of Russian gas by the initial importing MS). The Commission defended itself against accusations of lack of transparency in the EU/Russia energy dialogue.

In a presentation on the International Partnership for Hydrogen, the Commission saw hydrogen as important as an environmentally friendly energy source and with transport potential, and urged international cooperation as essential in order to achieve the technological breakthrough needed to take forward its development.

Reporting on the joint informal Environment and Energy Council held at Montecatini in July 2003, the Presidency pointed to its success as a forum for bringing together environmental, energy, economic, market and other related topics as having been confirmed by the recent COP9 conclusions. Finally, Greece gave a report on the Ministerial Conference on the South-East European energy market in Athens on 8 December. An MoU had been agreed covering gas and electricity, to which the EU was a signatory.

Veterinary Medicines

Andrew George: To ask the Secretary of State for Trade and Industry what discussions her Department has had with representatives from the European Commission on removing companion animals from the Veterinary Prescribing Cascade. [146099]

Mr. Bradshaw: I have been asked to reply.

Proposals to change the prescribing cascade have been discussed during the current review of European medicines legislation but none of these included removing companion animals from the prescribing cascade. The Common Position of the Council of Ministers at the end of the first reading adopted a proposal to separate the provisions of the cascade for food producing animals from those for companion animals so that a less restrictive regime would apply to medicines for companion animals as there are no consumer health considerations. The UK supported these amendments.

The European Parliament adopted a compromise text for amendments in the second reading stage on 17 December 2003. This is expected to be considered for adoption by the Council of Ministers in January 2004. The compromise text did not make any changes to the Common Position in respect of the prescribing cascade.

Andrew George: To ask the Secretary of State for Trade and Industry what percentage of prescriptions for treating animals issued by veterinary surgeons were for generic drugs in each of the last five years for which records exist. [146103]

Mr. Bradshaw: I have been asked to reply.

The Government does not collect information on prescriptions issued by veterinary surgeons.

Andrew George: To ask the Secretary of State for Trade and Industry what discussions she has had with the Veterinary Medicines Directorate on the proposed review of the prescribing categories of veterinary drugs, including prescription only medicines. [146104]

Mr. Bradshaw: I have been asked to reply.

The Veterinary Medicines Directorate is a Defra Agency and so reports to me. The legal classification of a veterinary medicinal product is based on the perceived risks of the product when it is authorised. Products which have a greater risk, require prior diagnosis or are difficult to administer are made prescription only medicines. The Government have accepted that the legal classification of products should be reviewed automatically as proposed by the Competition Commission. Such reviews will allow reports on the use of products to be taken into account when considering whether the legal classification should be changed.

This review is one of a number of changes proposed by the Report of the Independent Review of Dispensing by Veterinary Surgeons of Prescription only Medicines (the Marsh Report) in 2001, the 2003 Report from the Competition Commission into the cost of prescription only medicines, and the Review of European medicines legislation. When the European review has concluded, the VMD will consult interested parties on implementing all of the agreed changes.

Andrew George: To ask the Secretary of State for Trade and Industry what assessment she has made of the recommendations of the Competition Commission on prescription only medicines with reference to the European review of the prescribing of veterinary medicines. [146105]

Mr. Bradshaw: I have been asked to reply.

The Government's formal response to the Competition Commission's report on prescription only medicines was published on 9 July 2003. There were two recommendations relating to the European Review of veterinary medicines legislation.

For Recommendation 8, the Government agreed to keep in mind the importance of retaining the existing rights of member states to control their channels of distribution and supply of veterinary medicines during the negotiations on Review 2001 and has firmly followed that principle throughout.

The Government said that Recommendation 9 on establishing new distribution categories for veterinary medicinal products would be considered in the light of the outcome of the European Review of medicines legislation.

Wind Turbines

Miss McIntosh: To ask the Secretary of State for Trade and Industry what assessment she has made of the impact on wildlife of wind turbines. [145002]

Mr. Timms: Studies of the impact of wind farms on wildlife, in particular birds, suggests that there is only a small risk of bird strikes from the operation of wind turbines which have been properly sited.

Under the normal planning regime and for consent under section 36 of the Electricity Act 1989 or the Transport and Works Act 1992 wind farm developers are required to consider all environmental aspects of wind energy projects and produce an Environmental Impact Assessment. These assessments are available to the public.

DEFENCE

Attitude Surveys

Angus Robertson: To ask the Secretary of State for Defence how many and what percentage of respondents to the last assessed Royal Navy/Royal Marine Continuous Attitude Survey responded *(a)* yes and *(b)* no to (i) question 26 and (ii) question 27; and if he will make a statement. [143621]

Mr. Caplin: The information requested is drawn from the May 2003 edition of the Continuous Attitude Survey.

I should point out that questions 26 and 27 in the September 2002 survey relating to the reporting of incidents of unwelcome behaviour and satisfaction with the reporting process, have been replaced by questions 30 and 31 in the current survey.

Royal Navy

Q30. Do you know where to get information about the RN/RM complaints procedure for unfair treatment, discrimination, harassment or bullying?

	Royal Navy		*Royal Marines*	
	Number	*Percentage*	*Number*	*Percentage*
Yes	691	74.70	43	52.40
No	98	10.60	23	28.00
Unsure	127	13.70	15	18.30
Total	916	99	81	99

Q31. Satisfied/Dissatisfied with complaints procedure.

Percentage

	Objectivity and fairness with which your complaint was handled	*Time taken to resolve your complaint*
Royal Navy		
Very satisfied	0.90	0.50
Satisfied	1.40	1.30
Neither	4.90	5
Dissatisfied	1.50	1.90
Very dissatisfied	2.60	2.30
N/A	88.70	89
Royal Marines		
Very satisfied	0.00	0.00
Satisfied	1.20	1.20
Neither	1.20	3.70
Dissatisfied	1.20	1.20
Very dissatisfied	2.40	0.00
N/A	93.90	93.90

Angus Robertson: To ask the Secretary of State for Defence how many and what percentage of respondents to the last assessed Royal Navy/Royal Marine Continuous Attitude Survey mentioned *(a)* privatisation and contractualisation and *(b)* privatisation in their answers to Question 32; and if he will make a statement. [143623]

Mr. Caplin: Question 32 in the September 2002 Continuous Attitude Survey is asked at Question 35 in the May 2003 survey, the last assessed survey.

There were no responses to this question.

Civil Servants (Disabilities)

Tim Loughton: To ask the Secretary of State for Defence how many senior civil servants in his Department are disabled, expressed in *(a)* numbers and *(b)* as a percentage of whole-time equivalents. [144981]

Mr. Caplin: As there are less than five members of the senior civil service in the Department with a disability, the actual number is not published in order to protect the privacy of the individual in line with Exemption 12 of the Code of Practice on Access to Government Information.

Identity Cards

Steve Webb: To ask the Secretary of State for Defence what assessment he has made of the implications of the introduction of compulsory identity cards for his Department. [143983]

Mr. Caplin: The Home Office has lead responsibility for developing the national identity cards scheme. The introduction of the scheme is a long-term undertaking and there are ongoing discussions which the Ministry of Defence will contribute to.

Our assessment has indicated that the proposals for the introduction of compulsory identity cards would benefit the Ministry of Defence by aiding the identification of individuals who have a relationship with the Department, but who are not direct employees. Examples include potential new recruits, past employees, members of the Reserve Forces, job applicants, visitors and contractors.

We have also considered the needs of foreign nationals serving in the armed forces. Their current military ID is not universally accepted outside of the Department, so there would be benefit in providing them with a United Kingdom ID card under the foreign residents scheme, recognising their status as members of the UK Armed Forces.

We are not intending to replace the military ID card (or its equivalent for civilian employees) with the national ID card since our own ID card is used as a means for controlling access to MOD premises.

Iraq

Adam Price: To ask the Secretary of State for Defence what steps need to be taken to enable the number of civilian casualties killed by British forces in Iraq since the end of the conflict to be ascertained. [141675]

Mr. Ingram: All casualties witnessed by UK forces are reported, but it is not always possible to determine accurately the number of casualties that occur during a particular incident. For example, in some incidents,

Iraqi injured and/or dead may have been taken away by their compatriots before UK Forces could investigate. In other incidents, UK forces have been forced to withdraw from situations before an accurate assessment of the number of casualties could be made. In such incidents we have no reliable means of ascertaining the number of casualties and there are no practical steps we could take to do so.

Adam Price: To ask the Secretary of State for Defence what information he has examined on the alleged shooting of a demonstrator by British forces in Basra on *(a)* 4 October and *(b)* 9 August. [141678]

Mr. Ingram: I am aware of allegations of an incident during a demonstration on 9 August but no civilian casualties were reported.

On 4 October, on the periphery of a demonstration, British soldiers killed an Iraqi gunman in self-defence. His automatic weapon and ammunition were recovered.

Adam Price: To ask the Secretary of State for Defence what information he has examined on the alleged deaths of Iraqi civilians in British custody on *(a)* 13 and *(b)* 18 May. [141679]

Mr. Ingram: There are investigations underway of alleged deaths of Iraqis while in custody but I am not aware of any involving deaths which occurred on 13 or 18 May 2003.

Adam Price: To ask the Secretary of State for Defence what guidelines have been issued to UK military personnel in relation to the use of force in non-combat situations in Southern Iraq. [141682]

Mr. Ingram: The Rules Of Engagement issued to UK forces in Iraq govern all use of force. Rules of Engagement are confidential and withheld in accordance with Exemption 1 of the Code of Practice on Access to Government Information.

Mrs. Liddell: To ask the Secretary of State for Defence if he will make a statement on the likely future levels of the *(a)* Royal Navy and *(b)* Royal Air Force presence in the Iraq theatre. [143731]

Mr. Ingram: We keep force levels under constant review but there are no current plans to alter the major Royal Navy or RAF assets depioyed to Operation Telic. I refer my right hon. Friend to the answer I gave on 5 January 2004, *Official Report*, column 30W.

Territorial Army

Mr. Liddell-Grainger: To ask the Secretary of State for Defence what funding is provided to Territorial Army personnel returning from service in the Gulf. [145762]

Mr. Caplin: Territorial Army personnel returning from the Gulf continue to receive their pay and allowances which apply until no longer required in whole-time Army service, or until the expiration of any paid leave granted (which immediately follows whole-time Army service). On demobilisation, a travel warrant is provided for the journey home. TA personnel may be entitled to receive certain pension payments under the Armed Forces Pension Scheme or as defined within the Army Pensions Warrant 1997.

Mr. Liddell-Grainger: To ask the Secretary of State for Defence how many training days Territorial Army personnel underwent in advance of deployment to the Gulf. [145765]

Mr. Caplin: Territorial Army (TA) personnel deployed to the Gulf have been designated 'Fit For Role', which requires a minimum of 27 days training in the preceding 12 months. In addition, before deployment, they will have attended the Reserves Training and Mobilisation Centre for a five day period of intensive revision of their Individual Training Directives (Nuclear, Biological and Chemical, First Aid, Shooting, Fitness and Recognition) and also received series of theatre specific briefings at the Reinforcement Holding Unit. Thereafter, TA personnel posted to regular units would train with them.

INTERNATIONAL DEVELOPMENT

HIV/AIDS

Mr. Ben Chapman: To ask the Secretary of State for International Development what representations he has received on the risk of dependency resulting from recent increases in funding to developing countries to tackle the HIV/AIDS epidemic. [145436]

Mr. Gareth Thomas: I have received no representations on this matter. However, all DFID programmes, including those aimed at helping to combat the scourge of HIV/AIDS, seek to achieve long term sustainability rather than build dependency. The UK's Call for Action on HIV/AIDS, launched on 1 December last year, has at its core an objective for each country to have one national HIV/AIDS Strategy, one national AIDS Commission and one way to monitor and report progress —rather than having parallel, and less sustainable, systems and structures driven by the needs of donors.

Hugh Bayley: To ask the Secretary of State for International Development what steps are being taken to ensure that HIV/AIDS policies take into account the particular needs of orphans and vulnerable children. [146160]

Gareth Thomas: The UK Government are committed to intensifying the response to HIV/AIDS, including responding to the growing number of orphans and children made vulnerable by AIDS (OVCs).

DFID is supporting the efforts of UNICEF and UNAIDS to produce a strategic framework on OVCs. Key elements of this framework include:

Treatment programmes to prolong the lives of parents ;

Free access to education;

Enhanced support to the families and communities caring for OVCs.

Meeting the needs of orphans is a complex issue requiring a comprehensive response. DFID is gaining experience in the most effective ways of developing integrated, cross-sectoral programmes of support for orphans and their carers. For example, in Malawi social protection measures for families affected by HIV/AIDS are integrated into Malawi's Poverty Reduction Strategy. These measures include targeted nutrition and

welfare transfers, legislation on inheritance and the introduction of less intensive crops to affected households.

In addition, in several countries in Southern Africa where there has been drought DFID is supporting a school-feeding programme (implemented by the World Food Programme). The programme is deliberately designed to keep children, including OVCs, at school and learning for the future. In South Africa DFID works closely with the Department of Social Development to ensure that children (and parents) can access the grants they are entitled to. We are also starting work with the Church of the Province of Southern Africa to reduce stigma, improve home-based care and care for OVCs. In Zimbabwe, DFID is providing support for OVCs and child-headed households through its NGO feeding programme.

Meeting the needs of children orphaned by HIV/AIDS is a challenge that DFID is determined to address effectively.

Indigenous People's Demonstration Project

Lynne Jones: To ask the Secretary of State for International Development pursuant to his answer of 15 December, *Official Report*, column 719W, when he expects to make a decision on whether the Indigenous People's Demonstration Project will be affected by the reallocation of money for middle income countries. [145615]

Mr. Gareth Thomas: DFID will continue to support the Indigenous Peoples' Demonstration Project in Brazil until at least early 2006. Expenditure over the next two years will, however, have to be reduced in view of the reduction in funds available for the region. This is consistent with the approach being taken with all other DFID projects in Latin American Middle Income Countries scheduled to continue into 2005/06 and beyond, which are either being ended prematurely or reduced in scale. A decision on whether to extend into 2006/07 will be taken in the second half of 2005 in the light of the project's progress and DFID's regional priorities. We expect that the project will have had a significant impact by early 2006 with over half of the originally envisaged training and institutional strengthening support provided by that date.

Iraq

Mr. Carmichael: To ask the Secretary of State for Foreign and Commonwealth Affairs what measures are in place to ensure that reconstruction funds in Iraq are administered in a way that secures value for money. [145282]

Hilary Benn: Regular DFID procedures to ensure value for money are being applied in the management of our assistance to Iraq.

Mr. Carmichael: To ask the Secretary of State for Foreign and Commonwealth Affairs how much of the allocated reconstruction budget for Iraq has been spent on contracted expatriate employees; and what estimate has been made of future expenditure in this regard. [145283]

Hilary Benn: To date, DFID has disbursed approximately £8.5 million on the provision of international staff on projects which we are undertaking, directly and through commercial companies, in Iraq. We estimate that the total expenditure on international staff working on already-approved projects will amount to approximately £26.4 million. Further projects may be approved in the future.

These figures include the costs of travel, subsistence, training, communications, insurance and additional security measures, as well as salaries.

The figures do not include the costs of international staff employed by United Nations bodies, nor of NGOs working on activities funded by DFID.

Hugh Bayley: To ask the Secretary of State for International Development pursuant to his statement of 15 December, *Official Report*, column 1319, if he will place in the Library details of the reconstruction projects that have been launched in Iraq; and if he will make a statement on the *(a)* purpose and *(b)* costs of each project funded by the UK. [145641]

Hilary Benn: An updated list of DFID humanitarian and reconstruction funding in Iraq, giving the purpose and cost of each allocation, will be placed in the Library of the House this week. Regular updates on DFID's programme in Iraq can be found at: http://www.dfid.gov.uk.

Meat (Illegal Imports)

Tim Loughton: To ask the Secretary of State for International Development what discussions he has had with overseas home affairs ministers about the illegal importation of meat products into the UK. [142150]

Mr. Bradshaw: I have been asked to reply.

We have made general approaches through our diplomatic posts overseas to the governments of other countries, to promote awareness of our import rules on meat and animal products. Defra Ministers have also raised these matters in bilateral contacts with visiting ministers from overseas governments.

Since 11 April 2003, when Her Majesty's Customs and Excise took over responsibility for illegal imports publicity overseas, they have made contact with a number of embassies and high commissions. So far Nigeria, Ghana, India, USA, Thailand and Kenya have agreed to assist us with these issues in their countries.

We will all continue to work with our posts and embassies abroad to raise awareness of our import rules abroad.

Overseas Assistance

Jane Griffiths: To ask the Secretary of State for International Development what assistance his Department has provided to *(a)* Bermuda, *(b)* British Virgin Islands and *(c)* Cayman Islands in the past year; and if he will make a statement. [145786]

Mr. Gareth Thomas: We do not now provide direct development assistance to any of them. In the financial year 2002–03, however, we spent nearly £90,000 in the closing stages of British Virgin islands' graduation from

receipt of direct DFID support. This was mainly provision of advice on airport development and scholarships for overseas study. Both British Virgin Islands and Cayman Islands benefit indirectly from our regional support for Caribbean overseas territories, in areas such as environmental protection and disaster planning.

Uzbekistan

Mrs. Mahon: To ask the Secretary of State for International Development what aid the UK has provided to Uzbekistan since 2001; and for what purposes. [145755]

Mr. Gareth Thomas: The figures for UK bilateral assistance to Uzbekistan are: 2000–01—£484,000; 2001–02—£397,000; 2002–03—£491,000. Our bilateral support has focused on the development of primary health care: training doctors in general practice; and strengthening civil society and community based organisations.

Additionally, the U.'s attributed share of multilateral assistance to Uzbekistan in calendar year 2001 (the most recent year for which figures are available) was £1.6 million broken down by EC £0.9 million, UN £0.3 million and £0.4 million other.

SCOTLAND

Barnett Formula

Mr. Peter Duncan: To ask the Secretary of State for Scotland whether the operation of the Barnett Formula has, since its introduction, *(a)* narrowed, *(b)* widened and *(c)* maintained relative per capita spending between Scotland and England; and if he will make a statement. [144666]

Mrs. McGuire *[holding answer 17 December 2003]:* Information on identifiable spending on services by country is published in Public Expenditure Statistical Analyses (the latest version is Cm 5901). Identifiable spending covers both devolved and reserved spending. Analysis of trends in Scottish spending is also contained in the Scottish Executive's annual publication Government Expenditure and Revenue in Scotland.

Block Grant

Mr. Peter Duncan: To ask the Secretary of State for Scotland what changes have been made to the coverage of the block grant arrangements since 1979. [144664]

Mrs. McGuire *[holding answer 11 December 2003]:* The arrangements for funding the Scottish Parliament are set out in the Statement of Funding Policy, which was first published by the Treasury in 1999. Revised Statements were published in 2000 and 2002. Information on the operation of the Barnett formula prior to 1999 is contained in the second report of the Treasury Committee for 1997–98, on the Barnett formula.

Consolidated Fund

Mr. Peter Duncan: To ask the Secretary of State for Scotland what sums of money were *(a)* added to and *(b)* subtracted from the Scottish Consolidated Fund in each year since 1999. [144665]

Mrs. McGuire *[holding answer 17 December 2003]:* The operation of the Scottish Consolidated Fund is a matter for the Scottish Executive. Details of grant paid to the Scottish Executive are published in main and supplementary Scotland Office estimates, and in Scotland Office Department Reports.

Income Tax

Mr. Peter Duncan: To ask the Secretary of State for Scotland what estimate he has made of the costs that would fall on *(a)* the Government and *(b)* business if the Scottish Parliament voted to use its powers to vary the basic rate of income tax as specified in Section 72 of the Scotland Act 1998. [144667]

Mrs. McGuire *[holding answer 17 December 2003]:* The use of the tax varying powers, and related costs, are matters for the Scottish Executive. Scottish Executive Ministers have made it clear that they do not intend to use the tax varying powers during the course of this Scottish Parliament.

FOREIGN AND COMMONWEALTH AFFAIRS

Brussels Summit

Mr. Cash: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement as to whether the 82 points referred to by Mr. Berlusconi as having been agreed to at the Brussels Summit were agreed; and whether they will be reopened. [145497]

Mr. MacShane *[holding answer 5 January 2004]:* I refer the hon. Member to the answer my right hon. Friend the Foreign Secretary gave to the right hon. and learned Member for Devizes (Mr. Ancram) today (UIN145406).

Civil Servants (Disabilities)

Mr. Goodman: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made in meeting targets for the proportion of people with disabilities in senior posts in his Department. [146010]

Mr. Mike O'Brien: At September 2003, eight FCO staff in the senior management structure declared themselves to have a disability. This represents 1.7 per cent. of all staff at this level. The Foreign and Commonwealth Office is on target to meet the 3 per cent. target agreed with the Cabinet Office for 2005. Staff advisory and support groups have been established and a diversity manager is in place to develop and implement policy.

Correspondence

Mr. Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter to him dated 10 November 2003 from the right hon. Member for Manchester, Gorton with regard to M. Sam. [145960]

Mr. Mullin: I refer my right hon. Friend to the answer I gave him on 18 December 2003, *Official Report*, column 1107W.

Democratic Republic of Congo

Mr. Laxton: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the safety of asylum seekers from the Democratic Republic of Congo who are returned to their homeland after being refused asylum in the UK. [143661]

Beverley Hughes: The most recent information on the treatment of returned failed asylum seekers, as well as on other issues that most commonly arise in connection with asylum applications made by asylum seekers from Democratic Republic of Congo (DRC) is contained in the Home Office Country Report on DRC that was published at the end of October. A copy of the Report can be found on the Home Office internet site at: http://www.ind.homeoffice.gov.uk/default.asp?PageId=172

There is no objective evidence to support allegations of either systematic or arbitrary detention or ill treatment of returnees. The British ambassador in Kinshasa has seen no evidence that local human rights organisations have concerns about the safety of returns. Other EU countries such as Belgium and the Netherlands have also found no evidence that returnees face any ill treatment. The situation in DRC—including the treatment of returnees—is kept under review in consultation with the UNHCR and other EU countries. UNHCR's position is that they do not object in principle to enforced removals to Kinshasa of failed asylum seekers who have been found, following a full and fair asylum determination process, not to be in need of international protection.

If an asylum application is refused, the applicant has a right of appeal to the independent appellate authorities against that decision. If following any appeal the applicant has still not established a need for international protection, then we consider it reasonable to expect an individual in that position to leave voluntarily. If they do not, we believe it entirely proper for us to take the appropriate enforcement action.

Departmental Staff

Mr. Russell Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what percentage of staff employed within his Department are over 55 years of age; and what *(a)* number and *(b)* percentage of staff recruited over the last 12 months are over 55 years of age. [145932]

Mr. Mike O'Brien: At 1 June 2003. 9.76 per cent. of all FCO UK-based staff were over 55 years of age: 16 (2.8 per cent.) UK-based staff with a length of service of less than one year were over 55 years of age.

Draft EU Constitution

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the implications of the breakdown of negotiations for the European Constitution; when the next EU summit is scheduled to take place; and what items will be on the agenda. [146224]

Mr. MacShane: The Intergovernmental Conference was close to consensus on the majority of issues relating to the draft Constitutional Treaty for the EU, although final agreement was not reached. As my right hon. Friend the Prime Minister said to the House on 15 December 2003, *Official Report*, column 1321 "In time an agreement will be necessary to allow enlargement to work effectively". Until then, the business of the European Union will continue as normal under the existing Treaties. The Irish Presidency has undertaken to report on the way forward to the European Council at its meeting scheduled for 25–26 March 2004. The full agenda for that meeting has not yet been finalised.

European Council

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the oral statement of the Prime Minister of 15 December 2003, *Official Report*, columns 1319–36, on the European Council, if he will list the points in the proposed European Constitution where consensus was close at the Brussels meeting of the European Council on 12 and 13 December; and if he will list the remaining points of disagreement. [145406]

Mr. Straw: Proposals published by the Italian Presidency on 9 December 2003 (and placed in the Library of the House) covered a wide range of separate issues of concern to one or more EU member states. In respect of most, though not all of these, the outcome was satisfactory for the United Kingdom, including on energy, and the "passerelle" clause and modalities for future revisions of Title III of Part III of the Treaty.

In his summing up at the IGC on Saturday 13 December 2003. Mr. Berlusconi did not list each of the individual points on which there was near consensus, but did say that they included unanimity for taxation, criminal justice, own resources decisions and social security.

He did not, however, suggest that this was an exclusive list, and we had already made clear that there were some other outstanding issues on which we would require satisfaction before we could agree any draft Treaty on behalf of Her Majesty's Government. My right hon. Friend the Prime Minister also made clear at the IGC, as he did in his Statement on 15 December 2003, *Official Report*, column 132, that nothing was agreed until everything was agreed.

Overseas Posts (Performance Targets)

Mr. Malins: To ask the Secretary of State for Foreign and Commonwealth Affairs what targets have been set for *(a)* processing entry clearance applications at British posts overseas for (i) permanent settlement and (ii) temporary purposes, *(b)* the dispatch of explanatory statements where an appeal against refusal is lodged and *(c)* the retention of explanatory statements by the Home Office before dispatch to the Immigration Appellate Authority; and how those targets have been met over the last 12 months for which figures are available. [144621]

Mr. Mullin: I can confirm that the following targets have been set:

90 per cent. of entry clearance issuing posts to interview settlement entry clearance applicants within a set target time. The target time is 12 weeks except for New Delhi, Bombay, Dhaka and Islamabad; separate targets, currently nine months apply for these posts due to the high number of settlement applications received. The latest performance measurements, covering the period 1 April to 31 October 2003, indicate that 98.4 per cent. of posts have met their target.

90 per cent. of straightforward non-settlement entry clearance applications to be decided within 24 hours. The latest performance measurement against this target, covering the period 1 April to 31 October 2003. is 91.7 per cent.

90 per cent. of posts to make a decision within 10 working days on non-settlement applications requiring an interview. The latest performance measurement against this target, covering the same period, is 88.0 per cent.

For settlement applications UKvisas' Best Practice gives a target of three months between the receipt of an appeal by the post abroad and its dispatch to the Appeals Processing Centre of the Home Office. For all non-settlement applications the target is one month. Figures for performance against these targets are done on a post-by-post basis and technical problems has meant that the figures are unreliable.

I understand that there are no targets set by the Home Office for the processing of entry clearance appeals once received by the Appeals Processing Centre. The processing of all appeals is dictated by the capacity of the Immigration Appellate Authority which is able to accept 7,100 cases per month. Ministerial priority states that 6,000 of these must be asylum cases, if these are available. This has been the case until October 2003. Significantly more entry clearance cases have been sent since then and this is set to continue over the next few months.

Pakistan (Immigration)

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs what the average time taken in the last 12 months was between the lodging of an appeal in Pakistan against the refusal of entry clearance for settlement and the completion of processing by UKvisas. [145393]

Mr. Mullin: Appeals against the refusal of entry clearance for settlement are processed in the UK by the Appeals Processing Centre of the Home Office. The current average time between receipt of an appeal at our high commission in Islamabad and its dispatch to the appeals processing centre is approximately four months.

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs how long he estimates that it will take for UKvisas to process the backlog of appeals in Pakistan against the refusal of entry clearance for settlement. [145394]

Mr. Mullin: Appeals against the refusal of entry clearance for settlement are processed in the UK by the appeals processing centre of the Home Office. Our high commission in Islamabad estimates that the average time between receipt of an appeal and its despatch to the appeals processing centre will be reduced to three months, in line with UK visas best practice guidelines for the processing of appeals, by the end of January.

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs what the earliest date of an appeal in Pakistan against the refusal of entry clearance for settlement which has yet to be processed is. [145397]

Mr. Mullin: The earliest date of an appeal against the refusal of entry clearance for settlement from our high commission in Islamabad awaiting despatch to the appeals processing centre of the Home Office is 15 August 2003.

United States (Anthrax Production)

Tony Lloyd: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his US counterparts on US policy on production of anthrax. [145739]

Mr. Mike O'Brien: There have been no recent discussions between my right hon. Friend the Foreign Secretary and his US counterpart regarding production of anthrax.

The United States is a state party to the Biological and Toxin Weapons Convention (BTWC). Under Article X of the convention, a state party is permitted to keep and produce quantities of bacteriological agents for peaceful purposes such as in the production of vaccines.

In 1969, President Richard Nixon put an end to the United States' offensive Biological Weapons programme.

The US has stated that it only produces small quantities of anthrax for research to develop defensive systems to detect deadly spores in the air and to decontaminate areas in the event of a biological attack.

Yukos Affair

Tom Brake: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 16 December 2003, *Official Report*, column 798W, what the nature was of his conversation with the Russian ambassador regarding the Yukos Affair. [146008]

Mr. Rammell: My conversation with the Russian ambassador ranged over a number of issues but I took the opportunity to raise the "Yukos affair". I expressed the importance we attach to the continuation of the successful reform process in Russia, in which the UK has a significant interest.

I stressed that it is important that foreign investor confidence should be maintained and that Russia continues to be seen as offering an environment in which investors can do business, where the law is applied impartially and with respect for due process.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agrochemicals

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of how much was spent by *(a)* agricultural

and *(b)* horticultural producers on agrochemicals in each of the past six years for which figures are available. [146090]

Alun Michael: There are no figures available that specifically identify spending by agricultural and horticultural producers on agrochemicals.

However the Pesticides Safety Directorate (PSD) does receive annual figures of overall turnover of all sales of approved pesticides as a part of its calculation of the pesticide levy to help fund the regulatory process. These cover sales of agricultural, horticultural, amateur, forestry and amenity pesticides.

The overall value of UK sales of approved products that have been declared to PSD are as follows:

	£ million
1998	591
1999	572
2000	484
2001	439
2002	446
2003	448

Air Quality

Mr. Randall: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with *(a)* BAE systems and *(b)* other manufacturers regarding the timetable for implementation of new aircraft technology which would reduce detrimental effects on air quality. [143824]

Mr. Bradshaw: Defra has not had any discussions with BAE Systems or other aircraft technology manufacturers.

There is a continuous dialogue between the Government and industry on action to reduce emissions impacts. Two current fora stand out:

a. Aerospace Innovation and Growth Team—this Department of Trade and Industry sponsored initiative has adopted the Advisory Council for Aeronautics Research in Europe targets for improvements in fuel efficiency and oxides of nitrogen emissions by 2020; and

b. Greener by Design—an industry initiated group looking at innovative solutions to aviation environmental problems. It reported in February 2002 and is now entering a phase of work promoting a range of actions, including technological solutions, to reduce emissions.

The Government also engage with UK industry and the wider manufacturing sector through the International Civil Aviation Organisation (ICAO) pushing for action to reduce emissions. ICAO action is focused upon shorter term technology improvements through increases in the stringency of emissions standards and establishing longer term technology goals.

Mr. Randall: To ask the Secretary of State for Environment, Food and Rural Affairs whether the company commissioned by her Department to conduct the air quality study around Heathrow has previously conducted studies and research for airlines. [143825]

Mr. Bradshaw: Cambridge Environmental Research Consultants (CERC) has not previously conducted studies or research for airlines. CERC has previously conducted studies involving airport emissions for local authorities and for BAA plc; a Dublin airport study is ongoing.

Mr. Randall: To ask the Secretary of State for Environment, Food and Rural Affairs whether interim findings from the study on air quality in the Heathrow area commissioned by her Department have been incorporated in discussions on the proposal for a third runway at Heathrow. [143826]

Mr. Bradshaw: Interim findings from the study are not yet available and so have not been incorporated in discussions on airport capacity at Heathrow.

Mr. Randall: To ask the Secretary of State for Environment, Food and Rural Affairs whether the report on air quality around Heathrow from Cambridge Environmental Research Consultants Ltd. will be discussed with the Department for Transport after its publication. [143827]

Mr. Bradshaw: The Department for Transport will be kept informed of progress of the research and the report will be discussed with the Department before and after its publication.

Animal Welfare

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make it her policy to use the proposed Animal Welfare Bill to update the Animal Boarding Establishments Act 1963; and if she will make a statement. [146173]

Mr. Bradshaw: Yes. The Animal Boarding Establishments Act 1963 is one of a number of pieces of legislation relating to captive and domestic animals that my department is looking to revise and consolidate under the proposed Animal Welfare Bill.

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs what her assessment is of the effectiveness of Government attempts *(a)* to improve the welfare standards of horses being transported for slaughter in Europe within the draft EU regulation and *(b)* to include within it the dispensation for the UK to maintain protection for its horses; and if she will make a statement. [145491]

Mr. Bradshaw: One of the aims of the draft EU regulation on the welfare of animals during transport is to improve the welfare of horses transported for slaughter in Europe and the Government welcomes and supports those aspects of the draft. We are also developing measures to protect horses that are based on animal welfare, will further improve horse welfare throughout the EU and that do not rely on special dispensation for the UK.

Bovine TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs how long mycobacterium bovis bacilli can survive on open pasture; and under what conditions. [141395]

Mr. Bradshaw: Mycobacterium bovis may be present within a variety of media on open pasture, each influencing the survival of the bacilli. In cow manure M. bovis may survive for up to four months in autumn, five months in winter and two months in spring, dependent on concentration. Greater concentrations promote survival.

When exposed to sunlight at 24–34 degrees celsius M. bovis has survived for 5–11 months in manure at pasture. Survival in samples buried in 1cm deep pits has been up to one year and at 5cm deep up to two years.

M. bovis can be highly concentrated in badger urine and can survive for over a week on open pasture during the winter but very few bacilli survive after four weeks. During the summer survival can reduce to less than three days in badger urine.

M. bovis in badger bronchial pus and sputum can survive for up to 10 weeks on open pasture in winter but less than one week in summer. Survival in badger faeces can be for up to one month during the winter but less than two weeks in summer.

Survival may also be influenced by the presence of other microorganisms in the environment. Fungi, algae, protozoans and many other bacteria compete with M. bovis for nutrients, may have greater growth rates, and may produce natural antibiotics.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs how many TB reactor cattle were reported to her Department and its predecessors, *(a)* in each year from 1990 to 2002 and *(b)* from 1 January to 31 October; how many were subject to culture testing; and how many proved TB positive on culture. [142468]

Mr. Bradshaw: Table 1 shows the number of TB reactors, how many were subject to culture for Mycobacterium bovis, and the number successfully cultured for the years 1990–2002 in Great Britain.

Table 2 gives provisional data for the number of TB reactors, the number subject to culture, and the number successfully cultured for Mycobacterium bovis in Great Britain for 2003 (till end of October).

Table 1 GB Figures

	Number of TB Reactors	*Number Subject To Culture Testing*	*TB Positive on Culture*
1990	719	4	[1]—

[1]— Data not available

Table 2 2003 GB Figures (provisional)

	January to October 2003
Number of TB Reactors	17,589
Number Subject To Culture	12,228
TB Positive on Culture	2,681

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs how many badgers were culled in each reactive area as part of the Independent Science Group study into bovine TB. [144928]

Mr. Bradshaw: The table lists the numbers of badgers culled in the reactive treatment areas of the Randomised Badger Culling Trial.

Numbers of badgers culled in reactive treatment areas of randomised badger culling trial

Triplet	*Name of reactive treatment area*	*Number of badgers culled*
A	Blaisdon	117
B	Hartland	301
C	Otterham	394
D	Puddlestone	122
E	Cold Ashton	188
F	Stithians	435
G	Nettley Knowle	256
H	Brendon Hills	159
I	Alderton	94
J	Cadbury	0

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has for post movement testing of cattle for exposure to M.bovis; and what assessment she has made of the implications of such testing *(a)* within four months of movement and *(b)* by the date of the next due test of the herd from which the animal came. [144436]

Mr. Bradshaw: All farmers have been sent a leaflet "Golden rules for a healthy herd", which advises purchasers to check the disease status of cattle prior to purchase and to consider arranging a private TB test for their herd.

In February 2003, the Secretary of State for Environment, Food and Rural Affairs announced a review of our bovine tuberculosis strategy. Early in the new year we will be publishing a consultation document which will represent the outcome of the first stage of that review. The consultation document will include proposals for short term measures for reducing the risk of geographic spread of bovine TB from high to low incidence areas, including consideration of proposals for the pre and/or post movement testing of cattle.

When considering post-movement testing of cattle sold from farm to farm, we have envisaged that, as a general rule, such tests would be administered between 60 and 120 days after movement (i.e. 2–4 months post movement). This is to ensure that a minimum of 60 days have elapsed since the last test and since any potential exposure to M.bovis on the premises of origin, to avoid problems of de-sensitisation caused by recent testing and to allow for the normal delay in the development of a response to the skin test. Knowledge of whether a pre-movement test had taken place and when, would allow the post movement test to be better targeted.

Assuming post-movement testing is carried out as outlined, the date of the next due test of the herd of origin need not be considered.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the recognised minimum time required is from exposure of cattle to M.bovis to an immune response which will show in the skin test used by her Department. [144437]

Mr. Bradshaw: The immune response elicited by Mycobacterium bovis in cattle takes several weeks to develop to a stage where it is detectable. For the single intradermal comparative test used in the UK and Ireland, this period of "unresponsiveness" or latency varies between 30 and 50 days.

To allow for random and natural variation in the latency period of individual animals, the legislation requires repeat testing to be carried out at intervals of at least 60 days from the date of the removal (or isolation) of all the reactors identified at the previous skin test.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what significant variations in incubation period have been observed in herd breakdowns involving several cattle reactors resulting from infection with M.bovis. [144439]

Mr. Bradshaw: Many factors influence the progression of Mycobacterium bovis, infection into detectable disease, including the strain of the bacterium, size of bacterial challenge and route of infection. Other factors include affected animal (species, breed, genotype, age) or the effects of its environment (nutritional status, stress, other infections and environmental bacteria).

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs how many strains of M.bovis have been found in *(a)* cattle and *(b)* badgers in the UK; and what assessment has been made of the virulence of each strain. [144440]

Mr. Bradshaw: M.bovis isolates are routinely typed using a DNA fingerprinting technique called spoligotyping. In Great Britain 30 different spoligotypes have been identified in cattle and in 16 badgers. Of those in cattle, 12 of those account for 99 per cent. of the isolates.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of whether development of lesions in cattle following exposure to M.bovis is the result of *(a)* a more virulent strain, *(b)* the level of infective dose and *(c)* the frequency of the infective dose. [144441]

Mr. Bradshaw: The pathogenesis of bovine TB is not yet fully understood. As a result, Defra is funding several research projects into the pathogenesis and immunology of the disease.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the average length of herd breakdown was in *(a)* 2002–03 and *(b)* 1998; how many 60 day tests were needed to clear (i) suspect and (ii) infected herds in each year; and what the cost of the tests were. [144442]

Mr. Bradshaw: The information is as follows:

(a) The average duration of TB incidents ending in 2002 was skewed by those herds already restricted when TB testing was suspended during the foot and mouth disease outbreak of 2001. The figures for TB incidents ending in 2002 (the last year for which statistics are available) were as follows: unconfirmed incidents—149 days; confirmed incident—291 days.

(b) The mean length of unconfirmed new TB incidents (herd breakdowns) ending in 1998 was 114 days, i.e. slightly less than two short interval (60-day) tests. In the same year, the mean length of confirmed new incidents was 208 days.

Information on the cost of tests needed to clear unconfirmed and confirmed herd incidents in each year is not readily available and can be obtained only at a disproportionate cost.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of badgers which appeared TB free in post-mortem examination were culture positive to M.bovis, in the last year for which figures are available. [144443]

Mr. Bradshaw: The last year for which data are available is 1999. These are from Badger Removal Operations and the Road Traffic Accident (RTA) survey that predate the Randomised Badger Culling Trial and associated RTA survey.

In 1999, 874 badger carcasses were considered suitable for post-mortem examination. 753 displayed no visible lesions suggestive of TB. Mycobacterium bovis was isolated in 54 of these.

Therefore, the proportion appearing TB free at post-mortem, but culture positive for m. bovis is 7.2 per cent.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of cattle showed no visible lesions in post mortem examination but were culture positive for M.bovis, in the last year for which figures are available. [144444]

Mr. Bradshaw: Last year, 6,600 samples were sent for laboratory culture after no visible lesions were found at post mortem. Mycobacterium bovis was successfully cultured in 5.6 per cent. of these.

Bovine TB (Badgers)

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of whether badgers infected by TB may excrete urine from which viable m. bovis bacilli may be isolated; what the typical quantities per millilitre are; and whether such levels are capable of causing infection in cattle through *(a)* contamination of feed and *(b)* other mechanisms. [144445]

Mr. Bradshaw: Some badgers develop TB infection in the kidneys 37 per cent. of infected badgers sampled post mortem between 1971 and 1978 m. bovis was isolated from the kidneys and may excrete m. bovis bacilli in urine. Urine is typically left in trails up to a metre or

more in length and may be focussed at a latrine or distributed more randomly as the badger forages. Concentrations of up to 300,000 bacilli per ml of badger urine have been reported and experimental nasal inoculation of cattle suggests that, at this concentration of viable microbes, less than 0.03 ml would need to be inhaled by cattle in order to promote slow infection.

Investigations into infection of cattle from feed and other sources contaminated with infected badger urine are lacking. However, risk of infection to cattle by infected badger urine on cattle feed would be a function of the survival of the microbe in the feed (which is dependent on, for example, duration since excretion, moisture content of the environment, exposure to UV rays) the number of microbes consumed by the cattle and the method of consumption (i.e. ingestion or inhalation). I am unaware of measurements of m. bovis survival in cattle feed but the environment inside farm buildings is generally considered to be conducive to longer periods of survival than at pasture, where m. bovis in badger urine has survived for three days in summer and 28 days in winter.

Cattle appear less able to detect badger urine than faeces at pasture away from latrines. In addition, patches contaminated with urine detected by cattle appear to be sniffed more than those contaminated with faeces. Furthermore, some cattle do not select against latrines and freely graze over them. Therefore, potential sources of risk of cattle contact with infected badger urine include the ingestion of contaminated feed from feed stores or in troughs; investigation/grazing at and around latrines; and the investigation/grazing of contaminated pasture.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what controls there are on the movement of wild badgers, for relocation elsewhere, with particular reference to Krebs trapping areas. [144446]

Mr. Bradshaw: Badgers are a protected species and it is an offence to take (or attempt to take) a badger from the wild, including for the purpose of relocation elsewhere (Protection of Badgers Act 1992, s.1(1)). A person guilty of this offence is liable on summary conviction to imprisonment for up to six months and/or a fine of up to £5,000.

There are certain exceptions to this offence, two of which are specifically relevant to the issue of relocating badgers. These are the treatment of injured or sick badgers, and relocations licensed by the appropriate statutory conservation agency or agricultural department (English Nature and Defra, respectively, in England).

Under section 6, a person is not guilty of an offence by reason only of:

"*(a)* taking or attempting to take a badger which has been disabled otherwise than by this act and is taken or to be taken solely for the purpose of tending it".

As a native species, there are no specific restrictions under current law regulating where badgers are released once they have recovered. Normally, once fit enough to be released into the wild, the badger will be returned to the location where it was originally found. This approach is recommended on welfare grounds due to their territorial nature, and also to avoid any risk of transmitting disease. However, there are situations in which this course of action may not be feasible (particularly in the case of orphaned cubs).

There is a voluntary code of practice covering the rehabilitation and release of badgers, and this has a precautionary approach aimed at minimising the risk of transmitting bovine tuberculosis (TB). All badgers to be relocated are tested for TB three times. Only animals testing negative to all three tests are released and any animal testing positive is euthanased. The code also requires that all released badgers are permanently marked (by a tattoo or microchip) and registered. The code is available via the internet at: http://www.badger.org.uk/action/badger-rehabilitation-protocol-contents.html

Under section 10 of the Act, licences may be issued to permit badgers to be taken from the wild (and relocated if necessary) for a limited range of specified purposes, including scientific investigation, preventing the spread of disease, and preventing serious damage to property.

Relocating badgers is only permitted where there is considered to be a very low risk of transmitting TB, and before any badgers are released at a new location all animals are tested three times for the disease. All badgers testing positive to any of the three tests, or in contact with a badger testing positive, are euthanased.

Badgers are not relocated as part of the Randomised Badger Culling Trial (the so-called Kreb's trial), and the Independent Scientific Group on Cattle TB have advised that are no special arrangements relating to the relocation of badgers in trial areas.

Combined Heat and Power

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what incentive she provides for energy companies to set up combined heat and power initiatives; and what assessment she has made of the benefits for consumers. [142039]

Mr. Bradshaw: Incentives introduced recently to encourage CHP schemes include: exemption of Good Quality CHP electricity from the Climate Change Levy; eligibility of Good Quality CHP for Enhanced Capital Allowances and business rates exemption on plant and machinery. Consumers benefit financially from CHP by saving up to 40 per cent. on fuel bills. There are also environmental benefits through reduced carbon emissions. Energy companies can also use CHP as a measure to meet their Energy Efficiency Commitment targets.

Committee on Radioactive Waste Management

Dr. Jack Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs if she will take steps to ensure that the knowledge and experience of the management of nuclear materials held by people in West Cumbria are represented on the Committee on Radioactive Waste Management; and if she will make a statement. [142447]

Mr. Morley *[holding answer 9 December 2003]*: CoRWM members have been appointed upon the basis advertised on 26 March 2003 and in line with procedures laid down by the Office of the Commissioner for Public Appointments. This provided a good field of over 400 candidates for membership, from which we have been able to appoint a strong committee.

CoRWM's task will be to oversee a debate and assessment, involving both the public and stakeholder groups, of the way in which the UK's higher activity radioactive wastes should be managed over the long term and to provide UK Government and devolved administration Ministers with recommendations.

CoRWM is an independent body that itself decides how it conducts its work. But it is clearly important that West Cumbria should be strongly represented in the debate which CoRWM will be launching and overseeing. The committee must deliver recommendations that can be seen to have a broad degree of support, and the views of the people of West Cumbria will be particularly significant given their experience and the stake that they have in the safe management of the UK's radioactive waste. CoRWM is required to take into account all views supplied to it in arriving at its recommendations.

Common Agricultural Policy

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the impact of the Common Agricultural Policy reform package of 26 June on tenant farmers in the UK. [143553]

Mr. Bradshaw: No specific assessment has been undertaken of the impact of the CAP reform proposals on tenant farmers. However, we have assessed the impacts of the proposals on farming and other businesses generally in England, including an analysis by farm activity, and a summary of these is included in the Regulatory Impact Assessments which have been lodged in the House Libraries. An additional analysis looking at the impact on distribution of payments of various options for operating the Single Payment Scheme has also been carried out and a copy has been placed in the Library of the House. Our economists are continuing to analyse the potential impact of different methods of making the Single Payment.

For the first time, the bulk of farm subsidy will not be dependent on what or how much farmers produce. As with the previous system, subsidy would be paid to the farmer, whether owner or tenant, will continue to hold the subsidy entitlement. Tenant farmers, along with other farmers, will therefore be free to produce what they judge the market wants and so be better able to cut costs and increase profits. Farmers will also be freed from some of the bureaucracy associated with the subsidy schemes which are being replaced by the new decoupled subsidy.

Mr. Wills: To ask the Secretary of State for Environment, Food and Rural Affairs what the total cost of the common agricultural policy in the United Kingdom was to *(a)* consumers and *(b)* taxpayers; and what the costs were to (i) United Kingdom taxpayers and (ii) consumers, broken down by agricultural commodity supported by the common agricultural policy in the most recent year for which figures are available. [144459]

Mr. Bradshaw: The consumer cost of the CAP can be estimated by examining the difference between UK and world prices for agricultural food products. Our latest provisional estimates for 2002 show a cost of the CAP to consumers of around £3.3 billion.

The notional taxpayer contribution to CAP expenditure can also be estimated though, in practice, UK taxpayers contribute to the whole EU budget rather than to specific components. We estimate that, in 2002, this notional cost to UK taxpayers of expenditure under the CAP was around £3.5 billion.

The following table shows an approximate breakdown of consumer support between agricultural commodities. These estimates have, in the main, been compiled using the methodology utilised by the OECD to produce their estimates of the Consumer Support Estimate. It should be noted that the aggregate estimates will be more robust than estimates for the individual commodities. It is particularly difficult to determine the appropriate gap between UK and world prices for products whose specification varies, such as fruit and vegetables, or pigs, eggs and poultry.

£ million

Commodity	*Cost*
Cereals	30
Sugar beet	130
Milk	920
Beef and veal	770
Pigs, eggs and poultry	700
Fruit and vegetables	290
Others	470

UK taxpayers contribute to the entire EU budget rather than to specific programmes. Whilst it is possible to provide an illustrative estimate of the notional contribution to the FEOGA budget, it is not feasible to do so by commodity. However, the following table sets out the share of FEOGA spending by sector.

CAP categories	*Share of expenditure (percentage)*
Arable crops	43
Sugar	3
Oils, fats and protein plants	6
Fruit and vegetables	4
Wine	3
Tobacco	2
Milk products	5
Meat, eggs and poultry	18
Various markets	3
Other operations	3
Rural development	10

Correspondence

Mr. Kaufman: To ask the Secretary of State for Environment, Food and Rural Affairs when she will reply to the letter to her dated 10 November from the right hon. Member for Manchester, Gorton with regard to Mr. Darren Pennington. [144640]

Alun Michael: My right hon. Friend the Secretary of State replied to my right hon. Friend's letter on 23 December 2003.

Crop Areas

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs if she will establish an independent inquiry into errors made by the Department in respect of the wheat area for this year's harvest. [143592]

Mr. Bradshaw: The cause of the error in the estimation of this year's crop areas has already been identified. In using the IACS data to augment the census basis, the mistake was made of mixing up holdings and businesses. It was a simple mistake. A modification has been made to the computer program to ensure that it is not repeated in the future. The department will be working with its independent statistical advisors to improve the system and processes. In the circumstances there is no need to conduct a separate independent inquiry.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs if she will impose penalties on her Department's staff responsible for supplying incorrect details of the wheat area for this year's harvest. [144404]

Mr. Bradshaw: A genuine error was made which was quickly corrected when spotted. The imposition of penalties is not appropriate in these circumstances. Defra operates a formal appraisal system for its staff which involves all aspects of their performance.

Dee Cockle Regulation Order

Mr. Ben Chapman: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects the Dee Cockle Regulation Order to be implemented. [144780]

Mr. Bradshaw: Defra and the Welsh Assembly Government will act jointly to make a single Regulating Order under the Sea Fisheries (Shellfish) Act 1967 once the prospective grantee, the Environment Agency Wales, is in a position to submit a formal application for the order. The agency is in the process of obtaining written consents from landowners and it will forward an application when these are received.

We will ensure that the application is processed as quickly as possible under the terms of the 1967 Act but the process can take up to two years.

Environmental Taxation

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of GDP is raised in *(a)* the UK and *(b)* each other country belonging to the OECD as environmental taxation, (i) including and (ii) excluding taxation of energy. [143289]

Mr. Morley: The OECD's latest published figures for environmental taxation as a percentage of GDP are given in the following table. The environmental tax estimates include energy taxes but these are not published separately.

Member country	*Environmental taxation as a percentage of GDP in 2001 for each OECD member country*
Australia	1.93
Austria	3.01
Belgium	2.27
Canada	1.33
Czech Republic	2.93
Denmark	4.70
Finland	3.03
France	2.22
Germany	2.58
Greece	2.53
Hungary	2.72
Iceland	2.50
Ireland	2.36
Italy	Not available
Japan	1.74
Korea	3.40
Luxembourg	2.86
Mexico	1.75
Netherlands	3.65
New Zealand	1.57
Norway	3.05
Poland	1.95
Portugal	2.94
Slovak Republic	2.06
Spain	1.89
Sweden	2.80
Switzerland	2.20
Turkey	3.79
United Kingdom	2.85
United States	0.96

Envirowise

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list services offered by Envirowise that are not available from the private sector; what steps she has taken to invite the private sector to undertake services offered by Envirowise; and when they were taken. [144577]

Mr. Morley: Envirowise provides a range of services to business to promote best practice in preventing and minimising waste in all its forms, reducing pollution and making the most effective use of resources. The programme provides the Environment and Energy Helpline; a dedicated website; best practice publications; and on-site visits. All of these services are provided free of charge to UK businesses.

The programme helps companies to recognise the need to improve their efficiency, and gives them sufficient information to start taking action. Companies may then either build on this activity themselves, or engage private sector service providers.

Envirowise services are delivered jointly by two private sector companies through a contract won in open tender, following an invitation to tender published in the *Official Journal* in August 1999. The contract requires more than 50 per cent. of the Programme to be sub-contracted, and the managing contractors use over

200 other contractors each year. This includes over 80 specialist consultants on its Helpline panel, who are appointed through open tender every two years.

Flood Protection

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 9 December, *Official Report*, column 378W, on flood protection, what the relationship of flood defence committees to internal drainage boards is. [145038]

Mr. Morley: The Environment Agency (EA) is the principal flood defence operating authority in England and Wales. Generally speaking, the EA is empowered under the Water Resources Act 1991 for managing flood risk arising from designated "main" rivers and the sea. The EA is also responsible for flood forecasting and flood warning dissemination, and for exercising a general supervision over matters relating to flood defence.

Regional Flood Defence Committees in England and Wales are made up of Defra, EA and Local Authority appointed members, and they are responsible for undertaking flood defence activities on behalf of the Environment Agency.

Internal drainage boards (IDBs) are statutory bodies, empowered under the Land Drainage Act 1991 to undertake flood defence works for watercourses which have not been designated as "main", in specified districts with special drainage needs.

Although there are no formal relationships or guidance for membership between the RFDCs and IDBs, there is nothing to stop an individual member occupying a position on the committee of both an RFDC and an IDB in their area, and in some instances this is the case.

Food Miles

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what studies her Department has funded since 1997 into food miles; and what the conclusions and recommendations were. [144558]

Mr. Bradshaw: Defra has commissioned a group of researchers, led by AEA Technology, to examine the validity of food miles as a quantitative measure of progress in the sustainable development of the farming and food industries. This research is expected to be completed in spring 2004.

Defra has also contributed a small amount of funding, along with other stakeholders, to a Transport 2000 study to model various transport distribution scenarios for a 'basket' of three food products. The study examined whether a shift to sourcing these products more locally would lead to greater or fewer CO^2 emissions in the supply chain overall. Transport 2000 has recently published the results of this work in "Wise Moves—exploring the relationship between food, transport and CO_2".

Food Prices

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what the average *(a)* farmgate and *(b)* retail price was of (i) one kilogram of (A) beef, (B) lamb, (C) pork, (D) chicken, (E) turkey, (F) bacon, (G) dessert apples, (H) potatoes, (I) carrots, (J) cauliflower, (K) peas, (L) runner beans, (ii) one pint of *(x)* milk, *(y)* cream and *(z)* yoghurt, (iii) one dozen eggs and (iv) one litre of (X) English wine and (Y) brandy in each year since 2000 for which figures are available, broken down by (1) organic and (2) conventionally produced foodstuffs. [144206]

Mr. Bradshaw *[holding answer 15 December 2003]:* The farm gate and retail prices of conventionally grown foodstuffs for 2000 to 2002, where available, are shown in the table. Prices are not collected for English wine or brandy. Small quantities of cream and yoghurt are sold to the consumer at retail prices. The amount of processing taking place between farm gate and retail varies from commodity to commodity; an indication is given in the table. Farm gate prices include produce destined for highly processed food, which is normally lower quality and sells at a lower price.

No further information is available for prices of organically produced food.

Conventionally grown produce

			2000 (£)	2001(£)	2002 (£)	Indication of further processing
Beef	Farmgate value *(a)*	£/kg	1.69	1.64	1.70	
	Retail value *(b)*	£/kg	3.80	3.77	3.84	slaughtered, trimmed and cut
Lamb	Farmgate value *(a)*	£/kg	1.90	1.97	2.36	
	Retail value *(b)*	£/kg	4.52	4.78	4.84	slaughtered trimmed and cut
Pork	Farmgate value *(a)*	£/kg	0.95	0.97	0.94	
	Retail value *(b)*	£/kg	2.00	2.21	2.26	slaughtered, trimmed and cut
Chicken	Farmgate value *(c)*	£/kg	0.71	0.70	0.69	
	Retail value *(d)*	£/kg	2.23	2.27	2.24	slaughtered
Turkey	Farmgate value *(c)*	£/kg	1.30	1.24	1.13	
	Retail value	£/kg	n/a	n/a	n/a	slaughtered
Bacon	Farmgate value *(a)*	£/kg	0.95	0.99	0.96	
	Retail value *(b)*	£/kg	3.10	3.55	3.54	slaughtered, trimmed and cut
Apples, dessert	Farmgate value *(e)*	£/kg	0.35	0.36	0.45	
	Retail value *(g)*	£kg	1.08	1.17	1.21	packing and grading where off farm

Foot and Mouth

Brian Cotter: To ask the Secretary of State for Environment, Food and Rural Affairs how much has been spent by her Department in investigating the validity of payment claims submitted by businesses to her Department for work undertaken in connection with the foot and mouth crisis. [145319]

Mr. Bradshaw *[holding answer 5 January 2004]:* To date, and from information held centrally, the Department has spent £19.81 million on professional services investigating the validity of payment claims submitted by businesses for the £1.3 billion expenditure on goods, services and works arising out of the 2001 foot and mouth disease outbreak.

Brian Cotter: To ask the Secretary of State for Environment, Food and Rural Affairs how many invoices have been settled after the due date by her Department in relation to work undertaken by businesses in connection with the foot and mouth crisis; what the combined value was of the original invoices submitted; and how much interest has been paid on these settlements in accordance with the Late Payment of Debt Act 1998. [145320]

Mr. Bradshaw *[holding answer 5 January 2004]:* The Department believes that, on the basis of the professional advice it has received, in almost all cases, no due date has arisen because Defra has legitimate grounds for withholding payments. This includes instances where the due date has not yet arisen because the businesses have not provided sufficient and necessary evidence to enable their charges to be verified.

The Department's payment terms are the payment of valid invoices within 30 days of receipt and agreement of valid invoices for goods, services and works requested by the Department. The Department is disputing payment in those cases where it believes on the basis of the quantum, accounting, legal and technical advice it has received that it was overcharged for goods, services and works during the foot and mouth disease outbreak. In all other cases bar the one identified as follows, the Department believes it has paid businesses in accordance with contractually agreed terms for the goods, services and works provided in connection with the outbreak.

The Department believes that the direct cost to the public sector of the expenditure on goods, services and works during the outbreak was £1.3 billion. The Department is still receiving invoices from contractors some 24 to 29 months after the outbreak in 2001. These are the subject of forensic examination and investigation.

To date, the Department has received 11 claims for interest allegedly due on the late payment of commercial debts. These total £132,879.23. Applying the terms of the Late Payment of Commercial Debts (Interest) Act 1998 to these claims has resulted in the agreement and payment of £4,057.90 of the claimed sum. All claims are considered on the facts of that claim.

Brian Cotter: To ask the Secretary of State for Environment, Food and Rural Affairs how many invoices submitted by businesses to her Department for work undertaken in connection with the foot and mouth crisis have not yet been paid; what the total value is of these unpaid invoices; and how many invoices have been outstanding for a period of more than *(a)* 30 days, *(b)* six months, *(c)* one year and *(d)* two years. [145321]

Mr. Bradshaw *[holding answer 5 January 2004]:* Information as to how many invoices submitted to businesses for work undertaken in connection with the foot and mouth disease outbreak have not yet been paid can be provided only at disproportionate cost for the following reasons: the facts of each case are not necessarily similar; some contractors issued few large value invoices; some contractors issued significant numbers of lower value invoices; other contractors submitted statements of account or applications for interim payment; some invoices are rejected in their entirety; other invoices are rejected in part; forensic examination of contractor accounts focuses on the valuation of the entire account.

A large number of businesses received significant payments on account pending final verification of their charges. Other businesses were paid in full or partially

paid in the honest belief at the time that their charges were valid only for subsequent examination and investigation to reveal that legitimate grounds existed and continue to exist for Defra seeking to recover these payments by way of restitutionary proceedings.

Currently, the Department is withholding £55.698 million from businesses in connection with charges arising from the provision of goods services and works during the outbreak. This figure will increase as the Department is continuing to receive invoices from some contractors which the Department on the basis of forensic examination and investigation will not be accepting as valid.

As the Department has paid businesses on the basis of the contractual terms agreed it does not believe there are any valid unpaid and outstanding invoices, submitted by businesses to the Department, for work undertaken in connection with the foot and mouth outbreak.

The Department is disputing payment in those cases where it believes on the basis of the quantum, accounting, technical and legal advice it has received that it was overcharged for goods, services and works during the outbreak. In all other cases, the Department has paid businesses for the goods, services and works provided in connection with the outbreak in 2001.

The Department understands from the Forum of Private Business that the All Party Parliamentary Small Business Group has, or is collecting, evidence that 20 or so contractors are still owed in excess of £10 million for goods, services and works claimed to have been provided during the outbreak in 2001. The Group has pledged it will write to the Department on these cases and Defra will respond once the evidence is to hand.

Brian Cotter: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the average amount of time taken by her Department to investigate the validity of each payment request submitted by a business to her Department for work undertaken in connection with the foot and mouth crisis. [145322]

Mr. Bradshaw *[holding answer 5 January 2004]:* I refer the hon. Member to Recommendations 12 and 13 of the National Audit Office Report into 'The 2001 Outbreak of Foot and Mouth Disease'. The report can be found on the National Audit Office website at www.nao.gov.uk. I also refer the hon. Member to section (xiii) page 9 of the Fifth Report of Session 2002–03 on 'The 2001 Outbreak of Foot and Mouth Disease', issued by the House of Commons Committee of Public Accounts on 5 March 2003. The Report, together with Proceedings of the Committee, Minutes of Evidence, and an Appendix is available at www.parliament.uk.

The Department, along with other Departments in Civil Central Government, reports its payment performance annually to Parliament.

The Department is unable to provide an estimate of the average amount of time taken to investigate the validity of each payment request submitted by a business to the Department for work undertaken in connection with the foot and mouth outbreak. The variable nature of the factors governing the processing of the accounts renders any average figure meaningless. These factors include but are not limited to the following:

(i) the absence of any substantiating evidence on the part of some businesses including the supply of basic records evidencing the work done;

(ii) some businesses refusing to co-operate with the Department in relation to the supply of such information, directly contributing to the time taken to process their accounts, and where such refusal has led to the Department valuing the account on the evidence available to it;

(iii) some businesses seeking payment applying the incorrect contractual rates or being obliged to re-invoice Defra months, and in some cases years, after the original invalid charges;

(iv) the Department is still receiving invoices for alleged work done some 2½ years after the foot and mouth disease outbreak;

(v) the Department is unable to proscribe with certainty the timescales for forensic examination, investigation, litigation and alternative disputes resolution procedures.

The Department has a public law duty to protect the public purse and will do so unfailingly in all circumstances where the evidence is sufficient and necessary to meet legal requirements in either a civil or criminal context.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs if she will introduce vaccination as a means of preventing the spread of foot and mouth disease as part of the Foot and Mouth Contingency Plan. [144177]

Mr. Bradshaw: Prophylactic vaccination remains prohibited under the new EU Directive 2003/85 on the control of foot-and-mouth disease (FMD). However, the Directive does give greater prominence to the potential use of emergency vaccination in the event of an outbreak.

The Government's response to the independent inquiries into the 2001 FMD outbreak acknowledged that emergency vaccination would be considered as part of the control strategy from the start of any future outbreak of FMD, where measures additional to culling of susceptible animals on infected premises and dangerous contacts were needed. The latest version of Defra's FMD Contingency Plan includes details on the arrangements that are in place to allow for emergency vaccination in a future outbreak.

Grocery Retailers

Barbara Follett: To ask the Secretary of State for Environment, Food and Rural Affairs what the firm concentration ratios, adjusted for buying groups, are for grocery retailers in the European Union. [144027]

Mr. Bradshaw: The latest available estimates of five firm concentration ratios for grocery retailers, adjusted for buying groups, are shown in the following table for individual EU member states and the EU as a whole

Five-firm concentration ratios in grocery retailing, adjusted to include buying groups, 1999

	Market share (percentage points)
Austria	58.6
Belgium/Lux	66.0
Denmark	76.6
Finland	70.5
France	64.7
Germany	52.5
Greece	33.5
Ireland	58.3
Italy	26.4
Netherlands	71.7
Portugal	67.0
Spain	63.7
Sweden	80.6
UK	56.2
EU-15 (weighted average)	60.5

Source:
London Economics

Barbara Follett: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of UK farmers sold direct to retailers in the last month for which figures are available. [144028]

Mr. Bradshaw: The information requested is not available.

Hazardous Waste

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the Secretary of State for Transport on the change in heavy vehicle traffic with hazardous loads following the implementation of the Hazardous Waste Requirements of the Landfill Directive in July 2004. [144913]

Mr. Morley: My right hon. Friend sees the Secretary of State for Transport frequently during which a range of topics is discussed. From July 2004, hazardous waste going to landfill will have to be treated to reduce its volume and/or its hazardous nature, facilitate its handling or enhance recovery. Over time, implementation of the Landfill Directive will also encourage greater wasteminimisation at source.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the impact of the Hazardous Waste Requirements of the Landfill Directive on residue disposal options for the metal recycling sector. [144914]

Mr. Morley: A number of very constructive meetings have been held with metals recycling interests to discuss disposal of residues. Those interests are also represented on the Hazardous Waste Forum. Options for dealing with residue disposal have been identified and these are being considered by the industry. As the Government is committed to reducing the UK's reliance on landfill, which makes little practical use of waste and is a missed opportunity to recover value from waste, it wishes to do all it can to encourage and support the recycling sector.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the top 20 producers of hazardous waste by mass; and what the extent is of their in-house disposal facilities. [144915]

Mr. Morley: The top twenty producers of hazardous waste by mass in England and Wales are listed below. The amounts involved are of waste consigned and therefore not going to in-house facilities. Data on waste going to in-house facilities is only held by the Environment Agency in an aggregated form.

Airbus UK, Chester
Baker Refractories, Worksop, Nottinghamshire
Beckton Gas Works, London
Blueprint, Portsmouth
Castle Waste Services Ltd, Derbyshire
Centre of Excellence, Rainham, Essex
Fine Organics Ltd, Middlesbrough
Former Gasworks, Cambridge
Imco Recycling UK Ltd, Swansea
Kane Haulage Ltd, Felsted
Lattice Property, Bradford
Milford Haven Dock, Dyfed
Pembroke Dock, Dyfed
Rugby Cement, Rugby
Safety Kleen UK Ltd, Dinnington, Sheffield
Solvent Resource Management Ltd, North Shields, Tyne and Wear
Solvent Resource Management Ltd, Morecambe
Taylor Woodrow Construction, Newcastle upon Tyne
Waste Recycling Group, Sheffield
Wyeth-Ayerst Ltd, Gosport, Hants

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the actions taken to meet the hazardous waste requirements of the Landfill Directive by *(a)* her Department and *(b)* those departments which previously held responsibility. [144916]

Mr. Morley: Actions taken by this Department and the Department of the Environment, Transport and the Regions to implement the 1999 Landfill Directive in England on diverting waste from landfill include:

preparation and issue of Waste Strategy 2000;

six rounds of public consultation on aspects of the Landfill Directive;

setting up four stakeholders groups—including the Hazardous Waste Forum, and the Landfill Directive Implementation Group which is looking at the implementation of the Council Decision on waste acceptance criteria;

the Hazardous Waste Forum has published an action plan on the reduction and environmentally sound management of hazardous waste;

guidance material issued by the Environment Agency;

organising seminars and taking part in those organised by others (e.g. the Environmental Services Association and the Chemical Industries Association);

bilateral meetings with a wide range of industry and other interests;

commissioning research and other projects (either direct or though the Hazardous Waste Forum or the Environment Agency);

setting up the Waste and Resources Action Programme to develop markets for recycled materials (so diverting waste away from landfill);

introducing the Aggregates Levy Sustainability Fund to support projects that use waste materials (e.g. construction and demolition waste) to replace primary aggregates.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what action the Government is taking to ensure that small businesses do not dispose of hazardous waste in the domestic waste stream following implementation of the Hazardous Waste Requirements of the Landfill Directive. [144917]

Mr. Morley: The Hazardous Waste Forum is producing an action plan that includes educating waste producers on their responsibilities. The Environment Agency is responsible for regulating waste legislation and it too will seek to ensure that all producers of hazardous waste act in a responsible manner.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of hazardous waste was non-reactive in the last year for which figures are available. [144918]

Mr. Morley: This information is not available. The Environment Agency collects and records hazardous waste information that is provided by site operators. The Special Waste Regulations 1996 (as amended) do not require producers of special or hazardous waste to record whether or not waste being produced or disposed of is non-reactive.

Landfill Allowance Trading Scheme

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the delay to the start of the landfill allowance trading scheme until 2005–06, including reference to the reasons for the delay; what assessment was made of the impact of the delay on the ability of the United Kingdom to meet the targets in the Landfill Directive; and what further steps have been taken to form a policy on whether or not to fine waste disposal authorities that fail to meet their landfill allowance targets. [143090]

Mr. Morley *[holding answer 9 December 2003]*: The decision to delay the implementation of the Landfill Allowance Trading Scheme until 2005 which was announced by the Minister of State for Local and Regional Government on 19 November 2003, was made to help reduce spending pressures on local government in 2004–05. It does, however, reflect the views of local authorities which we have received through our consultation on the implementation of the Scheme, that they needed more time to prepare for this new Scheme which is a significant departure from their normal operations. The delay in starting the scheme will mean that waste disposal authorities will have to make steeper annual reductions in the amount of biodegradable waste they landfill in order to meet the first target year of 2010 but they will have more time to plan how to do this.

Policy on the remaining issues included in the consultation on the Scheme will be decided once all of the responses have been fully analysed and will be announced in the New Year.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs whether the Government will set a ceiling on trading prices for landfill allowances. [144912]

Mr. Morley: No. The Government does not consider it appropriate to set a maximum price for allowances as this may lead to market distortion. However, the financial penalty for holding fewer allowances than the amount of biodegradable waste landfilled will act as a de-facto ceiling because local authorities are unlikely to purchase allowances if they cost more than the price of paying the penalty.

Livestock Disposal

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on progress towards the setting up of the livestock disposal scheme indicating what level of interest there has been in participating; and what particular measures are being considered to include the pig and poultry industry. [144929]

Mr. Bradshaw: It is still the intention that the National Fallen Stock Scheme should begin early in the new year. It is too early to judge the likely interest in participation, but the scheme has the full backing of the farming organisations and it should save money for farmers who would otherwise have to make their own disposal arrangements. Conditions for the pig and poultry industry will need to reflect the particular requirements of the intensive sector.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on what business form the Livestock Disposal Agency will take; and what relationship exists between the Government and the National Farmers' Union. [144930]

Mr. Bradshaw: The National Fallen Stock Scheme will be run by a Company limited by guarantee, initially owned by Defra and the Devolved Administrations. Its long term structure will need further discussion with the livestock industry as the intention is to transfer ownership in due course. Both the Government and the National Farmers' Union are committed to a partnership approach to developing and running the Scheme.

Orchard Fruit Survey

Hugh Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what the results were of the Orchard Fruit Survey, in hectares of fruit trees, for each of the six years to July 2003. [143919]

Mr. Bradshaw *[holding answer 15 December 2003]*: The table shows the total tree area (including apples, pears, plums, cherries and other top fruit) of the Orchard Fruit Surveys 1998–2003.

Orchard Fruit Survey, England and Wales

	Total tree area (hectares)
1998	21,981
1999	21,483
2000	20,823
2001	21,104
2002	18,739
2003	17,671

Parasiticides

Malcolm Bruce: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment her Department has made of the *(a)* use and *(b)* resistance to anthelmintics in the UK; and if she will make a statement on (i) anthelmintics, (ii) flukicides and (iii) similar Pharmacy and Merchants List drugs being under veterinary dispensing control. [145222]

Mr. Bradshaw: Data on use of veterinary medicines is not normally collected, although the Veterinary Laboratories Agency (VLA) were involved in a survey on liver flukes and the use of flukicides in August 2002. The VLA have also conducted a number of related investigations over the past 20 years as part of MAFF and Defra funded research into resistance to anthelmintics. These have found that in the UK resistance is most commonly seen in sheep and goat nemotodes. Defra is currently funding a research project entitled "The development of computerised models for use in integrated parasite control strategies designed to optimise anthelmintic usage".

In addition, the sheep industry has been involved in producing some short-term strategies to slow the development of anthelmintic resistance in internal parasites of sheep in the UK and a leaflet on the subject is on the Defra website www.defra.gov.uk/animalh/diseases/control/parasite_control.htm

In the sheep industry, anthelmintics are widely used because diseases such as parasitic gastroenteritis are economically important and avoidance of anthelmintic resistance is a high priority. The strategies aim to reduce use by means of more targeted applications, which at the same time may limit the development of resistance.

Before a marketing authorisation for a veterinary medicinal product is granted, applicants must submit data which among other requirements must demonstrate that the product is efficacious under the proposed dose regime. This is scientifically assessed and potential future resistance is considered as part of this assessment. There are currently some 300 medicinal products authorised as anthelmintics and an additional 11 which also are authorised as flukicides. Less than 60 per cent. of these are supplied under the Pharmacy and Merchants List. There is no evidence that the route of supply of individual products has any effect on resistance.

Pesticides

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* minutes or other records were taken and *(b)* decisions were made at the Pesticide Safety Directorate stakeholder meetings on (i) 13 October and (ii) 24 October. [146089]

Alun Michael: Meetings were arranged with key stakeholders to discuss the issues raised by the informal consultation exercise on public access to information on pesticide use.

Attendees were invited to give their views and suggestions concerning the type of system that might be introduced to notify residents of forthcoming spray activities (including the form any notification would take and the period before use when notification should be given). They were also asked how access might be provided to those wishing to see records of past spray activities.

Notes were taken of the views of attendees and the practical suggestions they made. These are being considered, alongside the written submissions made in response to the informal consultation.

Plant Imports

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs whether she will seek *(a)* sanctions against and *(b)* compensation from (i) the Netherlands and (ii) other nations found to have failed adequately to check the infectivity of plants exported to the UK for commercial sale. [143664]

Mr. Bradshaw *[holding answer 11 December 2003]:* A Defra plant health official and an industry nominee recently made a visit to the Netherlands, at the invitation of the Dutch plant health authorities, to see how new EC measures against "Phytophthora ramorum" were being implemented. The visit has been the subject of misleading reports in the press. Boskoop, the main venue for sale of nursery stock in the Netherlands, was found to be fully compliant. At Aalsmeer, which is primarily a flower market, some consignments of plants were losing their plant passports when they were split up and sold on; a shortcoming which the Dutch plant heath authorities have agreed to address. Our surveillance of plants moving in trade, including those from the Netherlands, is being stepped up and plants found not to comply will continue to be destroyed.

Collaboration between Forestry Commission scientists and their Dutch and German counterparts helped in 2001 to establish the link between dying trees in California and a new but minor disease on rhododendrons in Europe.

We do not know how or where the pathogen arrived in Europe. Of the 330 UK findings, 70 per cent. have been on plants originating within this country, rather than imports. I do not believe it is appropriate at this stage to seek sanctions or compensation from the other countries with whom we are working to deal with this threat to European trees. The first recourse for someone who has received infected plants should be their supplier.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what action her Department will take to protect *(a)* garden centres and *(b)* growers from imported plants infected with the tree fungus *Phytophthora ramorum.* [143667]

Mr. Bradshaw *[holding answer 11 December 2003]:* Measures are already in place to help prevent garden centres and growers from importing plant material susceptible to the pathogen *Phytophthora ramorum.* These included, banning the import of host plants from affected areas of the USA and extending current controls on imported oak wood to include wood that comes from host trees in affected areas in the USA. All other susceptible plant material imported into the UK from third countries must be accompanied by a

phytosanitary certificate. For trade within the EC, all consignments of rhododendron and viburnum must be accompanied by a plant passport.

The European Community's Standing Committee on Plant Health recently reviewed these measures and agreed that they should continue. Commission officials are now working on a draft to strengthen the current Decision. In addition, the UK will be stepping up its inspection of plant material entering the UK to ensure it complies with import arrangements. Any consignment entering the UK that is found not to possess the required documentation is destroyed.

River Trent

Mr. Todd: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the progress of the fluvial strategy for the River Trent. [145207]

Mr. Morley: I understand from the Environment Agency that they expect to consult on a draft of the River Trent Strategy in early spring 2004, and that they have provided you directly with a detailed progress report.

Rural Services

Mr. Jack: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the *(a)* primary and *(b)* secondary legislation which would have to be amended fully to implement the proposals contained in Lord Haskin's report on the Delivery of Rural Services. [145788]

Alun Michael: The Secretary of State set out the Government's initial response to Lord Haskins' Review of Rural Delivery in November 2003. She said that she hoped to publish a detailed implementation plan for the proposals in the spring. The work being undertaken to develop that plan includes consideration of the detailed legal implications of the proposals, and changes to legislation will need to be addressed as part of the implementation plan.

Sites of Special Scientific Interest

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs whether the Government are on target to ensure that 95 per cent. of all sites of special scientific interest are in a favourable condition by 2010. [145250]

Mr. Bradshaw: English Nature completed the first six year cycle of condition assessments for every SSSI in England in 2003, launching its report on this work on 15 December. This contains a wealth of information on the factors affecting SSSI condition. This information base is essential in setting a course for future progress towards the target. We aim to do this by the spring of next year, and to assess future progress against that course thereafter.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to change the number of sites of special scientific interest in England. [145251]

Mr. Bradshaw: The notification of sites of special scientific interest is entirely a matter for English Nature in the exercise of its statutory functions. Significant improvements to the legislative framework brought about by the Countryside and Rights of Way Act 2000 now enable English Nature to also extend sites and to de-notify sites where they are no longer of special interest.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what funding was available for the *(a)* protection and *(b)* promotion of sites of special scientific interest in each of the past three years; and how much will be available for (i) 2003–04 and (ii) 2004–05. [145252]

Mr. Bradshaw: Conservation of sites of special scientific interest (SSSIs) depends on raising awareness of issues and fostering partnerships with 32,000 owner/occupiers. A wide range of programmes contribute to the protection of SSSIs, including agri-environment schemes, water company investment, Government Departments' estate management and grant funding of National Park Authorities. It is not practicable to provide a breakdown of spending on SSSIs as specifically requested.

However, English Nature's direct expenditure on management agreements and maintenance of SSSIs is reported in its annual reports. The figures, including for those that are also National Nature Reserves, are £11.8 million in 2000–01, £13.5 million in 2001–02 and £14 million in 2002–03. Its forecast spend in 2003–04 is £15.9 million. Plans for 2004–05 have not been settled.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the sites of special scientific interest in the Vale of York. [145253]

Mr. Bradshaw: The list of sites of special scientific interest, either wholly or partly in the Vale of York is as follows:

SSSI Name	*SSSI Area in Vale of York (ha)*	*Total SSSI Area (ha)*
Aubert Ings	10.68	10.68
Birkham Wood	26.20	29.35
Bishop Monkton Ings	10.32	38.13
Dalby Bush Fen	1.61	7.50
Farnham Mires	10.32	10.32
Gormire	54.48	54.48
Hack Fall Wood	0.13	42.98
Kirk Deighton	4.03	4.03
Newsome Bridge Quarry	1.57	1.57
North York Moors	73.65	44,082.40
Pilmoor	45.02	45.02
Ripon Parks	26.11	129.74
River Ure Bank, Ripon Parks	0.05	1.74
Shaws Gate Quarry	0.83	1.45
Snape Hill Quarry	0.58	0.58
Upper Dunsforth Carrs	10.09	10.09
Total	275.67	—

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the Government's policy on sites of special scientific interest. [145254]

Mr. Bradshaw: The protection of over one million hectares of England's finest wildlife and geological heritage in over 4,000 Sites of Special Scientific Interest (SSSIs) is an essential component of the Government's approach to conserving biodiversity, as set out in "Working with the Grain of Nature"—the England biodiversity strategy.

The wide range of factors affecting the SSSIs mean that their condition is a clear indicator of success in achieving sustainable development. That is why their condition is also an indicator of progress in the UK Sustainable Development Strategy "A Better Quality of Life", Defra's own sustainable development strategy "Foundations for our Future", and the Strategy for Sustainable Farming and Food. The Government has a target to bring 95 per cent. of SSSIs into favourable condition by 2010, and is working with English Nature and others to bring this about.

Substitute Fuels

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what substances are prohibited from qualifying as substitute fuels under the Environment Agency's Substitute Fuels Protocol; what changes are planned to the list of qualifying substances; and if she will make a statement [142346]

Mr. Morley: An operator of an industrial installation or plant wishing to burn a fuel of a type not within the terms of the current operating permit or authorisation has to apply to the Environment Agency for a variation to allow trials to be conducted. Each variation application is determined by the Environment Agency on a case-by-case basis, and the Substitute Fuels Protocol provides guidance to its staff and operators on the application process.

Under the current version of the protocol, trials of a fuel containing the following should not be allowed:

(a) a radioactive material or radioactive waste as defined in Sections 1 and 2 respectively of the Radioactive Substances Act 1993; or

(b) an explosive including: propellants, cartridges, or bombs, or explosive material extracted from them or explosive-contaminated material from their manufacture or decommissioning.

Additionally, trials of a fuel to which any of the following substances has been added should not be allowed:

polychlorinated biphenyls;

pentachlorophenol;

pharmaceuticals;

pesticides;

biocides; and

iodine compounds.

The Environment Agency plans to undertake a full public consultation on proposed revisions to the Substitute Fuels Protocol. When the consultation document is published within the next few weeks, it will be available for comment for three months. The protocol may then be revised, taking into account the comments received during the consultation period.

Sudden Oak Death

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has made to her counterparts in EU member states about the recent UK outbreak of sudden oak death. [143606]

Mr. Bradshaw: Dialogue on "Phytophthora ramorum" takes place between officials on a regular basis and particularly during discussion in the European Community's Standing Committee on Plant Health. It was as the result of collaboration between UK, Dutch and German plant health services that the risks were identified and emergency measures against the introduction and spread of "Phytophthora ramorum" introduced throughout the EU in November 2002. These measures were reviewed by the Standing Committee on 11 December. Following the findings of the disease in tree species the UK made very clear its concerns about the spread of this disease and agreement was reached for the control measures to continue. Commission officials are now working on a draft proposal to strengthen the current Decision.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the Plant Health Laboratory concerning the recent UK outbreak of sudden oak death. [143607]

Mr. Bradshaw: The plant health group at Defra's Central Science Laboratory is an important part of the UK's plant health service. The Laboratory confirmed the first finding of "Phytophthora ramorum" in the UK in April 2002. Their scientific assessment of risk and input into discussions on exclusion, eradication and containment is a continuous process and has proved invaluable in formulating our views on this particular disease since the risk was first identified in 2001. They are also involved in or leading many of the research projects which will help the development of plant health policy, risk management, and decisions on action taken. In many aspects of this work they collaborate closely with the Forest Research Agency.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the origins of the recent UK outbreak of sudden oak death. [143608]

Mr. Bradshaw: Phytophthora ramorum was first described as a new species in October 2001 and first found in the UK in April 2002. Surveys are being conducted to establish how widespread the disease is and this may give an indication of how many years it may have been present. There have been over 300 outbreaks of Phytophthora ramorum found in England and Wales, mostly on rhododendrons and viburnums. In 70 per cent. of these cases the plants were of UK origin. In most of the other cases plants had been imported from other EC member states. In each of the cases on trees, there had already been findings of the disease nearby on plants of the rhododendron family.

The current scientific view is that the pathogen was probably introduced separately to California and to Europe from its place of origin, possibly the Far East.

Investigations of past imports are continuing but it is unlikely that the original source, or the time and place of introduction, will be identified with certainty.

Llew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs what measures are being taken to prevent the destruction of Britain's oak trees from indigenous fungal diseases. [143512]

Mr. Bradshaw: Fortunately, there are only a few indigenous tree diseases which can affect oak trees to any significant extent. The main one is known as oak dieback, a complex disease in which a number of damaging agents interact to bring about a deterioration in tree condition. The Forestry Commission's Forest Research Agency is participating in a wide ranging European research programme which aims to gain new insights into the disease. The principal effort is being directed towards understanding the importance of the killing of fine roots by fungi in the genus Phytophthora. Further details are given in the commission's information note 'Dieback of Pendunculate Oak' which can be seen on the commission's website, www.forestry.gov.uk.

Llew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs what mechanisms regulate garden centres and horticultural activities in respect of the control of the phytophthora ramorum fungus and the protection of keystone tree species; and what emergency measures are being taken to prevent the import of diseases affecting trees. [143515]

Mr. Bradshaw: The Plant Health Order (Phytophthora ramorum) (England) (No. 2) Order 2002, implementing EC emergency measures, came into force on 1 November 2002. Plants of susceptible species moving within the EC must meet plant passporting requirements and member states have been required to carry out surveys to help detect the spread of the disease.

Defra's Plant Health and Seeds Inspectors are undertaking checks at nurseries and garden centres known to trade in susceptible species. If infected plants are found in nurseries or garden centres during these inspections or surveys the legislation allows Inspectors to serve notice requiring the material to be destroyed along with any plants of susceptible species within 2 metres. Susceptible plants within 10 metres are placed on hold for a period to ascertain whether the disease is present before they can be moved.

Veterinary Surgeons

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* large animal and *(b)* small animal veterinary surgeons practise in the UK. [146094]

Mr. Bradshaw: There is no such thing as a large or small animal vet as all veterinary surgeons are qualified to deal with any type of animal. At the last count (March 2003) there were approximately 12,000 veterinary surgeons in full time practice in the UK.

In April 2003 The Royal College of Veterinary Surgeons (RCVS), submitted evidence to the EFRA Select Committee inquiry into Vets and Veterinary services which showed that there are 2,375 main veterinary practices in the UK, of which 964 (41 per cent.) were farm practices.

In the 2002 Manpower survey of how veterinary time was devoted to different areas of practice, it was reported that vets in general practice devoted 80.1 per cent. of their time to small animals, 5 per cent. to horses, 6.7 per cent. to cattle, 1.3 per cent. to sheep, 0.3 to pigs and 0.1 to poultry.

Warm Front Programme

Mr. Todd: To ask the Secretary of State for Environment, Food and Rural Affairs if she will extend the entitlement to central heating installation under the Warm Front scheme when a heating system still operates but is inadequate. [145683]

Mr. Morley: Following recent reviews of Warm Front and a stakeholder event held in November 2003, we are considering the options for the future format of the Scheme. This includes consideration of the rules surrounding boiler replacements.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has made to the Treasury regarding the adequacy of funding proposals for the Warm Front programme. [145759]

Mr. Morley: Future funding of the Warm Front scheme will be considered in 2004 as part of the normal Government Spending Round process.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what progress she is making on improving the Warm Front scheme to combat fuel poverty. [145001]

Mr. Bradshaw: Following recent reviews of Warm Front and a stakeholder event held in November, we are now in the process of considering the options for the future format of Warm Front.

We expect to make decisions on the future form of the scheme during early 2004.

Waste and Resources Action Programme

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on ways in which the Waste and Resources Action Programme has contributed to the reduction of global warming. [143285]

Mr. Morley: The Waste and Resources Action Programme's aim is to promote sustainable waste management by working to create stable and efficient markets for recycled materials and products and removing the barriers to waste minimisation, re-use and recycling.

Attributing reductions in global warming (reductions in greenhouse gas emissions) to increases in recycling rate is an extremely complex area of research due to the number of variables to be taken into account. However, preliminary research undertaken by the Waste and Resources Action Programme indicates that using secondary materials (recycling) results in substantial energy savings when compared with production using primary materials. This initial assessment also suggests

that if 30 per cent. of municipal solid waste is recycled in 2010 a reduction of approximately 10–15 million tonnes of CO_2 equivalent gas could be achieved in the world.

Mr. Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how many people are employed by the Waste and Resources Action Programme; and what additional recruitment is planned. [142592]

Mr. Morley: The Waste and Resources Action Programme (WRAP) currently employs 73 people, the majority of whom work on its core market development remit to promote sustainable waste management and to create stable and efficient markets for recycled materials and products.

In May 2003 WRAP'S remit was extended in England, as part of Government's response to the Strategy Unit report "Waste Not, Want Not", to include a household waste minimisation programme; an organics market development programme to provide material specific support and investment to the composting sector; the development of a kerbside recycling advisory service to local authorities and a targeted waste awareness programme combining national and local elements.

As a result of these new programmes, recruitment plans will take WRAP to a projected full-time equivalent headcount figure of up to 140 by mid 2004. The increase in staff resources is in proportion to the increase in Government funding allocated to WRAP.

Waste Management

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the 47th Report of the House of Lords Select Committee on the European Union, on European Union Waste Management Policy, and on its recommendations. [144576]

Mr. Morley: The Government are currently considering the report on European Union Waste Management Policy and will respond in due course.

Wessex Flood Defence Committee

Mr. Liddell-Grainger: To ask the Secretary of State for Environment, Food and Rural Affairs what the total budget for the Wessex Flood Defence Committee is for financial year 2003–04. [145763]

Mr. Morley: The Environment Agency is required to arrange for its flood defence functions, except for certain financial ones, to be carried out by Regional Flood Defence Committees (RFDCs). The RFDC may arrange for all or any of these functions to be carried out by Local Flood Defence Committees (LFDCs) under a scheme approved by my right hon. Friend the Secretary of State.

I understand from the agency that the total budget for the LFDCs overseen by the Wessex RFDC for the financial year 2003–04 is £27.2 million.

Mr. Liddell-Grainger: To ask the Secretary of State for Environment, Food and Rural Affairs how much the Chairman of the Wessex Flood Defence Committee received in *(a)* pay and *(b)* reimbursement of expenses in 2003–04; and what overseas trips he undertook on official business in 2003–04. [145766]

Mr. Morley: The previous Chairman of the Wessex Regional Flood Defence Committee (RFDC) received the following amounts, from the beginning of the current financial year (1 April 2003) to the end of his term of appointment on 30 June 2003:

(a) pay: £3,797.49

(b) expenses: £981.62

No overseas trips were undertaken on Environment Agency business.

The current Chairman of the Wessex RFDC has received the following amounts since his appointment began on 1 July 2003:

(a) pay: £9,627.16 (including £2,032.18 in respect of his Chairmanship of Somerset Local Flood Defence Committee (LFDC) until 6 October 2003)

(b) expenses £1,882.80 (some of which relates to Somerset LFDC duties)

No overseas trips were undertaken on Environment Agency business.

EDUCATION AND SKILLS

Asylum Seekers

Tim Loughton: To ask the Secretary of State for Education and Skills how many asylum seekers aged under 18 are in the care of social services, broken down by local authority. [144974]

Margaret Hodge: Information is not collected centrally in relation to all types of asylum seekers aged under 18. However information is available in relation to unaccompanied asylum seeking children (UASC).

The information in respect of UASC is shown for 2002, the most recent year for which figures are available.

Unaccompanied asylum seeking children looked after at 31 March 2002 aged under 18 by local authority

CLA100 return

Children in Care

Mr. George Osborne: To ask the Secretary of State for Education and Skills how many children aged up to three months entered local authority care in the last 12 months for which figures are available. [141835]

Margaret Hodge: The figures available provide a snapshot at March 31 2002. At 31 March 2002 there were 390 children aged nought to three months looked after by local authorities in England.

Data for 2003 is currently being evaluated and will be available in March 2004.

Mr. George Osborne: To ask the Secretary of State for Education and Skills what the average age of a child entering local authority care was in the last 12 months for which figures are available. [141838]

Margaret Hodge: The figures available provide a snapshot at 31 March 2002. The average age of the children looked after by local authorities at 31 March 2002 is 10 years and 6 months. Data for 2003 is currently being evaluated and will be available in March 2004.

Adoption

Mr. Peter Duncan: To ask the Secretary of State for Education and Skills what percentage of adoption placements were terminated within the first year in the last 12 months for which figures are available. [143349]

Margaret Hodge: In the year ending 31 March 2002, 7 per cent. of placements for adoption ended without the making of an adoption order.

Mr. Peter Duncan: To ask the Secretary of State for Education and Skills what steps are being taken to reduce administrative delays in the system for placing children for adoption. [143363]

Margaret Hodge: The National Adoption Standards for England have set timescales to ensure that each looked after child has a plan for permanence agreed at the four month statutory review, and where adoption is the plan, timescales for finding an adoptive family.

The Adoption Register for England and Wales has been set up as a tool for helping to match children in need of adoption with approved adopters. It has been fully operational in England since April 2002 and in Wales since August 2002.

The Government are committed to supporting local adopter recruitment activity, and has developed an Adopter Recruitment Toolkit for adoption agencies. The Government continues to support national recruitment activity through National Adoption Week. The Government made a further £60,000 available to support National Adoption Week 2003 following a grant of £60,000 in 2002 and £50,000 in 2001.

Since 2001, adoption work in the county courts and above has been centralised in specialist Adoption Centres throughout England and Wales. The objective of specialist adoption centres is to improve the service for everyone involved in adoption by dealing with contested and uncontested cases quickly and efficiently in centres with specialist adoption judges and staff.

Mr. Peter Duncan: To ask the Secretary of State for Education and Skills how many adoption placements have been completed in each local authority during each of the last five years. [143364]

Margaret Hodge: The table showing the number of looked after children adopted in each local authority in England, during the years ending 31 March 1998 to 2002, has been placed in the Library.

Mr. Peter Duncan: To ask the Secretary of State for Education and Skills how many children are awaiting adoption in each local authority area. [143365]

Margaret Hodge: The table showing the number of looked after children in England recorded on the Adoption Register for England and Wales who are awaiting a match with prospective adoptive parents at 10 December 2003, has been placed in the Library.

Antisocial Behaviour

Mr. Hayes: To ask the Secretary of State for Education and Skills what provisions have been made to include education programmes in strategies designed to cope with anti-social behaviour. [144093]

Mr. Ivan Lewis: Education-related programmes play a crucial part in our drive to tackle anti-social behaviour in three ways.

The first is through the school curriculum, where pupils learn about socially responsible behaviour as part of Citizenship education. This is a statutory subject in secondary schools. Schools receive guidance on helping pupils to understand the impact of anti-social behaviour and deal with it assertively.

The second is through a range of measures to reduce truancy, improve pupil behaviour in schools and reinforce parental responsibility for their children's behaviour in schools. They include national truancy sweeps, fast track to prosecution for truancy, in-school Learning Support Units, multi-agency Behaviour and Education Support Teams, key workers for children at risk of crime, police in schools and positive activity programmes in the school holidays. In addition the Anti-Social Behaviour Act, which comes into force at the end of February, will introduce penalty notices for truancy, parenting contracts for truancy and parenting contracts and orders for bad behaviour in schools.

The third is through services for young people beyond the school. The Connexions service provides access to personal development opportunities to broaden horizons and develop talents. The Youth service develops young people's ability to make responsible choices and engage constructively with their community. Both services help young people to develop their ability to cope with the issues which affect them and to avoid falling into anti-social behaviour.

Broadband

Mr. Boswell: To ask the Secretary of State for Education and Skills if he will make a statement on progress on the extension of broadband connection to *(a)* primary and *(b)* secondary schools. [144935]

Mr. Charles Clarke: The Prime Minister announced in November 2002 that all schools should be connected to broadband by 2006.

There is good progress towards meeting this commitment. The most recent broadband connectivity statistics, from the end August 2003, reveal that 42 per cent. of all schools in England were connected to broadband at 2Megabits per second or faster (Mbps). 91 per cent. of secondary schools and 34 per cent. of primary schools were connected to broadband at this time.

CAFCASS

Tim Loughton: To ask the Secretary of State for Education and Skills which member of the CAFCASS Board has refused to resign. [144973]

Margaret Hodge: Judy Weleminsky is the member of the CAFCASS Board who declined to resign.

Child Care

Dr. Tonge: To ask the Secretary of State for Education and Skills what the definition is of approved child care. [144708]

Margaret Hodge *[holding answer 18 December 2003]:* The Tax Credits Act 2002 allows parents using approved child care to claim for help with the costs of that child care through the tax credit system. Details of the types of care that are approved for this purpose can be found in the Inland Revenue leaflet—"WCT5—Help with the costs of child care". Copies of the leaflet can be found in the House of Commons Library.

Dr. Tonge: To ask the Secretary of State for Education and Skills how many parents make use of approved child care. [145446]

Margaret Hodge *[holding answer 5 January 2004]:* In 2002 the Department published the Repeat Study of Parental Demand for Childcare. This provides information about the use of early years and child care providers by parents with children aged 14 and under in England.

Just over half of families (52 per cent. or 2.76 million) had used either early years education or some other formal child care provider (registered childminders, creche/nursery provider, out of school clubs and holiday schemes) in the past year. Almost a third (32 per cent.) reported using this type of provision in the past week.

Child Protection

Tim Loughton: To ask the Secretary of State for Education and Skills how he proposes to recruit inspectors for departments concerned with child protection; and who will pay for them. [145027]

Margaret Hodge: My right hon. Friend is not responsible for the recruitment of inspectors. Recruitment and payment of inspectors are matters for the bodies which employ them.

Child Trust Fund

Mr. Gardiner: To ask the Secretary of State for Education and Skills (1) what discussions he has had with financial companies about the assistance they can provide to schools to improve financial literacy, with particular reference to the child trust fund; [145712]

(2) if he will increase the amount of financial education given to children in the national curriculum, with particular regard to work related to the child trust fund; [145714]

(3) what discussions his Department has had with teachers' unions about the introduction of child trust funds and the need for increased provision of financial education in schools. [145718]

Mr. Miliband: The Department has had discussions with a range of companies about supporting schools to improve numeracy and financial literacy, but none specifically in relation to the child trust fund. Personal finance education is covered in the curriculum as part of the Personal, Social and Health Education (PSHE) and Citizenship framework, and through subjects such as mathematics. Guidance issued in July 2000 encourages schools to involve local banks and building societies who may be able to provide resources or advice.

It is for schools to determine the amount of time to be given to specific topics within the curriculum and the Department has no plans to recommend to schools that the amount of financial education should be increased.

No discussions have been held between the Department and teachers' unions about the introduction of child trust funds and increased provision for financial education.

Children and Young People's Unit

Dr. Kumar: To ask the Secretary of State for Education and Skills if he will make a statement on his joint working with the Home Office's Children and Young People's Unit and the development and delivery of shared initiatives with particular reference to the Participation Fund; and how such funds have affected Middlesbrough, South and Cleveland, East. [144768]

Margaret Hodge: The Children and Young People's Unit (CYPU)—previously a Unit located within the DfES but reporting to a Home Office Minister—is now part of the new DfES Children, Young People and Families Directorate, reporting to me. The valuable work pioneered by the CYPU in developing cross-Government initiatives, in supplying local partnerships and in involving children and young people in policy development will be incorporated in the work of my new Directorate.

The Participation Fund is a small fund designed to support the development of mechanisms for the consultation and involvement of children and young people in England. Part of this budget is devoted to a Consultation Fund, which I launched in July this year. Its purpose is to provide opportunities for children and young people, in particular those in hard-to-reach groups, to be consulted on policies and services that affect them. No projects have yet been funded in Middlesbrough South and East Cleveland, but applications would be welcome (application details at www.cypu.gov.uk/participation/consultationfund.cfm).

Children's Registers

Tim Loughton: To ask the Secretary of State for Education and Skills what arrangements are in place for children in the UK to be included on *(a)* national and *(b)* local registers. [145026]

Margaret Hodge: The Queen's Speech said that a Bill will be introduced to improve services designed to protect children. Subject to the outcome of consultation on the "Every Child Matters" Green Paper, this will include proposals for establishing local information sharing systems to enable practitioners to share early relevant information about children and young people where this will enable better services to be provided to them and their families.

There are no plans for children to be included on a national register.

City Acadamies

Mr. Hoban: To ask the Secretary of State for Education and Skills pursuant to the answer of 15 December 2003, *Official Report*, columns 659–60W, on city academies, how the funding is broken down between the three categories set out in his answer. [145243]

Mr. Miliband *[holding answer 5 January 2004]*: The figure of £215.3 million set out in Section A of the Winter Supplementary Estimate 2003–04 breaks down as follows:

Academy building refurbishment and construction costs—£167.9 million;

Academies annual recurrent costs paid in general annual grant by the Secretary of State (including, where appropriate, start-up costs)—£38.3 million; and

General administrative expenditure incurred by the Department in the running of the programme (including project feasibility and implementation costs)—£9.1 million.

The second figure of £11.3 million set out in Section J of the Winter Supplementary Estimate 2003–04 breaks down as follows:

Standards Fund grant paid to Academies by local education authorities—£11.3 million.

Delegated Expenditure

Mr. Hoban: To ask the Secretary of State for Education and Skills what proportion of the *(a)* total expenditure on education and *(b)* total expenditure on schools in each local education authority was delegated to schools in each of the last five years. [144061]

Mr. Miliband *[holding answer 15 December 2003]*: The following table shows the percentage of each LEA's Local Schools Budget delegated to schools in the years 1999–2000 to 2002–03. Data for the percentage of total education expenditure delegated to schools by LEAs will require further work and I will write to the hon. Member.

Percentage of local schools Budget delegated

		1999–2000	*2000–01*	*2001–02*	*2002–03*
202	Camden	80.2	81.1	85.6	87.1

Notes:

1. The figures shown in the table have previously been published as part of the Department's Comparative Tables and reflect the methods of calculation underlying the comparative tables for each year. This means that they incorporate various adjustments which were made in some or all of these years. For the years 1999–2000, 2000–01, 2001–02 and 2002–03, the published comparative tables included information on the level of financial delegation direct to schools by LEAs. The measurement of these levels of delegation were associated with the achievement of delegation targets by LEAs. For each of those years, the average level of delegation stood at 82.4 per cent., 84 per cent., 86.3 per cent. and 87.2 per cent. respectively. The corresponding percentage for 1997–98 was about 79 per cent.
2. The Department does not hold any comparable data for 2003–04. With the Education Act 2002 came the introduction of separate LEA and schools budgets, the establishment of schools forums and the introduction of a reserve power which enables the Secretary of State, in exceptional cases, to set a minimum level for an LEA's local schools budget. As a result, Ministers decided not to set delegation targets of the kind which had operated since 1999.
3. Only about one-tenth of the funding retained centrally by LEAs relates to "central administration". Most of it relates to such items as school transport (about one-fifth of the total retained centrally); special educational needs (SEN); out-of-school education and behaviour support; and school improvement.

Divorce

Tim Loughton: To ask the Secretary of State for Education and Skills how many children were affected by divorce in *(a)* 2001–02 and *(b)* 2002–03. [145658]

Mr. Lammy: I have been asked to reply.

The Office for National Statistics publishes annual figures for the number of children of divorcing couples in England and Wales. The total number of children involved for the last two years for which figures are available are as follows:

2001—146,914

2002—149,335

Early-years Funding

Mr. Luff: To ask the Secretary of State for Education and Skills how many schools in each local education authority area received early years funding in the current financial year; and what the total funding made available in the current financial year under the programme is in each local education authority area. [145431]

Mr. Miliband: The Department does not fund schools directly. Local education authorities receive funding through revenue support grant through the calculation of Education Formula Spending Shares for early years provision. The under-five sub-block in the Education Formula Spending Share calculation for 2003–04 was £2.6 billion. However, this funding is unhypothecated and it is for LEAs to decide how much to spend on early

years and then allocate resources to schools and other early years settings as appropriate. The Department does not collect allocated budgets for every early year provider.

The Department also provides direct grants specifically for early years programmes. MNS development grant is aimed specifically at the maintained sector. The number of schools benefiting and the amount allocated for each LEA is shown below.

£

Family Mediation

Tim Loughton: To ask the Secretary of State for Education and Skills how many family disputes involving contact with children have received government funding for mediation in each of the last six years. [141144]

Margaret Hodge: The Government encourages the use of family mediation as an alternative to court proceedings in appropriate cases. Mediation can be particularly beneficial in resolving disputes over child contact. Public funding for family mediation was introduced under the provisions of Part III of the Family Law Act 1996. The Legal Services Commission began contracting with mediation services for the provision of publicly funded family mediation in March 1997. Contracts were completed in all areas in March 2000 and publicly funded family mediation is now available throughout England and Wales.

The Legal Services Commission has reported that the numbers of cases for which public funding has been provided for family mediation since the introduction of the provisions of the Family Law Act where children issues were in dispute are as follows:

	Number
1997–1998	318
1998–1999	1056
1999–2000	4959
2000–2001	7288
2001–2002	9658
2002–2003	10,383

Food in Schools Programme

Chris Grayling: To ask the Secretary of State for Education and Skills what the total cost to public funds of the Food in Schools Programme has been. [144562]

Mr. Stephen Twigg: Food in Schools is a joint Department for Education and Skills (DfES)/ Department of Health (DH) programme. Funding for the DfES strand of Food in Schools (April 2001—March 2004) is £545,000, while the DH strand has been allocated £2 million (April 2001—February 2005). Food in Schools aims to bring together all food related activities in schools, including training for teachers, and to help them work towards the National Healthy Schools Standard.

Food Technologists

Alistair Burt: To ask the Secretary of State for Education and Skills what representations have been made to him on shortages of food technologists in schools; and if he will make a statement. [144819]

Mr. Stephen Twigg: I am aware of no such representations. We maintain regular contact with the Design and Technology Association (DATA), the professional association for food technology teachers. We work with them and other partners to offer training, support and guidance to teachers of food technology in both primary and secondary schools.

Foster Care

Mr. Hancock: To ask the Secretary of State for Education and Skills what recent discussions he has had with *(a)* the Chancellor of the Exchequer and *(b)* others regarding allowances for children in foster care; and if he will make a statement. [140912]

Margaret Hodge: Through the Choice Protects Programme and the consultation on the 'Supporting foster carers' section of the Green Paper, 'Every Child Matters' we are consulting widely with a range of stakeholders about support for foster carers. Choice Protects is also investing £113 million over three years to expand and strengthen fostering services.

The National Minimum Standards for Fostering Services state that fostering services must provide foster carers with an allowance and agreed expenses, which cover the full cost of caring for each child placed with them.

The financial implications of the Green Paper will be considered as part of the Government's 2004 Spending Review.

Give as You Earn Scheme

John Barrett: To ask the Secretary of State for Education and Skills how many and what percentage of staff in his Department contribute to a charity through the Give as You Earn scheme; how much money is donated to charity per month by staff in his Department through the scheme; and what steps he is taking to encourage greater participation in the scheme by staff in his Department. [143896]

Mr. Charles Clarke: My Department actively supports and encourages payroll giving. Along with volunteering and charitable donations, staff can choose up to eight charities to make regular donations through the payroll system. There are currently 266 (5.7 per cent.) of my staff participating in the Payroll Giving Scheme raising a total of £27,023 per annum.

We are working with the Giving Campaign to increase the number of contributing employees to around 10 per cent. Employees often choose to give direct or volunteer their time to charities of their choice so Payroll Giving does not fully reflect the amount of charitable activity within my Department.

Hampshire Local Education Authority

Mr. Hoban: To ask the Secretary of State for Education and Skills what *(a)* the Education Formula Spending Share for 2003–04, *(b)* the adjusted EFSS for 2003–04 used as part of the 2004–05 local government settlement, *(c)* the raw educational spending share for 2004–05 before the floors and ceilings and *(d)* the educational formula spending share for 2004–05 after floors and ceilings are for Hampshire Local Education Authority. [145972]

Mr. Miliband: The figures are provided in the table.

	£ million
2003–04 EFSS	580.127
2003–04 adjusted EFSS	582.313
2004–05 EFSS before floors and ceiling	587.937
2004–05 EFSS after floors and ceilings	606.795

Key Stage 3 Tests

Mr. Gibb: To ask the Secretary of State for Education and Skills (1) how many pupils have taken Key Stage 3 tests early as a result of the Express Sets initiative referred to in the Green Paper, "Schools: Building on Success"; and if he will make a statement; [144488]

(2) if he will make a statement on the progress achieved in securing increases in the extent of setting within subjects as set out in paragraph 4.33 of the Green Paper "Schools: Building on Success". [144492]

Mr. Miliband: For 2003 and previous years there has been no readily available means of identifying pupils who took individual subjects or all three Key Stage 3 tests early. However, from 2004 onwards it will be

possible to identify these pupils and allow evaluation of any projects encouraging the implementation of a shorter Key Stage 3.

Data from lessons observed by Ofsted shows that there has been overall increase in setting at Key Stage 3 from 32 per cent. in 1998/99 to 36 per cent. in 2001/02. Setting has also increased within subjects at Key Stage 3 over the same period, although the extent of the increases varies from subject to subject.

It is not possible for the Department to determine readily whether schools' decisions to enter their pupils for the Key Stage 3 tests early, or increases in the use of setting, have been influenced by national or local initiatives or which of those may have been contributing factors. It is for schools to make decisions about early test entry and whether and how to use pupil grouping to best meet the learning needs of their pupils, although through the Primary and Key Stage 3 Strategies and in our Gifted and Talented programme we will continue to offer guidance and support on classroom practice. We are also exploring through a small project different models for a shorter Key Stage 3, designed to promote pupil motivation, engagement and progression, and to open up curricular flexibilities pre and post-14 through completion of the Key Stage 3 programme of study in two years.

"Making Contact Work"

Mr. Edwards: To ask the Secretary of State for Education and Skills when he will publish the Government's response to the report, "Making Contact Work"; and if he will make a statement. [144491]

Margaret Hodge: The Children Act Sub-Committee published their report, "Making Contact Work", in February 2002. The then Lord Chancellor's Department published its interim response in August 2002. Following the Machinery of Government changes last year, I now have lead responsibility for child contact issues. We continue to view children's interests as being paramount and we want to encourage contact between children and non-resident parents where it is in the best interest of the child and safe for all family members.

Working with my hon. Friends in the Department for Constitutional Affairs, we are considering carefully how the family justice system and related children's services can better meet the needs of all children and their parents following relationship breakdown. We want to ensure that better outcomes are achieved for children by, where possible, helping parents agree contact arrangements without the intervention of the courts. We expect to conclude these considerations early in the New Year and that the Government's response to "Making Contact Work" will then be published.

Music Teaching

Miss Kirkbride: To ask the Secretary of State for Education and Skills (1) what the average school budget is for musical instruments in each local education authority in England; [145463]

(2) how many children in *(a)* primary and *(b)* secondary schools do not have access to music lessons in school outside the National Curriculum; [145473]

(3) what progress the Government have made in extending music opportunities in *(a)* primary and *(b)* secondary schools since 1997; [145474]

(4) how many children in *(a)* primary and *(b)* secondary schools do not have access to a musical instrument. [145476]

Mr. Miliband *[holding answer 5 January 2004]:* The Government do not determine how much each school or LEA spends on musical instruments, nor do we collect information on how many children have access to a musical instrument.

Since 1999, every local education authority has received Music Standards Fund (MSF) which can be spent in any way that enhances opportunities for pupils to access musical education of high quality. In the vast majority of authorities, this will include specialist instrumental tuition outside of the National Curriculum. According to a recent Survey of LEA Music Services[1] commissioned by DfES, at any moment in time, on average 8 per cent. of pupils will be receiving regular instrumental lessons through their LEA, although many more will be learning music in the classroom or in their own time.

The introduction of MSF in 1999 to protect and expand LEA Music Services has caused a major upturn in music provision. Between 1999 and 2004, some £270 million will have gone to LEA Music Services.

In addition, we have pledged that, over time, all primary school pupils who want to should have an opportunity to learn a musical instrument. Ofsted are currently evaluating 12 pilots which aim to model how specialist instrumental tuition can be integrated with classroom music teaching. The results of the evaluation will be published later this year.

[1] Research Report No. 478, 30 October 2003. Survey of Local Education Authorities' Music Services. 2002. Sue Hallam and Lynne Rogers, Institute of Education, University of London.

Numeracy and Literacy Targets

Mr. Simmonds: To ask the Secretary of State for Education and Skills which of the Government's *(a)* numeracy and *(b)* literacy targets for 11 year olds were missed in 2002. [145202]

Mr. Stephen Twigg: The 2002 Key Stage 2 targets for 80 per cent. of 11 year olds to reach level 4+ in English and 75 per cent. of 11 year olds to reach level 4+ in mathematics were set in 1997. The results from the 2002 National Curriculum tests showed that 75 per cent. of 11 year olds reached this level in English and 73 per cent. in mathematics. Results were maintained at that level in 2003.

These results represent a significant improvement—of 12 percentage points in English and 11 percentage points in mathematics—in standards since 1997,

reflecting the impact of the National Literacy and Numeracy Strategies on primary schools. We remain absolutely committed, through our new Primary Strategy, to supporting schools to achieve the ambitious targets we have set for standards of literacy and numeracy.

Mr. Simmonds: To ask the Secretary of State for Education and Skills what proportion of 11-year-olds have reached the required standard in *(a)* English and *(b)* numeracy in each year since the introduction of the National Literacy Strategy, broken down by local education authority. [145203]

Mr. Stephen Twigg: The information requested has been placed in the Libraries.

Mr. Simmonds: To ask the Secretary of State for Education and Skills how much funding has been provided to implement the Government's *(a)* numeracy and *(b)* literacy strategies in each year since 1998. [145206]

Mr. Stephen Twigg: The National Literacy and Numeracy Strategies, which started in 1998 and 1999 respectively, have transformed standards of attainment in primary schools. The total funding available (including matched funding) to local education authorities in England through the Standards Fund to support the implementation of the strategies in each financial year since 1998–99 was as follows:

£ million

	National Literacy Strategy	*National Numeracy Strategy*
1998–99	62.7	—
1999–2000	72.8	73.8
2000–01	84.5	95.2
2001–02	102.6	103
2002–03	101.2	101.2
2003–04	107.4	107.4

Pathfinder Project (School Work Force)

Mr. Hoban: To ask the Secretary of State for Education and Skills how many schools participated in the Pathfinder Transforming the School Workforce project in 2003–04; what the total value of that support was; and what financial support will be given to these schools in 2004–05. [144846]

Mr. Miliband: 32 schools participated in the Transforming the School Workforce Pathfinder project that ran during the academic year 2002/03. In total, some £1 million was allocated to the schools in the financial year 2003–04. The Pathfinder project has now come to an end—a full evaluation will be published in the new year. No additional funding will be allocated to the Pathfinder schools in 2004–05.

Mr. Luff: To ask the Secretary of State for Education and Skills pursuant to his answer of 8 December 2003, *Official Report*, columns 287–88W, on Pathfinder projects, if he will publish the table to which the answer refers. [145470]

Mr. Miliband: The information requested is shown in the following tables, copies of which have been placed in the Libraries.

Department for Education and Skills pathfinder projects 2003–04

Local education authority	*Number of schools*	*Total funding*
Barking and Dagenham	15	150,280

n/a = Funding will be shown for this project but 'n/a' for the number of schools.

Notes:

1. Schools may be involved in more than one project, as a result some schools may be counted more than once.
2. The number of institutions involved in the 14–19 Pathfinders are not held centrally.

Dr. Kumar: To ask the Secretary of State for Education and Skills if he will make a statement on the Pathfinder project, Transforming the School Workforce, and its benefits for people in Middlesbrough South and East Cleveland. [144745]

Mr. Miliband: The implementation of the National Agreement on Raising Standards and Tackling Workload will benefit teachers, support staff and, most importantly, pupils. The experience of the Pathfinder schools has demonstrated what can be achieved through workforce reform and how those changes can best be managed at school level. The lessons learned from the project will help schools across the country to make the best use of their resources and to free teachers to focus on teaching and learning. A full evaluation of the project will be published in the new year.

Pre-school Places

Ms Buck: To ask the Secretary of State for Education and Skills how many *(a)* full-time and *(b)* part-time child care places in nursery and childminding settings Ofsted has (i) registered and (ii) inspected for children under the age of three over the last 12 months. [143576]

Margaret Hodge: This is a matter for the Office of Education and Standards (Ofsted) and Her Majesty's Chief Inspector will write to my hon. Friend and a copy of his reply will be placed in the Libraries. Ofsted has been responsible for the registration and inspection of children's day care facilities since September 2001.

Pupil Exclusions

Mr. Woodward: To ask the Secretary of State for Education and Skills how many children aged *(a)* between four and 11, *(b)* between 12 and 16 and *(c)* between 16 and 18 have been excluded from school in (i) St. Helens and (ii) Merseyside in (A) 2001, (B) 2002 and (C) 2003. [144588]

Mr. Ivan Lewis: The information requested is given for the following ages: four to 11, 12 to 15 and 16 to 18.

Maintained primary, secondary and all special schools: Number of excluded pupils by age group—1999/2000 to 2001/02 (Estimates)[1]

	1999/2000	*2000/01*[1]	*2001/02*[1]
St. Helens LEA			
Pupils aged[3]:			
4 to 11	2	0	1
12 to 15	25	10	16
16 to 18	0	0	0
Total[4]	28	10	17
Merseyside[2]			
Pupils aged[3]:			
4 to 11	59	65	57
12 to 15	251	154	161
16 to 18	2	3	0
Total[4]	312	222	218

[1] Estimates have been made for 2000/01 and 2001/02 due to incomplete school level returns.

[2] Includes Knowsley, Liverpool, St. Helens, Sefton and Wirral LEAs.

[3] Age as at 31 August at start of reference year.

[4] Total number of excluded pupils.

Source:

Annual Schools' Census

Latest information on exclusions refers to the school year 2001/02.

School Finance

Mr. Hoban: To ask the Secretary of State for Education and Skills how much each component of the school formula spending share per pupil for *(a)* primary and *(b)* secondary school pupils was in each local education authority in (i) 2003–04 and (ii) 2004–05. [145968]

Mr. Miliband: The information requested has been placed in the Libraries.

School Premises (Arson Attacks)

Mr. Woodward: To ask the Secretary of State for Education and Skills what measures the Government will put in place to tackle arson attacks on school premises in the next three years. [146111]

Mr. Miliband: The Department takes the problem of arson in schools very seriously and in 2000 issued the guide Fire Safety, which includes advice on how to reduce the risks of arson attacks. This complements our guidance on reducing crime in schools, such as the booklet "Improving Security in Schools" and the video "Can You See What They See?" We also have a school security website that is regularly updated—www.dfes.gov.uk/schoolsecurity. We now have consultants working on a new, and more comprehensive fire safety guidance document for schools. It covers risk assessments and will include advice on security and the prevention of arson. We anticipate that the document will be subject to public consultation early in 2004.

The Office of the Deputy Prime Minister (ODPM) has general responsibility for fire safety and arson and we have been looking at how the two departments can work more closely on the issue of fire safety in schools. ODPM officials now attend the Department's Working Group on School Security, while we have recently accepted an invitation to send a representative to meetings of the Arson Control Forum, which remains the national strategic body for addressing the wider arson problem. This should help us to consider how best to promote school arson prevention initiatives among schools and local education authorities.

Officials from my Department also sit on the Arson in Schools Working Group, a group of experts representing the insurance industry, the fire and police services, local authorities and government departments. One of its outputs has been the publication of the guide "How to Combat Arson in Schools", which is available free and has been well received by schools.

Of course if a fire should happen in a school, the Department's primary concern is for the safety of pupils, teachers and other users. Regulation 17 of the Education (School Premises) Regulations 1999 requires that every part of a school building, and of the land provided for a school, shall be such that the safe escape of the occupants in case of fire is reasonably assured. Schools are also covered by the Health and Safety at Work etc. Act 1974 and by subsequent related regulations. These include aspects of fire safety.

School Transport

Mr. Hoban: To ask the Secretary of State for Education and Skills when the draft bill on school transport will be published; what its principal provisions will be; what assessment has been made of the impact it will have on policies relating to transport to denominational schools of pupils of that denomination; what assessment has been made of the financial implications of the bill for *(a)* parents, *(b)* schools and *(c)* local education authorities; what assessment has been made of the effect it will have on the current providers of school transport; whether any of the proposed changes will take place on a pilot basis; and what consultations have been undertaken by the Department. [142786]

Mr. Charles Clarke *[holding answer 8 December 2003]:* In September 2003 the Secretary of State for Transport and I published 'Travelling to School: an action plan'. It consulted on measures to cut congestion and pollution and promote healthier travel alternatives for pupils travelling to and from school, including plans for piloting new arrangements for school transport in a small number of exemplar authorities.

The draft school transport bill will invite local education authorities to run up to 12 pilot schemes providing flexible, safe, transport choices for pupils and parents. Pilot areas will be required to look at the needs of all pupils, not just those entitled to free transport, and pilots should reduce car use on the school run. We would particularly welcome bids that seek to support pupils travelling to denominational schools.

We will publish a draft regulatory impact assessment alongside the draft bill: it will consider the financial implications for parents, schools, local education authorities and current providers of home to school transport. Whilst precise financial assessments can not be made until we know what proposals are put forward the financial implications will be considered as part of the selection and subsequent evaluation of pilot areas.

We consulted on outline proposals in "Travelling to School: an action plan" and will consult on the draft bill and proposals for implementation in early 2004.

Mr. Hancock: To ask the Secretary of State for Education and Skills if he will make it his policy to ensure that free school transport is available to the children of families who wish to exercise a choice not to attend a faith school and who have to travel outside their catchment area. [145519]

Mr. Stephen Twigg: We have no plans to change the school transport legislation to require local education authorities (LEAs) to provide free school transport for pupils whose families wish to exercise a choice not to attend a faith school and who have to travel outside their catchment area. LEAs may choose to provide free or subsidised transport for pupils attending faith schools, or for pupils whose parents wish them not to attend a faith school, using their discretion to operate policies that meet the needs of their local communities.

Sex Education

Mr. Keith Bradley: To ask the Secretary of State for Education and Skills (1) what arrangements his Department has made to ensure co-ordination of the teenage sexual health strategy with the Department of Health's sexual health strategy; [145188]

(2) if he will take steps to ensure sex education teaching in schools takes full account of the Department of Health's teenage sexual health strategy. [145190]

Mr. Stephen Twigg *[holding answer 5 January 2004]:* The Teenage Pregnancy Strategy and the Sexual Health Strategy are closely co-ordinated to raise young people's awareness of sexual health issues, improve sexual health and promote choice. A shared feature of both strategies

is the national campaign which targets young people, and improved availability of sexual health services and access to them.

Teaching about sexual health and safer sex are key elements of the Government's sexual health strategy and are covered by our Sex and Relationship Education (SRE) Guidance which was sent to all schools in July 2000. Through SRE pupils learn about sexual health, contraception and the range of advice and support services which are available. Young people should be made aware of the risks of contracting a STI and know about prevention, diagnosis and treatment.

Standards Fund

Mr. Luff: To ask the Secretary of State for Education and Skills how many schools in each local education authority area received Standards Fund allocations in the current financial year; and what the total funding made available in the current financial year under the programme is in each local education authority area. [145434]

Mr. Miliband: The following table shows the number of schools in each local education authority in England in receipt of Standards Fund allocations, and the total funding made available under the programme in each authority. Allocation figures include Government grant and local education authority contributions.

Standards Fund allocations by local education authority 2003–04

[1] Data on numbers of schools is taken from the 2003–04 Section 52 Budget Table 2

[2] The number of schools receiving Devolved Standards Fund (DSF) is at the time of the budgets being set. This could be expected to rise once all unallocated devolved Standards Fund has been distributed.

[3] The data is as reported by LEAs. As a result the blank entries are where LEAs have not entered any data.

Sure Start

Dr. Tonge: To ask the Secretary of State for Education and Skills what plans he has to expand Sure Start schemes. [144709]

Margaret Hodge *[holding answer 18 December 2003]:* There will be 524 Sure Start local programmes by the beginning of 2004. Children's centres represent the next stage of the Government's plans to expand high quality integrated services in disadvantaged areas. Centres will develop largely from existing provision, including Sure Start local programmes, early excellence centres and neighbourhood nurseries. Children's centres will be initially developed in the 20 per cent. most disadvantaged wards in England. In the long term the Government aim to develop a children's centre in every community.

Mr. Simmonds: To ask the Secretary of State for Education and Skills how many children have had access to Sure Start local programmes in England and Wales in each year since 1998; and how many are expected to have access to such programmes in 2004. [145265]

Margaret Hodge: The numbers of children aged 0 to 3 with access to Sure Start local programmes in England as at 31 March each year are shown in the table. All numbers are rounded to the nearest hundred. Sure Start in Wales is the responsibility of the devolved administration.

	Number of children
1999	0
2000	41,700
2001	116,600
2002	200,500
2003	350,600
2004 (estimated)	411,900

Teachers (Assaults)

Mr. Spring: To ask the Secretary of State for Education and Skills how many assaults there were against teachers by pupils in schools in the Eastern region; and what measures he is taking to prevent such attacks. [144862]

Alistair Burt: To ask the Secretary of State for Education and Skills how many assaults have been recorded on *(a)* teachers and *(b)* other local authority education staff in Bedfordshire in (i) the last year for which figures are available and (ii) each of the previous five years. [144899]

Mr. Ivan Lewis *[holding answer 18 December 2003]:* Serious injuries to primary and secondary teachers in Great Britain caused by physical violence reported to the Health and Safety Executive have been as follows:

	Number of serious injuries
1996/97	83
1997/98	119
1998/99	124
1999/2000	135
2000/01	135
2001/02	110

These figures are not available by region or local authority. Data on less serious assaults are not available.

We are investing nearly £470 million over the next three years in measures to improve behaviour and attendance in schools. These will include training for school staff in preventing violence. We have also made it clear that head teachers may permanently exclude pupils responsible for violence. New legislation in the Anti-social Behaviour Act will enable local education authorities to apply for court-imposed Parenting Orders for parents whose children have been excluded from school for serious misbehaviour. And we have issued "A legal toolkit for schools" which identifies legal remedies available when school staff experience problems with violent parents.

Voluntary Aided Schools

Mr. Peter Ainsworth: To ask the Secretary of State for Education and Skills what recent advice he has given to *(a)* diocesan boards of education and *(b)* local

education authorities, regarding the budget for capital works available to voluntary aided schools in 2004/05; and if he will make a statement. [144669]

Mr. Miliband *[holding answer 18 December 2003]:* Officials will shortly be writing to all dioceses and local education authorities to confirm to them that final allocations of formulaic allocations for voluntary aided schools will take place in February 2004. Major allocations of capital grant from the Department's Targeted Capital Fund will be announced in January 2004 in the usual way.

Youth and Schools Councils

Dr. Kumar: To ask the Secretary of State for Education and Skills what action is being taken to promote and support youth and schools councils in the North East; and how many *(a)* exist and *(b)* receive departmental support. [144767]

Mr. Stephen Twigg: We encourage Connexions Partnerships and local authority Youth Services in all regions to promote the involvement of young people in local decision-making. We are aware of 15 youth councils in the North East. All receive indirect government support through Connexions Partnerships and Youth Services. Some Connexions Partnerships in the region are funding joint events with youth councils and one has dedicated £5,000 for the development of youth councils in three Districts. Youth Services are using some of their Transforming Youth Work Development Fund allocation to support the setting up of youth councils.

The Citizenship programme of study encourages the active participation of young people in the democratic life of their school and the wider community. We do not keep records of the number of school councils by region and such information could not be obtained in the time available without placing an undue burden on schools. Many schools that have councils have found them to be effective ways of involving their pupils directly in decision-making. The Department has funded School Councils UK to produce primary and secondary school toolkits to enable teachers and students to set up effective structures for pupil participation.

CULTURE, MEDIA AND SPORT

BBC

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how many staff in her Department are working solely on the BBC Charter review process. [145461]

Tessa Jowell *[holding answer 5 January 2004]:* The Department will have a core team of five people working solely on Charter review. However there are many others in DCMS and other Government Departments contributing significant amounts of their time to what is a complex, crosscutting programme of work.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what steps she is taking to ensure that the BBC meets its requirements with regard to the independent productions quotas. [145477]

Estelle Morris: My right hon. Friend the Secretary of State recently agreed amendments to the formal Agreement with the BBC to enable OFCOM to enforce the quotas from 29 December 2003, with the power to impose fines on the Corporation for failing to meet the quotas or require any deficit to be made up in the subsequent year or years.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what recent discussions she has had with the BBC about the BBC Charter review process; and if she will make a statement. [145478]

Tessa Jowell: My Department maintains regular contact with the BBC with frequent discussions on a wide range of issues including Charter review process.

Civil Servants (Disabilities)

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what targets the Department must meet in relation to the employment of people with disabilities; and if she will make a statement on her Department's progress in meeting these targets. [145599]

Mr. Caborn: The Department has set aspirational targets for the representation of people with disabilities.

	Target (%)	*Actual (%)*
At SCS	5	0
Other grades	5	2.8

The Department for Culture, Media and Sport has set a target to have 5 per cent. of posts filled by people with disabilities by March 2005. Data on disability are collected on the basis of voluntary self-classification. There are currently no staff filling senior post who have declared a disability. At other grades, the percentage of staff declaring a disability has increased from 2.0 per cent. to 2.8 per cent. over the last 12 months.

Mr. Goodman: To ask the Secretary of State for Culture, Media and Sport what progress has been made in meeting targets for the proportion of people with disabilities in senior posts in her Department. [145995]

Mr. Caborn: The Department collects data on disability on a voluntary self-declaration basis. There are currently no members of the Department's senor civil service declaring a disability.

Departmental Mobile Phones

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how much has been spent by her Department on mobile phone calls *(a)* in the last year and *(b)* since 1997. [145594]

Mr. Caborn: The cost to my Department of mobile phones supplied to ministers and officials was £25,500 in 2000–01, £21,000 in 2001–02, £29,000 in 2002–03 and £30,000 as of the start of January this year. It is not possible to provide figures prior to 2000 save at disproportionate cost.

Elgin Marbles

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the Government's policy on the Elgin Marbles. [145557]

Estelle Morris: The Government have stated that it considers the Parthenon Sculptures to be a matter for the Trustees of the British Museum, who are independent of government.

Food Advertising

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what representations she has received from *(a)* broadcasters, *(b)* food manufacturers, *(c)* advertisers and *(d)* pressure groups about the regulation of food advertising to children. [145574]

Estelle Morris: In May 2003 my right hon. Friend the Secretary of State for Culture, Media and Sport met representatives of several public health promotion organisations to discuss the regulation of broadcast food advertising to children and has also received correspondence from similar organisations. She also met representatives of the Advertising Association on 16 December about this issue. In addition, Ministers have received correspondence from the commercial broadcasting sector on this matter. The Secretary of State has not received any formal representations from the food and drink industry about the regulation of food advertising to children but is aware of the industry's views.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what assessment the Government has made of whether food advertising contributes to child obesity. [145575]

Estelle Morris: The Department has a responsibility only in relation to broadcast advertising. It has made no separate assessment of the impact of food advertising on childhood obesity but will continue to participate in the Food Standards Agency's consultation on its recent review of the promotion of foods to children.

My right hon. Friend the Secretary of State has also asked Ofcom to examine the adequacy of its codes regulating the content of broadcast advertising of food to children and Ofcom has indicated that it will make its own assessment of the evidence.

The impact of food promotion must be considered in the context of the wide range of factors which may have an influence on the increase in childhood obesity, which the Government are addressing through a number of cross-departmental initiatives.

Human Remains (Repatriation)

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what the Government's policy is on the repatriation of human remains. [145590]

Estelle Morris: The Government have recently published the Human Tissue Bill, which includes a clause giving certain national museums a power to move human remains out of their collection, where they wish to do so.

This will implement the principal recommendation of the Working Group on Human remains. I shall be issuing a consultation document on the rest of the recommendations of the Working Group early in the new year. The results of that consultation will inform the Government's wider response to the Working Group Report.

IT Contracts

Mr. Sayeed: To ask the Secretary of State for Culture, Media and Sport if she will list information technology contracts in her Department and its predecessors with a value of above £20 million in each of the last 10 years; what the inception date for each system was; when it became fully functional; when it became fully debugged; and what the cost of overruns has been. [146188]

Mr. Caborn: My Department has never had an information technology contract to the value of £20 million since its creation in 1992.

Museums

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport if she will make an assessment of the impact of the Government's free admissions policy on museums that are not included in the policy. [145562]

Estelle Morris: There are a number of factors that influence museum attendances, and it would be difficult to isolate the specific impact of free admission. The Renaissance in the Regions programme complements the free admission policy by providing substantial support to regional museums. The early indications are that the Renaissance investment is already paying dividends, with a 40 per cent. increase in the number of schools visiting museums in Phase 1 of the programme, and a 74 per cent. increase in contacts between those museums and community groups.

Ofcom

Mr. Boswell: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the readiness of Ofcom to assume regulatory duties on 29 December. [145086]

Estelle Morris: The Office of Communications (Ofcom) is well prepared to take on its regulatory functions and vesting took place as planned on 29 December 2003.

HEALTH

BCG Vaccination

Tony Lloyd: To ask the Secretary of State for Health what assessment he has made of the number of medical professionals trained in the techniques necessary to administer the BCG vaccination. [144390]

Miss Melanie Johnson *[holding answer 18 December 2003]:* This data is not held centrally. Strategic health authorities are responsible for organising and delivering local immunisation programmes.

Delayed Discharges

Miss McIntosh: To ask the Secretary of State for Health if he will make a statement on delayed discharges

in *(a)* the Craven, Harrogate and Rural District Primary Care Trust and *(b)* the Hambleton and Richmondshire Primary Care Trust area. [145621]

Miss Melanie Johnson: Service and Financial Framework returns for quarter two of 2003–04 show that there were 24 patients in the Craven, Harrogate and Rural District Primary Care Trust (PCT) area whose transfer of care had been delayed, and six in the Hambleton and Richmondshire PCT area. A copy of the report is available in the Library.

Craven, Harrogate and Rural District PCT has agreed a strategy with all key stakeholders that aims to maintain people in their own homes where possible with support from a multi-disciplinary team. This will ultimately be available 24 hours a day, with access to diagnostics and secondary care as appropriate.

Hambleton and Richmondshire PCT is working with North Yorkshire Social Services to develop interim care beds and alternatives to people waiting in the acute hospital.

Influenza Vaccination

Mr. Burstow: To ask the Secretary of State for Health what assessment has been made by the Joint Committee on Vaccination and Immunisation of the number of at risk children who would benefit from the current influenza vaccination, broken down *(a)* by type of condition and *(b)* by age groups (i) 0 to four and (ii) five to 14 years. [142963]

Miss Melanie Johnson *[holding answer 9 December 2003]:* At their meeting on 10 November 2003, the Joint Committee on Vaccination and Immunisation agreed that all children aged over six months in an at risk group should be offered flu vaccination.

Mr. Burstow: To ask the Secretary of State for Health for what reasons the Department does not monitor the uptake of influenza vaccinations for children in at risk groups. [142964]

Miss Melanie Johnson *[holding answer 9 December 2003]:* I refer the hon. Member to the response I gave him on 16 December 2003, *Official Report*, columns 890–91W.

Hospital Acquired Infections

Tim Loughton: To ask the Secretary of State for Health what target he has set for reducing death and disablement from hospital acquired infections. [145047]

Miss Melanie Johnson: No specific targets were set in the Chief Medical Officer's new action plan, "Winning Ways—Working together to reduce Healthcare Associated Infections", launched on 5 December 2003. We will monitor implementation through the national health service performance management system, strategic health authorities and the mandatory surveillance system.

Levonelle

Jim Dobbin: To ask the Secretary of State for Health what research has been conducted in teenage girls on the safety of an increase in the dosage of the emergency hormonal contraceptive Levonelle to a single dose of two tablets taken together. [145303]

Miss Melanie Johnson: The dosing instructions for Levonelle (levonorgestrel 0.75mg) were revised recently to recommend that two tablets should be taken at the same time; previously one tablet was taken with the second tablet 12 hours later. There has been no increase in the dosage as the quantity of levonorgestrel ingested remains the same. This followed advice from the Committee on Safety of Medicines who were satisfied as to the safety and efficacy of this revised regimen and the likely improved compliance. The pivotal evidence in support of the change is a World Health Organisation sponsored study evaluating 4,136 women aged between 14 and 52 years (mean age 27 years) who attended family planning clinics requesting emergency contraception. In excess of 2,700 women were given levonorgestrel, and of these, 439 were teenage girls. Side-effects were minor and no significant difference in the proportion of women developing side-effects was noted between the women taking two levonorgestrel tablets at the same time and those who took them 12 hours apart. A copy of the publication has been placed in the Library.

Medicines (Advertising)

Dr. Gibson: To ask the Secretary of State for Health (1) how many staff at the Medicines and Health Care Products Regulatory Agency are employed to investigate breaches of the Medicines (Advertising) Regulations 1994; [145356]

(2) what the outcomes were of the review of advertising activities carried out by the Medicines and Health Care Products Regulatory Agency earlier this year; which organisations and individuals were invited to contribute to this review; and how the report has been made publicly available; [145360]

(3) how many of the complaints investigated by the Medicines and Health Care Products Regulatory Agency were found to be in breach of the Medicines (Advertising) Regulations in *(a)* 2001, *(b)* 2002 and *(c)* 2003; for each of these years, how many of the complaints that were upheld related to advertisements targeted at (i) health professionals and (ii) the public; over how long on average the advertisements had been running before being withdrawn; and what sanctions were employed; [145361]

(4) what criteria are employed by the Medicines and Health Care Products Regulatory Agency in investigating complaints; and under what conditions pre-vetting of advertising material is carried out; [145362]

(5) what provisions have been made by the Medicines and Health Care Products Regulatory Agency to take on additional staff to pre-vet advertising material when medicinal products are switched from prescription-only to over-the-counter status; [145357]

(6) how many complaints were investigated in 2002–03 by the Medicines and Health Care Products Regulatory Agency in response to complaints from *(a)* health professionals, *(b)* pharmaceutical companies and *(c)* the public; [145358]

(7) what self-regulatory controls are in place for medicine advertising and promotion; and when the Government last carried out a spot check to determine the effectiveness of the self-regulatory system; [145359]

(8) what mechanisms exist for independent scrutiny of the Medicines and Health Care Products Regulatory Agency activities in relation to its role to monitor and enforce regulations on pharmaceutical company advertising and promotion. [145363]

Miss Melanie Johnson: The control of medicines advertising is based on a long established system of self regulation underpinned by the statutory role of the Medicines and Healthcare products Regulatory Agency (MHRA). There are two main industry self regulatory bodies, the Prescription Medicines Code of Practice Authority (PMCPA) and Proprietary Association of Great Britain (PAGB). Both operate codes of practice for advertising of medicines and systems for investigating complaints against their codes. Advertising by PAGB member companies aimed at the public is pre-vetted by the PAGB prior to publication. There are also general controls on non-broadcast and broadcast advertising operated by the Advertising Standards Authority and the Office of Communications.

Investigation of complaints and routine scrutiny of published advertising for medicines, concentrating on newly licensed products, provide an ongoing check on the effectiveness of the self-regulatory systems for medicines advertising. The MHRA meets regularly with the regulatory and self regulatory bodies to discuss current issues in medicines advertising.

The MHRA investigates all complaints received about advertising against the requirements set out in the Medicines (Advertising) Regulations 1994. In 2002–03, 157 complaints about medicines advertising were investigated including 93 from health professionals, 16 from pharmaceutical companies and 48 from members of the public. The number of advertisements found to be in breach of the Regulations following investigation by the MHRA were 104 in 2001, 85 in 2002 and 108 in 2003. One quarter concerned advertisements aimed at health professionals and the remainder at the public. Information is not collected by the Agency on the length of time the advertisements had been running before being withdrawn.

The primary sanction employed where advertising is considered to breach the Regulations is to require immediate withdrawal and amendment of the material. Additionally, in three cases in 2001, one in 2002 and five in 2003, all subsequent material was required to be submitted for pre-vetting. In 13 cases the company was required to issue a corrective statement, one in 2001, one in 2002 and 11 in 2003. One case was referred for enforcement action in 2001 and two in 2003. A public statement was also recently made on the outcome of three investigations into inducements to pharmacists.

The MHRA has published criteria in Guidance Note 23—Advertising and Promotion of medicines in the UK (a copy of which is available in the Library) based on which it will consider requiring advertising material to be submitted for pre-vetting, including:

(i) where a newly licensed product, subject to intensive monitoring, is placed on the market;

(ii) where a product is reclassified, such as from prescription only medicine to pharmacy; or

(iii) where previous advertising for a product has breached the Regulations.

A recent internal MHRA review considered the procedures of the advertising unit in the regulation of advertising for medicines in the UK. It identified measures to increase and improve the targeting of pre-vetting, increase the use of corrective statements for misleading advertising, take rapid action on complaints prioritising those from health professionals and increase transparency by the publication of reports on completed actions on complaints. The outcome of the review was endorsed by the Medicines Commission and has been submitted for publication in a peer-reviewed journal. A copy of the report has also been placed in the Library.

The MHRA employs four staff whose primary role is to regulate advertising for medicines, including investigation of breaches of the Medicines (Advertising) Regulations 1994. These staff draw on the wider resources of the MHRA to provide additional specialist advice on advertising casework as required. The MHRA anticipates that it will be able to manage any increase in the requirement for pre-vetting due to increases in reclassification from prescription only to over-the-counter status from within its existing resources.

The National Audit Office and the Public Accounts Committee recently scrutinised the work of the MHRA, including its role in reviewing medicines advertising and promotion but did not make any recommendations in this area nor suggest any further review was necessary. The recent initiative to publish on the MHRA website the outcome of complaints investigations will increase the transparency of the MHRA's role in enforcing the regulations on advertising and promotion of medicines.

Screening Programmes

Dr. Kumar: To ask the Secretary of State for Health what progress has been made in proactive screening programmes as a result of departmental awareness-raising schemes; what screening programmes are operating in each health authority area; and what action is being taken to increase screening in areas that are underspending in this area. [144813]

Miss Melanie Johnson: The national breast and cervical screening programmes operate in each strategic health authority area. A number of other national screening programmes are currently being developed. These include screening for Down's syndrome where presently 75 per cent. of maternity units have a screening programme in place. 210,000 babies have been screened under the newborn hearing screening programme since it started. Newborn screening for sickle cell disease is in place in London and West Midlands. Raising public and professional awareness is a key aspect in the development of all screening programmes. Funding to implement screening programmes is mostly included in baseline financial allocations to primary care trusts. In keeping with the decision to enable local PCTs to decide their priorities in the light of their own needs, PCTs decide the allocation of resources locally.

Smoking

Mr. Burstow: To ask the Secretary of State for Health if he will make it his policy to target smoking cessation activity on middle-aged women. [145227]

Miss Melanie Johnson: The national health service Stop Smoking Services are available to all smokers regardless of age or gender.

The tobacco information programme is designed to address all sections of the adult population and every opportunity is taken to obtain editorial coverage on the health pages of national newspapers and women's magazines.

We are not aware of any specific reason to target "middle aged women" separately. Women aged 35–60 have lower smoking rates than men of the same age and lower than those of young women.

Tuberculosis

Mr. Burstow: To ask the Secretary of State for Health how many cases of tuberculosis were reported in *(a)* England, *(b)* each NHS region and *(c)* each strategic health authority in each year since 1996. [146214]

Miss Melanie Johnson: This information is publicly available on the Health Protection Agency website at www.hpa.org.uk/infections/topics_az/tb/epidemiology/tables.htm

HOME DEPARTMENT

Antisocial Behaviour

Mr. Ben Chapman: To ask the Secretary of State for the Home Department what assessment he has made of the number of anti-social behaviour offences occurring over Halloween relative to other periods of the year. [145343]

Ms Blears: No assessment has been made of the number of anti-social behaviour related offences occurring over Halloween, relative to other periods of the year.

Miss McIntosh: To ask the Secretary of State for the Home Department how many Anti-Social Behaviour Orders have been applied for in the Vale of York in each of the past three years. [145123]

Ms Blears: The number of notifications received by the Home Office of applications for Anti-Social Behaviour Orders (ASBOs) within the North Yorkshire Magistrates Courts Committee (MCC) area, which includes the Vale of York, up to 30 June 2003 (latest available) is given in the table. All of the applications have resulted in an ASBO being issued.

The number of applications for ASBOs in North Yorkshire, as reported to the Home Office, from 1 June 2000[1] to 30 June 2003 (latest available)

	Number
1 June 2000 to 31 December 2000	0
1 January 2001 to 31 December 2001	7
1 January 2002 to 30 November 2002	0
31 December 2002 to 30 June 2003	2
Total	9

[1] From 1 April 1999 up to 31 May 2000 data collected by police force area (pfa).

Note:

Following implementation of the Police Reform Act (2 December 2002), data for December 2002 is incorporated into the first quarter 2003 data.

Asylum and Immigration

Mr. Dawson: To ask the Secretary of State for the Home Department how many families are detained under asylum and immigration legislation; and for how long each has been detained. [143801]

Beverley Hughes *[holding answer 15 December 2003]*: The latest available information shows that at the end of September 2003 1,575 people were detained solely under the Immigration Act, of whom 1,270 had sought asylum at some stage. Information on the number of these who were detained as part of a family group is unavailable.

However, IND internal management information indicates that on 8 December 38 children were in detention. This information also indicates that the average time for which children are detained in UK removal centres is about 10 days. This figure is skewed somewhat due to some long-stay cases. In fact, the bulk of cases are dealt with in a short period. We are working hard to ensure that where children are detained this is for as short a time as possible and are implementing additional measures to ensure the welfare of detained families with children. These measures include requiring ministerial authority to detain any child for longer than 28 days and ensuring that there are no administrative delays which might extend their detention by giving oversight of all children in immigration detention to a senior Home Office official.

Crime Reduction Initiatives

Dr. Kumar: To ask the Secretary of State for the Home Department how much money has been invested, and how many schemes have received funding *(a)* in Middlesbrough, South and Cleveland, East, *(b)* in the north-east and *(c)* in total under the Building Safer Communities initiative. [144748]

Ms Blears: Under the Building Safer Communities Fund (BSC), the following allocations were made in 2003–04 to the Crime and Disorder Reduction Partnerships (CDRPs) covering the Middlesbrough, South and Cleveland, East constituency:

Middlesbrough CDRP—£312,409 for 20 schemes

Redcar and Cleveland CDRP—£168,331 for 13 schemes

The North East total allocation for 2003–04 under BSC is £3,549,624.23 CDRP plans were approved and are operational across the region in the current financial year.

Direct funding under BSC to CDRPs in England and Wales totals £72.3 million in 2003–04, involving 376 CDRP plans, each of which includes numerous projects and schemes.

Dr. Kumar: To ask the Secretary of State for the Home Department what action is being taken in *(a)* Middlesbrough, South and Cleveland, East and *(b)* the north east to help crime and disorder reduction partnerships deliver crime reduction; and if he will make a statement. [144749]

Ms Blears: A wide range of activities is taking place in Middlesbrough South and East Cleveland, and also in the north east as a whole, to help Crime and Disorder Reduction Partnerships (CDRPs) deliver crime reduction. These are normally funded through Home Office programmes such as the Building Safer Communities Fund, Building Capacity Fund, and Basic Command Unit Fund.

Examples of activities that draw on Home Office funds include, in the Middlesbrough, South and Cleveland, East area, a dedicated drugs unit being introduced in the Redcar and Cleveland CDRP, and a 'Dealer a Day' initiative initiated by the police commander. This initiative has led to over 950 arrests and the recovery of substantial quantities of drugs, cash and stolen goods. In the East Cleveland area specifically, Home Office funding has led to CCTV

schemes in Saltburn, Guisborough, Loftus, and Marske. In Middlesbrough, recent initiatives have included tackling burglaries in sheds, garages, and outbuildings, and tackling vehicle crime by focusing on 'at risk' groups and locations e.g. subsidised security devices, additional security patrols.

In the north east as a whole, significant developments include the establishment of a multi-agency Regional Drugs Intelligence Unit at a cost of £500,000 over two years, funded by the Home Office Police Standards Unit, and the extension of intensive criminal justice intervention programmes to Newcastle, Sunderland, Hartlepool, and Stockton in addition to the existing programme in Middlesbrough.

The Government Office for the north east provides advice, training and support to all the CDRPs in the region. They act as a conduit for sharing best practice between partnerships, for example, funding a seminar in Middlesbrough for CDRPs across the country with similar characteristics to Middlesbrough, to share common issues and solutions. They regularly attend CDRP meetings to offer advice and information on funding and good practice and to support performance improvement.

The Home Office has introduced a self-assessment framework (SAF) for Crime and Disorder Reduction Partnerships and Drug Action Teams in England and Community Safety Partnerships in Wales to assist them to improve their performance as partnerships. The SAF is a useful tool to promote continuous improvement in both strategic and operational delivery of the crime reduction and misuse of drugs agendas.

The Home Office are also updating the existing guidance for partnerships on audits and strategies in preparation for the next round of triennial audits which partnerships must produce by April 2005. This new web based step by step toolkit will be available on the Crime Reduction Website from February 2004.

Key crime levels have fallen steadily in the north east in recent years. Between 1998–99 and 2002–03 vehicle crime has fallen by 23 per cent. and domestic burglary has fallen by 25 per cent.

Dr. Kumar: To ask the Secretary of State for the Home Department what action is being taken in *(a)* Middlesbrough, South and Cleveland, East and *(b)* the north east (i) to reduce gun crime and (ii) to disrupt drugs markets; and if he will make a statement. [144750]

Caroline Flint: We are developing a strong programme to tackle gun crime on a number of fronts, including:

- tackling the links to drug supply and crime;
- reducing the supply and availability of firearms;
- effective police operations to drive down firearm offences;
- tough laws and effective enforcement;
- engaging the worst affected communities to address the underlying gun culture.

In Middlesbrough, Cleveland police operate a dealer-a-day policy whereby they undertake to arrest at least one drugs dealer in the town every day, 365 days a year. It has recently completed its second year of operation and since its launch on 3 December 2001, 926 people have been arrested. Drugs including cocaine, crack cocaine, heroin, ecstasy, amphetamine, and cannabis have been recovered with a street value of nearly £950,000. Officers also seized over £200,000 in cash during the raids. Prison sentences exceeding 200 years have been given by the courts, coupled with other forms of sentencing ranging from fines, community work and community rehabilitation, to suspended sentences, supervision orders and drug treatment and testing orders. In July the scheme was extended to cover East Cleveland in July 2003 and similar success is expected there.

Regionally, with the support of Government Office North East, the Police Standards Unit has funded the establishment of a Regional Drugs Intelligence Unit based at Durham Constabulary which brings together analysts from the three north east police forces in one dedicated unit to improve intelligence led work to tackle middle market drug dealing across the region. Set up in October 2003, this unit's work will link in to other information and intelligence gathering initiatives already underway in the north east, including asset recovery.

The north east, and the Middlesbrough, South and Cleveland, East area in particular, experiences relatively low levels of gun crime. For this reason, Crime and Disorder Reduction Partnerships prioritise actions on addressing drug crime, burglary and vehicle crime in these areas.

We are taking action to tackle the misuse of air weapons. The Anti-Social Behaviour Act will:

- raise the age limit for owning air weapons from 14 to 17;
- restrict their use without adult supervision;
- ban the carrying of replicas or air weapons in a public place without lawful authority or reasonable excuse; and
- ban the sale, manufacture and import of tandem cartridge air systems, such as the Brocock, and require the licensing of those already held as they are particularly vulnerable to conversion to fire live ammunition.

Dr. Kumar: To ask the Secretary of State for the Home Department how many Government-funded schemes resulting in the installation of CCTV cameras have received crime and disorder reduction partnership funds in *(a)* Middlesbrough, South and Cleveland, East and *(b)* the north east since 2001. [144751]

Ms Blears: Under the Crime Reduction Programme CCTV Initiative, two funding rounds were introduced.

Six schemes were approved in Middlesbrough and six in the Redcar and Cleveland Crime and Disorder Reduction Partnership (CDRP) areas.

45 schemes in total were approved for the north east.

Dr. Kumar: To ask the Secretary of State for the Home Department what action is being taken to strengthen co-ordination of local partnerships to ensure they are able to deliver the crime and drugs agenda in *(a)* Middlesbrough, South and Cleveland, East and *(b)* the north-east. [144752]

Ms Blears: The Home Office and the Government Office in the North East Region (GONE), are working with Crime and Disorder Reduction Partnerships (CDRPs) and Drug Action Teams (DATs) to ensure the further integration of their work. Guidance on integration was issued to CDRPs and DATs in November 2003. The aim is to simplify local working relationships, give greater recognition to common interests and provide the right framework to enable the effective delivery of the crime reduction and drugs agendas. The crime and drugs teams have been fully integrated within GONE since June 2002.

Middlesbrough and Redcar and Cleveland, which are both unitary authorities, are working towards integration of their CDRPs and DATs by April 2004. To support this process the Home Office has introduced a self-assessment framework (SAF), which will enable CDRPs and DATs to assess their performance as partnerships and will assist the GONE in managing the improvement in both their strategic and operational delivery.

Dr. Kumar: To ask the Secretary of State for the Home Department if he will make a statement on *(a)* improved information sharing between crime reduction partnerships and *(b)* the sharing of good practice techniques between police forces; and how such practices have benefited the residents of Middlesbrough, South and Cleveland, East. [144754]

Ms Blears: Effective data exchange and analysis is a prerequisite of productive partnership working and crime reduction. Crime and Disorder Reduction Partnerships (CDRP) are encouraged to share information to tackle crime and criminality more effectively within their partnership.

The Home Office Crime Reduction and Community Safety Group is working with the Government Offices in the regions to ensure effective information sharing and data analysis.

The Government Office for the North East is working with every agency in the North East Region who are partners on CDRPs to enhance their data in order to facilitate information sharing, and has developed an IT solution, North East Region Information Sharing System (NERISS), to this end.

Middlesbrough is being used as a pilot site for local data sharing on burglary dwelling to support problem solving and best practice experience nationally.

The Government Office has also been carrying out a research project on Effective Practice and will compile a compendium of all of the initiatives of a crime and disorder nature in the Region. The findings will be published on the internet for use by all practitioners as a Best Practice library.

One of the main roles of the Home Office Police Standards Unit (PSU) is to exchange good practice in order to support the improvement of police performance. The Unit has been working with the Cleveland Police Force on several projects to tackle issues such as burglary reduction with the 'Safer Tees Valley Partnership' to reduce repeat victimisation and the introduction of Automatic Number Plate Recognition (ANPR) forcewide as a tool to improve the detection of all crime. The PSU are currently working with the National Centre for Policing Excellence among other partners to simplify the process of sharing good practice and provide greater access, preferably with a single point of contact.

Government Agencies Information Network (GAIN) is a multi-agency group bringing together intelligence and investigation officers from enforcement agencies in central and local Government to share information for the purposes of crime reduction. The first Strategic Group Meeting of the Regional GAIN Board occurred this month and a range of issues is being progressed within the north-east.

Improved information sharing in Middlesbrough, South and Cleveland, East and across the north-east has allowed the effective targeting of a number of known criminals. This has contributed to significant reductions in burglary and vehicle crime in the area, especially in Middlesbrough, where burglary fell 22.9 per cent., thefts of motor vehicles fell 15.9 per cent. and thefts from motor vehicles fell 5.6 per cent. between 2001–02 and 2002–03. In Langbaurgh over the same period, burglary fell 20.7 per cent., though thefts of and from motor vehicles both rose.

Dr. Kumar: To ask the Secretary of State for the Home Department if he will make a statement on police community visibility schemes with particular reference to mobile police stations; and how he estimates such initiatives can reduce crime in the area covered by the Cleveland Police Force. [144755]

Ms Blears: It is for the Chief Constable to decide how best to deploy available resources according to operational priorities and objectives.

Cleveland Police is in the process of reviewing the accessibility of service to more rural areas of the force where mobile police stations may well be a solution. In addition the force is reviewing Community Policing models, in keeping with the Chief Constable's vision of 'Putting People First'. This vision of community policing aims to impact positively on public reassurance in terms of visibility of and accessibility, to officers by providing a minimum level of policing to all communities.This is in line with the National Policing Plan 2004–07 which sets as a key priority for the police service

> "Providing a citizen focused service to the public . . . which responds to the needs of individuals and communities and inspires confidence in the police . . .".

Driving Disqualifications

Mr. Damian Green: To ask the Secretary of State for the Home Department (1) how many people were disqualified from driving in the last five years; [145332]

(2) how many people were disqualified from driving since 2000 as a result of *(a)* drink-driving, *(b)* speeding and *(c)* dangerous or reckless driving. [145333]

Ms Blears: Available information up to 2001, which has been taken from the Home Office Court Proceedings Database, is given in the tables. Information for 2002 will be available early in 2004.

Table A: Number of persons disqualified[1] from driving at all courts for motoring offences, England and Wales, 1997–2001

	Persons disqualified
1997	171,100
1998	159,500
1999	170,500
2000	168,900
2001	177,200

[1] Includes persons disqualified under s 35 of the Road Traffic Offenders Act 1988 (penalty points system).

Table B: Number of persons disqualified from driving at all courts by offence group, England and Wales, 2000 and 2001

Offence group	*2000*	*2001*
Driving etc after consuming alcohol or taking drugs[1]	75,200	74,500
Speed limit offences[2]	11,000	10,800
Dangerous driving[3]	3,700	3,700

[1] Offences under the Road Traffic Act 1988 sec 4(1), 4(2), 5(1)(a), 5(1)(b), 6(4) and 777(6).

[2] Offences under the Road Traffic Regulation Act 1984, Motor Vehicles (Speed Limits on Motorways) Regs 1973 and Parks Regulation (Amendment) Act 1926-Byelaws made thereunder.

[3] An offence under the Road Traffic Act 1988 sec 2 as amended by the Road Traffic Act 1991 sec 2. There is no specific offence of 'reckless driving'.

Immigration Offences (Employers)

Mr. Malins: To ask the Secretary of State for the Home Department how many employers have been *(a)* prosecuted and *(b)* convicted in relation to an offence under section 8 of the Asylum and Immigration Act 1996 in each of the last six years for which figures are available; and what penalties were imposed. [142158]

Beverley Hughes: The latest available information on the number of persons proceeded against and those found guilty under section 8 of the Immigration and Asylum Act 1996, together with the penalties imposed, is shown in the table.

Number of persons proceeded against and those found guilty of offences under section 8 of the Asylum and Immigration Act 1996, England and Wales 1997 to 2002

Offence description/ Statute	*Persons[1] proceeded against*	*Number of offences involved*	*Persons[1] found guilty*	*Persons[1] fined*	*Persons[1] not separately dealt with[2]*
Employing a person subject to immigration control who has attained the age of 16/Asylum and Immigration Act 1996 section 8					
1997[3]	—	—	—	—	—
1998[3]	1	1	1	—	1
1999[3]	4	23	1	1	—
2000[3]	10	32	4	4	—
2001[3]	5	65	1	1	—
2002	2	22	1	1	—

[1] Principal immigration offence basis.

[2] Indicates that a substantive penalty has been imposed on a non-immigration offence dealt with at the same time.

[3] Data have been revised since they were published in the command paper "Control of Immigration Statistics United Kingdom 2001".

The Government have consulted publicly on proposals to strengthen the checks employers are required to carry out under section 8, with a view to improving compliance with and the enforcement of the legislation. The Government are currently considering possible measures in this area as part of their wider strategy on managed migration.

In the long term, a national identity cards scheme will reduce the burden on legitimate employers who already check the immigration status of their employees by giving them an easily understood card to check. It will also assist in prosecuting unscrupulous employers who employ illegal workers for less than the minimum wage and undercut legitimate companies

Information on those people proceeded against under the Immigration Acts was published on 27 November in the command paper "Control of Immigration: Statistics United Kingdom 2002" (Cm 6053), a copy of which can be found in the Library of the House.

Imutran Xenotransplantation Research

Mr. Drew: To ask the Secretary of State for the Home Department how many letters the Home Office has received regarding Imutran xenotransplantation research. [143690]

Caroline Flint: The Home Office computerised correspondence tracking system introduced in two stages during 2003 shows that as of 11 November 2003 we have received 228 letters from Members of Parliament about the Imutran xenotransplantation research since 30 January 2003 and 289 letters from members of the public since 25 May 2003. We have no reliable record of the number of letters received on this subject before the introduction of the computerised correspondence tracking system.

I wrote to all Members of Parliament on 15 December 2003 answering the points raised in the latest letter sent by Uncaged Campaigns about the Imutran xenotransplantation research.

Mr. Drew: To ask the Secretary of State for the Home Department if he will make a statement on the latest findings of investigations into Imutran xenotransplantation research. [143700]

Caroline Flint: In November 2000, after carefully considering the arguments for an independent judicial inquiry into the matters raised in "Diaries of Despair", the Uncaged Campaigns report on the Imutran xenotransplantation research carried out at Huntingdon Life Sciences, the then Home Secretary (Jack Straw) asked the Chief Inspector of the Animals (Scientific Procedures) Inspectorate to examine the available evidence relating to compliance with the authorities granted to Imutran Limited under the Animals (Scientific Procedures) Act 1986. This compliance review was undertaken as part of the Inspectorate's routine statutory inspection and reporting function. The Chief Inspector's report was published on 13 July 2001 and is available on the Home Office website. Copies were also placed in the House Library.The Chief Inspector's review covered five years of work, involving many thousands of scientific procedures. The review took around 300 man-hours to complete and included scrutiny of all study documents, including material not available during the normal inspection process. The Chief Inspector's findings confirmed that the general level of compliance was good. He also identified five instances of non-compliance by the surgical team. Three

of these were already known to the Home Office and were dealt with in 1997. Neither of the two new infringements merited prosecution and both were dealt with by issuing letters of admonition to those responsible.

The Chief Inspector's review identified no new issues requiring further action or investigations and none have been carried out. However, all subsequent representations and evidence received by the Home Office regarding the Imutran research have been thoroughly and carefully considered and full answers have been provided to them. This includes additional papers published in 2003 by Uncaged Campaigns on its website. All of these papers, and more, were available when the chief inspector carried out his compliance review. They provide no new insights into these matters, nor do we accept that they call into question Home Office conduct or regulation of the Imutran research in any way. In addition, in October 2003, we provided the Home Affairs Committee with a detailed response to a number questions about the Imutran research. This response is available on the Home Office website.

The Imutran licences were revoked in July 2000, following a decision by Imutran and its parent company, Novartis, to transfer its research programme to North America. No xenotransplantation work is now undertaken at Huntingdon Life Sciences.

I wrote to all Members of Parliament on 15 December 2003 answering the points raised in the latest letter sent by Uncaged Campaigns about the Imutran xenotransplantation research.

O2/Police Information and Technology Organisation

Mr. Gibb: To ask the Secretary of State for the Home Department what the role of individual police authorities is in the public private partnership between O2 and the Police Information and Technology Organisation; and if he will make a statement. [145192]

Ms Blears: The Police Information Technology Organisation (PITO) is a non-departmental public body of the Home Office. The PITO Board includes Association of Police Authorities (APA) members who represent individual police authorities.

The Airwave contract for the new police radio system was awarded by PITO to BT under the Private Finance Initiative, and novated to Airwave mmO2 in November 2001 following the demerger of BT and mmO2.

The Airwave contract was approved by the PITO Board and agreed by all police authorities. It is monitored by the Airwave Programme Board, where APA members represent the interests of individual police authorities.

Police Funding

John Mann: To ask the Secretary of State for the Home Department what account was taken of the extra bank holidays in 2004–05 in the police financial settlement. [140577]

Ms Blears *[holding answer 1 December 2003]:* Account is not taken of variable numbers of bank holidays when determining the annual police grant settlement. Accommodating changes from year to year is a matter for police local management.

Phil Sawford: To ask the Secretary of State for the Home Department what additional financial assistance is available from the Home Office to police authorities to cover the cost of large scale and expensive investigations. [144350]

Ms Blears: Police forces are normally expected to meet the cost of large-scale investigations from their own budget and general reserves.

In cases where unforeseen and exceptional costs are substantial, the Home Secretary may consider providing grant towards the additional costs. Cases are considered in the light of individual circumstances and subject to funds being available. Forces will normally be expected to meet initial costs up to 1 per cent. of their annual budget.

Murder Investigations

John Mann: To ask the Secretary of State for the Home Department what account was taken of the financial impact of concurrent murder investigations in Nottingham in the recent police financial settlement. [140579]

Ms Blears *[holding answer 1 December 2003]:* I have decided exceptionally this year to provide a standard rate increase of 3.25 per cent. in general grant for each police authority in England and Wales.

Provision is made within the police funding formula for projected levels of crime, but not at the level of each individual case. It is a matter for the Chief Constable and Police Authority to determine, within the overall resources available, the deployment of resources according to operational priorities and objectives.

Harry Cohen: To ask the Secretary of State for the Home Department how the sum representing the difference between the overall 4.2 per cent. cash rise and the 3.25 per cent. standard increase in allocation to police authorities will be spent; how much of it will be allocated to the London Metropolitan Police area; when it will be paid; and if he will make a statement. [141103]

Ms Blears: Total provision for policing to be supported by grant will increase by 4.2 per cent. in 2004–05. This includes principal formula police grant, revenue support grant and the share of national non-domestic rates available to police authorities, specific grants, capital grants, direct Home Office spending and the share of formula spending attributable to local council tax precept under revenue support grant arrangements.

All police authorities in England and Wales will receive a standard increase in unhypothecated general police grant (comprising Home Office police grant, ODPM revenue support grant and national non domestic rates) of at least 3.25 per cent.

In addition, forces will receive grant for a number of specific initiatives. We announced details of the Crime Fighting Fund on 19 November. The Metropolitan Police will receive £73.0 million. Details of other specific initiatives from which the Metropolitan Police Service will benefit are still to be announced. These include Basic Command Unit funding, funding for Community Support Officers, the Street Crime Initiative, special priority Payments, the DNA expansion programme, counter terrorism funding as well as funding for capital purposes. The Metropolitan Police will continue to benefit from 75 per cent. funding of the London Allowance, funding towards free travel for Metropolitan Police Officers and further capital funds towards the Command Control Communications Information system project.

Police (Gloucestershire)

Mr. Drew: To ask the Secretary of State for the Home Department what plans he has to ensure that there is a new timetable for an improvement in the quality of police files in Gloucestershire by means of Crown Prosecution Service participation in police training. [144015]

Ms Blears: Senior crown prosecutors, including the Chief Crown Prosecutor, have participated in 20 police training exercises in Gloucestershire between August and December 2003. This training has covered a number of issues including: the new charging arrangements; evidential requirements in racially aggravated offences; police file preparation and management; disclosure issues; and identification evidence.

The result of those training exercises is being evaluated and there are plans for a limited number of further training exercises in January and February next year and it is likely the police Crown Prosecution Service (CPS) training programme will be reviewed again at that point with a view to further joint CPS/police training during next year.

There have also been selective police/CPS training exercises designed to improve the quality of files in particularly troublesome cases and these have included rape offences and racially aggravated offences.

Presidential Visit

Norman Baker: To ask the Secretary of State for the Home Department what the estimated cost was of the police operation to provide security for the visit of President Bush. [143761]

Ms Blears *[holding answer 15 December 2003]*: The Commissioner of the Metropolitan Police tells me that the estimated cost of the policing operation in London for this event is £4.2 million. We also understand from Durham Constabulary that the estimated cost of the policing operation for the President's visit to Durham is £1 million.

Roadworks

Mr. Chope: To ask the Secretary of State for the Home Department at what time the *(a)* M20 and *(b)* M26 were closed to traffic on 15 December; at what time each was reopened to traffic on 16 December; and for what reason the roads were not reopened sooner. [145532]

Caroline Flint *[holding answer 5 December 2003]*: Sections of the M20 and M26 motorways were closed to traffic at 10.30pm on 15 December and reopened at 7am on 16 December.

The closure was necessary to enable the police to undertake a full investigation into the three deaths which unfortunately occurred as a result of an accident there.

The length of such investigations is affected, for example, by the need to ensure that small items of evidence are not overlooked, or where artificial light may not be adequate for the proper identification and interpretation of tyre marks, or other vehicles need to be prevented from destroying or obliterating evidence by passing over it.

Sexual Offences

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what requirements need to be satisfied in order to issue a Risk of Sexual Harm Order. [143479]

Paul Goggins: The Risk of Sexual Harm Order (RSHO) is a new civil preventative order which is being introduced in the Sexual Offences Act 2003. RSHOs will be available in England, Wales and Northern Ireland. The RSHO is designed to protect children aged under 16 (17 in Northern Ireland) from sexual harm by adults. We know that some abusers try to prepare children for sexual activity by exposing them to sexually explicit language or images. The RSHO is intended to help the police to prevent such behaviour.

A Chief Officer of police will be able to apply for, and a court will be able to make, a RSHO in respect of a person aged 18 or over where it appears they have, on at least two occasions either:

(a) engaged in sexual activity involving a child or in the presence of a child;

(b) caused or incited a child to watch a person engage in sexual activity or to look at a moving or still image that is sexual;

(c) given a child anything that relates to sexual activity or contains a reference to such activity;

(d) communicated with a child, where any part of the communication is sexual;

And a RSHO is necessary to protect a child (or children) from sexual harm from the defendant.

An application for an order will be by complaint to a magistrates court. The behaviour on which the application for a RSHO is based need not amount, in itself, to a criminal offence and the defendant does not need to have a previous conviction for a sexual (or any other) offence.

A RSHO may prohibit the defendant from doing anything which is necessary to protect a particular child, a group of children or children in general from sexual harm. The order will last for a fixed period of at least two years, or until further notice.

Interim RSHOs will be available to allow prohibitions to be put in place prior to the main application for a RSHO being determined. RSHOs, and interim RSHOs, can be varied, renewed or discharged on further application to the magistrates court by either a chief officer of police or defendant.

The defendant may appeal to the Crown court against the making of a RSHO or interim RSHO or any order made by a court to vary, renew or discharge a RSHO or interim RSHO.

A breach, without reasonable excuse, of any prohibition contained in a RSHO or interim RSHO will be a criminal offence punishable by up to five years imprisonment.

Speed Cameras

Bob Spink: To ask the Secretary of State for the Home Department (1) how much revenue Essex police received from the operation of *(a)* speed and *(b)* red light cameras in 2002–03; [145166]

(2) how much was levied in fines resulting from *(a)* speed and *(b)* red light cameras in Essex in each of the last five years. [145167]

Caroline Flint: Information on the revenue raised from speed and red light offences detected by camera is not available.

However the table shows, for the Essex police force area, the number of fixed penalties ordered to be paid and the number of court fines for such offences in the calendar years 1997 to 2001 (latest available). Information for 2002 will be available early in 2004.

Not all fines and fixed penalties will have been paid.

Fixed penalty and court proceedings data for speeding and traffic light offences by cameras[1,2,3] in the Essex police force area

	Fixed penalties		Court		
Offence and year	*Number of tickets*	*Estimated revenue[4]*	*Number of fines[5]*	*Total amount of fine (£)*	*Average fine (£)*
Speeding offences[2]					
1997	18,800	*753,700*	880	*93,900*	107
1998	8,700	*346,600*	1,700	*227,400*	134
1999	19,800	*791,400*	2,100	*357,400*	169
2000	46,300	*2,007,200*	2,800	*317,800*	115
2001	81,900	*4,911,100*	6,500	*651,200*	101
Traffic light offences3					
1997	3,400	*136,800*	860	*67,900*	79
1998	2,000	*78,900*	910	*84,600*	93
1999	2,700	*109,500*	590	*48,900*	83
2000	3,800	*165,500*	850	*67,700*	80
2001	3,700	*220,980*	1,100	*88,400*	78

[1] Automatic cameras until 1998, all camera types from 1999.
[2] Offences under the Road Traffic Regulation Act 1984 and The Motor Vehicles (Speed Limits on Motorways) Regulations 1973.
[3] Offences under the Road Traffic Act 1988 and The Traffic Signs Regulations and General Directions 1994.
[4] Paid i.e. no further action.
[5] Estimate based on £40 fixed penalty charge to October 2000. From November 2000 the penalty was raised to £60.

Mr. Drew: To ask the Secretary of State for the Home Department how many fixed penalty notices were issued to motorists caught at each location of a fixed speed camera within a Safety Camera Partnership in *(a)* the year prior to installation and *(b)* the year subsequent to installation. [142235]

Caroline Flint: Information collected centrally on the number of fixed penalty notices issued as a result of detection by camera does not identify the type of camera used or its location.

Stop and Search

Lynne Jones: To ask the Secretary of State for the Home Department how many times stop and search powers under section 60 of the Criminal Justice and Public Order Act 1994 were used in the vicinity of RAF Fairford between 6 March and 27 April. [144695]

Ms Blears: There were 56 searches conducted between 6 March and 27 April 2003 under section 60 of the Criminal Justice and Public Order Act 1994 in the vicinity of RAF Fairford between 6 March and 27 April.

Young Offender Institutions

Mr. Oaten: To ask the Secretary of State for the Home Department how often children have been held in special cells in Young Offender Institutions since January, broken down by institution; and for how long in each case. [144361]

Paul Goggins *[holding answer 15 December 2003]*: Data on the number of times children have been held in a special cell in each juvenile establishment since January 2003 is shown in the following table.

Special accommodation may only be used for the temporary confinement of a violent or refractory prisoner and not as punishment. As soon as the original justification for the use of the special accommodation has ceased, the young person will be moved from that accommodation.

Establishment	*Number of occasions*

NORTHERN IRELAND

Assembly Election

Lady Hermon: To ask the Secretary of State for Northern Ireland what plans he has to make an assessment of the procedures for obtaining postal votes in Northern Ireland; and how many *(a)* people applied

for a postal vote in each Northern Ireland constituency and *(b)* postal votes were issued for the Assembly election on 26 November. [142656]

Mr. Spellar: The Electoral Commission, which has statutory responsibility for reporting on the conduct of elections, will issue a report on the recent Assembly elections in the spring. This will include an assessment of the procedures for obtaining postal votes.

It is not possible at this stage to provide information on how many people applied for postal votes in each Northern Ireland constituency. I will ask the Chief Electoral Officer to write to the hon. Member. However, statistics (including postal proxies) on the issuing of postal votes are as follows:

Constituency	*Total number of Absent vote issues*
Belfast, East	502
Belfast, North	620
Belfast, South	573
Belfast, West	543
East Antrim	477
E. Londonderry	1,427
Fermanagh & South Tyrone	4,327
Foyle	1,434
Lagan Valley	1,022
Mid-Ulster	2,814
Newry & Armagh	1,863
North Antrim	1,061
North Down	563
South Antrim	557
South Down	1,701
Strangford	709
Upper Bann	1,118
West Tyrone	2,942
Total	24,253

Lady Hermon: To ask the Secretary of State for Northern Ireland how many eligible voters in each Northern Ireland constituency were turned away from polling stations in Northern Ireland on 26 November for not having correct identification for the Assembly election. [142661]

Mr. Spellar: The type of identification brought by voters was recorded for approximately 92 per cent. of all voters at the Assembly election on 26 November. Particularly during the busiest times of polling day not all information on identification was recorded.

Approximately 3,493 electors were recorded as having brought the wrong identification documents or no identification whatsoever. However, there is evidence that some of these returned before the close of poll with an alternative, correct form of ID and were able to cast their vote at that time.

The totals recorded are as follows:

Constituency	*Total number of voters with wrong or no identification*
Belfast, East	128
Belfast, North	148
Belfast, South	139
Belfast, West	246
East Antrim	145
E. Londonderry	133
Fermanagh & South Tyrone	254
Foyle	211
Lagan Valley	153
Mid-Ulster	266
Newry & Armagh	304
North Antrim	240
North Down	125
South Antrim	161
South Down	192
Strangford	158
Upper Bann	247
West Tyrone	243

Belfast City Airport

Lady Hermon: To ask the Secretary of State for Northern Ireland what discussions he has had with the main interested parties and local resident groups in relation to the review of the Planning Agreement affecting *(a)* traffic volumes and *(b)* operational hours at Belfast City Airport; and if he will make a statement. [145177]

Angela Smith: I have not received any approach from Belfast City Airport about a review of the Planning Agreement and therefore have had no discussions with the main interested parties or local residents groups in relation to either traffic volumes or operational hours.

Benefit Payment Arrangements

Mr. Beggs: To ask the Secretary of State for Northern Ireland how much funding was allocated for the advertising campaign for the direct payment of pensions and benefits. [145312]

Mr. Spellar: The amount of funding allocated to the advertising campaign for direct payment in Northern Ireland to March 2004 is £728,930. To date the Social Security Agency has invested £591,430.

Civil Service (Fair Employment)

Lady Hermon: To ask the Secretary of State for Northern Ireland what options are available to applicants to the Northern Ireland Civil Service when declaring their religion on its fair employment monitoring form; what plans he has to amend the arrangements to cater for a wider variety of community backgrounds; and if he will make a statement. [142691]

Mr. Pearson: Since 1990, employers in Northern Ireland, including the Northern Ireland Civil Service (NICS), have had a legal duty under fair employment legislation to monitor the community background of their workforces and of those applying to fill vacancies.

The legislation requires the NICS to ask applicants, in writing, whether they belong to the Protestant or the Roman Catholic community or to neither community. The NICS meets this requirement by asking each applicant to complete an equal opportunities monitoring form, which is included with every job application form. Applicants are asked to select one of the following options:

I have a Protestant community background

I have a Roman Catholic community background

I have neither a Protestant nor a Roman Catholic community background

There are no plans to amend the monitoring Regulations and, as the NICS is bound by these Regulations, neither are there plans to change the Service's current arrangements to include other community backgrounds.

Compensation Agency

Mr. Donaldson: To ask the Secretary of State for Northern Ireland (1) how many claims for compensation have been paid by the Compensation Agency in respect of damage to Orange halls in each of the past five years, broken down by county; and what the total value was of the compensation paid for these claims; [145551]

(2) how many claims for compensation made to the Compensation Agency have been unsuccessful in respect of damage to Orange halls in each of the past five years, broken down by county; [145552]

(3) how many claims for compensation have been made to the Compensation Agency in respect of damage to Orange halls in each of the past five years, broken down by county; [145553]

(4) how many Chief Constable's certificates have been issued in respect of claims made to the Compensation Agency for damage to Orange halls in each of the past five years, broken down by county. [145554]

Mr. Spellar: The Chief Executive of the Compensation Agency has written to the hon. Gentleman. A copy of the letter will be placed in the Library.

Doctors

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland what assessment he has made of the impact on the Health Service in Northern Ireland of the restriction in working hours of junior doctors under the European Working Time Directive, with particular reference to *(a)* ward numbers and *(b)* specialist services. [144264]

Angela Smith: From August 2004, doctors in training will become subject to the working restrictions applicable under the European Working Time Directive. A substantial programme of work is under way, in partnership with the HPSS Boards and Trusts here, to ensure compliance with this Directive across all employing organisations, and all specialties within each organisation.

Trusts have been asked to provide action plans showing how they will achieve compliance with the EWTD by August 2004. The HPSS Junior Doctors Implementation Support Group, established in 2001 to oversee implementation of the New Deal for Doctors in Training, is currently assessing these Action Plans and is taking a regional view of how EWTD will impact. The Implementation Support Group is expected to make recommendations to my Department shortly on the best way forward.

To support HPSS Employers, my Department has already published a range of guidance on EWTD, monitoring Junior Doctor working patterns and developing new means of delivering the service. In addition, we are currently monitoring the progress of a number of pilot projects that are being undertaken within the NHS in England. These pilots are developing and testing further methods of how employers can achieve compliance with the European Working Time Directive. My Department will be seeking to determine which of these pilots can apply in an equally beneficial manner within the Health Service in Northern Ireland.

Fuel Poverty

Mr. Roy Beggs: To ask the Secretary of State for Northern Ireland what steps he is taking to assist those pensioners with small occupational pensions or savings who are not eligible for the Warm Homes Scheme to upgrade to a non-manual central heating system. [145313]

Mr. Spellar: The eligibility criteria for the Warm Homes Scheme is kept under regular review to ensure that as many vulnerable people as possible can benefit. For example, it was recently revised to include pension credit.

Pensioners with additional income who are ineligible for assistance through the Warm Homes Scheme may qualify for a Disabled Facilities Grant which includes provision for assistance towards the cost of replacing heating systems.

Mr. Beggs: To ask the Secretary of State for Northern Ireland what the average time taken in the last 12 months was to process assessments of applications to upgrade heating systems through the Northern Ireland Housing Executive's Disabled Facilities Grant Scheme, broken down by Health and Social Services trust area. [145314]

Mr. Spellar: The information is not available in the format requested as works required to be carried out in a Disabled Facilities Grant (DFG) application are not recorded separately. DFG covers a wide range of works for access to and around a house as well as facilities within a house. Where a heating upgrade is required this is likely to form only a small part of the works required.

In DFG cases generally, the average time taken from date of receipt of preliminary inquiry to the issue of schedule of works for DFGs in the year up to the end of October 2003 was 278 days. This figure includes the time for the occupational therapist's assessment, which took an average of 192 days.

Once the applicant has decided to proceed with the grant application, the average time from the receipt of completed documentation to the issue of formal approval, including the test of resources, was 131 days. Over the last six months 98 per cent. of cases have been processed within the agreed target time of 26 weeks.

The Housing Executive is currently reviewing its arrangements regarding the processing of DFG cases with the aim of further reducing the processing time for the stages that are within its direct control.

Hare Population

Lady Hermon: To ask the Secretary of State for Northern Ireland what progress has been made in

introducing the proposed temporary ban on the killing or taking of Irish hares; and if he will make a statement. [144386]

Angela Smith: Having carefully considered all the objections to the proposed ban, I have decided to proceed with making a Special Protection Order, under the Game Preservation Act (NI) 1928, which will impose a ban on the killing, taking, sale or purchase of Irish Hares with effect from 19 January 2004 for a period of one year.

This temporary ban is a precautionary measure which will allow the Department of the Environment the opportunity to conduct further detailed research on the Irish Hare in early 2004. The results of this research work will inform the Department's conclusions on the level of protection required for the Irish Hare, as part of a current overall review of the Wildlife (NI) Order 1985. This review will consider the status of several species of animals, birds and plants, with a view to providing adequate protection for a wide range of Northern Ireland's varied wildlife.

Housing

Mr. McGrady: To ask the Secretary of State for Northern Ireland how many public sector dwellings are in the ownership of the Northern Ireland Housing Executive in the Portstewart area; and what plans are in place to provide for social housing in this area. [145101]

Mr. Spellar: The Northern Ireland Housing Executive has 209 properties in the Portstewart area and has identified a requirement for an additional 22 houses that will be built by Housing Associations. Some sites for these properties have already been acquired and four houses have been built while eight are programmed to start in 2004–05. Housing Associations, in conjunction with the Northern Ireland Housing Executive, are actively investigating possible locations for other sites for the remaining 10 properties.

Lady Hermon: To ask the Secretary of State for Northern Ireland what assessment he has made of the potential demand for new homes in Northern Ireland in the next five years; whether he expects this demand to be met; and if he will make a statement. [144347]

Mr. Spellar: The Regional Development Strategy for Northern Ireland 2025 established a need for 160,000 additional dwellings in Northern Ireland by 2015 and 250,000 by 2025.

Progress is monitored and reported annually. The Strategy will be reviewed in 2011/2012 to consider if major changes of direction are required in light of new trends and circumstances. There will be a focused reassessment of the Regional Development Strategy in 2006/2006 to identify any aspects where 'in course' adjustments might be appropriate.

In terms of social housing, the Net Stock Model—the basis for calculating the number of social houses to be built has identified a need for some 1,500 annually. The model is, however, currently under review and the figures will be adjusted in the light of this. I will continue to bid for the funding to support whatever level of new build social housing is required.

Midwife-led Maternity Units

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what means he used to find out what people think of the Government's proposals for establishing stand-alone, midwife-led maternity units. [144777]

Angela Smith: In line with my predecessor's commitment, I issued a consultation document on Community Midwifery Units on 30 June 2003.

As part of the consultation process, advertisements were placed in the main regional newspapers. The consultation document was made available on my Department's website and was also issued to a wide range of organisations and individuals. In addition, my Department commissioned the Community Development and Health Network to undertake a series of focus groups across Northern Ireland. These focus groups were specifically targeted to obtain responses from both potential service users and those groups least likely to respond to government consultations.

The consultation period closed on 31 October. Officials are now in the process of drawing together an analysis of the responses received.

Modern Apprenticeship Courses

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many people enrolled on a modern apprenticeship course in September 2003. [145308]

Jane Kennedy: 869 young people were enrolled on a Jobskills Modern Apprenticeship programme during September 2003.

Northern Ireland Housing Executive

Mr. McGrady: To ask the Secretary of State for Northern Ireland if he will make a statement on the Northern Ireland Housing Executive plans for reducing the time taken to process grant applications for home improvements. [145105]

Mr. Spellar: The Northern Ireland Housing Executive has initiated the Modernising the Private Sector Improvement Services project. The main aim of this project is to streamline the grants process and make it easier for applicants. Preliminary work has been undertaken on the project including a review of processes and the preparation of detailed requirements for a new Grants Management IT System. Work on the IT system is planned to start early in 2004 and it is anticipated that it will be complete in two years. However, it is expected that, during this process, procedures will be identified that can be streamlined within the overall timeframe for the project.

Applications for small scale works made under Home Repairs Assistance Grant, which was introduced from 1 December 2003, can be processed in a comparatively short time to help the elderly and those with disabilities.

Election Candidates

Mr. McNamara: To ask the Secretary of State for Northern Ireland what his policy is on whether a member of the *(a)* Human Rights Commission and *(b)* Equality Commission may accept a nomination to contest an

election for (i) a district council, (ii) the Northern Ireland Assembly and (iii) the Westminster Parliament; and what account he took of the Paris Principles in determining that policy. [145212]

Mr. Spellar: Members of the Northern Ireland Human Rights Commission and the Equality Commission cannot accept a nomination to contest an election for the Northern Ireland Assembly or the Westminster Parliament under the terms of the Northern Ireland Assembly Disqualification Act 1975 and the House of Commons Disqualification Act 1975.

Post Office

Mr. Beggs: To ask the Secretary of State for Northern Ireland what discussions he has had with the major banking groups in Northern Ireland regarding access to bank accounts at post offices. [145310]

Mr. Timms: I have been asked to reply.

All the major banking groups in Northern Ireland are playing a full role in universal banking services at the Post Office, making their own basic bank accounts accessible at post offices and contributing towards the costs of the Post Office card account. Whether they provide access to other accounts at post offices is a commercial matter between the individual banks and the Post Office. I would welcome all banks making all their current accounts accessible at post offices for the benefit of their customers.

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many people have opened a Post Office Card Account. [145311]

Mr. Timms: I have been asked to reply.

I understand from Post Office Ltd. as of 5 December 2003, 1,165,147 Post Office card accounts had been opened.

Public Transport

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many vehicles in the *(a)* Ulsterbus fleet and *(b)* Citybus fleet are (i) in operation and (ii) undergoing repair and maintenance. [144224]

Mr. Spellar: Translink has advised that routinely 1025 buses in the Ulsterbus fleet are operational and 114 are undergoing repair and maintenance and 226 buses in the Citybus fleet are operational and 40 are undergoing repair and maintenance.

Roads

Mr. Beggs: To ask the Secretary of State for Northern Ireland what plans he has to amend the criteria used to determine the need for road dualling on major trunk roads; and if he will make a statement. [144240]

Mr. Spellar: The Chief Executive of Roads Service has written to the hon. Gentleman in response to this question. A copy of the letter will be placed in the Library.

Sexual Health Services

Mr. Beggs: To ask the Secretary of State for Northern Ireland what action he will take to increase funding for sexual health services in Northern Ireland. [145428]

Angela Smith: The Department, through its Regional Advisory Committee on Communicable Disease Control, commissioned a local review of sexual health issues. The resulting comprehensive report on "Sexually Transmitted Infections and Genito-urinary Medicine Services" was issued to Health and Social Services Boards and Trusts for implementation on 14 April 2003.

This was followed by the Department's "Sexual Health Promotion Strategy and Action Plan", which has been issued for a period of consultation finishing on 19 March 2004. The aim of the Strategy is to improve, protect and promote the sexual health and well-being of the population in Northern Ireland, along with addressing issues relating to education, access to information and services. It also addresses issues such as reducing rates of sexually transmitted infections and Aids.

In the meantime, my Department, in conjunction with Boards and Trusts, is identifying opportunities to improve Genito-urinary Medicine services, along with the necessary resources to sustain service development.

University Students

Mr. Beggs: To ask the Secretary of State for Northern Ireland what percentage of students attending university in each of the last five years came from families where *(a)* one or more of the parents also attended university and *(b)* neither parent attended university. [145305]

Jane Kennedy: The Department for Employment and Learning (DEL) does not collect information on the past educational participation of current students' parents.

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many students who enrolled at university in Northern Ireland failed to complete their course in each of the last five years. [145309]

Jane Kennedy: The following table (published by the Higher Education Funding Council for England) details the number of full-time, first degree, entrants to university in Northern Ireland who neither continued into the following year of their course nor successfully completed their programme of study, over the period 1996–97 to 2000–01.

Year of entry	*Number of non-completers*
2000–01	694
1999–2000	625
1998–99	931
1997–98	566
1996–97	513

WORK AND PENSIONS

Draft Disability Discrimination Bill

Lynne Jones: To ask the Secretary of State for Work and Pensions for what reasons it is proposed to extend the definition of disability in the Draft Disability Discrimination Bill to include people infected by HIV. [145729]

Maria Eagle: People with progressive conditions, such as HIV infection, are already covered by the Disability Discrimination Act 1995 from the point at which the condition gives rise to an impairment which has some effect on their ability to carry out day-to-day activities, and which will be likely to have a substantial adverse effect. The Government are proposing to cover people with HIV infection before symptoms develop because it is concerned that discrimination can arise at a much earlier stage.

Assaults on Staff

Mr. Hancock: To ask the Secretary of State for Work and Pensions how many *(a)* physical and *(b)* non-physical assaults there have been on staff in the (i) Employment Service, (ii) Benefits Agency and (iii) Jobcentre Plus in each year since 2001; how many prosecutions resulted; what penalties were handed down; and if he will make a statement. [141504]

Mr. Browne: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Mr. Mike Hancock, dated 15 December 2003:

As Jobcentre Plus is an Executive Agency, the Secretary of State has asked me to reply direct to your question on the number of physical and non-physical assaults there have been on staff in the Employment Service, Benefits Agency and Jobcentre Plus in each year since 2001 and how many prosecutions and penalties resulted. This is something that falls within the responsibilities delegated to me as Chief Executive of the Agency.

Information on the number of incidents occurring in our offices since 2001 is in the table:

Physical and Non-Physical Assaults 2001–2003

	2001		*2002*		*2003*[3]	
	Physical contact	*Verbal abuse*	*Physical contact*	*Verbal abuse*	*Physical contact*	*Verbal abuse*
ES Offices	222	3,637	44	1,026	—	—
BA Offices	135	4,910	34	1,128	—	—
Pathfinder Offices[1]	1	108	2	171	—	—
Jobcentre Plus[2]	—	—	207	4,299	188	5,648

[1] Pathfinder Offices commenced on 1 October 2001.
[2] Jobcentre Plus was launched April 2002. All sites were Jobcentre Plus sites from that date.
[3] Data reported for 2003 is up to and including 28 November.
Source:
Occupational Health and Safety Division

Physical contact is when a customer directly touches a member of staff with or without an object. It includes striking, pushing, spitting and throwing of objects—large or small. Non-physical contact mainly involves verbal abuse but can include throwing of objects that miss or hit screens.

Historically there has been under-reporting of incidents. Increased awareness of Health and Safety and encouragement by management and trade unions to report incidents have contributed to the increased number of incidents being notified.

Information on prosecutions and penalties since Jobcentre Plus came into existence is shown in the table below. We do not have information available for 2001. Data on penalties indicates the number of banning orders imposed on customers who have a history of behaving in an unacceptable manner. Banning orders prevent these customers from entering any Jobcentre Plus premises.

	Prosecutions	*Penalties*
2002	1	430
2003	1	600

Occupational Health and Safety Division

I hope this is helpful.

Fareham Jobcentre

Mr. Hoban: To ask the Secretary of State for Work and Pensions (1) how many staff are located at the former jobcentre premises at 187–199 West Street, Fareham; [143697]

(2) what the *(a)* annual rental and *(b)* unexpired lease period is of the former jobcentre premises at 187–199 West Street, Fareham; [143698]

(3) if he will make a statement on the future use by the Department of the former jobcentre premises at 187–199 West Street, Fareham. [143699]

Mr. Browne *[holding answer 11 December 2003]*: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Mr. Mark Hoban, dated 15 December 2003:

As Jobcentre Plus is an Executive Agency, the Secretary of State has asked me to reply direct to your questions about the use by Jobcentre Plus of the former Jobcentre premises at 187–199 West Street, Fareham. This is something that falls within the responsibilities delegated to me as Chief Executive of the Agency.

Jobcentre Plus has been established to deliver a radical change in the way that benefits and employment services are provided to people of working age. By 2006, we plan to introduce a network of around 1000 fully integrated Jobcentre Plus offices.

The Jobcentre Plus Implementation Programme for Hampshire commenced in June 2002. Following a period of consultation, the former Social Security Office at Civic Way, Fareham, was identified as being suitable for use as a new Jobcentre Plus site. Following adaptations to the premises, the new office opened on 22 April 2003.

It was clear throughout this process that the site, though suitable for the delivery of the new Jobcentre Plus services, would not be big enough to house all of the staff currently working in Fareham. Therefore, the premises at 187–199 West Street, formerly the Jobcentre, was retained as an "overspill" site. Further acquisitions, together with other new Jobcentre Plus sites that open during the coming months, may influence space requirements across Hampshire and the Isle of Wight. This in turn, may impact upon the need to retain the use of this particular building.

Currently, the office accommodates a total of 35 staff, transferred following the opening of our new Jobcentre Plus site. Of this total, eleven are engaged in the processing of Jobseeker's Allowance claims; twelve are staff from the Pensions Service and twelve from the Counter Fraud Investigation Service. The present complement of Counter Fraud Investigation Service staff will be joined by a further fourteen members of staff from our Employer Collusion Team with effect from 14 January 2004.

The premises at West Street, with effect from 15 December 2003, will be controlled by TRILLIUM, under the Private Sector Resource Initiative for the Management of Estate. For this reason, information about annual rental and lease agreement is classed as commercial in confidence and so cannot be provided.

I hope this is helpful.

Jobseekers

Mr. George Osborne: To ask the Secretary of State for Work and Pensions pursuant to the pre-Budget report, paragraph 4.10, if he will list those organisations that will delivery mandatory short intensive work-focused courses for all jobseeker's allowance claimants aged 25 or over at the six month stage; and if he will list the pilot areas. [145113]

Mr. Browne: The mandatory short intensive work-focused courses for jobseeker's allowance claimants aged 25 and over will be piloted from June 2005. Following detailed planning and development, we will seek skilled providers through normal Jobcentre Plus procurement processes. Pilot areas are yet to be selected.

New Deal

Mr. George Osborne: To ask the Secretary of State for Work and Pensions (1) pursuant to the pre-Budget report, paragraph 4.62, what independent assessment has been undertaken to learn from the best current New Deal provision; [145114]

(2) pursuant to the pre-Budget report, paragraph 4.63, what independent assessment has been undertaken to consider the scope for simplifying current processes to make systems easier for *(a)* employers, *(b)* clients, *(c)* advisers and *(d)* providers. [145115]

Mr. Browne: We have commissioned a large amount of independent research on the New Deals including: "Synthesising the evidence on flexible delivery" (W171: ECOTEC and Insite, October 2003); "New Deal for Young People: Introducing a more 'tailored' approach" (W164: ECOTEC and Insite, September 2003); and "New Deal for people aged 25 and over: A Synthesis Report" (W163: Policy Studies Institute, June 2003), which are available in the Library. Independent research has not been undertaken to look specifically at simplifying current processes.

We will be looking critically at our administration of employment programmes to identify whether there is scope for simplification.

Pensions

Mr. Jim Cunningham: To ask the Secretary of State for Work and Pensions if he will take steps to amend the 25 per cent. rule to enable those with less than 10 years' full contributions to receive a pension. [145469]

Malcolm Wicks: We have no plans to change the 25 per cent. rule.

Winter Fuel Payments

Mr. Laurence Robertson: To ask the Secretary of State for Work and Pensions what the annual cost of sending out reminder letters to pensioners informing them that they are entitled to receive winter fuel payments was in each year since inception of the payments; and if he will make a statement. [145376]

Malcolm Wicks: Information is not available in the format requested. In accordance with the requirements of Resource Accounting and Budgeting the Department now accounts for its administration and benefit expenditure by Strategic Objective, as set out in its Public Service Agreements (PSA), and by individual requests for Resources (RfRs) as set out in the Departmental Estimates and Accounts. This means that the Department is unable to identify the administrative costs of individual activities within the delivery of specific benefits.

CONSTITUTIONAL AFFAIRS

House of Lords

Lady Hermon: To ask the Parliamentary Secretary, Department for Constitutional Affairs what assessment he has made of the number of peers who would be interested in relinquishing their right to sit in the House of Lords. [145068]

Mr. Leslie: The Government have not made any formal assessment of the number of peers who would be interested in relinquishing their current right to sit in the Lords, but have sought views on the desirability of introducing provisions to allow for voluntary resignation from the Lords in their Consultation paper, "Constitutional Reform; Next Steps for the House of Lords". The Government are currently analysing all the responses submitted during the consultation exercise, including a number of responses from peers, and will publish their analysis of the consultation responses, along with their plans for reform of the House of Lords in due course.

Lady Hermon: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many members he expects the statutory independent Appointments Commission for the House of Lords will have; how many members of the Commission will be appointed; and if he will make a statement. [145069]

Mr. Leslie: The recent consultation paper, "Next Steps for the House of Lords", consulted on the proposed statutory independent Appointments Commission for the House of Lords. The consultation period ended on 12 December 2003, and the Government are in the process of analysing responses to the consultation. The Government will publish an analysis of the consultation in due course, and intend to introduce legislation this session to establish the new Commission.

Lady Hermon: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many responses he received to the "Constitutional Reform: Next Steps for the House of Lords" consultation document; how many of these responses came from *(a)* Government Departments and agencies, *(b)* political parties and hon. Members, *(c)* peers currently serving in the House of

Lords, *(d)* peers removed under the House of Lords Act 1999, *(e)* main representative groups and interested parties and *(f)* ecclesiastical representatives and organisations in (i) England, (ii) Scotland, (iii) Wales and (iv) Northern Ireland; and when the Government intend to issue their response to the responses received. [145071]

Mr. Leslie: The consultation period for the consultation paper, "Constitutional Reform: Next Steps for the House of Lords", closed on 12 December 2003. By 18 December, 204 responses had been received from a range of interested parties and responses are still being received. The Government are still considering those responses, including a precise analysis of who responded, and will publish that information and their conclusions in due course.

Draft Mental Incapacity Bill

Mr. Drew: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on the implications for an individual of having a parent, sibling or peer designated with enduring power of attorney, with particular reference to the Draft Mental Incapacity Bill. [145204]

Mr. Lammy: Under the Draft Mental Incapacity Bill, an individual will be able to create a Lasting Power of Attorney (LPA). LPAs will replace the current Enduring Power of Attorneys and will allow donors to appoint attorneys to make either financial decisions or health care and welfare decisions on their behalf, should they lose capacity in the future.

In making an LPA, individuals will have choice on who they appoint as an attorney—there is no limitation to a parent, sibling or peer. The important factor is that the individual chooses someone that they know and trust.

Mr. Drew: To ask the Parliamentary Secretary, Department for Constitutional Affairs what plans his Department has to support the work of professionals who are required to give evidence to the Court of Protection under the provisions of the Draft Mental Incapacity Bill. [145205]

Mr. Lammy: Under the Draft Mental Incapacity Bill, the Court of Protection will be available to deal with cases of dispute which cannot be resolved in any other way. The intention is that most cases, as now, will not need to be resolved by formal processes. The procedures will make it simple for professionals and others to make representations to the court.

DEPUTY PRIME MINISTER

Regional Assemblies

Andrew George: To ask the Deputy Prime Minister what assessment he has made of the range of *(a)* non-departmental public bodies and *(b)* other autonomous public bodies operating in the Government regions of the (i) north-east, (ii) north-west and (iii) Yorkshire and the Humber where functions could be brought under the control of the proposed regional assemblies. [145915]

Mr. Raynsford: Public bodies in the north-east including those that would be brought under elected assemblies were set out in the White Paper, "Your Region, Your Choice: Revitalising the English Regions", published in May 2002. Similar arrangements apply in the north-west and Yorkshire and the Humber. Since then the Government have confirmed that Elected Regional Assemblies will also assume responsibility for the Fire and Rescue Service in their region.

Mr. Curry: To ask the Deputy Prime Minister (1) what the cost was of literature printed for the information campaign, "Elected Regional Assembly: Your Say"; [145989]

(2) what the cost was of each item of promotional material for the information campaign, "Elected Regional Assembly: Your Say". [146046]

Mr. Raynsford: Material produced for the design of the Your Say information campaign, such as exhibition stands and leaflets will continue to be used throughout the information campaign in the three northern regions.

The available cost breakdown for literature and other promotional material so far are:

	£
Creative costs	40,000
Leaflet design, including photography, artwork and printing	31,500
Translations	10,000
Exhibition stands	49,000
Stakeholder and press packs for the launch	4,000

Fire Authority Grant

Helen Jackson: To ask the Deputy Prime Minister by how much in total fire authorities have exceeded their grant increase over each of the past five years. [143971]

Mr. Raynsford: The amount by which the increase in fire authority precepts has exceeded the increase in grant for the years 1998–99 to 2003–04 is tabled as follows.

Period	*Amount by which increase in precepts exceeds grants to the nearest whole £ million*
1998–99 to 1999–2000	0
1999–2000 to 2000–01	0
2000–01 to 2001–02	-3
2001–02 to 2002–03	-1
2002–03 to 2003–04	8

This table covers the six Metropolitan County Fire authorities. These were the only single-service fire authorities which received grants and which were in existence throughout the period from 1998–99 to 2003–04. In each year, grants have been compared with previous years' grants on a like-for-like basis, taking into account adjustments for changes in function and funding.

The data for the years 1998–99 to 2002–03 is outturn data taken from the RS forms. The data for 2003–04 is budget data taken from the RA forms as outturn data is not yet available. These forms are completed each year by individual local authorities.

The grants included are redistributed business rates and Revenue Support Grant. Amounts received under the SSA Reduction Grant (SSA Review) and Central Support Protection Grant have also been included, where appropriate.

Fire Service College

Mr. Clifton-Brown: To ask the Deputy Prime Minister in relation to the Fire Service College, Moreton-in-Marsh, what the total Government grant was in the last financial year; for what purposes it was given; for what reason the college made a loss in the last financial year; and why the annual accounts for the year ended March 2003 state that the college is unlikely to do better than break-even in the year to 31 March 2004. [145789]

Phil Hope: Grant totalling £625,000 was paid to the Fire Service College in 2002–03, for the Brigade Command Course. The College's ability to trade in both the latter part of 2002–03 and the first quarter of 2003–04 was adversely affected by the fire dispute, which resulted in the cancellation of courses. Overseas trading by the College was also constrained by the international situation. The introduction of the Integrated Personal Development System (IPDS) in the UK Fire and Rescue Service from November 2003 is requiring the development of a new suite of IPDS-compliant training courses by the College to replace traditional courses. This has caused some disruption in business as fire and rescue services adapted to the new requirements and delayed the take-up of some College training capacity this year.

Mr. Clifton-Brown: To ask the Deputy Prime Minister what steps are being taken to integrate the Fire Service College, Moreton-in-Marsh, training facilities with regional fire service training facilities; what steps are being taken to encourage foreign fire service training business to the college; what investigations are being undertaken into the feasibility of privatising or other alternative trading methods for the college; and what other trading opportunities the college is investigating. [145790]

Phil Hope: The White Paper "Our Fire and Rescue Service" published in June 2003 sets out a vision for the Fire Service College as a national Centre of Excellence for the UK Fire and Rescue Service (UKFRS), and further details on the College's role are provided in the Draft Fire and Rescue National Framework published in December 2003. The Framework trails a national workforce development strategy that will set out the respective roles for training providers at national, regional and local level. There are no specific proposals to integrate the College's facilities with regional fire service training facilities.

The College is working to develop other markets both in the UK fire industry and with overseas fire and rescue services. It is developing an enhanced training portfolio, with increased emphasis on outreach training, and distance and e-learning capabilities. Options for involving private sector partners in aspects of the College's trading are being actively explored.

Homelessness

Simon Hughes: To ask the Deputy Prime Minister (1) how many people were homeless in *(a)* London and *(b)* England in each year since 1997; [143993]

(2) how many families have claimed to be homeless in *(a)* London and *(b)* England in each year since 1997. [143994]

Yvette Cooper: I refer the hon. Member to the answer given on 5 January 2004, *Official Report*, column 142W.

Housing

Mr. Hayes: To ask the Deputy Prime Minister what discussions he has had with the housing industry on the relationship between mortgage ineligibility of young people and access to affordable housing. [144095]

Keith Hill: None, but wider issues about affordable housing are discussed with the housing industry on many occasions.

Mrs. Helen Clark: To ask the Deputy Prime Minister (1) what impact the Inland Revenue's ruling of 24 October will have on the standard of housing in Peterborough; [145740]

(2) what impact the delay in the transfer of homes to Crosskeys Homes will have on the local authority's short-to-medium term housing policy. [145741]

Keith Hill: I refer my hon. Friend to the answer given on 15 December 2003, *Official Report*, columns 745–46W.

Dr. Whitehead: To ask the Deputy Prime Minister how many new or additional homes he expects to be provided in *(a)* the South East and *(b)* the South West by the end of 2006; and how many of these homes he expects to be available at affordable prices for households on average income. [145752]

Keith Hill: Regional Planning Guidance 9 for the South East and 10 for the South West each require, over the six year period to the end of 2006 for approximately 234,000 and 121,000 additional dwellings to be provided in the wider South East (including Bedfordshire, Essex and Hertfordshire) and the South West respectively. Of these the indicative targets in the two RPGs indicate that at least 108,000 and 36,000 additional dwellings should be provided over this period at affordable prices for households on or below average income.

Nuclear Power Stations

Mr. Liddell-Grainger: To ask the Deputy Prime Minister what the minimum building distance from a nuclear power station is, for industrial structures which are not part of the plant. [145742]

Keith Hill: There is no specified minimum distance that has to be maintained between a nuclear power station and another industrial structure that is not a part of the power station plant. The decision on whether any proposed development should be permitted to take place within the vicinity of a nuclear power station is a matter for the local planning authority, taking advice from the Health and Safety Executive on the suitability of the development with regard to the potential off-site risk.

Planning Inspectorate

Denzil Davies: To ask the Deputy Prime Minister how many persons applied for the recently advertised post of non-executive director to serve on the Management Board and Audit Committee of the Planning Inspectorate. [145464]

Yvette Cooper: 21 people applied for the posts, of whom 12 were male and nine female. Seven candidates were selected for interview, three male and four female. Elizabeth Peace and Jonathan Vickers were selected to take up the appointments from 1 January 2004. Both appointments will run for two years with an option to extend for another two.

Regional Housing Boards

Mr. Hoban: To ask the Deputy Prime Minister if he will make a statement on the priorities of each of the regional housing boards in England. [145967]

Keith Hill: The Regional Housing Boards were asked to identify each region's priorities in line with their Regional Housing Strategies. These were drawn up by those organisations represented on the Board, in full consultation with key regional stakeholders. The priorities reflect not only regionally identified issues, but also national policies. The Office of the Deputy Prime Minister has allocated nearly £5 billion for next year and the year after to address the priorities set out in the Regional Housing Strategies.

Written Answers to Questions

Wednesday 7 January 2004

TREASURY

Annuities

Kevin Brennan: To ask the Chancellor of the Exchequer what steps he will take to improve competition in the market for bulk-buying of index linked annuities; and if he will make a statement. [145727]

Ruth Kelly: The operation of the market in bulk annuities is a commercial matter for the companies and pension schemes concerned.

BCCI

Harry Cohen: To ask the Chancellor of the Exchequer what matters relating to BCCI and *(a)* the Bank of England and *(b)* his Department are outstanding; whether any of these matters could carry a liability to the public purse; and if he will make a statement. [146359]

Ruth Kelly: The Bank of England's position on the impending legal proceedings relating to BCCI, including an indication of costs already incurred, is set out on pages 35–37 and 91 of its 2003 annual report. A further update will be given in this year's annual report.

The Treasury are not a party to these proceedings.

The Treasury are considering a request unrelated to the legal proceedings against the Bank of England for the release of a BCCI-related document. This has no implications for the public purse.

Child Trust Funds

Mr. Gardiner: To ask the Chancellor of the Exchequer what information will be provided to *(a)* children and *(b)* parents to show them how different investment scenarios will affect the return on their child trust funds, with particular regard to how (i) equities, (ii) cash and (iii) bonds are likely to perform. [145697]

Ruth Kelly: The Government want parents to engage actively with the child trust fund (CTF) and recognise that, for many parents, this may be their first investment product. We will provide resources to ensure parents are helped to make choices about their child's CTF, including an information pack, which will be issued alongside the CTF voucher and a dedicated CTF website.

Information will include illustrations of investment returns, which will also be of interest to children as they grow older. Annual statements issued by providers to all children, and teaching and learning resources for use in the classroom, will also help children engage with their accounts and develop an understanding of how different investments could affect returns.

Mr. Gardiner: To ask the Chancellor of the Exchequer what assessment he has made of the implications for those on non-family benefits should they wish to make contributions to child trust funds. [145700]

Ruth Kelly: Money held in children's child trust fund (CTF) accounts will not affect family benefits claimed by a child's household.

The Government will keep under review the treatment of capital in income-related benefits so that a sensible balance is struck between providing state support and not unfairly penalising those who have acted responsibly by saving. As a first step, the Government announced on 15 December 2003, *Official Report*, column 1344 that, from April 2006, the £3,000 threshold above which savings reduce eligibility to income support, jobseeker's allowance, housing benefit and council tax benefit will be increased to £6,000 in line with pension credit.

The pension credit rules include protection against capital deprivation to deal with cases where the real reason behind disposing of savings is to access pension credit or increase the amount of pension credit payable.

Whether payment into a CTF is treated as a deprivation of capital will depend on all the circumstances of the case. However, in most cases it is unlikely that modest contributions to a CTF would be treated as deprivation of capital.

Civil Servants (Disabilities)

Mr. Goodman: To ask the Chancellor of the Exchequer what progress has been made in meeting targets for the proportion of people with disabilities in senior posts in his Department. [146002]

Ruth Kelly: Statistical information about senior civil servants with disabilities is available on the civil service statistics website at http://www.civil-service.gov.uk/statistics/documents/pdf/disability-oct03.pdf.

This information is also made available in the Library of the House. The latest statistics show staffing data as at 1 April 2003. The data shows that in my department there are no senior civil servants who have declared a disability. The Treasury target for the proportion of people in senior posts who have declared a disability is 3 per cent.

Tim Loughton: To ask the Chancellor of the Exchequer how many senior civil servants in his Department are disabled, expressed in *(a)* numbers and *(b)* as a percentage of whole-time equivalents. [144984]

Ruth Kelly: The information requested is available on the Civil Service Statistics website at: http://www.civil-service.gov.uk/statistics/documents/pdf/disability-oct03.pdf

This information is also available in the Library of the House. The latest statistics show staffing data as at 1 April 2003. The data show that:

in the Inland Revenue there are 10 senior civil servants with a disability, 3.1 per cent. of the total number of senior civil servants in that Department;

in Customs and Excise there is a number less than five, which is 2.9 per cent. of the total number of senior civil servants; and in the Treasury there are no senior civil servants with a disability.

Equity Release Schemes

Mr. Gardiner: To ask the Chancellor of the Exchequer what research his Department has undertaken to assess the benefits consumers perceive if financial products, with particular reference to equity release policies, are regulated by the Government. [145717]

Ruth Kelly: A regulatory impact assessment was published on 5 June 2003 that set out the costs and benefits of giving the Financial Services Authority (FSA) responsibility for regulating mortgages, including mortgage-based equity release schemes. This is available from the Treasury website: www.hm-treasury.gov.uk

The purpose of the consultation paper, "Regulating Home Reversion Plans", is to arrive at a more in-depth analysis of the costs and benefits of the regulation of home reversion equity release plans. A draft regulatory impact assessment was included as Annex B to that document and we look forward to receiving views on that, as well as other aspects of the consultation.

European Investment Services Directive

Mr. Gardiner: To ask the Chancellor of the Exchequer (1) what discussions he has had with business organisations about the impact the European Investment Services Directive will have on their companies, with specific reference to the impact that the end of execution-only sales will have; [145706]

(2) what assessment he has made of how the European Investment Services Directive and the end of execution-only sales will affect *(a)* banks, *(b)* internet companies, *(c)* consumers and *(d)* the City of London. [145709]

Ruth Kelly: The Government were disappointed with the position adopted by the European Council of Ministers on the proposed new Investment Services Directive. We believe that in several areas the Council text misses opportunities to create a competitive, integrated European financial market and instead will harm competition.

An area of particular concern for the Government during negotiations was the treatment of "execution-only" business in the Directive. We believe that it is important to ensure that execution-only business is not compromised by unnecessary regulation. Such business can provide low-cost access to share trading, for example, for a wider range of investors.

During negotiations, the Government successfully ensured that execution-only business will be exempt from full "suitability testing" obligations.

The Government will work hard with the Financial Services Authority to ensure that the provision relating to execution-only business is not implemented in the UK in a way which restricts normal marketing activity or direct offer promotions.

The Investment Services Directive is one of the topics discussed when Treasury Ministers meet members of the financial services industry.

At official level, the Treasury has frequent contact with representatives of financial services businesses, trade associations and consumer groups. Recent contacts have involved discussions of the potential impact of the Directive on activities including on execution-only sales of financial instruments.

Financial Education

Mr. Gardiner: To ask the Chancellor of the Exchequer what tax incentives are available to companies providing free financial education for *(a)* children and *(b)* adults; and how these fit into the Government's policy to reduce financial illiteracy. [145710]

Ruth Kelly: There are no specific tax incentives in place aimed at encouraging companies to provide free financial education to children or adults.

Improving basic financial literacy is a key element of the Government's strategy to reduce social and financial exclusion, while tackling over-indebtedness, and promoting saving. We are doing this across government to help people identify and meet their financial needs. Key initiatives include:

the Saving Gateway, a transparent savings account with tailored financial advice and education;

a framework for Personal, Social and Health Education (PSHE) that provides for personal finance education to be taught throughout Key Stages 1 to 4 of the school curriculum; and

pension reforms that will help people make better informed choices about their retirement.

We also work closely with the Financial Services Authority, which has rightly taken the lead in developing a national strategy for financial capability.

Islamic Home Finance Initiatives

Mr. Gardiner: To ask the Chancellor of the Exchequer what regulation there is to protect Muslims from mis-selling of housing finance that complies with Sharia law. [145720]

Ruth Kelly: I understand that some Islamic home finance arrangements may already fall within the definition of a regulated mortgage contract under the Financial Services and Markets Act 2000 (Regulated Activities) Order 2001 (SI/2001 No. 544) and would therefore be covered by the regime that the Financial Services Authority (FSA) will be implementing from 31 October 2004.

However, as explained in paragraph 36 of the consultation document 'Regulating home reversion plans', we are seeking information on arrangements that are not reversion plans but which might nevertheless be caught by any legislative definition of a reversion plan if we decide to regulate home reversion plans. These might include alternative property financing arrangements that may be used by banks to provide housing finance which complies with Sharia law.

Gershon Review

Mr. Flight: To ask the Chancellor of the Exchequer whether savings expected from implementation of the findings of the Gershon Review have been taken into account in the public expenditure totals for future years published in the pre-Budget report 2003. [145945]

Mr. Boateng: Paragraph B27 of the pre-Budget report sets out the assumptions on which the fiscal projections, including public expenditure projections, are based.

National Statistics

Mr. Burstow: To ask the Chancellor of the Exchequer how many deaths from *(a)* chronic obstructive pulmonary disease and *(b)* lung cancer were recorded in each year since 1996, broken down by age; and how many deaths per 100,000 population there were in each case. [146210]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from John Pullinger to Mr. Paul Burstow, dated 7 January 2004:

The National Statistician has been asked to reply to your recent question asking how many deaths from *(a)* chronic obstructive pulmonary disease and *(b)* lung cancer were recorded in each year since 1996, broken down by age; and how many deaths per 100,000 population there were in each case. I am replying in his absence. (146210)

All the figures requested can be found in the annual series, published by ONS, Mortality Statistics: Cause. Series DH2. Copies of these publications are available from the House of Commons Library. This publication is also available on the internet at: http://www.statistics.gov.uk/ST ATBASE/Product. asp?vlnk = 618

The most recent volume in the series, DH2 No. 29, contains the latest available data, for 2002. Table 5 of this publication shows death rates for 1996 to 2002 for lung cancer (1CD-10 C33-C34; 1CD-9 162) and chronic obstructive pulmonary disease (1CD-10 J40-J44; ICD-9 490–492, 496). The number of deaths by sex and age can be found in Table 2 of each annual volume.

Home Reversion Products

Mr. Gardiner: To ask the Chancellor of the Exchequer (1) what support he has received from consumer organisations for his plan for the Financial Services Authority to require a valuation of properties used as collateral for home reversion plans; [145721]

(2) if he will draw up tables of guidance on the amount of money people should expect when taking out home reversion products; and if he will discuss this with *(a)* consumer groups, *(b)* mortgage companies and *(c)* financial advisers. [145722]

Ruth Kelly: The Government are carrying out an open consultation on whether the Financial Services Authority (FSA) should regulate home reversion plans. We published a consultation paper 'Regulating home reversion plans' on 11 November and responses are due to be returned by 13 February 2004.

The issue of property valuation and pricing of reversion plans is considered in paragraphs 21 to 23 of the consultation document. If it is decided that the Financial Services Authority (FSA) should regulate home reversion plans, the details of the regime will be decided by the FSA on the basis of a separate consultation and cost/benefit analysis.

IT Contracts

Mr. Sayeed: To ask the Chancellor of the Exchequer if he will list information technology contracts in his Department with a value of above £20 million in each of the last 10 years; what the inception date for each system was; when it became fully functional; when it became fully debugged; and what the cost of over-runs has been. [146200]

Mr. Boateng: HM Treasury has never had an information technology contract above £20 million.

HM Customs and Excise has let two IT Contracts in excess of £20 million in the past 10 years. An outsourcing contract was signed on 25 August 1999 with Fujitsu C&E Services Ltd., for the provision of IT and telephony infrastructure services. Because this was a services contract, there was no debugging. The Transfer of Undertaking was achieved to target without any overrun. A second contract was awarded to BT/ Syntegra in 1989 for the provision of the CHIEF (Customs Handling of Import and Export freight) service. The contract was extended to January 2007 to recognise new strategic business requirements and allow sufficient time for the CIPR (Customs Information Processing Requirement) procurement process. To date, there have been no cost overruns.

The Inland Revenue has three IT contracts whose budgets exceed £20 million. First, it has a strategic contract with EDS, which commenced on 1 July 1994. This contract covers all IT services for Inland Revenue systems, their enhancement, day to day maintenance and new systems development. It is not a fixed price contract. Major systems are delivered within their own individual internal budgets, and the contract with EDS has supported the development and delivery of these systems since 1994.

The contract was extended to January 2007 to recognise new strategic business requirements and allow sufficient time for the CIPR (Customs Information Processing Requirement) procurement process. To date, there have been no cost overruns. The Inland Revenue has three IT contracts whose budgets exceed £20 million. First, it has a strategic contract with EDS, which commenced on 1 July 1994. This contract covers all IT services for Inland Revenue systems, their enhancement, day to day maintenance and new systems development. It is not a fixed price contract. Major systems are delivered within their own individual internal budgets, and the contract with EDS has supported the development and delivery of these systems since 1994.

In 1998 the Inland Revenue inherited a contract from the Department of Social Security for the provision of the NIRS2 Services run by Accenture (formerly Andersen Consulting). The system went live in July 1998 and has been stable since April 2000. The NIRS2 service was provided under a PFI contract which has since been adjusted to allow for the unprecedented level of change required of the system by new legislation. There were some well documented delays in introducing the NIRS system, involving extra development costs, paid for by Andersen Consulting. The Inland Revenue has also incurred business recovery costs, enabling the introduction of more modern and automated business processes.

The E-IROS contract was awarded to Computacenter in June 2000 for the provision of desktop hardware, software and related services. This is not a fixed price

contract and consequently the value of the contract depends on the annual demand for desktop services. It has, however, exceeded £20 million in each of the last four years.

Economic Activity (Leeds, North-West)

Mr. Best: To ask the Chancellor of the Exchequer what the rate of economic activity was in the Leeds North-West constituency in *(a)* 1997 and *(b)* 2002–03. [146204]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. Harold Best, dated 7 January 2004:

The National Statistician has been asked to reply to your recent Parliamentary Question about economic activity rates. I am replying in his absence. (146204)

The attached table shows the working age economic activity rates for the Leeds North West constituency in successive twelve month periods ending from February 1998 to February 2002. These estimates are from the annual local area Labour Force Survey (LFS). Comparable information for the twelve month period ending February 2003 is not yet available. Working age is defined as ages 16–64 for men and 16–59 for women.

The series of annual activity rates from 1997/98 to 2000/01 is fairly stable, and the sharp fall in the estimate for 2001/02 may have arisen partly from sampling variability. As with any sample survey, estimates from the LFS are subject to this source of variation.

Working age[1] economic activity rates[2] in the Leeds North West constituency

March to February	*Percentage*
1997–98	83.5
1998–99	79.9
1999–2000	82.0
2000–01	84.0
2001–02	73.9

[1] Men aged 16–64 and women aged 16–59
[2] Economically active as a percentage of the working age population
Note:
These Labour Force Survey estimates have not been interim-adjusted to reflect the 2001 Census results
Source:
ONS Labour Force Survey

Ministerial Meetings

Mr. Russell Brown: To ask the Chancellor of the Exchequer how often he has met on a one-to-one basis senior representatives from *(a)* major industrial companies and *(b)* oil and gas companies. [145653]

John Healey: Ministers and civil servants have meetings with a wide range of organisations and individuals as part of the process of policy development and analysis. As with previous Administrations, it is not this Government's practice to provide details of all such meetings. All such contacts are conducted in accordance with the Ministerial Code, the Civil Service Code and Guidance for Civil Servants: Contact with Lobbyists.

Pre-Budget Report 2003

Mr. Flight: To ask the Chancellor of the Exchequer (1) how much of the sum spent on policy, funding and regulation activity which impacts on the private sector, referred to in paragraph 6.47 of the pre-Budget report 2003, was spent on each category; and if he will make a statement; [145923]

(2) how the £9 billion referred to in paragraph 6.47 of the pre-Budget report 2003 is broken down between *(a)* policy, *(b)* funding and *(c)* regulation activity; [145942]

(3) how much of the annual spend on hospitals, schools and police forces referred to in paragraph 6.47 of the pre-Budget report 2003 is spent on each category; [145952]

(4) what assessment he has made of the cost to the private sector of the *(a)* policy, *(b)* funding and *(c)* regulation activity which impacts on the private sector as referred to in paragraph 6.47 of the pre-Budget report 2003; and if he will make a statement; [145954]

(5) how the £11 billion of payments for transactional services referred to in paragraph 6.46 of the pre-Budget report 2003 is composed by *(a)* sector, *(b)* benefits, *(c)* tax collection, *(d)* tax credits and *(e)* other services. [146019]

Mr. Boateng: These are working estimates and a breakdown is therefore not available for publication.

Public Sector Pay

Adam Price: To ask the Chancellor of the Exchequer what account public sector pay review bodies take of rates of *(a)* staff turnover and *(b)* vacancies in assessing benefit packages offered by public sector bodies in different regions and localities. [146706]

Mr. Boateng: Pay Review Bodies are independent bodies. They weigh the evidence they receive from interested parties and their own independent research to formulate recommendations on the remuneration of their remit groups. The Terms of Reference for each Review Body differ and are available from the Office of Manpower Economics, the secretariat to the Review Bodies.

Stamp Duty

Harry Cohen: To ask the Chancellor of the Exchequer how many *(a)* homebuyers and *(b)* businesses in Leyton have benefited from the exemption from stamp duty on premises purchased in disadvantaged areas since the exemption was introduced; and if he will make a statement. [146365]

Ruth Kelly: Between the introduction of the exemption at the end of November 2001 and the end of October 2003, there were 133 residential transactions and two commercial transactions recorded as taking place in the ward of Leyton which benefited from the exemption. In the same period there were 398 residential transactions and nine commercial transactions recorded as taking place in all exempt wards in the Leyton and Wanstead parliamentary constituency.

TRANSPORT

Air Transport

Mrs. May: To ask the Secretary of State for Transport what discussions he has had with *(a)* BAA and

(b) major airlines on the proposals which will form the basis of the forthcoming consultation on a new night noise regime at (i) Heathrow, (ii) Gatwick and (iii) Stansted. [145637]

Mr. Darling: As yet, no discussions have been held with any interested parties to assist in drawing up proposals for the next consultation on a new night restrictions regime for Heathrow, Gatwick or Stansted. We expect the consultation to commence in the first half of this year.

Tim Loughton: To ask the Secretary of State for Transport whether local authority grant financing will be available to local authorities who own airports in the South East to develop those airports. [145893]

Mr. McNulty: Under the new prudential capital finance system, which comes into force on 1 April 2004, a small amount of local authority airport investment will attract revenue support grant. In allocating this investment approval, the Department will give priority to health, safety, security and environmental projects required by the regulatory authorities. Local authorities will be free to make their own decisions on additional borrowing for airport development purposes, providing they can afford it. A further option would be to seek a private sector partner.

Mr. Kenneth Clarke: To ask the Secretary of State for Transport if he will use his statutory powers to control the *(a)* time and *(b)* volume of night flights in and out of East Midlands Airport. [145957]

Dr. Howells: The Government consider that existing measures to control noise from night flight operations at East Midlands Airport are adequate. Their policy towards night noise and East Midlands Airport is set out in the Government's White Paper, "The Future of Air Transport", chapters 3 and 9 respectively.

Fuel Efficiency (Road Transport)

Mr. Challen: To ask the Secretary of State for Transport how many tonnes of carbon dioxide emissions he estimates have been saved as a result of the liquid petroleum gas duty rebate; and at what cost to public funds. [145734]

Mr. Jamieson: The Department estimates that favourable duty rates for LPG since 1996 have saved around 343.3 thousand tonnes of carbon dioxide at a cost of around £160.7 million in terms of duty forgone. This estimate assumes that all LPG has replaced petrol and not diesel.

Government Consultation Paper

Mr. Chope: To ask the Secretary of State for Transport how many responses were received to the consultation paper, "On the Move: By Foot"; and when the Government will arrive at their conclusions. [145544]

Mr. Jamieson: We received 130 responses. We aim to publish an action plan document in the spring.

New Roads and Street Works Act

Mr. Chope: To ask the Secretary of State for Transport how many convictions there have been in each of the last five years for contraventions of *(a)* section 51, *(b)* section 56, *(c)* section 58, *(d)* section 60, *(e)* section 66, *(f)* section 67 and *(g)* section 71 of the New Roads and Street Works Act 1991; and what the (i) maximum and (ii) average fines were imposed for each category of offence. [145541]

Mr. Jamieson: Comprehensive information is not held centrally on the number of offences or level of fines. Based on information collected by local authorities, the Regulatory Impact Assessment for the Traffic Management Bill showed that the number of prosecutions under the 1991 Act has been small, less than 200 over the 10 years since the Act came into force, and that the average fine has been less than half the maximum permitted, the latter being £1,000 for all the categories listed.

Road Traffic Accidents

Mr. Blunt: To ask the Secretary of State for Transport how many deaths in road traffic accidents involved *(a)* the use of hand held mobile phones and *(b)* drivers smoking in (i) 2000, (ii) 2001 and (iii) 2002. [143836]

Mr. Jamieson: Research has shown that using a mobile phone while driving is distracting and drivers are four times more likely to have an accident if they do so. While many other activities may also be distracting, we are not aware of a similar risk from the effects of smoking while driving.

Traffic Management Bill

Mr. Chope: To ask the Secretary of State for Transport if he will set out the minimum qualifications which will be required by persons seeking appointment as traffic officers under the Traffic Management Bill. [145536]

Mr. Jamieson: The Highways Agency is placing significant importance on appointing the right people to traffic officer posts. Persons applying for a position as a traffic officer will be required to have two years of relevant experience or one year of relevant experience with a minimum of 5 O Levels/GCSEs at grade C or above.

Applications will also be considered against a set of stringent competencies, aptitudes and essential criteria. A copy of the competences required has been placed in the House of Commons Library.

Mr. Chope: To ask the Secretary of State for Transport if he will list by police authority the number of police officers that will be displaced as a result of the provisions of the Traffic Management Bill, and the proposed timescale for such displacement. [145542]

Mr. Jamieson: Once implemented, the provisions within the Traffic Management Bill will free up police time from some traffic management duties. While the police will still patrol the network, they will be able to spend more time and resources dealing with vehicle, road and other crime including detection and enforcement against bad driving, vehicle theft and licensing offences.

The plans for Highways Agency Traffic Officers will free up the equivalent of more than 500 police officers, as they are phased in over a period of three years. The information is not broken down by police authority. The effect of civil enforcement of further traffic offences by local authorities will depend on the take up of the new powers and the level of current enforcement activity in respect of those offences by the police. The manner in which any resources released are re-deployed will be a matter for the police.

Mr. Chope: To ask the Secretary of State for Transport how many convictions there have been in each of the last five years for offences under section 36 of the Road Traffic Act 1988 for failing to comply with the indication given by a traffic sign; and how many convictions there were in respect of traffic signs that would be subject to civil enforcement under the Traffic Management Bill. [145545]

Mr. Jamieson: Supplementary tables to annual Home Office Statistical Bulletins on offences relating to motor vehicles give numbers by offence type that were the subject of police action in England and Wales. The number of fixed penalty notices and convictions for "neglect of traffic directions", the offence type which includes failing to comply with the indication given by a traffic sign, in the last five years for which statistics have been published were as follows:

	Fixed penalty notices	*Magistrates court findings of guilt*	*Crown court findings of guilt*
2001	162,885	29,034	42
2000	168,234	30,844	43
1999	175,793	30,891	32
1998	189,921	31,946	53
1997	191,923	33,144	63

A detailed breakdown of these numbers by the types of traffic signs contravened is not held centrally, but the figures include fixed penalties and prosecutions for traffic light offences detected by cameras. They accounted for a quarter of the fixed penalties and convictions for neglect of traffic directions over the five years. Traffic light offences will not be subject to civil enforcement under the powers contained in the Traffic Management Bill.

Mr. Chope: To ask the Secretary of State for Transport (1) what proportion of police time in 2002–03 expended on traffic duty on motorways and trunk roads is represented by 550 full-time equivalent police officers; [145547]

(2) if he will give the data underlying the statement in the regulatory impact assessment for the Traffic Management Bill that the equivalent of 550 full-time police officers will be released as a result of creating traffic officers, and the number of police officers to be released by each police authority. [145549]

Mr. Jamieson: The Highways Agency and Association of Chief Police Officers "Roles and Responsibilities Report" identified plans that could free up the equivalent of about 540 full-time equivalent police officers. Based on figures from Her Majesty's Inspectorate of Constabulary of 6,540 designated roads police in 2001–02, the report estimated that a transfer of non-core police activities to the Highways Agency enabled approximately 8½ per cent. of police time to work on other key tasks. Resources will be freed up over a period of about three years as Highways Agency Traffic Officers are phased in across all motorways and some key trunk roads.

Calculations for the number of police officers to be released by each police force were made at a national level and have not been translated into resources for individual police authorities. The manner in which resources are redeployed is a matter for the police and will depend on, among other things, the current resources available and policing priorities. This does not mean that police will stop patrolling the network, instead they will be able to spend more time dealing with vehicle, road and other crime.

Mr. Steen: To ask the Secretary of State for Transport how many regional control centres will be established under the Traffic Management Bill; what their annual cost will be; and how many new positions will be created. [145823]

Mr. Jamieson: There will be seven regional control centres with an annual cost of about £15 million. It is currently envisaged that the number of new posts created will be about 300.

Mr. Steen: To ask the Secretary of State for Transport what the estimated cost is of each additional traffic manager as proposed in the Traffic Management Bill. [145824]

Mr. Jamieson: While the Traffic Management Bill proposes that each local traffic authority will be required to appoint a traffic manager, it is for each authority to decide who should carry out the role and precisely what duties they should have. The traffic manager could be an existing member of staff and/or could have other duties as well, so there could be no increase in costs. Taking the Bill measures as a whole, the Government consider that, on average, there should be no net cost to authorities.

ELECTORAL COMMISSION

Speaker's Committee

Mr. Blunt: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission when the Speaker's Committee last made a report to the House on the exercise by it of its functions. [146485]

Mr. Viggers: The Speaker's Committee has a statutory obligation to make a report to the House on the exercise by it of its functions at least once in each year. Its most recent report, the First Report, 2003, was laid before the House and published on 18 December 2003 as House of Commons Paper 140. Copies have been placed in the Library and the Vote Office.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Badgers

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether the Government plans to remove the protected status from badgers. [142462]

Mr. Bradshaw: No.

Climate Change

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what position the Government took at the recent climate change meeting in Italy in respect of GM trees. [145135]

Mr. Morley: The UK's position at the recent negotiations on the use of sinks (afforestation and reforestation projects) in the Clean Development Mechanism at the Conference of the Parties negotiations held in Milan was that any proposal to use GMO trees should be consistent with the objective and provisions of the Cartagena Protocol on Biosafety, under the Convention on Biological Diversity. This includes a risk assessment and an advanced informed agreement procedure for GMOs intended for intentional introduction into the environment (such as seeds for planting). This was the position agreed by consensus.

Common Agricultural Policy

Mr. Wills: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the cost per person per week of the Common Agricultural Policy in the United Kingdom in the most recent year for which figures are available. [144460]

Mr. Bradshaw: The consumer cost of the CAP can be estimated by examining the difference between UK and world prices for agricultural food products. The notional taxpayer contribution to CAP expenditure can also be estimated though, in practice, UK taxpayers contribute to the whole EU budget rather than to specific components. Our provisional estimates for 2002 show an average cost of the CAP per person of just over £2 per week.

Correspondence

Alistair Burt: To ask the Secretary of State for Environment, Food and Rural Affairs when she will make a substantive reply to the letter from the hon. Member for North-East Bedfordshire of 23 October, and his fax of 16 November to the hon. Member for Scunthorpe in relation to his constituent Mr. Ross Donovan. [143883]

Mr. Morley: I responded to the hon. Member in full on 1 January 2004.

Environmental Sustainability

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs where the UK ranks in the Environmental Sustainability Index; and if she will list the rankings of other EU countries. [145146]

Mr. Morley *[holding answer 5 January 2004]:* The UK ranks 91st internationally in the 2002 Environmental Sustainability Index compiled by the Global Leaders of Tomorrow Task Force of the World Economic Forum in association with the Yale Center for Environmental Law and Policy and Columbia University. The rankings of other EU member states are shown in the following table. However, the UK and other countries believe this index is profoundly flawed and therefore potentially misleading, for the following reasons. It is an aggregated indicator which aims to weight together many components into a single overall measure of 'environmental Sustainability', an approach which as yet is not scientifically robust. The choice of components, and the way in which they are weighted together, is largely subjective. A different choice of components or weights would give different results, amply illustrated by the fact that the previous edition of this index, based on a different selection of components, placed the UK 16th.

Furthermore, there are still many areas where data are not sufficiently comparable between countries, or are simply not available. The values of many of the variables used to compile this index are imputed. It should also be noted that the variables used in this index tend to measure circumstances at a single point in time rather than trends or changes, therefore to the extent the index measures anything at all, it measures the environmental situation which a country faces rather than its progress or performance in improving environmental sustainability.

2002 ESI rankings by country

Rank	*Country*	*ESI*
1	Finland	73.9
3	Sweden	72.6
7	Austria	64.2
28	Portugal	57.1
31	Denmark	56.2
33	France	55.5
34	Netherlands	55.4
37	Ireland	54.8
44	Spain	54.1
50	Germany	52.5
60	Greece	50.9
84	Italy	47.2
91	United Kingdom	46.1
125	Belgium	39.1

Note:
Luxemburg is not ranked

Global Leaders of Tomorrow Task Force of the World Economic Forum in association with Yale Center for Environmental Law and Policy and Columbia University

Grey Squirrels

Mr. Peter Atkinson: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects to receive the report from the Forestry Commission England on the control of grey squirrels. [144116]

Mr. Bradshaw *[holding answer 18 December 2003]:* The Forestry Commission has not been asked to prepare a report on the control of grey squirrels. They are however currently engaged in the preparation of a policy statement on this subject. This is one of the commitments

made in the response to the recommendations contained in the "Sustaining England's Woodlands" review. There is no firm timetable for the presentation of the statement.

Identity Cards

Mr. Webb: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the implications of the introduction of compulsory identity cards for her Department. [143355]

Alun Michael: The introduction of compulsory identity cards is a long-term undertaking on which inter-departmental discussions are led by the Home Office. This Department has an interest in tackling illegal working at an acceptable compliance cost to business (for example, in the agriculture and fresh produce sectors) and in providing a means to encourage legal routes of migration to the UK.

Katherine Bryan

Llew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs whether it was known by Ministers in her Department that Katherine Bryan had applied for the post of Chief Executive of Water Services at the Northern Ireland Department for Regional Development at the time when she was appointed to chair the Committee on Radioactive Waste Management (CoRWM); on what date she tendered her resignation as CoRWM chair; what considerations was given to the other shortlisted candidates for the Chair of CoRWM in the appointment of her replacement; and who has been chosen as a replacement for Katherine Bryan on the Committee. [143513]

Mr. Morley *[holding answer 10 December 2003]:* No. Ministers knew of Mrs. Bryan's intention to resign on 26 November 2003. With the agreement of the Environment Ministers for Northern Ireland, Scotland and Wales, and after consultation with the Office of the Commissioner for Public Appointments, an announcement was made on 5 December that Gordon MacKerron, an existing member of CoRWM, was to be appointed as the new Chair. Among those candidates originally interviewed for the post of Chair, he was considered the most suitable replacement for Mrs. Bryan. No other appointment to CoRWM has been made.

Pesticides

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* sources and *(b)* methodology was used to calculate (i) buffer zone sizes, (ii) grassland area affected and (iii) arable area affected in the Pesticides Safety Directorate discussion paper proposals for the Introduction of No-Spray Buffer Zones Around Residential Properties in England and Wales. [145984]

Alun Michael: The consultation document included four possible buffer zone sizes. These were 6 metres (reflecting a quarter section of a typical spray boom), 1.0 metres (the minimum set-aside width); 100 metres; and 300 metres.

For the purpose of the consultation comparisons of the economic effects of introducing these various sizes of buffer zones were made. Information was sought from the Rural Development Service's Geographic Information Unit. The Unit estimated the area of both arable and improved grassland adjacent to built-up areas in five selected areas. This was done utilising the Land Cover Map 2000 which is derived from the analysis of Earth observational satellite imagery. The resulting data was then extrapolated to provide a total figure for England and Wales.

It was always acknowledged that these figures were illustrative, and one of the purposes of going to consultation was to see if these estimates could be refined further.

A decision is yet to be made of what size, if any, buffer zone will be introduced. Further work is being carried out to determine more accurately the areas affected.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs from how many of the organisations and individuals invited by the Pesticide Safety Directorate to the stakeholder meeting on 13 October about the consultation on plans for greater access to information about crop spraying written responses were received *(a)* by the official deadline and *(b)* after the deadline. [146018]

Alun Michael: The meeting on 13 October was held with rural residents' interest groups to discuss the issues raised by the informal consultation exercise on public access to information on pesticide use and to identify how practical measures might be introduced.

Those who attended were invited because it was felt they would be in a position to address the practical issues raised, rather than solely on the basis of having submitted a written response to the informal consultation.

Of the 33 representative organisations and individuals who were invited, five attended, 10 submitted written responses to the informal consultation by the official deadline; the remaining 23 did not submit a response. The official deadline was extended from 31 August to 30 September to take account of the summer holiday period.

EDUCATION AND SKILLS

CAFCASS

Tim Loughton: To ask the Secretary of State for Education and Skills for what reason there are no plans to publish Sir Clive Booth's report on CAFCASS. [144972]

Margaret Hodge: There are no plans to publish Professor Sir Clive Booth's review as it contains confidential information about individual Board members.

The central recommendation of Professor Sir Clive Booth's review was to make a fresh start with the Board. Ministers accepted his proposal that all Board members should be asked to submit their resignations.

Children's Minister

Tim Loughton: To ask the Secretary of State for Education and Skills which quangos come under the remit of the Children's Minister; and how they are accountable. [145025]

Margaret Hodge: I am responsible for the Independent Advisory Group on Teenage Pregnancy. The Lord Chancellor is currently the Minister responsible for the Children and Family Court Advisory and Support Service (CAFCASS). However, Ministerial responsibility for CAFCASS will transfer to me in this Year. Baroness Ashton of Upholland is Minister responsible for the Special Educational Needs and Disability Tribunal, although I have a working interest in the Tribunal's operation.

Responsibility for the day-to-day work of these Non-Departmental Public Bodies (NDPBs) rests with their Executive Team and Board or President, although Ministers provide the overall strategic direction. Ministers appoint NDPBs' Board members or Presidents, and are answerable to Parliament for the NDPBs' stewardship of public funds; for their overall economy, effectiveness and efficiency; and for the general manner in which they carry out their remit.

School and College League Performance Tables

Harry Cohen: To ask the Secretary of State for Education and Skills what plans he has to show A levels and vocational course qualifications separately in college league tables; and if he will make a statement. [146357]

Mr. Miliband: We have no plans to show A levels and vocational course qualifications separately in performance tables. The school and college performance tables will show combined results for General (GCE) and/or Vocational (VCE) A levels, Advanced Subsidiary (AS) qualifications and key skills at level 3. This practice recognises the qualifications as equal in worth and does not undermine the achievements in any particular qualification in any way. We are, though, currently consulting on future measures of success which will take account of the diverse curriculum offer in post 16 learning. "Measuring success in the Learning and Skills Sector" can be found at www.successforall.gov.uk. Following that consultation we will consider whether any changes in presentation should be introduced in future years' tables.

Commonwealth Universities

Mr. Boswell: To ask the Secretary of State for Education and Skills what recent representations he has received concerning the possibility of a common entrance qualification for Commonwealth universities; and if he will make a statement. [145087]

Alan Johnson: I have received no representations on this subject. Policies on admissions decisions for Commonwealth Universities are for their respective Governments.

Directorate Staff

Mr. Hoban: To ask the Secretary of State for Education and Skills pursuant to his answer of 16 December 2003, *Official Report*, column 833W, on Directorate Staff, if he will make a statement on the change in staff numbers in the *(a)* schools and *(b)* Lifelong Learning Directorates in 2003; and to which directorates the staff employed within the Youth Directorate have been transferred. [145971]

Mr. Charles Clarke *[holding answer 6 January2003]:* Following the Machinery of Government changed in June 2003 the DfES assumed lead responsibility in Whitehall for policy on children and the family. As a result of the changes, around 120 staff from the Home Office, the Department of Health and the Department for Constitutional Affairs, who were engaged in a range of work on children and family issues, transferred to DfES. To support its enhanced role, the Department created a new Directorate: Children, Young People and Families, drawing together all those who were employed in these areas to improve the coordination of policy development and service delivery. Around 600 staff in Schools Directorate working on Sure Start and children's issues were moved to the new Directorate, accounting for the significant change in staff numbers in Schools Directorate during the latter part of 2003.

The increase in staff numbers in Lifelong Learning Directorate during the second half of 2003 resulted from the transfer of 200 staff from the former Youth Directorate. The majority of the remaining staff in Youth Directorate transferred to the Children, Young People and Families Directorate, while a small number moved to Strategy and Communications Directorate.

Earned Autonomy Scheme

Mr. Gibb: To ask the Secretary of State for Education and Skills what recent assessment he has made of the effects of introducing an earned autonomy scheme, as provided for in the Education Act 2002; and if he will make a statement. [146185]

Mr. Miliband: I refer the hon. Member to the answer given to the hon. Member for Fareham (Mr. Hoban) on 3 December 2003, *Official Report*, column 92W.

Excellence in Cities Programme

Mr. Luff: To ask the Secretary of State for Education and Skills pursuant to his answer of 17 December 2003, ref.143373, for what reason he has not provided the information on the Excellence in Cities programme in the form requested. [145429]

Mr. Charles Clarke: We did not provide the reply in the same format as the answers relating to Leadership Incentive Grant, Education Action Zones and Excellence Clusters because the funds that are allocated to Excellence in Cities (EiC) authorities are intended for all the schools in the authority. Funds provided for the other named programmes are targeted resources for individual schools as identified by my Department and local education authorities. However, we have now provided a table in the required format, listing the total schools in each authority. It is not possible to provide a meaningful breakdown of primary and secondary schools, as we do not know exactly where individual authorities will target their EiC funds.

Free School Meals

Mr. Burstow: To ask the Secretary of State for Education and Skills how many and what proportion of children received free school meals in each of the last five years; and what proportion of children were entitled to free school meals in each of the last five years. [146348]

Mr. Miliband: The information requested is given in the tables.

Position in January each year—England

	Day Pupils[2,3]				
	1999	*2000*	*2001*	*2002*	*2003*[3]
Maintained nursery and primary schools[1] *school meal arrangements*					
Number on roll	4,507,663	4,481,677	4,451,224	4,405,639	4,350,260
Number of pupils taking free school meals[4]	690,321	671,486	631,638	616,625	604,911
Percentage of pupil staking free school meals	15.3	15.0	14.2	14.0	13.9
Number of pupils known to be eligible for free meals[5]	853,020	821,521	784,976	754,511	731,611
Percentage of pupils known to be eligible for free meals	18.9	18.3	17.6	17.1	16.8
Maintained secondary schools1: school meal arrangements					
Number on roll	3,118,277	3,177,998	3,226,973	3,260,931	3,308,492
Number of pupils taking free school meals[4]	367,795	368,303	353,469	354,256	349,777
Percentage of pupil staking free school meals	11.8	11.6	11.0	10.9	10.6
Number of pupils known to be eligible for free meals	527,339	523,630	509,676	486,353	478,915
Percentage of pupils known to be eligible for free meals[5]	16.9	16.5	15.8	14.9	14.5

[1] Includes middle schools as deemed.
[2] Day pupils includes all full-time and part-time pupils who are solely or dually registered, excluding boarding pupils. See[3] for 2003.
[3] In 2003 boarding pupils are included.
[4] Number of pupils taking a free school meal on the day of the Census in January.
[5] Prior to 2001 figures relate to the number of pupils known to be eligible for a free school meal. From 2001 this definition was expanded to include only pupils who were known to be eligible for and claiming a free school meal.

Annual Schools' Census

Further and Higher Education

Chris Grayling: To ask the Secretary of State for Education and Skills whether it is his intention to increase the overall total number of students aged 18 to 30 who study for courses in *(a)* higher education and *(b)* further education institutions by 2010. [144284]

Alan Johnson: The White Paper: The Future of Higher Education was published in January 2003. In this, the Government set out plans to increase participation in higher education towards 50 per cent. of those aged 18 to 30 by 2010.Although there are no numerical targets for expansion of student numbers in further education, funding will increase by £1.2 billion between 2002–03 and 2005–06, a 19 per cent. real terms increase. This will help to support increased participation in further education.

Mr. Mahmood: To ask the Secretary of State for Education and Skills what research his Department has carried out on the ability of *(a)* individual learners and *(b)* employers to pay increased fees for further education courses. [146233]

Alan Johnson: I refer the hon. Member to my reply to his earlier question, 16 December 2003, *Official Report*, column 835W, refers.

Mr. Peter Duncan: To ask the Secretary of State for Education and Skills what representations he has received from Scottish universities in respect of the proposed Higher Education Bill. [145681]

Alan Johnson: I have received representations from a wide range of sources since the White Paper was published. My Department has had discussions regarding the proposals in the Higher Education Bill with Universities UK which represents institutions across the UK.

School Finance

Mr. Hoban: To ask the Secretary of State for Education and Skills what the level of *(a)* revenue funding and *(b)* school-based expenditure per school pupil was in each of the last five years, broken down by (i) capital expenditure, (ii) expenditure on special schools and (iii) central administration and support services. [141702]

Mr. Miliband: The bulk of capital funding is now allocated by formula to schools and local authorities, and investment decisions are made locally in the context of the Asset Management Plan. In the interests of reducing the bureaucratic burden, the Department does not collect data for capital expenditure from schools or authorities. The information requested on recurrent funding is contained in the following tables:

(a) Total funding per pupil aged 3–19

England	£
1997–98	2,510
1998–99	2,620
1999–2000	2,800
2000–01	3,060
2001–02	3,280
2002–03	3,490
2003–04	3,690

Notes:
1. Figures reflect education SSA/EFS settlement (all sub-blocks). Total funding also includes all revenue grants in DfES departmental Expenditure Limits relevant to EPS pupils aged 3–19.
2. Figures exclude EMAs and grants not allocated at LEA level and the pensions transfer to EPS and LSC for 2003–04.
3. The pupil numbers used are those underlying the SSA/EFS settlement calculations plus PLASC 3 year olds maintained pupils, estimated 3–4 year olds funded through state support in maintained and other educational institutions where these are not included in the SSA pupil numbers.
4. 2003–04 and 2002–03 figures are provisional estimates as some grants have not yet been finalised/audited.
5. Cash terms figures used are rounded to the nearest 10 so may not sum.

(b) School based expenditure per pupil

	NIE	Pupils	NIE per pupil
(ii) Expenditure on special schools[1]			
1997–98	882,132,000	91,870	9,602
1998–99	910,015,000	91,837	9,909
1999–2000	986,451,471	90,980	10,843
2000–01	1,071,331,814	90,055	11,896
2001–02	1,151,146,785	89,083	12,922
(iii) Central administration and support services[2]			
1997–98	1,206,130,000	7,473,985	161
1998–99	1,330,466,000	7,526,071	177
1999–2000	1,302,341,279	7,565,844	172
2000–01	1,408,239,708	7,592,711	185
2001–02	1,444,640,500	7,595,137	190

[1] Net institutional expenditure includes all school-recurrent funding, including teaching staff and non-teaching staff salaries, school premises costs, equipment and supplies, and unspent balances held by schools at the year end. Excludes spending on central administration and support services such as transport and school meals as well as capital expenditure.

[2] For 1997–98 and 1998–99 management and support expenditure comprises of spending on management and administration, inspection and advisory services, other education support services and school catering services. For 1999–2000, 2000–01 and 2001–02 management and support expenditure comprises of statutory/regulatory duties and other support services.

Notes:

1. Figures are in cash terms as reported by the LEA.
2. The expenditure data for 1997–98 and 1998–99 is drawn from the annual 'RO1' spending returns which local authorities submitted to the Department of Environment, Transport and the Regions. From 1999–2000 onwards, data is taken from local education authorities' Section 52 Outturn Statements submitted to the DfES. The pupil data are drawn from the DfES Annual Schools' Census.

Language Study

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to his answer of 17 December 2003, *Official Report*, column 958W, on language study, what measures he is taking to reverse the decline in the number of schools offering Latin at *(a)* GCSE and *(b)* A-level. [146186]

Mr. Miliband: It is for individual schools and colleges to decide which subjects they are to provide, aside from those in the National Curriculum. From October 2003, we have expanded the Specialist School programme to include Specialist Humanities Colleges, through which schools may focus on Latin alongside other humanities subjects. We have introduced an Advanced Extension Award in Latin which has been available since 2002.

School Streaming

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to his answer of 15 December 2003, *Official Report*, column 669W, on streaming, if he will assess the extent to which the practices of *(a)* personalised learning and *(b)* teaching tailored to the needs of pupils are endorsed by the conclusions of the research review conducted by the National Foundation for Educational Research. [145472]

Mr. Miliband: The practices of *(a)* personalised learning and *(b)* teaching tailored to the needs of pupils are fully endorsed by the research review conducted by the National Foundation for Educational Research, which concludes that "schools need to take account of what is most appropriate for their staff, pupils, parents and community, in the context of their particular circumstances (such as class size, pupil ability range and resources) and national developments such as the requirements of the National Curriculum."

Schools (Leadership)

Mr. Hoban: To ask the Secretary of State for Education and Skills (1) what discussions he has had with the Chief Inspector of Schools about measuring effective leadership and management in schools; and what actions were taken as a consequence; [144906]

(2) what discussions he has had with the Chief Inspector of Schools about measures to improve the performance of schools, where that performance is assessed as being adequate; [144907]

(3) what discussions he has had with the Chief Inspector of Schools on *(a)* the consistency of reports on particular schools and their staff and *(b)* the grading of schools; [144909]

(4) what discussions he has had with the Chief Inspector of Schools concerning the number of *(a)* schools, *(b)* teachers and *(c)* lessons rated satisfactory; and what the consequences of these discussions were. [144910]

Mr. Miliband: My right hon. Friend has frequent discussions with HM Chief Inspector of Schools, David Bell, about a range of matters relating to standards in schools.

Specialist Colleges

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to his answer of 17 December 2003, *Official Report*, column 967W, on specialist colleges, what the *(a)* Key Stage 3 and *(b)* GCSE/GNVQ value-added scores were in 2002–03 for those non-grammar specialist schools that select more than 10 per cent. of their pupils on the basis of aptitude; and if he will make a statement. [146187]

Mr. Miliband: The information requested is set out in the following table[1]:

School	LEA	Key Stage 2–3 value added measure 2003
Chaucer Technology School	Kent	100.4
Chestnut Grove School	Wandsworth	98.9
Deacon's School	Peterborough, City of	100.9
Glyn Technology School	Surrey	100.4
Lynn Grove VA High School	Norfolk	100.5
St. Margaret's C of E High School	Liverpool	100.5

Key Stage 3–4 value added measures for 2003 have not yet been published. They are due to be published on 15 January 2004 in the "Secondary School (GCSE/GNVQ) Performance Tables 2003"[2].

[1] Source: "Secondary School (Key Stage 3) Performance Tables 2003" http://www.dfes.gov.uk/performancetables/ks3_03.shtml

[2] Information will be published on the following website: http://www.dfes.gov.uk/performancetables/

Student Finance

Mr. Drew: To ask the Secretary of State for Education and Skills what assessment he has made of the impact on *(a)* mature students and *(b)* part-time students of (i) the proposed changes in tuition fees and (ii) contingent loan repayments. [143106]

Alan Johnson *[holding answer 9 December 2003]:* Mature students will be treated in the same way as younger students both as far as the proposed changes to tuition fees and to income contingent loans are concerned: where they are studying full time, up front fees would be abolished and they will be subject to variable fees of between £0 and £3,000 per year from 2006; re-payable following graduation and for any loans they take out with the Student Loans Company, they will benefit from the raising of the income threshold above which repayments are made from £10,000 to £15,000 from 2005. Part time students are already subject to variable fees: where they have taken out loans with the Student Loans Company, they too will benefit from the raising of the income threshold from £10,000 to £15,000 from 2005. We are introducing a new package of support for part time students in 2004/05, including a grant for fees of up to £575 and a course grant, neither of which are repayable. Mature students are also particularly likely to benefit from the new HE Grant of £1,000, being introduced from 2004/05. We expect around a third of all those getting the full grant of £1,000 to be independent, despite such students making up only around 15 per cent of the total student population.

Teachers

Mr. Simmonds: To ask the Secretary of State for Education and Skills how much funding was made available for *(a)* primary schools and *(b)* all schools in England and Wales to pay for in-service training for teachers in each year since 1997. [145270]

Mr. Miliband: It is not possible to disaggregate funding solely for in-service training. Schools have the autonomy within their overall school budgets to determine how much they make available for training purposes in the light of their own priorities and needs.

Volunteering

Tim Loughton: To ask the Secretary of State for Education and Skills (1) what plans he has to respond to *(a)* the European Commission and *(b)* the EU presidency on the joint statement and conclusions from the November 2003 Conference on Youth Volunteering and Civic Service; [145035]

(2) whether he intends to take an active part in developing full time civic service and transnational volunteering programmes for young people *(a)* in the UK and *(b)* with other EU member states and accession countries; [145036]

(3) how he will involve the experience and contribution of UK youth volunteering organisations in the process of exchanging information, research, cooperation and development of civic service. [145037]

Mr. Ivan Lewis: We are committed to promoting opportunities for young people not only to volunteer in their local communities through such programmes as Millennium Volunteers and the Young Volunteer Challenge but also in Europe through the European Voluntary Service. During the Irish Presidency of the European Union (EU) we will seek to influence the continuing discussions on youth volunteering, building on the European Commission's White Paper on Youth Policy and the Conclusions from the Commission and EU Presidency presented to the Rome Conference in November. Within the spirit of the Compact with the voluntary and community sector and the EU Open Method of Consultation on Youth we will continue to work closely with organisations with experience of volunteering to develop and deliver our policies and influence European-level activity.

York Schools

Miss McIntosh: To ask the Secretary of State for Education and Skills what his policy is on how to bridge the funding shortfall for schools in the City of York. [145134]

Mr. Miliband: On 29 October my right hon. Friend announced proposals to restore stability to school funding. Amongst the package of measures, we are ensuring that for 2004–05 all schools will see a guaranteed minimum increase in their per pupil budget amounting to 4 per cent. per pupil where pupil numbers remain the same. In addition, we have ensured that schools will receive an increase in the amounts of Standards Fund, School Standards Grant and funding from the LSC for sixth forms in line with the minimum guarantee.

We are increasing the School Formula Spending Share by a minimum of 5 per cent. per pupil—the City of York's increase is 6.8 per cent. This will give the Authority the headroom and flexibility to deliver the guarantee and provide support to help schools facing additional pressures.

On 10 December, the Chancellor of the Exchequer announced that a further £317 million will be going to local authorities in their Revenue Support Grant for 2004–05 for authorities with education and social services functions. This is on top of the increases already announced in the provisional settlement. For almost all authorities the additional grant will reduce the pressure on services and council tax, and will make it easier for authorities to meet education passporting targets. In the case of the City of York the additional grant amounts to £1.2 million.

However, if the City of York or any other LEA is able to put forward a compelling case that additional, transitional funds are needed in the short term—above and beyond those already available to the LEA —my right hon. Friend will be prepared to consider bringing forward grant payments from my Department, so that the LEA will have funds available in 2004–05 for this purpose, with the expectation of a consequential reduction to what they will receive in future years. The maximum amount that the City of York might be able to bring forward in this way would be £300,000.

TRADE AND INDUSTRY

Age Discrimination

Miss McIntosh: To ask the Secretary of State for Trade and Industry if she will ensure that those who choose to work after 65 enjoy the same employment rights as those under 65. [145128]

Mr. Sutcliffe: The great majority of employment protection legislation already applies to older workers, whatever their age. We will review upper age limits on statutory redundancy payments and general unfair dismissal claims, and make final decisions on them, in the light of responses to the recent public consultation on age "discrimination, Equality and Diversity: Age Matters".

Regional Development Agencies

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how much has been spent by each of the Regional Development Agencies, in each of the last four years, on corporate plans. [146080]

Jacqui Smith: As set out in Quangos: Opening the Doors (1998) www.cabinet-office.gov.uk/central/198/pb/open/od main.htm, the Government believe that non-departmental public bodies should disclose as much information as possible including information on their role and achievements. England's Regional Development Agencies are required to prepare and publish Corporate Plans with a three year planning horizon, which are revised every two years, to synchronise planning and funding horizons with the Spending Review process. The current Corporate Plans cover the period 2003–06.

The amount spent by RDAs in each of the last four years on printing and distribution of such plans is set out in the following table. The figures do not include the cost of staff resources in developing the detail of the plans where they are produced in-house, consulting stakeholders on the policies and activities reflected in the plans, nor the cost of departmental resources in approving them, which could be obtained only at disproportionate cost. Expenditure also varies for many reasons such as the number of copies produced, whether consultants were used or whether the plans were only made available on the internet.

£

	2000–01	*2001–02*	*2002–03*	*2003–04*

ONE	50,000	2,500	2,500	2,653
SEEDA[1]				
SWRDA	500	500	4,580	14,568
Yorkshire Forward[1]				

[1] No printing and distribution costs were incurred as the Corporate Plan is only available on the internet.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what has been the average length of time taken for the Government to approve projects *(a)* projected to cost more than £1 million and *(b)* projected to cost less than £1 million, that are proposed by each of the regional development agencies, following the issuing of a corporate plan, in the last year for which figures are available. [146081]

Jacqui Smith: Under Section 5(2)*(a)* of the Regional Development Agencies Act 1998 the Agencies may not give financial assistance without the consent of the Secretary of State. However, the consent of the Secretary of State has been given to each Agency to give such assistance subject to a specific financial limit and other conditions set out in its Financial Memorandum. Any proposed expenditure or guarantee that is in any way novel or contentious, regardless of its cost, also requires the specific approval of the Treasury.

During 2002–03, the average time taken for DTI to approve RDA proposals for expenditure exceeding the financial limit (£5 million during 2002–03) was 3–4 weeks. The average time taken to approve projects that required additional approval from the Treasury was nine weeks.

Mr. Andrew Turner: To ask the Secretary of State for Trade and Industry who appoints board members of regional development agencies. [145061]

Jacqui Smith: The Secretary of State for Trade and Industry appoints the Chairs of England's Regional Development Agencies, while responsibility for appointing Board members is delegated to me, as Minister for Industry and the Regions.

The process for appointing both the Regional Development Agency Chairs and Board Members is run according to the Code of Practice issued by the Commissioner for Public Appointments (this can be found at www.ocpa.gov.uk).

Appointments are made on merit, following open competition, application and formal interviews. Each applicant is assessed against the selection criteria, as set out in the person specification for the post.

Company Directors (Disqualifications)

Malcolm Bruce: To ask the Secretary of State for Trade and Industry whether a target has been set for the number of proceedings to be brought in the public interest for disqualification of company directors. [145380]

Mr. Sutcliffe: As announced by my predecessor, the Member for Welwyn Hatfield (Miss Johnson), to the House on 28 March 2003, *Official Report*, column 30–31WS, no numerical targets are set for the disqualification of company directors.

The Insolvency Service is expected to bring proceedings in every case where it is in the public interest.

Departmental Grants

Brian Cotter: To ask the Secretary of State for Trade and Industry what funding is provided in financial year 2003–04 by her Department to finance the Enterprising Solutions Award. [145489]

Nigel Griffiths: Approximately £35,000 this financial year.

Departmental Staff

Mr. Russell Brown: To ask the Secretary of State for Trade and Industry what percentage of staff employed within her Department are over 55 years of age; and what *(a)* number and *(b)* percentage of staff recruited over the last 12 months are over 55 years of age. [145926]

Jacqui Smith: 13.5 per cent. of staff employed within DTI HQ are over 55 years of age. Of those staff recruited over the last 12 months (1 January-31 December 2003), eight were over 55, representing 3.8 per cent. of those recruited during that period.

Export Credits Guarantee Department

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what value of guarantees have been issued by the Export Credits Guarantee Department since 1997 which relate to *(a)* military and defence projects, *(b)* aerospace projects, *(c)* oil, petrochemical and gas projects, *(d)* environmental projects, *(e)* telecommunications and transport projects, *(f)* education and medical projects and *(g)* mining projects, broken down by country. [144806]

Mr. Mike O'Brien: The information requested is in the following table, except for *(d)* environmental projects. While projects may have environmental benefits, for example: water treatment plants, or paper mills that use recycled paper as raw material, it would not be appropriate to class these as primarily 'environmental'.

ECGD has, since 2001, assessed the potential environmental and social impacts of all projects it has been asked to support, except for defence and aerospace, which are subject to separate processes.

The currency values of ECGDs Guarantees have been converted at the exchange rates at the end of November.

£ million

Ink Industry

Andrew Mackinlay: To ask the Secretary of State for Trade and Industry if she will ask the Competition Commission to investigate the share of Sun Chemicals, and its subsidiaries, in the printing ink industry within the United Kingdom. [141739]

Mr. Sutcliffe *[holding answer 8 December 2003]:* Decisions whether or not to investigate competition related matters are for the Office of Fair Trading.

Media Takeovers

Mr. Letwin: To ask the Secretary of State for Trade and Industry if she will make it her policy to ensure that, in relation to any takeover of a major national newspaper or media group, the procedures adopted by the regulatory authorities are transparent and impartial and that there is no ministerial involvement. [R] [145244]

Mr. Sutcliffe *[holding answer 5 January 2004]:* My right hon. Friend the Secretary of State for Trade and Industry published a consultation document on 15 December 2003 seeking views on draft guidance which she proposes to issue on the consideration of media public interest cases under the Enterprise Act 2002 (as amended by the Communications Act 2003). The new regime is substantially deregulatory compared to the old, with a small number of narrowly defined public interest considerations approved by Parliament.

In relation to the newspaper public interest considerations (accurate presentation of news, free expression of opinion and plurality of views), new legislation recognises that, for newspapers, there have historically been a small number of cases that have raised public interest issues beyond those that would have been considered as part of a competition assessment. It therefore allows the Secretary of State to intervene in certain newspaper mergers on these public interest grounds. The draft guidance sets out some indications of the general approach she expects to adopt in deciding whether or not to intervene in a particular newspaper case. However each case will be decided on its own facts.

In relation to the scope of the broadcasting and cross-media public interest considerations, whilst in principle the Secretary of State .may intervene on these public interest grounds in any media merger case where these considerations are relevant, the draft guidance notes that as a matter of policy she expects thatintervention on these public interest grounds will normally only be considered in those areas where media ownership rules have been removed by the Communications Act.

The assessment of newspaper and other media mergers on competition grounds will be the responsibility of the competition authorities.

All of the procedures for all parts of the process will be transparent and impartial. Copies of the consultation document have been placed in the House Libraries.

Patents

Adam Price: To ask the Secretary of State for Trade and Industry how many patents involving life forms have been granted in the last five years. [145352]

Mr. Timms: Within the five year period from the beginning of 1999 to the end of 2003, 233 UK patents were granted which relate to life forms in general. This includes 47 patents relating to higher life forms, such as plants or animals, of which 13 specifically relate to animals.

Post Office

Jon Trickett: To ask the Secretary of State for Trade and Industry what criteria are used by the Post Office to define a community for the purposes of the network reinvention scheme. [145916]

Mr. Timms: The development of closure proposals under the urban reinvention programme is an operational matter for Post Office Ltd.

The programme relates only to post office branches that are defined by Post Office Ltd. as 'urban'. I understand that the company classifies as urban any post office within a community of more than 10,000 inhabitants. The Post Office has carried out detailed planning to establish which of its branches should be classified as either rural or urban and has developed a geographical mapping computer model, which measures population in terms of contiguous or very close agglomeration. Thus where a number of villages or small communities adjoin each other or adjoin a larger town, and the aggregate population of the area exceeds 10,000, the model reflects that fact and classifies it as urban.

Jon Trickett: To ask the Secretary of State for Trade and Industry which communities within the Hemsworth constituency are classified as urban, under the Post Office criteria. [145917]

Mr. Timms: I understand from Post Office Ltd that the following six post offices in the Hemsworth constituency are classified as urban, being located in communities of more than 10,000 residents:

Kettlethorpe
Moorthorpe, South Elmsall
Sandal
South Elmsall
South Kirkby
The Common, South Kirkby

Jon Trickett: To ask the Secretary of State for Trade and Industry what data source she has recommended that the Post Office use to determine whether a community has more than 10,000 inhabitants. [145920]

Mr. Timms: The decision to classify a post office branch as urban or rural is an operational matter for Post Office Ltd. I understand that the company uses a sophisticated geographical mapping model called the Geographic Information System (GIS) in conjunction with a number of external and internal data sets including census data and Ordnance Survey data.

Posting of Workers Directive

Mr. Hancock: To ask the Secretary of State for Trade and Industry what assessment she has made of the effect that the Government stance on the Posted Workers Directive is having on *(a)* the job prospects for British workers in the United Kingdom and *(b)* the wage levels of migrant workers in the United Kingdom; and if she will make a statement. [145486]

Mr. Sutcliffe: The UK fully implemented the Posting of Workers Directive in 1999, providing all workers temporarily posted to the UK from another state with certain minimum conditions of employment as laid down by law. We have no reason to believe that its implementation has adversely affected the job prospects of British workers in the UK. Unemployment in the UK fell from 5.9 per cent. in the three months ending October 1999 to 5.0 per cent. in the three months ending October 2003 (ILO Unemployment Figure, Labour Force Survey, ONS).

UK employment rights are applicable to all workers, regardless of country of origin, so migrant workers are protected in the same way as other workers by the National Minimum Wage.

Shareholder Participation

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what steps the Government is taking to encourage shareholders to vote at the Annual General meetings of FTSE All-Share companies. [146150]

Mr. Sutcliffe: The Government regards shareholder voting at company meetings as an integral part of shareholder engagement with the companies in which they invest.

We fully support the continuing work of the Shareholder Voting Working Group, which has recently embarked upon a new project to identify, and propose practical solutions to, the impediments to casting proxy votes successfully at company meetings. The objective is for there to be a noticeable improvement in time for the 2004 AGM voting season.

The Government has already enabled shareholders, through the Companies Act 1985 (Electronic Communications) Order 2000 implemented in December 2000, to use electronic communications to appoint a proxy. This enables shareholders to issue voting instructions electronically. As stated in our White Paper in July 2002, we also propose to introduce legislative measures to improve the rights of proxies. This will enable investors and others holding shares through intermediaries to ensure more easily that the voting rights in a company are exercised.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what the Government's target is for average voting levels by shareholders in Annual General meetings for companies in the FTSE All-Share index; and what the average voting levels were in each of the last five years. [146151]

Mr. Sutcliffe: The Government regards voting at company meetings as an integral part of shareholder engagement with the companies in which they invest. The Government believes that it is the responsibility of all those involved in the voting process to ensure that it works effectively, in order that shareholders have confidence that their voting intentions are registered at company meetings.

The Government does not collect data on shareholder voting levels centrally. Such information is available from a variety of sources, and shows that shareholder voting has increased gradually over the past five years, and now stands at around 53 per cent.

Small Business

Mr. Robert Jackson: To ask the Secretary of State for Trade and Industry how many of the portfolio companies receiving Regional Venture Capital Funds have been Small Business Service SMART award winners. [146314]

Nigel Griffiths: The fund managers do not collect this information.

Solar Power

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how many *(a)* individuals and *(b)* registered companies have applied for grants under the Clear Skies Initiative as a result of including solar power in their home design. [146119]

Mr. Timms: The information is as follows:

(a) Currently, 1,445 applications for solar hot water heating systems have been received and 1,368 have been accepted, with a total grant value of £684,000.

(b) For community/not-for-profit organisations, 90 applications have been received and 67 projects have been offered grants totalling £955,766.02 for the installation of solar hot water heating systems.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how many homes in the United Kingdom have solar panels. [146120]

Mr. Timms: The DTI does not keep a record of all solar installations but according to figures from the Building Research Establishment there are approximately 60,000 solar thermal systems installed in the UK.

We estimate that approximately 1,000 homes currently have PV installed.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how much money has been spent under the Clear Skies Initiative on grants to homebuilders that include solar power in their home design. [146122]

Mr. Timms: The Clear Skies initiative offers grants only to individual householders and community/not-for-profit organisations. No grants have been given directly to homebuilders.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what steps her Department is taking to encourage the use of solar energy cells. [146123]

Mr. Timms: The DTI is supporting the demonstration of photovoltaics (PV) in housing and large public buildings through the Domestic Field Trial (DFT) and Large Scale Field Trial (LSFT). A combined budget of £10 million is supporting the installation and monitoring of PV systems in around 500 houses (30 projects) and 12–15 large-scale public buildings. The Field Trials aim to raise awareness of PV technology, create confidence in its applications, and provide opportunities for the UK photovoltaics industry.

The Government is committed to a major initiative with industry and others to achieve a UK solar PV demonstration programme in line with our main competitors. The current programme, which started in April 2002 and is worth £20 million over three years, is the first stage of this process. At the halfway stage, over half the funding has been allocated.

The DTI is also putting effort into removing a number of barriers to the deployment of very small generators, such as PV. These include reduction of VAT to 5 per cent. for professionally installed systems, a new PV Annex to Planning Policy Guidance Note (PPG22), simplified connection agreements to the local network (G77 and G83/1) and Installer Training and Accreditation Schemes. In addition, the Government plans to amend the Renewables Obligation to enable very small generators like PV to accumulate their production over a year, rather than a month, so as to qualify for ROCs.

MINISTER FOR WOMEN

Female Prison Population

Mrs. Curtis-Thomas: To ask the Minister for Women what recent discussions she has had with the Secretary of State for the Home Department on the female prison population. [146261]

Jacqui Smith: I have had no recent meetings with the Secretary of State for the Home Office on this subject.

Flexible Working

Mrs. Curtis-Thomas: To ask the Minister for Women what assessment has been made of the take-up by women of the right to request flexible working. [146256]

Jacqui Smith: Preliminary evidence, including hits on the DTI working parents website and requests for guidance, indicate that interest in the right to request flexible working by mothers, and fathers, is high. We recently published the top 10 questions asked by employees when calling the Acas helpline, and continue to gather evidence from a wide number of sources to build up a clear picture of the demand for, and uptake of, the new law.

The Department undertook an employee Work-Life Balance survey in 2003 as a baseline for comparison with a repeat survey due in 2005. The results will contribute to the review of the law that the Government are committed to initiate in 2006. Preliminary employee findings are available on the internet, www.dti.gov.uk/er/emar/, and we are expecting to publish the full report soon.

We are working with key intermediaries, such as Working Families and Maternity Alliance, who are collating data through member/supporter surveys. These organisations are due to report their findings to coincide with the first anniversary of the new law to request flexible working in April this year. We are also working with Prima Baby magazine which is carrying out a reader survey, and aims to publish the results in the March edition.

The Department has also commissioned questions on flexible working which currently appear in the Office of National Statistics monthly Omnibus survey. The results of these can be made gender specific and will be available in spring 2004.

Gender Equality

Mrs. Curtis-Thomas: To ask the Minister for Women (1) what plans she has to introduce a public sector duty to promote gender equality; [146251]

(2) what assessment has been made of the need for a public sector duty to promote gender equality. [146252]

Jacqui Smith: The Government are taking forward a significant legislative agenda on equality matters, and they have committed themselves to introduce a duty on public bodies to promote equality of opportunity for women and men generally when parliamentary time allows. In taking this forward, the Government will be considering the experience gained with the duty to promote race equality introduced in the Race Relations (Amendment) Act (2000).

Pregnancy Discrimination

Mrs. Curtis-Thomas: To ask the Minister for Women what steps are being taken to tackle pregnancy discrimination in the workplace. [146255]

Jacqui Smith: Discrimination on the ground of pregnancy or maternity is a form of direct discrimination on the ground of sex. The courts have interpreted the Sex Discrimination Act as meaning that discrimination on the ground that a woman is, or might become, pregnant is unlawful. This is reinforced by the amended Equal Treatment Directive published on 5 October 2002 which says that less favourable treatment on the grounds of pregnancy and maternity within the meaning of the Pregnant Workers Directive constitutes sex discrimination.

In 1999, the Government introduced specific protections to prevent women from suffering detriment and from being unfairly dismissed or selected for redundancy for reasons connected with their pregnancy, childbirth or maternity leave. We have also ensured a woman has a clear right to return to her job after maternity leave, on the same terms and conditions as if she had not been away.

PRIME MINISTER

Iraq

Llew Smith: To ask the Prime Minister whether he or his officials have examined the transcript of the interview given by the Head of the Coalition Provisional Authority in Iraq, on the Dimbleby Programme on 28 December 2003, with particular reference to Mr. Bremer's comments on Iraqi weapons of mass destruction; and whether he discussed Iraqi weapons of mass destruction with Mr. Bremer in his meeting with him in Basra on 4 January. [146583]

The Prime Minister: I follow developments in Iraq closely. When I saw Ambassador Bremer in Basra on 4 January, we had a wide-ranging discussion of the challenges facing us in Iraq, including the political process, reconstruction and the security situation.

WORK AND PENSIONS

Incapacity Benefit

Jane Griffiths: To ask the Secretary of State for Work and Pensions if he will make it his policy to credit full-time students with National Insurance contributions in order to provide eligibility for incapacity benefit if they become ill. [145392]

Maria Eagle: Special provisions allow young sick and disabled people, who have not had the opportunity to work and build up a contribution record, to qualify for Incapacity Benefit (IB). Since 6 April 2001 young people who become incapable of work before age 20, or before age 25 if in education or training before age 20, may receive IB without satisfying the contribution conditions.

Pension Credit

Mr. Willetts: To ask the Secretary of State for Work and Pensions how many people have called the Pension Credit Helpline more than once since April, broken down by number of people making each number of calls. [146043]

Malcolm Wicks: The information is not currently available in the form requested.

Mr. Willetts: To ask the Secretary of State for Work and Pensions how many individuals received savings credit in the last period for which figures are available, broken down by declared savings of *(a)* less than £6,000, *(b)* between £6,000 and £10,000, *(c)* between £10,001 and £15,000, *(d)* between £15,001 to £30,000 and *(e)* over £30,000. [146052]

Malcolm Wicks: The information is not currently available in the form requested.

Mr. Willetts: To ask the Secretary of State for Work and Pensions how many households have received savings credit awards since 6 October, broken down by awards of *(a)* less than £5 a week, *(b)* between £5 and £10 a week, *(c)* between £10 and £15 a week and *(d)* over £15 a week. [146084]

Malcolm Wicks: Up to 30 November 2003 there were 193,000 awards of pension credit where the savings credit only is payable. Of these, *(a)* 41,000 were of less than £5.00 per week, *(b)* 59,000 were of between £5.00 and £10.00 per week and *(c)* 92,000 were of over £10.00 per week. In addition, there were 83,000 awards where both savings credit and guarantee credit are payable.

Notes:
1. Figures are currently available only for the three bands to which the reply refers.
2. Figures have been rounded to the nearest thousand.
3. Figures might not sum due to rounding.
4. A monetary breakdown for households receiving both savings credit and guarantee credit will not be available until the November 2003 Quarterly Statistical Enquiry is published on 17 March 2004.

Pensioners (Hemsworth)

Jon Trickett: To ask the Secretary of State for Work and Pensions how many pensioners in Hemsworth constituency are in receipt of pension credit. [145919]

Malcolm Wicks: I refer my hon. Friend to the written statement made by my right hon. Friend the Secretary of State (Andrew Smith) on 10 December 2003, *Official Report*, column 90WS, and to the accompanying tables placed in the Library.

Pension Schemes

Mr. Willetts: To ask the Secretary of State for Work and Pensions how many pension schemes have started the winding-up process in each quarter since 2001; and how many pension scheme members have been affected each quarter, broken down by *(a)* pensioners and *(b)* people who had not retired when the winding-up began. [146021]

Malcolm Wicks: The Pensions Schemes Registry, administered by the Occupational Pension Schemes Regulatory Authority (OPRA), holds information on the number of pension schemes which are currently in the winding up process. Figures showing the number of schemes that have entered winding up each quarter since 2001 and have not yet completed winding up are contained in the table, along with the number of members in those schemes.

It is not possible to break these figures down by pensioner and pre-retirement numbers, as the registry only provides data on total membership numbers.

Schemes that have started winding up in the relevant period and have not yet completed winding up

	All scheme types		*Defined-Benefit schemes only*	
Quarter beginning	*Number of schemes*	*Number of members*	*Number of schemes*	*Number of members*
1 January 2001	423	11,365	44	4,744
1 April 2001	699	19,829	94	11,827
1 July 2001	443	18,138	70	10,805
1 October 2001	384	17,782	64	10,988
1 January 2002	511	15,760	66	9,610
1 April 2002	327	16,245	53	9,745
1 July 2002	394	14,674	54	9,735
1 October 2002	426	28,340	90	15,232
1 January 2003	451	18,877	59	8,118
1 April 2003	375	17,024	46	7,472

Notes:
1. The table does not contain schemes that started winding up in the time period given and have since completed wind up. The Pensions Schemes Registry only records the present status of a scheme so only those winding up at the moment are captured. This is unlikely to bias the figures extensively as the winding up process can take many years to complete, particularly for large firms.
2. The "All scheme type" column contains Defined-Contribution, Hybrid and Unknown Type schemes as well as Defined-Benefit schemes.
3. A winding up scheme is one which has notified OPRA that it has commenced winding up procedures.
4. Schemes have up to 12 months to notify OPRA of any status change, so the data for the current year is provisional.
5. Data is not available for periods after the quarter beginning 1 April 2003.

State Pension

Steve Webb: To ask the Secretary of State for Work and Pensions if he will estimate the annual cost to the Exchequer, net of savings in means-tested benefits and additional income tax revenue, of paying state pensions in full at the rate of a Category A pension to every UK pensioner aged *(a)* 80 or over and *(b)* 75 or over, regardless of their contribution record. [145437]

Malcolm Wicks: The annual cost to the Exchequer from April 2004, net of savings in income related benefits and additional income tax revenue, of paying the state pension in full at the rate of a Category A pension to every UK pensioner aged:

(a) 80 or over is £0.66 billion

(b) 75 or over is £1.20 billion

1. Figures are in 2003–04 price terms rounded to the nearest £10 million.
2. Gross costs are estimated by the Government Actuary's Department and are consistent with Budget 2003 assumptions.
3. The additional costs take into account income related benefit offsets, which are calculated using the DWP policy simulation model and April 2004 benefit rates.
4. Additional income tax revenue is estimated by the Inland Revenue using 2004 tax rates

Recruitment Advertisements

Miss Kirkbride: To ask the Secretary of State for Work and Pensions how much has been spent on recruitment advertisements in the press, broken down by publication, by *(a)* his Department, *(b)* quangos under the Department and *(c)* non-departmental Government bodies under the Department (i) in the last year and (ii) since 1997. [145810]

Maria Eagle: Information about recruitment advertising costs is not collected centrally and could be obtained only at disproportionate cost.

HEALTH

Alzheimer's Disease

Mr. Baron: To ask the Secretary of State for Health (1) how much the NHS spent on anticholinesterase inhibitors for people with Alzheimer's disease in each year since 1997; [144843]

(2) what steps are being taken to ensure that people in long-term care with Alzheimer's disease are assessed for use of anticholinesterase inhibitors; [144844]

(3) what plans he has to re-issue guidance to trusts to ensure that local decisions about whether to prescribe Ebixa on the NHS for people with moderate to severe Alzheimer's disease are not postponed in the absence of guidance from the National Institute for Clinical Excellence. [144845]

Dr. Ladyman *[holding answer 18 December 2003]:* The number of prescription items dispensed in the community for drugs for dementia and the associated net ingredient cost, for each year since 1997, are shown in the table. Information is not collected about the number and costs of drugs for dementia dispensed in acute and mental health trusts.

Number of prescription items and the associated net ingredient cost for drugs for dementia, dispensed in the community in England, 1997 to September 2003

Drugs for dementia	*April to December 1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*January to September 2003*
						Net ingredient cost (£000)	
BNF chemical name							
Donepezil Hydrochloride	656.8	1,919.2	2,917.4	4,178.2	8,815.3	16,078.3	16,829.7
Galantamine	—	—	—	13.6	880.2	2,469.9	2,834.8
Memantine Hydrochloride	—	—	—	—	—	21.1	392.9
Rivastigmine	—	29.2	297.0	681.0	1,309.2	1,997.9	2,262.3
All drugs for dementia	656.8	1,948.4	3,214.4	4,872.8	11,004.6	20,567.1	22,319.8
						Number of prescription items (Thousand)	
Donepezil Hydrochloride	7.2	20.2	30.4	43.6	91.2	169.3	181.3
Galantamine	—	—	—	0.2	11.3	31.1	36.2
Memantine Hydrochloride	—	—	—	—	—	0.3	4.7
Rivastigmine		0.4	4.2	9.9	19.7	30.5	32.3
All drugs for dementia	7.2	20.7	34.6	53.8	122.1	231.3	254.5

Notes:

1. The prescription information was obtained from the Prescription Cost Analysis (PCA) system and is based on a full analysis of all prescriptions dispensed in the community, i.e. by community pharmacists and appliance contractors, dispensing doctors, and prescriptions submitted by prescribing doctors for items personally administered in England. Total prescriptions include not only prescriptions originating from general medical practitioners in England but also from hospital doctors, nurses, and dentists, provided they were dispensed in the community. Also included are prescriptions written in Wales, Scotland, Northern Ireland and the Isle of Man but dispensed in England. The data do not cover drugs dispensed in hospital or private prescriptions.
2. Drugs for dementia are those defined in the British National Formulary (BNF) section 4.11.
3. The Net Ingredient Cost refers to the cost (which the dispenser is reimbursed) of the drug before discounts and does not include any dispensing costs or fees. It does not include any adjustment for income obtained where a prescription charge is paid at the time the prescription is dispensed, or where the patient has purchased a pre-payment certificate.

People in long-term care with Alzheimer's disease have the same access to drugs for dementia as people living elsewhere. If appropriate, those involved in their care will refer them as necessary for assessment by specialist mental health teams.

In August 1999 the Department issued Health Service Circular 1999/176 which asks national health service bodies to continue with local arrangements for the managed introduction of new technologies where guidance from the National Institute for Clinical Excellence (NICE) is not available. These arrangements should involve an assessment of all the available evidence. Funding for treatments, such as Ebixa, should not be withheld simply because of an absence of guidance from NICE.

Autism

Tim Loughton: To ask the Secretary of State for Health how many children in *(a)* England and *(b)* Wales have been diagnosed with autism on the latest date for which figures are available. [145690]

Dr. Ladyman: Details of the number of children diagnosed with autism are not available. The Medical Research Council (MRC) published a comprehensive review of autism research in December 2001 which provides an authoritative overview of the current state of knowledge on the prevalence, incidence and causes of autism. The report was commissioned by the Department of Health. It is available on the MRC website at: http://www.mrc.ac.uk/pdf-autism-report.pdf

The report says that according to recent reviews, there appears fairly good agreement that autism spectrum disorders affect approximately 60, and more narrowly defined autism 10–30 per 10,000 children under eight.

In February 2002, we allocated a further £2.5 million to the MRC to help them to take forward their programme of work on autism. Between December 2002 and July 2003, the MRC held a series of four seminars to encourage the development of good quality applications for autism research funding. Topics covered in the seminars were gut and the developing child; brain and mind (neuropsychology and neuroimaging); autism in populations and outcome measures for interventions in children and adults. On 11 July 2003, the MRC held the first of their annual fora for autism research "Breaking barriers, building bridges", in conjunction with the National Autistic Society, to bring together ideas stimulated by the previous four seminars.

The MRC will be taking decisions on the allocation of research project funding for further autism studies in early 2004.

Questions on the numbers of autistic children in Wales are a matter for the National Assembly for Wales.

Blood Products

Nick Harvey: To ask the Secretary of State for Health (1) what the Government's objective was in purchasing an American blood bank; and if he will make a statement; [144110]

(2) what factors led to the Government's decision to purchase an American blood bank; and if he will make a statement; [144111]

(3) what comparisons he has made between the safety of blood available from the American blood bank it has purchased and blood available in the UK; and if he will make a statement. [144112]

Miss Melanie Johnson: On 17 December 2002, following thorough options analysis work and detailed market research, the Department purchased the largest remaining independent United States plasma collector Life Resources Incorporated. The objective was to secure long-term supplies of non-United Kingdom blood plasma to ensure that the global plasma shortage would not reduce the availability to National Health Service patients of life-saving plasma products such as immunoglobulins and clotting factors. Large volumes of plasma are required for medicinal product manufacture, especially immunoglobulm.

The NHS has been using US-sourced plasma since 1998 because of the unknown and unquantifiable risk of transmission of vCJD through blood. At the time Life Resources Inc. was purchased, the US had no reported cases of BSE or CJD and was the only country able to supply the quality and quantity of plasma required. The US also has a well-established pool of donors, a well-regulated environment and a developed collection industry. The Government are aware of the one case of BSE reported in the US and considers this to be a negligible risk to the safety of the blood supply. This case is not in itself a reason to alter current arrangements but we will continue to monitor the situation closely.

It is standard in both the UK and the US that, in addition to screening donors for the major blood borne viruses of HIV, Hepatitis B and C, all blood products are heat treated or chemically treated to remove any viral contamination that may have escaped the screening process.

In the UK, expert advice is that if vCJD is transmissible through blood, the infection is most likely to be contained in the white cells and plasma. As a precautionary measure, we instituted universal leucodepletion (removal of the white cells) of all blood for transfusion from 31 October 1999.

Jane Griffiths: To ask the Secretary of State for Health what guidance his Department gives to the National Blood Service on the questions which may be asked of potential blood donors; and if he will make a statement. [144861]

Miss Melanie Johnson: The National Blood Authority (NBA) undertakes a rigorous selection of blood donors as the first step in ensuring the safety of the blood supply. The questionnaire and accompanying interview of potential blood donors have been developed to elicit appropriate information relevant to donation. There are two important aims, which are to ensure as far as possible that the donated blood is safe for transfusion to patients and that blood donation is not detrimental to the donor's health.

Donors are accepted or deferred on the basis of the information they give the NBA using the United Kingdom donor selection guidelines developed by the Joint UK Blood Transfusion Services and National Institute of Biological Standards and Control which are used throughout the UK. All donors are asked to read a blood safety leaflet, which outlines key lifestyle risk factors.

The donor selection procedures and questions used in the UK are in line with the recommendations of the Council of Europe and will be in line with the proposed European Union Directive 2002/98/EC (Article 29) on setting standards of quality and safety for the collection, testing, processing, storage and distribution of human blood and blood components.

Tim Loughton: To ask the Secretary of State for Health (1) how many pints of *(a)* blood and *(b)* plasma were used by the NHS in each of the last five years; [145938]

(2) how much donated blood was used in *(a)* cancer operations and *(b)* transfusions in each of the last five years. [145940]

Miss Melanie Johnson *[holding answer 5 January 2004]:* Information on the number of units of blood and plasma used by the national health service in the last five years is not collected centrally.

Tim Loughton: To ask the Secretary of State for Health what the main uses are to which donated blood is put; and what proportion of donated blood was discarded in each of the last five years. [145939]

Miss Melanie Johnson *[holding answer 5 January 2004]:* Approximately half of red cell transfusions are used for medicinal purposes including anaemia, haematology and gastro-intestinal bleeding. The remaining half is used mainly in surgery, but also in obstetrics and gynaecology.

Figures provided by the National Blood Authority (NBA) show the proportion of red blood cells that the NBA has discarded over the last three years.

Percentage

	Time expired	*Collection discards*	*Testing related discards*	*Breakages and leaks discard*	*Processing discards*	*Total*
2000–01	0.1	2.8	1.3	0.6	1.2	6.0
2001–02	0.2	2.6	1.2	0.5	1.4	5.9
2002–03	0.5	2.6	1.3	0.6	1.1	6.1

The NBA does not have data for previous years.

The NBA strives to hold enough stocks of blood to meet extra or excess demand for blood in the event of any emergencies or major incidents.

Tim Loughton: To ask the Secretary of State for Health how many pints of blood have been donated in each of the last five years. [145941]

Miss Melanie Johnson *[holding answer 5 January 2004]:* Figures in the table supplied by the National Blood Authority show number of units of blood donated in each of the last five years.

	Number of units donated
1998–99	2,389,622
1999–2000	2,427,052
2000–01	2,357,568
2001–02	2,379,784
2002–03	2,332,371

Child Mental Health

Tim Loughton: To ask the Secretary of State for Health what the prevalence of mental health problems is in children aged *(a)* five to 10, *(b)* 11 to 15 and *(c)* 16 to 19 in England, broken down by gender. [145689]

Dr. Ladyman: Information is not available in the form requested. The tables show the prevalence of mental disorders in young people aged five to 15 years and neurotic disorder in young people 16 to 19 years.

Prevalence of mental disorders among five to 15-year-olds

Percentage

	Five to 10 years	11 to 15 years
Boys	10.4	12.8
Girls	5.9	9.6
All children	8.2	11.2

Source:

Office for National Statistics survey—Mental health of children and adolescents in Great Britain (2000)

Prevalence of neurotic disorder among 16 to 19-year-olds

Percentage

	16 to 19-year-olds
Men	8.6
Women	19.2
All adults	13.3

Source:

Office for National Statistics survey—Psychiatric morbidity among adults living in private households (2000)

Dentists

Mr. Burstow: To ask the Secretary of State for Health what assessment he has made of the reasons for the change in the number of *(a)* adults and *(b)* children registered with a dentist in the last three years. [142061]

Ms Rosie Winterton: Adult registrations in the general dental service fell by 160,000 in the three years between September 2000 and September 2003 from 16.81 million to 16.65 million, a fall of 1.0 per cent. Children's registrations fell by 170,000 from 6.84 million to 6.67 million, a fall of 2.5 per cent.

During the same period, there has been an increase in National Health Service dental services provided by the personal dental services; the number of patients increased by 340,000 in the three years between 1999–2000 and 2002–03.

Some of the drop in registration numbers is due to improved procedures at the Dental Practice Board in removing duplicate patient records.

General population figures are not yet available for this period on a consistent basis that is based on the 2001 Census. However it is estimated that between 2001 and 2002 the adult population in England rose by 0.5 per cent. with the children's population falling by 0.4 per cent.

We recognise that dentists in some areas have reduced their NHS commitment and there has been considerable dissatisfaction since 1992 with remuneration system which is now seen as a disincentive to provide NHS dental care. Proposals in the Health and Social Care (Community Health and Standards) Act 2003 will underpin a modernised, high-quality primary dental service provided through contracts between primary care trusts and dental practices and properly integrated with the rest of the NHS providing better access to services and an improved patient experience. With these new responsibilities will go the £1.2 billion resources currently held centrally.

Diabetes (Amputations)

Mr. Burstow: To ask the Secretary of State for Health what the cost of amputations due to diabetes was in each year since 1996 in *(a)* England and *(b)* each strategic health authority; how many people in each case have had amputations due to diabetes in each year since 1996; and what assessment his Department has made of the proportion of amputations due to diabetes that could have been prevented. [144776]

Ms Rosie Winterton: Data on the cost of lower limb amputations is not collected in the format requested. The table shows how many lower-limb amputations were performed in the years 1996–2003 in national health service hospital trusts in England.

Primary Diagnosis Diabetes (ICD10 codes E10-E14), With main operation of Lower Limb Amputation (OPCS4 codes X09-X11), Finished Consultant Episodes (FCEs)
NHS hospital trusts in England, 1996–97 to 2002–03

	Amputation of:			
	Leg (X09)	Foot (X10)	Toe (X11)	Total
1996–97	914	154	921	1,989
1997–98	79	476	634	1,189
1998–99	89	490	660	1,239
1999–2000	120	504	677	1,301
2000–01	97	457	621	1,175
2001–02	434	100	596	1,130
2002–03	384	115	621	1,120

Notes:

1. An FCE is defined as a period of patient care under one consultant in one health care provider. The figures do not represent the number of patients, as one person may have several episodes within the year.
2. The main operation is the first of four operation fields in the HES data set, and is usually the most resource intensive procedure performed during the episode.
3. The primary diagnosis is the first of seven diagnosis fields in the HES data set, and provides the main reason why the patient was in hospital.
4. Data in this table are adjusted for both coverage and unknown/invalid clinical data, except for 2001–02 and 2002–03 which are not yet adjusted for shortfalls.
5. 2002–03 data are provisional and subject to change.

Source:

Hospital Episode Statistics (HES), Department of Health.

The Department of Health's Hospital Episode Statistics (HES) system provides information on in-patient care in England. With the clinical information given by hospital providers it is not possible to determine how many amputations due to diabetes could have been prevented. The national service framework for diabetes standards document noted that all people with diabetes should receive high-quality care throughout their lifetime, including support to optimise the control of blood glucose, blood pressure and other risk factors for developing the complications of diabetes. The standards document also noted that the impact of microvascular complications could be reduced if they are detected and treated at an early stage and states that all young people and adults with diabetes should receive regular surveillance for the long-term complications of diabetes.

Health Development Agency

Mr. Burstow: To ask the Secretary of State for Health if he will list the *(a)* budget allocations and *(b)* actual spending of the Health Development Agency in each year since 2000. [144785]

Miss Melanie Johnson: The information requested is shown in the following table.

Health development agency allocations and expenditure[1]

£000

	2000–01[2]	2001–02	2002–03
Total Allocations/Income from Government Sources[3]	11,288	12,261	11,015
Net resource outturn[4]	11,462	11,960	11,024

[1] Information taken from HDA published accounts.
[2] The 2000–01 figures used are as per the 2001–02 accounts (restated as a comparator).
[3] Total expenditure may exceed the allocation or other payments to the HDA from Government because the HDA may earn income from other sources to cover that expenditure.
[4] Net Resource Outturn is the Operating Cost less other Income. This does not include Capital interest charges.

Healthy Living Programmes

Mr. Burstow: To ask the Secretary of State for Health what plans he has to evaluate New Opportunity-funded healthy living programmes; and what arrangements have been made to ensure that the lessons from such evaluations are disseminated. [145080]

Miss Melanie Johnson: The New Opportunities Fund is supporting a number of healthy living programmes, each of which will be formally evaluated. The Department of Health will study the evaluation findings carefully, and will work with the New Opportunities Fund to help ensure that lessons learned are effectively disseminated.

In addition, the Department of Health has commissioned its own evaluation of the health living centre programme through the Tavistock Institute against key health priorities such as cancer and coronary heart disease prevention. The Institute will be encouraged to publish their findings and the Health Development Agency will incorporate the findings into evidence and practice reviews.

Maternity Units

Mr. Baron: To ask the Secretary of State for Health pursuant to his Answer of 15 December, *Official Report*, column 772W, on maternity services, to what extent women are able to choose whether they will be seen in a midwifery-led maternity unit; and what effect the policy of their local health authority has on choice. [146324]

Dr. Ladyman: We expect midwife led maternity care to be one of the options available to women and their families. A woman's decision to give birth in a midwife led unit should be a matter for informed discussion between the woman and the health professionals responsible for providing her care.

It is up to local health organisations, working with their communities and other local partners, to provide high quality maternity services that are both as safe and as accessible as possible to women and their families.

Mr. Baron: To ask the Secretary of State for Health whether it is the Government's policy that women should be able to choose to be treated in a midwife-led maternity unit. [146325]

Dr. Ladyman: It is Government policy that women should be able to choose to have midwife led maternity care. A woman's decision to give birth in a midwife led maternity unit should be a matter for informed discussion between the woman and the health professionals responsible for providing her care.

Parliamentary Questions

Mr. Burstow: To ask the Secretary of State for Health when he will reply to the questions from the hon. Member for Sutton and Cheam, tabled on 1 December, references 140640 and 140642. [145738]

Dr. Ladyman: I replied to the hon. Member's questions on Monday 5 January.

PET Scans

Tim Loughton: To ask the Secretary of State for Health what price is paid for each dose of radioactive, positron tracers used by each PET scanner centre. [145003]

Miss Melanie Johnson: The costs of isotope production are dependent on a number of factors, including whether the production is on a commercial basis and the costs of transportation to the Positron Emission Tomography (PET) centre. However, a report of the Intercollegiate Standing Committee on Nuclear Medicine, published by the Royal College of Physicians in January 2003, details that typical costs are around £315 for each dose of tracer.

Tim Loughton: To ask the Secretary of State for Health (1) what assessment he has made of the benefits of PET scans; [145004]

(2) if he will list the most common uses of PET scans; [145005]

(3) what plans he has to expand the provision of PET scanners over the next five years. [145019]

Miss Melanie Johnson: Positron Emission Tomography (PET) scanning enables highly sensitive and specific functional imaging of metabolic processes involved in oncology, cardiology and neurology. It holds particular promise for cancer services.

In response to requests from National Health Service and research stakeholders the Department of Health will shortly publish a framework for PET scanning for consultation. This framework will enable the NHS to develop a clear national policy position which will set out, from the evidence, which tumour groups would benefit from PET scanning, likely future demand, and the optimal configuration and location of PET scanners. This would ensure that access to PET facilities was available to patients from all cancer networks and that high quality research could also be undertaken on the future applications of PET.

Tim Loughton: To ask the Secretary of State for Health what assessment he has made of the number of PET scanners per head of the population in *(a)* England and *(b)* other EU countries. [145013]

Miss Melanie Johnson: There are five Positron Emission Tomography (PET) scanners operating in the national health service in England. The Department has made no assessment of the relative numbers of PET scanners in England and other European Union countries.

Tim Loughton: To ask the Secretary of State for Health what the cost of each PET scan to the NHS was in each of the five centres operating PET scanners in the last 12 months. [145014]

Miss Melanie Johnson: The cost of each Positron Emission Tomography (PET) scan depends on a number of factors, such as the condition the patient is being scanned for, the type of isotope used, transportation costs and the isotope supplier. This information is not held centrally.

Tim Loughton: To ask the Secretary of State for Health how many staff are *(a)* trained to operate PET scanners and *(b)* work in PET scanner departments in the NHS. [145015]

Miss Melanie Johnson: A number of professional staff are needed to run a Positron Emission Tomography (PET) facility. These include radiographers/nuclear medicine technicians; consultant radiologist/physicians, medical physicists, medical physics technicians; radiochemists and; radiopharmacy technicians.

Figures on numbers of staff trained to operate or work in PET scanner departments are not collected centrally.

Tim Loughton: To ask the Secretary of State for Health how many PET scans were carried out in each of the last five years funded *(a)* privately and *(b)* by the NHS. [145020]

Miss Melanie Johnson: The numbers of Positron Emission Tomography (PET) scans carried out each year varies from centre to centre and this information is not held centrally.

Public Health

Mr. Burstow: To ask the Secretary of State for Health whether each *(a)* region, *(b)* strategic health authority and *(c)* primary care trust has a director of public health post and whether the post is filled in each case. [144783]

Miss Melanie Johnson: The information requested has been placed in the Library.

Mr. Burstow: To ask the Secretary of State for Health what the arrangements are for ensuring that in every part of England an annual report on the health of the population is produced by a director of public health. [144791]

Miss Melanie Johnson: The 2003–06 Planning and Priorities Framework issued by the Department of Health requires service planning in the national health service to be supported by an annual public health report by the Director of Public Health. Strategic health authorities are responsible for ensuring compliance with, and delivery of, the framework.

Tim Loughton: To ask the Secretary of State for Health what his policy is on recruitment of chief executives of the Public Health Laboratory Service, with particular reference to the merits of recruiting *(a)* deputy chief medical officers and *(b)* microbiologists with experience of clinical practice. [145165]

Miss Melanie Johnson: The Public Health Laboratory Service (PHLS) is a non-departmental public body (NDPB) with a board which appoints its own chief executive, in the same way as other NDPBs and in accordance with Cabinet Office guidance.

Mr. Burstow: To ask the Secretary of State for Health if he will place in the Library a copy of the results of the Public Health Skills Audit referred to in the Department's memorandum of evidence to the Health Committee inquiry into public health. [144781]

Miss Melanie Johnson: The report of the Skills Audit has been placed in the Library.

Respiratory Disease

Mr. Burstow: To ask the Secretary of State for Health what assessment he has made of the extent to which children under five years with respiratory problems are misdiagnosed with asthma. [146212]

Dr. Ladyman: The information requested is not collected centrally.

Mr. Burstow: To ask the Secretary of State for Health how many finished consultant episodes there have been for respiratory syncytial virus in *(a)* England, *(b)* each NHS region and *(c)* each strategic health authority in each year since 1996, broken down by age. [146211]

Dr. Ladyman: The information that is available has been placed in the Library.

Ritalin

Mrs. Calton: To ask the Secretary of State for Health how many young people *(a)* under 11 and *(b)* over 11 have been prescribed Ritalin by a health authority in each of the last five years. [145815]

Dr. Ladyman: Information is not available in the form requested. However the figures in the table following show the total number of prescription items of methylphenidate hydrochloride dispensed in the community in England in each of the last five years. The majority of prescription items of methylphenidate hydrochloride are for the brand Ritalin.

Number of prescription items of methylphenidate hydrochloride dispensed in the community in England—1998 to 2002

Thousand

	Total
1998	126.6
1999	158.0
2000	186.2
2001	208.5
2002	254.0

Source:
Prescription Cost Analysis data from the Prescription Pricing Authority

In 2002, around 91 per cent. of the 254,000 prescription items were dispensed in the community to children (children under 16 and young people aged 16 to 18 in full time education). An estimated 1 per cent. of the items were dispensed to people aged 60 and over with the remainder being dispensed to other adults. These proportions have been similar in recent years.

Mrs. Calton: To ask the Secretary of State for Health what assessment he has made of the long-term effects of Ritalin. [145816]

Dr. Ladyman: Ritalin is indicated as a part of a comprehensive treatment programme for attention-deficit hyperactivity disorder (ADHD) in children over six years of age where remedial measures alone prove insufficient. In October 2000 the National Institute for Clinical Excellence (NICE) published an appraisal of the use of the drug methylphenidate (main brand name Ritalin) in the treatment of childhood ADHD and issued clinical guidelines for its use, including the need for regular monitoring of children receiving this therapy. NICE recommended long-term follow-up of adverse effects and the potential for misuse of the drug in assessing long-term benefits and health gain into adulthood.

As with all medicines, the safety of methylphenidate is continually monitored by the Medicines and Healthcare products Regulatory Agency and the independent advisory body the Committee on the Safety of Medicines. Comprehensive information on the use of methylphenidate, including possible side effects, contraindications and precautions is contained in the summary of product characteristics produced by the manufacturer and approved by the licensing authority.

Smoking

Mr. Burstow: To ask the Secretary of State for Health if he will set out for each year of the programme the *(a)* total number of people who took part in smoking cessation programmes and *(b)* number of four week quitters; and what assessment he has made of the number and proportion of four week quitters who subsequently recommenced smoking. [145078]

Miss Melanie Johnson: We do not have the information in the form requested.

The table shows the number of people setting a quit date through the national health service stop smoking services, and the number of those who remain quit at four week follow up.

People setting a quit date and outcome at four weeks (based on self report) England 1999–2000 to Q1 2003–04

	Number setting a quit date	*Number successful (self report)*
1999–2000	14,598	5,760
2000–01	132,544	64,554
2001–02	227,335	119,834
2002–03	234,858	124,082
Q1 2003–04 April-June	64,691	33,926

Source:
Department of Health Smoking Cessation Monitoring Returns

The monitoring of the NHS stop smoking services establishes success four weeks after the client's quit date. This method was chosen as a viable, practical way to ascertain initial success.

Smoking is an addictive behaviour and it is difficult for smokers to stop. From the evidence of clinical trials, we expect that around 65 per cent., of clients successful at four weeks will relapse to smoking. The Department of Health has commissioned a research project to investigate further the success of the NHS Stop Smoking Services in helping smokers to stop in the longer-term. This is due to report in the new year.

The huge health benefit from smokers stopping means that services, such as the NHS stop smoking services, are highly cost effective.

Strategic Health Authorities

Mr. Burstow: To ask the Secretary of State for Health if he will set out for each Strategic Health Authority the *(a)* budget and *(b)* spending on (i) language support, (ii) interpreting services and (iii) ethnic monitoring in 2002–03. [145081]

Miss Melanie Johnson: The information requested is not collected centrally.

The NHS Plan sets out a commitment to make available a national translation and interpreting service through NHS Direct. NHS Direct is currently involved in procuring a national interpreting and translation service by March 2004. This will provide access for all national health service organisations to a telephone-based interpretation and translation service. Information on the costs of local arrangements for language support and interpreting services cannot be disaggregated in the financial returns.

The Department has made a commitment to the collection of ethnic origin information using the 2001 Census categories for all statistical data sets collected from the national health service for England.

While the Department has promoted ethnic monitoring in response to the Race Relations (Amendment) Act 2000 (and highlighted examples of good practice), the collection of ethnic data is largely incorporated as additional data items within existing collections, to minimise both the burden and cost related to the collection of such information on the NHS. This is consistent with the Department's procedures to ensure that the value of all centrally collected information fully justifies the burden and cost it places on those who provide it.

"Valuing People"

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 8 December 2003, *Official Report*, column 320W, on Valuing People, if he will list the other centrally funded projects which were funded through the £3.3 million. [144948]

Dr. Ladyman: The unused £3.3 million capital was not directly transferred from the Learning Disability Development Fund to another project. It contributed to the overall budget available for other capital projects, which were delivered in 2002–03 but which did not have funding set aside for them at the start of the year. An example of a project funded in this way was the refurbishment of psychiatric wards.

DEPUTY PRIME MINISTER

Council Tax

6. **Mr. Barnes**: To ask the Deputy Prime Minister, what recent assessment he has made of the effectiveness and fairness of the council tax banding system; and if he will make a statement. [145889]

Mr. Raynsford: The Government acknowledged the criticisms of council tax in the 2001 White Paper, "Strong Local Leadership, Quality Public Services". Consequently we have established the Balance of Funding review which has been giving detailed consideration to key issues affecting the funding of local government. The review will be considering proposals for change in the course of the next few months.

Brownfield Land

8. **Mrs. Humble**: To ask the Deputy Prime Minister, if he will make a statement on progress in bringing more brownfield land into use. [145891]

Mr. Prescott: Through English Partnerships and the Regional Development Agencies we are reclaiming brownfield land at a rate of over 1400 hectares a year. This has enabled us to achieve our national brownfield target eight years early. By 2000 60 per cent. of new housing development was on brownfield land. By 2002 this proportion had increased to 64 per cent.

Regional Assemblies

9. **Mr. Grogan:** To ask the Deputy Prime Minister, what assessment he has made of the benefits to the Yorkshire and Humber economy of an elected regional assembly. [145892]

Yvette Cooper: An elected assembly for Yorkshire and the Humber will enhance regional prosperity, pride and democracy. It will control or influence key elements impacting on the regional economy, including the work of Yorkshire Forward and policies affecting planning, housing, transport and skills. Similarly it will improve people's safety and quality of life through work on the environment, fire prevention, culture and sport and the promotion of public health.

Mr. Curry: To ask the Deputy Prime Minister what the estimated annual Government grant is to the proposed regional assemblies in *(a)* the North West, *(b)* the North East and *(c)* Yorkshire and the Humber. [146039]

Mr. Raynsford: Based on figures for 2002–03, and on existing programmes, elected regional assemblies would receive grants of around £780 million in the North West, £350 million in the North East and £570 million in Yorkshire and the Humber. Assemblies would also have influence—through consultation with, and making appointments to specified bodies—over budgets totalling £1,600 million in the North West, £600 million in the North East and £1,100 million in Yorkshire and the Humber.

In addition, the White Paper "Our Fire and Rescue Service" published in June 2003 said "we envisage that, eventually, where there are elected regional assemblies, fire and rescue authorities will be regional bodies". In 2001–02, the existing local fire and rescue authorities spent around £238 million in the North West, £103 million in the North East and £159 million in Yorkshire and Humberside. These are the latest figures available. Broadly speaking, three quarters of the Fire and Rescue Service's overall budget spending is met by revenue support grant and national non- domestic rates and the balance from council tax.

Regeneration

10. **James Purnell:** To ask the Deputy Prime Minister if he will make a statement on his policy on involving English Partnerships in regeneration. [145894]

Keith Hill: English Partnerships is the National Regeneration Agency. It leads on the development of Urban Regeneration Companies. It works closely with the Housing Market Renewal Pathfinders to regenerate areas of low demand and abandoned housing. Through the £400 million coalfields programme it is actively regenerating former coalfield areas and their communities. We are also proposing that EP take a leading role in overseeing development in the wider Milton Keynes area through close co-operation with the local council and other key stakeholders.

Standards Board

11. **Mr. Heathcoat-Amory:** To ask the Deputy Prime Minister if he will make a statement on the performance of the Standards Board. [145895]

Phil Hope: Ensuring high standards in public life—including in local government—remains a firm commitment of the Government. The Standards Board for England continues to command the Government's full support as it develops to meet the challenges set for

it by the Local Government Act 2000. Copies of the Boards Annual Report are available in the Library, and on the Board's website.

Building Regulations

12. **Norman Baker:** To ask the Deputy Prime Minister what plans he has to amend building regulations to improve environmental performance in respect of water consumption. [145896]

Phil Hope: In response to statements made by my right hon. Friend the Deputy Prime Minister and the Secretary of State for Environment, Food and Rural Affairs at the Better Buildings Summit, proposals to amend the Building Regulations to include the conservation of water will be taken forward early in the New Year.

It is anticipated that amended regulations will be laid in the latter part of 2005.

Telecommunications Masts

13. **Mr. Gibb:** To ask the Deputy Prime Minister if he will make a statement on his Department's code of best practice on the siting of TETRA telecommunications masts in the vicinity of schools and hospitals. [145897]

Keith Hill: The Code of Best Practice on Mobile Network Development does not distinguish between different types of mobile communications base stations. The Code lists the factors that should be taken into account by network operators and local planning authorities in determining whether a school or college should be consulted. The Code makes no reference to hospitals.

Mobile Phones

14. **Colin Burgon:** To ask the Deputy Prime Minister what recent discussions he has had with the Mobile Phone Operators Association about their voluntary code. [145898]

Keith Hill: I have not had any recent discussions with the Mobile Operators' Association. My hon. Friend for Pontefract and Castleford will be meeting representatives of the Mobile Operators' Association and the five commercial network operators on the 19 January 2003.

Area Partnerships

Mr. Steen: To ask the Deputy Prime Minister how many area partnerships have been established in England; what their terms of reference are; and what funding has been awarded to each partnership, broken down by *(a)* county council, *(b)* district council, *(c)* town or parish council, *(d)* regional development agency, *(e)* market and coastal towns initiative and *(f)* other sources of funding. [145817]

Yvette Cooper: The key partnership in any area is the Local Strategic Partnership (LSP). A survey in summer 2002, as part of the Government's research into LSPs, showed that the vast majority of areas, at county and district local authority level, either had an LSP in place or were in the process of forming one. There are now approximately 365 LSPs across England.

LSPs must include representatives from and reflect an appropriate balance between the public sector including local authorities and other public services, and private, voluntary and community sectors. LSPs will operate by consensus, in order to reflect and retain the buy-in of partners.

The Government guidance, published in March 2001, states that it will be for local partners to decide the full range of work of their LSP. However, it does set out four core tasks.

- Prepare and implement a community strategy for the area
- Bring together local plans, partnerships and initiatives to provide a forum through which mainstream public service providers work effectively together to meet local needs and priorities
- Work with local authorities that are developing a local public service agreement to help devise and then meet suitable targets
- Develop and deliver a local neighbourhood renewal strategy (in the 88 districts receiving Neighbourhood Renewal Fund).

LSPs are not statutory bodies and as such do not receive funding directly. However the Neighbourhood Renewal Fund (NRF) enables the 88 most deprived authorities, in collaboration with their Local Strategic Partnership (LSP), to improve services, narrowing the gap between deprived areas and the rest of England. £1,875,000 has been allocated for the period 2001 to 2006 and a full breakdown by local authority district is available.

More generally LSPs will work collaboratively with and through partners to access sources of funding to meet local needs.

Planning and Compulsory Purchase Bill

Mr. Beggs: To ask the Deputy Prime Minister what plans he has to extend the Planning and Compulsory Purchase Bill to Northern Ireland. [145315]

Keith Hill: There are no plans to extend the Planning and Compulsory Purchase Bill to Northern Ireland.

Fire Service College

Mr. Clifton-Brown: To ask the Deputy Prime Minister if he will list the commandants and chief executives of the Fire Service College, Moreton-in-Marsh, since 1992, stating whether they were a temporary or permanent appointment; what steps he is taking to secure a permanent appointment as Chief Executive; and whether payments have been made in respect of *(a)* early retirement and *(b)* unfair dismissal of senior officers at the college in the last 10 years. [145791]

Phil Hope: Details of Fire Service College Chief Executives and Commandants are given in the table. The post of Chief Executive is to be advertised shortly on open competition.

No payments have been made either in respect of unfair dismissal or early retirement. In one case, a postholder received a payment (details of which are confidential) on leaving office, in accordance with his employment law rights.

Fire Service Chief Executives and Commands from 1992

Name	*Position*	*Dates of service*	*Status*	*Notes*
Brian Fuller	Chief Executive (and Commandant)	Until April 1994	Permanent	—
Nigel Finlayson	Chief Executive	May 1994 to November 1997	Permanent	Posts to Chief Executive and Commandant split
Frank David	Commandant	May 1994 to May 1996	Two-year secondment	—
Terry Glossop	Commandant	June 1996 to November 1997	Fixed-term contract	—
Terry Glossop	Chief Executive (and Commandant)	1 December 1997 to 19 December 2002	Permanent	Posts re-combined
Robin Currie	Chief Executive	1 February 2002 to 20 December 2003	Secondment	Terry Glossop suspended on 1 February 2002
Anne Frost	Chief Executive	20 December 2003 to date	Permanent member of College staff	Acting Chief Executive, pending open competition

Buildings (Energy Performance)

Sir Sydney Chapman: To ask the Deputy Prime Minister whether he plans to implement the requirements of Directive 2002/91 on the energy performance of buildings under the European Communities Act 1972. [145750]

Phil Hope: The Government are still considering how implementation may be best achieved. Present thoughts are that the way forward could be a combination of amendments to the Building Regulations made under the Building Act 1984, and new regulations, made under the European Communities Act 1972, where this is more appropriate.

Public Land

Dr. Whitehead: To ask the Deputy Prime Minister what criteria his Department applies in respect of sustainability in the rules governing the sale or disposal of public land. [145753]

Keith Hill: Each Government Department assesses ways and means of delivering its objectives, and appraises the relevant options in line with the guidance in "The Green Book—Appraisal and Evaluation in Central Government"—including the costs of implementation. If, for example, a Department wishes to secure sustainability objectives, and in order to do so, has to dispose of assets, the disposal should be done in such a way that meets the requirements of Government Accounting chapter 24. This should ensure that overall value for money is achieved and that the disposal is effectively and properly done. Overall value for money goes beyond maximising proceeds by including the impact of effective public service delivery. Disposal of land by local authorities is governed by section 123 of the Local Government Act 1972. Local authorities may dispose of land in any manner they wish: my right hon. Friend The Deputy Prime Minister's only involvement is to grant or withhold consent where authorities wish to dispose of land at less than the best consideration reasonably obtainable and the proposed disposal falls outside the scope of the General Consent in The Office of the Deputy Prime Minister Circular 06/2003. The rules on disposal do not, therefore, directly address issues of sustainability. These would be considered as part of the project appraisal or reasons for disposing of the land.

CULTURE, MEDIA AND SPORT

Historic Wrecks

Mr. Steen: To ask the Secretary of State for Culture, Media and Sport what steps she is taking to enlist the help of vocational divers in South Devon in investigating historic wrecks off the South Devon Coast. [145774]

Mr. Caborn: My right hon. Friend the Secretary of State has no specific plans for vocational divers in South Devon. The Department has enabled the development and implementation of English Heritage's initial policy for maritime archaeology, Taking to the Water, which clearly states the desirability of engaging with the sport diving and wider communities. Any proposals for initiatives can be made directly to English Heritage where they will be considered according to national priorities and subject to available resources. English Heritage are already encouraging sport diving initiatives in the Solent, the North East and the Isles of Scilly together with providing support for an England-wide training programme and shipwreck projects through the Nautical Archaeology Society.

Mr. Steen: To ask the Secretary of State for Culture, Media and Sport what considerations resulted in her Department stopping vocational divers investigating *(a)* the wreck of a suspected Barbary pirate ship off Gara rock in South Devon and *(b)* the Salcombe Canon site shipwreck. [145775]

Mr. Caborn: The sites referred to as *(a)* and *(b)* are the same site designated under the Statutory Instrument 1997/2536, known as the Salcombe Cannon Site. The reference to the suspected Barbary pirate ship has arisen after research has shown that Barbary pirates were active around the period of the ship wreck in the area of Salcombe. Since designation the Secretary of State has issued licences to survey, surface recover and excavate the site. At the time of writing there are no current licences on this site, as there has been no application made to the Secretary of State. The issuing of licences since 1997 has enabled continued investigation of this site by vocationally based teams backed up by professional archaeological advice. Over the last 18 months this system has been supported by English Heritage. The Government's contractor for archaeological services in support of the 1973 Act has also visited this site and

others in South Devon this summer, managed by English Heritage and fully involving the divers licensed to investigate the sites.

Mr. Steen: To ask the Secretary of State for Culture, Media and Sport what the role is of English Heritage regarding applications for licences to investigate shipwrecks off the South Devon coast. [145819]

Mr. Caborn: English Heritage's role is to carry out administrative functions exercisable by my right hon. Friend the Secretary of State under the 1973 Act. English Heritage considers the merits of each case, consults the Advisory Committee on Historic Wreck Sites, the archaeological diving contractor and other interested parties as appropriate, before submitting a report and recommendation to the Secretary of State.

Mr. Steen: To ask the Secretary of State for Culture, Media and Sport what the additional cost to public funds is of involving English Heritage in the process of licensing historic wreck sites; and what the advantages are. [145820]

Mr. Caborn: The transfer of responsibility for licensing designated wreck sites and acting as secretariat to the Advisory Committee on Historic Wreck Sites to English Heritage has resulted in no additional cost to public funds. The administrative budget hitherto spent by this Department on these activities was transferred to English Heritage in 2003.

Benefits from the transfer include greater specialist expertise in the decision-making process and the management of protected wreck sites. Underwater archaeology projects are also now able to compete on equal terms with land archaeological projects for English Heritage grants.

INTERNATIONAL DEVELOPMENT

IT Contracts

Mr. Sayeed: To ask the Secretary of State for International Development if he will list information technology contracts in his Department with a value of above £20 million in each of the last 10 years; what the inception date for each system was; when it became fully functional; when it became fully debugged; and what the cost of over-runs has been. [146199]

Hilary Benn: The Department for International Development has had no information technology contracts above £20 million in the last 10 years. Our new systems and IT infrastructure upgrades have generally been modest in scope and incremental in nature. This has helped to reduce the potential risks and allowed us to stay generally on schedule and within budget.

South Africa

Hugh Bayley: To ask the Secretary of State for International Development what assessment the Government have made of the impact of reducing aid to South Africa. [146162]

Hilary Benn: South Africa is not dependent on financial transfers from international donors—aid from all donors represents less than 1 per cent. of the country's annual budget. Donors' contribution to development in South Africa is in the form of technical assistance to build capacity to develop and implement pro-poor policies. DFID has contributed more than £200 million in technical assistance to South Africa in the 10 years since the democratic transition there. Figures for annual spending since 1998–99 and plans up to 2005–06 are shown as follows. As shown, and in line with our overall strategy on assistance to middle income countries, we are planning a reduction in planned expenditure for the year beginning April 2005. We are discussing with the South African government how to manage this. We will continue to maintain a substantial programme there in recognition of the poverty problems inherited from the apartheid period, the growing spread of HIV/AIDS, and the critical importance of successful transition in South Africa for the prospects of sub-Saharan Africa as a whole.

DFID-SA bilateral spending on Southern Africa MICs

£ millions

	South Africa	*Botswana*	*Namibia*	*Swaziland*	*Total*

NORTHERN IRELAND

Hospital Trolley Waits

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many hospital trolley waits there were in Northern Ireland in *(a)* 2000, *(b)* 2001, *(c)* 2002 and *(d)* 2003; and how many there were in December of each year. [146305]

Angela Smith: Trolley wait information is returned to the Department in two different forms, on a quarterly basis and on a daily basis.

The total number of hospital trolley waits is reported to the Department by Trusts on a quarterly basis.

Number of hospital trolley waits recorded in Northern Ireland—1999–2000 to 2002–03

Financial Year	*Trolley Waits*
1999–2000	63,325
2000–01	75,879
2001–02	77,418
2002–03	96,382

Note:
In a small number of cases Trusts have returned data for a representative sample of trolley waits.
Source:
Departmental Information Return CH10

The Department also receives daily returns (Monday to Friday) on the number of trolley waits based on a snapshot taken at 9.00 a.m. in each accident and emergency department across Northern Ireland.

Number of hospital trolley waits recorded in Northern Ireland each December 2000 -03

December	*Trolley waits*
2000	Not available
2001	797
2002	915
2003	1,450

Note:
This information shows a snapshot of the number of trolley waits at 9.00 a.m. each week day morning.

Daily Service Pressures Report

Ports

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many tourists *(a)* in vehicles and *(b)* as foot passengers passed through (i) Larne and (ii) Belfast ports in each of the last five years. [144267]

Mr. Pearson: The information requested on the number of tourists passing through the Ports of Larne and Belfast is not available in the form requested in the question.

However, the Northern Ireland Tourist Board's Passenger Survey provides some information on the number of tourists passing through the Ports of Larne and Belfast. The survey identifies visitors (non-Northern Ireland/Republic of Ireland residents) who stay at least one night in Northern Ireland and exit via the Ports of Larne or Belfast. The survey does not break down the figures by foot and vehicle passengers. The results of the survey are provided in the following table:

Visitors staying at least one night in Northern Ireland and exiting via the ports of Larne or Belfast 1998–2002

	Larne	*Belfast*
2002	124,000	288,000
2001	101,000	357,000
2000	100,000	375,000
1999	121,000	375,000
1998	118,000	296,000

CONSTITUTIONAL AFFAIRS

Asylum

Mr. John Burnett: To ask the Secretary of State for the Home Department what discussions he has had with the judiciary about the power of Parliament to oust the jurisdiction of the courts in exercising a supervisory or other jurisdiction in relation to the Asylum and Immigration Tribunal. [145640]

Mr. Lammy: As part of the policy development process we have spoken to representatives of the senior judiciary and they are aware of the changes we plan to make to the system. As with much policy development, this consultation was undertaken in confidence and so I am not in a position to make the discussions or the outcomes public.

Mr. Russell Brown: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the *(a)* overall cost per annum and *(b)* average cost per case was for legal aid for asylum cases in each of the last five years. [145795]

Mr. Lammy: The Legal Services Commission is not able to provide the information in the format requested, as it does not differentiate asylum from wider immigration cases.

The overall costs for immigration and asylum advice, assistance and representation over the last five years in England and Wales are as follows:

Year	*£ million*
1998–99	53.3
1999–2000	61.4
2000–01	81.1
2001–02	129.4
2002–03	176.2

The Commission's systems do not record expenditure in such a way as to enable a figure to be provided for the year-on-year, average costs per asylum case.

Civil Servants

Tim Loughton: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many senior civil servants in his Department are disabled, expressed in *(a)* numbers and *(b)* as a percentage of whole-time equivalents. [144975]

Mr. Lammy: Statistical information about senior civil servants with disabilities is available on the Civil Service Statistics web-site at http://www.civil-service.gov.uk/statistics/documents/pdf/disability-oct03.pdf

As there are fewer than 5 members of the senior civil service in my department with a disability, the actual number is not published in order to protect the privacy of the individual in line with exemption 12 of the 'Code of Practice on Access to Government Information'.

FOREIGN AND COMMONWEALTH AFFAIRS

Departmental Advertising

Miss Kirkbride: To ask the Secretary of State for Foreign and Commonwealth Affairs how much has been spent on recruitment advertisements in the press, broken down by publication, by *(a)* his Department, *(b)* quangos under the Department and *(c)* non-departmental Government bodies under the Department (i) in the last year and (ii) since 1997. [145801]

Mr. Rammell: The information is as follows:

Note:
We advertise widely for jobs in the Diplomatic Service and specialist positions, as well as general careers advertisements placed in diversity publications and websites. The placement of adverts is reviewed regularly according to the nature of the position, cost and response from previous advertisements. The above breakdown for the years 1997–2002 could be provided only at disproportionate cost.

Departmental Expenditure

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what the total expenditure on *(a)* information campaigns and *(b)* advertising was for his Department for each year since 1997. [145405]

Mr. Straw *[holding answer 6 January 2004]:* The Foreign and Commonwealth Office's planned expenditure on information campaigns in financial year 2003–04 is £6,485,000.00, which includes:

£1.9 million on a "Think UK" campaign in China, plus £360,000 for the development of campaigns in Central Europe (partnerships with accession states) and North America (UK Science and Technology) to run in 2004;

A £2.4 million public diplomacy challenge fund which will support 81 projects in 51 different countries;

£825,000 on a major FCO web infrastructure project, which includes www.i-uk.com; a central portal site to promote the UK overseas jointly with our public diplomacy partners (British Council, UK Trade and Investment and VisitBritain);

£600,000 on generic public diplomacy publications.

£200,000 for public diplomacy activity promoting the UK's science and technology achievements overseas.

£200,000 to raise public awareness within the UK of the benefits and opportunities of EU enlargement.

In addition, the FCO provides grant-in-aid of:

£166.04 million to the British Council

£220 million to the BBC World Service

In the year 2002–03 the Foreign and Commonwealth Office's separately identifiable expenditure on advertising totalled £602,670. The bulk of this comprised of media spend for consular publicity campaigns, which are aimed at encouraging UK travellers to be better prepared before going overseas, and advertising for recruitment purposes.

In the year 2003–04 planned separately identifiable expenditure on advertising totals £317,000.

I refer the right hon. Gentleman to the answer my hon. Friend the Parliamentary Under-Secretary of State at the Foreign and Commonwealth Office (Bill Rammell) gave to the hon. Member for Bromsgrove (Julie Kirkbride), today (UIN145801) for details of expenditure on recruitment advertisement between April 2002 and March 2003.

To provide a breakdown of expenditure each year since 1997 could be provided only at disproportionate costs.

Israel

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs how the UK voted on UN General Assembly Resolution 144–4 which demanded that Israel stop and reverse construction of the separation wall. [146207]

Mr. Rammell: The UK, in common with EU Partners, voted in favour of a UN General Assembly Resolution on 21 October 2003 demanding that Israel stop and reverse the construction of the wall.

DEFENCE

Body Armour

Mr. Gerald Howarth: To ask the Secretary of State for Defence if he will make a statement on the whereabouts of the sets of body armour bought since 1999. [145642]

Mr. Ingram: I will write to the hon. Member and a copy of my letter will be placed in the Library of the House.

HMS Bridport

Mr. Gerald Howarth: To ask the Secretary of State for Defence whether HMS Bridport will be made available for use by sea cadets. [145647]

Mr. Ingram: There are no plans to make HMS Bridport available for use by sea cadets.

Iraq

Dr. Murrison: To ask the Secretary of State for Defence what plans he has to upgrade the living accommodation of service personnel in Iraq. [141061]

Mr. Ingram: A programme of improvements is underway. Hard-walled accommodation for 3,000 personnel who had previously been in tented accommodation has been moved to Iraq. We have also supplied and are in the process of installing air conditioning for all the accommodation used by UK forces personnel.

Adam Price: To ask the Secretary of State for Defence how much has been paid to Iraqi families by the Government following incidents involving fatalities allegedly involving British forces since 1 May 2003. [141690]

Mr. Ingram: United Kingdom authorities have paid £8,125 to Iraqi families following alleged fatalities involving British forces since the 1 May 2003.

Medical Supplies Agency

Bob Russell: To ask the Secretary of State for Defence (1) what plans he has to change the system of budget and stock controls undertaken by *(a)* the Medical Supplies Agency and *(b)* military units whom they serve in the ordering, delivery, storage and use of materials, equipment, drugs and other medical items; and if he will make a statement; [145346]

(2) what budget and stock controls are undertaken by *(a)* the Medical Supplies Agency and *(b)* military units whom they serve in the ordering, delivery, storage and use of materials, equipment, drugs and other medical items; and if he will make a statement. [145347]

Mr. Caplin: The Medical Supplies Agency (MSA) budget and stock controls are governed by HM Treasury direction on accounts prepared to comply with Government Resources and Accounts Act 2000, MOD

Financial Management Policy contained in JSP 462 and MOD Resource Accounting Policy contained in JSP 472. There are currently no plans to change these procedures.

MSA produce Agency Annual Accounts audited by the National Audit Office, the most recent Accounts for financial year 2002–03 were laid before Parliament on 16 July 2003 under reference number HC 805.

MSA is not responsible for the internal budget and stock controls in respect of the military units whom they serve.

Bob Russell: To ask the Secretary of State for Defence what his proposals are for the future of *(a)* medical distribution centres and *(b)* the Medical Supplies Agency. [145348]

Mr. Caplin: No decisions or any proposals for the future of *(a)* medical distribution centres or *(b)* the Medical Supplies Agency have been taken.

A review is being undertaken and is expected to conclude in the near future. A further announcement will be made to the House when appropriate.

Reservists

Mr. Hancock: To ask the Secretary of State for Defence what briefings are given to reservists on the Reserve Forces (Safeguard of Employment) Act 1985. [146182]

Mr. Caplin: When called-out, reservists are provided with a copy of Joint Service Publication (JSP) 532 Guidance for reservists returning to civilian employment following a period of mobilised service. This publication explains the re- employment rights of reservists and, if necessary, how to go about formally seeking reinstatement under the Reserve Forces (Safeguard of Employment) Act 1985.

SA80 Rifles

Mr. Liddell-Grainger: To ask the Secretary of State for Defence how many modifications have been carried out to the SA80 rifle in the last five years. [145743]

Mr. Ingram: In the last five years the SA80 has been subject to a major modification programme to improve its reliability by either replacing or reengineering components. Work began in 2001 and is scheduled to be completed by May 2006. Approximately 93,000 modified weapons have been issued to date. The basic design and concept of the modified SA80—the SA80 A2—remains the same, but there are significant engineering improvements to the internal gas systems, firing pin, bolt, hammer and barrel. The cocking lever has been redesigned to deflect spent cases and reduce the chance of stoppages, and the new magazine is more reliable and robust. Work has also been undertaken on the safety catch/plunger, and following successful trials of a revised safety plunger during Op TELIC, a contract will be let shortly to procure a sufficient quantity to modify all weapons.

The modification programme also includes enhanced ancillaries. An Operational Cleaning Kit has been developed which enables the user to undertake an operational clean without dismantling the weapon. This is being issued to all troops deployed on Op TELIC in the infantry role.

Ships (Pay-off Dates)

Mr. Gerald Howarth: To ask the Secretary of State for Defence what the pay-off dates are for *(a)* HMS Sovereign, *(b)* HMS Superb, *(c)* HMS Spartan, *(d)* HMS Sceptre, *(e)* HMS Invincible, *(f)* HMS Newcastle, *(g)* HMS Cardiff, *(h)* HMS Glasgow, *(i)* HMS Liverpool, *(j)* HMS Exeter, *(k)* HMS Southampton, *(l)* HMS Nottingham, *(m)* HMS Manchester, *(n)* HMS Gloucester, *(o)* HMS Edinburgh and *(p)* HMS York. [145652]

Mr. Ingram: The present planned decommissioning dates for each of the Royal Navy vessels listed are given in the following table.

HMS	*Year*
Swiftsure Class submarine:	
Sovereign	2006
Superb	2008
Spartan	2006
Sceptre	2010
Invincible Class aircraft carrier:	
Invincible	2010
Type 42 Destroyer:	
Newcastle	2007
Cardiff	2008
Glasgow	2009
Liverpool	2009
Exeter	2010
Southampton	2011
Nottingham	2012
Manchester	2012
Gloucester	2013
Edinburgh	2014
York	2013

Type-45 Destroyer

Mr. Gerald Howarth: To ask the Secretary of State for Defence what major design modifications have been made to the hull of the Type 45 destroyer in the past two years. [145643]

Mr. Ingram: None.

HOME DEPARTMENT

Corporate Killing

Chris Grayling: To ask the Secretary of State for the Home Department whether it is his policy that the forthcoming Bill on corporate killing should encompass pharmacovigilance. [145220]

Paul Goggins: The Government is committed to reforming the law on involuntary manslaughter to make it more effective in convicting companies and other organisations of manslaughter where a death has occurred due to systemic management failure. We will publish our proposals in more detail in due course.

Elder Abuse

Sandra Gidley: To ask the Secretary of State for the Home Department whether the Government uses a formal definition of elder abuse. [145630]

Dr. Ladyman: I have been asked to reply.

Statutory guidance, "No secrets", issued by the Home Office and the Department of Health in 2000 defines abuse of vulnerable adults as a violation of an individual's human and civil rights by any other person or persons. It goes on to say that abuse may consist of a single act or repeated acts and can manifest itself as physical abuse, sexual abuse, psychological abuse, financial or material abuse, neglect and acts of omission, and discriminatory abuse.

Anti-social Behaviour Act

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department when the powers contained in the Anti-social Behaviour Act 2003 will be available to the police. [146312]

Ms Blears: All of the measures in the Anti-social Behaviour Act 2003 will need to be commenced by Order.

The first set of measures will be commenced under The Anti-social Behaviour Act 2003 (Commencement No. 1 and Transitional Provisions) Order 2003 (Statutory Instrument 2003 Number 3300 (C.130)) made on 17 December 2003. This brings into force a number of the provisions of the Anti-social Behaviour Act 2003 on 20 January 2004 and 27 February 2004.

Orders commencing the remaining measures in the Act will come into effect before the end of 2004. We will be publishing a detailed timetable giving the dates for the commencement of the remaining sections of the Anti-social Behaviour Act 2003 shortly.

Asylum Seekers

Mr. Love: To ask the Secretary of State for the Home Department (1) what *(a)* services and *(b)* support the Government is providing to young female asylum seekers who are pregnant through (i) rape and (ii) sexual assault to (A) prevent their isolation and (B) aid their participation in community life; [144503]

(2) what *(a)* services and *(b)* assistance the Government is providing for young female asylum seekers arriving in the United Kingdom who are pregnant as a result of (i) rape and (ii) sexual assault in their country of origin. [144504]

Beverley Hughes: Anyone who has lodged a formal application for asylum in the United Kingdom is entitled to access health services. Health assessments are offered in induction centres to allow early identification of health care needs and in the event that an asylum seeker is dispersed, they will take with them a patient handheld record which health professionals can access. Asylum seekers housed in emergency accommodation pending dispersal also have access to health services. If an individual case is referred to and accepted by the Medical Foundation then they will normally be able to remain in London to access the specialist care that only the Foundation can provide.

On arrival in a dispersal area, advice is provided to help applicants access local services, including medical facilities. In the case of a pregnant woman she will be given appropriate ante-natal care by the local Primary Care Trust. She will also be entitled to access those services which are generally available to women who have been raped. NASS's policy of dispersal according to language seeks to ensure that individuals are not isolated without any support from their community. We also encourage the active participation of asylum seekers in community life through, for example, our Purposeful Activities Scheme and through volunteer and mentoring schemes.

People who arrive in the United Kingdom alone and are under 18 will be treated as unaccompanied asylum seeking children and will be cared for by local social services departments. There they will be entitled to the same care for pregnancy and trauma as any other child in that situation.

In the event that an asylum seeker is raped or sexually assaulted in the United Kingdom then she is entitled to the same protection under the law as anyone else. She would also be offered access to available victim support and counselling services to deal with the consequences of an assault, such as trauma and pregnancy.

Domestic Violence

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on the policies in place to tackle domestic violence. [146269]

Mr. Blunkett: This Government are determined to tackle domestic violence. As part of our overall strategy we have introduced the Domestic Violence, Crime and Victims Bill which will ensure an effective police response when victims report domestic violence, and make sure that the civil and criminal law offer the maximum protection to all victims to stop the violence recurring.

The main measures relating to domestic violence in the Bill are: making breach of a non-molestation order a criminal offence; making common assault an arrestable offence; enabling courts to impose restraining orders when sentencing for any offence, and on acquittal for any offence if the courts consider it necessary to protect the victim; extending access to non-molestation and occupation orders to same-sex couples and couples who have never cohabited or been married; and issuing guidance to agencies on holding multi-agency reviews following domestic violence homicides.

We recognise that legislation alone cannot deliver improvements to services that victims need. The Inter-Ministerial Group on Domestic Violence will, over the next two years and beyond, oversee a programme of work which focuses on prevention, protection and justice, and support. Among other things, we will be looking at education and tackling risk factors, improving the police and CPS handling of domestic violence cases, delivering new refuge places and providing help and advice to those victims who wish to stay in their own homes. Further details can be found in the Summary of Responses to "Safety and Justice: the

Government's Proposals on Domestic Violence", copies of which can be found in the House of Commons Library.

Elderly Prisoners

Sandra Gidley: To ask the Secretary of State for the Home Department (1) what plans he has to develop a national strategy to deal with elderly prisoners; [145625]

(2) if he will make a statement on prison resources directed at the rehabilitation of prisoners aged 65 years and above. [145632]

Paul Goggins: At the present time there are no plans for the Prison Service to put in place a separate national strategy for older prisoners. The current policy is to assess all prisoners' individual needs through sentence planning. This includes taking account of any requirements related to a prisoner's age.

There are no specific resources allocated to the rehabilitation of older prisoners. However through a system of sentence planning, the Prison Service ensures that all prisoners undertake activities necessary to reduce their risk to the public on release and provides any necessary resettlement support.

Gloucester Prison

Mr. Drew: To ask the Secretary of State for the Home Department if he will make a statement on the reasons for admitting young offenders to HMP Gloucester following the announcement of closure of Ashfield Young Offender Institution. [144960]

Paul Goggins: The allocation of Young Adult Offenders (YAOs) aged 18–20, into Gloucester prison forms part of the ongoing programme to adjust the population mix of adult and young prisoners at a number of establishments. This is in response to the requirements of the Youth Justice Board for juvenile places and to increasing demand for spaces for adult male prisoners. This will be achieved through careful monitoring of population changes and the allocation of prisoners to establishments appropriate to their needs. It will also ensure maximum use of all available spaces in the prison estate, while minimising the distance of remand prisoners from the courts. This will enable the Prison Service to maintain its service to the courts despite the population pressures.

Ashfield prison is not being closed, but will instead only hold young prisoners, aged 15–17. Gloucester and other prisons in the area will hold remand and sentenced YAOs. Sentenced YAOs returning from court will be held at Gloucester for the minimum time possible before being transferred on to other establishments with YAO regimes.

Mr. Drew: To ask the Secretary of State for the Home Department what the reasons are for the delay by the Director General of the Prison Service in replying to correspondence from the Independent Monitoring Board Chairman following the decision to re-admit young offenders to Gloucester prison. [144961]

Paul Goggins: The Director General of the Prison Service replied to the Chairman of the Independent Monitoring Board for Gloucester prison on 2 December 2003.

Juvenile Offenders (Education)

Dr. Vis: To ask the Secretary of State for the Home Department how many children in prison were awarded GCSEs in 2003. [145091]

Paul Goggins: In 2003 young people in juvenile establishments achieved 189 GCSEs.

Because the majority of learners in juvenile establishments have very low levels of basic skills, a national curriculum model is not necessarily appropriate for them.

Prisons

Mr. Oaten: To ask the Secretary of State for the Home Department how many seizures of alcohol were made in prisons in the last two years, broken down by month; and what estimate his Department has made of the quantity of alcohol produced illicitly within prisons in that period. [144270]

Paul Goggins: This information is not recorded centrally and its collection could be achieved only at disproportionate cost.

The Prison Service is currently developing an Alcohol Strategy, which is expected to be finalised by March 2004. This will include a system for appropriate data to be collected centrally in order to assist the effective monitoring of performance and security.

Mr. Oaten: To ask the Secretary of State for the Home Department what proportion of *(a)* men and *(b)* women received into prisons in the last 12 months have been sentenced to immediate custody following breach of a community order. [144273]

Paul Goggins: According to sentencing data, 7,825 males were sentenced to immediate custody in England and Wales in 2002 following a breach of a community sentence which represents 9 per cent. of prison receptions under sentence during 2002. For females the corresponding figures are 904 and 12 per cent.

Information on the numbers received into prison because they have breached a community sentence is not comprehensively recorded in the prisons data, as prisoners may be recorded under the nature of their original offence.

Mr. Oaten: To ask the Secretary of State for the Home Department how many added days were awarded as punishment for *(a)* drug offences and *(b)* other disciplinary offences in prisons in England and Wales in each year since 1997; and at what cost. [143384]

Paul Goggins: Information on the use of added days awarded as punishment for drugs offences and other disciplinary offences in 1997 to 2002 is published in table 8.5 in Prison Statistics England and Wales, 1997 to 2002.

Copies of Prison Statistics England and Wales are available in the Library.

Costs of adjudications are not held centrally.

Sentencing Guidelines Council

Dr. Kumar: To ask the Secretary of State for the Home Department if he will make a statement on the membership, role and functions of the proposed Sentencing Guidelines Council; and what plans he has to ensure that there are representatives on the Council from all Government regions. [144743]

Paul Goggins: The composition and functions of the Sentencing Guidelines Council are defined by the Criminal Justice Act 2003. The Council will be responsible for setting guidelines for the full range of criminal offences and on general sentencing matters. These guidelines will apply to all courts.

The range of offending behaviour covered by an offence is usually very wide. The guidelines will help to ensure that there is a clear starting point for sentence and agreed aggravating and mitigating factors. The purpose of creating the Council is to achieve greater consistency of sentencing throughout England and Wales.

The Council will consist of the Lord Chief Justice, seven judicial members appointed by the Lord Chancellor and four non-judicial members appointed by the Home Secretary. Non-judicial members are eligible for appointment if they have experience in one or more of the following areas:

Policing

Criminal prosecution

Criminal defence

The promotion of the Welfare victims

The criteria for membership are defined in the Act; these do not include any reference to Government Regions.

Sexual Assaults

Mr. Cousins: To ask the Secretary of State for the Home Department how many sexual assault referral centre pilots there are; what assessment has been made of them; if he will make a statement on the new round of bids for support for such centres; and whether existing pilot sites can apply for expansion. [141197]

Paul Goggins: The Government are aware of seven existing sexual assault referral centres (SARCs). These are not pilot schemes; but are local initiatives that have been established jointly by the police and local health organisations.

The Home Office has funded research to establish the effectiveness of SARCs by evaluating three existing centres. Research findings will be available in spring of next year.

The Home Office recently made funds available from the crime reduction programme to support the development of sexual assault referral centres. In September, police forces were invited to bid for this funding.

Funding was prioritised for the establishment of new SARCs, however forces with existing SARCs were also eligible to apply.

Bids were received from 18 police forces. Successful police forces have been notified.

Allocations will be announced in the near future.

Sudbury Prison

Mr. McLoughlin: To ask the Secretary of State for the Home Department (1) how many prisoners at HM Prison Sudbury have absconded during *(a)* 2003 and *(b)* 2002. [141398]

(2) how many prisoners who absconded from HM Prison Sudbury during *(a)* 2003 and *(b)* 2002 have not been recaptured; [141263]

(3) how long it took to recapture each prisoner who absconded from HM Prison Sudbury during *(a)* 2003 and *(b)* 2002; [141264]

(4) how many of the prisoners at HM Prison Sudbury who absconded during *(a)* 2003 and *(b)* 2002 were convicted of (i) murder, (ii) grievous bodily harm and (iii) sexual offences; [141400]

(5) how many of those who absconded from HM Prison Sudbury during *(a)* 2003 and *(b)* 2002 committed further offences for which they have been charged during the period of time they were away from the prison; and with what offences they were charged. [141262]

Paul Goggins: The figures given relate to financial years. In 2002–03 the number of prisoners who absconded from HMP Sudbury was 67. Of these seven have not yet been recaptured. As at 1 December 2003, 56 prisoners had absconded from Sudbury during 2003–04. Of these, 14 have not yet been recaptured. All prisoners who are recaptured after absconding from open prisons like Sudbury are immediately returned to closed establishments.

The following two tables set out the length of time taken to recapture these prisoners, and the number of abscondees serving sentences for murder, grievous bodily harm and sex offences.

Unlawfully at large	*April 2002–03*	*April 2003 to date*
1 day	7	11
2–5 days	12	10
6–10 days	3	3
11–20 days	6	5
21–30 days	7	3
31–50 days	11	6
51–100 days	10	2
101–200 days	4	1
201–300 days	0	1
Over 300 days	0	0
Still unlawfully at large	7	14
Total	67	56

Offence	*2002–03*	*2003–04 to date*
Murder	2	5
GBH	3	6
Sex offences	0	0

Information on offences committed by prisoners during their period at large is not held in the form requested. As prisoners recaptured after absconding

from Sudbury would immediately be sent to a closed establishment, Sudbury would not be informed of the subsequent convictions of those who had previously absconded.

Restraining Orders

Mr. Mark Oaten: To ask the Secretary of State for the Home Department how many restraining orders have been issued by the courts in each of the last five years. [143389]

Paul Goggins: Restraining orders for sexual offenders came into force on 1 June 2001 under the Sex Offenders Act 1997 as amended by the Criminal Justice and Court Services Act 2000. 17 restraining orders were issued by the courts between 1 June 2001 and 31 December 2002. Figures for 2003 will not be available until next year.

Suicide

Dr. Vis: To ask the Secretary of State for the Home Department (1) how many people have been prevented from committing suicide in 2003; [145088]

(2) how many people are in a persistent vegetative state as a result of attempting to hang themselves in prisons. [145092]

Paul Goggins: The Prison Service is aware of one case of a prisoner in a persistent vegetative state as a result of attempting to hang themselves in prison. Prison Health (now a part of the Department of Health) do not collate this information centrally.

In 2003 (to 31 October), 176 prisoners in England and Wales have been resuscitated following acts of self-harm, which reflect a considerable amount of staff effort and expertise. Many more prisoners are supported through periods of crisis with the help of numerous agencies and support mechanisms available to them in custody. All prisons offer access to the Samaritans, and most prisons operate peer support schemes, most commonly the Samaritans Listener Scheme. Further avenues of support include counselling and help with a range of issues including: substance misuse, healthcare, mental health problems and contact with home.

Young Offenders

Miss McIntosh: To ask the Secretary of State for the Home Department how many *(a)* assaults on officers and *(b)* other assaults took place at Her Majesty's Young Offenders Institution Wetherby was in (i) 1999–2000 and (ii) 2000–01. [145651]

Paul Goggins: The numbers of assaults on staff, on trainees and on others at Wetherby for each of the two years are shown in the table below. The figures held for assaults on staff do not distinguish how many of the assaults were on Prison Officers specifically.

The figures for serious assaults, i.e. those resulting in the victim receiving medical treatment, are shown in brackets.

Figures for serious assaults

	Number of assaults on staff	*Number of assaults on trainees*	*Number of assaults on others*
April 1999 to March 2000	24 (0)	119 (4)	2 (0)
April 2000 to March 2001	45 (2)	84 (2)	6 (0)

Dr. Vis: To ask the Secretary of State for the Home Department what steps are being taken to ensure six hours of purposeful activity and a minimum of 10 hours out of cell per day for child prisoners held in segregation. [145095]

Paul Goggins: Children held in segregation units in young offender institutions must be given access to education, training, work and physical education. They will be given as much access to those and other out-of-cell activities as is practicable, taking into account the reasons for the segregation and the risks in each case as well as the facilities and resources available locally.

Written Answers to Questions

Thursday 8 January 2004

TREASURY

Illegal Meat Imports

Laura Moffatt: To ask the Chancellor of the Exchequer what progress has been made in intercepting illegally imported meats in the luggage of travellers entering the UK. [146373]

John Healey: Customs took over enforcement responsibility for imported products of animal origin (POAO), including meat, on 11 April 2003 and have made good progress in fulfilling their obligations under the Government's Action Plan 2003–04 On Illegal Imports Of Meat, Other Animal Products, Plants, And Plant Products.

A letter to stakeholders, prepared by Defra in conjunction with Customs, sets out progress against all aspects of the action Plan. It can be found on the Defra website at: www.defra.qov.uk/animalh/illeqali

I have placed a copy in the Library of the House.

Information for preceding years was submitted by Defra in its "Annual Review of Controls on Imports of Animal Products: April 2002—March 2003", a copy of which is also available in the Library of the House.

Industrial and Provident Societies

Mr. Gardiner: To ask the Chancellor of the Exchequer what timetable the Treasury has set for reviewing the audit requirements for industrial and provident societies once the Department of Trade and Industry has completed its review of company law. [145525]

Mr. Love: To ask the Chancellor of the Exchequer (1) what proposals he has to amend industrial and provident society legislation to make it consistent with existing company law; and if he will make a statement; [145372]

(2) what steps he has taken to review the law relating to industrial and provident societies; and if he will make a statement; [145495]

(3) what plans he has to bring forward proposals to update legislation relating to industrial and provident societies; and if he will make a statement. [145496]

Ruth Kelly: The Government are keen to see, where appropriate, a level playing field between industrial and provident societies and companies. We are currently examining our options for taking forward this agenda. However, in order to provide for a strategic, consistent and up-to-date approach between companies and societies, the Government believe that the general modernisation of industrial and provident society legislation in this area should be considered in the light of the DTI's planned major reform of company law, announced in the "Modernising Company Law" White Paper published in July 2002. The timetable for reviewing the audit requirements will be determined by the timetable for the review of company law.

Leeds, North-West

Mr. Best: To ask the Chancellor of the Exchequer what estimate he has made of the number of families in the Leeds, North-West constituency who will benefit from the child trust fund. [146205]

Ruth Kelly: All eligible children born since 1 September 2002 in families awarded child benefit will receive a child trust fund (CTF). Based on take-up of child benefit, it is estimated that virtually all children born will receive a CTF. Projected birth figures by Parliamentary constituency are not available, although figures for actual births and numbers receiving child benefit by parliamentary constituency are available in the House of Commons Library.

The CTF is intended to encourage parents and children to develop the savings habit. It will ensure that every child, whatever their family background, will have access at the age of 18 when they begin their adult life, to a stock of assets which they can invest in their future.

It will also help children and their parents to understand the benefits of saving and investment and how to engage with financial institutions.

Leyton Sixth Form College

Harry Cohen: To ask the Chancellor of the Exchequer whether it is his policy that the additional sum for research and development announced in his pre-Budget report will be filtered down to local colleges which have good science study courses; whether he expects Leyton Sixth Form College to gain from the additional funds; and if he will make a statement. [146358]

John Healey: The additional spending on research and development announced in the pre-Budget report 2003 arose from improvements to the R&D tax credits schemes for both small and large companies.

The improvements included a new draft definition of R&D and an extension of qualifying costs. These changes will give companies greater clarity and certainty, as well as broadening the scope of expenses on which the credit can be claimed.

The pre-Budget report also set out the main findings of the Lambert Review into the links between universities and businesses in the UK and the significant benefits to be gained from greater collaboration. Key recommendations included a new funding stream for business-relevant research and the encouragement of new forms of networks between business people and academics. The Government will make a full response to the recommendations by summer 2004.

Mutual and Co-operative Businesses

Mr. Drew: To ask the Chancellor of the Exchequer what plans he has to change the tax regime for mutual and co-operative businesses. [146497]

Dawn Primarolo: The Government keep all taxes under review and any changes are announced as part of the normal Budget process.

Offshore Tax Havens

Harry Cohen: To ask the Chancellor of the Exchequer what estimate he has made of tax revenue lost to the UK Exchequer in each of the last five years due to tax policies of the administrations of *(a)* the Channel Islands, *(b)* the Isle of Man, *(c)* the Cayman Islands, *(d)* Bermuda and *(e)* other Caribbean islands for which the UK Government has a responsibility; and if he will make a statement. [146360]

Dawn Primarolo: There is no reliable measure of total tax revenue lost to the UK Exchequer as a result of the tax policies of the administrations of the Crown Dependencies and Overseas Territories. However, in order to minimise tax lost, or at risk, the UK is committed to encouraging the Crown Dependencies and Overseas Territories to match international standards on exchange of information for tax purposes and on fair tax competition and welcomes progress that has been made so far.

The Government also remain determined to take necessary steps domestically to protect tax revenues and have, for example, introduced legislation to counter various offshore avoidance schemes, and are funding additional activity by the Inland Revenue aimed at tackling the exploitation of offshore trusts.

Pre-Budget Report Summary Leaflet

Mr. Prisk: To ask the Chancellor of the Exchequer how many postal addresses in the UK have been sent *(a)* a copy and *(b)* multiple copies of the Pre-Budget Report Summary Leaflet, The Strength to Take the Long-Term Decisions: Seizing the Opportunities of the Global Recovery, of December; and what the total cost of postage was to his Department. [145443]

Ruth Kelly *[holding answer 5 January 2003]:* Individual copies of the 2003 Pre-Budget Report leaflet were distributed to around 4,000 addresses. Multiple copies were distributed to around 30,000 addresses. The costs of postage are included in the costs of distribution which I gave in an answer to the hon. Gentleman's Question 145445.

Mr. Prisk: To ask the Chancellor of the Exchequer what the total cost was of *(a)* printing and *(b)* distributing the Pre-Budget Report Summary Leaflet, The Strength to Take the Long-Term Decisions; Seizing the Opportunities of the Global Recovery. [145445]

Ruth Kelly *[holding answer 5 January 2004]:* The total printing cost for the 2003 Pre-Budget Report leaflets was around £75,000 and the distribution cost was approximately £110,000.

All costs have been met from within the Treasury's Departmental Expenditure Limits.

Red Diesel

Mr. Mike Hancock: To ask the Chancellor of the Exchequer how many prosecutions there have been in each of the last five years for which there are records for *(a)* the production and *(b)* the use of red diesel on which duty has not been paid; what the amounts of duty involved were; and what penalties were imposed on those convicted. [145484]

John Healey: HM Customs and Excise's prosecution figures for Hydrocarbon Oil fraud over the past three years, including the number of convictions and the average sentence, are set out in their Annual Report (HC 52) published in December 2003. This also contains figures for the total value of fraud detected and identified.

In respect of prosecution figures for earlier years, I refer the hon. Gentleman to the answer the then Financial Secretary gave to the hon. Member for Glasgow Pollok (Mr. Davidson) on 30 January 2001, *Official Report*, column 142W. Prosecution figures cannot be broken down between those for the production of illicit fuel and those for its use, nor between those for frauds using different types of fuels.

Shared Appreciation Mortgages

Mr. Pickthall: To ask the Chancellor of the Exchequer what representations he has received from householders who hold shared appreciation mortgages; and what plans he has to assist them. [145408]

Ruth Kelly: I have received a number of representations. I cannot intervene in individual cases nor can I direct firms to take action. But if individuals believe they have been mis-sold a product, they may have recourse to the Financial Ombudsman Service.

Stakeholder Pensions

Mr. Willetts: To ask the Chancellor of the Exchequer if he will break down the figures for the take-up of stakeholder pensions released by the Inland Revenue by *(a)* earnings, *(b)* age and *(c)* gender. [146085]

Ruth Kelly: Estimates of the number of individuals contributing to Stakeholder Pensions in 2001–02, broken down by earnings, age and gender are contained in tables T7.10 and T7.11 of Inland Revenue Statistics. The latest versions of these are on the Inland Revenue website: http://www.inlandrevenue.gov.uk/stats/pensions/03IR710.pdf http://www.inlandrevenue.gov.uk/stats/pensions/03IR711.pdf

Tax Credits

Mr. Frank Field: To ask the Chancellor of the Exchequer how many people in receipt of one or more tax credits *(a)* are paying and *(b)* are not paying income tax. [146741]

Dawn Primarolo: The final annual tax credit awards of families, and estimates of their 2003–04 income tax liabilities, will not be available until their awards are finalised on the basis of their actual incomes for 2003–04.

Tax Evasion

Joan Ruddock: To ask the Chancellor of the Exchequer what measures have been put in place

to reduce tax evasion since 1997; and what estimates have been made of additional sums collected as a result. [146328]

Dawn Primarolo: Activities designed to counter tax evasion are a normal and continuing part of the Inland Revenue's business. Important measures introduced since 1997 include the implementation of the—'Grabiner' recommendations; Proceeds of Crime Act; Savings Directive; Money Laundering provisions and Production Powers for use in criminal cases. Additionally, specifically funded compliance and enforcement packages have been put in place to tackle fraud and protect the Exchequer from non-payment of tax and other duties. In the 2003 Budget the Chancellor announced additional funding of £66 million over three years for such a package.

Typically, new measures to counter tax evasion are designed to work within the wider compliance regime and in concert with other measures. Consequently, often no meaningful estimates can be made of additional sums collected as a result of particular measures in isolation. Figures of total estimated additional liability flowing from the Inland Revenue's work tackling non-compliance are shown each year in their Annual Reports, copies of which are available in the House of Commons Library.

UK-Produced Wine

Mr. Gibb: To ask the Chancellor of the Exchequer if he will list the UK levies applicable to UK-produced wine. [146472]

John Healey: UK excise duties applicable to wine are the same irrespective of the country in which the wine is produced. These are applied in bands according to the alcoholic strength of the product as shown in the following tables.

Most wine is produced in the 5.5 per cent. to 15 per cent. band.

	Rate per hectolitre (£)
Wine and made-wine	
Exceeding 1.2 per cent.—not exceeding 4 per cent. abv.	48.91
Exceeding 4 per cent.—not exceeding 5.5 per cent. abv.	67.25
Exceeding 5.5 per cent.—not exceeding 15 per cent. abv.	158.69
Exceeding 15 per cent.—not exceeding 22 per cent. abv.	211.58
Sparkling wine and made-wine	
Exceeding 5.5 per cent.—less than 8.5 per cent. abv.	166.70
8.5 per cent. and above—not exceeding 15 per cent. abv.	220.54

	Rate per litre of pure alcohol (£)
Wine and made-wine	
Exceeding 22 per cent. abv.	19.56

The final sale price of wine in the UK also includes VAT at the standard rate of 17.5 per cent.

Work/Benefits

Harry Cohen: To ask the Chancellor of the Exchequer what steps he has taken to ensure that people in work will be better off than if on benefits; what timetable he has set for increasing the number of people who are better off in work than if on benefits; and if he will make a statement. [146364]

Dawn Primarolo: The Government have improved gains to work by reducing the starting and basic rates of Income Tax, and reforming National Insurance Contributions. Recent increases in the National Minimum Wage, which was introduced in April 1999, have also significantly boosted the earnings of low paid workers.

Tax credits increase the gains to work for working families on low and moderate incomes. The new tax credits improve gains to work for part-time second earners and have extended financial support to many more working families on low and moderate incomes.

The Government's continuing commitment to making work pay is demonstrated by recent measures in the 2003 Budget and pre-Budget report.

TRANSPORT

Approved Driving Instructors

Mr. Swayne: To ask the Secretary of State for Transport how many responses there were to the Driving Standards Agency's Consultation on Approved Driving Instructors qualifications; and what proportion of the responses came from *(a)* qualified driving instructors and *(b)* organisations representing them. [146454]

Mr. Jamieson: The Driving Standards Agency issued nearly 3,000 copies of its consultation paper in April 2003. The Agency received 82 responses including from national and local representative bodies for car driving instructors, organisations providing motorcycle training, representative bodies for the road freight and passenger transport industries, the police and those responsible for the administration of justice, road safety bodies, and individual instructors. Of the 82 responses, nine (11 per cent.) were from individual driving instructors and 11 (13 per cent.) from their representative bodies.

Bridge Strengthening Programme

Mr. Chope: To ask the Secretary of State for Transport when the new bridge management system will be operative; and what his latest estimate is of the cost of completing the bridge strengthening programme. [145543]

Mr. Jamieson: The information is as follows:

Bridge Management System

For motorways and trunk roads, the Highways Agency's Structures Management Information System (SMIS) first became operational in December 2000 and was networked to the Highways Agency's Consultant Agents' offices in May 2001.

For local roads, the Department for Transport has recently let a contract on behalf of the UK Bridges Board that will produce new advice for local authorities on the management of their bridge stock.

Bridge Strengthening Programme

The cost of the bridge strengthening programme for the motorways and trunk roads in England to meet the EU requirements to carry safely 38 and 40 tonne vehicles from January 1999 was £636 Million.

The cost of outstanding strengthening and major maintenance for local authority bridges in England was estimated in 2000 to be £750 million. This estimate is currently being revised.

British Airspace

Mr. Wilshire: To ask the Secretary of State for Transport (1) which airlines were banned from using British airspace between January 2000 and December 2003; between which dates in each case; and for what reasons; [146490]

(2) which airlines are banned from using British air space; and for what reasons. [146491]

Mr. McNulty: The UK has one of the most rigorous safety regimes in the world and plays a leading role in seeking to raise international safety standards.

Any airline from outside the EU or EEA which wishes to pick up or put down passengers or cargo in the UK requires a permit from the Secretary of State. It is a condition of the permit that the airline should be operated in accordance with international safety standards established by the International Civil Aviation Organisation. If we have evidence that international standards are not being met a permit may be refused or revoked. Permits may also be refused for other reasons, such as non payment of fines for offences under immigration legislation.

Since 1 January 2000 a number of airlines have had applications for permits turned down, or would have had an application turned down if one had been received, because of failure to meet ICAO standards or other concerns. These are listed in the table as follows.

Airline	*Dates of permit restriction*	*Reason for restriction*
Aircraft operated by airlines from Equatorial Guinea	On-going	Inadequate safety regulation.
Aircraft operated by airlines from Gambia	On-going	Inadequate safety regulation.
Aircraft operated by airlines from Liberia	On-going	Inadequate safety regulation.
Aircraft operated by airlines from Tajikistan	On-going	Inadequate safety regulation.
Star Air Ltd. (Sierra Leone)	From October 2003	Adverse ramp inspection findings and concerns about inadequate safety regulation
RAF-AVIA (Latvia)	28 March to 26 July 2003	The airline was using a leased Ukraine registered aircraft but the lease agreement did not properly deal with the issue of operational control or regulatory oversight.
Enimex (Estonia)	25 February to 30 April 2003	The Estonian authorities had identified serious deficiencies with certain aspects of the airline operation but had permitted the airline to continue operating under a temporary Air Operator Certificate (AOC) while those deficiencies were addressed. Permits were refused until the full AOC was restored
Air Bosna (Bosnia)	April 2003	The Bosnian authorities had only issued a temporary AOC as the airline had an number of issues to rectify. Permits were refused until a full AOC was issued.
Inter Trans Air (Bulgaria)	August 2000	Adverse ramp inspection finding on an Antonov 12. Permits refused until corrective action taken.
Air Memphis (Egypt)	April 1999 to May 2002	Adverse ramp inspection findings. There was no response from the Egyptian authorities to the finding, and no further permit applications, until May 2002.
Cameroon Airlines	From January 2001	Non payment of Carriers Liability Act fines for transporting inadequately documented passengers.
Albanian Airlines	From January 2001	Concerns over security and immigration controls at Tirana.
Central Air Express (Democratic Republic of the Congo)	From February 2003	Inadequate safety regulation.
Air Universal (Sierra Leone)	From September 2003	Adverse ramp inspection findings and lack of response from Sierra Leone authorities.
Kyrgyzstan Airlines	Summer 2003	Non payment of Carriers Liability Act fines for transporting inadequately documented passengers.

In addition, we require permit applicants, where appropriate, to confirm that aircraft 2003 are equipped with certain equipment such as ground proximity warning systems and the airborne collision avoidance systems. Permit applications have been turned down in the absence of such confirmation.

All applications for a permit are considerd on their merits. The fact that an airline is not listed in the table does not mean that it would necessarily qualify for a permit.

Civil Servants (Disabilities)

Mr. Goodman: To ask the Secretary of State for Transport what progress has been made in meeting targets for the proportion of people with disabilities in senior posts in his Department. [145994]

Mr. McNulty: Statistical information about senior civil servants with disabilities is available on the Civil Service Statistics web-site at: http://www.civil-service.gov.uk/statistics/documents/pdf/disability-oct03 .pdf

As there are less than five members of the senior civil service in my department with a disability, the actual number is not published in order to protect the privacy of the individual in line with exemption 12 of the "Code of Practice on Access to Government Information".

Driving Tests

Mr. Damian Green: To ask the Secretary of State for Transport what representations he has received about the average waiting time for a driving test; and if he will make a statement. [145331]

Mr. Jamieson: The average waiting time for a practical car test in November (the last month for which there is full data) was eight to seven weeks, against an annual national target of six weeks.

Figures for the rest of this financial year are:

Month	*Waiting time (weeks)*
April	8.8
May	9.4
June	9.3
July	9.8
August	11
September	10.1
October	9.5

During this period of high demand for practical driving tests the Driving Standards Agency, the executive agency of the Department responsible for conducting driving tests, received some 220 written representations about the waiting time.

Mr. Damian Green: To ask the Secretary of State for Transport what estimate he has made of the cost of introducing compulsory hazard perception tests for existing approved driving instructors. [145335]

Mr. Jamieson: The consultation paper issued by the Driving Standards Agency in April 2003 contained a draft Regulatory Impact Assessment of the costs of introducing hazard perception testing into the standards supervision arrangements for existing approved driving instructors. The letter issued by the Agency in December that announced our decision contained an Assessment which had been amended in the light of consultation.

The direct costs to instructors who prepared thoroughly for the new assessment should be minimal. No fee will be charged for the first attempt at the test and training and information support have been supplied free. An instructor will have up to 12 months to take the test at a nationwide network of centres. An instructor who was unsuccessful on the first attempt would be charged £50 for a re-test.

Mr. Damian Green: To ask the Secretary of State for Transport if he will publish the responses to the consultation paper, "Driving Test Fees and Other Matters". [145336]

Mr. Jamieson: The Driving Standards Agency published a response to consultation letter on 5 December 2003. This summarised the 82 responses received. Copies of the letter were deposited in the House Libraries.

Where those who responded indicated that they had no objection to their response being made publicly available, the Agency will on request supply copies of individual responses.

M1 (Mill Hill)

Mr. Dismore: To ask the Secretary of State for Transport if he will make a statement on the closure of the access road to Gateway Services on the M1, from Ellesmere Avenue, Mill Hill. [146616]

Mr. Jamieson: The access road is not a public highway. It is temporarily closed during the installation of automatic barriers designed to restrict use to authorised users only. There has been excessive use of the access road by motorists taking a short cut through the service area to join the M1 and there have also been repeated incidents of fly-tipping.

Mersey Tunnel

Mr. Frank Field: To ask the Secretary of State for Transport when the date of the inquiry into the proposed increase in the Mersey Tunnel's toll will be announced. [146744]

Dr. Howells: The Merseyside Passenger Transport Authority and Executive (Merseytravel) has withdrawn its application for an Order to revise the Mersey Tunnels' tolls as it has been able to secure alternative funding to cover the initial cost of constructing emergency escape refuges/passageways in the Queensway (Liverpool/Birkenhead) Tunnel. As a consequence, an inquiry is no longer required.

Road Accidents

Mrs. Calton: To ask the Secretary of State for Transport what steps are being taken to reduce the number and seriousness of incidents of motor vehicles striking railway bridges. [146220]

Mr. Jamieson: Many measures have been taken to prevent overheight vehicles striking bridges, including improved signing and conspicuity of low bridges, and regulations requiring that the vehicle's height be displayed in the cab. Despite these measures bridges continue to be struck. Such strikes can cause disruption to road and rail traffic, even for minor incidents, and a serious incident could cause injury and damage. The Department let a research contract last year to investigate the causes and possible prevention of bridge strikes, with the aim of identifying which available measures are likely to be worth pursuing so that drivers follow a route that is appropriate for their vehicle. My officials will be discussing the research findings and possible future steps with a wide range of stakeholders who meet with the Department in the Bridge Strike Prevention Group.

Measures to prevent vehicles from striking bridge parapets on roads over railways are being pursued as part of the general programme to manage the accidental incursion of the railway by road vehicles, following the accident at Great Heck, near Selby in February 2001 and the publication in February 2003 of the Department's report, "Managing the Accidental Obstruction of the Railway by Road Vehicles ".

Telecommunications Industry

John Robertson: To ask the Secretary of State for Transport (1) what plans he has to consult Ofcom in connection with the impact on the telecommunications industry of the Traffic Management Bill; [146329]

(2) when the next meeting will be held of his Department's working group of representatives of highways authorities and utility companies; and whether Ofcom will be represented at the meeting. [146330]

Mr. Jamieson: During 2003, my Department hosted a series of meetings of the Highway Authorities and Utilities Committee (HAUC) Legislation Working Group, which was set up to consider possible measures for inclusion in the Traffic Management Bill. Those represented on the group included highway authorities and utilities, as well as the various utility regulators such as Oftel. The next meeting of the Group is on 15 January 2004 and those attending will include the new regulator body Ofcom. In drawing up the Bill we have looked closely at its possible impact upon the telecommunications industry and shall continue to do so as the Bill progresses through Parliament and as we draw up the secondary legislation which will be needed to implement some of the Bill's provisions. We will be involving Ofcom closely in this process.

Terrorism

Mr. Ancram: To ask the Secretary of State for Transport what assessment has been made by his Department of terrorist threats to civil aircraft in flight over Saudi Arabia. [145654]

Dr. Howells: The Government keep the threat to civil aviation in all countries, including Saudi Arabia, under continuous review.

Traffic Management Bill

Mr. Chope: To ask the Secretary of State for Transport (1) what the level of congestion on *(a)* inter-urban roads and *(b)* urban roads is against which he intends to achieve a reduction; and by how much he expects this to change when the measures in the Traffic Management Bill are implemented; [145531]

(2) what definition of congestion was used in the regulatory impact assessment for the Traffic Management Bill. [145548]

Mr. Jamieson *[holding answer 5 January 2004]:* For the detailed references to congestion in the RIA, calculations represent estimated time lost in seconds per kilometre travelled for different vehicle types compared with speeds obtained in periods of light traffic flow . In urban areas light flow speeds are usually speeds achieved at night time and would incorporate the effects of traffic signals, pedestrian crossings and other unavoidable constraints on vehicle movement.

In 2000, the average time lost per vehicle kilometres as a result of congestion was 24.8 seconds on roads in large urban areas and 3.2 seconds on strategic inter-urban roads.

The Highways Agency estimates that the introduction of Regional Control Centres and Traffic Officers will lead to a reduction in congestion on motorways of up to 5 per cent. We expect that measures outside of the scope of the Bill, such as additional capacity at key points on the strategic road network, many of which will be implemented alongside, will also lead to reductions in congestion on trunk roads.

The new duties and powers in the Bill provide an incentive and a means for local authorities to reduce congestion on their roads, and for utilities to work with less disruption, especially in urban areas. The level of reduction will depend on the local circumstances and the performance of individual utilities and authorities, including the use that the latter make of the new powers.

Mr. Chope: To ask the Secretary of State for Transport what powers of arrest will be available to traffic officers appointed under the Traffic Management Bill. [145538]

Mr. Jamieson: Traffic officers will not have powers of arrest.

Traffic Calming

Mr. Steen: To ask the Secretary of State for Transport how much he has spent on installing traffic calming measures in each of the last three years. [145826]

Mr. Jamieson *[holding answer 7 January 2004]:* Installing traffic calming on local roads is the responsibility of the local highway authorities which fund them from block allocations provided by the Department in support of their Local Transport Plans or equivalents. The Department has, however, given local authorities grants totalling £4.6 million in 2002–03 and £5.5 million in 2003–04 for specific local transport schemes that include traffic calming measures.

Measures that may be described as traffic calming would generally form part of the Highways Agency's programme of small safety schemes on trunk roads. The Highways Agency's opening budgets for safety schemes over the last three years, as published in the Business Plan, are as follows: 2001–02—£47 million, 2002–03—£45 million and 2003–04—£41 million.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Fishing Industry

19. **Mr. Weir:** To ask the Secretary of State for Environment, Food and Rural Affairs when she next intends to visit Scotland to meet representatives of the fishing industry to discuss the fishing industry in Scotland. [146387]

Mr. Bradshaw: I have no plans for further meetings at present, but would expect to discuss the Prime Minister's Strategy Unit Report on the future of the fishing industry when it is published soon.

Mr. Alex Salmond: To ask the Secretary of State for Environment, Food and Rural Affairs, when she last met representatives of the Scottish fishing industry to discuss the fishing industry in Scotland. [146385]

Mr. Bradshaw: I met representatives of the Scottish industry at the Council of Ministers meeting last month.

Nuclear Decommissioning Agency

20. **Mr. Tynan:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions she has had with ministerial colleagues in the Department of Trade and Industry regarding the establishment of the nuclear decommissioning agency. [146389]

Mr. Morley: There are regular meetings and discussions between Ministers in the Department of the Environment, Food and Rural Affairs and in the Department of Trade and Industry. These cover all issues of current mutual interest, including the establishment of the Nuclear Decommissioning Authority.

Toxic Waste Convention

21. **Alan Simpson:** To ask the Secretary of State for Environment, Food and Rural Affairs how the Government will implement the Stockholm convention on international trade in toxic waste; and what implications this has for such trade between industrialised nations. [146390]

Mr. Morley: The Stockholm Convention controls the production and use of 12 chemicals known as persistent organic pollutants (POPs). Controls on the transboundary movement of hazardous wastes are covered by a separate international agreement, the Basel Convention.

Current Community legislation covers most Party obligations under the Stockholm Convention, and the European Commission has proposed a Regulation on persistent organic pollutants to give effect to those provisions which are not sufficiently covered. The UK will ratify the Convention during 2004 when this proposed Regulation is in place.

The Stockholm Convention prevents the import or export of persistent organic pollutants unless for environmentally sound disposal or for a few exceptional uses. Most industrialised nations have already banned the use of the 12 chemicals listed so the impact on trade between them will be negligible.

Animal Welfare

Chris Grayling: To ask the Secretary of State for Environment, Food and Rural Affairs what her policy is on introducing changes to the law concerning cruelty to animals. [146356]

Mr. Bradshaw: The department is currently undertaking a review of legislation relating to the welfare of captive and domestic animals with a view to introducing an Animal Welfare Bill. Any proposed changes to existing legislation will be based on science and good practice.

Civil Servants (Disabilities)

Mr. Goodman: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made in meeting targets for the proportion of people with disabilities in senior posts in her Department. [145993]

Alun Michael: Statistical information about senior civil servants with disabilities is available on the Civil Service website at: http://www.civil-service.gov.uk/statistics/documents/pdf/disability-oct03.pdf

The data shows that one per cent. of senior civil servants in my Department have a disability. As there are less than five members of the senior civil service in my Department with a disability, the actual number is not published in order to protect the privacy of the individual in line with exemption 12 of the Code of Practice on access to Government Information.

Flooding

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to purchase Geodesign Pallet Barriers to prevent flood damage in *(a)* the Vale of York and *(b)* elsewhere; and what assessment she has made of their effectiveness. [143879]

Mr. Morley: We have no plans to purchase such barriers. Purchase would be a matter for the operating authorities to decide.

The Environment Agency are currently trialling pallet barriers and other temporary, moveable defences on the River Severn. Once these trails are completed the Agency's assessment will be made available to other operating authorities. The usefulness of such moveable defences will be a matter for the Agency and local authorities to determine in light of local conditions.

Mr. Oaten: To ask the Secretary of State for Environment, Food and Rural Affairs which agency is responsible for ground water flooding. [146225]

Mr. Morley: No agency has direct responsibility for groundwater flooding and any remedial action would generally fall to the relevant landowner. The Environment Agency has powers to undertake works in relation to flooding from main rivers and the sea and also exercises a general supervisory duty over all flood defence matters. For ordinary watercourses these powers rest with local authorities and the internal drainage boards. However, the Environment Agency may, depending on the circumstances, be in a position to offer advice.

As part of the Department's on-going work to develop a new Government-wide strategy for flood and coastal erosion risk management for England, a project is currently underway to scope the extent of groundwater flooding events and the present administrative arrangements.

Further information on the strategy is available via www.defra.gov.uk/environ/fcd/policy/strategy.

Mr. Oaten: To ask the Secretary of State for Environment, Food and Rural Affairs what account planning authorities are required to take of the risk of ground water flooding; and whether planning permission can be refused in areas where ground water flooding is known to have occurred. [146226]

Keith Hill: I have been asked to reply.

Planning Policy Guidance Note (PPG) 25 Development and flood risk advises that "the susceptibility of land to flooding is a material planning consideration". It advises the use of a risk-based approach based on a sequential test that gives priority to development in lower-risk zones.

PPG 25 advises specifically that the flood zones in its sequential test cover only river, tidal and coastal flooding but that locally an assessment may be needed of the risk of groundwater flooding in any of the zones. Such an assessment should be given appropriate weight alongside other material considerations by local planning authorities in determining applications. A high risk of groundwater flooding or failure to provide an assessment of flood risk that is appropriate to the scale and nature of the development and the risks involved can be reasons for refusal of permission.

Sudden Oak Death

Mr. Swayne: To ask the Secretary of State for Environment, Food and Rural Affairs what action she is taking to prevent the importation of plant material that may act as a host to sudden oak death infection; and if she will make a statement. [146456]

Mr. Bradshaw: All plants entering the UK from third countries must be accompanied by a phytosanitary certificate and are subject to inspection at import. For a wide range of known hosts of the sudden oak death fungus (*Phytophthora ramorum* is its scientific name), specific measures must be followed before the authorities in the exporting country can issue the certificate. For trade within the EU, specific disease control measures are applied at the place of production to rhododendrons and viburnums, the two types of plant which have been most often found to be infected in Europe. Plant passports are then issued that travel with consignments allowing their free movement between member states.

Findings of *P ramorum* in imported and UK origin plants are of concern and inspections at UK nurseries and ports of entry are to be stepped up to ensure that all consignments of plants moved into and within the UK are free from *P ramorum* and meet plant passport requirements. Any consignment found to be infected, or not to have the correct documentation, will, as now, be destroyed. The UK will support extension of specific measures against *P ramorum* to additional types of plant when these are shown to present a significant risk.

Mr. Swayne: To ask the Secretary of State for Environment, Food and Rural Affairs what additional resources are being made available to the Plant Health Inspectorate in connection with sudden oak death; and if she will make a statement. [146457]

Mr. Bradshaw: Defra's 75 Plant Health and Seeds Inspectors (PHSI) are already employed for around 20 per cent. of their time on inspection and surveillance duties related to Phytophthora ramorum, which is known in the USA as sudden oak death. However, in response to the increasing number of findings of this pathogen in England and Wales, the plant health service is to employ at least 20 additional staff to cover the increased rate of inspections at production nurseries, wild planting areas and ports of entry. This is part of a package of measures announced on 4 December. Wherever possible, suitably qualified field staff will be transferred from elsewhere in the Department. These will be supplemented by recruitment of a small number of staff with appropriate experience and qualifications (e.g. ex-PHSI staff). Transfer and recruitment will start in January.

Defra are also funding a substantial increase in sample diagnoses undertaken by the Central Science Laboratory (CSL) which is estimated to cost in excess of £750,000 to the end of 2004–05. CSL are also involved in on-going research into Phytophthora ramorum to the value of £370,000.

The Forestry Commission has redirected about 23 staff onto a woodland survey in England and Wales, to be completed by April 2004, which will help us to assess whether Phytophthora ramorum is present in the wider environment. Resource has also been redirected within the Forest Research Agency into projects designed to help us better understand the disease.

Road Signs/Markings

Mr. Liddell-Grainger: To ask the Secretary of State for Environment, Food and Rural Affairs what guidelines apply on the use of *(a)* road signs and *(b)* road markings in national parks. [145761]

Alun Michael: The national requirements for road signs and road markings are specified by the Department for Transport, principally in the Traffic Signs Regulations and General Directions 2002 (SI 3113/02).

With the agreement of DfT, highways authorities may make limited modifications to meet any special local considerations such as those which might apply within a National Park.

US Vessels (Decommissioning)

Mr. Jack: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the Environment Agency's handling of the ghost ships. [146368]

Mr. Morley: As the competent authority in England and Wales for the relevant controls, the Agency agreed in July to the import of the ships from the US for dismantling in Hartlepool. It became clear, however, that not all the required permissions for the dismantling facility were in place, and since the arrival of four of the ships in Hartlepool, the Agency has taken steps to prevent any dismantling work on them.

MINISTER FOR WOMEN

Public Appointments

Mrs. Curtis-Thomas: To ask the Minister for Women what recent assessment has been made of the participation of black and minority ethnic women in public life. [146257]

Jacqui Smith: The latest assessment (March 2001) showed minority ethnic women held only 2 per cent. of all national and regional public appointments. The Cabinet Office is developing a Public Bodies and Public Appointments database that will include information on diversity. This will underpin information that is held by individual Departments. To mark Black History Month in October 2003 my officials in the Women and Equality Unit produced a fact sheet, available on their website which gives more information about Minority Ethnic Women in Public Life.

Gender Budgeting

Mrs. Curtis-Thomas: To ask the Minister for Women what discussions she has had with the Chancellor of the Exchequer on gender budgeting. [146250]

Jacqui Smith: I have had no specific discussions with my right hon. Friend the Chancellor of the Exchequer on gender budgeting, however I have jointly sponsored, with my right hon. Friend the Chief Secretary to the Treasury, a pilot project on gender analysis of expenditure.

I believe gender analysis of expenditure can be an extremely useful tool in both policy development and evaluation. My officials in WEU have worked closely with HMT during the pilot project, with DTI being one of two Departments taking part. Lessons from this project will be used to inform further work in this area.

Occupational Segregation

Mrs. Curtis-Thomas: To ask the Minister for Women what assessment has been made of the contribution of occupational segregation to the skills gap. [146254]

Jacqui Smith: Within the recent Skills Strategy, 21st Century Skills, Realising our Potential, we have highlighted the challenge in making real improvements in raising the skills level of our workforce. We know that the majority of working women are concentrated in just five occupational groups which are often low paid and low skilled. For example 89 per cent. of hairdressers and beauticians are women and in a survey their average pay was found to be the second lowest of all occupations[1].

Some sectors identified as having significant skill weaknesses, such as Construction and Transport and Communications, have extreme occupational segregation. Only 9 per cent. of the workforce in Construction are women and 24 per cent. in Transport and Communications.

While we cannot entirely influence women's career choices, both the Skills Strategy and our recent Innovation Report identifies some of the levers to improve skills levels and for the UK to have a highly educated workforce with a culture of lifelong learning. To do this we have made a commitment to provide better information, advice and guidance on skills, training and qualifications so that people know what is available to them.

We have identified that our young people need to be properly prepared for the world of work. That is why we have commissioned a Working Group, chaired by Mike Tomlinson to advise on the development of more coherent vocational programmes for 14–19 year olds to ensure they have the necessary skills for employment and adult life. We want both girls and boys to make informed choices about their vocational routes and our Modern Apprenticeships will help support young people in their career choices and to improve their workplace skills, particularly at craft, supervisory and technician level.

Our Employer Training Pilots, introduced in September 2002, is designed to increase the demand for training by reducing barriers and providing training in more responsive ways. Over 20,000 learners and over 5,000 employers are now engaged. Trends show that overall there is a high proportion of female learners involved in pilots from all sectors, with a large majority concentrated in education and health and social work which is in line with the national average.

Women's Incomes over the lifetime-WEU 1999.

Gender Pay Gap

Mrs. Curtis-Thomas: To ask the Minister for Women what steps are being taken to close the pay gap between men and women. [146258]

Jacqui Smith: The Government are taking forward a range of policies to tackle the gender pay gap. These include a new questionnaire procedure for use in equal pay cases, and measures to simplify and speed up equal pay tribunal procedures. The Government have led by example in committing all Civil Service departments and agencies to review their pay systems and produce action plans to close any equal pay gaps. The Government have provided funding for the EOC to develop equal pay tool kits so all organisations can carry out equal pay reviews. Measures to help parents maintain links with the world of work and better balance their work and home lives will contribute to a reduction of the pay gap. The Government also welcomes the EOC's investigation into modern apprenticeships and the concentration of men and women in different professions.

CULTURE, MEDIA AND SPORT

Correspondence

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what targets *(a)* her and *(b)* her Ministers' offices have for responding to constituency mail; and if she will set out the performance achieved in the last 12 months against these targets. [145603]

Mr. Caborn: The departmental target for responding to constituency mail (i.e. letters from hon. Members and the public) is 18 working days.

The figures for performance against target for the period 1 December 2002 to 1 December 2003 are as follows:

	Percentage answered within 18 working days
MPs cases	79
Members of the public	73

The Department produces regular statistics to monitor the performance on answering ministerial letters. These statistics are produced for review and discussion by the permanent secretary and the management board.

In addition, the Cabinet Office, on an annual basis, publishes a report to Parliament on performance of Departments in replying to ministerial correspondence. The report for 2002 was published on 15 May 2003. The report for 2003 will be published in due course.

Departmental Christmas Expenditure

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how much has been spent by her Department on the postage of Christmas cards *(a)* in the last year and *(b)* since 1997. [145596]

Mr. Caborn: No assessment of postage was made but the majority of cards were sent by second class post.

Digital Television

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how many more analogue transmitters need to be converted to digital to achieve the same reach as the current analogue transmitters. [145617]

Estelle Morris: There are currently 1,154 transmitters in the UK; 80 of those, including all the main stations, are able to transmit both analogue and digital signals. It is estimated that around 1,150 transmitters would be necessary to reach, on switchover, the same level of coverage by digital terrestrial television as previously with the current analogue transmitters.

Millennium Commission

Hugh Bayley: To ask the Secretary of State for Culture, Media and Sport how much the Millennium Commission contributed to Bradford Cathedral's Life Force Exhibition; what checks were carried out on the exhibition's financial viability before the grant was given; who carried out the financial viability study; how many visitors the exhibition expected to attract; how many attended; what plans she has to change the procedures for financial scrutiny of Lottery grant applications; and if she will make a statement. [146234]

Tessa Jowell: As detailed issues relating to Lottery funding of Bradford Cathedral's Life Force Exhibition are primarily for the Millennium Commission, I will write to my hon. Friend in my capacity as Chair of the Commission, and place copies of my reply in the Libraries of both Houses.

On the more general matter of scrutiny of Lottery grant applications, Lottery distributing bodies' financial directions already require them to have clearly developed policies and procedures for the financial, and, where appropriate, economic appraisal of projects, of which risk assessment should be an important part, and to assess applications in accordance with those procedures. Revisions to the financial directions being discussed with distributing bodies will further strengthen these requirements to focus more directly on risk assessment.

Police Merger

Mr. Key: To ask the Secretary of State for Culture, Media and Sport whether she expects that the merger between the Metropolitan Police Service and the Royal Parks Constabulary will be completed in April 2004; and if she will make a statement. [144900]

Mr. Caborn *[holding answer 6 January 2004]:* Merger of the two police forces will require primary legislation which will be introduced at the earliest opportunity but will not be in place by 1 April 2004. The Department is working closely with the Metropolitan Police Service to ensure that effective policing of the Royal Parks is maintained until Parliament has approved the merger proposals.

Television Subtitling

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what steps the Government are taking to encourage an increase in the provision of subtitling on television. [145580]

Estelle Morris: The Communications Act 2003 has strengthened the requirements for subtitling on television. The Act sets subtitling targets of 90 per cent. of programmes on Channels 3 and 4, and 80 per cent. of programmes on all other channels, by the tenth anniversary of the start of the service. The Act also introduces a fixed, five-year interim target of 60 per cent. for subtitling, to accelerate progress during the early years. Under the Act, these requirements have been extended to digital cable and satellite broadcasters for the first time.

Tourism

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how much funding *(a)* VisitBritain, *(b)* the Scottish Tourist Office and *(c)* the Welsh Tourist Office will receive in 2003–04. [145588]

Mr. Caborn: For 2003–04, VisitBritain has been allocated £45.9 million in baseline grant-in-aid by my Department, VisitScotland has been allocated £29.1 million in baseline grant in aid by the Scottish Executive and the Wales Tourist Board has been allocated £22.2 million in baseline grant in aid by the Welsh Assembly Government.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how much of VisitBritain's funding is spent solely on English tourism. [145589]

Mr. Caborn: £10.4 million is available to VisitBritain in 2003–04 for the domestic marketing of England. £35.5 million is available in 2003–04 for the overseas promotion of Britain (including England) as a tourist destination.

TRADE AND INDUSTRY

Regional Development Agencies

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what measures are in place to ensure that regional development agencies share best practice. [146079]

Jacqui Smith: The Government believe that much added value can be gained from Regional Development Agencies (RDAs) sharing best practice. One of the measures of RDA performance is an assessment of how effective each RDA has been in working with other RDAs across regional boundaries and sharing innovation and best practice with each other.

Examples of the sharing of best practice include regular meetings between RDA Chairs. In addition, the RDAs nominated as "in the lead" for particular issues

are also important catalysts for sharing best practice. These lead RDAs establish new networks of contacts on particular subjects that enable the efficient sharing of information.

British Energy

Malcolm Bruce: To ask the Secretary of State for Trade and Industry how much additional funding she intends to make available to British Energy as part of the credit facility to the company outlined in her written statement of 14 October; and if she will make a statement. [141540]

Mr. Timms *[holding answer 2 December 2003]:* I refer the hon. Member to the written statement made my right hon. Friend the Secretary of State for Trade and Industry on 1 December 2003, *Official Report*, columns 50–51WS.

Consumer Credit

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry whether she intends to bring forward primary legislation to tackle loan sharks, as outlined in the White Paper, "Fair, Clear and Competitive: A Consumer Credit Market for the 21st Century". [146144]

Mr. Sutcliffe: My Department is bringing forward a package of legislative proposals—requiring both primary and secondary legislation—to reform the consumer credit market in the UK. Tackling loan sharks is a key part of this package. We have announced a project concerned with hunting loan sharks, though this relies on existing legislative provision. Primary legislation will be used to address the licensing regime for consumer credit providers; time orders; unfair credit transactions and the provision of alternative dispute resolution for consumer credit disputes. Legislation will be introduced when parliamentary time permits.

Cross-border Mergers

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what assessment she has made of the impact that the 10th Company Law Directive on cross-border mergers will have on management of United Kingdom companies. [146148]

Mr. Sutcliffe: The Commission proposal for a 10th Company Law Directive on cross-border mergers was published on 18 November 2003. My officials met City and business representatives and had other informal contacts with interested parties during December in order to assess the likely impact of the Directive on UK companies, including as regards their management.

On the basis of these discussions, and internal departmental consideration, an initial Regulatory Impact Assessment on the anticipated costs and benefits of the Commission proposal was prepared alongside the Explanatory Memorandum (15330S/03) submitted to the Parliamentary Scrutiny Committees on 15 December 2003 and is available in the Libraries of both Houses.

Employment Relations

Mr. Hancock: To ask the Secretary of State for Trade and Industry what assessment she has made of the effect of the 8-week rule on *(a)* employers and *(b)* employees; and if she will make it her policy to abolish it. [146177]

Mr. Sutcliffe: During the recent review of the Employment Relations Act 1999, the Government looked closely at the operation of protections from dismissal for employees taking lawfully organised official industrial action. The conclusion of that review, as set out in the response to consultation published last month, is that the 8-week rule should be retained and that the Employment Relations Bill will introduce improvements to the existing protections. These changes are designed to ensure, firstly, that days where employees are 'locked-out' during official industrial action are disregarded in calculating the 8-week period; and secondly that the procedural steps employers and employees must take under the statute to attempt to resolve a dispute are clear.

Information and Communications Technology

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what estimate she has made of the proportion of employees in the UK information and communication technology sector who are *(a)* nationals of countries outside the UK and *(b)* nationals of countries outside the EU. [146136]

Mr. Timms: The information is not available.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how many people have been employed in the information and communication technology sector in each year since 1997. [146137]

Mr. Timms: The figures for the UK, in thousands, are as follows; the latest year for which information is available is 2001.

	Number (Thousand)
1997	n/a
1998	1,216
1999	1,291
2000	1,376
2001	1,420

n/a = Not available.

National Statistics (Annual Business Inquiry).

Internet Usage

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what assessment she has made of the impact that a lack of trust in security has on use of the internet in the UK. [146139]

Mr. Timms: We have long known that users' trust and confidence in the internet would impact on its uptake. This was recognised in the September 1999 report from the Performance and Innovation Unit, "e-commerce@its.best.uk" which identified trust as one of the three pillars which would support the adoption of the internet in the UK. Studies into consumer behaviour in 2001 and 2002 ("Informing Consumers About e-commerce" and "Internet and Cross Border Shopping") showed that the perception of credit card

fraud was a significant concern to on-line consumers. That said, on-line shopping represented 6 per cent. of all UK retail in 2002, and was set to grow to £14 billion in 2003 as part of a continuing growth in use of the internet throughout the economy. Our latest study—the "International Benchmarking Study" published by DTI in November 2003—showed that the impact of a lack of confidence on internet usage appears to be receding. It was also noted that security and trust were seen as less of a barrier to internet usage by UK business than was the case in previous benchmarking studies.

Post Offices

Malcolm Bruce: To ask the Secretary of State for Trade and Industry how many post offices there were in each constituency *(a)* in 1997 and *(b)* currently; and how many of them transact more than 40 per cent. of their work volumes on behalf of the Benefits Agency. [146544]

Mr. Timms: I refer the hon. Member to the answer given to the hon. Member for Twickenham (Dr. Cable) on 9 January 2003, *Official Report*, column 299W.

Public Sector Contracts

Mr. Pickthall: To ask the Secretary of State for Trade and Industry if she will take steps to ensure that small and medium-sized enterprises have the same opportunities to compete for contracts for public sector user-framework agreements as larger firms; and if she will make a statement. [145407]

Nigel Griffiths: The Government are working to encourage small firms to secure public sector contracts.

This includes implementing the recommendations of a recent Better Regulation Task Force/Small Business Council report, which made a number of recommendations to improve SMEs ability to compete against large companies for contracts.

Private Hire Vehicles

Mr. Steen: To ask the Secretary of State for Trade and Industry what the cost was of producing the report, "The Regulation of Licensed Taxi and PHV Services in the UK", OFT 676; and when she expects to respond to its recommendations. [145821]

Mr. Sutcliffe: The cost of producing the report is a matter for the Chairman of the OFT—I have asked him to write to the hon. Member directly. My right hon. Friend will respond to the report and its recommendations within 120 days (by 9 March 2004).

Veterinary Medicines

Andrew George: To ask the Secretary of State for Trade and Industry (1) whether she has performed an impact assessment to determine what percentage of veterinary surgeons would be adversely affected by the recommendations contained within the Competition Commission report into prescription only veterinary medicines; [146093]

(2) what assessment she has made of the likely effect of the implementation of the recommendations of the Competition Commission's report on prescription only veterinary medicines on levels of veterinary care for pets of low income owners; [146100]

(3) what discussions she has had with veterinary organisations regarding the recommendations of the Competition Commission's report on prescription only veterinary medicines; and what assessment she has made of their representations; [146101]

(4) how many complaints were received by the Office of Fair Trading about the price of prescription only veterinary medicines in each of the last five years for which records are available; and what proportion of those complaints were made about *(a)* large animals practices and *(b)* small animal practices; [146102]

(5) what the average profit per veterinary practice was in each of the last five years for which figures are available; [146095]

(6) what the average profit per veterinary practice was on the sale of prescription-only medicines in *(a)* large animal practices and *(b)* small animal practices in each of the last five years for which figures are available; [146096]

(7) when she expects to publish a Statutory Instrument to implement the recommendations of the Competition Commissions Report into prescription only veterinary medicines; [146097]

(8) what estimate she has made of the impact on the average cost of a veterinary consultation of implementation of the recommendations made by the Competition Commission in its report on prescription only veterinary medicines; [146098]

(9) what discussions she has had with the Royal College of Veterinary Surgeons regarding changes to its Guide to Professional Conduct, with reference to the Competition Commission's recommendations on prescription only medicines. [146106]

Mr. Sutcliffe: In recent months, I and members of my Department, have had several meetings with representatives of the RCVS, the BVA and other professional bodies. We have listened carefully to the views of the profession particularly in relation to animal health and welfare. These discussions have been helpful and productive and identified opportunities to reduce the potential need for legislation by addressing many of Competition Commission recommendations within the industry's own professional code of practice.

A consultation document together with a draft impact assessment and the draft legislation we consider is necessary to implement these recommendations is currently being finalised in discussion with DEFRA. This will be issued shortly and will provide all interested parties with a further opportunity to comment on how best to carry forward the Commission's recommendations. Reflecting the Government's better regulation agenda, the DTI would look closely at proposals from the profession to take forward some or all of them within the industry's own professional rules.

HOME DEPARTMENT

Elder Abuse

Sandra Gidley: To ask the Secretary of State for the Home Department how many people over the age of 60 were victims of *(a)* attacks and *(b)* abuse in England and Wales in each year since 1997; and if he will make a statement. [145629]

Ms Blears: The most recent information available on violent crime victimisation of people over the age of 60 is from the 2000 British Crime Survey, which measures crime in 1999 (Home Office Statistical Bulletin 08/02, Chivite-Matthews and Maggs, 2002). This showed that 0.9 per cent. of women aged 60 and over and 1.1 per cent. of men in this age group were victims of at least one incident of violence in England and Wales that year. There were approximately 132,000 incidents of violence against older people in 1999, however some people may have experienced more than one incident in the year. People aged 60 and over had a lower risk of experiencing violent crime than other age groups, and were also less likely to be repeatedly victimised.

More recent figures are available for those aged 65 or over. In 2001–02, 0.7 per cent of men aged 65 to 74 and 0.7 per cent. of women in this age group experienced one or more violent incidents, while 0.6 per cent. of men aged 75 and over and 0.5 per cent. of women aged 75 and over did so. In 2002–03, 1.3 per cent of men and 0.7 per cent. of women aged 65 to 74 and 0.4 per cent of men and 0.6 per cent. of women aged 75 and over were victims of a violent crime (Home Office Statistical Bulletin 07/03, Simmons and Dodd, 2003).

The statistics do not make a distinction between attacks and abuse.

Alcohol

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department in which areas the alcohol harm reduction strategy will be implemented. [146313]

Ms Blears: The Prime Minister's Strategy Unit published an interim analytical report on the harms associated with alcohol misuse on 19 September 2003. This report identifies the following broad areas of policy intervention: education, information and communication; supply and pricing; health and treatment services; and community safety and criminal justice. The findings of this report will be used to inform development of the Government's alcohol harm reduction strategy, which will cover all areas of England.

Departmental Security Passes

Mr. Oaten: To ask the Secretary of State for the Home Department how many security passes have been reported lost or stolen by staff in his Department in the last 12 months. [144268]

Fiona Mactaggart: The total number of Home Office Security Passes reported lost or stolen on the London and Croydon Estates for the 12 months ending 11 December 2003 was 291; for London 162, for Croydon 129.

The loss of these passes is a nuisance rather than a threat. They do not show that they provide access to the Home Office. They all have a photograph which enables the security guards and others to challenge a person other than the rightful holder. The passes for the central London estate are de-activated as soon as they are reported missing, so that they cannot be used to gain entry through revolving/circle lock doors.

Disabled Civil Servants

Tim Loughton: To ask the Secretary of State for the Home Department how many senior civil servants in his Department are disabled, expressed in *(a)* numbers and *(b)* as a percentage of whole-time equivalents. [144978]

Fiona Mactaggart: Statistical information about senior civil servants with disabilities is available on the Civil Service Statistics website at: http://www.civil-service.gov.uk/statistics/documents/pdf/disability-oct03.pdf

This information is also available in the Libraries of the House. The latest statistics show that in my Department there are no senior civil servants with a disability.

The Department is concerned that there are no known disabled staff in the Senior Civil Service (SCS) and we are implementing an action programme to address the position.

There are significant numbers of staff with disability at junior and middle management levels and this should lead eventually in to senior levels. Reasonable adjustments are provided at promotion and selection boards for disabled candidates and we operate a guaranteed interview scheme for disabled staff who meet minimum requirements for vacancies.

Fear of Crime

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what recent assessment he has made of the level of public fear of crime. [146272]

Ms Blears: The latest published statistics from the British Crime Survey, the quarterly update to June 2003, report that levels of fear of crime in the key categories of burglary, vehicle and violent crime have fallen, compared to June 2002. 14 per cent. of adults had high levels of worry about burglary (compared with 15 per cent. in June 2002), 16 per cent. had high levels of worry about vehicle crime (compared with 18 per cent.) and 20 per cent. had high levels of worry about violent crime (compared with 21 per cent.).

Firearm Offences

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on the change in the number of firearm offences since March 2001. [146267]

Caroline Flint: Home Office figures indicate that, in 2001–02, firearms offences (excluding those involving air weapons) increased by 35 per cent. from the previous year. Provisional figures released on 16 October 2003

show a total number of firearms offences in England and Wales in 2002–03 (excluding air weapons) was around 10,250 or around 3 per cent. higher than in 2001–02.

The overall level of firearms offences as a proportion of all recorded crime remains steady, at less than half of one 1 per cent.

In 2001–02, there were 95 recorded incidents in which injury following a firearms offence proved fatal. Provisional figures show that this figure fell by 16 per cent. in 2002–03. Final figures for 2002–03 will be published soon.

This remains an appalling loss of life on our streets and in our communities and we are continuing a programme of action covering community engagement, enforcement, legislation and tackling the links to drug supply and crime to deal with it.

Graffiti

Ann Keen: To ask the Secretary of State for the Home Department what steps his Department is taking to reduce the level of graffiti. [146320]

Ms Blears: The Anti-Social Behaviour Act 2003 introduces a package of measures to prevent graffiti and to ensure that it is removed swiftly when it does occur.

The Act will give local authorities new powers to clean graffiti from certain types of property, including cable boxes, post boxes, phone booths, and property associated with public transport. It will also contain proposals to restrict the sale of spray paints to under 16s and give Local Authorities the power to issue Fixed Penalty Notices for graffiti. This means offenders will have to pay a £50 penalty or be prosecuted through the courts.

In November we launched the Name that Tag poster campaign which offers a £500 reward for information about targeted prolific taggers. This campaign is a partnership between the Home Office, Crimestoppers, Network Rail London Underground and British Transport Police and runs in London, Liverpool and Manchester.

Juvenile Offenders

Mr. Woodward: To ask the Secretary of State for the Home Department how many *(a)* crimes were committed by, and *(b)* cautions were issued to, juvenile offenders in (i) St Helens, (ii) Merseyside and (iii) the North West in each year since 1992. [144323]

Paul Goggins: The table gives the number of juveniles convicted of all offences in St. Helens, Merseyside and the North West Region, 1992 to 2002. It also shows those given cautions (reprimands and final warnings from June 2000) in Merseyside and the North West during this period.

The information collected centrally does not enable cautions in St. Helens to be separately identified. Neither is it possible to give the number of crimes committed by juveniles, only the number of juveniles who are found guilty of all offences.

Statistics for 2003 will be published in the Autumn of 2004.

Number of juveniles found guilty at all courts of all offences and number given cautions, North West region, 1992 to 2002

	1992	1993	1994	1995	1996	1997
St. Helens						
Persons aged 10–17 found guilty	270	216	240	219	227	227
Persons aged 10–17 receiving a caution[1]	[3]	[3]	[3]	[3]	[3]	[3]
Merseyside police force area (including St. Helens)						
Persons aged 10–17 found guilty	2,510	2,112	2,260	2,478	2,889	2,789
Persons aged 10–17 receiving a caution[1]	4,602	3,748	3,209	2,495	2,693	3,569
North West region (including Merseyside)[2]						
Persons aged 10–17 found guilty	11,912	9,784	10,810	19,461	12,644	13,127
Persons aged 10–17 receiving a caution[1]	22,676	19,110	11,635	17,708	18,446	16,581

	1998	1999	2000	2001	2002
St. Helens					
Persons aged 10–17 found guilty	224	373	373	408	346
Persons aged 10–17 receiving a caution[1]	[3]	[3]	[3]	[3]	[3]
Merseyside police force area (including St. Helens)					
Persons aged 10–17 found guilty	2,780	2,613	3,096	3,142	3,029
Persons aged 10–17 receiving a caution[1]	3,909	3,554	2,177	1,498	1,793
North West region (including Merseyside)[2]					
Persons aged 10–17 found guilty	13,866	14,389	16,032	16,455	16,209
Persons aged 10–17 receiving a caution[1]	19,026	16,328	12,501	11,966	9,750

[1] Cautions for persons under 18 were replaced by reprimands and final warnings from June 2000.

[2] Includes police force areas of Cheshire, Cumbria, Greater Manchester, Lancashire and Merseyside.

[3] not available.

Motor Vehicle Theft

Mr. Chope: To ask the Secretary of State for the Home Department how many *(a)* thefts of motor vehicles and *(b)* thefts from motor vehicles occurred in each of the last five years; and what proportion of each were committed after a window was broken. [145533]

Ms Blears: Estimates from British Crime Surveys (BCS) are set out in the table. In 1998 and 2000 BCS respondents were asked about their experiences of crime in the previous calendar year. Following a change in the BCS sample design, from 2001–02 onwards respondents were asked about their experiences of crime in the 12 months prior to the interview.

	1998	*2000*	*2001–02*	*2002–03*
Total thefts of /thefts from motor vehicle (Number)	2,527,000	2,135,000	1,806,000	1,703,000
Of which:				
Thefts of a motor vehicle (Number)	370,000	328,000	315,000	278,000
Offender broke window/tried to (Percentage)	16	13	17	Not yet available
Thefts from a motor vehicle (Number)	2,157,000	1,807,000	1,491,000	1,425,000
Offender broke window/tried to (Percentage)	49	47	45	Not yet available

Mr. Chope: To ask the Secretary of State for the Home Department (1) if he will include in the next edition of the booklet "Steer Clear of Car Crime" a reference to the retro-fitting of security film to motor vehicle windows; [145534]

(2) pursuant to his answer of 3 December 2003, *Official Report*, column 71W, on vehicle crime, whether the retro-fitting of security film to motor vehicle windows is recognised by his Department as a means of improving vehicle permitted security. [145616]

Ms Blears: We recognise that the retro-fitting of security film to motor vehicle windows has the potential to improve vehicle perimeter security. We will raise motorists' awareness of security film through Government publicity material, including the booklet "Steer Clear of Car Crime", when we are satisfied that products are available that meet Home Office attack resistance requirements and the appropriate standards set out in the Road Vehicles (Construction and Use) Regulations 1986, Directive 92/22/EEC and UN/ECE Regulation 43 to ensure safety and durability.

Police

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment has been made of the response of the police to the Getting the Best Leaders to Take on the Most Demanding Challenges project. [146276]

Ms Blears: An extensive consultation exercise was undertaken on the key findings contained in the project on "Getting the Best Leaders to Take on the Most Demanding Challenges". A number of regional seminars were held to discuss the key findings with those who would be most affected by any new policies arising from the project report. Approximately 320 people, representing the broad spectrum of the police service attended the seminars and over 100 written responses were also received. The results of the consultation exercise were considered by the Police Leadership Development Board (PLDB) on which all the major stakeholders, including all the police associations and the Association of Police Authorities are represented.

These responses and the views of the PLDB informed the advice given to Ministers and subsequent decisions on the future direction of policy.

As a result we are taking forward a number of measures to improve the identification, selection, support and development of those with the potential to be chief officers, including establishing a central advisory service which will be an embryonic form of a new body, the Police Leadership Centre, which will bring together all central work on police leadership within the remit of one organisation.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on the pay and conditions package for the police implemented from 1 April 2003. [146277]

Ms Blears: The package provides improved and modernised pay and conditions of service for the police. It has a number of elements that are important for the wider police reform agenda including modernising the pay system, enabling greater flexibility and targeting rewards for priority work. I am pleased that all parties to the Police Negotiating Board agreement that led to the package are now working to ensure its effective implementation.

Mr. Chaytor: To ask the Secretary of State for the Home Department (1) if he will list, for each police force in England and Wales, the total number of *(a)* male and *(b)* female police officers in post for each of the last 10 years; [142057]

(2) if he will list, for each police force in England and Wales, the total number of *(a)* male and *(b)* female (i) CID and (ii) non-CID officers in post at each rank, for each of the last 10 years. [142058]

Ms Blears *[holding answer 16 December 2003]:* Available information covers the period 1996 to 2003 for gender and rank. In 2003 new calculations for counting police numbers were introduced so the figures are not comparable with previous years.

A copy of the statistics have been placed in the Library.

Proceeds of Crime

Jim Dowd: To ask the Secretary of State for the Home Department pursuant to the Answer of 11th December, *Official Report*, column 621W, whether the net proceeds were £6,635,335; and to whom this money was distributed. [145956]

Caroline Flint: The net proceeds were £602,195, which is the value of cash forfeited by the Metropolitan Police Service (MRS) under the new powers in the Act. The money was remitted to the Consolidated Fund. The sum of £7,237,530 given in my earlier reply represented the total amount of cash seized by the Metropolitan Police. Cash seized can only be forfeited and paid into the Consolidated Fund after a forfeiture order is made by a magistrates' court.

US Bases

Alan Simpson: To ask the Secretary of State for the Home Department what the agreement with the US on bases on UK territory says about the holding of prisoners other than US Service personnel. [145787]

Mr. Ingram: I have been asked to reply.

There is no specific agreement regarding the holding of prisoners. However, the terms of the NATO Status of Forces Agreement (SOFA) 1951 state that the military authorities of the sending state only have jurisdiction over persons who are subject to the military law of that state.

DEFENCE

Iraq

Mr. Hancock: To ask the Secretary of State for Defence in what circumstances the search for weapons of mass destruction in Iraq will be deemed to have been completed. [146184]

Mr. Hoon: The search for Iraq's weapons of mass destruction is the responsibility of the Iraq Survey Group. Once the ISG has made its final recommendations concerning the state of Iraq's weapons of mass destruction programmes it will be for governments to decide what, if any, further action is required.

Legacy Project Study

Mr. Barnes: To ask the Secretary of State for Defence when he will respond to the correspondence to his Department containing the Tim Parry Jonathan Ball Trust's Legacy Project study. [144454]

Mr. Caplin: The Ministry of Defence was consulted at official level when the study was under way. The Department subsequently received a copy of the Legacy Project's report following its launch on 5 November 2003. The Report and its recommendations are now being studied. Officials have already made informal contact with the Legacy Project and look forward to discussing the Report in the near future.

A number of my Ministerial colleagues have received letters about the Report and responses are now being prepared.

Medical Supplies Agency

Bob Russell: To ask the Secretary of State for Defence what evaluation he has made of *(a)* the Medical Supplies Agency as a whole and *(b)* the specific operational capabilities of medical distribution centres. [145349]

Mr. Caplin: The Medical Supplies Agency (MSA) is subject to several formal mechanisms of ministerial and other evaluation. The Agency Annual Report and Financial Accounts is presented to the House of Commons pursuant to Section 7 of the Government Resources and Accounts Act 2000. The latest Report was ordered by the House of Commons to be printed on 16 July 2003 and a copy was placed in the Library of the House on 17 November 2003. In addition to the financial statements, with a certificate by the Comptroller and Auditor General, the Report covers a review of activity, an assessment of performance against agreed key targets and a statement on future strategy. The financial statement is also subject to interim audit by the National Audit Office.

The principal means by which Ministers can evaluate the MSA, and its Medical Distribution Centres, is through the Key Target process. This involves the agreement with Ministers of wide-ranging performance targets for the MSA. Achievement against these targets is then closely monitored and reported to Ministers, through the Director General Management and Organisation, and shown in the Agency Annual Report and Financial Accounts.

Naval Courts Martial

Mr. Gerald Howarth: To ask the Secretary of State for Defence if he will make a statement on the case of Grieves *v.* the United Kingdom; what effects he anticipates this will have on naval courts martial; and what further legislation he anticipates will be necessary to protect service law from challenges from the European Court of Human Rights. [145958]

Mr. Caplin: I refer the hon. Member to my Written Ministerial Statement of 6 January 2004, *Official Report*, column 5–6WS.

Reservists

Mr. Hancock: To ask the Secretary of State for Defence how many reservists lost their civilian jobs as a result of serving in the armed forces, in each of the last five years; how many filed claims for compensation; what the average time taken to settle each case was; how much was received by each of the claimants, net of legal expenses; and if he will make a statement. [146178]

Mr. Caplin: There is no requirement for reservists to provide the information requested to the Ministry of Defence. There is, therefore, no comprehensive record of the numbers of reservists who may have lost their civilian jobs as a result of service in the armed forces. However, protection is provided by reinstatement under the Reserve Forces (Safeguard of Employment) Act 1985. Over 8,600 reservists were called-out to support Operation TELIC and we are aware of only 11 individuals who needed to bring a case under the 1985 Act. This continues to show the high level of support from both reservists and employers which the Government is pleased to acknowledge.

Territorial Army

Mr. Liddell-Grainger: To ask the Secretary of State for Defence how many Territorial Army doctors are serving in the Gulf. [145767]

Mr. Caplin: Eleven.

INTERNATIONAL DEVELOPMENT

Andrew Smith

Norman Lamb: To ask the Secretary of State for International Development pursuant to his answer of 9 December 2003, *Official Report*, column 830W, what contracts his Department entered into prior to the last 12 months with *(a)* Avient Air and *(b)* other companies in which Mr. Andrew Smith has an interest; what services were provided to his Department under these contracts; what the value of these contracts was; when these contracts were entered into; and if he will make a statement. [146418]

Hilary Benn: We had no contracts with Avient Air. As far as my Department is aware, we had none with any other companies in which Mr. Smith has an interest.

Civil Servants (Disabilities)

Mr. Goodman: To ask the Secretary of State for International Development what progress has been made in meeting targets for the proportion of people with disabilities in senior posts in his Department. [146006]

Hilary Benn: Statistical information about senior civil servants with disabilities is available on the Civil Service Statistics website at: http://www.civil-service.gov.uk/statistics/documents/pdf/disability-oct03.pdf

As there are less than five members of the senior civil service in my department with a disability, the actual number is not published in order to protect the privacy of the individual in line with exemption 12 of the Code of Practice on Access to Government Information.

DFID's target for the proportion of people with disabilities in senior posts is 3.3 per cent.

HIV/AIDS (Africa)

Bob Spink: To ask the Secretary of State for International Development what action he will take to increase access to anti-retro viral drugs for HIV positive people in the African pandemic area. [145160]

Hilary Benn: DFID is committed to working with others, including our donor partners, the pharmaceutical industry, investors, developing country governments and non-governmental organisations (NGOs) to improve access to medicines in developing countries, including for the treatment of HIV/AIDS.

With the World Health Organisation, DFID believes that affordable pricing, sustainable financing, reliable health and supply systems, and the rational selection and use of existing drugs are all essential to improve access to medicines.

In line with this, DFID has committed over £1.5 billion since May 1997 to support the strengthening of health and supply systems in developing countries, which will help to build capacity to deliver medicines to the poor and to make effective choices about the selection of drugs. The UK has also pledged $280 million to the Global Fund to Fight AIDS, TB and Malaria (GFATM). This will help strengthen health system capacity to deliver effective and affordable prevention, treatment, care and support programmes, based on locally determined needs and building upon countries own national priorities. According to UNAIDS, the UK is the second largest bilateral donor for HIV/AIDS programmes.

DFID supports a comprehensive response to HIV/AIDS, which includes prevention, treatment and care and alleviation of the impact of AIDS. We welcome recent reductions in the price of both patent and generic anti-retroviral drugs for the treatment of HIV. These reductions have created new opportunities to allow poor people to benefit from the same life-saving treatment that has been available in affluent countries. We will continue to work with the WHO, the patent based and generic pharmaceutical industries and others to further reduce prices. DFID supports the target set by the World Health Organisation and UNAIDS for three million people receiving treatment by the end of 2005. A new policy on treatment and care, to be launched early next year, will set out how DFID will co-ordinate work with partners to promote anti-retroviral treatment for poor people and for women.

WORK AND PENSIONS

Asbestos

Simon Hughes: To ask the Secretary of State for Work and Pensions how many people have died from asbestos-related diseases in London in each year since 1990; and what estimates his Department has made of the number of likely deaths in future years. [146087]

Mr. Browne: The numbers of deaths each year from 1990 in the Government Office Region of London due to mesothelioma, and deaths where the deceased had asbestosis are given in the following table. In addition, it is estimated that for each mesothelioma there are one to two lung cancer deaths due to asbestos.

Deaths from mesothelioma and asbestosis in London, 1990–2001

	Mesothelioma	*Asbestosis (without mesothelioma or lung cancer)*
1990	116	16
1991	109	32
1992	116	14
1993	140	14
1994	135	14
1995	138	12
1996	137	25
1997	157	14
1998	150	9
1999	158	12
2000	[1]161	12
2001	[1]175	13

[1] Provisional.

Source:
HSE mesothelioma and asbestosis registers.

Statistical modelling has been used to estimate the future peak number of mesothelioma deaths in Great Britain. Predictions of future deaths are not available for the London region. The annual total number of mesothelioma deaths in Great Britain is expected to peak at around 1,950 to 2,450 deaths some time between 2011 and 2015. (The total number of mesothelioma deaths in Great Britian in 2001 was 1,848; the 175 mesothelioma deaths in London in 2001 represent 9.5 per cent. of this total). It is estimated that the ratio of one to two of the number of asbestos-related lung cancers to the number of mesotheliomas will decrease slightly over time. No estimates have been made of the likely deaths in future years due to asbestosis.

Attendance Allowance

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what proportion of attendance allowance awards were allocated to each disability group as defined by the Department *(a)* since the new pack was introduced in October 2003 and *(b)* under the previous system. [146740]

Mr. Pond: Information on the proportion of attendance allowance awards allocated to each disability group as defined by the Department is obtained from quarterly extracts from the attendance allowance computer system. The last quarterly extract covered the quarter ending 31 August 2003.

New attendance allowance awards by medical condition during the quarter ending 31 August 2003

	Thousand
All	84.8
Other unspecified mainly terminally ill	10.5
Arthritis	18.1

[1] Figures are less than 500 and subject to a high degree of sampling variation.

Notes:

1. Figures are in thousands and rounded to the nearest hundred.
2. '—' denotes nil or negligible.
3. From November 2002, the methodology for producing these figures was changed to allow statistics to be published much sooner. This has resulted in a small increase in the reported caseload. This is because some cases which have actually terminated but have not yet been updated on the computer system are now included.
4. Figures represent decisions made on new attendance allowance claims only during this period.

Source:

IAD Information Centre. 5 per cent. sample.

The data for the quarter ending 30 November 2003 will not be available until late February 2004. The next publication relating to November 2003 will be released on 17 March 2003. The delay between data collection and publication is because the information centre must quality assure the data, produce standard tables and make a dataset available for further ad hoc analysis.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what proportion of attendance allowance claims, processed since the new claim pack was introduced in October 2003, have been subject to appeal. [146742]

Mr. Pond: The following information shows the number of decisions made on new attendance allowance claims in the months of October and November 2003 and the number of attendance allowance appeals registered in the same months. Decisions appealed in October and November will contain a mix of claims made on the old and new forms. No separate data is available.

	October 2003	*November 2003*
Decisions made	35,111	30,957
Appeals registered	1,213	1,120
Percentage	3.45	3.61

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what proportion of attendance allowance claimants have been contacted by telephone to discuss their claim since the new claim pack was introduced in October 2003. [146743]

Mr. Pond: Statistics on the number of telephone calls made to attendance allowance customers to discuss their claim are not routinely collected.

Capability Reports

Mr. Goodman: To ask the Secretary of State for Work and Pensions what assessment he has made of the piloting of capability reports for personal advisers in jobcentres; and if he will make a statement. [146623]

Mr. Browne: Since 2000, the Department has been piloting the use of capability reports by personal advisers conducting work-focused interviews with customers claiming incapacity benefit. The Department commissioned research to assess the effectiveness of this capability report in supporting personal advisers and has undertaken additional in-house evaluation.

Research undertaken by the National Centre for Social Research for the Department for Work and Pensions was published in 2002 ("Evaluation of the Capability Report: Identifying the work-related capabilities of incapacity benefit", WP Research report 162), copies of which are in the Library.

In taking forward findings from this evaluation, a range of activities were put in place to improve the use and effectiveness of the capability reports, including improving training for advisers and piloting a shorter version.

Formal piloting of the clerical capability reports ended in March 2003; this work has informed the development of an electronic version of the report. The new incapacity benefit pilots will include an evaluation of the role of this new capability report.

Child Support (Army Personnel)

Mr. Peter Duncan: To ask the Secretary of State for Work and Pensions what percentage of army personnel who are required to pay child support were in default with payments in each of the last five years for which figures are available. [145675]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. Peter Duncan, dated 8 January 2004:

In reply to your recent Parliamentary question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked what percentage of army personnel who are required to pay child support were in default with payments in each of the last five years for which figures are available.

The Agency does have some relevant information about personnel in Her Majesty's Forces but does not distinguish those in the army. The percentage of fully assessed Child Support Agency cases, where the non-resident parent is in Her Majesty's Forces and has some outstanding arrear, is estimated in the table below:

	% with an arrear
1999	62
2000	57
2001	57
2002	56
2003	63

I hope this is helpful.

Disabled Jobseekers

Mr. Goodman: To ask the Secretary of State for Work and Pensions how many specialist teams were available to work with disabled jobseekers in jobcentres in each year since 2000. [146624]

Mr. Pond: Disability Employment Advisers (DEAs) within Jobcentre Plus provide support to people facing the complex barriers to work associated with disabilities. They can offer help with finding work and can refer people, where appropriate, to occupational health assessments, training and the full range of Jobcentre Plus disability programmes.

The information is not available in the format requested, as figures are not collected centrally. However, we estimate there are currently around 650 DEAs employed by Jobcentre Plus.

Jobcentre Plus

Mr. George Osborne: To ask the Secretary of State for Work and Pensions what the terms are of the Jobcentre Plus Programme Procurement Review; what the timetable is for the completion of the Review; and what independent assessment of Jobcentre Plus procurement processes are being undertaken as part of the review. [144600]

Mr. Browne: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Mr. George Osborne, dated 8 January 2004:

As Jobcentre Plus is an Executive Agency, the Secretary of State has asked me to reply to your questions concerning the terms of the Jobcentre Plus Programme Procurement Review; what the timetable is for the completion of the Review; and what independent assessment of Jobcentre Plus procurement processes are being undertaken as part of the review. This is something that falls within the responsibilities delegated to me as Chief Executive of the Agency.

The Jobcentre Plus Programme Procurement Review was initiated following two independent consultants reports towards the end of 2002/03 and is an ongoing review with the following aims and objectives:

1. define and communicate clear roles, responsibilities and accountabilities for all those involved in the procurement, payment and contract management process;

2. improve procurement capability and professionalism across the procurement value chain at each tier of the organisation;

3. support more effective use of IT systems, for example by raising awareness of consequences of data input errors;

4. introduce streamlined, generic procurement processes increasingly supported by e-based approach, for example web based invitations to tender;

5. review funding models and policy to develop fewer IT supported models and to ensure rates support increased provider performance and share risk appropriately;

6. ensure that the provision purchased addresses the needs of customers and employers locally through use of standard 'requirement' templates in districts;

7. work jointly with all key stakeholders including Department for Work and Pensions (DWP), Department for Education and Skills (DfES), Learning Skills;

8. develop and deliver an approved Jobcentre Plus Procurement Strategy, to be incorporated into DWP's Commercial Strategy, which will detail, for example, how best provision should be purchased and paid for, how Jobcentre Plus should interact and develop enhanced relationships with key providers;

9. provide resource, focus and structure through a Director led steering group to ensure proposals for change are developed and implemented resulting in better value for money and an increase in job outcomes from providers.

Jobcentre Plus is committed to keeping providers informed of the progress of the review and to seek provider's views on implementation of proposals. Five provider awareness events launching the review, covering six Jobcentre Plus regions, have been held over the last six months. In addition an ongoing progress update has been sent to all existing providers and also made available on the Jobcentre Plus website. Providers will continue to be updated and their views sought through the Provider Liaison Group. This group meets bi-monthly to discuss issues of common concern. The primary purpose of the group is

to involve providers in planning and implementation of change, giving them the opportunity to put the provider perspective to policy makers.

The overall Jobcentre Plus Procurement Strategy for employment programmes is being developed by an independent consultant drawing on a range of expertise including the Office of Government Commerce, DfES, Home Office 'Active Communities Unit' (relationship with voluntary sector providers).

Changes from the review are being implemented as they are developed and agreed by the Steering Group; the bulk of policy change will be agreed and many changes implemented by April 2004.

I hope this is helpful.

Occupational Pensions

Kevin Brennan: To ask the Secretary of State for Work and Pensions what recent consultations he has had with the European Commission in relation to whether the Government are meeting their obligations to protect occupational pensions under Article 8 of the European Insolvency Directive 1980; and if he will make a statement. [145726]

Mr. Pond: We have not had recent consultations with the European Commission in relation to Article 8 of the EU Insolvency Directive 80/897. However, we have recently sent the Director General for Employment and Social affairs at the European Commission information on the transposition of Article 8 of the EU Insolvency Directive 80/897 and Article 3(4) of Council Directive 2001/23/EC (TUPE).

We take our obligations under Article 8 of the Insolvency Directive seriously and we fully meet our obligations under the Directive, as successive Governments have done since it was adopted in 1980.

In its report of 15 June 1995 on transposition of the Directive (COM(95)164), the European Commission concluded that United Kingdom legislation met the requirements of Article 8. This was further confirmed on 20 December 2002 by Mrs. Diamantopoulou, on behalf of the Commission, in response to a parliamentary question.

Poverty

Hugh Bayley: To ask the Secretary of State for Work and Pensions if he will estimate the number of children living in poverty in *(a)* the UK, *(b)* Yorkshire and *(c)* the City of York in (i) 1997 and (ii) now. [146469]

Mr. Pond: Poverty and social exclusion are complex and multi-dimensional issues, affecting many aspects of peoples' lives—including their living standards, health, housing, the quality of their environment—and not just low income. The fifth annual "Opportunity for all" report (Cm 5956) sets out the Government's strategy for tackling poverty and social exclusion and presents information on the indicators used to measure progress against this strategy.

Specific information regarding low income for Great Britain is available in "Households Below Average Income 1994/95–2001/02". Data is not available at the UK level, or below regional level.

"Measuring child poverty", published in December 2003, outlines the Government's measure of UK child poverty for the long term. This new measure will begin from 2004–05.

All publications listed are available in the Library.

HEALTH

Child Protection Register

Dr. Tonge: To ask the Secretary of State for Health, how many children on the Child Protection Register have not yet been allocated a social worker. [145724]

Margaret Hodge: The information requested is not held centrally.

The Government accepted Recommendation 54 of the Victoria Climbie Inquiry Report which stated that "Directors of Social Services must ensure that all cases of children assessed as needing a service have an allocated social worker. In cases where this proves to be impossible, arrangements must be made to maintain contact with the child. The number, nature and reasons for such unallocated cases must be reported to the Social Services Committee on a monthly basis, (paragraph 6.589)".

The allocation of social workers was included in the checklist of good practice recommendations issued on publication of the report. The resulting Social Services Inspectorate (SSI) audit revealed that a small number of local authorities had children who were not allocated a social worker. The SSI will follow up this issue as part of its performance assessment of councils.

Genetically Modified Food

Joan Ruddock: To ask the Secretary of State for Health pursuant to the answer of 17 December, *Official Report*, column 995W, on genetically modified food, whether safety testing for Bt11 sweetcorn was carried out on sweetcorn destined for human consumption. [146327]

Miss Melanie Johnson: The safety of Bt11 sweetcorn has been evaluated under the procedures set out in Regulation (EC) No 258/97 and according to the European Community Scientific Committee on Food's scheme for the safety assessment of genetically modified foods. The safety assessment involved detailed analysis of both the Bt11 field maize and Bt11 sweetcorn intended for human consumption. The Scientific Committee on Food was satisfied on the basis of all the information provided that the Bt11 sweetcorn was as safe as its conventional counterpart.

Health Visitors

Mr. Baron: To ask the Secretary of State for Health what the vacancy rates were for health visitors in *(a)* the UK, *(b)* London and *(c)* each region for each year since 1997. [146326]

Mr. Hutton *[holding answer 7 January 2003]:* The Department's annual vacancy survey, which collects health visitor vacancies started in 1999. The three month vacancy rate and number for health visitors and also the number of health visitors in post in both whole time equivalent and headcount in England and in each Government Office Region since 1999 is shown in the table.

Information in respect of health visitors in Scotland and Wales is the responsibility of the devolved administrations. While the institutions in Northern Ireland are dissolved responsibility rests with Ministers in the Northern Ireland office.

West Midlands	0.5	5	1,108	1,391
Yorkshire and the Humber	0.9	11	1,097	1,413

Notes:

1. Three month vacancy information is as at 31 March each year.

2. Three month vacancies are vacancies which Trusts are actively trying to fill, which had lasted for three months or more (whole-time equivalents).

3. Rates are three month vacancies expressed as a percentage of three month vacancies plus whole-time equivalent staff in post.

4. From 2001, rates are calculated using staff in post from the Vacancy Survey. Prior to this, rates are calculated using staff in post from the previous September's workforce census.

5. Staff in post data is as at 30 September each year.

Waiting Lists/Times

Mr. Brady: To ask the Secretary of State for Health what estimate he has made of the waiting time for a routine MRI scan in each NHS trust in England. [145184]

Mr. Hutton *[holding answer 5 January 2003]*: Data on waiting times for diagnostic tests are not collected centrally, however data may be collected locally. The central returns capture consultant speciality level data on waits for a first outpatient appointment and for inpatient admissions.

However, it is the Governments' priority to ensure that all patients are seen quickly in the first instance so that if diagnostic tests are required they are requested sooner. Where this is not the case we are determined to speed up the process. The National Health Service is committed to reducing the length of time that people wait before their treatment starts and the NHS Plan set targets for staged reductions in waiting times.

Public Health Nurses

Mr. Baron: To ask the Secretary of State for Health whether public health nurses are employed within the NHS. [146323]

Mr. Hutton *[holding answer 7 January 2003]*: Health visitors, school nurses, communicable disease control nurses and occupational health nurses are employed as public health nurses within the National Health Service. These disciplines focus on preventing ill health and operate at a population level as well as undertaking preventive work with individuals and families.

Old Runwell Hospital

Mr. Francois: To ask the Secretary of State for Health when he expects to complete the sale of the Old Runwell Hospital site for partial redevelopment; and if he will make a statement. [145064]

Mr. Hutton *[holding answer 5 January 2003]*: It is intended to settle a disposal strategy for the Old Runwell Hospital site once outline planning permission has been achieved.

Social Workers

Dr. Tonge: To ask the Secretary of State for Health what action he is taking to increase the number of social workers with a child protection background. [145723]

Dr. Ladyman: The Government are funding a national social work recruitment campaign aimed at raising awareness about what social workers do and increasing the number of applications to social work training. The campaign has been successful so far in reversing the trend of falling numbers of applications to social work courses: in 2002 the applications rose by 6.5 per cent. A post-qualifying child care award was developed in 1999 to ensure that social workers are equipped to undertake complex child care work and provide high quality services to children and families. Child protection is one of the areas covered by the award.

Since January 2000, specific funds have been provided through the Training Support Programme Grant to help support child care social workers who undertake the award.

NORTHERN IRELAND

Departmental Staff

Mr. Russell Brown: To ask the Secretary of State for Northern Ireland what percentage of staff employed within his Department are over 55 years of age; and what *(a)* number and *(b)* percentage of staff recruited over the last 12 months are over 55 years of age. [145928]

Mr. Pearson: 7.2 per cent. of those employed by the Northern Ireland Civil Service and the Northern Ireland Office are aged over 55. 29—or 0.9 per cent.—of those who were recruited in the year to September 2003 were aged over 55.

Civil Servants (Disabilities)

Tim Loughton: To ask the Secretary of State for Northern Ireland how many senior civil servants in his Department are disabled, expressed in *(a)* numbers and *(b)* as a percentage of whole-time equivalents. [144980]

Mr. Pearson: Eight senior civil servants in the Northern Ireland Civil Service and the Northern Ireland Office have declared a disability. This amounts to 3 per cent. of those senior civil servants who have provided information on whether or not they have a disability. Staff provide information on disability voluntarily.

Fair Trade Products

Mr. Bercow: To ask the Secretary of State for Northern Ireland whether it is the policy of his Department to use fair trade products, as a matter of course, in *(a)* sales on departmental premises and *(b)* receptions and meetings involving staff and visitors. [142810]

Mr. Pearson: The sale and use of fair trade products by Departments of the Northern Ireland Administration and the Northern Ireland Office is limited to food products used in catering. Almost all staff catering services have been contracted out since the early nineties and the sale of food products on departmental premises, and their use in receptions and meetings involving staff and visitors, has therefore become the responsibility of the private sector suppliers.

There is no requirement to provide fair trade products. Government Departments in Northern Ireland are free to make their own decisions on such products against a background of obtaining best value for money, the European Community Procurement Directives and individual departmental objectives.

Giant's Causeway

David Burnside: To ask the Secretary of State for Northern Ireland if he will make a statement on the development of tourist facilities at the Giant's Causeway in County Antrim. [146648]

Mr. Pearson: On 14 April 2003 I, along with my ministerial colleague Angela Smith MP, announced proposals to deliver new facilities at the Giant's Causeway which would be capable of offering a world class experience to visitors.

Our proposals centred on the commissioning of an international competition to design new visitor facilities which would complement the Giant's Causeway as a World Heritage Site. This international competition, which will be initiated in early spring, will seek designs from around the world and I am confident that by proceeding along this path we can deliver a world class solution that will continue to capture the imagination of visitors in 20 years time.

The Government are committed to seeing visitor facilities at the Giant's Causeway that are genuinely world class, conform to the highest standards in terms of economic and environmental sustainability and which will greatly enhance Northern Ireland's place on the International map as a tourist destination.

Over the past number of months my officials, in conjunction with colleagues in the Environment and Heritage Service, the Northern Ireland Tourist Board and the Department of Finance and Personnel, have been exploring a number of options with regard to the most appropriate method of delivering the solution. These discussions are ongoing. The National Trust and Moyle District Council, the owners of the site, have also been kept informed of developments.

Prison Service

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how much it has cost to date to transport the *(a)* Director General and *(b)* Director of Operations of the Northern Ireland Prison Service in armoured vehicles when they are in the Province on business. [146176]

Jane Kennedy: It is inappropriate for me to comment on the security arrangements of individuals.

Saville Inquiry

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the cost has been of the Saville Inquiry so far; and what his estimate is of the eventual overall cost. [144450]

Mr. Spellar: On the figures available at the end of December 2003 the total cost of the Bloody Sunday Inquiry has been £127 million. The Northern Ireland Office has spent £103.5 million. My right hon. Friend the Secretary of State for Defence advises me that his Department has spent £23.5 million. The overall cost of the Inquiry is estimated to be £155 million.

Sinn Fein-IRA

David Burnside: To ask the Secretary of State for Northern Ireland if he will make a statement on the relationship between Sinn Fein's elected representatives and the membership of the Provisional IRA and its Army Council. [146646]

Jane Kennedy: The Provisional IRA remains a proscribed terrorist organisation, Sinn Fein are not—they are a political party. However, it is the Government's view that both organisations are inextricably linked. Information about the links between individual members of Sinn Fein and the IRA is an intelligence matter and in line with Part II, Paragraph 4 ("Law enforcement and legal proceedings") of the Code of Practice on access to Government Information, it would be inappropriate to comment.

Teacher Training

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many students graduated from teacher training colleges in each of the last five years; and how many were employed in a school within one year of graduating. [145304]

Jane Kennedy: The number of students who have graduated from the Higher Education Institutions in each of the last five years are shown in the following table. The Department does not maintain statistics on the number of graduates employed in schools within one year of graduating.

Students graduating from teacher training colleges

Institutions	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*
Stranmillis University College	134	127	145	149	167
St. Mary's University College	160	151	146	150	170
Queen's University	159	172	184	190	199
University of Ulster	169	169	181	185	187
Open University	27	25	[1]—	[1]—	[2]—

[1] Course withdrawn.
[2] No graduates until March 2004.

EDUCATION AND SKILLS

School Behaviour and Attendance Funding

Mr. Luff: To ask the Secretary of State for Education and Skills how many schools in each local education authority area received behaviour and attendance funding in the current financial year; and what the total funding made available in the current financial year under the programme was in each local education authority area. [145433]

Mr. Ivan Lewis: The behaviour and attendance strand of our Key Stage 3 Strategy provides audit and training materials and expert advice. These are freely available to all secondary schools. In addition, our Behaviour Improvement Programme (BIP) funds a range of measures to support schools in disadvantaged areas facing the greatest challenges. 60 BIP local education authorities (LEAs) are each receiving about 1.4 million in the current financial year to fund these measures. Individual LEAs and Excellence in Cities partnerships

decide which measures to adopt and which schools to involve in the light of local needs. They give priority to a core group of schools, typically four secondary schools and about 20 linked primary schools in an LEA. But in many LEAs other schools also benefit from BIP measures, which include multi-agency Behaviour and Education Support Teams and extra Learning Support Units, Learning Mentors and Education Welfare Officers as well as locally-devised initiatives.

Child Poverty

Tim Loughton: To ask the Secretary of State for Education and Skills (1) how many children in *(a)* England and *(b)* Wales lived in poverty in (i) 2001–02 and (ii) 2002–03; [145659]

(2) what definition he uses of child poverty. [145660]

Mr. Pond: I have been asked to reply.

Poverty and social exclusion are complex and multi-dimensional issues, affecting many aspects of peoples' lives, including their living standards, health, housing, the quality of their environment and not just low income. The fifth annual 'Opportunity for all' report (Cm 5956) sets out the Government's strategy for tackling poverty and social exclusion and presents information on the indicators used to measure progress against this strategy. The Welsh Assembly also publish their own annual report on poverty and social exclusion, the latest of which is 'The Third annual report on social inclusion in Wales'.

Specific information regarding low income for Great Britain is available in 'Households Below Average Income 1994/95 to 2001/02'; data are not yet available for 2003–03.

'Measuring child poverty', published in December 2003, outlines the Government's measure of UK child poverty for the long-term; this new measure will begin from 2004/05.

All publications listed are available in the Library.

Mr. Djanogly: To ask the Secretary of State for Education and Skills how many *(a)* enrolments and *(b)* graduations there were in each of the last three years in Cambridgeshire further education colleges in (i) construction, (ii) computing, (iii) software engineering, (iv) electronics, (v) manufacturing engineering and (vi) hospitality, catering and tourism. [146442]

Alan Johnson: In the last three years, there were no learners enrolled on Software Engineering courses at further education colleges in Cambridgeshire. The number of enrolments on courses in the other subject areas requested, and the number of qualifications achieved in those subjects, are shown in the table.

	1999–2000		*2000–2001*		*2001–2002*	
Subject Area	*Enrolments*	*Achievements*	*Enrolments*	*Achievements*	*Enrolments*	*Achievements*
Construction	780	590	850	710	920	290
Computing	8,580	5,040	9,190	6,760	9,140	3260
Electronics	90	40	100	20	190	160
Manufacturing Engineering	180	150	210	160	70	30
Hospitality, Catering and Tourism	5,130	770	5940	1,770	5,460	4710

Individualised Student Record

Further Education

Mr. Djanogly: To ask the Secretary of State for Education and Skills what proportion of 16 to 18 year olds in Huntingdon *(a)* started further education courses and *(b)* completed such courses in each year since 1999. [146437]

Alan Johnson: Data on the percentage of students participating in post-compulsory education are not calculated for areas smaller than Local Education Authorities (LEAs) as reliable estimates cannot be made. Furthermore, participation rates at sub-national level are only available for 16 and 17 year olds. The percentage of 16 and 17 year olds participating in full-time education and in education and training in Cambridgeshire LEA for end 1998 to end 2000, the latest available year, is shown in the table.

Participation in education and training of 16 and 17 year olds in Cambridgeshire LEA, 1998 to 2000

Year	*Full-time education (percentage)*	*Total education and training[1] (percentage)*
1998	65	76
1999	67	77
2000	66	76

[1] Includes participation in full-time education, part-time education and government supported training

Source:
DfES Statistical Bulletin, published 16 December 2002.

Completion (retention) rates are only available for Learning and Skills Council (LSC) funded learners at further education and sixth form colleges. The proportion of courses studied for at colleges in Cambridgeshire by 16–18 year olds that were completed in the three years to 2001/02 is shown in the table.

Retention rates in LSC funded FE provision for 16–18 year olds studying at FE and sixth form colleges in Cambridgeshire by expected end year

Expected end year	*Retention rate (percentage)*
19992000	82
2000–01	83
2001–02	86

School Funding

Mr. Hoban: To ask the Secretary of State for Education and Skills if he will list for each programme funded by the Department for *(a)* primary schools and

(b) secondary schools introduced in each year since 1997 the funding available in the year the programme started and in each subsequent year; and whether at the end of the life of each programme it was expected that the school would continue to fund that programme. [145613]

Mr. Charles Clarke *[holding answer 5 January 2004]*: It is not possible to answer the Question in precisely the way it has been asked. Table 3.2 of the Department's Annual Report sets out the Departmental funding for schools since 1997 and that shows an increase from less than £2 billion in 1998 to almost £9 billion this year. A copy of the Report has been placed in the Library. However, most programmes were not specifically for particular types of schools and local education authorities were free to distribute the grants between schools in their areas.

In 2003–04, the Department stopped paying grant for programmes which were worth £800 million in 2002–03 as part of our commitment to reduce ringfenced funding for schools. However much of this funding relates to time-limited courses that had run their course. Having regard to the £250 million headroom between the £2.7 billion increase in general funding for schools which took account of the overall pressures on schools, including the £800 million grant reduction, we intended that each school should choose for itself whether to continue the programmes previously supported through specific grant.

Over the next two years, we have announced that we will be making available additional non-ringfenced resources to reverse the reductions in the Standards Fund which were previously planned. For 2004–05, schools will generally receive a 4 per cent. cash increase on this year's Standards Fund allocation so there should be no reason for any school to decide on financial rather than educational grounds not to continue a particular programme. In total I am making an additional £820 million extra available over the years 2004/05 and 2005/06.

School Leavers

Tim Loughton: To ask the Secretary of State for Education and Skills how many children left school in 2002–03 without a GCSE pass. [145663]

Mr. Miliband: The provisional figures for 2002/03 show that 5.4 per cent., or 33,506 pupils aged 15, failed to achieve a GCSE or GNVQ equivalent pass.

School Trips

Mr. Gardiner: To ask the Secretary of State for Education and Skills if he will assess the *(a)* educational and *(b)* social benefits for pupils from low income backgrounds of taking part in school trips; and if he will take steps to provide specific funding for such trips. [145526]

Mr. Miliband: My Department recognises the benefits of educational visits for all pupils. Such visits which take place during term time are available to all maintained school pupils, regardless of the parental income.

Student Finance

Simon Hughes: To ask the Secretary of State for Education and Skills what the average student loan taken out by students in *(a)* each region and *(b)* England was in each year since 1997–98. [146092]

Alan Johnson: The tables show the average full-time income-contingent loan taken out by students in the English Government Office Regions and in England and the average mortgage style loan taken out by students in England.

Average income-contingent[1,2] loan taken out by domicile of student—academic years 1999/2000 to 2002/03[3]

	Academic year			
Government Office Region[4,5]	*1999/2000*	*2000/01[6]*	*2001/02[7]*	*2002/03[8]*
North East	3,060	3,020	3,060	n/a
North West	3,130	3,090	3,130	n/a
Yorkshire and Humberside	3,110	3,080	3,130	n/a
East Midlands	3,190	3,120	3,170	n/a
West Midlands	3,140	3,090	3,150	n/a
East of England	3,180	3,150	3,190	n/a
Inner London	3,540	3,470	3,500	n/a
Outer London	3,240	3,200	3,240	n/a
South East	3,180	3,130	3,160	n/a
South West	3,240	3,190	3,250	n/a
England	3,180	3,160	3,190	3,240

n/a = Regional breakdown not yet available.

[1] New student support arrangements were introduced from academic year 1998/99. New students in 1998/99 (apart from certain specified exceptions) received support for maintenance expenditure through means-tested grants (comprising about a quarter of the support available) and non income-assessed student loans (comprising about three quarters of the support available). From 1999/2000 students who entered higher education after 1998/99 received support for maintenance expenditure through loans, of which approximately three quarters of the value was non income-assessed. Loans made under these arrangements are repayable on an income contingent basis.

[2] Excludes the fixed rate loans (£500) for eligible part-time students, introduced in September 2000.

[3] Figures have been rounded to the nearest £10.

[4] Government Office Region of domicile of student.

[5] Regional level data have been taken from available information and may include a small number of loans which have been authorised for payment but not paid.

[6] The apparent fall in the average value of income-contingent loan taken out in 2000/01 can be explained mainly by the fact that this was the third year of this loan scheme; students on the third year of a three year course will receive the final year rate of loan which is at a lower rate as it does not cover the summer vacation. This effect is not present in 1999/2000 and has been levelled out in the years subsequent to 2000/01. Additionally, this is likely to be the first year in which those students on sandwich courses have their placement year and are therefore in receipt of the reduced rate of loan.

[7] Latest year for which data by region are available.

[8] Provisional.

Student Loans Company.

Average mortgage style[1] loan taken out by domicile of student — academic years 1999/2000 to 2002/03[2]

Academic year	*Domicile – England*
1999/2000	1,470
2000/01	1,460
2001/02	1,520
2002/03[3]	1,580

[1] Loans available to students who entered higher education up to academic year 1997/98 and those who entered in 1998/99 under existing arrangements. These loans are non-income assessed and are repayable on a fixed term, mortgage style, basis.
[2] Figures have been rounded to the nearest £10.
[3] Provisional
Source:
Student Loans Company.

Data on income-contingent loans at a regional, or England level are not available for academic year 1998/99; data on the domicile of students taking out fixed rate mortgage style loans (normally those who entered higher education before 1998/99) are only available at a UK level for 1997/98 and 1998/99.[3] For subsequent years, data are not available below England level because applications are made through the students' education institution.

Teaching Methods

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to his answer of 11 December 2003, *Official Report*, column 613W, on teaching methods, what the specific provisions are in the *(a)* primary and *(b)* key stage three strategies in relation to the way pupils are grouped. [145475]

Mr. Stephen Twigg: The design of effective lessons is fundamental to the pursuit of high quality teaching and learning whatever the age of the pupil, their level of ability, or the subject or skill being learned.

The Primary Strategy recommends that literacy and mathematics lessons begin with whole class teaching sessions followed by guided reading and writing activities, during which pupils are grouped according to their individual learning needs.

The Key Stage 3 National Strategy recommends a consideration of pupil grouping as part of classroom organisation which is one contributory factor towards effective lesson design. Furthermore, the Strategy has produced a range of materials for schools (such as critical teaching units, literacy progress units, Springboard 7, learning challenge and booster materials) to use in meeting the needs of pupils below expected levels. These allow schools, depending on their particular local circumstances, the flexibility of being able to provide whole class teaching; to re-group pupils according to their needs and abilities; provide within-class pupil grouping and one-to-one coaching or mentoring.

Truancy

Mr. Forth: To ask the Secretary of State for Education and Skills pursuant to his answer of 4 December, *Official Report*, column 194W, on truancy, if he will list the programmes within the Behaviour Improvement Programme 2002 to 2004; and what the *(a)* purpose and *(b)* cost of each was. [R] [144138]

Mr. Ivan Lewis: The Behaviour Improvement Programme funds a range of measures to improve behaviour, reduce exclusions, provide full-time education for excluded pupils, reduce truancy, improve attendance and provide key workers for children at risk of exclusion, truancy and crime. Different measures are adopted by local education authorities and Excellence in Cities partnerships to reflect local priorities. They typically include:

Behaviour and Education Support Teams, which bring together education, health and social care professionals to provide multi-agency support for pupils with serious behaviour problems, their families and their schools;

expanded Learning Support Units, which provide in-school education for disruptive pupils outside mainstream classes;

additional Learning Mentors, who provide support for individual pupils with behaviour and attendance problems;

additional time for senior school staff to focus on behaviour and attendance issues;

electronic registration systems for schools;

enhanced Pupil Referral Units and other forms of alternative provision for excluded pupils;

additional services on school sites to increase community involvement; and

support for parents of disaffected or excluded pupils.

Each BIP LEA is receiving about £1.4 million in 2003–04 and will receive a similar level of funding in 2004–05.

CONSTITUTIONAL AFFAIRS

Correspondence

David Winnick: To ask the Parliamentary Secretary, Department for Constitutional Affairs pursuant to his answer of 18 December 2003, *Official Report*, column 1115W, when the hon. Member for Walsall, North will receive a reply to his letter of 13 November to Lord Filkin; and why the reply was not sent by 22 December. [146618]

Mr. Leslie: Lord Filkin wrote on 7 January 2004 to my hon. Friend the Member for Walsall, North in response to his letter of 13 November 2003. I apologise for the delay, unfortunately administrative errors prevented an earlier reply.

PRIME MINISTER

LNM Holdings

Adam Price: To ask the Prime Minister what representations he and members of the Government have received from LNM Holdings in the last year. [146649]

The Prime Minister: As far as I am aware I have received none and my office has made inquiries with the Foreign and Commonwealth Office, the Department for Trade and Industry and the Department for International Development, who are also not aware of any representations.

Proportional Representation

Mr. Viggers: To ask the Prime Minister what discussions he has held recently with representatives of political parties on the subject of proportional representation. [146620]

The Prime Minister: I have had no recent discussions on this issue.

Steel Industry (Romania)

Adam Price: To ask the Prime Minister what representations his Government have made to the Romanian Government regarding the steel industry since January 2003. [146650]

The Prime Minister: The Government have made no bilateral representations to the Romanian Government regarding the steel industry since January 2003.

The Government have had contacts with the Romanian Government on steel in the context of adherence to existing trade agreements and EU accession negotiations on competition and state aid.

DEPUTY PRIME MINISTER

Brownfield Sites

Jane Griffiths: To ask the Deputy Prime Minister whether his Department designates former mineral workings as brownfield sites; and if he will make a statement. [145388]

Keith Hill: The Government's definition of brownfield land includes land used for mineral extraction and waste disposal where provision for restoration has not been made through development control procedures. Specifically this relates to minerals and waste sites which have remained unrestored after use. All other such sites will be restored to 'greenfield' status, by virtue of the planning condition.

Community Facilities

Dr. Whitehead: To ask the Deputy Prime Minister how much land has been acquired by *(a)* English Partnerships and *(b)* regional development agencies since January 2002 to enable the provision of (i) public transport, (ii) public open spaces, (iii) schools, (iv) hospitals and (v) other community facilities in each of the (A) four growth areas in the South East and (B) nine pathfinder areas announced in the Communities Plan. [145751]

Keith Hill: Since January 2002, English Partnerships and the regional development agencies (RDAs) have acquired land for regeneration activity within the boundaries of the four Growth areas and the nine Market Renewal Pathfinder areas, as follows:

Quantity of Land acquired (hectares)

	English Partnerships	*Regional development agencies*
Market Renewal Pathfinder areas	26.5	145.2
Growth areas	5.25	54.3

These acquisitions include sites within urban regeneration company areas that fall within the boundaries of the Pathfinder and Growth areas. Land has not yet been directly acquired as part of the Market Renewal Pathfinder schemes.

In his statement on 30 July 2003, my right hon. Friend the Deputy Prime Minister announced that we had agreed in principle to provide funding to help English Partnerships and the relevant RDAs acquire land for remediation and eventual release for future development in the Milton Keynes/South Midlands and Ashford Growth Areas.

Sustainable mixed use will be promoted for acquired sites but until further master planning and development agreements have been finalised, their precise use will not be known.

Deprivation

Mr. Betts: To ask the Deputy Prime Minister what progress has been made in taking housing costs into account when measuring income levels in revised indices of deprivation. [146109]

Yvette Cooper: The possibility of making an adjustment for the 'cost of living' including housing costs was considered as part of the project to update the Indices of Deprivation 2000. The main source of comprehensive data on this subject is the Retail Price Index compiled by the Office for National Statistics. This Index, however, is only available at national level and would not allow adjustments to the Income domain at sub-district level. It is therefore not possible to make any adjustment for housing costs in this update.

Mr. Betts: To ask the Deputy Prime Minister what progress has been made in publishing indices of deprivation by Super Output Area level. [146110]

Yvette Cooper: The proposal to publish the Index at Super Output Area level (SOA) was overwhelmingly supported in the recently concluded consultation on updating the Indices of Deprivation. The Office of the Deputy Prime Minister's ability to publish the Index at SOA Level 1 (between 1,000–3,000 population) is dependent on the provision of the SOA boundaries and testing of the data to ensure that there are no concerns over disclosure or data reliability at this level. The relevant boundaries have now been received from the Office for National Statistics and testing of the data has begun.

Firefighters

Mr. Djanogly: To ask the Deputy Prime Minister how many regular firefighters were employed by the Cambridgeshire Fire and Rescue Service on 1 December 2003. [146436]

Mr. Raynsford: Information provided by the Cambridgeshire Fire and Rescue Service shows that there were 283 wholetime firefighters employed by them on 1 December 2003.

Housing Stock Transfer

Mr. Drew: To ask the Deputy Prime Minister what plans he has to monitor the performance of tenants' advisers in the process of stock transfer; and which organisations will undertake this work. [146498]

Keith Hill: The Office of the Deputy Prime Minister has no plans to monitor the performance of Independent Tenants' Advisers (ITAs) involved in the stock transfer process. Guidance published in December 2001 by the Office makes clear that an ITA is expected to provide good quality, tailored and flexible services that meet tenants' needs.

Mr. Drew: To ask the Deputy Prime Minister how many complaints have been received on the role and probity of tenants' advisers involved in discussions on transfer of council stocks. [146499]

Keith Hill: While the Office of the Deputy Prime Minister may receive comments in relation to the work of Independent Tenant Advisers, in general there have been no formal complaints received on the role and probity of tenants' advisers involved in discussions on transfer of council stock.

Local Authority Funding

Mr. Tyrie: To ask the Deputy Prime Minister if he will publish the *(a)* calculations and *(b)* assumptions used to reach the revised levels he has set for grant floor and ceilings following the Chancellor's announcement in the pre-Budget Report on 10 December. [144633]

Mr. Raynsford: I refer the hon. Member to the answer given on 16 December 2003, *Official Report*, column 856W.

Local Referendums

Bob Russell: To ask the Deputy Prime Minister what procedures are available to residents of shire boroughs and districts to request a referendum on a major local issue. [146571]

Mr. Raynsford: Residents may make representations to their local authority about holding referendums on any matter, including finance, which relates to the services for which the local authority is responsible, or to its power to promote the well-being of its area. The decision on whether to hold the referendum is for the local authority.

Millennium Dome

Miss Kirkbride: To ask the Deputy Prime Minister how much public money has been spent on the Millennium Dome in each week in the last three months; and if he will make a statement on the total amount of public money spent on the Dome since 1 January 2001. [145811]

Keith Hill: The New Millennium Experience Company (NMEC) was responsible for maintaining the Dome from its closure on 31 December 2000 to end of June 2001. During this period NMEC, funded by the National Lottery and not taxpayers, incurred costs of £8.2 million; although this was partially offset by £3.9 million of income from the sale of assets during the decommissioning stage.

English Partnerships (EP) took over responsibility in July 2001. Up to end of September 2003 EP incurred, net of VAT, expenditure of £26.6 million, after deduction of income from fee-paying events of £0.9 million. This figure (before deduction of income) is broken down as follows: management and maintenance (including staff costs) £6.5 million; decommissioning and site preparation for its long-term use £6.7 million; current sale process £7.6 million; earlier competition to find a long-term use for the Dome £6.7 million.

Weekly figures are not readily available, and final cost figures are not yet available for the last quarter of 2003, as English Partnerships is awaiting a number of outstanding invoices. EP's costs incurred for the three months up to and including September 2003 were £1.05 million, comprising £385,000 on the current sale process and £665,000 on management and maintenance. The incurred monthly breakdown is as follows:

(£)

Month	*Current Sale Process*	*Management and Maintenance (including staff costs)* [1]	*Total*
July	131,000	188,000	319,000
August	95,000	252,000	347,000
September	159,000	225,000	384,000
Total	385,000	665,000	1,050,000

[1] Monthly costs include rates, utilities, security and maintenance, and English Partnerships' staff costs on management and maintenance of the Dome. Costs are calculated on an accruals basis and may be subject to reassessments, by the relevant authorities, of rates or other charges included in the cost of managing and maintaining the Dome.

All costs incurred by EP since it took over financial responsibility for the Dome in July 2001 and including the costs of the sale process will be recovered from eventual sale proceeds.

Houses in Multiple Occupation

Ms Oona King: To ask the Deputy Prime Minister if he will list those local authorities in England who do not operate a discretionary notification or control registration scheme for houses in multiple occupation under Part XI of the Housing Act 1985. [146462]

Keith Hill: On the basis of the Housing Investment Programme 2003 returns, a total of 150 local authorities in England have yet not adopted Houses in Multiple Occupation (HMO) registration schemes. These local authorities are listed below:

Adur
Amber Valley
Bassetlaw
Bath and North East Somerset
Bedford
Berwick-upon-Tweed
Blaby
Blyth Valley
Boston
Bradford
Braintree

Ms Oona King: To ask the Deputy Prime Minister what his most recent estimate is of the number of *(a)* households and *(b)* people in privately rented houses in multiple occupation (HMOs) dwellings in England, broken down by (i) traditional and bedsit HMOs, (ii) shared houses and flats, (iii) households with lodgers and (iv) HMO buildings converted into flats. [146463]

Keith Hill: The most recent estimates for private rented houses in multiple occupation are from the 1996 English House Condition Survey:

Private rented HMO in England 1996

Thousands

	(i) Traditional and bedsit HMOs	*(ii) Shared house/flat*	*(iii) Household with lodger*[2]	*(iv) Buildings converted into flats*[1]
(a) Number of households	165	188	202	302
(b) Number of people	267	547	253	472

[1] Shared converted flats, households with lodgers in converted flats and bedsits in converted flats are included in the respective columns not in the converted flat total.
[2] The number of people refers to the number of lodgers and excludes the members of the landlord's household.
Source:
DETR (1999) "English House Condition Survey 1996 Houses in Multiple Occupation in the private rented sector".

Ms Oona King: To ask the Deputy Prime Minister what his most recent estimate is of the number of private houses in multiple occupation (HMOs) accommodation units and dwellings in England, broken down by *(i)* traditional and bedsit HMOs, (ii) shared houses and flats, (iii) households with lodgers and (iv) HMO buildings converted into flats. [146464]

Keith Hill: The most recent estimates for private houses in multiple occupation are from the 1996 English House Condition Survey.

Private rented HMO in England 1996

Thousand

	(i) Traditional and bedsit HMOs	*(ii) Shared house/flat*	*(iii) Household with lodger*	*(iv) Buildings converted into flats*[1]
Number of accommodation units	219	189	202	337
Number of dwellings	56	189	202	337

[1] Shared converted flats, households with lodgers in converted flats and bedsits in converted flats are included in the respective columns not in the converted flat total. *Source:*
DETR (1999) "English House Condition Survey 1996 Houses in Multiple Occupation in the private rented sector".

Starter Home Initiative

Mr. Dhanda: To ask the Deputy Prime Minister what plans he has to extend the Starter Home Initiative for key health workers; and if he will take steps to ensure that a wider range of health care professionals working in the NHS, including radiographers, are eligible. [146495]

Keith Hill: Under the Starter Home Initiative, assistance is available to a wide range of health staff including radiographers. Priorities for assistance depend upon the recruitment and retention difficulties being experienced. From 1 April 2004, a new key worker programme will succeed the Starter Home Initiative. This will provide assistance to first time buyers and existing homeowners who need to move to a larger home. It will also provide homes for key workers at below market rents. Funding will be targeted in areas where the high cost of housing is undermining recruitment and retention. Full details of the new programme, including the eligible key worker groups, will be announced by the beginning of March. Employer contributions will supplement assistance under the new programme.

Thames Gateway

Sir Sydney Chapman: To ask the Deputy Prime Minister what initiatives are in place to improve professional planning and regeneration skills and capacity in order to deliver his plans for the regeneration of the Thames Gateway; and when the Government expect these initiatives to yield a major improvement in the availability of such professional skills and capacity. [146465]

Keith Hill: Improving the skills of planning, design and regeneration professionals will take time and will require the long-term commitment of a wide range of public, private and voluntary organisations.

As part of this process Sir John Egan is currently undertaking a review of the professional skills required, to deliver the strategic objectives of our Sustainable Communities Plan. We are currently awaiting the outcome of this review. The conclusions of Sir John's report will be used to inform our longer-term strategic approach vis-a-vis the development of professional planning, design and regeneration skills as these relate to the built environment in the Thames Gateway and elsewhere.

Through our Sustainable Communities Plan, we have earmarked £17.0 million over the next three years, in order to improve the quality of skills associated with the Built environment. Of this the Commission for Architecture and the Built Environment (CABE) have received an initial allocation of £1.6 million to carry out a specific programme of skills related work. The experience and best practice developed as part of this work will be used to inform our longer-term strategic approach.

Sir Sydney Chapman: To ask the Deputy Prime Minister how the Government will ensure that new housing developments in the Thames Gateway meet high standards of design. [146466]

Keith Hill: The Office of the Deputy Prime Minister is committed to improving the quality of the built environment in the Thames Gateway and elsewhere. To ensure that this happens, Planning Policy Guidance 1 (PPG1) "General Policy and Principles" requires that "good design should be the aim of all those involved in the development process and should be encouraged everywhere". This policy is supported by our good practice guidance, "By Design". We are currently in the process of updating PPG1 and will take this opportunity to restate our commitment to good quality and sustainable design.

The Office of the Deputy Prime Minister is working with a wide range of partners to deliver this through a number of policy initiatives. Our Sustainable Communities Plan is central to achieving this and the comprehensive agenda this sets out includes significant extra funding for the Commission for Architecture and the Built Environment (CABE). This will be used to drive up design standards and to improve associated skills.

We have increased funding for CABE from £0.5 million in 2002–03 to £17.75 million over the next three years. CABE are currently working with a range of key partners to ensure that strategies comprehensively incorporate robust requirements for good design. For example, CABE, in partnership with English Partnerships and the Housing Corporation, are scheduled to launch the Growth Areas Housing Quality Forum in March 2004. The Forum will bring together representatives from all key agencies involved in commissioning and procuring new housing, including local authorities, development agencies, mortgage lenders and landowners and will encourage the active participation of private sector house builders and Registered Social Landlords.

Sir Sydney Chapman: To ask the Deputy Prime Minister how many planning applications for housing or mixed use development in the Thames Gateway have been refused since March 2000 on the grounds of poor design quality. [146467]

Keith Hill: Information relating to the number of planning applications refused in the Thames Gateway since March 2000 on grounds of poor design is not recorded centrally and could be provided only at disproportionate cost. All local planning authorities within the Thames Gateway and elsewhere, are statutorily obliged to keep information relating to the status of individual planning applications within their area of operation.

Sir Sydney Chapman: To ask the Deputy Prime Minister what plans the Government has for local planning authorities in the Thames Gateway to adopt specific quality criteria for housing and other developments; and what role the Government has in encouraging planning authorities to adopt such criteria. [146468]

Keith Hill: Planning Policy Guidance 1 (PPG1) "Planning Policy and Principles" requires that "good design should be the aim of all those involved in the development process and should be encouraged everywhere". This policy is supported by our good practice guidance "By Design". PPG1 also encourages Local Planning Authorities to draw up their own clear policies vis-a-vis the built environment and to prepare supplementary design guidance where appropriate. In preparing local policy and/or guidance, Local Planning Authorities are expected to take full account of any regional guidance that may impact upon their area of operation. For example, London Authorities would need to take account of guidance/criteria contained within the London Spatial Strategy.

To this end, we have no plans at this stage to issue any specific quality criteria for housing and other developments in the Thames Gateway.

The Office of the Deputy Prime Minister is currently in the process of updating PPG1 and will take this opportunity to restate our commitment to achieving good quality and sustainable design vis-a-vis the built environment.

Waste Electrical and Electronic Equipment Directive

Clive Efford: To ask the Deputy Prime Minister what discussions he has had with the Department of Trade and Industry regarding the introduction of the Waste Electrical and Electronic Equipment Directive. [146984]

Phil Hope: Ministers and officials from the Office of the Deputy Prime Minister (ODPM) continue to discuss this issue with those Departments who have an interest in this Directive. This includes involvement in an official level inter-departmental project team led by the Department of Trade and Industry (DTI), which is planning for implementation of the Waste Electrical and Electronic Equipment Directive.

Water Pollution

Jane Griffiths: To ask the Deputy Prime Minister (1) what instances there have been of oil and fuel-related pollution of water from *(a)* industrial and commercial premises and *(b)* domestic premises in each of the past five years; [145784]

(2) how many *(a)* category 1 and *(b)* category 2 instances of oil and fuel-related pollution of water there were from (i) industrial and commercial premises and (ii) domestic premises in each of the past five years. [145785]

Mr. Morley: I have been asked to reply.

The Environment Agency will be able to provide some data for the years 2001–03. This will take a little time to compile but will be made available to the Library of the House as soon as possible. I will write to let you know when that is. Comparable data for earlier years is not available and cannot be provided without incurring disproportionate cost.

Written Answers to Questions

Monday 12 January 2004

CONSTITUTIONAL AFFAIRS

Asylum

Mr. Rosindell: To ask the Parliamentary Secretary, Department for Constitutional Affairs how much the Department spent on the delivery of the asylum process in the last financial year. [146672]

Mr. Lammy: The Department for Constitutional Affairs' expenditure in the 2002–03 financial year for asylum and immigration was £277 million. This covers the costs incurred by the Immigration Appellate Authority and the Courts and, legal aid administered by the Legal Services Commission. Of this we estimate approximately £244 million was attributable to asylum and the remainder to non-asylum immigration work.

Judicial Appointments

Keith Vaz: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many judicial appointments the Lord Chancellor made in November and December 2003; whom he appointed; and to which posts. [146962]

Mr. Leslie: My right hon. Friend the Secretary of State and Lord Chancellor made, or recommended to Her Majesty and/or the Prime Minister, 162 judicial appointments during November and December 2003. A table detailing the names of those appointed, and the post they were appointed to, will be forwarded to my hon. Friend and a copy placed in the House of Commons Library.

Keith Vaz: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many Law Lords he has appointed since 12 June 2003. [146963]

Mr. Leslie: Since 12 June 2003, the Prime Minister has recommended, following advice from my noble Friend the Lord Chancellor, the appointment of three Lords of Appeal in Ordinary. The Queen has approved the Prime Minister's recommendations and all three Lords of Appeal have been appointed.

Judicial Review

Mr. Gerrard: To ask the Parliamentary Secretary, Department for Constitutional Affairs what has been the average time taken in the last year for an application for leave to move to judicial review to be determined. [146493]

Mr. Leslie: For the period 1 December 2002 to 30 November 2003 the average times taken to determine applications for permission to apply for judicial review from the date of issue of proceedings to the date of determination are as follows.

For determination on the papers only:

Civil matters—7.3 weeks[1]

Criminal matters—6.3 weeks[1]

Where the judge directs that he wishes to consider permission at an oral hearing:

Civil matters—10 weeks[1]

Criminal matters—5.2 weeks[1]

Should the application subsequently be renewed following refusal on the papers, the average waiting times from receipt of the application for renewal to the date of determination is:

Civil matters—6.4 weeks[1]

Criminal matters—9.5 weeks[1]

[1] The average figures include any time that cases may be stood out of the list pending determination of lead cases or other matters.

Justice System (Costs)

Mr. Rosindell: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the cost of the justice system was in *(a)* 1995, *(b)* 1997, *(c)* 1999, *(d)* 2001 and *(e)* 2003; and what the projected cost is in 2004–05. [146677]

Mr. Lammy: The information is not held centrally and could be obtained only at disproportionate cost.

Written Constitution

Keith Vaz: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on his policy on a written constitution. [146964]

Mr. Leslie: There are no plans to draft a written constitution for the United Kingdom.

CULTURE, MEDIA AND SPORT

Licensing Act

Bob Russell: To ask the Secretary of State for Culture, Media and Sport if she will amend the Licensing Act 1964 to allow on-duty police officers to be served with refreshments; and if she will make a statement. [146572]

Mr. Caborn: Section 178(b) of the Licensing Act 1964 makes it an offence for the holder of a justices' licence to supply any liquor or refreshment, whether by way of gift or sale, to any constable on duty except by authority of a superior officer of the constable. Schedule 7 to the Licensing Act 2003, which received Royal Assent on 10 July 2003, will repeal the Licensing Act 1964 in its entirety, when it comes into force. Therefore, this provision of the 1964 Act will be repealed when the 2003 Act is fully in force.

18-Plus Organisation

Chris Bryant: To ask the Secretary of State for Culture, Media and Sport what funding her Department and its executive agencies has provided to the 18-Plus organisation since 1997. [147352]

Mr. Caborn: There is no record of the Department or its executive agency providing any funding to the 18-plus organisation.

Tourism

Mr. Sanders: To ask the Secretary of State for Culture, Media and Sport what initiatives have been put in place by her Department to attract foreign visitors to UK attractions outside London. [147251]

Mr. Caborn: VisitBritain has a target in its Funding Agreement with my Department to promote a regional spread of overseas visitors to the UK. Major initiatives include a partnership campaign with the industry in the United States and, in Europe, a £4 million "City Breaks" campaign to promote short breaks in 19 cities across Britain. The Department also contributes funding (£250,000 p.a from 2002–06) to the Greater London Authority to help support its statutory duty of promoting London as a Gateway to the rest of the UK.

Mr. Sanders: To ask the Secretary of State for Culture, Media and Sport what initiatives have been put in place by her Department to increase domestic tourism visits in 2004. [147252]

Mr. Caborn: In November 2003, VisitBritain published its domestic marketing strategy. This is a three-year initiative designed to grow the value of the domestic market by encouraging the British to spend more on tourism throughout the English regions throughout the year. On 1 January 2004, VisitBritain launched its Enjoy England Spring Campaign which consists of a high profile television and press campaign and offers a holiday planner so that people can plan their domestic trips for the year. This will be followed up by a number of themed campaigns throughout the year and another major campaign in September. Information on the Enjoy England Spring Campaign can be found on the website: www.visitengland.com.

CHURCH COMMISSIONERS

Bankruptcy

Hugh Bayley: To ask the hon. Member for Middlesbrough, representing the Church Commissioners whether the Church Commissioners have made representations to the Government about changing the law to enable the courts to declare bankrupt a cathedral or other church or body that becomes unable to pay its debts. [146236]

Sir Stuart Bell: The Church Commissioners have made no representations to the Government about the present state of the relevant law.

Bradford Cathedral

Hugh Bayley: To ask the hon. Member for Middlesbrough, representing the Church Commissioners discussions the Church Commissioners have had about the financial position of Bradford cathedral and its failure to pay its debts to Past Forward and other small businesses for the work they were contracted to provide for the Life Force Exhibition; and what action the Church Commissioners intend to take to ensure that the Cathedral is able to pay to Past Forward the sum specified in the county court judgment issued against the cathedral. [146237]

Sir Stuart Bell: Legally and financially, cathedrals are independent bodies governed by the Cathedrals Measure passed by Parliament in 1999. The Commissioners have a very limited statutory role in relation to cathedrals and have no authority to compel Bradford Cathedral to reach a settlement, nor do they have power to provide funds to enable such a settlement.

Nonetheless they are in contact with the Bradford Cathedral Chapter and recognise that efforts are being made to find a solution.

McClean Review

Mr. Ben Chapman: To ask the hon. Member for Middlesbrough, representing the Church Commissioners if he will make a statement on the first report of the McClean Review of clergy terms of service to the Archbishops' Council. [146835]

Sir Stuart Bell: The group's first report was considered by the Archbishops' Council on 9 December. It recommends that employment rights covered by section 23 of the Employment Relations Act should be conferred on the clergy through church legislation. The report will be debated in February by the General Synod, which will be invited to encourage comments on its recommendations from dioceses and other interested parties.

A copy of the report will be sent to the DTI soon.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Animal By-products

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions she has had with the European Commission regarding further derogation from the Animal By-products Regulation 2003. [147001]

Mr. Bradshaw: The United Kingdom, along with all member states, has recently submitted information on the application of the EU Animal By-products Regulation (1774/2002) to the European Commission, including difficulties faced by operators.

In the light of these comments, the Commission may decide that certain provisions will need to be amended if it is clear that similar issues are occurring in several member states.

We are also in discussion with the Commission regarding a number of supplementary proposals relating to the Animal By-products Regulation.

Judy Mallaber: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the statement of the Parliamentary Under-Secretary of State for Health, of 10 December 2003, *Official Report*, column 1173, whether the database of animal by-product premises will be available on her Department's website early this year. [147091]

Mr. Bradshaw: We are currently in the process of compiling the database of animal by-product premises with the intention of placing a list of approved premises

on the Defra website. In the interim period this information can be obtained from local Defra animal health offices (who issue the approvals).

Animal Protection

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what research has been *(a)* undertaken and *(b)* commissioned by her Department on (i) illegal animal movements, (ii) illegal culling of wildlife and (iii) illegal hunting of protected species. [146567]

Mr. Bradshaw: It is not apparent from the question whether my colleague's interest relates to research into wild native species, exotic non-native species or agricultural animals. The answer below therefore reflects the wide range of activities that Defra undertakes.

(i) Illegal animal movements

The Animal Movement Licensing System (AMLS) highlights any reports of potentially illegal movements of cattle, sheep, goats and pigs so that local authority Trading Standards Officers can investigate them and take any necessary enforcement action.

(ii) Illegal culling of wildlife

The Department has not specifically undertaken or commissioned research into the illegal culling of wildlife. However, an assessment was made of the potential impact of this activity on certain birds of prey raptors as part of the UK Raptor Working Group, chaired by Defra (then DETR) and the JNCC, which reported in 2000.

(iii) Illegal hunting

The Department's responsibilities include protection of wildlife through regulation of trade in those endangered species listed on the Appendices to CITES (Convention on International Trade in Endangered Species). Research has been commissioned to contribute to an assessment of the impact of exploitation, especially by poaching and illegal trade, on the conservation status of the CITES listed musk deer in the far east of the Russian Federation and to inform future conservation management.

Through the Partnership for Action Against Wildlife Crime (PAW) the Department supports the network of Police Wildlife Crime Officers, which investigate reports of illegal culling and other breaches of wildlife law.

In addition to our support of the Police, the Wildlife Incident Investigation Scheme (WIiS) investigates suspicious wildlife deaths in relation to the misuse, abuse and approved use of pesticides. The scheme is run by the Pesticides Safety Directorate and funded by government and through a levy on the pesticides industry.

Animal Welfare

Mr. David: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to introduce measures to make stunning compulsory before animals are ritually slaughtered; and what assessment she has made of the case for such measures. [147175]

Mr. Bradshaw: We are in the process of assessing all the recommendations in the Farm Animal Welfare Council's report on the welfare of red meat animals at slaughter, including the recommendation that all animals should be stunned prior to slaughter. We are planning to issue our draft response to the report for public consultation shortly.

Bio-Yoghurt

Mr. Liddell-Grainger: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the implications for bio yoghurt of the EU directive on yoghurt classification; and what representations she has received on the new arrangements. [145731]

Mr. Bradshaw: I assume that the hon. Member refers to the provision in Commission proposal COM(2003)14 which would amend Article 2 of Council Regulation (EEC) No. 2092/91 relating to standards for organic production. The proposal is intended to restrict the labelling of food with the term 'bio' to food which complies with the organic standards. The Explanatory Memoranda submitted on this proposal explain our view that the proposal to amend Article 2 is unnecessarily restrictive but note that it commands widespread support among other member states. Representations on the proposal have been received from a number of interests, most recently from the Dairy Industry Association Ltd., the British Retail Consortium and the Provision Trade Federation.

I refer the hon. Member also to the reply given by the Secretary of State for Health on 19 November 2003, *Official Report*, column 916W, in relation to the separate discussions on possible EU legislation on the composition and labelling of yogurt.

Chewing Gum

Harry Cohen: To ask the Secretary of State for Environment, Food and Rural Affairs what the outcome of her Department's discussions with manufacturers and other interested parties about discarded chewing gum was; what changes to her policy on discarded chewing gum she has made and plans to make; and if she will make a statement. [146361]

Alun Michael: The group is considering a range of options for tackling the problem and intend to make recommendations to me shortly. I will then decide what steps should be taken and an announcement made. We are working closely with all interested parties through an action group which includes representatives of, Defra, the Department for Education and Skills, ENCAMS (formerly the Tidy Britain Group), chewing gum manufacturers, the Local Government Association and the Chartered Institution of Wastes Management, to progress effective and sustainable ways of tackling it.

Environment Agency

Mr. Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what the Environment Agency's total expenditure has been since its formation; and how much has been spent on collecting and refining statistics on waste. [142594]

Mr. Morley: The Environment Agency's total expenditure since its formation has been £4,484.3 million.

The Environment Agency has spent a estimated £5 million on collecting and refining waste statistics from its surveys on the production and management of waste from industry and commerce. This figure does not include waste statistics collected by the Agency as part of its regulatory duties.

Fallen Stock

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of farmers have signed up to the proposed national subscription scheme for the disposal of fallen stock. [147000]

Mr. Bradshaw: Good progress is being made in setting up the Scheme and farmers will be invited to subscribe to it shortly.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment she has made of the cost of the proposed national subscription scheme for the disposal of fallen stock. [147002]

Mr. Bradshaw: Initial estimates of costs for the collection and disposal of all fallen stock in the UK, excluding those disposed of under TSE testing arrangements are likely to be around £28 million per year. However, the proposed National Fallen Stock Scheme will be voluntary, and as not all farmers will choose to subscribe, costs may be lower. Exact costs will depend on the rates of payments to collection and disposal operators which are currently being determined, and the volume of fallen stock which comes forward which is unknown.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what progress her Department has made on the national subscription scheme for the disposal of fallen stock. [147003]

Mr. Bradshaw: Defra, in co-operation with devolved administrations, the individuals nominated as Directors of the National Fallen Stock Company and other key stakeholders are making good progress in setting up the Scheme. We hope to be able to make an announcement on the start date shortly.

Fish Farming

Ann Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs how much food, by weight, is required to produce one kilo of marketable farmed salmon; how much raw marine resource, by weight, is required to make one kilo of fish food; where that food is sourced from; and what the content of that food is. [146712]

Mr. Bradshaw: Defra does not collect data on feed usage and composition from enterprises engaged in fish farming in the UK. However, industry estimates range from 1.0 to 1.3 kg of feed needed to produce 1 kg of farmed salmon of a marketable size.

We do not have information on the weight of the raw marine material used in feed for farmed fish. The quantity involved will vary depending on the proportion of fishmeal used in the different grades of dry fish feed produced for fish at various stages of growth. Salmon, like other farmed piscivorous species, are unlikely to consume, through feed, more natural marine resources than would their wild counterparts in the natural environment.

The fish used for aquaculture feed are generally small, bony pelagic species sourced from non food grade fisheries, usually off the coasts of Peru and Chile, and in the North Atlantic, North Sea and Baltic Sea.

We understand that feed for farmed salmon includes protein and oils derived from marine sources, limited amounts of vegetable proteins, small amounts of carbohydrates to aid pellet formation, minerals and vitamins.

Ann Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs how much farmed salmon has been produced from the United Kingdom salmon farms over the last 10 years. [146713]

Mr. Bradshaw: Production figures of UK Atlantic Salmon (tonnes) for the 10-year period up to 2002 (the latest year for which complete data are available) are as follows:

	Tonnes
1993	48,691
1994	64,066
1995	70,060
1996	83,121
1997	99,197
1998	110,784
1999	126,686
2000	128,959
2001	138,519
2002	145,609

The figures include production primarily for human consumption, with some production for restocking.

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs how many salmon farms operate in *(a)* the United Kingdom and *(b)* each region. [146970]

Mr. Bradshaw: There are 530 salmon farms operating in the UK as follows:

Scotland: 504
England: 18
Wales: 7
Northern Ireland: 1

Fisheries

Ann Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs what the escape characteristic is that cod have for avoiding towed fishing gear. [146715]

Mr. Bradshaw: There is little published information on this in the scientific literature, but what there is, suggests that avoidance of fishing gear by cod is largely a visual response. The escape characteristic of cod will vary between day and night, with avoidance being in either a vertical or a horizontal direction. Generally, fishing gears are rigged to reduce such escapements. In the case of bottom gears, for example, the warps tend

to reduce the horizontal movement of fish and the headline is forward of the foot rope to reduce vertical escapement.

Fruit and Vegetable Consumption

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what the average fruit and vegetable consumption was in the *(a)* 50 most deprived and *(b)* 50 most affluent wards in England in the last year for which figures are available; and what the average for England was. [145986]

Mr. Bradshaw: Data from the Expenditure and Food Survey on fruit and vegetable consumption is not available at ward level. However, fruit and vegetable consumption is available by income quintile for households in the United Kingdom for the 12 months from April 2001 to March 2002.

Average consumption of fruit and vegetables in the 20 per cent. of households with the lowest incomes was 2,622g per person per week, compared to 3,651g per person per week in the 20 per cent. of households with the highest incomes.

Average consumption of fruit and vegetables per person in the UK

Grams per person per week	*Household income*	
	Lowest 20 per cent.	*Highest 20 per cent.*
Fruit and vegetables	2,622	3,651
Fruit and vegetables[1]	1,667	2,947

[1] Excluding potatoes

GM Crops

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of whether the pesticide regimes which may be approved for the cultivation of Chardon LL maize will be more aggressive than the regime adopted in the farm scale evaluation trials. [146619]

Mr. Morley *[holding answer 8 January 2004]:* Under Directive 2001/18/EC, the management practices associated with the cultivation of GM crops must be assessed for their environmental impact. Consequently, my Department will seek advice from the Advisory Committee on Releases to the Environment (ACRE) as to whether the evidence provided by applicants about the specific management practices associated with a GM crop present an increased likelihood of adversely affecting the environment as compared to conventional practices associated with the cultivation of its non-GM counterpart. It would also be within the scope of Directive 2001/18/EC to include conditions to the consent that circumscribed the herbicide regime permitted, if this was felt to be appropriate. The farm scale evaluations provide important data with respect to current management practices, which will be invaluable in making this assessment.

The data from the farm scale evaluation trials will, alongside other relevant data, also be considered as part of the scientific evaluation of any application for a commercial level of approval for the use of glufosinate ammonium on Chardon LL maize. Only if Ministers are satisfied, on the basis of the expert advice of the independent Advisory Committee on Pesticides, that the particular use as proposed by the applicant on the draft product label is safe to people and the environment will approval be granted.

Mrs. Brooke: To ask the Secretary of State for Environment, Food and Rural Affairs whether the Government's investigations have produced evidence to indicate that GM technology should now be released commercially. [146998]

Mr. Morley: Under Directive 2001/18/EC each application to release GM crops for commercial importation or cultivation is judged on a case-by-case basis according to the scientific evidence of any risks it may pose to human health or the environment. A person or company wishing to market such a GM crop must supply a detailed dossier of information including an environmental risk assessment on that GM crop. This information is open to scrutiny by all 15 member states and the European Commission, and an EU-wide public consultation must be held. In considering any application, the Government will consider all relevant evidence including results of its own investigations, for example including the Farm Scale Evaluations. No GM crop may be imported or grown commercially unless and until EU member states have agreed collectively under qualified majority procedures that it is safe. Once a GMO has the suitable consent, it can be imported and, if the consent conditions permit, cultivated within the EU, subject to other applicable legislation on seeds, pesticides and novel food and (animal) feed. No GM crop currently has all the required approvals for UK cultivation.

Mrs. Brooke: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with insurance providers for non GM farmers who might be commercially damaged by GM contamination. [146999]

Mr. Morley: We have not had any discussions with insurance providers on this subject. The Agriculture and Environment Biotechnology Commission has submitted a report to the Government on co-existence and liability issues in relation to GM crops and we are now considering this very carefully.

Flooding

Mr. Oaten: To ask the Secretary of State for Environment, Food and Rural Affairs what measures can be taken to alleviate the contamination from sewers and septic tanks which take place after groundwater flooding. [146227]

Mr. Morley: The Environment Agency works closely with local authorities, water companies and other groups to ensure that the effects of flooding are, as far as possible, minimised. Proper maintenance and siting of sewers and septic tanks, and monitoring of groundwater levels, can help reduce the risks, though during a flood event itself there is little that can practically be done apart from ensuring that any sewage pumping does not contribute to contamination, that the situation is properly monitored, and that those affected are informed of the situation and risks. The Department has been working with the Environment Agency and others to produce a groundwater protection code of practice

on septic tanks and other non-mains sewerage systems and public consultation on a draft will commence shortly.

IT Contracts

Mr. Sayeed: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list information technology contracts in her Department and its predecessors with a value of above £20 million in each of the last 10 years; what the inception date for each system was; when it became fully functional; when it became fully debugged; and what the cost of over-runs has been. [146192]

Alun Michael: The Department for Environment Food and Rural Affairs was established as a new Department in June 2001. At its inception, the Department novated existing MAFF framework contracts set up in 1999 with three major suppliers, Fujitsu, Sema UK Ltd. and Sungard Sherwood Systems Group Ltd. who have provided consultants to work with in-house staff for system development. No single system has cost of more than £20 million.

The Rural Payments Agency signed a £35 million seven year contract with Accenture on 31 January 2003 for the development of systems to deliver payments to farmers and traders under the Common Agricultural Policy. The systems are still in the development phase and are scheduled to become operational during 2005, after which the contract allows for a period of support and maintenance.

Nanotechnology

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how much her Department is spending on the assessment of possible environmental impacts resulting from the release of nanotechnology products into the environment, with particular reference to ultra-fine particles. [147225]

Mr. Morley: The Department does not currently fund any research into assessment of the possible environmental impacts resulting from the release of specifically nanotechnology-based products into the environment. Most regulation to protect the environment is based on product or use categories and would therefore cover such a release, whether or not based on nanotechnology.

However, in order to find out whether the technology raises new ethical, health and safety, environmental or social issues that have not already been covered by current regulations, last year the Department of Trade and Industry commissioned the Royal Society and the Royal Academy of Engineering to conduct an independent study to look at current and future developments in nanotechnology. We will examine carefully the conclusions of this study, expected in spring this year, to see whether there are any gaps that will need to be filled.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* environmental and *(b)* toxicological data is held by her Department in respect of carbon nanotubes present in consumer goods. [147227]

Mr. Morley: No such data is held by the Department.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the application of the precautionary principle to the decision on whether to impose a moratorium on the release into the environment of ultra-fine particles generated through nanotechnology processes. [147236]

Mr. Morley: Precautionary action must be based on objective assessments of the costs and benefits of action. The precautionary principle does not mean that we only permit activities if we are sure that serious harm will not arise, or there is proof that the benefits outweigh all possible risks. Most regulation to protect the environment is based on product or use categories and would therefore cover such a release, whether or not based on nanotechnology processes. We therefore do not consider that there is currently a case for a blanket moratorium on such releases, but we are keeping this under review, in particular via the independent study being carried out for the Department of Trade and Industry by the Royal Society and the Royal Academy of Engineering.

Sewage Treatment Works

Ann Keen: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the progress of the consultation on Statutory Control of Odour and Other Nuisances from Sewage Treatment Works; and when the White paper will be published. [146322]

Alun Michael: The Government is awaiting the outcome of the House of Lords appeal case following a High Court ruling that odours from sewage treatment works can be dealt with as a statutory nuisance under the Environmental Protection Act 1990.

The Government will announce its response to the consultation and its approach following the House of Lords ruling and the outcome of the concurrent National Assembly of Wales consultation regarding sewage treatment works. There are no plans to issue a White paper on this matter.

HOME DEPARTMENT

Asylum

Mr. Malins: To ask the Secretary of State for the Home Department how many asylum appeals determined by adjudicators in the second quarter of 2003 were dismissed; and how many of those whose appeals were dismissed have been removed from the UK. [140572]

Beverley Hughes *[holding answer 1 December 2003]:* The available information requested is given in the following table and relates to appeals determined at the Immigration Appellate Authority. Some applicants whose appeal is dismissed may still be awaiting the outcome of further appeals—some appellants apply for

leave to appeal to the Tribunal, and a proportion of these are granted leave followed by determinations by the Tribunal. Data on the number who have been removed after their appeals rights have been exhausted is only available at a disproportionate cost by examination of individual case files.

Information on asylum applications and other asylum statistics is published quarterly. The most recent publication covering the third quarter of 2003 is now available on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html

Asylum appeals determined by adjudicators of the Immigration appellate authority, excluding dependants[1,2]

Number of principal appellants

	Appeals determined by adjudicators

[1] Figures (other than percentages) rounded to the nearest five. Numbers might not add up due to rounding.
[2] Data for 2002 and 2003 are provisional.
[3] Based on data supplied from the Presenting Officers Unit within the Home Office.
[4] Based on information supplied by the Department for Constitutional Affairs. Determinations do not necessarily relate to appeals received in the same period.

Cheadle Royal Hospital

Mrs. Calton: To ask the Secretary of State for the Home Department if, before laying the statutory instrument relating to Cheadle Royal hospital which is being prepared in his Department, he will take steps to satisfy himself that all the income received by the charity has been applied to the properly authorised charitable purposes. [145328]

Fiona Mactaggart *[holding answer 5 January 2003]:* I confirmed in my answer of 8 December 2003, *Official Report*, column 766W, that neither the Charity Commission nor the Greater Manchester police have found evidence of charitable income or assets being inappropriately used by the trustees of Cheadle Royal Hospital. A copy of the proposed new statutory instrument has been forwarded to the hon. Member and her comments requested by 9 January to support the progress of the instrument and enable the release of the funds of the charity to be used for the public benefit.

Mrs. Calton: To ask the Secretary of State for the Home Department if, before laying the statutory instrument relating to Cheadle Royal hospital which is being prepared in his Department, he will take steps to satisfy himself that all the assets of this charity have been sold or reassigned in accordance with charity law, and in particular with section 36(8) of the Charities Act 1993. [145773]

Fiona Mactaggart: I confirmed in my answer of 8 December 2003, *Official Report*, column 766W, that neither the Charity Commission nor the Greater Manchester police have found evidence of charitable assets being inappropriately used by the trustees of Cheadle Royal hospital.

Church of England

Hugh Bayley: To ask the Secretary of State for the Home Department what power the Charity Commission has to remove charitable status from Church of England bodies; and in what circumstances this would apply. [146235]

Fiona Mactaggart: This is a matter for the Charity Commission as the government department responsible for the regulation of charities in England and Wales. The Chief Charity Commissioner will write to my hon. Friend and a copy of his reply will be placed in the Library.

Correspondence

Mr. Kaufman: To ask the Secretary of State for the Home Department when he intends to reply to the letter dated 18 September from the right hon. Member for Manchester, Gorton, with regard to Mr. M. J. Sattler, transferred from the Secretary of State for the Home Department to the Office for National Statistics. [141583]

Mr. Blunkett: I replied to my right hon. Friend on 8 January 2004.

Documents

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what definition he will use of the term reasonable explanation for failing to produce documents; and whether he intends to include a definition in relevant legislation. [143473]

Beverley Hughes: Ultimately it will be for the courts to define what constitutes a reasonable excuse for the purpose of the offence set out in clause 2 of the Asylum and Immigration (Treatment of claimants etc) Bill. However, the offence explicitly rules out certain defences which are not to be considered as reasonable causes for no longer being in possession of a document. The defence does not include reference to other legislation.

DORE Achievement Centres

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on the results of the DORE achievement centres and dyslexia, dyspraxia and attention deficit treatment programme at Balsall Common School; and what plans he has to extend the programme to other schools. [146171]

Margaret Hodge: The dyslexia, dyspraxia and attention disorder treatment (DDAT) is one of a number of commercially available programmes designed to support children with specific learning difficulties. It is for parents, individual schools and local education authorities to decide whether a given technique has something to offer an individual child in the light of his or her particular needs. The Department has no plans to extend the programme to other schools but officials are meeting with representatives of the Dore achievement centres/DDAT to receive an update.

Foreign Language Students (Fees)

Mr. Sanders: To ask the Secretary of State for the Home Department under what circumstances foreign language students on *(a)* part-time and *(b)* full-time English language courses will be required to pay the proposed surcharge; and if he will make a statement. [143839]

Beverley Hughes: No decisions have yet been made about the level of the fees. The Regulatory Impact Assessment (RIA) is required to provide a range of fees for indicative purposes only. The upper limit of that range, £500, does not signify that the Government intends, as some newspapers suggested, to set fees at that level.

The enabling power is the first stage of a two-stage process. The second part of the process is to undertake a full Regulatory Impact Assessment and wider consultation with key stakeholders. Following this consultation, decisions regarding fee levels, scope and timing of introduction can then be made taking these views fully into account.

Any foreign language student, full or part-time, who currently pays a fee would be required to pay charges at whatever level they may be set.

Senior Departmental Posts

Mr. Goodman: To ask the Secretary of State for the Home Department what progress has been made in meeting targets for the proportion of people with disabilities in senior posts in his Department. [146005]

Fiona Mactaggart: I refer the hon. Member to the reply I gave the hon. Member for East Worthing and Shoreham (Tim Loughton) on 8 January 2004, *Official Report*, column 488W.

Youth Sales Restrictions

Mr. Laurence Robertson: To ask the Secretary of State for the Home Department what plans he has to assist *(a)* tobacconists, *(b)* alcohol retailers and *(c)* publicans in determining the age of customers where restrictions on sales exist; and if he will make a statement. [145327]

Beverley Hughes: The Government's plans for a national identity cards scheme would provide a nationally accepted, useful and secure way of proving and determining age. Our current best cost estimates would fund the issuing of cards free to all 16-year-olds.

In the shorter term, we have a strong interest in initiatives like the British Retail Consortium's Proof of Age Standards Scheme (PASS) which establishes a common standard for issuing the various proof of age cards that are available.

Officials have worked closely with the British Retail Consortium to ensure the PASS scheme is as effective as possible. We have endorsed the scheme with ministerial involvement at its launch event last year and we continue to take steps to promote it such as including details of schemes that are PASS accredited on the Home Office website and providing a representative to sit on the PASS Board as an observer.

MINISTER FOR WOMEN

Child Care

Mrs. Curtis-Thomas: To ask the Minister for Women what *(a)* measures are in place and *(b)* measures are proposed to encourage fathers to share caring responsibilities for their children. [146260]

Jacqui Smith: The Government is committed to helping provide parents with more opportunities than ever before to balance work and family life. In April 2003, we introduced new laws for working parents which cover fathers as well as mothers, including the right for parents of children aged under six or disabled children under 18 to request flexible working, adoption leave available to men and women, and the right to two weeks paid paternity leave for fathers. These new rights together with the existing rights to parental leave and time off for dependents recognise that men increasingly want to play a greater role in sharing caring responsibilities for their children, and gives them more choices for doing so.

To encourage take-up of the new rights, the Government is running an ongoing awareness raising campaign which includes national newspaper adverts

targeted specifically at fathers, and is working in partnership with a number of key stakeholders such as Fathers Direct. The Government's Work-Life balance campaign also encourages employers to adopt best practice and provide family-friendly working practices right across the workforce.

The Children Act Sub-Committee, working to the Lord Chancellor's Advisory Board on Family Law, published a report "Making Contact Work", which amongst other issues highlights paternal responsibilities in caring for children. The Government is currently considering recommendations arising from the report, and plans to respond in full as soon as possible.

The Family Support Grant has provided funding for a number of projects over the last five years to encourage fathers to become actively involved in the care of their children. These have included supporting the Active Dads programme, which assists a range of joint father/child activities rolled out through the Community Education Development Centre (now ContinYou), and helping organisations such as Fathers Direct provide support and guidance to fathers and professionals working with them.

Pension Provision

Mrs. Curtis-Thomas: To ask the Minister for Women what recent assessment has been made of women's pension provision. [146253]

Malcolm Wicks: I have been asked to reply.

"Simplicity, Security and Choice: Working and Saving for Retirement" Cm 5677, dedicated a chapter to assessing the state of women's pension provision.

The unique pension position of women is now being considered in all the projects that followed on from the Green Paper, such as the Informed Choice programme and the Extending Working Lives programme.

TRADE AND INDUSTRY

Nuclear Safety

Llew Smith: To ask the Secretary of State for Trade and Industry what access is provided to international nuclear safeguards inspectors to *(a)* military nuclear facilities and *(b)* military nuclear materials, under the provisions of the protocol additional to the agreement between the United Kingdom and the International Atomic Energy Agency for the application of safeguards in the United Kingdom in connection with the Treaty on The Non-proliferation of Nuclear Weapons. [147022]

Mr. Timms: I have been asked to reply to this question since nuclear safeguards and implementation of the protocol additional to the UK/Euratom/IAEA Safeguards Agreement (Cm 4282), which is not yet in force, are the responsibility of my Department.

Under the terms of the UK additional protocol the IAEA could request access to any location in the UK, including military nuclear facilities, where such access will contribute to increasing the IAEA's capability to detect undeclared nuclear material and activities in a non-nuclear weapon State. If necessary, access may be managed in accordance with Article 7 of the protocol. If access to the requested location cannot be granted, then every reasonable effort must be made to satisfy the IAEA's requirements, without delay, at adjacent locations or through other means. Neither the Safeguards Agreement nor the additional protocol apply to nuclear material required for national security reasons.

Advantage West Midlands

Mr. Wiggin: To ask the Secretary of State for Trade and Industry what assessment she has made of the recent decision by Advantage West Midlands not to support regeneration initiatives in Kington; and what estimate she has made of the effect on the amount of Objective 2 funding available. [142589]

Jacqui Smith: Advantage West Midlands has created Regeneration Zones to maximise local input on regeneration issues. The Regeneration Zone Board considers which projects to support within the resources available. The number of competing projects was such that a package of projects in Kington was not put forward to Advantage West Midlands for funding.

Objective 2 funding is still available to these projects if Kington can find alternative match funding. I am assured that Advantage West Midlands and Government Office officials will work with Kington to seek alternative funding sources.

Kington has received extra support from Advantage West Midlands. It was one of the first six market towns identified for support through the regional market towns programme, which began in 2001. The Programme in Kington allows for support from the Countryside Agency for a market towns support officer, and up to £300,000 from Advantage West Midlands for a package of projects developed by the local partnership, Kington Partnership. It is in the second year of a four year programme, and has drawn down £94, 607 from Advantage West Midlands to support 11 different projects to date.

In addition to the market towns partnership, Advantage West Midlands has taken forward other project work directly in Kington with local partners. This includes the purchase of the old Kington Cottage Hospital and conversion into a Youth Hostel working with the Youth Hostel Association. Advantage West Midlands has also worked up plans with Herefordshire council to renovate the local Wesleyan Chapel for wider community use.

Correspondence

Mr. Kaufman: To ask the Secretary of State for Trade and Industry when she will reply to the letter to her dated 27 November 2003 from the right hon. Member for Manchester, Gorton with regard to Angela Bottomley. [147619]

Ms Hewitt: I replied to my right hon. Friend on 9 January.

Departmental Grants

Brian Cotter: To ask the Secretary of State for Trade and Industry what funding her Department provides for

(a) enterprise grants that are delivered to businesses in the regions by the Small Business Service, *(b)* the STEP programme, *(c)* the Faraday Partnership scheme and *(d)* the Manufacturing Advisory scheme in each year since inception of the scheme; what timescale applies to the funding in each case; and if she will make a statement on the extent to which businesses have benefited from each initiative. [145483]

Nigel Griffiths: The information is as follows:

(a) Enterprise Grants

Enterprise Grants are available to small and medium-sized businesses based in the Enterprise Grant Areas of England. Projects can involve expanding, modernising or restructuring an existing business, or setting up a new one. The maximum grant available is £75,000 on projects with up to £500,000 capital investment.

The Enterprise Grant scheme was allocated a budget of £45 million between January 2000 and March 2003. The scheme deadline has been extended to March 2004 and in England, to date, small businesses have benefited from the scheme as follows:

	Expenditure (£)
2000–01	3,758,000
2001–02	10,200,000
2002–03	11,800,000

The report covering the Regional Selective Assistance scheme, was undertaken in 2002 and found that businesses who benefited from Enterprise Grant were able to invest in projects that enabled them to increase their productivity and profitability and raise their skills levels, in areas of England that would not normally attract capital investment. By offering a grant of 15 per cent., we encourage private investment covering 85 per cent. of the capital investment costs, again in areas that traditionally struggle to gain investment finance.

(b) STEP

For STEP (the Shell Technology Enterprise Programme), DTI has contributed approximately £0.68 million in 2003–04 and intends to fund STEP at about this level in 2004–05. An exit survey of businesses that participated in STEP in 2003 showed that:

94 per cent. of host company managers stated that their STEP project would have a positive impact on their business's future performance;

94 per cent. said their expectations had been met or exceeded (38 per cent. exceeded);

89 per cent. of companies believe the benefits of their STEP project either equalled or exceeded the cost of taking part; and

68 per cent. thought the project contributed to new processes or procedures within their business.

(c) Faraday Partnerships

Faraday Partnerships aim to bring new products and processes, based on the UK science base, to the market more effectively. DTI and the Research Councils support 23 of the 24 Faraday Partnerships: the other is supported by the Scottish Executive and Defra.

DTI spend on Faraday Partnerships to date has been:

	Expenditure (£)
2000–01	1,915,311
2001–02	3,351,631
2002–03	5,903,343
2003–04[1]	2,904,500
Total	14,074,786

[1] First two quarters.

Based on a five-year business plan, DTI offers each Faraday Partnership up to £400,000 per year for an initial three years. Subject to an interim review of the Partnership's progress, further support may be made available, but on a tapered basis.

In 2002–03, Faraday Partnerships managed research portfolios totalling over £101 million; over 1,700 firms and nearly 400 University research teams are actively involved.

Initial studies of the impact of the Faraday Partnerships on business have revealed the following generic effects:

more focussed application of research results to new products in many fields;

greater understanding of global competitiveness and winning new business;

opportunities for SMEs to work with universities and large firms;

improvements in manufacturing efficiency and marketing; and

new networks linking businesses and researchers.

(d) Manufacturing Advisory Service

The Manufacturing Advisory Service (MAS) was launched in April 2002. The Department's funding commitment is £15 million over the period 2001–02 to 2004–05, as follows:

	£ million
2001–02	3
2002–03	5
2003–04	5
2004–05	2

Of this sum, £13.75 million is provided to the English Regional Development Agencies and Welsh Development Agency as part-funding for the 10 Regional Centres for Manufacturing Excellence through which the service is delivered. The remainder of the Department's funding has supported the development of a complementary network of centres of expertise in manufacturing, a national website, and other essential central functions.

The DTI sees the MAS as a real success as a major source of advice and support for manufacturers. Since it was launched, the MAS has handled over 15,000 inquiries. Over 4,500 manufacturing firms have benefited from MAS diagnostic consultations and over 1,000 have gone on to undertake in-depth projects to drive up their productivity and competitiveness. Latest figures show that the total added value to UK firms using the service is approaching £30 million.

Brian Cotter: To ask the Secretary of State for Trade and Industry what funding her Department has provided for *(a)* the Advanced Metals Technology Initiative, *(b)* the Technology Review grant scheme for small businesses,

(c) the Innovation and Technology Programme for small businesses and *(d)* the Development Projects grant scheme in each year since inception of the scheme; what timescale applies to the funding in each case; and if she will make a statement on the timescale to which this funding applies and estimate the extent to which businesses have benefited from each initiative. [145488]

Nigel Griffiths: The following information is as follows:

(a) Advanced Metals Technology Initiative

The Advanced Metals Technology Initiative effectively started in September 2003. The DTI is providing funding of £2.5 million over a three year period, up to December 2006, to AMTI. As the project has only recently started it is too early to estimate the extent to which businesses have benefited.

(b) and *(d)* Technology Reviews and Development Projects

Technology Reviews were introduced in 1999 along with Technology Studies as additional elements of the Smart scheme. The funding provision for these elements was not shown separately from the rest of Smart but expenditure for these two elements was originally forecast to rise to some £2.8 million a year. These elements were withdrawn in May 2003 following the review of DTI business support.

Development Project grants were another element of Smart and the funding provision and payments for this element were not shown separately. This element has now been subsumed within the new Grant for Research and Development which was introduced in June 2003 following the review of DTI business support.

The overall funding provision for Smart and the benefits to small and medium sized businesses in terms of grant payment outturn were as follows:

£ million

	Total Smart outturn	*Technology Reviews and Studies outturn*
1997–98	25.8	-
1998–99	24.9	-
1999–2000	26.5	2
2000–01	27.3	154
2001–02	23.7	462
2002–03	32.1	711

An evaluation of the Smart scheme as a whole was undertaken in 2001 (the Review element of Smart was briefly touched upon as it had only just been introduced). At the time the research was undertaken annual turnover in the economy was nearly £500 million higher than it would have been without the scheme. It is also estimated that annual exports were nearly £270 million higher and employment was more than 8,000 higher.

Almost all award winners said that their projects had improved their technological knowledge/skills. Large majorities also reported quality improvements, increased investment in R and D/innovation, and an improved market position. Four in ten winners had sought further finance to enable them to introduce their products into the market. The majority of these thought that the Smart award had enabled them to do so. A copy of the full evaluation is available at www.dti.gov.uk/about/evaluation *(c)* Innovation and Technology Programme for small businesses

The DTI does not operate a programme under this name, but does provide support for small businesses to develop innovation and technology, such as Grant for Research and Development and Grant for Investigating an Innovative Idea.

Brian Cotter: To ask the Secretary of State for Trade and Industry what funding has been provided by her Department to finance *(a)* the Manufacturing Advisory Service, *(b)* the Community Development Venture Fund and *(c)* the Supply Chain Groups initiative since the inception of each scheme; what timescale applies to the funding in each case; and if she will make a statement on the extent to which businesses have benefited from each initiative. [145511]

Jacqui Smith: The following information is as follows:

(a) Manufacturing Advisory Service

The Manufacturing Advisory Service was launched in April 2002. The Department's funding commitment is £15 million over the period 2001–02 to 2004–05, as follows:

2001–02—£3 million
2002–03—£5 million
2003–04—£5 million
2004–05—£2 million

Of this sum, £13.75 million is provided to the English Regional Development Agencies and Welsh Development Agency as part-funding for the ten Regional Centres for Manufacturing Excellence through which the service is delivered. The remainder of the Department's funding has supported the development of a complementary network of centres of expertise in manufacturing, a national website, and other essential central functions.

The MAS has been a real success as a major source of advice and support for manufacturers. Since it was launched, the MAS has handled over 15,000 inquiries. Over 4,500 manufacturing firms have benefited from MAS diagnostic consultations and over 1,000 have gone on to undertake in-depth projects to drive up their productivity and competitiveness. Latest figures show that the total added value to UK firms using the service is approaching £30 million.

(b) Community Development Venture Fund

The Community Development Venture Fund (CDVF), known as the Bridges Fund, was launched on 14 May 2002 and became fully operational after a fourth and final closing in September 2002.

The Fund is a £40 million fund that was established to provide venture capital finance to viable SMEs with good growth potential in the 25 per cent. most disadvantaged wards in England. The Fund is made up of £20 million from institutional and private sector investors and £20 million from the Government to be invested alongside the private sector investors, through pound for pound matched funding. The Fund is not a Government "scheme": it is a commercially managed venture capital fund in which the Government is an investor alongside other leading private sector investors. The Fund has an investment period of up to nine years

although Bridges Community Ventures Ltd, the Fund Manager, expects most of the fund to be invested by the end of year five.

As at the end of December 2003, the Bridges Fund has invested over £5 million in nine SMEs with growth potential that are located in disadvantaged areas:

	£ million
Financial Year	*Drawn down from DTI*
2002–03	2,175,000
2003–04 (as at 31.12.03)	4,193,395

(c) Supply Chain Group

The Supply Chain Group was launched in April 2003. The DTI plans to spend £15 million over five years and so far has spent £446,372.

The programme will benefit companies throughout the automotive supply chain by providing them with expert help to improve their business. Participants are invited by their industry customer, ensuring that help is targeted to the most significant suppliers. To date, 10 supply chain group projects involving 94 companies have been approved. These are long-term activities and hard data on the improvements achieved will be available towards the end of 2004. The initial feedback from participating companies has been encouraging.

Esarda

Llew Smith: To ask the Secretary of State for Trade and Industry which United Kingdom organisations are members of the European Safeguards Research and Development Association (Esarda); and whether public resources are provided to support participation in Esarda. [147030]

Nigel Griffiths: UK organisations with current membership of the European Safeguards Research and Development Association (Esarda) are BNFL and UKAEA. The DTI provides funding for participation by UKAEA in the Esarda Scientific Council and Co-ordination Board on behalf of the DTI-sponsored UK Safeguards Support Programme to the IAEA. In addition, officials from DTI participate in some meetings of Esarda Committees and specialist Working Groups. Further information on the activities of Esarda can be found on its website: www.jrc.org/esarda/ or www.jrc.cec.eu.int/esarda/

Fireworks

Tony Cunningham: To ask the Secretary of State for Trade and Industry what progress is being made in implementing measures to tackle nuisance caused by fireworks. [146944]

Mr. Sutcliffe: On 22 December the Fireworks Regulations 2003 came into force which made it an offence for those persons under the age of 18 years to possess fireworks in a public place and for persons of any age to possess Category 4 professional fireworks, the largest most powerful type that are used for public displays.

We are currently drafting a regulation to prohibit the supply of air bombs to the public and have begun preliminary consultations on implementing the rest of the Fireworks Act and will publish draft regulations early this year.

Tony Cunningham: To ask the Secretary of State for Trade and Industry whether new measures to tackle firework nuisance will provide specific protection for vulnerable premises, with particular reference to stables. [146945]

Mr. Sutcliffe: The Fireworks Act 2003 does not contain provisions relating directly to the protection of premises. However, the Act does provide that firework regulations may prohibit public displays unless certain conditions are met.

Further, the Act also provides for compulsory training courses for operators of public firework displays which could lessen the chances of a firework straying to cause damage to nearby buildings such as a stable.

Money Laundering

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how many financial services companies in the FTSE All-Share list of companies have reported suspected cases of money laundering in each of the last five years; and what estimate has been made of the sums involved. [146149]

Caroline Flint: I have been asked to reply.

Companies suspecting money laundering activity are under various legal obligations to report this to the National Criminal Intelligence Service (NCIS). The information provided is used by law enforcement agencies in fighting crime, including through locating the proceeds of crime with a view to confiscation.

NCIS does not break down reports by reference to whether the reporting institution is listed on the FTSE All-Share list. Since 1999 303 companies in the banking, insurance/life assurance, and securities/investment sectors made reports. The number of reports received was:

	Banks	*Insurance/ Assurance*	*Securities Finance Investment*	*Totals*
1999	7,223	522	108	7,853
2000	10,802	579	160	11,541
2001	18,776	795	215	19,786
2002	37,041	1,011	262	38,314
2003	63,997	1,109	274	65,380
Total	137,839	4,016	1,019	142,874

The growth in reporting is believed to result mainly from the impact of the Proceeds of Crime Act 2002, an increased regulatory focus on money laundering (in particular relating to the Financial Services Authority's statutory responsibilities), and greater awareness of the issues in the light of the tragic events of 11 September 2001.

NCIS does not keep estimates of the sums involved in the reports received, as although some reports will relate to a specific financial transaction or transactions others

will not involve transactions at all. To illustrate the scale of the sums involved in money laundering, the most recent estimate of the amount laundered annually in the UK is £25 billion.

Post Office

Mr. Colman: To ask the Secretary of State for Trade and Industry if she will direct the management of the Post Office to extend the consultation period for those Post Office branch closures which it has put out for consultation over the Christmas period by at least two weeks. [146317]

Mr. Timms: Post Office Ltd. carries out its formal public consultation in accordance with the Code of Practice agreed with Postwatch. With the move from individual proposals to area closure proposals by parliamentary constitutency last autumn, the consultation period was extended from four to six weeks.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry how much has been made available in each year since 2001–02 to the devolved regions to support post office branches in deprived areas; and how much has been made available for future years. [144804]

Mr. Timms: The funding arrangements and allocations to support post office branches in deprived areas of Scotland, Wales and Northern Ireland are the responsibility of the Devolved Administrations. I understand that, in December 2002, the Scottish Parliament allocated £2 million for its programme to support post office branches in deprived areas of Scotland.

Annabelle Ewing: To ask the Secretary of State for Trade and Industry whether the six-week public consultation period for closure proposals under the urban network reinvention programme includes *(a)* public holidays, *(b)* Saturdays and *(c)* Sundays. [147272]

Mr. Timms: I understand from Post Office Ltd. that the six-week consultation period for Post Office closures includes public holidays, Saturdays and Sundays.

John Barrett: To ask the Secretary of State for Trade and Industry how many responses were received to the consultation on the proposed closure of Stenhouse Cross Post Office; of these, how many *(a)* supported and *(b)* opposed the closure; and when she expects a final decision to be taken on the closure. [144823]

Mr. Timms: Proposals put out to consultation for, and subsequent decisions on, post office closures under the urban network reinvention programme are an operational matter for Post Office Ltd. and I have asked the Chief Executive to reply direct to the hon. Member.

Rural Employment

Mr. Drew: To ask the Secretary of State for Trade and Industry if she will make a statement on employment prospects in rural areas with particular reference to *(a)* environmental management and *(b)* waste control. [146568]

Mr. Timms: There are considerable employment opportunities across rural areas in the UK as a result both of improvements in land and water management (which cover organic food production, agri-environment schemes, national parks and nature protection projects etc.) and more innovative approaches to waste management and treatment (e.g. farm waste-to-energy plants). Furthermore, the role of eco-tourism in stimulating rural jobs, especially from farm diversification, should not be underestimated. However, quantifying these opportunities is challenging and there is only limited evidence available.

Rural Community Enterprises

Mr. Drew: To ask the Secretary of State for Trade and Industry if she will make a statement on help available to community enterprises operating in rural areas. [146488]

Nigel Griffiths: As 'Social enterprise: a strategy for success' published in July 2002 made clear, social and community enterprises have a major role to play in meeting the needs of rural communities. The recently published Progress report (on implementation of the strategy) includes many measures to support the promotion and development of rural social enterprises. The Business Link network works closely with specialist rural business support organisations and Co-operative Development Agencies.

In addition, DEFRA and the Home Office Active Community Unit recently announced they will provide £10 million over 2004–05 and 2005–06 to support community capacity building and voluntary and community sector infrastructure in rural areas.

Wind Farms

Mr. Carmichael: To ask the Secretary of State for Trade and Industry what discussions her Department has held with representatives of the shipping industry in connection with the expansion of offshore wind farms. [141910]

Mr. Timms: In November 2002, DTI published a consultation document, "Future Offshore", which outlined a strategic approach to the arrangements for site leasing for offshore renewable development. Consultees associated with the shipping industry included the Chamber of Shipping, the Maritime and Coastguards Agency, the Port of London Authority, Associated British Ports, British Ports Association, International Tanker Owners, and the Society of Maritime Industries. Of these, replies were received from the Chamber of Shipping, the Maritime and Coastguards Agency and the Port of London Authority.

Following this consultation, DTI commissioned a Strategic Environmental Assessment (SEA) of the three strategic areas proposed for the sites of the second round of wind farms in the Future Offshore consultation. Over 400 organisations and individuals were consulted on the SEA. Organisations responding who represent the shipping industry included the Port of London Authority and Trinity Light House Services, the Royal Yachting Association and the Maritime and Coastguards Agency. A summary of the responses to the consultation and the DTI's response to them can be found on the SEA website at: http://www.og.dti.gov.uk/offshore-wind-sea/process/envrepresponse.htm

Decisions on which sites will be granted leases for second round wind farms were announced on 18 December 2003 and took into account an assessment

on impact on shipping at a strategic level. Having been offered a site lease, each developer is required to conduct an environmental impact assessment and associated consultations before development consent can be given.

TREASURY

Employment Statistics

Mr. Wilson: To ask the Chancellor of the Exchequer how many residents in each constituency were in work at *(a)* June 1997 and *(b)* the most recent date for which information is available. [146745]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. Brian Wilson, dated 12 January 2004:

The National Statistician has been asked to reply to your recent Parliamentary Question about employment levels in Parliamentary Constituencies. I am replying in his absence. (146745)

The Office for National Statistics publishes employment rates but not levels from the Labour Force Survey (LFS) for Parliamentary Constituencies. This information is available on a yearly basis, but not for calendar months. The latest available estimates are for the twelve month period ending February 2002. Estimates of employment rates by constituency can be obtained from the Nomis(r) database which is available in the House of Commons Library.

As with any sample survey, estimates from the LFS are subject to sampling variability.

Child Trust Funds

John Barrett: To ask the Chancellor of the Exchequer how many children are expected to benefit from child trust funds in Scotland in each of the next five years, broken down by *(a)* local authority area and *(b)* parliamentary constituency. [144822]

Ruth Kelly: All eligible children born since 1 September 2002 in families awarded child benefit will receive a child trust fund (CTF). Projected birth figures by local authority and parliamentary constituency are not available, although figures for actual births and numbers receiving child benefit are available in the Library of the House. Birth projections for the whole of Scotland, produced by the Government Actuary's Department, are as shown in the following table.

	Birth projection (000s)
2003	52
2004	52
2005	51
2006	51
2007	51

Each of these children will be eligible for a child trust fund. Based on take-up of child benefit, it is estimated that virtually all children born will receive a CTF.

The CTF is intended to encourage parents and children to develop the savings habit. It will ensure that every child, whatever their family background, will have access at the age of 18 when they begin their adult life, to a stock of assets which they can invest in their future.

It will also help children and their parents to understand the benefits of saving and investment and how to engage with financial institutions.

Departmental Relocation

Ms Walley: To ask the Chancellor of the Exchequer (1) what assessment his Department has made of the benefits of re-location of staff to North Staffordshire; and if he will make a statement; [146866]

(2) what assessment he has made of the effect of proposals to relocate Government jobs on the Department's ability to meet *(a)* departmental policy objectives and *(b)* departmental public service agreements; [146882]

(3) what assessment his Department has made of the effect of possible relocation of staff in his Department to North Staffordshire on *(a)* job creation, *(b)* sustainable development, *(c)* the local economy and *(d)* tackling regional economic disparities; and if he will make a statement; [146895]

(4) what plans he has to establish procedures for assessing the impact of possible re-location of staff in his Department to the regions; and if he will make a statement. [146926]

Mr. Boateng: Sir Michael Lyon's Independent Review of Public Sector Relocation was established by the Chancellor and Deputy Prime Minister to examine the scope for relocating public sector activity, to improve the delivery and efficiency of public services and to benefit regional economies.

Sir Michael's review will be informed by research from King Sturge on suitable alternative locations, and Experian Business Strategies on lessons from previous relocations, and the economic impact of relocation. Summaries of this research will be available shortly on the Treasury website at www.hm-treasury.gov.uk

Sir Michael's final report will be published in March 2004 and individual Departments will develop relocation proposals in light of his findings.

Departmental Staff

Mr. Russell Brown: To ask the Chancellor of the Exchequer what percentage of staff employed within his Department are over 55 years of age; and what *(a)* number and *(b)* percentage of staff recruited over the last 12 months are over 55 years of age. [145924]

Ruth Kelly: 4.8 per cent. of staff employed by HM Treasury are over 55 years of age. A total of three (1 per cent.) staff recruited in the last 12 months (1 January 2003 to 31 December 2003) are over 55 years of age.

Euro

Keith Vaz: To ask the Chancellor of the Exchequer in how many speeches during 2003 he declared support for the Government's policy on the euro. [147295]

Ruth Kelly: In June 2003 the Prime Minister and the Chancellor both said that the Government will campaign on a pro-Europe platform to make the case for Europe and the principled case for the euro.

Since then the Chancellor and other Ministers, have held a variety of meetings to discuss the euro in England, Scotland, Wales and Northern Ireland.

Independent Financial Advisers

Mrs. May: To ask the Chancellor of the Exchequer how many independent financial advisers were regulated by the Financial Services Authority in each of the last three years. [147038]

Ruth Kelly: The Financial Services Authority informs me that these figures are not available.

Mrs. May: To ask the Chancellor of the Exchequer what representations he has received regarding the impact on independent financial advisers of compliance with Financial Services Authority requirements. [147039]

Ruth Kelly: Ministers and civil servants receive representations from a wide variety of members of the financial services community. As with previous Administrations, it is not this Government's practice to provide details of all such representations.

Under the Financial Services and Markets Act 2000, the Financial Services Authority is obliged to consult publicly on all new regulatory requirements. The FSA has specific mechanisms in place to seek the views of consumers and practitioners, including small firms.

Mrs. May: To ask the Chancellor of the Exchequer what assessment he has made of the impact on *(a)* independent financial advisers and *(b)* the financial services sector of the costs of complying with Financial Services Authority requirements. [147040]

Ruth Kelly: The Financial Services and Markets Act 2000 requires the Financial Services Authority (FSA) to carry out and publish for consultation cost-benefit analysis of new regulatory requirements. The Treasury does not conduct any additional assessment.

Public Sector Investment

Mr. Andrew Turner: To ask the Chancellor of the Exchequer what definition he used for the term public sector investment in table B24 on page 237 of the pre-Budget report. [146347]

Mr. Boateng: I refer the hon. Gentleman to the answer the Prime Minister gave him on 5 January 2004, *Official Report*, column 58W.

School Funding

Mr. Hoban: To ask the Chancellor of the Exchequer what discussions he has had with the Cabinet Office's strategy and delivery units on changes in the way money may be allocated to schools. [147147]

Mr. Boateng: The Chancellor has regular contact with the strategy and delivery units on a wide range of issues, including schools.

INTERNATIONAL DEVELOPMENT

Adam Smith Institute

Mr. Carmichael: To ask the Secretary of State for International Development what work his Department has commissioned from the Adam Smith Institute in the last five years; and how much each of these projects cost. [146938]

Hilary Benn: The information requested is in the following table. This does not include any lower value contracts, details of which are not held centrally and could be provided only at disproportionate cost. All these contracts have been awarded in line with standard procurement practice.

Project title	*Country*	*Value (£)*
Legal Adviser within Coalition Provisional Authority South (CPAS)	Iraq	72,925
Economic Support to Coalition Provisional Authority South (CPAS)	Iraq	98,655
Secondment of Negotiations Support Staff to the Office of Prime Minister	West Bank and Gaza	75,800

Privatisation Project Phase 3 and 4 Managing Consultant	Guyana	770,027
PR Unit Support for Parastatal Sector Reform Commission (PSRC)	Tanzania	272,975

[1] The two contracts indicated were issued under this enabling agreement.

Cotton

Mr. Bercow: To ask the Secretary of State for International Development what discussions he has had since 17 September 2003 with representatives of the United States Administration on the impact of US subsidies to domestic cotton producers on cotton producers in West Africa. [146587]

Hilary Benn: EU and US cotton subsidies are among the clearest examples of trade distortion by OECD countries. Failure to address them satisfactorily was a key issue behind the collapse of WTO talks at Cancun. Four West African countries (with support from European donors including the UK) presented an initiative at the WTO calling for the end to developed country subsidies, and compensatory support to developing country cotton producers who are negatively affected by them in the meantime. US subsidies are the largest, but recent research supported by my Department and the EU Directorate General for Development shows EU subsidies also affect West Africa because of market structures.

Reform of the EU's own support to its cotton sector is currently being discussed in Brussels. While these discussions continue, DFID has not had direct contacts with the US administration on the issue. The UK is pressing for more significant reform of the EU cotton regime than is currently proposed, both as an end in itself and also to help push the US to address their subsidies.

Departmental Relocation

Ms Walley: To ask the Secretary of State for International Development how many staff in his Department work in *(a)* the West Midlands and *(b)* North Staffordshire. [146916]

Hilary Benn: None.

Ms Walley: To ask the Secretary of State for International Development (1) what plans he has to establish procedures for assessing the impact of possible relocation of staff in his Department to the regions; and if he will make a statement; [146931]

(2) what assessment he has made of the effect of proposals to relocate Government jobs on the Department's ability to meet *(a)* departmental policy objectives and *(b)* departmental public service agreements; [146887]

(3) what assessment his Department has made of the effect of possible relocation of staff in his Department to North Staffordshire on *(a)* job creation, *(b)* sustainable development, *(c)* the local economy and *(d)* tackling regional economic disparities; and if he will make a statement; [146901]

(4) what assessment his Department has made of the benefits of re-location of staff to North Staffordshire; and if he will make a statement. [146871]

Hilary Benn: I refer my hon. Friend to the reply which the Chief Secretary to the Treasury gave on 12 January 2004, *Official Report*, column 516W.

General Affairs and External Relations Council

Mr. Bercow: To ask the Secretary of State for International Development how many meetings of the General Affairs and External Relations Council of the EU have taken place since his appointment; and how many he has attended. [147343]

Hilary Benn: Since my appointment as Secretary of State for International Development on 5 October 2003, there have been three meetings of the General Affairs and External Relations Council (GAERC) of the EU and one Informal Meeting of EU Development Ministers on 24 October.

Two GAERCs each year have a 'development' session. I attended the last such session in November 2003. My hon. Friend the Parliamentary Under-Secretary of State for International Development, represented the UK at the Italian Presidency's Informal Meeting in October, while I was in Madrid attending the Iraq Donor's Conference. For your information, I have listed the dates of all the GAERCs that have taken place since my appointment:

13–14 October 2003

17–18 November 2003

8–9 December 2003.

Leak Inquiries

Mr. Lilley: To ask the Secretary of State for International Development if he will list occasions on which his Department has conducted an inquiry into alleged leaks from members of staff since 1997; and if he will list the occasions on which the names of those persons accused of leaking information from his Department have been made public *(a)* by the Government and *(b)* by way of another source. [146941]

Mr. Gareth Thomas: Since 1997 DFID has investigated four suspected leaks. In line with exemptions 1(a) and 7(b) set out in Part II of the Code of Practice on Access to Government Information, it has been the practice of successive Governments not to comment on the outcome of such inquiries in order to safeguard security and investigative arrangements.

Recruitment Advertising

Miss Kirkbride: To ask the Secretary of State for International Development how much has been spent on recruitment advertisements in the press, broken down by publication, by *(a)* his Department, *(b)* quangos under the Department and *(c)* non-departmental Government bodies under the Department (i) in the last year and (ii) since 1997. [145804]

Hilary Benn: The Department for International Development expenditure on recruitment advertising in the calendar years 2000, 2001, 2002 and 2003 is shown in table A as follows:

DFID advertises in specialist and professional publications according to the specific nature and requirements of each vacancy. This includes placement of adverts in overseas and developing country publications. DFID uses a wide range of publications and to list all the details would incur disproportionate cost. As a result, table B as follows indicates the main publications where we have incurred the largest expenditure.

Figures for 1997, 1998, and 1999 are not available.

Table A—Total DFID advertising expenditure per calendar year—from calendar year 2000 onwards

Year	*(£)*
2000	751,972.46
2001	1,208,190.72
2002	914,571.19
2003	871,246.31
Total	3,745,980.68

Table B—Publications where main DFID advertising expenditure has been incurred—per calendar year—from calendar year 2000 onwards

Publication	*2000*	*2001*	*2002*	*2003*	*Total*
British Medical Journal	13,104	11,291	1,805	4,566	30,766

Total by year	680,174	1,082,397	827,560	789,414	3,379,545

South Africa

Mr. Ancram: To ask the Secretary of State for International Development what recent discussions the British Government have had with the South African Government regarding proposals for land reform in South Africa; and what advice his Government have given President Mbeki and his Government on this matter. [146841]

Hilary Benn: The Department for International Development and the High Commission in Pretoria are in regular touch with South Africa's Department for Land Affairs. Land reform is a vital element in the transformation of South Africa after the apartheid era, and potentially offers important economic opportunities for poor people. We welcome the Government of South Africa's commitment to a transparent, accountable and legal process of land reform—through restitution to previous owners of land acquired under pre-1994 legislation, through supporting purchase of agricultural land by previously disadvantaged groups, and through reform of communal land tenure arrangements in the former homelands. To support the Government of South Africa in increasing the pace of land reform, DFID committed £2 million in 2002 to provide technical support to the Department of Land Affairs, and to support a public consultation process on the Communal Land Rights Bill.

Sustainable Development

Hugh Bayley: To ask the Secretary of State for International Development how his Department's bid to the forthcoming government spending round will contribute to the United Kingdom's objectives on sustainable development. [146838]

Hilary Benn: Poverty reduction and sustainable development are closely inter-linked since development will only be sustainable if it tackles problems of global poverty alongside pressures on the environment. DFID policies and programmes therefore support sustainable economic and social development at both global and country levels. Resources provided as a result of the forthcoming Spending Review will enable us to continue these efforts. We will be developing plans for the next Spending Review period over the coming months.

Trade Barriers

Mr. Bercow: To ask the Secretary of State for International Development what assessment he has made of the effect of reductions in barriers to non-agricultural goods on *(a)* developed countries and *(b)* developing countries. [146614]

Hilary Benn: The WTO negotiations on non-agricultural market access have yet to reach agreement with several countries having submitted proposals. Although this makes assessment of the implications for developed and developing countries difficult, most studies concur that reductions in tariffs could bring significant benefits. A recent UNCTAD[1] study estimated that a reduction in barriers to non-agricultural goods will lead to an increase in global welfare of between $20 billion and $40 billion. A substantial majority of these gains are expected to go to developing countries, with welfare in developed countries remaining virtually unchanged.

[1] Laird, S., Cordoba, F., Vanzetti, D. (2003) Market Access Proposals for Non-Agricultural Products. UNCTAD.

LEADER OF THE HOUSE

Legislation

Mr. Austin Mitchell: To ask the Leader of the House if he will list for each session since 2000–01 the *(a)* Acts of Parliament and parts thereof and *(b)* Statutory Instruments enacted by requirements of legislation of the European Community and Union; and how many regulations passed by EU institutions have applied without further enactment in each year since 2000. [145460]

Mr. Hain: This information is not collated and could be obtained only at disproportionate cost.

FOREIGN AND COMMONWEALTH AFFAIRS

Afghanistan

Mr. Streeter: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of progress in destroying poppy production in Afghanistan by use of strimmers; and if he will make a statement. [147165]

Mr. Rammell: I refer the hon. Member to the answer my hon. Friend the Minister of State at the Foreign and Commonwealth Office, Mike O'Brien, gave him on 16 December 2003, *Official Report*, columns 1426–27.

Responsibility for eradication programmes in Afghanistan resides with the Afghan government. We are not aware of the use of strimmers as an eradication method in Afghanistan. Methods which have proved effective in the past include the use of sticks, ploughs and tractors.

Chechnya

Dr. Julian Lewis: To ask the Secretary of State for Foreign and Commonwealth Affairs what role he envisages for the Organisation for Security and Cooperation in Europe in Chechnya. [146685]

Mr. MacShane: We believe that the OSCE could have a useful role to play in support of a political process in Chechnya. We regret that since the closure of the OSCE Assistance Group to Chechnya at the end of 2002, it has been impossible for the OSCE Chairmanship in Office to agree with the Russian Federation on specific OSCE projects for Chechnya, with or without an OSCE presence on the ground in the region. If President Kadyrov showed clearly that he was prepared to work for reconciliation, to promote a genuinely open political process and to uphold human rights, the OSCE would be ready to assist, though any activities would have to take full account of the security situation in the region.

Dr. Julian Lewis: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he *(a)* has made and *(b)* intends to make to the Russian authorities to persuade them (i) to cease compelling displaced Chechens to return to the war zone, (ii) to allow humanitarian organisations access to camps containing displaced Chechens, (iii) to avoid closing such camps without providing alternative accommodation and (iv) to issue invitations to UN specialist agencies to visit Chechnya. [146687]

Mr. Rammell: We have bilaterally and with the EU repeatedly reminded the Russian Government of their obligations under the 1951 UN Convention on Refugees, stressing that all movements of internally displaced persons (IDPs) must be strictly voluntary. We have also stated that the dismantling of shelters, or the suspension of food, water and energy supplies, in our view constitutes a forced return.

The EU most recently raised concerns over IDPs during the recent Chechen Presidential elections. The EU, with UK support, issued a statement raising concerns over the conduct of the elections. The statement asked the Russian Government to provide assurances that the return of IDPs in Ingushetia and throughout the North Caucasus would be strictly voluntary. After the elections had taken place the EU issued a further statement, which the UK also supported. That statement expressed concern over the condition of refugees in neighbouring Ingushetia, repeating the EU's rejection of any attempts of involuntary return of refugees to Chechnya. It also called on the Russian authorities to renew their efforts to facilitate the delivery of humanitarian aid to those in need.

Dr. Julian Lewis: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Russian authorities in respect of *(a)* the mass bombardment of civilians in Chechnya, *(b)* the desirability of negotiations to bring the conflict to an end and *(c)* the applicability of internationally accepted standards of conduct to this conflict. [146709]

Mr. Rammell: We regularly raise with the Russian Government UK concerns about the situation in Chechnya, in particular human rights. We have stressed that there is a need for an open political process, and that Russian security operations in Chechnya must uphold the rule of law and respect human rights. We most recently did so following the Chechen Presidential elections, when I issued a press statement on 16 October 2003 calling for newly elected President Kadyrov to

work for reconciliation, to promote a genuinely open political process and to uphold human rights. A copy of the press statement is available on the Foreign and Commonwealth website: www.fco.gov.uk/policy/news/press-releases. The UK also supported EU statements issued on 26 September and 9 October 2003. copies of which are available on the Council of the Europe Union website address: http://register.consilium.eu.int.

Dr. Julian Lewis: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to support the arraignment before an international criminal court of individuals suspected of war crimes in Chechnya. [146710]

Mr. Rammell: The Russian Federation is not a State Party to the Rome Statute of the International Criminal Court (ICC) and Chechnya is currently therefore outside its jurisdiction. The UK has not called for an international tribunal on Chechnya as we believe such a move would be counter-productive. We continue to press Russia on the situation in Chechnya both bilaterally and multilaterally through the EU. UN and Council of Europe.

Colombia

Mr. Luke: To ask the Secretary of State for Foreign and Commonwealth Affairs what action the Government is taking to ensure that Colombia fulfils its commitment to implement UN recommendations on human rights. [146747]

Mr. Rammell: A Working Group of representatives of governments which attended the London Meeting on International Support for Colombia has been set up in Bogota to monitor progress of commitments made on all sides, including UN recommendations. The Working Group is evaluating how we can work with the Colombian Government to ensure quicker progress on the implementation of the UN's recommendations. We will continue to impress upon the Colombian Government the importance we attach to the protection of human rights and of taking full account of the UN's own assessment of progress on its recommendations.

Egypt

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government has made to the Egyptian Government since 26 December 2003 regarding Mr. Magiid Nawaz. [147228]

Mr. Rammell: Maajid Nawaz is one of three British men currently detained in Egypt.

Ministers and officials have made several representations to the Egyptian authorities about this case since the men were first detained in April 2002. The verdict was expected on 25 December 2003, but the case has been adjourned until 25 March. My noble Friend the Baroness Symons of Vernham Dean wrote to the Egyptian Foreign Minister on 7 January to express her concern at the length of time it is taking to complete this case.

EU Enlargement

Sir Teddy Taylor: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the *(a)* levels of unemployment and *(b)* living standards in the nations which will secure membership of the EU in May. [146654]

Mr. MacShane: In 2003, average unemployment in the 10 accession countries was 10.2 per cent., caused largely by the restructuring required for EU accession. It is expected that this figure will fall as the adjustments become embedded. Unemployment in the EU15 in 2003 remained unchanged at 8.0 per cent. The average GDP per capita in the 10 accession countries in 2002 (latest figures) was US$7,105, compared to US$24,689 in the EU15. While this demonstrates the current disparity between existing and new member states, the real GDP growth in accession countries over the last five years has been 18.9 per cent. (4.1 per cent. in 2003), compared with 10.1 per cent. in the EU15 (0.8 per cent. in 2003).

Combined with the political and economic reforms enacted for EU membership, this sustained growth should facilitate a gradual reduction in the current disparity, as has been the case in previous waves of enlargement. (All figures are from the IMF).

EU Expulsions

Ann Winterton: To ask the Secretary of State for Foreign and Commonwealth Affairs what mechanism the European Union has to expel a member state. [146711]

Mr. MacShane: There is no mechanism in the EU's Treaties for the expulsion of a member state. There is however provision in Article 7 TEU for the suspension of a member state's voting rights, though its obligations under the Treaty would still continue to be binding.

European Constitution

Sir Teddy Taylor: To ask the Secretary of State for Foreign and Commonwealth Affairs what restrictions would be placed on the entitlement of EU member states to pursue national policies on *(a)* asylum, *(b)* visas and *(c)* conditions of entry and residence in the event of the proposed European Constitution being approved by member states. [146655]

Mr. MacShane: There is a strong case for co-operation between member states in asylum and immigration. In the event of member states approving the Constitutional Treaty, we will keep our existing opt-ins. We will not participate in common measures where it is not in the UK's interest to do so.

Georgia

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs when he proposes to hold discussions with the new government in Georgia. [146482]

Mr. Rammell: The Government look forward to working with the new leadership in Georgia. My right hon. Friend the Prime Minister wrote to Mr. Saakashvili on 5 January to congratulate him on his victory in the presidential elections and to offer the UK's support in helping him tackle the major challenges ahead.

The UK Special Representative for the South Caucasus, Sir Brian Fall, will visit Georgia from 12–14 January for talks with the new Administration.

Iraq

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government's plans for British involvement in Iraq have changed following the capture of Saddam Hussein. [146221]

Mr. Rammell: Government policy on Iraq has not changed following the capture of Saddam Hussein. His capture should reassure Iraqis who have suffered under his rule and feared his return to power. We will continue with our aim of working with Iraqis towards the establishment of a democratically elected government for Iraq.

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on where Saddam Hussein should be tried. [146222]

Mr. Rammell: We have made it clear that it is for the Iraqi people to decide how to bring to justice those responsible for crimes committed by the former regime. On 10 December 2003 the Governing Council announced the creation of an Iraqi Special Tribunal to fulfil such a task. However, it would be premature at this stage to speculate whether Saddam Hussein will face prosecution before the Tribunal.

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment the Government has made of weapons imported into Iraq in 2003 *(a)* prior to and *(b)* subsequent to the invasion by Coalition Forces; for what purpose this was done and to whom they were supplied; whether such supply was in breach of the UN arms embargo; and if he will make a statement. [146432]

Mr. Rammell: The Government scrutinises all export licence applications and closely monitors the sale of weapons overseas from the UK. All UK exports are assessed against the Consolidated EU and National Arms Export Licensing Criteria on a case by case basis. In line with our obligations under United Nations Security Council Resolution (UNSCR) 661 (6 August 1990) and its amendments, the UK did not sell or supply any weapons to Iraq prior to the onset of the conflict in 2003. Since the conflict ended the UK has rigorously enforced UNSCR 1483 (22 May 2003) which maintains the prohibition on the sale of all arms and related material, other than those required by the Coalition Provisional Authority (CPA) to serve the purposes of UNSCR 1483 and other related resolutions.

Since the introduction of UNSCR 1483 the Government have approved export licences for the sale and supply of weapons to the CPA and for the protection of CPA personnel and personnel contracted to assist with the reconstruction of Iraq. I made clear in a Written Statement to the House on 14 October 2003, *Official Report*, column 7WS, that we have licensed sub-machine guns and pistols for this purpose. The Government have also licensed smoke grenades and ammunition for the protection of CPA personnel, as well as ammunition for the CPA's work with the Iraqi Ministry of the Interior. A statement on both of these will be issued in January.

We are unable to comment on the export control policy of other countries, although EU countries apply substantially the same criteria under the EU Code of Conduct on Arms Exports and are similarly bound by the UN arms embargo.

Given the ongoing problems of security in Iraq, the Government are unable to assess the illegal flow of weapons across Iraq's borders since the end of the conflict in the spring of 2003. Such exports are in breach of the UN arms embargo, which was reaffirmed in UNSCR 1483.

Israel

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the implications for the UK's responsibilities as *(a)* a permanent member of the UN Security Council and *(b)* a high contracting party to the Fourth Geneva Convention of the International Court of Justice's decision to open hearings into the legal consequences of the construction of the wall in the occupied Palestinian Territory. [146562]

Mr. Rammell: The International Court of Justice has been requested by the UN General Assembly (Resolution A/RES/ES-10/14) to give an Advisory Opinion on the legal consequences arising from the construction of the wall being built by Israel in the Occupied Palestinian Territory.

The International Court of Justice's decision to hold hearings on this issue has no direct implications for the UK's responsibilities as a High Contracting Party to the Fourth Geneva Convention or as a permanent member of the UN Security Council.

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of *(a)* the amount of Palestinian land planned for appropriation by Israel under the map released by the Israeli Government on 23 October 2003 to construct the Separation Wall and *(b)* the amount of land that will be made inaccessible to its owners by the wall. [146564]

Mr. Rammell: According to the UN Secretary General's report of 24 November 2003, the Israeli Defence Force's map of 23 October predicts that 975 square km of land will lie between the Green Line and the fence, and 73 square km will take the form of closed areas.

While recognising Israel's legitimate security concerns, the UK considers the route of the fence Israel is building in the Occupied Palestinian Territories to be unlawful. It threatens the prospects for a two-state solution and is an obstacle to peace. The Government continues to make representations to the Government of Israel to re-route the fence away from Palestinian land.

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of *(a)* the amount of Palestinian land (i) appropriated and (ii) planned for appropriation by Israel in the area around Jerusalem to construct the

Separation Wall and *(b)* the amount of land in that area already made inaccessible to its owners by the Wall. [146565]

Mr. Rammell: The UN Secretary General's report of 24 November 2003 sets out various statistics relating to Israel's building of a fence in the Occupied Palestinian Territories. The report contained no specific figures for the land appropriated in the Jerusalem area, on which estimates from other sources vary.

While recognising Israel's legitimate security concerns, the UK considers the route of the fence Israel is building in the Occupied Palestinian Territories to be unlawful. It threatens the prospects for a two-state solution and is an obstacle to peace. The Government continues to urge the Government of Israel to re-route the fence away from Palestinian land.

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs how he intends to respond to the invitations from the International Court of Justice to member states to submit written evidence by 30 January to the hearings it is organising into the legal consequences of the construction of the wall in the occupied Palestinian Territory; and whether he will indicate by 13 February whether the UK intends to take part in those hearings. [146563]

Mr. Rammell: We are giving careful consideration to the UK's response to the International Court of Justice's invitation to member states to submit a written statement to the Court and/or to take part in the oral proceedings. I shall write to my hon. Friend to inform him of our decision in due course.

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the United Kingdom recognises the right of Israel to possess and deploy nuclear weapons. [147028]

Mr. Rammell: As a non-signatory of the Nuclear Non-Proliferation Treaty (NPT), Israel would not be in breach of any obligation under international law in the possession or deployment of nuclear weapons. However, the UK firmly believes that possession or deployment would be extremely destabilising for the region. We have consistently urged Israel to clarify its nuclear status by acceding to the NPT as a non-nuclear weapons state, and signing a full-scope safeguards agreement with the International Atomic Energy Agency (IAEA). Under the agreement with IAEA, Israel's nuclear facilities would be subject to regular inspection to detect and eliminate any diversion of nuclear materials for weapons production. The UK has consistently supported UN Resolutions calling for the establishment of a Middle East zone free of weapons of mass destruction. That zone would include Israel.

Leak Inquiries

Mr. Lilley: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list occasions on which his Department has conducted an inquiry into alleged leaks from members of staff since 1997; and if he will list the occasions on which the names of those persons accused of leaking information from his Department have been made public *(a)* by the Government and *(b)* by way of another source. [146943]

Mr. Rammell: Since 1997 the Foreign and Commonwealth Office has investigated 20 suspected leaks. In line with exemptions 1(a) and 7(b) of Part 2 of the Code of Practice on Access to Government Information, it has been the practice of successive governments not to comment on the outcome of such inquiries in order to safeguard security and investigative arrangements.

Ministerial Visits (Africa)

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs which African countries *(a)* he and *(b)* other Ministers in his Department have visited since June 2001; and what the (i) dates and (ii) main purposes of the visits were. [146937]

Mr. Mullin: The following table shows visits to African countries made by the Secretary of State for Foreign and Commonwealth Affairs and Foreign and Commonwealth Office ministers since 1 June 2001.

Country	*From*	*To*	*Purpose of visit*
Secretary of State for Foreign and Commonwealth Affairs			
Nigeria	5 September 2001	6 September 2001	Commonwealth Foreign Ministers Meeting
Egypt	27 September 2001	27 September 2001	Part of Middle-East tour
Democratic Republic of Congo/Rwanda/ Burundi/Uganda	21 January 2002	23 January 2002	Bilaterals
Egypt	8 October 2002	8 October 2002	Part of Middle-East tour
South Africa	12 May 2003	13 May 2003	Bilateral Forum
Nigeria	2 December 2003	4 December 2003	Accompanying HM Queen on State Visit
The then Parliamentary Under-Secretary of State Baroness Amos			
Nigeria	25 July 2001	27 July 2001	Bilateral
South Africa	29 August 2001	3 September 2001	UN World Against Racism Conference
Nigeria	5 September 2001	7 September 2001	Commonwealth Foreign Minister's Meeting (Accompanied Foreign Secretary)
Zimbabwe	24 October 2001	26 October 2001	Bilateral
Ethiopia	5 December 2001	8 December 2001	G8 Meeting
Kenya/Tanzania	2 January 2002	10 January 2002	Bilateral
Senegal/Nigeria	6 February 2002	10 February 2002	Accompanying Prime Minister (Visit also included France)
South Africa	12 February 2002	16 February 2002	G8 Meeting
Senegal	10 April 2002	13 April 2002	Bilateral and G8 Meeting
Ghana	25 April 2002	26 April 2002	Bilateral
Mozambique	14 May 2002	17 May 2002	Bilateral
Lesotho/South Africa	29 July 2002	3 August 2002	Bilaterals
Nigeria	3 September 2002	5 September 2002	Bilateral

Country	From	To	Purpose of visit
Mozambique	7 November 2002	8 November 2002	EU/SADC Meeting
Burkina Faso	27November 2002	29 November 2002	EU/Africa Dialogue
Angola/Ghana	4 December 2002	9 December 2002	Bilateral (Angola) and G8 Meeting (Ghana)
Senega]	18 December 2002	19 December 2002	Bilateral
Tanzania/Rwanda/Kenya	27 January 2003	31 January 2003	Bilateral
Cameroon/Angola/Guinea	25 February 2003	28 February 2003	Bilaterals
Cameroon/Angola/Guinea/Ghana	11 March 2003	12 March 2003	Bilaterals
South Africa	29 March 2003	1 April 2003	Bilateral
Botswana	1 April 2003	3 April 2003	Bilateral
South Africa	4 April 2003	6 April 2003	Bilateral
Mali	14 April 2003	15 April 2003	G8 APR Meeting
Minister of State right hon. Baroness Symons of Vernham Dean			
Egypt	17 January 2003	23 January 2003	Bilateral (Visit also included Saudi Arabia)
Morocco/Tunisia	14 September 2003	18 September 2003	
The then Parliamentary Under-Secretary of State Mr. Ben Bradshaw			
Egypt	18 July 2001	25 July 2001	Bilateral (Visit also included Israel, Syria, Jordan and Lebanon)
Algeria/Morocco	23 September 2001	26 September 2001	Bilateral
Minister of State Mike O'Brien			
Libya	6 August 2002	8 August 2002	Bilateral
Egypt	11 December 2002	13 December 2002	Bilateral. (Visit also included Qatar)
Algeria	19 May 2003	21 May 2003	Bilateral/Familiarisation
Parliamentary Under-Secretary of State Mr. Chris Mullin			
Ghana/Cote D'Ivoire/Sierra Leone	22 July 2003	25 July 2003	Bilaterals/Familiarisation
Kenya/South Africa	29 October 2003	5 November 2003	Bilaterals/Familiarisation
Nigeria	3 December 2003	8 December 2003	Commonwealth Heads of Government Meeting
Eritrea/Djibouti/Ethiopia	12 January 2004	20 January 2004	Bilaterals/Familiarisation

North Korea

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make an appraisal of the threat posed by North Korea, with particular reference to its policy towards acquisition of nuclear weapons. [146483]

Mr. Rammell: The Government believe that the Democratic People's Republic of Korea (DPRK) has been pursuing two separate programmes for the production of fissile material, through the enrichment of uranium and the processing of plutonium. DPRK also has long-range missiles in service, and we believe it has the capacity to develop missiles capable of reaching the UK. We will continue to urge the Government of DPRK, bilaterally and in co-operation with international partners, to remove the threat thus posed to the international community by dismantling its nuclear programmes verifiably and irreversibly, and by continuing the moratorium on the flight-testing of long range missiles.

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions have been held with the Democratic People's Republic of Korea regarding the elimination of its nuclear weapons programme. [147144]

Mr. Rammell: The Government makes regular representations to the government of the Democratic People's Republic of Korea (DPRK), through our Embassy in Pyongyang and through the DPRK Embassy in London, about its nuclear programmes. I also raised the issue with DPRK Vice Foreign Minister Choe Su Hon during his visit to London in April last year. We continue to express our concerns and to encourage DPRK to comply with its international obligations.

Official Visits (Africa)

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs which African *(a)* heads of state, *(b)* prime ministers and *(c)* foreign ministers have made official visits to the United Kingdom since June 2001; what the (i) dates and (ii) main purposes of the visits were; and which United Kingdom ministers met them. [146939]

Mr. Mullin: There have been a number of visits by leaders and ministers of African countries to the UK. Visits may be planned by the visitor's own government or by the Conference and Visits Group (CVG) of the Foreign and Commonwealth Office.

The following table shows all official visits organised by CVG since June 2001. Details of those visits organised by the visitor's own government are not held centrally and could be obtained only at disproportionate cost.

Visitor	From	To	Purpose of visit	UK Ministers met
Angola				
Foreign Minister Miranda	24 March 2002	27 March 2002	Sponsored visit	Foreign Secretary Baroness Amos
Botswana				
President Mogae	17 September 2001	19 September 2001	Africa meeting at Chequers	Prime Minister, SoS International Development Baroness Amos

Visitor	From	To	Purpose of visit	UK Ministers met
Foreign Minister Merafhe	17 September 2001	19 September 2001	Africa meeting at Chequers (accompanying President)	Prime Minister SoS International Development Baroness Amos
President Mogae	8 June 2003	11 June 2003	Guest of Government Visit	Prime Minister SoS International Development Foreign Secretary
Foreign Minister Merafhe	8 June 2003	11 June 2003	Guest of Government Visit (accompanying President)	Prime Minister SoS International Development Foreign Secretary
Central African Republic				
Prime Minister Ziguele	1 September 2003	7 September 2003	Sponsored Visit	Mr. Mullin
Ethiopia				
Prime Minister Zenawi	22 February 2003	26 February 2003	Guest of Government Visit	Baroness Amos SoS International Development Prime Minister Chancellor of the Exchequer Foreign Secretary
Foreign Minister Mesfin	22 February 2003	26 February 2003	Guest of Government Visit (accompanying Prime Minister)	Baroness Amos SoS International Development Prime Minister Chancellor of the Exchequer Foreign Secretary
Prime Minister Zenawi	13 July 2003	14 July 2003	Progressive Governance Summit	Prime Minister
Ghana				
President Kufuor	15 September 2001	21 September 2001	Africa meeting at Chequers	Prime Minister SoS International Development Baroness Amos
Foreign Minister Gbeho	15 September 2001	21 September 2001	Africa meeting at Chequers (accompanying President)	Prime Minister SoS International Development Baroness Amos
Foreign Minister Owusu-Agyemang	28 November 2002	30 November 2002	Sponsored Visit	Foreign Secretary Mr. Rammell
Mozambique				
President Chissano	18 September 2001	19 September 2001	Africa meeting at Chequers	Prime Minister SoS International Development Baroness Amos
Nigeria				
President Obasanjo	17 September 2001	18 September 2001	Africa meeting at Chequers	Prime Minister SoS International Development Baroness Amos
Rwanda				
Foreign Minister Murigande	11 May 2003	14 May 2003	Sponsored Visit	SoS International Development
SENEGAL				
President Wade	17 September 2001	18 September 2001	Africa meeting at Chequers	Prime Minister SoS International Development Baroness Amos
Foreign Minister Gadio	5 November 2001	7 November 2001	Sponsored Visit	Foreign Secretary Baroness Amos
South Africa				
President Mbeki	11 June 2001	15 June 2001	State Visit	Prime Minister
Foreign Minister Dlamini-Zuma	11 June 2001	15 June 2001	State Visit (Accompanying President)	Prime Minister
President Mbeki	13 July 2003	14 July 2003	Progressive Governance Summit	Prime Minster
Tanzania				
President Mkapa	16 September 2001	20 September 2001	Africa meeting at Chequers	Prime Minister SoS International Development Baroness Amos
Zambia				
Foreign Minister Mwansa	15 November 2003	20 November 2003	Sponsored Visit	Mr. Mullin

SOLICITOR-GENERAL

Disclosure and Public Interest Immunity

Vera Baird: To ask the Solicitor-General what advice the Attorney-General plans to issue to deal with the issues raised in the European Court of Human Rights case of Edwards and Lewis. [146760]

The Solicitor-General: This matter is the subject of appeal. The Grand Chamber in Strasbourg has agreed to hear an appeal by the UK Government against the decision in the case of Edwards and Lewis.

The House of Lords will be considering this judgment in the case of R *v.* H and C on 14–15 January 2004. The Attorney-General will be appearing on behalf of the Crown in that case.

The Attorney-General has no plans to issue any guidance until the issues raised in the appeal of R *v.* H and C have been considered by the House of Lords.

Vera Baird: To ask the Solicitor-General (1) if the Attorney-General will advise that special counsel should be available where there are issues of disclosure and public interest immunity involved in applications to try someone without a jury because of fear of intimidation under section 43 of the Criminal Justice Act 2003; [146779]

(2) if the Attorney-General will advise that special counsel ought to be instructed in cases where there are issues of public interest immunity and disclosure in criminal trials. [146780]

The Solicitor-General: This issue falls to be considered by the House of Lords in the case of R *v.* H and C. This appeal is to be heard on 14–15 January 2004. The Attorney-General will be representing the Crown in that case.

The House of Lords are being asked to consider the Public Interest Immunity system in England and Wales and whether or not it is necessary to instruct special advocates.

DEFENCE

Armed Forces Supplies

Mr. Jenkins: To ask the Secretary of State for Defence what plans he has to introduce a system to enable equipment and stocks to be tracked throughout the armed forces supply train. [141811]

Mr. Ingram: Since April 2002, the Defence Logistics Organisation, has taken a number of steps to improve both the ability to track assignments and to measure the performance of our resupply systems.

In December 2002, the purchase of elements of the "Total Asset Visibility" system currently in service in the United States Department of Defense was approved, in order to enable interoperability with US forces. The system is known as "Total Asset Visibility (Minus)" (TAV (Minus)), and is a radio frequency identity system that enables remote and automated scanning of electronically tagged containers, pallets, and other consignments. It is linked to existing United Kingdom information systems.

The contract for TAV (Minus) was let on 23 January 2003, and installation work began four days later. The first phase of this work was divided into two parts. The first elements of Phase 1 to support early sustainment activity were completed by 15 February. The remaining elements of Phase 1, to give more comprehensive detail of strategic Supply Chain activity into Theatre, were completed by 31 March. Phase 2 of the system, to support redeployment and recovery, was installed from the end of decisive operations on 1 May, and was completed by the end of July. TAV (Minus) technology has since been integrated with information systems used by the Royal Navy. TAV (Minus) has genuinely enhanced our consignment tracking capability and offers an opportunity for further exploitation.

Armoured Vehicles

Mr. Soames: To ask the Secretary of State for Defence what the cost will be of bringing the Armoured Vehicle Fleet to the standard required to meet operational targets; and if he will make a statement. [144505]

Mr. Ingram: I am withholding the information requested under Exemption 1 of the Code of Practice on Access to Government Information.

Challenger 2 Tanks

Mr. Gerald Howarth: To ask the Secretary of State for Defence what the cost was of *(a)* improved oil filters and fans, *(b)* oil health monitoring equipment and *(c)* extended side skirts used in the dust mitigation package for the Challenger II tanks deployed on operation Telic. [145645]

Mr. Ingram: The costs of the improved oil filters and fans, oil health monitoring equipment and extended side skirts used in the dust mitigation package for Challenger IIs deployed on Operation Telic are listed in the table.

Dust mitigation package	*£ million*
Improved air filters and fans	5.2
Oil health monitoring equipment	0.039
Extended side skirts and mud flaps	2.5

Departmental Secondments

Mr. Hancock: To ask the Secretary of State for Defence what factors underlay the policy of his Department on central monitoring of *(a)* outward secondments to private companies and *(b)* secondments to other governments; and if he will make a statement. [146826]

Mr. Caplin: Outward secondments to industry are subject to a formal application and selection process within MOD. Where an applicant is successful, a formal secondment agreement setting out the terms and conditions of the secondment is drawn up between MOD and the organisation concerned, covering aspects such as the duties to be undertaken, conduct, discipline, performance and development issues. Monitoring of performance and progress during the secondment is then undertaken by the relevant MOD interchange unit on a case by case basis as best fits the particular circumstances.

Appointments to other governments and departments are treated as public sector employment and are therefore subject to normal career posting arrangements. They are arranged by the appropriate local HR managers, and are not included as part of the central interchange programme. Although such appointments are not centrally monitored or covered by a formal secondment contract the other arrangements are broadly similar.

All MOD interchange activity is conducted in accordance with Cabinet Office guidelines which can be found at www.interchange.gov.uk.

Galileo Satellite

Harry Cohen: To ask the Secretary of State for Defence what representations have been received regarding the Galileo satellite network; what the Government's response has been; and if he will make a statement. [146363]

Mr. Jamieson: I have been asked to reply.

The Galileo Global Navigation Satellite System is a civil programme that falls under the European Union's Directorate-General for Energy and Transport. Negotiations on the project are continuing with European Union partners, the European Commission and the United States, including its interoperability with the US Global Positioning System. During these negotiations the Government have been in regular contact with organisations and individuals representing the companies involved in the development of satellite navigation systems and applications. The UK is committed to the commercial success of Galileo as a civil system that has the potential to offer many opportunities for new transport and other applications.

Iraq

Adam Price: To ask the Secretary of State for Defence how soon the relatives of Iraqi civilians killed following

incidents involving the use of force by British military personnel since the end of the conflict were officially notified of the fatality. [141683]

Mr. Ingram: UK forces inform the International Committee of the Red Cross of all confirmed civilian fatalities of which they are aware have been caused, or allegedly caused, by UK forces. The ICRC then endeavours to inform the relatives as soon as practicable.

Adam Price: To ask the Secretary of State for Defence what rights of redress have been made available to the families of Iraqi civilians allegedly killed by British forces since the end of the conflict. [141684]

Mr. Ingram: Redress for Iraqi civilians who have allegedly been killed or injured by United Kingdom forces is covered by Section 6 of the Coalition Provisional Authority Order Number 17. This requires cases to be dealt with by the parent state of the person whose activities are alleged to have caused the loss, in accordance with the national laws of that parent state.

Mr. Soames: To ask the Secretary of State for Defence which units deployed on Operation Telic 1 are to return to Iraq under the current planned roulement. [144154]

Mr. Ingram: The following Army unit was deployed on Operation Telic 1, and has subsequently returned under the most recent Operation Telic roulement: 26 Regiment Royal Artillery.

Llew Smith: To ask the Secretary of State for Defence what methods are being used to decontaminate Iraqi tanks and other military equipment disabled or destroyed by the use of depleted uranium munitions in the southern sector of Iraq under British military control. [147024]

Mr. Ingram: To date, all military vehicles known to have been hit by DU munitions within the southern sector of Iraq under British military control have been clearly marked and are pending further examination when the security situation allows. UK efforts so far have focused on the identification and demarcation of contaminated vehicles.

Iraq Survey Group

Glenda Jackson: To ask the Secretary of State for Defence how many British personnel are engaged in the Iraq Survey Group; and when he expects its next report to be published. [146579]

Mr. Ingram: On 7 January 2004, there were 55 United Kingdom civilian and military personnel attached to the Iraq Survey Group. There is no formal requirement on the ISG to report according to a particular timetable.

Operation Rockingham

Harry Cohen: To ask the Secretary of State for Defence what the role and function is of the unit set up under Operation Rockingham; what its cost was in the last financial year; and if he will make a statement. [146708]

Mr. Ingram: Operation Rockingham was established in 1991 to provide support to UNSCOM inspections in Iraq. It has subsequently also supported UNMOVIC inspections and currently supports the work of the Iraq Survey Group. In the last financial year (2002–03), the cost of the team was £78,723.53.

Royal Fleet Auxiliary Oilers

Dr. Julian Lewis: To ask the Secretary of State for Defence if he will list the periods in dry-dock of each Royal Fleet Auxiliary oiler in each year since 1997. [146505]

Mr. Ingram: The maintenance periods undertaken by Royal Fleet Auxiliary oilers in each year since 1997 that have included a period in dry dock are shown in the following table.

Type of maintenance	*Ship*	*Start date*	*End date*
Routine docking	Oakleaf	2 June 1997	22 August 1997
Refit	Bayleaf	4 May 1998	17 July 1998
Refit	Olna	4 May 1998	28 August 1998
Refit	Grey Rover	15 June 1998	27 November 1998
Refit	Orangeleaf	18 January 1999	26 March 1999
Refit	Black Rover	15 February 1999	20 May 1999
Refit	Brambleleaf	19 July 1999	24 September 1999
Routine docking	Olwen	12 April 1999	14 June 1999
Routine docking	Gold Rover	20 March 2000	26 May 2000
Refit	Oakleaf	14 February 2000	21 April 2000
Routine docking	Grey Rover	18 June 2001	20 August 2001
Routine docking	Orangeleaf	27 August 2001	26 October 2001
Routine docking	Black Rover	1 April 2002	24 May 2002
Routine docking	Brambleleaf	29 April 2002	28 June 2002
Contractor support period	Oakleaf	26 August 2002	22 September 2002
Refit	Gold Rover	14 October 2002	20 December 2002
Routine docking	Oakleaf	7 April 2003	30 May 2003
Refit	Bayleaf	3 June 2003	8 August 2003

The time in dry dock is only ever a part of the overall maintenance period and details of the exact time each vessel spent in the dock are not held centrally and could be provided only at disproportionate cost. In addition to the routine maintenance shown in the table RFA Grey Rover was docked in 1997 to undertake an emergency repair.

The two new tankers RFA Wave Knight and Wave Ruler have not been subject to docking periods since entering service.

Dr. Julian Lewis: To ask the Secretary of State for Defence if he will list the *(a)* year of construction and *(b)* anticipated year of decommissioning of each oiler in the Royal Fleet Auxiliary. [146506]

Mr. Ingram: The information requested is set out in the table:

RFA vessel	*Year of construction*	*Present planned decommissioning year*
Grey Rover	1970	2007
Gold Rover	1974	2009
Black Rover	1974	2010
Brambleleaf	1976	2009

Dr. Julian Lewis: To ask the Secretary of State for Defence what plans he has to use ships taken up from trade as oilers in future expeditionary warfare. [146508]

Mr. Ingram: The Ministry of Defence does not routinely plan to requisition oil tankers from trade. There may, however, be exceptional circumstances where we would wish to do so.

Second World War Ordnance (Badnells Pit Landfill Site)

Mrs. May: To ask the Secretary of State for Defence what records exist detailing the disposal of ordnance from the Second World War ammunition dump near Slough into the Badnells Pit landfill site near Maidenhead. [147021]

Mr. Caplin: MOD research has identified no official records that support claims of the dumping of ammunition in the Badnells Pit landfill site.

The authorised methods of disposal for Service munitions from Service stocks, both during and after the Second World War, did not include dumping in landfill sites. The standard methods of disposal involved the use of sea dumping, burning or the demolition of the material by explosive means.

Warships

Dr. Julian Lewis: To ask the Secretary of State for Defence what the due decommissioning dates are for each of the *(a)* Swiftsure class submarines and *(b)* batch 3 Type 22 frigates; and which of these dates have been brought forward during the past year. [146510]

Mr. Ingram: The current planned decommissioning dates for the Swiftsure class submarines and Type 22 Batch 3 frigates are as follows.

HMS	*Year*
Swiftsure class submarines:	
Spartan	2006
Sovereign	2006
Superb	2008
Sceptre	2010
Type 22 Batch 3 frigates:	
Cornwall	2015
Cumberland	2017
Campbeltown	2017
Chatham	2018

The planned decommissioning date for HMS Chatham was brought forward from 2020. This is the only amendment to have been made within the last 12 months.

Split North Port, Croatia

Richard Ottaway: To ask the Secretary of State for Defence further to his letter of 30 November 2003 on Split North Port, Croatia, how much the rent payable for the Split North Port was during the relevant period; and how much the underpayment was. [145219]

Mr. Ingram: The lease between the Ministry of Defence and Split North Port (SNP) provided for payments of around $8.9 million. Within the $6.35 million settlement in 2001, was an overall figure of $5.5 million for several claims by SNP taken together, including underpayment of rent, use of facilities and back interest. The claim for underpayment of rent arose from an Arrangement between NATO and the Croatian Government not the original lease.

NORTHERN IRELAND

Civil Service (Disabilities)

Mr. Goodman: To ask the Secretary of State for Northern Ireland what progress has been made in meeting targets for the proportion of people with disabilities in senior posts in his Department. [145998]

Mr. Pearson: 3.5 per cent. of the senior civil servants employed in the Northern Ireland Office have declared a disability. The corresponding figure for the Northern Ireland Civil Service is 3 per cent..

The NIO is awaiting the detailed results of the Northern Ireland 2001 Census before setting a Departmental target for people with disabilities in the Senior Civil Service.

There are a number of measures in place to improve the representation of disabled people at all levels in the NIO, including in senior posts:

Since 1998 the NIO has run a bursary scheme for staff below SCS level with disabilities, where the recipient is provided with a fast-track development programme of training, mentor ing and work placements to enable them to compete at the senior grades;

The Department has participated in the Cabinet Office 2003 Summer Placement Scheme for disabled graduates/undergraduates. The eight week placement, at fast stream level, provides the participant with high quality work experience to attract them to the opportunities of a future fast stream career in the Civil Service;

Reasonable adjustment measures are provided to assist existing staff with disabilities to remain in work; and

Work is carried out with schools and organisations for disabled people in Northern Ireland to increase their awareness of the job opportunities available within the Civil Service.

Dental Care

Lady Hermon: To ask the Secretary of State for Northern Ireland when he expects the examination of the future delivery of primary care dental services in Northern Ireland to commence; what form he expects the examination will take; and when he expects to be able to report the findings. [147382]

Angela Smith: The Chief Dental Officer is currently developing a new Oral Health Strategy, which will set the oral health agenda for the next 10 years. It will identify the oral health needs of the Northern Ireland population, determine desired outcomes and identify areas where oral health can link into the wider health agenda.

It is hoped that work on the new Oral Health Strategy will be concluded by June 2004 and this will then allow the development of a strategy for the delivery of primary care dental services to commence. That strategy will also take account of recent reviews of the dental workforce and the community dental service and consider whether any of the new contractual arrangements, currently being developed in England, should be introduced here.

The aim is to have the necessary legislation in place to introduce any changes from April 2006 or as soon as possible thereafter.

Both strategies will be developed in consultation with service users, health and social services professionals, key stakeholders and relevant interest groups.

Departmental Advertising

Mr. Lidington: To ask the Secretary of State for Northern Ireland what the total expenditure on information campaigns and advertising for his Department was for 2002–03. [145725]

Mr. Paul Murphy: The total expenditure on information campaigns and advertising across the 11 Departments of the Northern Ireland administration during 2002–03 was £2,064,598.35 and the corresponding figure for Northern Ireland Office was £114,082.26.

Fishing Industry

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland on what dates in the last five years the Minister with responsibility for Agriculture and Rural Affairs visited *(a)* Kilkeel, *(b)* Ardglass and *(c)* Portavogie to meet the fishing industry and its representatives. [144617]

Mr. Pearson: I visited Kilkeel, Ardglass and Portavogie Harbours on Sunday 2 February 2003. I also visited Kilkeel on 15 February 2003 and met with representatives from various parts of the fishing industry. I have also had subsequent meetings with the fishing unions leading up to the Fisheries Council in December 2003.

Hospital Bed Shortages

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on bed shortages in Northern Ireland hospitals. [147195]

Angela Smith: Many of Northern Ireland's hospitals have come under considerable pressure in recent days, with large numbers of patients having to wait on trolleys for admission. In preparation for the pressure of winter, a significant range of additional services were put in place, including extra medical beds and enhanced facilities in primary care and community care services, which help to minimise the number of potential hospital admissions. An additional £7 million was allocated to support this extra service provision. Work is also well under way to increase overall hospital capacity and, over the past year, the number of available hospital beds has increased by over 70. A further 30 beds will be coming on stream later this year. To complement this expansion, an additional £6 million is being spent in the current year on providing extra community care services.

IT Contracts

Mr. Sayeed: To ask the Secretary of State for Northern Ireland if he will list information technology contracts in his Department with a value of above £20 million in each of the last 10 years; what the inception date for each system was; when it became fully functional; when it became fully debugged; and what the cost of over-runs has been. [146197]

Mr. Pearson: Only one contract of this size has been awarded within the Northern Ireland administration during the past 10 years.

In May 1998 the then Training and Employment Agency—an Agency within the then Department of Economic Development signed a 10 year PFI contract with ICL (now Fujitsu Services) for the provision of all IT hardware, data communication networks, office productivity software and Internet access for the former Agency. Additionally, the contract required the provision of two systems namely the Client Management System (CMS) and Trainee Management System (TMS).

Following the formation of the Northern Ireland Assembly and its constituent Departments the contract was extended to cover the increased number of staff in the newly formed Department of Higher and Further Education Training and Employment now the Department for Employment and Learning.

The hardware and office productivity software became fully functional in November 1998 on schedule, CMS went live on schedule in March 1999 and TMS became functional on 25 March 2002 some three months behind schedule.

There were no over-run costs and no major bugs needing remedial action.

Learning Disabilities

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many pupils aged 16 and over with moderate learning disabilities are enrolled in Northern Ireland schools, broken down by *(a)* age, *(b)* school and *(c)* education and library board area. [144220]

Jane Kennedy: Information for the 2003–04 school year is not yet available. From the 2002–03 school census, the numbers of pupils with statements of special educational need who had moderate learning difficulties were as follows:

	Number of pupils with MLD
(a) Age at 1 July 2002	
16	30
17	12
Total	42
(b) School name	
Ashfield boys' high school	1
Ashfield girls' high school	1

	8
Southern	12
Total	42

Promoting Social Inclusion Working Group

Lady Hermon: To ask the Secretary of State for Northern Ireland when the Promoting Social Inclusion Review Group was established; what its remit is; and what the *(a)* names and *(b)* positions of the members are. [144344]

Mr. Spellar: The Promoting Social Inclusion Working Group on homelessness was established on 7 May 2003. Its remit is to consider how Government Departments, Agencies and Non-Departmental Public Bodies can best work together to firstly, ensure that the risk of homelessness is reduced and secondly, that the full range of appropriate services is available to those who do find themselves homeless.

The names and positions of its members are available, together with minutes of the group's meetings and other supporting papers, on the Department for Social Development's internet site, at the following address:

http://www.dsdni.gov.uk/housing/Social-Inclusion.asp

Saville Inquiry

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland (1) what the cost of the Saville Inquiry has been so far; and what payments have been made to each of the legal firms involved in the Inquiry; [144181]

(2) when he will reply to the Question from the hon. Member for East Londonderry, tabled on 10 December 2003, ref 144181, on the Saville Inquiry. [147046]

Mr. Spellar: I apologise to the hon. Gentleman for the delay in replying to his question. Some of the detailed information requested about payments to legal firms was not immediately available in the form requested. I shall write with the information shortly.

On the figures available at the end of December 2003 the cost of the Bloody Sunday Inquiry has been £127 million. The Northern Ireland Office has spent £103.5 million. My right hon. Friend the Secretary of State for Defence advises me that his Department has spent £23.5 million.

Senior Civil Service

Mr. McGrady: To ask the Secretary of State for Northern Ireland how many and what types of senior civil service posts were filled over the past 12 months; and how many of such posts were filled by public advertisement. [145102]

Mr. Pearson: Information on appointments to the Northern Ireland senior civil service is as follows:

	Total posts	Filled by public advertisements
Grade 2A (Permanent Secretary)	3	2
Grade 3 (Under Secretary)	7	1
Grade 5 (Assistant Secretary)	26	23

Shorts/Bombardier

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland how many cases have been submitted to the Labour Relations Agency for consideration by an industrial tribunal from workers at Shorts/Bombardier. [146309]

Jane Kennedy: Employment-related complaints are submitted direct to the Office of the Industrial Tribunals and the Fair Employment Tribunal. All such applications are recorded in a public register and a copy of each is sent to the Labour Relations Agency, which seeks to promote a settlement of the complaint without need for a tribunal hearing.

In the calendar year 2003, 361 applications were made to industrial tribunals by Shorts/Bombardier staff. A breakdown of these by ground of complaint is provided below (some included more than one ground).

	Number
Unfair dismissal	[1]353
Redundancy payments	3
Breach of contract	4
Wages order	3
Disability	17
Sex discrimination	9
Trade union activities	1

[1] Includes "unfairly selected for redundancy" cases.

There were also 20 applications to the Fair Employment Tribunal by Shorts/Bombardier staff over the period.

TRANSPORT

A595

Dr. Jack Cunningham: To ask the Secretary of State for Transport what progress has been made in the preparation and design of the Lillyhall to Parton improvement on the A595 in West Cumbria; when he expects the scheme to commence; and if he will make a statement. [146504]

Mr. Jamieson: Following the scheme's entry into the Government's Targeted Programme of Improvements in March 2001, a contract to design and build a new 5 km dual carriageway to bypass the communities between Parton and Lillyhall was awarded by the Highways Agency in December 2002. The Agency is currently developing the scheme in sufficient detail to enable the publication of draft orders under the

Highways Act, later this year. The public and other interested parties will have an opportunity to comment on the draft proposals and, if necessary, a public inquiry will be held to hear representations. Subject to completion of the statutory processes and availability of funding, construction could start in 2006. The scheme is expected to cost around £25 million and will bring much needed relief to the local communities.

Accident Rates

Mr. Blizzard: To ask the Secretary of State for Transport if he will make a statement on the accident rates, including fatalities, for *(a)* single and *(b)* dual carriageway roads, including motorways. [146739]

Mr. Jamieson: In 2002, there were 42 accidents involving human injury or death per 100 million vehicle kilometres on single carriageway roads in Great Britain, and 38 per 100 million vehicle kilometres on dual carriageways.

Air Safety (Banned Airlines)

John Thurso: To ask the Secretary of State for Transport (1) which airlines are banned from the airspace of *(a)* the United Kingdom and *(b)* each EU country for which information is available; [147181]

(2) if he will make a statement on the availability of information to passengers travelling to and from the United Kingdom relating to airlines which are banned from the airspace of *(a)* the United Kingdom, *(b)* other European countries and *(c)* other countries. [147182]

Mr. McNulty: I refer the hon. Member to my answer of 8 January, given to the hon. Member for Spelthorne (Mr. Wilshire) *Official Report*, column 429W.

International civil aviation is governed by the Chicago Convention. Under the Convention the International Civil Aviation Organisation is responsible for establishing minimum safety standards. Contracting States are required to recognise the certificates of other Contracting States unless they have reason to believe that they have not been issued in accordance with ICAO standards. ICAO also audits Contracting States' aviation authorities to help identify and address any deficiencies in the implementation of international standards.

Any airline from outside the EU or EEA which wishes to pick up or put down passengers or cargo in the UK requires a permit from the Secretary of State. It is a condition of the permit that the airline should be operated in accordance with international safety standards established by the International Civil Aviation Organisation.

Permits may be refused, suspended or revoked if the Secretary of State considers it appropriate to do so, taking into account any relevant information available to him, including the outcome of inspections of aircraft carried out by the Civil Aviation Authority at the request of the Department. We have now placed on the Department's web site information about UK permit action as set out in my answer of 8 January, which includes the reasons for and duration of such action. This information will be updated as appropriate.

We are not able to publish similar information with respect to permit action by other countries. Our inspections of foreign airlines are carried out in accordance with a procedure established under the European Civil Aviation Conference's Safety Assessment of Foreign Aircraft Programme, soon to be enshrined in European Community law. The results of inspections are entered on a central database and may be accessed by all ECAC States on the strict understanding that their use will be restricted to State organisations. The database includes information on some permit action by Member States, but what constitutes permit action varies from State to State. Some States include short restrictions on the use of an individual aircraft which may have been lifted before the report of the inspection reaches the database. The database cannot therefore be used to determine whether an airline currently has restrictions on its operations to an ECAC state. We are urgently considering with our ECAC colleagues how we can extend and refine the information on the database and whether it is possible for further information to be made public.

Approved Driving Instructors

Mr. Swayne: To ask the Secretary of State for Transport for what reason the Pizza, Pasta and Italian Food Association was consulted by the Driving Standards Agency regarding proposed changes to Approved Driving Instructor qualifications; and if he will make a statement. [146455]

Mr. Jamieson: The Driving Standards Agency issued its consultation paper in April 2003 to a wide range of organisations including national and local approved driving instructor associations, other driver and rider training groups, road safety officers, motoring organisations and other interested parties.

Among the proposals, the paper invited comments on increasing the theory test fee for all learner drivers and riders. This was considered of particular interest to, for example, organisations representing trainers and employers of motorcycle and moped riders. The paper was therefore sent to the Motorcycle Retail and Rider Training Associations and to the Despatch Association. A copy was also sent to the Pizza, Pasta and Italian Food Association whose members employ large numbers of moped riders for home delivery services, some of whom only hold provisional licences and could therefore be affected by the proposed fee increase.

Consulting representative organisations is a more effective way of reaching the individuals than trying to contact them individually and is in line with guidance in the Cabinet Office "Code of Practice on Written Consultation".

Asylum Seekers

Chris Grayling: To ask the Secretary of State for Transport what requirements there are for asylum seekers to apply for a UK or international driving licence before driving on British roads. [146548]

Mr Jamieson: The requirements in relation to application for a driving licence in the United Kingdom are the same for asylum seekers as for everyone else. In order to be able to drive here all individuals must have the relevant driving entitlement.

Drivers who are resident in the United Kingdom and who hold a valid european Community/European Economic Area (EC/EEA) licence are entitled to drive until the expiry of the licence or until the driver becomes subject to British renewal at the age of 70.

Those who hold a non-EC/EEA driving licence or an international driving permit issued in another country may drive in the United Kingdom for the first 12 months from the date they become resident. To ensure continuous driving entitlement, a United Kingdom driving licence must be obtained before this period elapses. Drivers who hold a licence from a country which has been designated for licence exchange purposes must exchange their driving licence for a United Kingdom one. In the case of a country which has no exchange agreement, drivers must obtain a United Kingdom provisional licence and pass both the theory and practical parts of the driving test before being granted a full driving licence.

British Transport Police

Mr. Jenkins: To ask the Secretary of State for Transport what the annual cost of policing on the railways by the British Transport Police was in the latest year for which figures are available; and who meets the cost. [147034]

Mr. McNulty: The total expenditure of the British Transport Police during the financial year 2002–03 was £132.9 million. This was funded by the following contributions.

Organisation	*£million*
Train Operating Companies	61.4
Network Rail	35.1
London Underground Limited	31.2
Ad hoc income	4.2
Interest received	0.2
Previous years surplus	0.8

Crash Barriers

Sue Doughty: To ask the Secretary of State for Transport pursuant to his answer of 15 December 2003, *Official Report*, column 704W, on crash barriers, how many lorries crossed the offside crash barriers of dual carriageways and motorways in each of the last five years. [146055]

Mr. Jamieson: The information collected on road accidents does not identify whether a particular barrier was crossed.

Cyclists

Mrs. Calton: To ask the Secretary of State for Transport (1) what steps he is taking to ensure that *(a)* developers of new roads assess the needs of cyclists and *(b)* the findings of those assessments are incorporated at the planning stage; [146953]

(2) what advice he has given the Planning Inspectorate about meeting the needs of cyclists. [146955]

Mr. McNulty: Local authorities are required to prepare a strategy for the provision and improvement of routes and facilities for cyclists as part of their Local Transport Plan.

Advice on integrating planning and transport, including meeting the needs of cyclists, is set out in Planning Policy Guidance note 13. The Government's statements of planning policy are material considerations which must be taken into account, where relevant, in decisions on planning applications and appeals.

Road Safety (Motorways)

Mr. Kidney: To ask the Secretary of State for Transport what assessment he has made of the numbers of deaths and injuries on motorway hard shoulders as set out in the Transport Research Laboratory reports PR/TT/082/99 and PR/TT/069/98 (Table 7). [146520]

Mr Jamieson: The Transport Research Laboratory (TRL) report PR/TT/069/98 collates information on the usage and accidents on motorway hard shoulders. The TRL report PR/TT/082/99 analyses this data and uses it to establish patterns and frequencies of such accidents.

Both of these reports provided material for the SURVIVE Working Group, a cross-industry group funded by vehicle recovery operators in which the Highways Agency has participated. The Group's recommendations were published in "The SURVIVE Report on Hard Shoulder and Roadside Safety" in April 2000. These recommendations and the TRL reports continue to inform the Highways Agency's policy, advice and future research aimed at increasing the safety of those who need to stop or work on the hard shoulders of motorways.

Deep Vein Thrombosis

Mr. John Smith: To ask the Secretary of State for Transport (1) if he will hold a public inquiry into the incidence, extent and causes of deep vein thrombosis amongst air travellers following the publication of research by the New Zealand Medical Research Institute; [146934]

(2) what steps he is taking to protect British air travellers following the research by the New Zealand Medical Research Institute published in The Lancet on 19 December 2003; [146935]

(3) what assessment he has made of the report of the New Zealand Medical Research Institute into the incidence of deep vein thrombosis amongst air travellers. [146936]

Mr. McNulty: The House of Lords Select Committee on Science and Technology reported in November 2000 on the health aspects of air travel, including Deep Vein Thrombosis (DVT). The report identified the need for further research into air travel and DVT.

The Department for Transport has subsequently provided £0.8 million, and the Department of Health £0.4 million, to a World Health Organisation (WHO) research project into the incidence of DVT and the possible physiological mechanisms involved. The

European Commission is contributing a further £0.65 million. The results of the research are expected in early 2005.

The Government and the Civil Aviation Authority's Aviation Health Unit are aware of the research recently published by the New Zealand Medical Research Institute. Once the WHO work is completed, the Aviation Health Unit will advise the Government on what, if any, further action needs to be taken.

Advice on health and travel, given the present state of knowledge, is widely available to the public in the Department of Health's 'Health advice for Travellers' booklet and is under constant review. Advice has also been made available to the public through NHS Direct, the Internet, airlines and health services.

Drink Driving

Peter Bottomley: To ask the Secretary of State for Transport if he will list for each of the last five years for which data are available the number of *(a)* fatal, *(b)* serious and *(c)* slight casualties in (i) road and (ii) other transport accidents involving illegal alcohol levels; and what the percentage change was for each category between each year. [144551]

Mr. Jamieson: The table shows fatal serious and slight casualties in road accidents where at least one driver had a blood alcohol level over the legal limit for the last five years.

Casualties in road accidents where at least one driver had a blood alcohol level over the legal limit.

Year	*Fatal*	*% change over previous year*	*Serious*	*% change over previous year*	*Slight*	*% change over previous year*
1998	460		2,520		15,590	
1999	460	0	2,470	-2	16,910	8
2000	530	15	2,540	3	18,060	7
2001	530	0	2,690	6	18,770	4
2002[1]	560	6	2,820	5	20,140	7

[1] Provisional data

The information requested in respect of casualties in rail accidents is not held centrally, and information is not available for air or marine accidents.

Transport Investment (Cambridgeshire)

Mr. Djanogly: To ask the Secretary of State for Transport how much investment there was in transport in *(a)* Cambridgeshire and *(b)* Huntingdon in each of the past five years. [146445]

Mr. McNulty: The figures provided relate to expenditure by Cambridgeshire county council and the Highways Agency. The Strategic Rail Authority was unable to provide figures for the railway industry as they do not have any records of expenditure by local authority area.

Total investment in transport by Cambridgeshire county council and the Highways Agency in each of the past five years was:

1998–99	*£ million*
(a)	7.6
of which	
(b)	2.5
1999–2000	
(a)	13.9
of which	
(b)	3.2
2000–01	
(a)	10.7
of which	
(b)	1.3
2001–02	
(a)	20.9
of which	
(b)	3.3
2002–03	
(a)	32.8
of which	
(b)	8.7
Total	
(a)	85.9
of which	
(b)	19.0

M5

Mr. Drew: To ask the Secretary of State for Transport when the report will be published on the impact of traffic flow on local roads following the opening up of Junction 12 of the M5 into a full junction. [146476]

Mr Jamieson: The report on the impact of traffic flows on local roads near Junction 12 of the M5 will be published in summer 2004.

Motorways

Mr. Blizzard: To ask the Secretary of State for Transport how many miles of motorway there are per 1,000 square kilometres in *(a)* the UK and *(b)* other EU countries. [146737]

Mr. Jamieson: The information requested is given in the Table as follows:

Miles of motorway per 1,000 square kilometres, 2001

United Kingdom	9
Austria	12
Belgium	35
Denmark	14
Finland	1
France	12
Germany	20
Greece	3
Irish Republic	1
Italy	13
Luxembourg	28
Netherlands	34
Portugal	11
Spain	12
Sweden	2

Post Office Closures

Mrs. Calton: To ask the Secretary of State for Transport what assessment he has made of the effect on traffic congestion of post office closures. [146954]

Mr. McNulty: Any traffic effects of the closure of individual post offices will depend on the location of alternative offices, transport links, choices made by individual customers and the many other factors which may contribute to any local congestion. If there were any significant effects I would expect local authorities to take account of them in their Local Transport Plans.

Road Safety

Dr. Murrison: To ask the Secretary of State for Transport pursuant to his answer of 4 December 2003, *Official Report*, column 161W, on road safety, when he expects the studies he has commissioned to report. [147510]

Mr. Jamieson: The monitoring results of the traffic management scheme in Stiffkey, Norfolk were published in 2001 in TRL Report 500 Countryside Traffic Measures Group: Traffic calming schemes in Norfolk and Suffolk, and the summary report TRL Report 502 Countryside Traffic Measures Group: Demonstration schemes. The "Drivers and Traffic Calming" project team plans to report in spring 2005.

The findings of the European project on road markings are reported in COST 331 Requirements for Horizontal Road Marking: Final Report of the Action, which was published in 1999. This was a collaborative project and was not commissioned by the Secretary of State for Transport.

Road Surfaces

Mrs. Calton: To ask the Secretary of State for Transport what progress has been made with the introduction of quieter road surfaces on *(a)* the M60 between junction 1 and junction 5 and *(b)* the M56 between junction 1 and junction 2; and what plans there are for introduction of further such surfaces. [147020]

Mr. Jamieson: The surfaces of the M56 and M60 Motorways at these locations are generally in good condition and low noise surfacing was used recently when the slip road leading from the M60 at Junction 4, to the M56, was widened. Under normal maintenance procedures, it will be necessary to resurface small sections of these motorways over the next two-three years, and low noise surfacing will be used. Full resurfacing using low noise materials will not be undertaken until a comprehensive renewal of the existing surface is needed.

The Highways Agency has plans to fully resurface the M60 between Junctions 1 and 2. In order to keep to a minimum any disruption to road users, the Highways Agency would wish to avoid work on this section of the M60 whilst widening is taking place between Junctions 5 and 8. That widening will include low noise surfacing and is due for completion in spring 2006.

The Government recognises that excessive noise from traffic is an important issue. Lower noise surfaces is used on the trunk road network for all new roads and for most resurfacing work.

Roads

Mr. Blizzard: To ask the Secretary of State for Transport what percentage of the total land area of the UK is taken up by roads. [146736]

Mr. Jamieson: It is estimated that about 1 per cent. of the land area of the UK is taken up by roads.

Mr. Blizzard: To ask the Secretary of State for Transport how many miles of dual carriageway there are per unit area in each county. [146738]

Mr. Jamieson: The information requested is given in the Table:

Miles of dual carriageway per thousand square miles, 2002

County	*Miles of dual carriageway per thousand square miles*
Avon	52
Bedfordshire	52
Berkshire	129
Buckinghamshire	57
Cambridgeshire	70
Cheshire	72
Cleveland	196
Cornwall	27
Cumbria	12
Derbyshire	60

Stroud Station (Disability Discrimination)

Mr. Drew: To ask the Secretary of State for Transport what proposals are being made to permit Stroud station to become compliant with the Disability Discrimination Act 1995. [146475]

Mr. McNulty: The SRA is considering how best to prioritise a programme of works to meet the accessibility requirements of the Disability Discrimination Act at stations and will be consulting on draft criteria later this year.

Train Services (Northampton)

Ms Keeble: To ask the Secretary of State for Transport (1) when the new timetables for Northampton train services will be ready; [146758]

(2) what consultation will be held on the new timetables for Northampton train services. [146759]

Mr. McNulty: Last year the Strategic Rail Authority consulted the rail industry, local authorities, passenger representatives and other stakeholders on the future pattern of service on the West Coast Main Line, including through Northampton. In June their 'West Coast Main Line Strategy' was published, indicating the likely level of service from September 2004 and beyond. The timetable for September 2004 has not yet been finalised, but it should be agreed at least 12 weeks prior to implementation, and made available to the public at least four weeks prior to the timetable change date. A further consultation on the emerging timetable will take place with key stakeholders, including rail user groups and Rail Passengers Committees, before it is finalised.

West Coast Main Line

Mrs. Calton: To ask the Secretary of State for Transport how much has been spent on *(a)* maintenance and *(b)* upgrade of the West Coast Main Line in each year since 1997; and what the purpose of the expenditure was in each case. [146570]

Mr. McNulty: Annual expenditure on the maintenance and upgrade of the West Coast Main Line is as follows:

£ million

	Maintenance	*Upgrade programme*	*Total*
1997–98	117	126	243
1998–99	118	170	288
1999–2000	115	313	428
2000–01	118	687	805
2001–02	123	781	904
2002–03	126	970	1,096
2003–04	126	1,536	1,662

The maintenance expenditure in the table is defined as that required to keep the existing railway infrastructure assets operational.

Upgrade programme expenditure relates to a range of activities intended to renew existing life-expired assets, and delivery of the associated enhancement works needed to increase line speeds and route capacity.

CABINET OFFICE

School Funding

Mr. Hoban: To ask the Minister for the Cabinet Office if he will make a statement on the work carried out by the strategy and delivery units on the method of funding schools. [147148]

Mr. Alexander: The Strategy and Delivery Units work across a range of areas in support of Ministers and Departments. In line with exemption 2 set out in Part II of the Code of Practice on Access to Government Information, internal discussion and advice remains confidential.

A list of the Strategy Unit's current public projects is available from its website: www.strategy.gov.uk.

WORK AND PENSIONS

War Disablement Pensioners

20. **Mr. Chaytor:** To ask the Secretary of State for Work and Pensions what the earnings disregard for war disablement pensioners in receipt of income support was last updated. [146802]

Malcolm Wicks: There is no specific earnings disregard for people receiving a war pension, although they can benefit from the standard disregards available to anyone claiming income support.

However, in recognition of the special nature of war disablement pension, there is a £10 disregard of these payments when assessing entitlement to income-related benefits.

Pensions Protection

21. **Mr. Foulkes:** To ask the Secretary of State for Work and Pensions what action he is taking to ensure that workers who have lost their pensions through no fault of their own and are not covered by the pension protection fund are adequately compensated. [146803]

Malcolm Wicks: I have great sympathy for the difficulties faced by workers who have suffered pension losses.

I, and other Ministers; have been meeting those affected to discuss proposals, but do not wish to raise false hope on this matter.

Disability Benefits

22. **Mr. Rendel:** To ask the Secretary of State for Work and Pensions what plans he has to undertake research into the take-up of disability benefits. [146804]

Maria Eagle: There are no current plans for research into the levels of take-up of disability benefits because entitlement to disability living allowance (DLA) and attendance allowance (AA) can be established reliably only after a claim has been made and the care and mobility needs of the customer assessed. There are no data available about who might be entitled to either DLA or AA if they were to make a claim, which means

that there is no reliable means of calculating the number of people receiving the benefits as a proportion of the eligible population.

Progress2Work

23. **John Mann:** To ask the Secretary of State for Work and Pensions what assessment he has made of the value for money of Progress2Work. [146805]

Mr. Browne: Our Progress2Work programme has been successful in helping more than 1,200 recovering drug misusers into work. And we will have extended this support across the country by April.

Although no formal cost benefit analysis has been carried out, available information indicates that it costs around £750 per year to help each person through progress2work. This certainly represents good value for money compared to the £37,500 it would cost to keep the same person in prison.

Age Discrimination

Mr. Jim Cunningham: To ask the Secretary of State for Work and Pensions what steps his Department is taking to promote the use of positive action within the public sector to combat age discrimination. [146427]

Malcolm Wicks: The Department for Work and Pensions is combating age discrimination in the workplace through our Age Positive campaign. Age Positive is vigorously promoting the business benefits of an age diverse workforce by encouraging employers in both the public and private sector to adopt the voluntary Code of Practice: Age Diversity at Work, A Practical Guide For Business.

The Age Positive campaign highlights the good practice of private and public sector employers—such as local authorities who promote age equality.

Age Positive targets the public sector through advertising, internet, specialist press—and exhibits at public sector events such as the annual conference of the Society of Personnel Officers in Government Services.

The Department for Work and Pensions was one of the first Departments to give people the choice of when they retire between the ages of 60 and 65. Many Departments have now given employees the choice and over 75 per cent. of civil service staff (outside the Senior Civil Service) now have the opportunity to stay on until they are 65. We have, in fact, responded to inquiries from staff seeking to work beyond 65 and introduced arrangements to allow them to do so.

Asylum Seekers

Tony Lloyd: To ask the Secretary of State for Work and Pensions what initiatives his Department is taking to provide access to employment for asylum seekers who have been granted leave to remain. [146783]

Mr. Browne: We know that the level of unemployment among refugees is unacceptably high. We are taking positive action to reduce this such as: working more closely with the Home Office; engaging with community and voluntary groups; improving provision of English language and other training, and helping individuals to promote their skills to employers.

In September we published an interim report 'Working to Rebuild Lives': a preliminary report towards a refugee employment strategy and we will be publishing our full strategy later this year.

Bereavement Benefits

Mr. Willetts: To ask the Secretary of State for Work and Pensions how many *(a)* widows and *(b)* widowers have been refused benefit on the grounds of being late claimants in each year from 1997 to 2002. [145979]

Mr. Pond: The information is not held centrally and could be obtained only at disproportionate cost.

Bereavement Benefits were introduced on 9 April 2001, and for the first time extended support to both widows and widowers following the death of a spouse. These new benefits concentrate the help available where it is most needed; on immediate needs and on families with children.

In April 2003 we extended the time limit for claiming Bereavement Payment to 12 months aligning it with the period over which a person can receive Bereavement Allowance.

Mr. Webb: To ask the Secretary of State for Work and Pensions by what means couples are made aware of the rules relating to bereavement benefits; and if he will make a statement. [146206]

Mr. Pond: Information is available from local Jobcentre Plus and Social Security offices, and the Department for Work and Pensions website gives information about Bereavement Benefits together with leaflets and claim forms for downloading. A fully revised version of leaflet NP45 "A guide to Bereavement Benefit" for professional advisers and members of the public was published in May this year. Leaflets D49 "What to do after a death in England and Wales" and D49S "What to do after a death in Scotland" are reviewed and revised as necessary annually.

In addition, we have been working with funeral directors, Registrars and voluntary groups such as Cruse, National Association of Widows and Citizens Advice Bureaux who may be contacted by bereaved people.

We have worked with Registrars to amend the social security form for notifying the Department of a death (BD8) to draw greater attention to the fact that it can be used to initiate a claim for bereavement benefits, this went to print in April 2003 and has been in use by Registrars since then. Within the last year we have also arranged for Funeral Directors to be able to obtain Bereavement Benefit claim packs so that they can be given directly to bereaved people.

We keep under review the way that information is made available about bereavement benefits so that bereaved people, at this very difficult time in their lives, know about their potential right to benefit and can act on it at the right time.

Child Support Agency

Mr. Goodman: To ask the Secretary of State for Work and Pensions how many and what proportion of parents who are waiting for their Child Support Agency cases to

be transferred from the old to the new scheme will pay *(a)* increased and *(b)* decreased payments under the new scheme. [140881]

Mr. Pond: Of those non-resident parents who are earning an income, about 60 per cent. will have a reduced maintenance liability and about 40 per cent. will have an increased liability.

Of those non-resident parents on benefit, about 60 per cent. will have an increased liability for maintenance. (Currently, 75 per cent. of non-resident parents on benefit are treated as having no liability; under the new scheme we expect them to pay a flat rate of £5 to the parent with care).

This data is based on an analysis carried out in 2001, and reflects the position had all cases converted to the new scheme on the day of the scan. Since then, average income levels of non-resident parents have increased, which would reduce the fall in the level of maintenance liabilities.

There are around a million live and assessed old scheme cases. Of those in work, we expect that a majority will have a reduced liability.

Disability Discrimination Bill

Mrs. Lawrence: To ask the Secretary of State for Work and Pensions if he will make a statement on the draft Disability Discrimination Bill. [146796]

Maria Eagle: We are determined to end the marginalisation and exclusion of disabled people from all walks of life—which is the lot of too many of our disabled fellow citizens today.

The draft Disability Discrimination Bill—along with other changes to the law which we are implementing, will represent, when we achieve its passage, a great progressive social advance—one which I hope will be supported by everyone in this House.

Disabled People

Jim Sheridan: To ask the Secretary of State for Work and Pensions what progress he has made in enabling disabled people to play a full and active role in society. [146801]

Maria Eagle: Good progress. For example we have legislated to extend the provisions of the DDA to education.

There has been a narrowing of the gap between the employment levels of disabled people and non-disabled people.

But more needs to be done.

In October we are implementing new obligations on service providers to remove, alter or avoid physical features which prevent disabled people accessing services. (Among others this will apply to MPs)

We are also extending the employment provisions of the DDA to more occupations and to almost all employers of whatever size. This will bring one million small employers and seven million more jobs into the protection of the Act.

Income-related Benefits

Mr. Willetts: To ask the Secretary of State for Work and Pensions when he expects to publish estimates of take-up of income-related benefits for 2001–02. [145982]

Mr. Pond: Estimates of take-up of income-related benefits in 2001–02 will be released in February. The publication month has been pre-announced in Updates—the National Statistics diary of statistical releases. The precise date will be pre-announced through Updates.

Justices of the Peace

Mr. Chaytor: To ask the Secretary of State for Work and Pensions if he will make a statement on his Department's plans to amend the terms and conditions of employees of the Department who serve as justices of the peace. [145382]

Maria Eagle *[holding answer 7 January 2004]:* The department's pay offer to its staff for 2003 for negotiation with its trade unions included proposals on performance bonus payments to be paid in addition to consolidated, pensionable pay. Under these proposals, the bonus payable would be performance related and take account of the total contribution made. It was envisaged it would be reduced proportionately for periods of absence beyond annual, public and privilege leave and other absences of five days or fewer. This provision was included as part of the effort to improve levels of attendance within the department. It could have had a limited effect on the bonus earnable by those, including justices of the peace, who were granted special leave by the department.

The department has decided that the new attendance condition will not form part of the 2003 pay offer. Any future change of this kind would be a matter for negotiation with the department's unions.

New Deal

Mr. George Osborne: To ask the Secretary of State for Work and Pensions (1) what *(a)* percentage and *(b)* value of New Deal contracts are delivered by (i) Jobcentre Plus, (ii) private companies and (iii) voluntary organisations; [144598]

(2) if he will list the *(a)* private companies and *(b)* voluntary organisations that have contracts to deliver New Deal support. [144599]

Mr. Browne: All contracts to deliver New Deal are awarded to external providers, from the private and not for profit sectors. Some New Deal advisory services are delivered by Jobcentre Plus, but these are not governed by a contractual process.

In 2002–03, total New Deal expenditure by Jobcentre Plus was approximately £812[1] million; of this, expenditure on New Deal contracts with the private and not for profit sectors amounted to £337 million, approximately 42 per cent. of the total. The remainder of the expenditure was on services delivered by Jobcentre Plus (£247 million) and on allowances paid to New Deal customers (£180 million) and other financial incentives (£48 million).

Jobcentre Plus contracts out New Deal provision to over 1,000 external providers and the details of these providers are held at regional and district level. Therefore, listing separately the private companies and voluntary organisations that have contracts to deliver New Deal support could be done only at a disproportionate cost.

[1] Estimated outturn

Benefits and Pensions Payment

Mr. Alan Reid: To ask the Secretary of State for Work and Pensions (1) what procedures his Department will put in place to pay benefits and pensions from 2005 to clients who by that time have not nominated a bank or Post Office Card Account to receive their payments and whose order books have expired; [147323]

(2) whether non-respondents to his Department's letters about direct payment will be required to have payments made into a nominated account when order books are withdrawn in April 2005. [147069]

Mr. Pond: We have always recognised there will be some people, such as those who cannot open or manage any sort of account, and some immediate payments, such as Crisis Loans, that we cannot pay by Direct Payment. We are therefore designing an exceptions method of payment to meet the needs of people in these circumstances. We are in the process of discussing the design of the exceptions method of payment with the representative bodies most directly affected to design a secure and efficient method of payment which meets people's needs.

Until the exception method of payment is in place, customers who choose not to convert to Direct Payment will be able to retain their Order Book. But, they will not be able to keep it indefinitely as Order Books are being phased out.

Pension Credit

Simon Hughes: To ask the Secretary of State for Work and Pensions how many pensioners are not receiving their pension credit entitlement *(a)* in England and *(b)* in London; and if he will make a statement. [146784]

Malcolm Wicks: The information is not available in the form requested. However, we estimate that there are approximately 3.15 million pensioner households in England and 450,000 in London likely to be eligible for pension credit. While we want everyone who is eligible to take up their entitlement, we have to recognise that some may choose not to apply.

We have today published the latest monthly pension credit progress report, including numbers of recipient households in each parliamentary constituency in Great Britain.

It shows that we continue to make good progress. As at 31 December 2003, more than 2.5 million pensioners were receiving pension credit. In the hon. Member's constituency, 4,204 households are receiving pension credit with an average award of £58.62 per week.

Mr. Willetts: To ask the Secretary of State for Work and Pensions (1) how many *(a)* individuals and *(b)* households who had not previously been in receipt of the minimum income guarantee were in receipt of (i) the guarantee credit and (ii) the savings credit on (A) 14 October, (B) 11 November and (C) 10 December; [145983]

(2) how many *(a)* individuals and *(b)* households were being paid the pension credit on (i) 14 October, (ii) 31 October and (iii) 11 November; and how many of these had not been paid the minimum income guarantee. [146091]

Malcolm Wicks: Information for some of the dates referred to is not available in the format requested. The tables give information to the nearest dates for which information is available.

Recipients of Pension Credit, not previously in receipt of MIG: Great Britain as at October and November 2003

	17 October 2003		*30 November 2003*	
	Households	*Individuals*	*Households*	*Individuals*
Great Britain total	133,570	179,120	302,265	404,555
Guarantee credit only	8,740	11,455	27,215	35,820
Guarantee credit and savings credit	31,940	39,170	82,530	101,220
Savings credit only	92,895	128,495	192,520	267,515

Recipients of Pension Credit, in receipt or not in receipt of MIG: Great Britain as at October and November 2003

	17 October 2003		*30 November 2003*	
	Households	*Individuals*	*Households*	*Individuals*
Great Britain total	1,902,250	2,246,985	2,056,010	2,454,640
Previously on MIG	1,768,680	2,067,870	1,753,745	2,050,085
Previously NOT on MIG	133,570	179,120	302,265	404,555

Notes:

1. Figures are based on 100 per cent. Generalised Matching Service (CMS) data.
2. Figures have been rounded to the nearest 5
3. Figures might not sum due to rounding.
4. A household may be a single person or a couple. Figures for individuals show total numbers of individuals in households where Pension Credit is in payment, i.e. two individuals where Pension Credit is in payment to a couple, and include a small number of partners under age 60.

Source:

IAD Information Centre, 100 per cent sample

Pensions Payment

Mr. Webb: To ask the Secretary of State for Work and Pensions in how many cases retirement pensions have not been paid into Post Office card accounts on their due date because of computer problems; and if he will make it his policy to put in place emergency payments in such cases. [147068]

Mr. Pond: We are aware of a recent issue that resulted in a slight delay in paying some State Pensions into Post Office card accounts. The actual number of payments that were affected is not known.

There are existing emergency payment procedures to cover the situation where payment is not made at the due time.

Mr. Webb: To ask the Secretary of State for Work and Pensions what arrangements were made for early payment of pensions over the Christmas and new year period 2003–04 for holders of Post Office card accounts; and if he will make a statement. [146762]

Mr. Pond: The Department arranges that where customers are due payments on a public holiday, that payments are advanced so that they can get the money before the public holiday.

Payment to Post Office card accounts are paid in the same way as payments direct to any bank account. The arrangements put money into the account on the last banking day before each of the bank holidays namely the 24 December and 31 December.

Pension Protection Fund

Lynne Jones: To ask the Secretary of State for Work and Pensions whether he proposes that public sector pension schemes should be required to pay insurance premiums to the Pension Protection Fund; and if he will make a statement. [146966]

Malcolm Wicks: Public sector pension schemes that are protected by a Government guarantee would not require or be eligible to receive compensation from the Pension Protection Fund. Consequently, these schemes will not be required to pay the annual levy.

PRIME MINISTER

Commonwealth Caribbean Countries

Mr. Foulkes: To ask the Prime Minister if he will make a statement on his meeting with prime ministers from Commonwealth Caribbean countries. [146430]

The Prime Minister: I met Commonwealth Caribbean leaders on 2 December. The leaders attending were the Prime Minister of Jamaica, at that time concurrently the Chairman of CARICOM, the President of Guyana and the Prime Ministers of the Bahamas, Belize, St. Kitts and Nevis and St. Lucia. The CARICOM Secretary-General and the Director General of the Caribbean Regional Negotiating Machinery also attended.

On trade, we agreed on the importance of getting the Doha development round moving again and of working to ensure that changes to trade regimes are phased so that vulnerable Caribbean economies can adjust. On security we discussed the threat to the region of drug trafficking and gun crime and the way that these problems affect the UK. We are exploring ways in which we can enhance our security cooperation.

The Government have also offered to facilitate an event in the Caribbean looking at best practice in tackling stigmatisation and discrimination of those with HIV/AIDS.

E-government

Mr. Key: To ask the Prime Minister which departments of Government besides the Office of the Deputy Prime Minister have responsibilities for e-government at *(a)* parish council and *(b)* town council levels; and if he will make a statement. [147429]

The Prime Minister: The Office of the Deputy Prime Minister has sole responsibility in Central Government for local e-Government. It works closely with the Office of the e-Envoy on policy and infrastructure issues such as the Government Gateway. The Office of the Deputy Prime Minister consults with other Government Departments on cross cutting issues affecting local e-government policy as and when appropriate and works closely with the Department for Environment, Food and Rural Affairs on the development of the role of town and parish councils.

Euro

Keith Vaz: To ask the Prime Minister in how many speeches during 2003 he declared support for the Government's policy on the euro. [147302]

The Prime Minister: I refer my hon. Friend to the answer the Financial Secretary at the Treasury gave to him today.

During 2003 as in other years, I set out the Government's policy on the euro in speeches, media appearances and of course in Parliament. Copies of my speeches are available on the Number 10 website.

Iraq

Mr. Hancock: To ask the Prime Minister what plans he has to assist the Iraqi Governing Council in organising free and fair elections; and if he will make a statement. [146512]

The Prime Minister: On 15 November, the Iraqi Governing Council announced plans for establishing a transitional national assembly formed through caucus elections at provincial level.

The assembly will be elected no later than 31 May 2004, leading to the creation of a new transitional administration by the end of June 2004. This will be followed by elections for a constitutional convention, leading in turn to national elections for a new representative Iraqi Government by the end of 2005

We will assist the Iraqis during this process in any way we can.

Glenda Jackson: To ask the Prime Minister if he will place in the library the Iraq Survey Group report and its annexes listing the massive network of laboratories and

factories engaged in the production of weapons of mass destruction referred to in his Christmas broadcast to British forces in Iraq on 16 December 2003. [146580]

The Prime Minister: The leader of the Iraq Survey Group, Dr. David Kay, presented an unclassified summary report to the US authorities on 2 October 2003, copies of which were placed in the libraries of both Houses. This summary report contains numerous references to a clandestine network of laboratories in Iraq.

The full report, which was shared in confidence with other principal coalition partners, contains detailed and operationally sensitive information and is highly classified. It has been the practice of successive Governments not to give information on intelligence and security matters, under exemption 1 of Part 2 of the Code of Practice on Access to Government Information.

Richard Ottaway: To ask the Prime Minister on what date after 9 September 2002 he was informed that the weapons of mass destruction referred to in the September 2002 dossier which could be deployed in 45 minutes were battlefield mortar shells or small calibre weaponry. [147190]

The Prime Minister: I have nothing to add to the reply I gave to my hon. Friends, the Members for Linlithgow (Mr. Dalyell) and for Nottingham, South (Mr. Simpson) on 27 October 2003, *Official Report*, column 50W.

Llew Smith: To ask the Prime Minister pursuant to his letter to the hon. Member for Blaenau Gwent, of 28 October 2003, if he will list *(a)* the titles of each of the UK-owned documents in respect of Iraqi procurement of uranium from Niger to which he refers and *(b)* the dates on which each document respectively was provided to (i) the International Atomic Energy Agency and (ii) the UN Special Commission on Iraq; and how the Government sought to ensure that the owners of other intelligence of which it had been informed about the Niger uranium procurement by Iraq made the IAEA aware of its contents. [147621]

The Prime Minister: As my hon. Friend, the Parliamentary Under-Secretary of State at the Foreign and Commonwealth Office (Mr. Rammell), said in his answer on 1 September 2003, *Official Report*, column 805W and I reiterated in my letter of 28 October, the UK did not provide any documentation to the International Atomic Energy Agency (IAEA) or UNMOVIC on Iraqi attempts to procure uranium from Africa.

On the issue of how the Government sought to ensure that the owners of other intelligence about Niger uranium procurement by Iraq made the IAEA aware of this, I refer my hon. Friend to the answers the Minister of State, Foreign and Commonwealth Office (Mr. MacShane) and the Under-secretary of State (Mr. Rammell) gave my hon. Friend the Member for Birmingham, Selly Oak (Lynne Jones) on 7 July 2003, *Official Report*, column 579W and 1 September 2003, *Official Report*, column 805W.

Ministerial Visit (Basra)

Llew Smith: To ask the Prime Minister if he will place in the library a copy of a transcript of his remarks to journalists on board his flight from Basra on 4 January. [146581]

The Prime Minister: Any comments I made en route to Basra on 4 January were made on the record and were fully reported by the media at the time in the same way as any briefings I make on visits like this.

Russia

Tom Brake: To ask the Prime Minister pursuant to his answer of 5 January 2004, *Official Report*, column 57W, on Chechnya, how many *(a)* meetings, *(b)* telephone calls and *(c)* letters he has exchanged with President Putin since 18 June 2003. [147081]

The Prime Minister: I last met President Putin on 26 June during his State Visit to the UK and we discussed a wide range of issues including Chechnya.

I regularly discuss either by telephone or through correspondence a wide range of issues with President Putin.

As with previous Administrations, it is not the practice of this Government to make public details of all discussions I have with foreign leaders.

Taskforces

Mr. Randall: To ask the Prime Minister if he will list the task forces he has set up since 1997; when each last reported; and when he expects each to have completed its task. [147237]

The Prime Minister: Information on task forces in existence between May 1997 and October 2000 was made available in three reports published in January, July and December 2000 on "Task Forces, Ad Hoc Advisory Groups and Reviews".

For the years 2001–02 and 2002–03, this information has been included in the publications 'Public Bodies 2002' and 'Public Bodies 2003' respectively.

Copies of these reports are available in the Library of the House.

World Trade Organisation

Mr. Bercow: To ask the Prime Minister what discussions he has had with *(a)* President Bush and *(b)* Mr. Romano Prodi since 14 September 2003 on the need to resume trade negotiations following the termination of the World Trade Organisation Ministerial in Cancun. [146637]

The Prime Minister: I regularly have discussions with President Bush and Mr. Prodi on a wide range of international issues including on trade.

The Government are committed to working with our international partners to restart the Doha Development Round at the earliest opportunity.

DEPUTY PRIME MINISTER

Deprivation

Mr. Betts: To ask the Deputy Prime Minister what plans he has to include measures of *(a)* the state of the physical environment and *(b)* crime and disorder in revised indices of deprivation; and what methodology will be used to measure these [146108]

Yvette Cooper: It is proposed that the revised Indices of Deprivation 2000 (ID 2000) should include new domains to cover the living environment and crime and disorder.

For the Living Environment domain, indicators have been proposed to cover both the quality of the 'indoors' living environment and the 'outdoors' physical environment. In respect of the latter, the two indicators proposed are:

'Air quality' based on data held on the National Atmospheric Emissions Inventory; and

'Road Traffic Accidents involving injury to pedestrians and cyclists' based on data available from the Department of Transport's STAT19 database. This data will provide an indictor of the risk of injury to non-motorised road users.

The purpose of the Crime domain is to measure the incidence of recorded crime, representing the occurrence of personal and material victimisation at a small area level. It is proposed that four composite indicators are constructed (burglary, theft, criminal damage and violence) covering some 33 different categories of recorded crime. These indicators will be constructed either using full recorded crime data from the 39 geographic regional police forces or if this is not possible, full recorded crime data for the majority of the police forces but modelled crime data for the areas that are unable to provide recorded crime data.

E-Government

Mr. Key: To ask the Deputy Prime Minister (1) how much of the e-Government budget has been *(a)* allocated to and *(b)* spent on (i) parish councils and (ii) town councils; and if he will make a statement; [147427]

(2) whether *(a)* parish councils and *(b)* town councils are included in the e-Government targets for local authorities to be on line by 2005; and if he will make a statement. [147428]

Phil Hope: The Government's target to see all services electronically enabled by 2005 only applies to local authorities and fire authorities who are subject to the Best Value Performance Indicator 157, and does not apply to town and parish councils.

As they are not subject to this target, parish councils are not being funded directly under the £675 million Local e-Government Programme. However, many councils are working very successfully with local parish councils to both support their websites and to build local parish content into community public portals. Our National Strategy for Local e-Government encourages all councils to have this joined-up approach to providing local online services and information. The Office of the Deputy Prime Minister is funding 66 Local e-Government Partnerships to provide Community Portals, which will include local parish content.

Emergency Planning

Mr. Soames: To ask the Deputy Prime Minister (1) what role will be played by local authorities in the South East of England in the event of the mass evacuation of London; and what recent discussions he has had with them on contingency plans for the mass evacuation of London; [147284]

(2) what plans there are to use towns in the South East of England in the event of the mass evacuation of London; [147285]

(3) what role the A23 would play in the event of the mass evacuation of London; [147286]

(4) what plans are in place for the mass evacuation of London in the event of a major emergency; [147287]

(5) what plans are in place for the evacuation of hospitals and prisons in the event of the mass evacuation of London. [147288]

Mr. Raynsford: Mass evacuation of parts of London, or any other area, would be very much a last resort.

However, as part of its role in making sure London is as well prepared as possible to cope with any emergency situation, the London Resilience partnership has been carrying out generic planning for the temporary evacuation of areas of London in the event of this being necessary. The local authorities and emergency services in the surrounding counties, including the South East of England, have been actively involved in this work and have had detailed discussions over the past year with officials in the London Resilience Team and the Regional Resilience Team based in the Government Office for the South East.

The principal role of local authorities in the event of any serious emergency, whether or not it necessitates mass evacuation, is to provide support for the people in their area; in general this will involve close co-operation with the emergency services. In the event of mass evacuation of areas of London being required, the local authorities in the surrounding counties—including those in the South East of England as need be—would be involved in providing initial rest and reception facilities for evacuees.

We do not make publicly available detailed contingency plans for meeting specific needs on responding to particular types of incident.

Emergency Tri-Service Centre

Mr. Drew: To ask the Deputy Prime Minister what recent assessment has been made of the operation of the Emergency Tri-Service Centre in Gloucestershire. [146569]

Mr. Raynsford: The Office of the Deputy Prime Minister has made no assessment of the operation of the Emergency Tri-Service centre in Gloucestershire. The Government's consultants, Mott MacDonald, looked at shared control arrangements while undertaking work to update their April 2000 report "The Future of Fire Service Control Rooms and Communications in England and Wales". The latest report was published on 11 December 2003 and copies are available in the Library of the House.

EU Regional Funding

Ann Winterton: To ask the Deputy Prime Minister what organisations responsible for the distribution of European Union regional funding currently operate in the *(a)* North East, *(b)* Yorkshire and Humberside and *(c)* North West regions; and what organisations in each of those areas are in receipt of such funding. [146683]

Mr. Raynsford: The distribution of the European Regional Development Fund (ERDF) in England is the responsibility of Government Offices for the Regions. The Government Offices for the North East, North West and Yorkshire and the Humber respectively distribute funds to recipient organisations in their regions.

A variety of public, private and voluntary sector organisations in these areas receive ERDF. A list of recipients of ERDF during the current 2000–06 programming period will be available in the Libraries of the House. ERDF supports measures such as the development of sites and premises for industry and businesses; transport infrastructure; support for small and medium sized enterprises; tourism; research and development; and community economic development.

Firefighters

Norman Lamb: To ask the Deputy Prime Minister for what reason the budget of the Arson Control Forum is projected to rise from £1.36 million in 2002–03 to £4.02 million in 2003–04 and to £4.80 million in 2005–06. [146420]

Mr. Raynsford: Since 2001 the Arson Control Forum has funded 50 local pilot projects designed to reduce arson. The increased budget recognises their success and will enable the forum to fund additional projects, due to be announced shortly, which build on the lessons learned from the original pilots.

Local arson reduction projects are essential to achieve the Government's target to reduce by 10 per cent. the number of deliberate fires by March 2010 from the 2001–02 baseline, as published in the Fire White Paper 'Our Fire and Rescue Service'. This target is a key objective in the Government's plans to reform the fire and rescue service which include increased emphasis on fire prevention work. This objective was reiterated in the draft Fire and Rescue National Framework, published on 11 December 2003.

Housing

Mr. Drew: To ask the Deputy Prime Minister what research he has commissioned on the growth of holiday homes in areas where there is a perceived shortage of affordable housing, with particular reference to pressure on local services. [146631]

Keith Hill: The Office of the Deputy Prime Minister has not commissioned any research on this topic. However, the annual Office of the Deputy Prime Minister Survey of English Housing (SEH) estimates the number of households in England with a second home including the number of those categorised as Holiday Home/Retirement Home/Weekend Cottage. The report on the 2001/02 SEH is available in the Library of the House.

Jon Trickett: To ask the Deputy Prime Minister what estimate he has made of cost of improving the Wakefield council housing stock to the Government's prescribed standards. [147454]

Keith Hill: The Deputy Prime Minister has not made any estimate of the cost of improving the Wakefield council housing stock to the Government's prescribed standards. This is for the council to determine as part of its business planning process. Based on the findings of an independent stock condition survey, commissioned by Wakefield Metropolitan District Council in 2002, it has been estimated that it will cost £236 million (at today's prices) to bring all public sector stock up to the Government's decent homes standard by year 2010.

Housing Stock Transfer

Mr. Hoyle: To ask the Deputy Prime Minister which local authorities have still to ballot local authorities tenants on transfer of their housing stock. [146978]

Keith Hill: There are a total of 10 local authorities on the 2003 LSVT Programme who have yet to ballot their tenants. They are as follows:

Forest Heath District Council
London Borough Islington (two partial transfers)
London Borough Lambeth (three partial transfers)
Manchester City Council (three partial transfers)
Middlesbrough
North East Lincolnshire
Royal Borough of Kingston upon Thames
Trafford Metropolitan Borough Council
Wakefield Metropolitan Borough Council
Wirral Metropolitan Borough Council

Lancashire Fire and Rescue Service

Mr. Hoyle: To ask the Deputy Prime Minister how many *(a)* full-time and *(b)* part-time firefighters were employed by the Lancashire Fire and Rescue Service in each of the last five years. [146977]

Mr. Raynsford: The information requested is tabled as follows:

Number of firefighters employed by Lancashire Fire and Rescue Service

Date	*Wholetime*	*Retained*
31 March 1999	1,007	402
31 March 2000	1,008	398
31 March 2001	1,010	371
31 March 2002	1,002	357
31 March 2003	1,015	369

Source:
Lancashire Fire and Rescue Service Annual Returns to the Office of the Deputy Prime Minister

Leasehold

Sue Doughty: To ask the Deputy Prime Minister if he will make a statement on progress made to implement the provisions of the Commonhold and Leasehold Reform Act 2002 which will allow leaseholders of houses to select their own insurer. [146678]

Keith Hill: It is anticipated an Order will be made by May 2004 to bring into force the remaining provisions of the Commonhold and Leasehold Reform Act 2002. These provisions include those relating to property insurance, to the new Right to Enfranchise companies, and to accounting and forfeiture. Commencement dates will vary depending on the lead-in period needed by landlords to prepare for the changes, but the provisions relating to insurance should be effective by September 2004.

Local Authorities

Mr. Goodman: To ask the Deputy Prime Minister how many new *(a)* statutory and *(b)* regulatory requirements were placed on local authorities in (i) 2001, (ii) 2002 and (iii) 2003. [147238]

Mr. Raynsford: This information is not held centrally in the form requested and could be provided only at disproportionate cost. However, our arrangements for the funding of local authority revenue spending in any year take into account the cost pressures and new burdens on local government including those identified with the Local Government Association in the context of the relevant Spending Review.

Sheltered Housing

Miss McIntosh: To ask the Deputy Prime Minister what recent action the Government has taken to promote sheltered housing; and if he will make a statement on the provision of sheltered housing in York and North Yorkshire. [145125]

Yvette Cooper: The Government is committed to ensuring that all vulnerable people receive the housing-related support they need including, where appropriate, sheltered housing and associated support services such as provision for wardens, to help them improve their quality of life by providing a stable environment, enabling greater independence. The Supporting People programme, introduced in April 2003, provides an integrated framework for planning and funding housing-related support services.

In February 2003, the Office of the Deputy Prime Minister , the Department of Health and the Housing Corporation jointly published Preparing Older People's Strategies—linking housing to health, social care and other local strategies. Local authorities are encouraged to use it as part of drawing up local delivery and capacity plans for older people's services, which includes working in partnership with housing authorities. It stresses that older people's strategies on housing need to engage with and consult older people.

In York and North Yorkshire the following housing schemes for older people included in Housing Corporation programmes for 2002–03 and 2003–04 are being funded by the Office of the Deputy Prime Minister through the Housing Corporation:

Stokesley, Hambleton: 40 units of extra-care accommodation.

Hospital of James Knowles, Craven: Improvements to seven units of almshouse accommodation.

St. Georges, Harrogate: 12 units of warden supported housing.

Swan Hill, Scarborough: Approximately 18 units of warden supported housing.

In York there are currently 595 tenancies in council sheltered housing schemes and a further 887 tenancies in the independent sector. Over the next year York council will be improving facilities in two of its sheltered schemes to provide the potential to deliver 78 extra-care tenancies.

Tenancy Deposits

Mr. Allen: To ask the Deputy Prime Minister what the proportion of completed tenancies requiring independent adjudication under the pilot voluntary tenancy deposit scheme was; and if he will estimate the proportion of completed tenancies that would require independent adjudication under a statutory tenancy deposit scheme. [147052]

Keith Hill: The Independent Housing Ombudsman, who managed the pilot voluntary tenancy deposit scheme, has no information on the proportion of completed tenancies requiring independent adjudication under those schemes. That is because the terms of reference of the pilot scheme did not require that the number of completed tenancies should be recorded.

The Office of the Deputy Prime Minister has no reliable estimate of the number of disputes that would require adjudication under a statutory tenancy deposit scheme. The Survey of English Housing 2001–02 noted that some 20 per cent. of households with a tenancy ending in the previous three years claimed to have had their deposit unreasonably withheld in full or in part. The number of disputes, for which independent adjudication might be required under any statutory arrangements for tenancy deposit protection, might well be lower than this figure.

Mr. Allen: To ask the Deputy Prime Minister what estimate he has made of the number of private tenants who have had their tenancy deposit unreasonably withheld in each of the last five years, broken down by Government office region. [147053]

Keith Hill: The information is not currently available. I will write to my hon. Friend as soon as the information is available.

Thames Gateway

Sir Sydney Chapman: To ask the Deputy Prime Minister what the average residential density was of housing developments given planning permission since March 2000 in the boroughs that make up the London part of the Thames Gateway, as defined by RPG9a: The Thames Gateway Planning Framework. [146844]

Keith Hill: Information relating to the average residential density of housing development in the boroughs that make up the London part of the Thames Gateway is not held centrally, and could be provided only at disproportionate cost.

Sir Sydney Chapman: To ask the Deputy Prime Minister what *(a)* criteria and *(b)* milestones have been established for monitoring the implementation of the Government's plans for the Thames Gateway; and who is responsible for carrying out the necessary monitoring. [146845]

Keith Hill: The Government's plans for the Thames Gateway are set out in "Creating Sustainable Communities: Making It Happen in the Thames Gateway and Growth Areas", published on 30 July 2003. That document makes it clear that the Office of the Deputy Prime Minister will be establishing a Gateway delivery office to work alongside local, regional and national partners to turn strategic plans into operational programmes. The Gateway Office will be responsible for monitoring implementation of the Government's plans. It is anticipated that the Office will be up and running shortly.

Sir Sydney Chapman: To ask the Deputy Prime Minister in respect of the new communities that are envisaged in the Thames Gateway, what plans the Government have for the adoption of standards for access to community infrastructure, with particular reference to *(a)* schools, *(b)* health care facilities, *(c)* leisure facilities and *(d)* open spaces. [146846]

Keith Hill: The information is as follows:

(a)(b)(c) For the Thames Gateway and elsewhere, planning policy (in particular Planning Policy Guidance 13) makes it clear that jobs, shopping, leisure facilities and services should be accessible by public transport, walking and cycling.

In addition, the Social Exclusion Unit's "Making the Connections" report, published in February 2003, sets out a strategy to help people on low incomes access work, food shops and key public services, notably education and health care. This includes the approach of accessibility planning in those areas that produce a Local Transport Plan, where local transport planners and others work together to examine accessibility needs and how to overcome barriers. Accessibility planning is currently being piloted and various accessibility indicators are under consideration.

(d) Well-designed and managed open spaces are an essential ingredient of thriving, inclusive and sustainable communities in the Thames Gateway and elsewhere. Our planning policies (set out in Planning Policy Guidance 17) require a robust assessment of the existing and future needs of communities for open space, guiding their provision and management, and allow local authorities to set local standards to meet the identified needs of their community.

Yorkshire and Humber Housing Board

Mr. Austin Mitchell: To ask the Deputy Prime Minister (1) how much has been allocated to the Yorkshire and Humber Regional Housing Board for 2003–04; and how much of this is allocated by them to *(a)* repairs and renovation of council housing and *(b)* privatisation of council housing; [146422]

(2) how much has been allocated in the current financial year by the Yorkshire and Humber Regional Housing Board to gap funding for privatisation of council housing to *(a)* north-east Lincolnshire and *(b)* other local authorities; and what the allocation of gap funding per council property is in each area which has received it. [146423]

Keith Hill: 2003/04 was the last year for which housing capital allocations were made to local authorities on the old basis of recommendations made to Ministers by Government Offices (the Yorkshire and the Humber Regional Housing Board was not therefore involved). As was standard, 80 per cent. of the resources available were allocated using a needs-based formula and 20 per cent. according to performance. Local authorities in Yorkshire and the Humber had an allocation of £65.9 million. This was for authorities to use according to their own priorities, without having to identify specific purposes such as repair and renovation of council housing or supporting stock transfers.

Under the new arrangements (introduced last year in the Communities Plan) the Yorkshire and Humber Regional Housing Board recommended capital allocations to local authorities totalling £76 million for 2004–05 and £81 million for 2005–06. The recommendations, which we accepted, included a fixed sum based on a needs-based formula (95 per cent. in 2004–05 and 70 per cent. in 2005–06 of what they would have received under the old arrangements).

The balance is being used to commission proposals to deliver regional housing strategy priorities, and, in 2005–06, £10 million for 'transformational proposals' of regional significance, which deliver one or more of the regional housing strategy priorities. The Board has said that it will consider applications for gap funding from this £10 million in specific circumstances. Gap funding proposals have been submitted by north-east Lincolnshire and one other local authority. I understand that the Regional Housing Board will be considering at its meeting on 22 January all proposals submitted.

Separate from the above, local authorities in Yorkshire and the Humber also benefited from support for capital investment through the major repairs allowance (current figures are £172 million in each of 2003–04 and 2004–05). This allowance, calculated formulaically, covers the bulk of support for the repair and renovation of council housing.

EDUCATION AND SKILLS

Asylum Seekers

Tim Loughton: To ask the Secretary of State for Education and Skills how many children seeking asylum who have arrived in the UK are missing from care. [144996]

Margaret Hodge: At 31 March 2003, the most recent date for which information is available, there were 15 unaccompanied asylum-seeking children missing from their agreed placements within local authority care in England. Information is not collected by this Department on the number of unaccompanied asylum-seeking children who are in care in other parts of the UK.

Child Care

Mr. Simmonds: To ask the Secretary of State for Education and Skills (1) how many extra child care places have been created in each year since 1997; [145266]

(2) how many child care places have been created in the 20 per cent. most disadvantaged wards in each year since 1997. [145269]

Margaret Hodge: The available information is shown in the table.

New child care places[1]

	New child care places, England[2]	*New child care places net of closures, England*[2]	*New child care places net of closures, 20 per cent. most disadvantaged wards in England, estimated*[3]
1997–98	7,500	6,000	n/a
1998–99	66,200	53,000	n/a
1999–2000	133,000	67,800	n/a
2000–01	168,200	87,000	n/a
2001–02	139,800	82,800	41,800
2002–03	185,400	87,300	59,600

[1] All figures relate to financial years and are rounded to the nearest hundred places. Child care places are defined to include: places for pre-school children which last three-and-a-half hours or longer per day, in day nurseries or with childminders; places for children receiving nursery education which, combined with the nursery education, total at least three-and-a-half hours per day; and places for statutory school age children aged up to 14 (16 for those with special educational needs or disabilities) in breakfast or after school clubs or with childminders for any length of time, or in holiday play schemes of three and a half hours or longer per day.

[2] Figures from 1999–2000 onwards are drawn from local authorities' quarterly child care returns. Figures for 1997–98 and 1998–99 relate only to child care places directly funded by Government.

[3] This information was not collected prior to 2001–02. Figures are drawn from local authorities' Early Years Development and Childcare Plans, and reflect their estimated position at 31 March 2002 and 31 March 2003.

Mr. Simmonds: To ask the Secretary of State for Education and Skills how much funding has been made available for child care for each year since 1997. [145267]

Margaret Hodge: As published in the Department for Education and Skills Departmental Report 2003, expenditure was:

£ million

	Sure Start	*Early Years and Childcare*	*Total*
1997–98	—	1,203	1,203
1998–99	—	1,349	1,349
1999–2000	7	1,486	1,493
2000–01	56	1,652	1,708
2001–02	134	1,823	1,957
2002–03	210	2,114	2,324

Note:

The 2002–03 expenditure quoted reflects actual expenditure as opposed to the estimates contained in the Departmental Report.

The Early Years and Childcare figures include early education funding (Under Fives Block) to local authorities.

Mr. Simmonds: To ask the Secretary of State for Education and Skills how many registered child minders there were in England and Wales in each year since 1997. [145268]

Margaret Hodge: Figures are only available for England. Child care is a devolved issue.

Data on the number of registered child minders was recorded by the Day Care Facilities Study from 1997 to 2001. In September 2001 Ofsted took over the registration of places and undertook a 'cleansing' exercise to delete all registered childminders who were no longer operating. This exercise was undertaken throughout 2001–02, therefore there are no figures available for registered child minders for 2002. Ofsted published their March 2003 data in June.

Registered child minders 1997–2003 are as follows:

	Number
1997	98,500
1998	94,700
1999	82,200
2000	75,600
2001	72,300
2002	n/a
2003	68,200

Although there was a constant decline in childminders year on year to 2003, the number of child minders is now showing a steady increase month on month. Ofsted data at September 2003 shows an increase in the number of operational child minders of 2,000 since March 2003.

Tim Loughton: To ask the Secretary of State for Education and Skills how many childcare places there are in England. [145662]

Margaret Hodge: This is a matter for Ofsted. The HM Chief Inspector, David Bell, will write to the hon. Member and a copy of his letter will be placed in the Library.

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills what the Government are doing to extend the availability of affordable, good quality child care. [146259]

Margaret Hodge: The Government have funded a major expansion in child care through their National Childcare Strategy. Since 1997, 808,000 new places have been created, benefiting well over 1.4 million children. Following the more than doubling in child care expenditure agreed as part of the 2002 Spending Review, the number of children benefiting from new places will rise to over 2 million by 2006.

Specific initiatives such as Sure Start local programmes, Neighbourhood Nurseries and our new Children's Centres, are extending high quality child care in disadvantaged communities, increasingly provided alongside early education and health and family support.

Our National Standards set a benchmark of quality below which no registered child care provider should fall and Ofsted inspects against these Standards.

Substantial help with child care costs is provided to lower and middle income families through the child care element of the working tax credit. The Chancellor announced new plans in his Pre Budget Report in December to encourage employer supported child care from April 2005 through tax exemptions of up to £50 per week for employees.

Child Protection

Tim Loughton: To ask the Secretary of State for Education and Skills how many children were considered at risk from abuse in *(a)* England and *(b)* Wales in 2002–03. [145691]

Margaret Hodge: Details of the number of children and young people on child protection registers in England for the period 2002–03 will be published by the Department for Education and Skills (DfES) on Thursday 29 January 2004.

At 31 March 2002 there were 25,700 children and young people on child protection registers in England, just over 4 per cent less than a year earlier.

Information is not collected by DfES on the number of children who are considered at risk from abuse in Wales.

Food Technology

Mr. Burstow: To ask the Secretary of State for Education and Skills what estimate he has made of the number of hours spent each week teaching food technology in years one to nine; and what proportion of that time involves practical cooking skills. [146346]

Mr. Stephen Twigg: No estimate has been made of the amount of time schools spend on teaching food technology. Food technology is part of the design and technology curriculum, and, as with all subjects, it is for individual schools to plan their timetable. Schools allocate time to each subject to meet the needs of their pupils and to fulfil the statutory requirements of the National Curriculum. 'Designing and Timetabling the Primary Curriculum', published in 2002 by the Qualifications and Curriculum Authority and 'Designing the Key Stage 3 Curriculum', published by DfES in 2002 provide guidance for schools.

We are encouraging schools to undertake more practical cookery as part of our joint Food in Schools programme with the Department of Health.

Free School Meals

Chris Grayling: To ask the Secretary of State for Education and Skills how many schools have fallen below the 20 per cent. threshold of pupils taking free school meals in the past five years. [145424]

Mr. Stephen Twigg: The information is given separately for pupils taking free school meals and for pupils known to be eligible for free school meals in primary and secondary schools over the last five years.

Maintained primary and secondary schools[1]: proportion of school population known to be eligible for a free school meal.
Position in January each year 1999 to 2003—England

Maintained Primary Schools	*1999*	*2000*	*2001*	*2002*	*2003*
Number of schools by proportion of school population known to be eligible for free school meals[2]					
Below 20 per cent.	12,230	12,368	12,534	12,639	12,631
20 per cent. and over	6,004	5,790	5,535	5,346	5,230
Total number of schools	18,234	18,158	18,069	17,985	17,861
Percentage of schools by proportion of school population known to be eligible for free school meals[3]					
Below 20 per cent.	67.1	68.1	69.4	70.3	70.7
20 per cent. and over	32.9	31.9	30.6	29.7	29.3
Total	100.0	100.0	100.0	100.0	100.0
Maintained Secondary Schools					
Number of schools by proportion of school population known to be eligible for free school meals[2]					
Below 20 per cent.	2,367	2,397	2,421	2,491	2,502
20 per cent. and over	1,193	1,153	1,060	966	934
Total number of schools	3,560	3,550	3,481	3,457	3,436
Percentage of schools by proportion of school population known to be eligible for free school meals[3]					
Below 20 per cent.	66.5	67.5	69.5	72.1	72.8
20 per cent. and over	33.5	32.5	30.5	27.9	27.2
Total	100.0	100.0	100.0	100.0	100.0

[1] Includes middle schools as deemed.

[2] Prior to 2001 figures relate to number of pupils known to be eligible for a free school meal. From 2001 this definition was expanded to include only pupils who were known to be eligible for and claiming a free school meal.

[3] Number of schools in each band expressed as a percentage of all schools.

Information Technology

Mr. Rosindell: To ask the Secretary of State for Education and Skills what steps he is taking to increase the information technology skills of teaching staff. [146660]

Mr. Charles Clarke: A range of materials to enable teachers to fully embed ICT in their subject teaching have been developed. Materials covering Key Stage 1 and 2 literacy and numeracy, including Foundation Stage, and Key Stage 3 science were launched in 32 LEA areas last year. These subjects, together with Key Stage 3 English, maths, art, geography, design and technology, ICT and modern foreign languages were formally launched nationally at the BETT2004 Exhibition at Olympia this week. Further subjects will follow later. In addition to the materials, extensive one-to-one mentoring and online peer group support are an integral part of these courses.

The Department has contracted a number of commercial providers to develop these materials and schools are able to buy into them using Standards Fund money.

Training in the effective use of ICT in teaching is a mandatory part of Teacher Training Institute training courses.

Andrew Rosindell: To ask the Secretary of State for Education and Skills what measures are in place to promote recruitment of teachers of information and communication technology. [146664]

Mr. Miliband: From September 2000, £6,000 training bursaries have been offered to postgraduate trainee teachers. £4,000 Golden Hellos are also available to those who go on to teach priority subjects, including information and communication technology, in a maintained school. Since September 2002, these incentives have been reinforced by the Repayment of Teachers' Loans scheme piloted for three years for new teachers of priority subjects. These incentives have helped to more than double recruitment to courses of initial teacher training in information and communication technology between 1999/2000 and 2003/04.

KPMG Services

Mr. Hoban: To ask the Secretary of State for Education and Skills if he will list the services to be provided to schools by KPMG which he announced on 29 October, including the number of schools to be visited and the expected average duration of that visit; and if he will make a statement on changes in the extent and scope of the work in the period since he first announced the programme. [145614]

Mr. Stephen Twigg *[holding answer 5 January 2004]:* KPMG and the National College for School Leadership (NCSL), in consultation with key stakeholders including local authority, teacher and governor associations, have jointly developed a range of budget management support for schools, including online materials, workshops and consultancy services. The programme of workshops, which will be rolled out from January to March 2004 will be available to 1,000 schools and follow-up surgeries will be available, on a regional basis, for up to 125 schools with pressing and complex problems. The website containing online support materials was launched on 15 December and is available to all schools, as will be the central helpdesk, run by NCSL and available from this month.

Maintenance Grants

Mr. Jim Cunningham: To ask the Secretary of State for Education and Skills what assessment his Department has made of the implications of raising the level of maintenance grants above £1,000. [147241]

Alan Johnson: I refer my hon. Friend to the Regulatory Impact Assessment, published on 8 January, which sets out the costs and benefits of introducing a new national grant of up to £1,000 a year from 2004/05 for students from low income families, and of increasing the grant to £1,500 a year from 2006/07. Copies of the Regulatory Impact Assessment were placed in the Library of the House; it is also available on the Department for Education and Skills website.

Off-site Educational Visits

Mr. Pickthall: To ask the Secretary of State for Education and Skills what recent advice has been issued to schools and teachers about arrangements for off-site educational visits. [145796]

Mr. Ivan Lewis: My Department has published:

"Standards for LEAs in Overseeing Educational Visits (2002)"[1]

"Standards for Adventure (2002)"[1]

"A Handbook for Group Leaders (2002)"[1]

"Group Safety at Water Margins (2003)"—produced with the Central Council of Physical Recreation

[1] These supplement "Health and Safety of Pupils on Educational Visits: A Good Practice Guide 1998"

Pupil Absences

Mr. Hoban: To ask the Secretary of State for Education and Skills pursuant to his answer of 16 December 2003, *Official Report*, column 836W, on pupil absences, if he will break down the number of half days lost due to unauthorised absence in *(a)* 1997–98 and *(b)* 2002–03 by local education authority. [146470]

Mr. Ivan Lewis *[holding answer 8 January 2004]:* The information requested is shown as follows:

Notes:
1. Figures relate to maintained primary and secondary schools but exclude maintained special schools and CTCs.
2. Figures cover absences between September 1997 and May 1998, and September 2002 and May 2003.

School Fruit Scheme

Mr. Willis: To ask the Secretary of State for Education and Skills how much the Government have spent centrally on administering the National School Fruit Scheme in *(a)* 2001–02 and *(b)* 2002–03; and if he will make a statement. [141789]

Miss Melanie Johnson: I have been asked to reply.

The Department of Health spent £0.75 million in 2001–02 and £0.3 million in 2002–03 on administering and evaluating National School Fruit Scheme pilots, including the cost of the fruit. In 2002–03 and 2003–04 the lottery-funded New Opportunities Fund has been supporting a scaling-up of the original pilots region by region with £42 million. From 2004–05 the scheme will be rolled out to all local education authority infant schools in England with full funding by the Department of Health.

School Meals

Bob Russell: To ask the Secretary of State for Education and Skills (1) if he will make a statement on provision of school meals by Essex county council; [146625]

(2) what statutory requirements there are on local education authorities to provide school meals; and if he will make a statement. [146627]

Mr. Stephen Twigg: Local education authorities have a duty to provide free and paid for school meals that meet nutritional standards. Where a school has a delegated budget for meals, the governing body takes on these responsibilities. From April 2000, funding for school meals was delegated to all secondary schools. Primary and special schools can opt for delegation.

From April 2004, Essex county council will delegate the budget for primary school meals. Primary school governing bodies will have the freedom to choose what form school meals should take, including the type of dishes served and the ingredients which are used. They can also choose the suppliers or providers for the school meal service.

Specialist Schools

Mr. Luff: To ask the Secretary of State for Education and Skills how many schools in each local education authority area have specialist school status in the current financial year; and what the total funding made available in the current financial year under the programme is in each local education authority area. [145430]

Mr. Miliband: The information requested is set out in the following table.

Designated specialist schools receive a one-off £100,000 capital grant and £126 per pupil per annum for four years.

Teaching Methods

Mr. Gibb: To ask the Secretary of State for Education and Skills pursuant to his answer of 15 December 2003, *Official Report*, column 669W, if he will make a statement on the relationship between ability grouping and *(a)* personalised learning and *(b)* teaching tailored to the needs of pupils; and what the role of central government is in implementing these teaching practices. [145527]

Mr. Miliband: Ability grouping is one measure by which schools can personalise the learning and tailor teaching to the needs of pupils. However, it is possible to identify a list of benefits and limitations for the main kinds of ability grouping at the level of the institution, teacher and pupil. It is for schools within the context of their particular circumstances to develop and determine for themselves which forms of ability grouping have the most positive impact for different groups of pupils within different learning contexts (such as different subject areas).

Through the primary and Key Stage 3 national strategies we will be making available to teachers later this year support in assessment for learning techniques and approaches to promote personalised learning.

Toilet Training

Mr. Drew: To ask the Secretary of State for Education and Skills what assessment he has made of the number of children who have been adequately toilet trained prior to entry to school. [146728]

Margaret Hodge: My Department has not assessed how many children have been adequately toilet trained prior to entry to school.

Value Added Improvements

Mr. Drew: To ask the Secretary of State for Education and Skills what steps he is taking to address difficulties in assessing value added improvements in secondary schools where part of their intake have not previously been evaluated in terms of SATS and teacher assessment. [146560]

Mr. Miliband: Value added measures for schools can only be calculated using existing data. Given that all pupils of compulsory school age attending maintained mainstream schools follow the National Curriculum, there are only a very small number who were not assessed at the end of the earlier key stage—for example, only 3 per cent. of 15-year-olds had no prior attainment data at Key Stage 3 in the 2003 performance tables.

Though most schools will be unaffected, we accept that a small number might have a significant proportion of pupils with no prior attainment data—for example, pupils from overseas. This is why we publish a coverage indicator in the performance tables which shows the percentage of pupils on which the value added calculation is based.

HEALTH

Genital Mutilation

Mr. Woodward: To ask the Secretary of State for Health what estimate the Government have made of the number of women who have undergone genital mutilation in *(a)* St. Helens and *(b)* Merseyside in each of the last five years; and what estimate has been made of the total number of women in the UK who have undergone genital mutilation. [146045]

Miss Melanie Johnson: No estimate has been made of the number of women who have undergone female genital mutilation in St. Helens and Merseyside in the last five years or the national total.

Access to GPs

Chris Grayling: To ask the Secretary of State for Health what right of free access British citizens have to treatment at a GP practice other than that at which they are registered if *(a)* they are registered with a different practice but are resident in the UK and *(b)* they are UK citizens living outside the UK. [146355]

Mr. Hutton: Any person is entitled to receive emergency or immediately necessary treatment from any general practitioner if that treatment is necessary. In addition, anyone who is temporarily in an area for more than 24 hours but less than three months, including a United Kingdom citizen visiting from overseas, may register as a temporary resident to receive national health service primary medical services.

Accident and Emergency Departments (Cambridgeshire)

Mr. Djanogly: To ask the Secretary of State for Health how many admissions to accident and emergency departments in Cambridgeshire there were in each of the past 12 quarters, broken down by hospital. [146448]

Dr. Ladyman: Information on the number of admissions to accident and emergency departments is published quarterly for each national health service trust, and is available from the Department's website at www.doh.gsi.gov.uk/hospitalactivity.

Copies of this information are also available in the Library.

The only acute NHS trust in Cambridgeshire is Addenbrooke's NHS Trust.

Accident and Emergency Nurses

Tim Loughton: To ask the Secretary of State for Health how many registered nurses work in general accident and emergency units in England. [145666]

Mr. Hutton: Separate information is not collected on the number of nurses employed in accident and emergency units in the national health service. Qualified accident and emergency nurses are included in the 'Acute, elderly and general' area of work. As at September 2002 there were 187,439 nurses employed in the acute, elderly and general area of work in the NHS, an increase of 9,535 over the previous year and 27,505 since 1997.

ADHD UK Alliance

Mr. Gale: To ask the Secretary of State for Health if he will make a statement on how grants made by his Department to the ADHD UK Alliance have been spent. [143804]

Dr. Ladyman *[holding answer 16 December 2003]:* The Department of Health has given the ADHD UK Alliance a one-year grant of £25,000 as a contribution towards the central administrative costs of their activities in England. This grant supports our priorities in child and adolescent mental health by resourcing an organisation, which in turn, will help the development of the many small support groups in the attention deficit hyperactivity disorder (ADHD) field. We have also previously supported the ADHD UK Alliance when they were part of the organisation, Contact a Family.

Agency Staff

Mr. Djanogly: To ask the Secretary of State for Health what the cost of agency *(a)* nurses and *(b)* doctors has been to the NHS in Huntingdon in each year since 1999. [146444]

Dr. Ladyman: The information is not collected in the format requested. The tables show the available information regarding the national health service trusts that cover the Huntingdon constituency.

(a) Non-NHS 'Nurses'[1] NHS expenditure in Huntingdon: 1999–2000 to 2002–03[2]

£

Non-NHS 'nurses'[1]	*1999–2000*	*2000–01*	*2001–02*	*2002–03[2]*

4. Annual Financial Returns of Primary Care Trusts 2000–01 to 2002–03.

Approved Treatments

Andy King: To ask the Secretary of State for Health if he will take steps to ensure that patients are not taken off treatments which have not been approved by the National Institute for Clinical Excellence for non-medical reasons and transferred to those which have been so approved. [145387]

Miss Melanie Johnson: This is a matter which needs to be resolved at a local level according to the individual circumstances. Clinicians have a prime responsibility to prescribe treatments appropriate for the individual patient. In doing so, they should take full account of National Institute for Clinical Excellence guidance and the evidence on which it is based.

Ashford and St. Peter's Hospitals NHS Trust

Mr. Wilshire: To ask the Secretary of State for Health if he will make a statement on the progress being made towards the implementation of the Ashford and St. Peter's Hospitals NHS Trust Franchise Plan. [146489]

Ms Rosie Winterton *[holding answer 8 January 2004]*: Further to the answer given by my hon. Friend the Member for Salford (Ms Blears), on 20 May 2003, *Official Report*, col.736W, I understand from the Surrey and Sussex Strategic Health Authority that significant progress continues to be made on the franchise plan for Ashford and St. Peter's Hospitals National Health Service Trust as follows:

Ongoing implementation of the £10 million capital programme, including completion of the day case surgery expansion, new ward which is part of a medical assessment unit scheme and new child care nursery at Ashford

Refurbishment of the maternity unit and a new playscheme at St. Peter's

14 per cent. increase in qualified nursing staff

Year on year stability in the workforce

Provision of more affordable housing for key worker staffing under Government schemes

Improved collaborative working with local primary care trusts, social services and local authorities

Achievement of Improving Working Lives (IWL) 'Practice' Status

Moving from being a zero star in 2001 to two star trust in 2003

Since April 2003, in line with the franchise plan, Glenn Douglas has been the Trust's Chief Executive.

Ashford Hospital, Middlesex

Mr. Wilshire: To ask the Secretary of State for Health if he will make a statement on the progress being made towards finalising the contract with Mercury Health Ltd to provide and run a diagnostic treatment centre at Ashford Hospital, Middlesex; and how many procedures per year he expects to be carried out at the new centre. [146502]

Ms Rosie Winterton *[holding answer 8 January 2004]*: The Department, working with local National Health Service sponsors, is making good progress towards finalising a contract for the provision of an independent sector treatment centre at Ashford. The treatment centre plans to provide treatment for 1,711 patients on average annually.

Mr. Wilshire: To ask the Secretary of State for Health whether Ashford Hospital, Middlesex, has an Accident and Emergency Department. [146543]

Ms Rosie Winterton *[holding answer 8 January 2004]*: Ashford Hospital, Middlesex, which is part of the Ashford and St. Peter's Hospitals National Health Service Trust, has an emergency department which deals

with all medical emergencies and walking wounded. The accident and emergency department at St.Peter's Hospital in Chertsey handles trauma cases.

Assistive Technology

Mr. Oaten: To ask the Secretary of State for Health how assistive technology research and development are being monitored and evaluated. [146228]

Miss Melanie Johnson: An annual report on progress made in Government-funded research and development relating to assistive technology is required pursuant to Section 22 of the Chronically Sick and Disabled Persons Act 1970. The report for 2002 was laid before the House on 27 November 2003. Copies have been placed in the Library.

Audiology

Mr. Chope: To ask the Secretary of State for Health (1) what action the Government is taking to guarantee that everyone in Dorset who can benefit from a digital hearing aid provided on the NHS will have received one by April 2005; [145050]

(2) how many people in Dorset he estimates may benefit from digital hearing aids; and what proportion of these will have been fitted with digital hearing aids by 1 April *(a)* 2004 and *(b)* 2005. [145051]

Dr. Ladyman *[holding answer 18 December 2003]:* The question of whether someone can benefit from a digital hearing aid is one of clinical judgment. The Modernising Hearing Aid Services Project, in which the Government are investing £94 million for the two financial years 2003–04 and 2004–05, will ensure that all audiology departments in England will be fitting digital hearing aids routinely by April 2005.

BCG Vaccination

Tony Lloyd: To ask the Secretary of State for Health how many children are awaiting BCG vaccination as a result of the interruption in its administration between August 2002 and the beginning of 2003; and if he will make a statement. [144389]

Miss Melanie Johnson *[holding answer 18 December 2003]:* No schoolchildren should have missed out on the opportunity of receiving BCG vaccination.

There were no supplies of BCG vaccine from August to November 2002, following Evans Vaccines' voluntarily withdrawal of all batches of their BCG as a precautionary measure after discovering, during stability testing, that a number of batches did not comply with the requirements of their registered specifications for potency during its shelf life. This was a decision taken by the company outside of our control and was wholly unexpected.

However, district immunisation co-ordinators were asked to arrange catch-up programmes for children in their areas who may have missed out receiving their BCG immunisation once supplies were available from 25 November 2002.

Blood

Mr. Burstow: To ask the Secretary of State for Health (1) what assessment he has made of the safety of blood plasma and other blood products sourced in the USA following the positive testing for BSE in the USA; [146333]

(2) what additional safeguards he has put in place to ensure the safety of US-sourced blood plasma following the confirmation of BSE in US cattle. [146334]

Miss Melanie Johnson: The arrangements currently in place for importing blood plasma from the United States are based on the objective to secure long term supplies of non-United Kingdom blood plasma to ensure that the global plasma shortage would not reduce to national health service patients the availability of life saving plasma products, such as immunoglobulins and clotting factors.

The NHS has been using US sourced plasma since 1998 because of the unknown and unquantifiable risk of transmission of vCJD through blood. The US was the only country able to supply the quality and quantity of plasma required. The US also has a well established pool of donors, a well regulated environment and a developed collection industry. We are aware of the one case of BSE reported in the US, which is considered to be a negligible risk to the safety of the blood supply. This case is not in itself a reason to alter current arrangements but we will continue to monitor the situation closely.

Tim Loughton: To ask the Secretary of State for Health if he will list regulatory and advisory bodies responsible to his Department dealing with blood safety. [145695]

Miss Melanie Johnson: The regulatory and advisory bodies responsible to the Department of Health for blood safety are the National Blood Authority and the Government expert Advisory Committee on the Microbiological Safety of Blood and Tissues for Transplantation.

Mrs. Calton: To ask the Secretary of State for Health what statistics his Department collates on the incidence of blood borne diseases in recipients of blood products; and if he will make a statement. [145448]

Miss Melanie Johnson: Statistics on the incidence of blood borne diseases in recipients of blood products are not collected centrally.

Mrs. Calton: To ask the Secretary of State for Health when blood testing for contaminated blood product-induced infections was started *(a)* with consent and *(b)* without consent; and if he will make a statement. [143396]

Miss Melanie Johnson: The safety of blood and blood products used in the National Health Service is of paramount importance. The current high levels of safety are achieved by screening out potential high-risk donors and then further testing of every unit of donated blood for Hepatitis B, Hepatitis C and HIV before it is released to hospitals. Diagnostic tests became available for Hepatitis B in 1972, for Hepatitis C in 1991 and for HIV in 1984. It is a matter for health professionals to ensure

that consent for testing is obtained. Guidance on consent to examination and treatment is available on the Department's web-site at www.doh.gov.uk/consent.

Mrs. Calton: To ask the Secretary of State for Health (1) what assessment he has made of the *(a)* methodology and *(b)* effectiveness of screening for infections of (i) blood products and (ii) whole blood to be used by the NHS; and if he will make a statement; [145451]

(2) what assessment he has made of blood products from high infection risk groups being used in the UK; and if he will make a statement. [145458]

Miss Melanie Johnson: The National Blood Authority (NBA) and the Health Protection Agency have an infectious surveillance scheme that monitors the effectiveness of the blood screening programme and the methodology employed. The NBA also complies with the annually updated expert guidelines produced by the Council of Europe and with the requirements laid down in the European Union Directive 2002/98 on setting standards of quality and safety for the collection, testing, processing, storage and distribution of human blood and blood components.

The Government's Advisory Committee on the Microbiological Safety of Blood and Tissues for Transplantation provides expert advice to the UK Blood Transfusion Services on blood screening tests. The latest "Serious Hazards of Transfusion" report, published on 17 July 2003, indicated that the risks of transfusion transmitted infections in the United Kingdom are exceedingly small.

BSE

Mr. Burstow: To ask the Secretary of State for Health what assessment he has made of the risk of vaccines sourced from bovine products in the USA being an agent for transmitting BSE. [146344]

Miss Melanie Johnson: The Medicines and Healthcare Regulatory Agency has initiated a risk assessment to assess any potential impact on United Kingdom licensed medicinal products, including vaccines, that are manufactured using bovine derived materials from the United States following the announcement of the first case of bovine spongiform encephalopathy (BSE) in a cow in the USA.

Cancer Prevention

Ms Munn: To ask the Secretary of State for Health (1) what action he is taking to improve cancer prevention in England; [145455]

(2) how much money his Department allocates to primary prevention of breast cancer; [145456]

(3) how much his Department spent on primary prevention of breast cancer in 2002–03. [145457]

Miss Melanie Johnson: The Department funds an extensive health improvement and prevention programme aimed chiefly at preventing cancer and coronary heart disease, which are the two main causes of mortality.

Health improvement and prevention work is also undertaken directly by primary care trusts (PCTs). From April 2003, 75 per cent. of the national health service budget has been devolved directly to PCTs allowing them control of the resources to deliver on both national and local priorities, including cancer.

Funding for programmes on tobacco control and smoking cessation, improving nutrition and diet and increasing levels of physical activity all contribute not only to cancer prevention, but also to preventing coronary heart disease. It is not possible to identify the amounts in these programmes that contribute solely to cancer prevention or to the prevention of any particular form of cancer.

Care Homes

Mr. Jim Cunningham: To ask the Secretary of State for Health how much the Government provided towards the cost of care home places per person in *(a)* England, *(b)* the West Midlands and *(c)* Coventry in the last year for which figures are available. [144385]

Dr. Ladyman *[holding answer 17 December 2003]:* The Government do not directly allocate funds to local authorities towards the cost of care home places. Rather it provides general funding, distributed by the formula spending share, and revenue grants and capital resources for specific purposes. Personal social services funding for 2004–05 was set out in the Local Authority Social Services Letter LASSL(2003)8 of 19 November 2003. The LASSL can be accessed at: http://www.doh.gov.uk/publications/coinh.html

Sue Doughty: To ask the Secretary of State for Health how many nursing and care home places meet statutory requirements for people over 65 with sensory impairment, broken down by local authority. [146733]

Dr. Ladyman: The information requested is not available by local authority. Information broken down by National Care Standards Commission (NCSC) area office is shown in the table. In applying the standards through registration, the NCSC seeks evidence of a commitment to continuous improvement, quality services, support, accommodation and facilities which will assure a good quality of life and health for service users.

At 1 October 2003, the latest date for which information is available, there were a total number of 182 care homes registered for sensory impairment for elderly people. These homes provided a total number of 1,582 places.

Sue Doughty: To ask the Secretary of State for Health if he will make a statement on the Government's strategy for ensuring that there are sufficient care and nursing home places which meet statutory requirements for people over 65 with sensory impairment to satisfy demand. [146734]

Dr. Ladyman: The Government has made available substantial increases in the level of funding provided for social services in recent years. Between 1996–97 and 2002–03, the overall level of funding has increased by 20 per cent., an average real terms annual increase of around three per cent. We intend to increase further resources to social services for personal social services by an annual average of six per cent, in real terms from 2003–04 to 2005–06.

It is for local councils to use these extra resources to ensure that the right amount and range of care is made available, taking account of local circumstances and priorities.

Mr. Djanogly: To ask the Secretary of State for Health how many publicly-funded care home places there were in Huntingdon in each year since 1999. [146449]

Dr. Ladyman: The table shows the number of local authority (LA) staffed care home places in Cambridgeshire, as at 31 March, for the years 1999 to 2001.

Figures for later years have been collected by the National Care Standards Commission, but comparable details broken down by LA are not available.

Information on the number of care homes places in Huntingdon is not available.

Number of local authority staffed care home places in Cambridgeshire: 31 March 1999 to 2001

Rounded numbers

	Number of places
1999	690
2000	610
2001	550

Children's Nurses

Tim Loughton: To ask the Secretary of State for Health (1) how many community and outreach children's nurses were registered in 2002–03 in England; [145665]

(2) how many paediatric *(a)* oncology and *(b)* intensive care nurses were registered in 2002–03 in (i) England and (ii) Wales; [145693]

(3) how many special baby care and neonatal intensive care nurses were registered in 2002–03 in *(a)* England and *(b)* Wales. [145694]

Mr. Hutton: The information is not collected centrally.

Information for Wales is a matter for the Welsh Assembly.

Communicable Diseases

Mr. Burstow: To ask the Secretary of State for Health, (1) if he will list for each *(a)* strategic health authority and *(b)* primary care trust the number of consultants in communicable diseases in each year since 1996; [144789]

(2) if he will list for each *(a)* strategic health authority and *(b)* primary care trust the three month vacancy figures for consultants in communicable diseases in each year since 1996. [144790]

Mr. Hutton: The number of consultants in communicable diseases, or communicable disease control (CDC) is not collected by the Department.

The main specialties under which CDC falls are public health medicine and microbiology and virology.

Information relating to the number of consultants in public health medicine and microbiology and virology in each strategic health authority and primary care trust since 1996 has been placed in the Library.

Vacancy data has only been collected by the Department since 1999. Between 1999 and 2001, only a limited number of specialties were collected. 2002 is the first year when a significant number of key specialties were individually collected. Available data has been placed in the Library.

Compensation

Mr. Djanogly: To ask the Secretary of State for Health how much compensation was paid to patients and relatives by the NHS *(a)* in Cambridgeshire and *(b)* in England in each year since 1990. [146438]

Ms Rosie Winterton: This information is not collected centrally.

Debt

Mr. Burstow: To ask the Secretary of State for Health how much money is owed within the NHS; by whom; and to whom it is owed. [144945]

Mr. Hutton: The information requested will be placed in the Library.

Departmental Information Campaigns

Dr. Murrison: To ask the Secretary of State for Health how much his Department spent on information campaigns and advertising in 2002–03. [145286]

Ms Rosie Winterton: In 2002–03, £34.89 million was spent on information campaigns and advertising commissioned by the Department's communications directorate.

Doctors' Practice (South Ockenden)

Andrew Mackinlay: To ask the Secretary of State for Health (1) if he will investigate the circumstances relating to the decision of Doctors Leighton, Williams, Khraishi and Ghannam to close their branch surgery in South Road, South Ockendon, Essex; and if he will make a statement on the ability of the Thurrock Primary Care Trust to facilitate a relocation of patients to other doctors within the time frame dictated by the doctors' decision to close their branch practice; [146556]

(2) if he will investigate the circumstances relating to the decision of Doctors Leighton, Williams, Khraishi and Ghannam to close their branch surgery in South Road, South Ockendon, Essex in relation to the period of notice given to individual patients to find alternative GP practices; [146558]

(3) if he will investigate the circumstances relating to the decision of Doctors Leighton, Williams, Khraishi and Ghannam to close their branch surgery in South Road, South Ockendon, Essex in relation to the method of selecting patients no longer to be served by the practice. [146559]

Dr. Ladyman: I have no plans to investigate the circumstances relating to the decision of Doctors Leighton, Williams, Khraishi and Ghannam to close their branch surgery in South Road, South Ockendon, Essex.

The Government's policy of 'Shifting the Balance of Power' means that the configuration of local services is a matter for the local national health service, working in partnership with its local community.

I am informed by Essex Strategic Health Authority that Doctor Leighton and Partners advised 180 patients during mid December 2003 that they intended to close the South Road Branch Surgery in South Ockendon, during February 2004, and invited those 180 patients to find another general practitioner (GP) by 19 January 2004. This complies with the requirement outlined in the regulations for the practice to give 30 days notice of their intention to remove any patients from their list.

I am also advised that Thurrock Primary Care Trust is making every effort to ensure that the displaced patients find another GP by 19 January 2004.

The patients that Thurrock PCT has selected for relocation to alternative GP practices, are those who live the furthest distance from the main surgery in Aveley. These patients are located at the far north of the South Ockendon area and north of the branch surgery in South Road. The period of notice given to individual patients was given in writing by the PCT in a letter dated 28 December 2003.

I am advised via Essex SHA that Thurrock PCT has worked with both this practice and the local medical committee to consider possible alternatives in order to avoid the closure of the branch surgery. Thurrock PCT wrote to the patients on 28 December 2003 advising them of the impending closure of the branch surgery which detailed information and advice on the support available to them in registering with a new practice.

Andrew Mackinlay: To ask the Secretary of State for Health what national guidelines or constraints apply to general practitioners in relation to the ratio of doctors to patients; whether these were exceeded by the practice of Doctors Leighton, Williams, Khraishi and Ghannam prior to their decision to close their branch surgery in South Road, South Ockendon, Essex; and if he will list those alternative general practitioners within the vicinity who have vacancies on their patients' list, stating in each case the number of new patients he or she is permitted to admit to his or her list. [146628]

Dr. Ladyman: According to Regulation 24(2) of the NHS (General Medical Services) Regulations 1992, the maximum number of persons on a doctor's list shall be:

(a) 3,500, for a doctor carrying on practice otherwise than as an assistant or in a partnership;

(b) 4,500 for a doctor carrying on practice in partnership, subject to a maximum average of 3,500 for each of the partners in the practice,

and, where the doctor employs an assistant, such further number not exceeding 2,000 for each assistant as the primary care trust, or, on appeal, the Secretary of State, may decide in the light of the circumstances of the practice and the amount of time given to it by any assistant.

The new general medical services (GMS) contract will mean that patients will register with a practice rather than with an individual practitioner. In order that practices are not constrained in terms of growth, the list maxima currently applied under regulation 24 of the 1992 Regulations will no longer be continued under the new statutory provisions implementing the new GMS contract.

The information relating to alternative general practices with vacancies in the immediate vicinity is not held centrally.

Andrew Mackinlay: To ask the Secretary of State for Health how many patients the general practice of Doctors Leighton, Williams, Khraishi and Ghannam had in November 2003; and how many it is proposed they will have in February 2004 following the planned closure of their branch surgery. [146629]

Dr. Ladyman: This information is not held centrally.

However, my hon. Friend may wish to contact the Chairman of Thurrock Primary Care Trust to request this information.

Drug Treatment

Mr. Burstow: To ask the Secretary of State for Health how many people aged 15 to 24 started drug treatment episodes in each year since 1990, broken down by socio-economic group in *(a)* England and *(b)* each region. [146340]

Miss Melanie Johnson: Information on the number of drug users in the 15 to 24 year old age group presenting for drug treatment in England and by region is available in the Library and on the Department's web-site as detailed below. Information on the socio-economic group of clients starting drug treatment is not collected centrally.

National figures, from drug misuse agencies and general practitioners in England, for each six month period from 1993 to 2001 were published in the Department's Statistical Bulletin series, Drug Misuse Statistics 1993 to 1997 and Statistics from the Regional Drug Misuse Databases 1998 to 2001. These are available at http://www.doh.gov.uk/public/work_public_health.htm#sdd

Elder Abuse

Ann Keen: To ask the Secretary of State for Health what steps he is taking to ensure that *(a)* nursing and *(b)* auxiliary staff are adequately trained to identify and deal with elder abuse in (i) the home and (ii) nursing and residential care. [146318]

Dr. Ladyman: The Government is fully committed to ensuring the provision of an adequately trained workforce to provide care for all vulnerable adults in social care settings, including care homes with nursing on the premises. The Department's No Secrets guidance has required all local councils and partner agencies to establish effective multi-agency codes of practice to protect vulnerable adults from abuse. A key element of this guidance concerns the training of staff. The guidance states that agencies should provide training for staff and volunteers on the policy, procedures and professional practices that are in the place locally, commensurate with their responsibilities in the adult protection process.

In addition, the Department's National Minimum Standards for care homes and domiciliary care, used by the National Care Standards Commission to regulate social care for older people and other vulnerable adults has a number of requirements concerning abuse. These include, protecting service users from abuse, ensuring adequate staff training, and the employment of staff in accordance with the code of practice set by the General Social Care Council, which includes advice to challenge and report and behaviour or practice that could lead to abuse.

Finally, all registered nurses are bound by the Nursing and Midwifery Council's code of professional conduct, which makes explicit the responsibility of registered nurses in ensuring that they protect the public through professional standards.

Emergency Readmissions

Mr. Burstow: To ask the Secretary of State for Health what progress has been made towards achieving the national priorities guidance performance target to reduce the per capita rate of growth in emergency readmissions of people aged 75 years or over; and for what reasons the data collection for emergency admissions was changed to an all age base from 2003–04. [146208]

Dr. Ladyman: The performance target for the rate of emergency readmissions within 28 days of discharge for patients of all ages as set out in the priorities and planning framework for 2003–06, "Improvement, Expansion and Reform", is that there will be no growth. The rate at Quarter 4, 2002–03 was [illegible] per cent. The latest information available is the Quarter 2, 2003–04 figure, which shows no growth.

The target, and subsequently the collection of monitoring information on emergency readmissions, was changed from that relating only to patients aged 75 because it was perceived as being ageist in that older people could be denied access to hospital services in order to meet a performance target. Emergency readmissions targets and data collections have, therefore, covered all ages since 2002.

Fluoridation

Mr. Brady: To ask the Secretary of State for Health (1) what progress his Department has made in its consideration of the indemnification of water supply companies against claims arising from fluoridation; [146011]

(2) whether his Department will provide equal funding for the presentation of both sides in the event of a local referendum on water fluoridation; [146012]

(3) what guidance his Department has given to strategic health authorities on evaluating public opinion on fluoridation of the water supply. [146013]

Miss Melanie Johnson: Section 58 of the Water Act 2003 provides for regulations to be made on both the process which strategic health authorities are to follow in order to consult and ascertain opinion on proposals to fluoridate their water supplies and the indemnities to be made available to water undertakers in respect of any liabilities which they may incur in fluoridating water. We plan to make these regulations, which are subject to affirmative resolution, during 2004. Subject to their approval, we will issue guidance to strategic health authorities on their implementation including standards for consultations which ensure that the views of both proponents and opponents of fluoridation are expressed and taken into account.

Foundation Trusts

Mr. Gordon Prentice: To ask the Secretary of State for Health when he expects to approve the governance arrangements of the first wave of foundation hospitals. [145194]

Mr. Hutton: The Health and Social Care (Community Health and Standards) Act 2003 provides for national health service trusts to submit their applications for NHS foundation trust status to the Independent Regulator. The Independent Regulator must be satisfied that the applicant's constitution is in accordance with Schedule 1 of the Health and Social Care Act 2003 before granting an authorisation.

Mr. Gardiner: To ask the Secretary of State for Health what assistance his Department will offer foundation hospitals in developing *(a)* ethical and *(b)* environmental, (i) investment, (ii) banking and (iii) procurement policies. [145716]

Mr. Hutton: National Health Service foundation trusts will develop their own investment, banking and procurement policies, subject to any conditions set by the Independent Regulator in their terms of authorisation. NHS foundation trusts will not be subject to directions from the Department, but they will be able to continue to access guidance and best practice developed or disseminated by the Department and its agencies, including NHS Estates and the NHS Purchasing and Supply Agency.

Mr. Drew: To ask the Secretary of State for Health what advice has been given to trusts seeking foundation status on *(a)* building up an active membership and *(b)* demonstrating their understanding of mutual organisations. [146546]

Mr. Hutton: Department of Health officials are working with the first wave of applicants for national health service foundation trust status on membership issues, which includes holding regular meetings with the trusts. The advice given at the meetings includes significant input from the mutual sector both on building an active membership and developing a better understanding of the mutual sector. This is supported by a comprehensive source book, "NHS Foundation Trusts—A guide to the governance arrangements", which was developed with advice from a group of external experts on governance.

Mr. Drew: To ask the Secretary of State for Health what guidance is issued to NHS Trusts on the disposal of NHS assets; and what changes are proposed as a result of foundation status being achieved. [146547]

Mr. Hutton: Guidance on the disposal of surplus national health service property assets is contained in the Department's "Estatecode", a copy of which is available in the Library. Guidance on the accounting treatment for disposals of assets is contained in the NHS "Capital Accounting Manual", which is publicly available on the Department's web-site at www.doh.gov.uk.

Section 16 of the Health and Social Care (Community Health and Standards) Act 2003 prevents NHS foundation trusts from disposing of NHS property designated as protected without the approval of the Independent Regulator. The Independent Regulator will be issuing guidance on this to NHS foundation trusts.

General Practitioners

Dr. Murrison: To ask the Secretary of State for Health which primary care trusts have indicated that they will not be able to assure out-of-hours cover for general practitioners in *(a)* April 2004 and *(b)* August 2004. [143188]

Mr. Hutton *[holding answer 11 December 2003]:* None. From April 2004, general practices will be able to opt out of out-of-hours services with the agreement of their primary care trust (PCT). PCTs will not agree to opt-outs unless they have put in place proper alternative arrangements. Opting out will become a right in all but exceptional circumstances from January 2005.

Dr. Murrison: To ask the Secretary of State for Health what proportion of general practitioners have indicated that they intend to opt out of 24-hour cover, broken down by *(a)* rural practices, *(b)* urban practices and *(c)* strategic health authority. [143189]

Mr. Hutton *[holding answer 11 December 2003]:* Primary care trusts are working with their local practices to establish the position, but full information is not available. We expect, however, that the majority of general practitioners will choose to opt-out of responsibility for providing services overnight and at weekends.

Mr. Burstow: To ask the Secretary of State for Health how many *(a)* general practitioners' surgeries and *(b)* single-handed general practitioners' surgeries there were in each of the last five years for which figures are available in (i) England, (ii) each region and (iii) each strategic health authority. [144318]

Mr. Hutton: Data on the number of general practitioner partnerships, including single-handed practitioners is published annually and is available at http://www.doh.gov.uk/public/stats1.htm. The information requested is shown in the table. The total number of partnerships fell during the period 1998 to 2003 however there has been a steady trend towards larger partnerships and more general practitioners working in the national health service than ever before.

Department of Health General and Personal Medical Services Statistics

Head Lice

Mr. Drew: To ask the Secretary of State for Health if he will make a statement on the national professional guidance on head louse control (the Stafford Report) and the subsequent guidelines based on the guidance and published in the Journal of Family Healthcare. [144161]

Dr. Ladyman *[holding answer 17 December 2003]:* Professional guidance on head louse control recognises that detection combing is of paramount importance, as is the use of appropriate treatment options. This can involve either lotions or combing regimes. Our view is that parents should be able to make an informed choice with advice on both options being available from primary health care teams.

Health Professionals (Training)

Dr. Stoate: To ask the Secretary of State for Health if he will ensure that training programmes for health professionals include components which encourage the development of skills specific to working with men. [145524]

Mr. Hutton: The Department is not responsible for setting curricula for health professional training; that is rightly the responsibility of the statutory and professional bodies. However, we do share a commitment with those bodies that all health professionals are trained so that they have the skills and knowledge to deliver a high quality health service to all groups of the population with whom they deal.

Health Tourism (Cambridgeshire)

Mr. Djanogly: To ask the Secretary of State for Health what estimates he has made of the cost to the NHS in Cambridgeshire of health tourism in 2002–03. [146452]

Dr. Ladyman: Entitlement to free national health service treatment is based on residence in the United Kingdom. The National Health Service (Charges to Overseas Visitors) Regulations 1989 place a duty on NHS trusts to establish whether a patient is ordinarily resident or otherwise eligible for free NHS hospital treatment and if not to levy a charge for any treatment provided.

The amounts collected from NHS charged patients are not separately identified in trust accounts and are not collected centrally.

Hospitals (West London)

Mr. Portillo: To ask the Secretary of State for Health (1) what assessment he has made of the extent to which primary care trust resources are adequate to cover the cost of capital programmes at the *(a)* Ealing, *(b)* Charing Cross, *(c)* Hillingdon, *(d)* Northwick Park and *(e)* Paddington hospital sites, while meeting growth in demand for services; [145096]

(2) what assessment he has made of whether redevelopment at the *(a)* Charing Cross and *(b)* Chelsea and Westminster hospitals would represent a viable alternative to redevelopment at Paddington. [145098]

Mr. Hutton: The outline business case (OBC) for the Paddington Health Campus scheme which was approved in October 2000 is currently being reviewed. This review will determine if the financial assumptions underpinning the OBC are still robust. The review will include the views of local primary care trusts.

Influenza

Mr. Lansley: To ask the Secretary of State for Health what measures he is taking this winter to respond to the risk of an increase in influenza cases. [141319]

Ms Rosie Winterton *[holding answer 2 December 2003]:* All strategic health authorities have developed stringent winter plans to cope with increased seasonal demand for health services, such as that caused by the flu season. These set out escalation procedures, which are activated in the event of increased pressure on the national health service.

In addition, a daily winter reporting system has been instigated so that the Department of Health is aware of any Trusts experiencing winter pressures. If pressures are identified, the Department of Health works with the responsible strategic health authority in developing a solution, such as the introduction of improved working practices or the opening of additional beds.

Influenza Vaccine

Sandra Gidley: To ask the Secretary of State for Health if he will list for each health authority *(a)* the number of people eligible for the influenza vaccine and *(b)* the number of shots of vaccine available during winter 2003–04 and *(c)* whether the health authority has reported a shortage in supply. [145624]

Miss Melanie Johnson: The number of people aged 65 and over by strategic health authority is shown in the table. This year, there are nearly 12.4 million doses of vaccine available. No strategic health authority has reported a shortage of flu vaccine.

Strategic health authority	*Population aged over 65*
Cheshire and Merseyside	382,894
County Durham and Tees Valley	182,924
Cumbria and Lancashire	321,415
Greater Manchester	375,607
North and East Yorkshire and Northern Lincolnshire	283,378
Northumberland, Tyne and Wear	233,567
South Yorkshire	205,232
West Yorkshire	313,728

Strategic health authority	Population aged over 65
Bedfordshire and Hertfordshire	237,754
Birmingham and the Black Country	360,054
Coventry, Warwickshire, Herefordshire and Worcestershire	251,755
Essex	268,299
Leicestershire, Northamptonshire and Rutland	221,145
Norfolk, Suffolk and Cambridgeshire	388,676
Shropshire and Staffordshire	235,813
Trent	444,755
North Central London	145,780
North East London	181,018
North West London	214,823
South East London	189,867
South West London	161,786
Avon, Gloucestershire and Wiltshire	357,190
Hampshire and Isle of Wight	293,145
Kent and Medway	263,637
Somerset and Dorset	248,767
South West Peninsula	316,441
Surrey and Sussex	478,280
Thames Valley	290,607

Key Worker Housing

Mr. Burstow: To ask the Secretary of State for Health how much land his Department is proposing that the Government should buy for key worker houses. [144943]

Mr. Hutton: Accommodation for national health service key workers is being planned with Office of the Deputy Prime Minister and is normally sourced through other agencies. Therefore, the Department has no plans to purchase any land for this purpose.

Learning Disabilities

Mr. Blizzard: To ask the Secretary of State for Health how many adults with learning disabilities there were in the UK in *(a)* 1997 and *(b)* 2003; and how many of these were aged 60 or over. [146679]

Dr. Ladyman: Data on the number of adults with learning disabilities in England are not centrally available.

The learning disability white paper, "Valuing People (1999)", estimated that there are about 210,000 people with severe and profound learning disabilities in England. Of these, around 65,000 are children and young people, 120,000 are adults of working age and 25,000 are older people. In the case of people with mild/moderate learning disabilities, lower estimates suggest a prevalence rate of around 25 per 1,000 population—some 1.2 million people in England.

Information relating to Wales, Scotland and Northern Ireland are matters for the Devolved Administrations.

Mr. Blizzard: To ask the Secretary of State for Health how much earmarked funding has been provided to local authorities for a *(a)* older people's services and *(b)* adults with learning disabilities in each of the last three years for which figures are available. [146731]

Dr. Ladyman: The Department does not earmark any funds to local authorities specifically for older people or learning disability services. Local authorities decide how much to make available for services to older people and those with learning disabilities from the overall amount provided for adult personal social services by the Department.

Life Resources Inc.

Mr. Burstow: To ask the Secretary of State for Health if he will set out the screening arrangements *(a)* taken and *(b)* required by Life Resources Inc. in respect of deferring donors who have travelled to live for five years or more in the UK or Europe between 1980 and 1996. [146343]

Miss Melanie Johnson: The United States does not accept blood donations from people who have visited or lived in the United Kingdom or Europe for six months or more between 1980 and 1996.

Long Term Conditions

Mr. Burstow: To ask the Secretary of State for Health what percentage of people reported a longstanding illness or disability *(a)* in England, *(b)* in each region and *(c)* broken down by socio-economic group in each year since 1990. [146339]

Ruth Kelly: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from John Pullinger to Mr. Burstow dated 12 January 2004:

The National Statistician has been asked to reply to your recent Parliamentary Question about the prevalence of people reporting a longstanding illness or disability in England, each region and each socio-economic group since 1990. I am replying in his absence.

The General Household Survey (GHS), carried out by the Office for National Statistics (ONS), publishes the prevalence of longstanding illness, disability or infirmity. The latest available estimates are for the 2001 survey. The tables, which have been placed in the Library, show the prevalence of longstanding illness for:

(a) England, 1990 to 2001;

(b) Region—standard region, 1994 to 1996 and Government Office Region, 1998 to 2001; Unfortunately, regional analyses for 1990 to 1993 are not readily available. Prior to 1994, regional analyses would be based on health regions and thus not directly comparable with later years.

(c) Socio-economic status,

socio-economic group by individual, 1990 to 1991

socio-economic group by head of household, 1992 to 1998

socio-economic group by household reference person, 2000

National Statistics socio-economic classification by household reference person, 2001.

As with any sample survey, estimates from the GHS are subject to sampling variability.

Maternity Services

Mr. Baron: To ask the Secretary of State for Health what response he will make to the Fourth, Eighth and Ninth reports of the Health Select Committee on maternity services in session 2002–03. [143413]

Dr. Ladyman *[holding answer 11 December 2003]*: A response will be made shortly taking into account the document Building on the Best-Choice, Responsiveness and Equity in the NHS, which was launched on 9 December 2003.

Medicines and Health Care Products Regulatory Agency

Dr. Gibson: To ask the Secretary of State for Health what the objectives of the Medicines and Health Care Products Regulatory Agency are in relation to *(a)* the development of the pharmaceutical industry and *(b)* the protection of public health; how performance against these objectives is evaluated; and how any conflict between the objectives is overcome. [145364]

Miss Melanie Johnson: The primary goal of the Medicines and Healthcare products Regulatory Agency (MHRA) is the protection of public health through the regulation of medicines and medical devices.

Its aims and objectives are set out in its business plan, which is available in the Library. There are no specific objectives relating to the development of the pharmaceutical industry. The business plan does, however, contain measures of the efficiency of its performance of services for the pharmaceutical industry.

Performance is evaluated internally and reported quarterly to the Secretary of State for Health. The MHRA is subject regularly to internal audit and to external audit by the National Audit Office.

Mental Health

Mr. Jim Cunningham: To ask the Secretary of State for Health what discussions his Department has had with the Department for International Development regarding the rights of people suffering from mental health problems in the developing world. [144841]

Ms Rosie Winterton *[holding answer 18 December 2003]*: The Department of Health provides funding for the World Health Organisation (WHO) collaborating centre at the Institute for Psychiatry to work closely with the Department for International Development and a number of governments of low and middle income countries.

In addition, the United Kingdom national counterpart for mental health to the WHO, based at the National Institute for Mental Health in England, has been involved in the WHO global fellowship programme which aims to train senior policy makers in developing countries in mental health policy and service development and implementation.

Mr. Burstow: To ask the Secretary of State for Health if he will estimate the risk of developing a mental illness, broken down by *(a)* region and *(b)* socio-economic status. [146335]

Ms Rosie Winterton: Information is available from independent longitudinal research about the relationship between risk factors and the likelihood of an individual within the population developing a mental illness.

The Department of Health does not assess this directly. However, the Office for National Statistics (www.statistics.gov.uk) collects information on a systematic basis about current correlates of mental illness, including age, gender, socio-economic status, physical health and other factors, and estimates mental illness prevalence rates.

Dr. Kumar: To ask the Secretary of State for Health if he will make a statement on *(a)* the findings of the national survey of ethnic minority psychiatric illness rates in the community and *(b)* the action he will take as a result. [144812]

Ms Rosie Winterton: The national survey of ethnic minority psychiatric illness rates in the community (EMPIRIC study) was a major survey of psychiatric illness rates in the community amongst ethnic minority adults aged 16–74 living in England. The survey was used to make comparisons with the prevalence of psychiatric morbidity in the general population. The findings were released in May 2002.

The results of this survey allow, for the first time, detailed analysis of the mental health of ethnic minority groups and comparisons with a general white population. It contains data on common mental disorders, psychosis, social functioning, physical health, use of services and social support. The report identifies different rates of common mental disorders and psychotic illness between minority ethnic groups.

In order to combat the inequality experience by black and minority ethnic mental health service users, "Delivering Race Equality: Guidance for Services" was launched on 17 October for consultation. This marks the start of a major programme by the National Institute for Mental Health in England on black and minority ethnic mental health.

Microbiologists

Tim Loughton: To ask the Secretary of State for Health for what reasons five of the posts for regional microbiologists formerly filled by group directors of the Public Health Laboratory Service are vacant. [145039]

Miss Melanie Johnson: There are nine regional microbiologist posts in the Health Protection Agency (HPA). Four of these have been filled by former Public Health Laboratory Service group laboratory directors, following internal advertisement, applying procedures in accordance with the change management protocol which was agreed when the HPA was created. The remaining five positions were subsequently advertised externally and the process for assessing and interviewing candidates is underway.

Mid-Essex Hospital Trust

Mr. Burns: To ask the Secretary of State for Health what the latest available figures are for the total number of people waiting for in-patient treatment in the Mid Essex Hospital Trust area. [143752]

Dr. Ladyman *[holding answer 16 December 2003]:* I am advised that, as of 13 October 2003, there were 8,040 patients waiting for elective admission at Mid Essex Hospital Trust.

Source:
Department of Health monthly monitoring reports.

Mifegyne

Jim Dobbin: To ask the Secretary of State for Health what investigations the *(a)* Medicines and Healthcare Products Regulatory Agency and *(b)* the Committee on the Safety of Medicines have conducted into the two suspected fatal reactions associated with the use of Mifegyne; and with what results. [146479]

Miss Melanie Johnson: As with all marketed medicines, the safety of Mifegyne (mifepristone, an antiprogestogenic steroid that is used for the medical termination of intra-uterine pregnancy) is continuously monitored by the Medicines and Healthcare products Regulatory Agency (MHRA).

The MHRA has carefully evaluated the two reports received via the Yellow Card Scheme of fatal suspected adverse reactions associated with the use of Mifegyne. This assessment has included details from the post-mortems received in the initial report or via follow-up information obtained from the marketing authorisation holder. The MHRA has concluded that the two cases did not require alteration of the advice to health professionals in the summary of product characteristics and did not affect the balance of risks and benefits of mifepristone. The Committee on Safety of Medicines was not asked to consider these cases.

The reporting of a suspected adverse drug reaction does not necessarily mean that the drug was responsible. Many factors, such as the medical condition that is being treated, other pre-existing illnesses or other medications might have contributed. In one of the cases, the fatal suspected reaction that was reported is recognised to occur with greater frequency during pregnancy or surgery, irrespective of the use of mifepristone.

MRSA

Mr. Lansley: To ask the Secretary of State for Health how many reports of MRSA there were in *(a)* England, *(b)* each region and *(c)* each strategic health authority in each of the last six years. [140859]

Miss Melanie Johnson *[holding answer 3 December 2003]:* The national mandatory surveillance system for methicillin resistant Staphylococcus aureus (MRSA) blood stream infections (bacteraemias), started in April 2001 and the available data are shown in the tables.

Department of Health mandatory bacteraemia surveillance scheme—MRSA bacteraemia by region—Acute NHS trusts

Regions	*Total Number*	*S.aureus bacteraemia April 01 to March 02 Methicillin resistant*	*Percentage*	*Total number*	*S.aureus bacteraemia April 02 to March 03 Methicillin resistant*	*Percentage*	*Percentage difference MRSA between the two years*

[2] April 2002 to March 2003

NHS Graduates

Chris Grayling: To ask the Secretary of State for Education and Skills how many NHS graduates had their university fees reimbursed by their employers in the last year for which figures are available. [144280]

Mr. Hutton: In respect of National Health Service funded pre-registration Nursing, Midwifery and Allied Health profession courses, no top-up fees are charged to students. These students have their contribution to tuition fees met through workforce development confederation contracts with higher education institutions. Fourth and fifth year undergraduate medical students and second, third and fourth year graduate entry medical students are entitled to claim back their top-up fees from the NHS student grant unit. Students benefiting from these arrangements are shown in the table.

The multi-professional education and training budget supports post-registration training for NHS professionals, including paying university fees. NHS trusts may also support postgraduate and post-registration study. Information on the number of NHS employees who have their fees paid in this way is not available centrally.

	£000
Nursing and Midwifery	65,000
Allied Health Professions	17,400
Healthcare Scientists	3,200
Medical Students	4,900

NHS Professionals

Tim Loughton: To ask the Secretary of State for Health which health trusts have declined to use NHS professionals. [145667]

Mr. Hutton: This information is not held centrally.

Tim Loughton: To ask the Secretary of State for Health (1) how much NHS Professionals charges hospital trusts for their services; [145669]

(2) in what circumstances NHS Professionals may charge an administrative fee to hospital trusts; [145672]

(3) what charges NHS Professionals make to trusts when they act as an intermediary between commercial agencies and trusts; [145670]

(4) what categories of charges are included in NHS Professionals administration charges. [145936]

Mr. Hutton: The NHS Professionals Special Health Authority was formally established on 1 January 2004. Decisions on these matters will in future be made by the authority.

Prior to the establishment of the special health authority, a range of different NHS Professionals services have been provided throughout England. Department of Health guidance issued in 2001, NHS Professionals—A co-ordinated, NHS-led approach to temporary staffing, a copy of which is in the Library, recommended a management fee of 7.5 per cent. The Oxford area NHS Professionals service also made a 3 per cent. administration charge to trusts when acting as an intermediary with private recruitment agencies. No other categories of charge have been made.

Tim Loughton: To ask the Secretary of State for Health how much has been charged by NHS professionals in administrative fees since it was set up. [145671]

Mr. Hutton: This information is not held centrally.

NHS Property Sales

Tim Loughton: To ask the Secretary of State for Health what his latest estimate is of the value of properties to be sold as part of the Inventures/NHS Estates surplus property sale; and when he will make a statement about progress of the sale. [145007]

Mr. Hutton: The value of the properties is commercially confidential. A statement on progress will be made in early 2004.

NHS Trust (Chief Executive Misconduct)

Helen Jones: To ask the Secretary of State for Health what duties are placed on a strategic health authority in circumstances where an authority is notified of a possible case of misconduct by the chief executive of an NHS trust. [146622]

Miss Melanie Johnson: It is ultimately only the employer which can take action with regard to its employees. The code of conduct for national health service managers states that where there has been an alleged breach of the code, it is for a local employer to decide whether to investigate the matter informally or under the terms of local disciplinary action. In the majority of cases the authority with which the contract lies will carry out investigations of alleged breaches of the code.

There are therefore no specific duties placed on a strategic health authority in circumstances where an authority is notified of a possible case of misconduct by the chief executive of an NHS trust. If a case of this kind did occur, strategic health authorities and other bodies can offer advice.

Obesity

Mr. Burstow: To ask the Secretary of State for Health how many finished consultant episodes there were where obesity was the primary diagnosis in *(a)* each NHS region and *(b)* England in 2002–03. [146216]

Miss Melanie Johnson: The table shows the count of finished consultant episodes by region in national health service hospitals for 2002–03 where obesity is the primary diagnosis.

Region of treatment	*Total episodes*
Northern and Yorkshire	348
Trent	164
West Midlands	102
North West	241
Eastern	56
London	258

Region of treatment	*Total episodes*
South East	156
South West	95
Not known	22
Total for England	1,442

Source:
Hospital Episode Statistics (HES), Department of Health.

Orthodontic Treatment

Mr. Burns: To ask the Secretary of State for Health how many patients in *(a)* England and *(b)* Mid-Essex are waiting for orthodontic treatment; and how many have been waiting for treatment for (i) up to six months, (ii) up to 12 months, (iii) up to 24 months, (iv) up to 36 months and (v) over 36 months. [144860]

Ms Rosie Winterton *[holding answer 5 January 2003]*: Information on waiting times for orthodontic treatment in the general dental services (GDS) is not available.

In terms of hospital treatment, in England at 30 September 2003 there were 228 patients waiting for elective inpatient admission for treatment by a consultant in the speciality of orthodontics. Of these 205 were waiting up to six months, and a further 23 were waiting over six months. No patients were waiting over 12 months. Mid-Essex Hospital Services National Health Service Trust had no patients waiting for the orthodontics speciality on the same date.

The NHS Plan (July 2000) sets out how waiting times will fall year on year. Maximum waiting times have already been reduced to 21 weeks for a first outpatient appointment and 12 months for inpatient treatment. However, the Government recognises that there is still some way to go.

Waiting times for hospital care will continue to fall, so that by the end of 2005, the maximum waiting time for a first outpatient appointment will be cut to 13 weeks and the maximum wait for inpatient treatment will be cut to six months.

In the twelve month period ending September 2003 GDS dentists in the Mid-Essex area claimed payment for 2,631 courses of treatment involving orthodontic appliances for children aged less than 18 years. This is equivalent to 27.5 claims per 1,000 population aged under 18, almost twice the England average of 14.5. The mid-Essex figure is for the area covered by the PCTs; Chelmsford; Maldon and South Chelmsford; Uttlesford; Witham, Braintree and Halstead.

Osteoporosis

Mr. Key: To ask the Secretary of State for Health how many *(a)* osteoporotic and *(b)* hip fractures were treated by the NHS in each of the last five years; and what the cost was in each year. [146575]

Dr. Ladyman: The table shows the counts of finished admission episodes for osteoporotic fractures and hip fractures treated by national health service hospitals in England from years 1998–99 to 2002–03.

	Primary Diagnosis	
	Osteoporosis with pathological fracture	*Fracture of Femur/ Fracture of Neck of Femur*
1998–99	3,489	43,041
1999–2000	3,361	43,983
2000–01	3,592	43,625
2001–02	3,321	42,367
2002–03	3,687	46,766

Source:
Hospital Episode Statistics (HES), Department of Health, England.

The Department does not collect information centrally relating to costs.

Mr. Key: To ask the Secretary of State for Health what mechanisms are in place to ensure that the targets related to osteoporosis in standard six of the national service framework for older people have been met. [146578]

Dr. Ladyman: Osteoporosis is a key component of an integrated falls service, which all health and social care systems are to have established by 2005. The 2005 milestone is set as a target in Improvement Expansion and Reform, the Priority and Planning Framework for 2003–06, and progress towards this target is being monitored centrally.

Sandra Gidley: To ask the Secretary of State for Health what assessment his Department has made of the link between osteoporosis and bed blocking. [145634]

Dr. Ladyman: The Department of Health does not collect data on the precise medical conditions of patients delayed in hospital, but it does have information on overall numbers of delays. Good progress has been made in reducing the number of delayed transfers of care from hospital year on year, with the number of acute patients delayed on any one day going down from around 6,000 in 2001, to 5,000 in 2002, to 4,000 in 2003. This reflects increased investment in services to tackle delays following the introduction of the Building Care Capacity Grant, and the introduction in October 2003 of new duties of communication between the National Health Service and councils required by the Community Care (Delayed Discharges, etc. Act). In January 2004 the Act requires local authorities to begin to reimburse the NHS for those delays for which they are solely responsible. This requirement will act as a further incentive to partners to identify and tackle the causes of delay in their local system.

Sandra Gidley: To ask the Secretary of State for Health what assessment he has made of whether the identification of osteoporosis has become a priority in primary care as suggested in the National Service Framework for Older People. [145635]

Dr. Ladyman: Falls services, incorporating osteoporosis are covered in the national service framework (NSF) for older people. This, when set in the context of the national priorities guidance establishes it as a high priority for local action and delivery.

The NSF for older people sets clear milestones for the planning and development of integrated falls services and provides the basis for a service model that will deliver the improvements in prevention, care, treatment and rehabilitation that we all want to see.

The Priority and Planning Framework for 2003–2006 requires by April 2005, that an integrated falls service should be established across all health and social care systems. This target is an important driver for change and local service improvements. In line with "Shifting the Balance of Power" the priorities guidance set achievement and delivery of the NSF for older people milestones as a priority for local action.

The most recent reports we have from strategic health authorities indicate that all but a few of the primary care trust local delivery plans include actions to achieve the 2005 falls milestone. We have collected no systematic information on what local plans cover.

Paddington Site

Mr. Portillo: To ask the Secretary of State for Health what the estimated cost of the Paddington site development was on 1 January 2002; what his latest estimate of the cost of the development is; and if he will investigate alternative options for meeting tertiary health demand in West London. [145097]

Mr. Hutton: The estimated capital cost of the preferred option in the outline business case (OBC) which was approved in October 2000—the Paddington Basin scheme—was £360 million. The estimated cost of this option is currently £800 million.

This initial OBC is currently being reviewed. This review will determine if the financial assumptions underpinning the OBC are still robust.

Prisoners

Julie Morgan: To ask the Secretary of State for Health what responsibility the Commission for Healthcare Audit and Inspection has for *(a)* prisoners' and *(b)* ex-offenders' mental health care. [144522]

Ms Rosie Winterton: From April 2004, the Commission for Healthcare Audit and Inspection will be responsible for conducting reviews and investigations of healthcare, including mental health services, provided by and for national health service bodies.

This responsibility will include the review or investigation of health services for prisoners where these are commissioned or provided by primary care trusts.

Private Finance Initiative

Mr. Moss: To ask the Secretary of State for Health if he will list the equipment procured under the Private Finance Initiative in each year since 1998, broken down by *(a)* type, *(b)* hospital, *(c)* initial capital cost, *(d)* term of payment and *(e)* overall cost. [145586]

Mr. Hutton: Information is not held centrally for equipment procured under private finance initiative (PFI) contracts. To gain this information would mean contacting all national health service trusts with PFI schemes, thus incurring disproportionate costs.

Public Services

Mr. Burstow: To ask the Secretary of State for Health if he will make it his policy to introduce independent scrutiny of all performance monitoring procedures, with particular reference to the star ratings system. [146337]

Mr. Hutton: The Commission for Health Improvement (CHI) is the independent regulator of national health service performance and is responsible for developing indicators and publishing NHS performance ratings. Ministers will continue to agree key targets and the priority areas to be covered in the ratings, but are not responsible for their calculation and publication.

The Commission for Healthcare Audit and Inspection, which will take over responsibility for the ratings process from April 2004 and will publish the 2003–04 ratings this summer and develop future indicator sets, including the 2004–05 set.

Under the Health and Social Care Act 2003, the Secretary of State for Health has responsibility for setting national standards. Future published standards will impact on performance monitoring arrangements.

Radiotherapy

Mr. Norman: To ask the Secretary of State for Health what percentage of patients started radiotherapy within four weeks of diagnosis of *(a)* lung, *(b)* gynaecological, *(c)* breast, *(d)* colorectal and *(e)* urological cancers in each of the last three years. [145760]

Miss Melanie Johnson: Information on waiting times for radiotherapy is not collected centrally. The NHS Cancer Plan set out maximum waiting time targets for a patient's first definitive cancer treatment, which could include radiotherapy. From December 2001, there has been a one month maximum wait from diagnosis to first treatment for breast cancer. From 2002, there has been a maximum two month wait from urgent referral by a general practitioner for suspected cancer, to first treatment for breast cancer. By 2005, there will be a maximum two months from urgent referral by a GP to treatment commencing, and a maximum one-month wait from diagnosis to first treatment for all cancers.

Read the Signs Programme

Mr. Burstow: To ask the Secretary of State for Health if he will place in the Library a copy of the evaluation of the Read the Signs anti-stigma programme. [144937]

Ms Rosie Winterton: A copy of the management summary of the research for the Read the Signs anti-stigma programme has been placed in the Library.

Recruitment Advertising

Miss Kirkbride: To ask the Secretary of State for Health how much has been spent on recruitment advertisements in the press, broken down by publication, by *(a)* his Department, *(b)* quangos under the Department and *(c)* non-departmental Government bodies under the Department (i) in the last year and (ii) since 1997. [145802]

Ms Rosie Winterton: Figures prior to the year 2002–03 are not available. The Department's non-departmental public bodies and quangos have devolved responsibility for their own recruitment. Figures and the publications used for recruitment advertisements can only be provided at disproportionate cost. A list of the Departments non-departmental public bodies can be found in the publication "Public Bodies 2003", copies of which are available in the Library.

Details of where advertisements are placed are not centrally recorded, and can be provided only at disproportionate cost. Where advertisements are placed will depend on the nature of the vacancies. The Department has a robust external recruitment policy, which complies with the rules and requirements of "Minister's Rules for Selection, The Civil Service Order in Council", Treasury and equal opportunity and employment protection legislation.

The information requested for the Department is shown in the table.

£

1 April-31 March	*Recruitment budget spend*
2003-to date	146,331.25
2002–03	345,229.15

Research and Development

Mr. Burstow: To ask the Secretary of State for Health if he will set out for each year since 1996 the amount *(a)* budgeted for and *(b)* spent on research and development; what proportion of the departmental, including NHS, budget this represents; how much of the research and development budget has been (i) allocated and (ii) spent on public health; and what proportion of the research and development budget this represents. [145082]

Miss Melanie Johnson: The amounts initially allocated for each of the past six years and spent in each year from the combined budgets for the departmental policy research programme (PRP) and for national health service research and development are shown in the table.

£ million

	Initial allocation	*Expenditure*
1997–98	450	452
1998–99	453	446
1999–2000	464	466
2000–01	480	483
2001–02	510	510
2002–03	540	547

Note:
Policy research programme and NHS R&D combined budgets.

Research is also carried out by some of the Department's arm's length bodies. Total Departmental expenditure on research and development, and what proportion of the Department's total net expenditure this represents, is shown in the following table.

	Total R&D spend (£ million)	*R&D as proportion of total net Departmental spend (Percentage)*
1997–98	486	1.38
1998–99	481	1.05
1999–2000	501	1.02
2000–01	510	1.01
2001–02	538	0.80
2002–03	574	0.86

Expenditure before 1998–99 is on a cash basis. Spend figures from 1999–2000 are on a resource budgeting basis, and total net spend for these years includes NHS pensions. Figures are not therefore directly comparable across the period.

No amount is allocated separately for research and development relating to public health. Research in this field is funded from the PRP and NHS research and development budgets and comprises most of the research carried out by the Department's arm's length bodies, including the Health Protection Agency. Management of much of the research on public health supported by NHS research and development funding is devolved and expenditure at project level is not held centrally by the Department. Details of on-going and recently completed research projects funded by, or of interest to, the NHS are available on the national research register at www.doh.gov.uk/research/nrr.htm.

Security Passes

Mr. Burstow: To ask the Secretary of State for Health, how many security passes have been reported *(a)* lost and *(b)* stolen by staff in his Department in the last 12 months. [144593]

Ms Rosie Winterton *[pursuant to her reply on 5 January 2004, Official Report, column 208W]*: I regret my previous response was incorrect. The response should read as follows:

"From the records available, we estimate that about 110 Department of Health headquarters building photo passes have been lost or stolen in the period 17 December 2002 to 16 December 2003."

Shellfish

Mr. Simon Thomas: To ask the Secretary of State for Health if he will make a statement on the latest scientific advice he has received on the testing of shellfish for toxins. [146367]

Miss Melanie Johnson *[holding answer 8 January 2003]*: The testing of shellfish for toxins is a public health matter, which falls within the policy responsibility of the Food Standards Agency (FSA).

Unusual results have been observed over the last two years in tests for diarrhetic shellfish poisoning toxins under the statutory monitoring programmes, which point to the possible presence of a new neurotoxin. These have therefore resulted in the temporary closure, from time to time, of some shellfish harvesting waters, as a precautionary measure to ensure that public health continues to be protected. The FSA is pursuing an extensive programme of work to resolve the issues associated with these findings.

Skin Cancer

Mr. Baron: To ask the Secretary of State for Health what assessment his Department has made of how the two week wait rule for skin cancer has affected the waiting times for the treatment of urgent non-cancerous skin conditions. [145144]

Miss Melanie Johnson *[holding answer 5 January 2003]*: The two week outpatient waiting time standard was introduced for urgent cases of suspected cancer from December 2000. Performance data is published

quarterly and currently (as at 30 September 2003) shows that 98.7 per cent. of patients urgently referred for suspected skin cancer who fall within the standard were seen within 14 days.

By 2005, there will be targets of a maximum one month wait from diagnosis to treatment and a maximum two month wait from urgent general practitioner referral to treatment for all cancers.

Comparable data on urgent referrals for non-cancer skin conditions is not collected centrally and therefore no assessment has been made of the impact of the cancer two week wait upon waiting times for treatment of non-cancer skin conditions.

Mr. Baron: To ask the Secretary of State for Health what assessment his Department has made of the effectiveness and benefits of rapid referral clinics for skin cancer. [145145]

Miss Melanie Johnson *[holding answer 5 January 2003]*: The Department has commissioned the National Institute for Clinical Excellence (NICE) to develop guidance on skin tumours, including melanoma, for use in the National Health Service in England and Wales. This guidance will advise on the optimal configuration of diagnostic and treatment services for patients with skin cancer. In developing this guidance, NICE will assess the best available evidence in order to make recommendations on the optimum provision of skin cancer services. This will include consideration of a variety of settings and workforce roles. The guidance is due to be published in March 2005.

In addition, we have asked NICE to update the referral guidelines for suspected cancer published by the Department in April 2000, to assist general practitioners in determining those patients who are most likely to have cancer and therefore need to be referred urgently to see a specialist. Both the existing guidance and the revised guidance will address skin cancers.

St. George's Hospital, London

Mr. Liddell-Grainger: To ask the Secretary of State for Health what investigations *(a)* have taken place and *(b)* are underway into waiting lists at St. Georges' Hospital, London. [145768]

Mr. Hutton: South West London Strategic Health Authority has advised me that no investigations have taken place or are underway into waiting lists at St. George's Hospital, London.

Staffing (Cambridgeshire)

Mr. Djanogly: To ask the Secretary of State for Health how many *(a)* medical and clinical staff and *(b)* other types of staff were employed in the NHS in Cambridgeshire according to the most recently available survey of staffing. [146451]

Dr. Ladyman: The information requested is shown in the table.

Hospital, Public Health Medicine and Community Health Services (HCHS) Staff, General Medical Practitioners, Practice staff and Non-Medical staff employed within the specified PCTs, as at 30 September 2002—England

Strategic Health Authorities

Mr. Lansley: To ask the Secretary of State for Health how many staff were employed by strategic health authorities in *(a)* April 2002 and *(b)* April 2003; and what the projected figures are for (i) April and (ii) October 2004. [145370]

Mr. Hutton: The information requested is shown in the table for September 2002, the latest available data. Projected figures are not available.

NHS medical, dental and non-medical staff directly employed in strategic health authorities—England, as at 30 September 2002

Top-up Fees

Dr. Murrison: To ask the Secretary of State for Health whether foundation hospitals will be permitted to pay the *(a)* tuition and *(b)* top-up fees of recruits. [144394]

Mr. Hutton *[holding answer 17 December 2003]:* National health service foundation trusts, like all NHS trusts, would in principle have the power to pay both the tuition and top-up fees of recruits. It would be up to each NHS foundation trust as to whether and in what circumstances to do so. Section 18(1) of the Health and Social Care (Community Health and Standards) Act gives NHS foundation trusts the power to do anything which appears to it to be necessary or desirable for the purposes of or in connection with its functions.

Transplant Services

Mr. Kevin Hughes: To ask the Secretary of State for Health what measures his Department has put in place to counter the shortages of *(a)* transplant consultants and *(b)* critical care nurses in the NHS outlined in the Transplant Framework for England, Saving Lives, Valuing Donors. [144891]

Ms Rosie Winterton: The NHS Plan set challenging workforce objectives to increase staff numbers significantly and redesign jobs with more staff working differently. The Department has arranged for 11 additional surgical training places to be funded specifically to train transplant surgeons.

Between September 1999 and March 2002, a net increase of 28,740 nurses working in the national health service has meant the NHS Plan target for nurses, 20,000 by 2004, has been achieved early. The NHS has a plan to recruit an additional 35,000 nurses by 2008—a proportion of whom will be working in critical care.

Mr. Kevin Hughes: To ask the Secretary of State for Health (1) what system will be put in place to monitor and evaluate the measurements of progress outlined in the Transplant Framework for England, Saving Lives, Valuing Donors; and what action he will take in the event of primary care trusts failing to make progress;. [144892]

(2) what role he envisages charities and voluntary organisations will play in the implementation of the Transplant Framework for England, Saving Lives, Valuing Donors; [144893]

(3) whether his Department will be providing additional funding for the implementation of the recommendations outlined in the Transplant Framework for England, Saving Lives, Valuing Donors. [144932]

Ms Rosie Winterton: UK Transplant already closely monitors most aspects of organ donation and transplantation. The information UK Transplant collects and analyses on organ donation and transplant activity is available on its web-site at www.uktransplant.org.uk. In developing their transplant services, it will be for primary care trusts and specialist commissioning teams to take account of local needs and priorities to allocate resources and benchmark their performance against published activity data. As organ transplantation is of proven clinical

and cost effectiveness, maximising donation and transplantation rates will be important for both patients and the National Health Service.

We envisage that voluntary organisations will continue to play an important part in research, raising awareness about organ donation, particularly by encouraging people to join the organ donor register and supporting the families of donors and transplant recipients.

The Department has provided around £7 million via UK Transplant since 2001 to boost organ donation through the employment of 35 donor liaison nurses working with staff in critical units to help identify potential donors and how to approach and support relatives; 23 living donor co-ordinators working with families considering live donation and funding 10 non-heartbeating programmes to increase the number of organs from non-heartbeating donors.

Mr. Jim Cunningham: To ask the Secretary of State for Health what plans he has to introduce an opt-out scheme for organ donation. [145427]

Ms Rosie Winterton: Government policy on organ donation is one of informed consent, not presumed consent (opt out). The Government reviewed the law on the removal, retention and use of human tissues and organs and tissues during 2003 and the resulting Human Tissue Bill, which was laid before Parliament on 2 December 2003, does not propose to change this policy.

Variant CJD

Mrs. Calton: To ask the Secretary of State for Health what assessment he has made of the risk of possible infection with variant Creutzfeldt-Jakob Disease from large pools of plasma; and what the likely effects are of dilution of infected blood products in large pools. [145450]

Miss Melanie Johnson: The Department has commissioned a risk assessment to consider these questions and findings are not yet available.

Mrs. Calton: To ask the Secretary of State for Health what steps his Department takes to trace recipients of blood donated by donors identified as having *(a)* variant Creutzfeldt-Jakob Disease and *(b)* other blood-borne diseases. [145453]

Miss Melanie Johnson: The Transfusion Medicine Epidemiology Review is a collaborative project between the United Kingdom National CJD Surveillance Unit (NCJDSU) and United Kingdom Blood Services (UKBS). The main purpose is to investigate whether there is any evidence that Creutzfeldt-Jakob disease or variant Creutzfeldt-Jakob disease may have been transmitted via the blood supply.

Variant Creutzfeldt-Jakob disease cases are notified to the UKBS by NCJDSU; a search establishes whether any have acted as donors. Donation records are checked and all components traced through hospital records. Details of all identified recipients are forwarded to NCJDSU for subsequent checking.

In the reverse procedure, patients with variant CJD reported to have received blood transfusions are identified by NCJDSU and notified to UKBS. Details of transfusions are traced through hospital records and relevant blood donors identified. The identity of donors is notified to NCJDSU for subsequent checking.

The safety of blood used in the National Health Service is of paramount importance. Every reasonable step has been taken to minimise any risks during blood transfusion. The current high levels of safety are achieved by screening out potential high risk donors and then further testing of every unit of donated blood for HIV, Hepatitis B, Hepatitis C, Human T Cell Leukaemia Virus, and Syphilis before it is released to NHS hospitals.

Waiting Times (Cambridgeshire)

Mr. Djanogly: To ask the Secretary of State for Health if he will list the average waiting time for a first consultant appointment in Cambridgeshire in each year since 1999. [146450]

Dr. Ladyman: Information relating to national health service trust waiting times, including trusts in Cambridge, for first consultation appointments can be obtained from the Department's at www.doh.gov.uk/waitingtimes/.

The Trusts in Cambridgeshire are:

Addenbrooke's Hospital NHS Trust

Cambridgeshire and Peterborough Mental Health Partnership NHS Trust

Hinchingbrooke Health Care NHS Trust

Papworth Hospital NHS Trust

Peterborough Hospitals NHS Trust

Written Answers to Questions

Tuesday 13 January 2004

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agricultural Chemicals

Mr. Tyler: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking following the meeting on 6 January between her Department's Ministers and industry and other representatives to ensure compatibility of chemicals used in agriculture and horticulture with the regulation on Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH); what consultation has taken place with farming organisations; and if she will make a statement. [147177]

Alun Michael: To ensure compatibility of regulation, the REACH proposal allows for certain substances to be exempt or considered as automatically registered where environmental or human health protection is already adequately covered by existing regimes such as for pesticides, biocides and veterinary medicines. Discussions have therefore focused on those industry sectors and uses most likely to be affected by the proposals, such as manufacturers of industrial chemicals, and we have not been approached by farming organisations to discuss REACH.

We will shortly issue a public consultation paper, which will offer all interested parties, including farming organisations, a further opportunity to provide us with their views. There are also plans to hold a stakeholder conference during the consultation period.

Chemical Regulation

Dr. Gibson: To ask the Secretary of State for Environment, Food and Rural Affairs which Council of Ministers formation her Department has called on to lead the debate on the forthcoming EU chemical regulation. [147230]

Alun Michael: Given the wide-ranging nature of the forthcoming EU chemical regulation, the Government have always considered it essential that the expertise of both the Competitiveness Council and the Environment Council would be needed in coming to decisions on the regulation on registration, evaluation and authorisation of chemicals.

Following the decision of the Italian presidency to ask the Competitiveness Council to lead this debate, we welcome the formation of an ad-hoc working group between the two as a way to enable this wide input to detailed policy discussions. Such an approach is essential if we are to make good progress with this long awaited legislation. I recently visited Brussels to discuss the issues with parliamentarians and the Environment Commission's team and in the UK Ministers at Defra and DTI are working closely with each other and with both industry and non-governmental organisations to give the Commission's latest proposals the best possible scrutiny from all perspectives.

Departmental Relocation

Ms Walley: To ask the Secretary of State for Environment, Food and Rural Affairs how many staff in her Department work in *(a)* the West Midlands and *(b)* North Staffordshire. [146908]

Alun Michael: The information is as follows:

(a) Defra has 734 staff working in the West Midlands. A further 147 Defra Executive Agency staff work in this Region.
(b) Neither Defra nor any of its Agencies has offices in North Staffordshire.

Fisheries

Ann Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs which other European Union member states' fishing vessels will have to comply with the restricted areas in EU waters due to commence on 1 February. [146682]

Mr. Bradshaw: All those which choose to fish in the restricted areas using the specified gears.

Information Campaigns

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs how much the Department spent on information campaigns and advertising in 2002–03. [145248]

Alun Michael: The Department does not maintain records of its expenditure on marketing separately. The expenditure for publicity by Defra's Communications Directorate, which includes advertising, publications, events, shows and direct information literature mailings, in the financial year 2002–03 was £4.7 million.

This included communication on a very wide range of matters, much of it necessary or beneficial to the public and the wide range of industries in which Defra has an interest, together with local government, voluntary organisations and other bodies.

Teesside Power Station

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has carried out into the health implications of allowing the burning of animal fat from cattle at the Teesside power station, Witton. [147403]

Mr. Morley: The Environment Agency is currently determining a permit application under the Pollution Prevention and Control (England and Wales) Regulations 2000 from SembCorp Utilities Teesside Limited who operate the Teesside power station. The company plans to burn tallow that is currently held in storage as a result of the Over Thirty Month (Slaughter) Scheme (OTMS).

The Agency has produced an OTMS Tallow Protocol that provides guidance to Agency Officers and operators on the determination procedure for applications to burn OTMS tallow. The Protocol states that the Operator

must provide an environmental risk assessment of their proposals, including the risks of burning, handling, filtration, and any other pathways by which potential BSE infectivity might affect human health or the environment.

As required by the Regulations, the Agency sent a copy of the operator's application to the local Primary Care Trust. The Agency has received a response on their behalf by the Tees Local Health Protection Unit. The response stated that the information from the application had been considered, together with additional information provided in a report by the European Commission's Scientific Steering Committee (SSC) entitled "The Safety of Tallow Obtained from Ruminant Slaughter By-products" and a "Risk Assessment for the Transport and Combustion of OTMS Tallow" by Det Norske Veritas Limited (DNV). Information had also been provided to the Health Protection Unit by a representative of the Spongiform Encephalopathy Advisory Committee (SEAC).

The Tees Local Health Protection Unit response included the conclusions that, on the basis of the information supplied, the risks to individuals contracting vCJD[1] as a result of the transportation to and combustion of the tallow at the power station can be described as being negligible.

The Environment Agency is considering this response and the additional information provided by the SSC and DNV as part of its determination of the application.

The Agency is also taking into account UK and European air quality standards and objectives in its determination These are set at levels which are unlikely to cause harm to human health.

[1] vCJD: variant Creutzfeldt-Jakob Disease

Waste Electrical and Electronic Equipment Directive

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs for what reason pesticides still hold provisional approval after five years; what the longest period is for which a pesticide has held provisional approval; and what she estimates the total tonnage used in the UK of pesticides provisionally approved in each category to be in the most recent year for which figures are available. [145176]

Alun Michael: All pesticides must meet a minimum standard of safety and efficacy before any approval is given, provisional or otherwise. Provisional approvals are given in order for confirmatory data to be provided for example in areas such as efficacy. The precise requirements and time allowed for the generation of those data vary depending on individual products.

The product that has held provisional approval status for the longest time was first given that status in 1988. Safe use of the product was established, but confirmatory efficacy data were required for full approval. Consequently, a series of different provisional approvals were issued in response to separate applications for approval concerning changes to the product label and its intended uses.

The most recent estimates of the total tonnage of all provisionally approved pesticides used in the UK (in 2002) are as follows.

Category	*Tonnage (active ingredient)*
Fungicides	1,285
Growth regulators	394
Herbicides	3,029
Insecticides	59
Molluscicides	87
Others	<1
Total	4,854

Clive Efford: To ask the Secretary of State for Environment, Food and Rural Affairs (1) whether local authorities will be fully compensated for costs incurred under the Waste Electrical and Electronic Equipment Directive; [146980]

(2) whether she intends that manufacturers and retailers of electrical goods should contribute to costs incurred by local authorities under the Waste Electronic and Electrical Equipment Directive; [146981]

(3) what estimate she has made of the cost to local authorities of complying with the Waste Electrical and Electronic Equipment Directive in relation to *(a)* start-up costs, *(b)* storage costs, *(c)* collection costs and *(d)* disposal costs. [146982]

Mr. Timms: I have been asked to reply.

The implications of the EU Directive on Waste Electrical and Electronic Equipment (WEEE) for local authorities, manufacturers, retailers and others are set out in a consultation paper which the Government published on 25 November 2003. This is available at or may be downloaded from the Department's website at http://www.dti.gov.uk/sustainability/weee/index.htm. Copies are available in the House Library.

This consultation paper invites views on the Government's preferred approach to implementing the Directive. It includes proposals for implementation of the Directive's provisions on producer responsibility and retailer take-back.

The WEEE Directive places no obligations on local authorities. The Government have made it clear that there will be no new unfinanced burdens on local authorities as a result of the Directive. However, the Government aims to encourage increased separate collection of WEEE in line with the Directive's objectives and, in this context, it makes sense to build on existing collection activity at civic amenity sites. The Government wishes to encourage local authorities to consider upgrading and/or introducing WEEE collection facilities at their amenity sites. It is proposed that money will be made available, via a fund, into which local authorities may bid to finance improved or greater separate collection of WEEE at their civic amenity sites.

The consultation suggests that this fund would be provided through a retailer take-back compliance scheme. The Government propose that the retailer scheme should provide funding initially of at least £5 million for civic amenity site upgrades in each of the five financial years between 2005–10, with an interim review in 2008, when the Directive is expected to be revised. It is expected that most of the early expenditure would relate to capital costs and any initial operating costs.

The Government have included in its consultation package a report by consultants Network Recycling on the scope for upgrading and expanding WEEE collection at civic amenity sites around the UK. In summary, this report indicates that over half of civic amenity sites currently collect some WEEE and that there is significant scope for expanding this on the basis of site space available. It suggests that the baseline costs of such upgrades are in the region of £6-£12 million, depending on the approach taken; and that on-going staffing and training costs could be in the region of £4–£9 million per annum.

LEADER OF THE HOUSE

Pre-legislative Scrutiny

39. **Mr. Allen:** To ask the Leader of the House what recent discussions he has had with Government Departments and Select Committee Chairmen on the programme for pre-legislative scrutiny; and if he will make a statement. [147115]

Mr. Woolas: My right hon. Friend has regular meetings with Ministerial colleagues to discuss the legislative programme, including the programme for pre-legislative scrutiny. He met the Liaison Committee to discuss pre-legislative scrutiny, among other matters, on 11 November; and he wrote to all Committee Chairmen with a provisional list of draft bills for the current session shortly after the Queen's Speech.

Sitting Hours

Mr. Ben Chapman: To ask the Leader of the House what plans he has to record representations he receives for and against the *(a)* present sitting hours of the House and *(b)* September sitting of the House. [146837]

Mr. Hain: To record the many informal representations I receive would be impractical, especially as many do not fall into a clear "for" or "against" category. However, as I announced to the House last week, the Modernisation Committee is to survey Members' views as part of a formal review of the sitting hours change.

Mr. Ben Chapman: To ask the Leader of the House what plans he has to review the sitting hours of the House. [147110]

Mr. Hain: As I announced to the House last Thursday, the Modernisation Committee intends to review the sitting hours. I am keen that the Committee should explore a range of options with a view to establishing a new and durable consensus.

Mr. Lazarowicz: To ask the Leader of the House what assessment he has made of the impact of the new sitting hours of the House on the times of committee meetings. [147114]

Mr. Hain: I am aware that some Members have found the time of Standing Committees irksome and am willing to consider this further. I have also discussed with the Liaison Committee the impact of the sitting hours on Select Committee meetings.

TREASURY

Financial Advisers

Norman Lamb: To ask the Chancellor of the Exchequer (1) what assessment he has made of the current qualification levels for financial advisers; and what assessment he has made of whether these are of a high enough standard to protect the public; [147637]

(2) if he will make a statement on the badging and level of qualifications for financial advisers; and what assessment he has made as to ways in which this could be simplified; [147638]

(3) what assessment he has made of the extent to which a simpler form of badging to indicate the qualification and level of competence of a financial adviser would improve consumer confidence. [147639]

Ruth Kelly: Consumer protection should take account of the requirement that those working in the financial services industry are capable of properly performing the work they undertake at all levels, and that consumers should thereby have confidence in the competence of financial advisers.

The Financial Services and Markets Act 2000 charges the Financial Services Authority (FSA) with securing the appropriate degree of protection for consumers. Vetting by the FSA aims to allow only those firms and individuals satisfying the necessary criteria (including competence) to engage in regulated activity.

The FSA sets training and competence policy, including minimum standards for regulated firms and examination standards. The purpose of the FSA is to set the standards of training and competence that firms should reach.

The FSA works closely with both the industry and consumers, and keeps training and competence requirements under review. It carried out a significant review of the qualification regime for financial services in November 2002. In particular the FSA proposed in Consultation Paper 194 (CP194) that the training arrangements should be simplified and competence assessed by using examinations that are 'appropriate' rather than a published list of FSA 'approved' examinations. This proposal gives firms greater flexibility, because they will be able to choose an examination that is appropriate in their circumstances.

The FSA liaises closely with the Skills Council for Financial Services to ensure that consumer protection is at the forefront of training and competence policy. The Skills Council for Financial Services has responsibility to develop world class occupational standards in the financial services sector and to ensure that all sector specific qualifications are based on them.

Financial Services

Mrs. Lawrence: To ask the Chancellor of the Exchequer if he will make a statement on developments in financial services. [148151]

Ruth Kelly: I am replying as the Minister responsible for financial services.

Under the terms of the tripartite Memorandum of Understanding between the Treasury, the Financial Services Authority (FSA) and the Bank of England (dated 28 October 1997), the FSA have kept me informed of developments at Standard Life, which have led to this morning's statement by the FSA.

The FSA have responsibility for regulatory decisions under the Financial Services and Markets Act 2000 (FSMA), including the setting up of a review under Section 166. They have informed the Treasury of their decision to commission a review by independent experts into the origins and implications of the significant divergence in the calculation of Standard Life's liabilities.

I will continue to keep the House informed of developments.

Red Diesel

Mr. Hancock: To ask the Chancellor of the Exchequer what the estimated loss to his Department was from the fraudulent manufacture and use of red diesel in each of the last five years for which there are records. [145485]

John Healey: HM Customs and Excise's latest estimates of the overall revenue loss from all forms of diesel fraud in Great Britain and the overall revenue loss from all forms of diesel fraud and legitimate cross-border shopping of diesel in Northern Ireland in 2000, 2001 and 2002 are set out in their Annual Report (HC 52) published in December 2003.

The following table sets out Customs' latest estimates of the revenue loss in 1998 and 1999:

£ million

	Great Britain (diesel fraud)	*Northern Ireland (diesel fraud and legitimate cross border shopping of diesel)*
1998	750	85
1999	900	175

Customs believe the great majority of diesel fraud on the British mainland, and a significant loss in Northern Ireland, involve the misuse of rebated or low-tax fuels supplied for non-road use, but a specific estimate of loss from red diesel alone is not available.

VAT (Motorcycle Helmets)

Mr. Drew: To ask the Chancellor of the Exchequer when, and on what basis, motorcycle helmets were made subject to VAT. [147107]

John Healey: Motorcycle helmets which meet the necessary approved standards have been VAT zero-rated since 1 June 1974. The Government have made clear in negotiations on the European Commission's review of reduced VAT rates that we will not agree to the removal of any of our zero or reduced VAT rate derogations.

WALES

Dee Cockle Regulation Order

Mr. Ben Chapman: To ask the Secretary of State for Wales when he expects the Dee Cockle Regulation Order to be implemented. [144779]

Mr. Touhig: Responsibility for managing the Dee Estuary rests with the Environment Agency in its role as a Sea Fisheries Committee. As the Dee Estuary straddles the Wales/England border, Defra and the Welsh Assembly will act jointly to make a single Regulating Order under the Sea Fisheries (Shellfish) Act 1967, once the Environment Agency Wales, is in a position to submit a formal application for the Order. The Agency is in the process of obtaining written consents from landowners and it will forward an application when these are received.

Both the Welsh Assembly and Defra will ensure that the application is processed as quickly as possible under the terms of the 1967 Act, but the process can take up to two years.

Fair Trade Products

Mr. Bercow: To ask the Secretary of State for Wales whether it is the policy of his Department to use fair trade products, as a matter of course, in *(a)* sales on departmental premises and *(b)* receptions and meetings involving staff and visitors. [142809]

Mr. Hain: My office does not have a refreshment facility in which it could stock and sell fair trade products.

While there is currently no Government-wide approach to the procurement of fair trade products, we will endeavour to use them for official entertaining, subject to this being value for money.

EDUCATION AND SKILLS

Children's Green Paper

Tim Loughton: To ask the Secretary of State for Education and Skills what arrangements are already in existence to register children on a national register. [145656]

Margaret Hodge: There are no arrangements in existence to register children on a national register. There are no plans for children to be included on a national register.

E-Registration Systems

Mr. Forth: To ask the Secretary of State for Education and Skills how many schools have *(a)* been awarded Department for Education and Skills funds for e-registration, *(b)* installed e-registration and *(c)* have fully operational e-registration systems. [R] [146750]

Mr. Charles Clarke: My Department has provided 480 secondary schools with funding to purchase electronic registration systems. Another 61 schools are in the process of claiming such funding. However, schools may use other funds to purchase e-registration systems and they are not required to inform the

Department when they do so. So the information required to answer parts *(b)* and *(c)* of the right hon. Member's question is not available centrally.

Education Funding

Mr. Kidney: To ask the Secretary of State for Education and Skills pursuant to his answers of 11 December 2003, *Official Report*, column 608W, on education spending, what effect the announcement of additional funding for 2004–05 in the Chancellor's pre-Budget report will have on the sums provided; and what the sums provided were in 2003–04. [146521]

Mr. Miliband: The additional funding provided in the Chancellor's pre-Budget report affects the Revenue Support Grant payable to authorities rather than the Formula Spending Shares, which remain unchanged. The basic entitlement in the Education formula Spending Share in 2003–04 was £2,004.65 for primary pupils and £2,656.92 for secondary pupils.

Environmental Engineering

Mr. Drew: To ask the Secretary of State for Education and Skills what plans he has to increase opportunities for young people in the field of environmental engineering, with particular reference to the provision of *(a)* courses in further education and *(b)* modern apprenticeships. [146545]

Mr. Ivan Lewis: There are a number of different routes into careers and relevant university courses in environmental engineering. Young people choosing this area will therefore benefit from the Government's commitment to increase opportunities to study or train in a variety of subjects in both colleges and Modern Apprenticeships. A range of academic and vocational subjects, together with Modern Apprenticeship frameworks, are available in the areas of engineering, science, construction and the environment. The relevant sector bodies for this area LANTRA covering land based industries and SEMTA covering engineering are working with employers in their sectors to promote these careers to young people and with the Learning and Skills Council expand the range of opportunities available.

Fresh Water (School Dining Rooms)

Mr. Burstow: To ask the Secretary of State for Education and Skills what assessment he has made of the availability of fresh water in school dining rooms; and if he will make a statement. [146351]

Mr. Stephen Twigg: All schools are required to have a wholesome supply of drinking water. However, it is for local education authorities, governors and schools to decide how and when drinking water should be made available to pupils.

Guidance produced by this Department advises caterers on meeting the requirements of the Government's nutritional standards for school lunches and recommends that drinking water should be made available to all pupils every day, free of charge. The DfES, in partnership with the Food Standards Agency, are currently examining school meals provision in 80 maintained secondary schools in England. This exercise will also consider the extent to which complementary guidance, which covers drinking water provision, is adhered to. Results of the exercise are due in late spring 2004.

Higher Education Expansion

Mr. Brazier: To ask the Secretary of State for Education and Skills what his estimate is of the cost of the current phase of expansion of higher education in annual revenue terms. [147562]

Alan Johnson: Funding for higher education in England between 2002–03 and 2005–06 was set out in the White Paper, "The Future of Higher Education" (Cm 5735), published in January 2003. The overall funding for higher education—including the costs of expansion—will increase by 31 per cent. between those years from £7,596 million to £9,918 million.

Information Technology

Mr. Rosindell: To ask the Secretary of State for Education and Skills if he will make a statement on differences in information technology curricula between the main examination boards. [146658]

Mr. Miliband: The Qualifications and Curriculum Authority is responsible for ensuring the GCSE specifications, including those in ICT, are consistent with the National Curriculum programmes of study, conform to publicly available subject criteria published by the regulatory authorities, and are of a consistent rigour and standards. The subject specific criteria set out a framework for aims, assessment objectives, and schemes of assessment required in syllabuses. Each awarding body is then free to develop GCSE specifications within the framework.

I have asked the Chief Executive of the QCA to write to you providing further details of individual awarding body specifications.

Mobile Phones

Mr. Rosindell: To ask the Secretary of State for Education and Skills what the Government's policy is on the use of mobile phones in schools by *(a)* pupils and *(b)* staff. [146661]

Mr. Ivan Lewis: The use of mobile phones in schools, by pupils, is a local matter to be determined by the headteacher, school governing body and/or the local education authority. The Department has advised schools to take into account the Chief Medical Officer's guidance that children and young people should be encouraged to use their phones for essential purposes only and to keep the calls short. The Department has not issued guidance for teacher's use of mobile phones.

Education Standards

Mr. Rosindell: To ask the Secretary of State for Education and Skills what methods are used to measure regional differences in educational standards. [146663]

Mr. Ivan Lewis: The Department publishes a wide variety of data on the performance of schools and other education institutions, including 'value added' measures. Much of this is published in Statistical Bulletins, Statistical First Releases and Statistical

Volumes of Education as well as Performance Tables. These sources provide information at school, LEA, Regional, and national level. This data is used by bodies such as Regional Development Agencies and the Learning and Skills Council to help develop regional and local strategies to improve education and skills attainment.

School Meals

Mr. Burstow: To ask the Secretary of State for Education and Skills what assessment he has made of the impact on the nutrient content of school meals of the metric used by the Audit Commission Best Value Inspectors for school catering services. [146349]

Mr. Stephen Twigg: This Department has not made any such assessment as the Audit Commission as part of Ofsted LEA inspections uses the food based approach set out in the Nutritional Standards Regulations in its inspections of school catering services.

Mr. Burstow: To ask the Secretary of State for Education and Skills if he will make it his policy to *(a)* implement national nutrient-based standards for (i) school breakfasts and (ii) school lunches and *(b)* make arrangements for monitoring their implementation. [146350]

Mr. Stephen Twigg: There are no plans to require maintained schools to provide breakfasts. Schools are required to provide free lunches to eligible pupils, and lunches for other pupils where a request for one is made, that meet the school lunch nutritional standards.

We carried out two consultations before introducing the national nutritional standards in 2001. Most of those consulted thought that food based standards would be simpler to implement and monitor, and would be consistent with cross Government policies that support children in making healthy eating choices. Most importantly, they are easily understood by children.

Teachers (Chorley)

Mr. Hoyle: To ask the Secretary of State for Education and Skills how many *(a)* full-time and *(b)* part-time (i) primary and (ii) secondary school teachers were employed in Chorley constituency in each of the last three years. [146973]

Mr. Miliband: The following table shows the numbers of full-time and part-time regular teachers, employed in each January between 2001 and 2003, in primary and secondary schools in Chorley constituency.

	Maintained primary[1]		*Maintained secondary*[1]	
	Full-time[2]	*Part-time*[2]	*Full-time*[2]	*Part-time*[2]
2001	340	120	400	70
2002	340	110	420	70
2003	350	120	430	60

[1] Includes middle schools as deemed.
[2] Includes qualified and other teaching staff.
Source:
Annual Schools' Census.

Teachers (Huntingdon)

Mr. Djanogly: To ask the Secretary of State for Education and Skills how many full-time *(a)* primary and *(b)* secondary school teachers were employed in Huntingdon on 1 December 2003. [146435]

Mr. Miliband: Constituency level data for regular teachers are collected on the Annual Schools' Census in January of each year. The most recent data available for primary and secondary full-time regular teachers is at January 2003. These data are shown in the following table.

Full-time teachers[1] *in maintained schools in Huntingdon constituency*

	Number
Primary[2]	380
Secondary[2]	420

[1] Includes qualified and other teaching staff.
[2] Includes middle schools as deemed.
Source:
Annual Schools' Census.

Toilet Training

Mr. Drew: To ask the Secretary of State for Education and Skills what assessment has been made of toilet training for children; and whether any research has been conducted on this subject. [146727]

Dr. Ladyman: I have been asked to reply.

The Department of Health has not commissioned any recent research on links between bowel and bladder problems in children and child abuse.

Data on the number of parents accused, and admitting to abuse of their children as result of enuresis are not collected centrally.

A study published in 1997, based on data from the national study of health and growth, found that a father's social class was associated with enuresis only in girls, with a higher prevalence in those whose fathers were manual workers.

"Good practice in continence services", issued by the Department in April 2000, provides guidance to primary care trusts (PCTs) on continence services. This includes that PCTs should have specialist continence services in place, which provide patients with an individual assessment of their needs. Provision of these services in England is a matter for PCTs, which are responsible for determining the level of services required to meet the needs of their local populations. The Department does not monitor provision in this level of detail.

Toilet training for children is considered in the Department of Health guide, "Birth to Five", available free to first time mothers and at www.doh.gov.uk/birthtofive/. The Department has not commissioned any recent research on toilet training for children.

Unauthorised Absence

Mr. Hoban: To ask the Secretary of State for Education and Skills how many pupils missed, through unauthorised absence, *(a)* one half-day session, *(b)* between two and five half-day sessions, *(c)* between

six and 10 half-day sessions, *(d)* between 11 and 15 half-day sessions, *(e)* between 16 and 20 half-day sessions and *(f)* over 20 half-day sessions in each year since 1997. [147145]

Mr. Ivan Lewis: The information requested is not available. The Pupil Absence Return requires schools to provide only the number of pupils with at least one unauthorised absence. From the data collected, it is possible to calculate the average number of half-days missed per absent pupil due to unauthorised absence and the figures since 1997 are shown as follows:

Academic year	*Average number of half-days missed per absent pupil due to unauthorised absence*
1997/98	15
1998/99	14
1999/2000	13
2000/01	13
2001/02	13
2002/03	12

Note:
Figures are for maintained primary and secondary schools combined.

Tuition Fees

Mr. Brazier: To ask the Secretary of State for Education and Skills what estimate he has made of the amount the proposed top-up fees would raise annually if *(a)* all universities charged the maximum and *(b)* universities on average charged half the maximum. [147563]

Alan Johnson: Information on the costs and benefits associated with the proposal in the Higher Education Bill to allow universities to set their own tuition fees is contained in the Regulatory Impact Assessment, published on 8 January 2004, alongside the Bill. The Regulatory Impact Assessment illustrates the income from additional fees in different scenarios. Because of the nature of a variable scheme, the costs vary greatly according to the decisions that higher education institutions take, and they cannot be estimated precisely at this stage. Copies of the Regulatory Impact Assessment were placed in the Library of the House; it is also available on the Department for Education and Skills website.

Mr. Challen: To ask the Secretary of State for Education and Skills in which year he expects his proposal to increase from £10,000 to £15,000 the income threshold for repayment by graduates of tuition fees to take effect; and whether he plans to take account of possible inflation in the intervening period when setting the threshold. [147724]

Alan Johnson: We plan to increase the threshold for the repayment of student loans from £10,000 to £15,000 with effect from April 2005. No account will be taken of any inflation in the intervening period.

Violent Pupils

Mr. Rosindell: To ask the Secretary of State for Education and Skills what provisions are being implemented to promote the safety of teachers, with particular reference to violent pupils. [146666]

Mr. Ivan Lewis: We are investing nearly £470 million over this and the next two years in measures to improve behaviour and attendance in schools. These include training for school staff in managing pupil behaviour and preventing violence. We have also made it clear that head teachers may permanently exclude pupils responsible for violence. New legislation in the Anti-Social Behaviour Act will enable local education authorities to apply for court-imposed Parenting Orders for parents whose children have been excluded from school for serious misbehaviour. And we have issued "A legal toolkit for schools", which identifies legal remedies available when school staff experience problems with violent parents. Some of these are also available when dealing with violent pupils.

CULTURE, MEDIA AND SPORT

Departmental Relocation

Ms Walley: To ask the Secretary of State for Culture, Media and Sport how many staff in her Department work in *(a)* the West Midlands and *(b)* North Staffordshire. [146918]

Mr. Caborn: There are currently no staff in my department that work in the West Midlands or North Staffordshire area.

Hotel Accommodation (VAT)

Mr. Sanders: To ask the Secretary of State for Culture, Media and Sport if she will make representations to the Chancellor to undertake a review of value added tax levels on hotel accommodation. [147250]

Mr. Caborn: DCMS has no plans at present to make representations to the Chancellor to review the rate of VAT on hotel accommodation, but we will continue to monitor the position carefully in consultation with the tourism and hospitality industry. Inconsidering the rate of VAT for hotels, the Government has to consider a wide range of issues such as the rate paid by other industries and the impact on revenue to the Exchequer, both in the short and longer term. The Government's aim is to maintain a tax system that provides the best overall environment for business, but it does keep the system under continual review.

Iraqi National Museum

Harry Cohen: To ask the Secretary of State for Culture, Media and Sport which Government Ministers have recently visited the Iraqi national museum in Baghdad; and if she will make a statement on *(a)* lost, stolen or damaged exhibits belonging to the museum and *(b)* access to the museum and its security. [146362]

Tessa Jowell: No Government Ministers have visited the Iraqi national museum in Baghdad recently. The British Museum is collaborating with the Baghdad Museum on a conservation programme which includes providing training in London for three Iraqi conservators on up to date conservation techniques. Estimates on numbers of missing artefacts are subject to regular revision. Early reports stating that 170,000 pieces had been looted from the museum were misleading. Currently around 30 pieces from the main

collection are still unaccounted for and a further 10–13,000 other pieces may also be missing. Access to the Museum and the security of the Museum, and of its collections is a matter for the Museum and the appropriate Iraqi authorities working in partnership with the Coalition Provisional Authority.

Tourism

Mr. Sanders: To ask the Secretary of State for Culture, Media and Sport what plans she has to increase productivity in the tourism industry in 2004. [147253]

Mr. Caborn: Government, in partnership with the wider tourism industry, has identified four key strategic priority areas for increasing productivity in the industry. During 2004, DCMS will continue the work that is already in progress on domestic and overseas marketing through direct funding to VisitBritain and development of the EnglandNet initiative, on raising skills through supporting the establishment of a Sector Skills Council, by driving up quality through the Fitness for Purpose initiative and a review of the current accommodation quality grading schemes, and by improving tourism data through a review of data quality and availability with a view to strengthening statistics. A fifth priority for DCMS is to strengthen the advocacy of tourism across government at all levels. By concentrating on these areas, we aim to drive up productivity in the sector and to develop a highly competitive industry with sustainable foundations for long-term growth.

FOREIGN AND COMMONWEALTH AFFAIRS

Cyprus

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the fairness of the recent parliamentary elections in Turkish Cyprus; and if he will make a statement. [147106]

Mr. Straw: The 14 December elections to the "Assembly" of the "Turkish Republic of Northern Cyprus", although not officially recognised, were an important opportunity for the Turkish Cypriot people to express their views on the island's future. A small team of academics from the University of Oslo carried out an independent study of the elections and the pre-electoral period. They noted some serious concerns about the manner in which the campaign was conducted. Lack of impartiality in the media was one area highlighted. The final report from the University of Oslo team is expected within the next month.

We too have noted the widespread concerns expressed by many Turkish Cypriots about the way the campaign was conducted. There were numerous reports of intimidation and also of rigging of the electoral register. I refer the hon. Gentleman to the answer my hon. Friend the Minister of State at the Foreign and Commonwealth Office (Mr. MacShane) gave to my hon. Friend the Member for Hendon (Mr. Dismore) on 17 November 2003, *Official Report*, columns 657–58W.

As far as we are aware, elections on the day were conducted in a fair and open manner. We welcome the fact that notwithstanding these concerns about the campaign, the majority of the population in the north of Cyprus voted for candidates committed to a solution to the Cyprus problem. We encourage all sides to work now for a settlement to the Cyprus problem based on the UN Secretary General's proposals (the Annan Plan) by 1 May.

HGV Drivers (Detention)

Mr. Challen: To ask the Secretary of State for Foreign and Commonwealth Affairs how many British heavy goods vehicle drivers are held in prisons in EU countries, broken down by country. [146961]

Mr. Mullin: The following is a breakdown of the number of British lorry drivers that the Foreign and Commonwealth Office have been made aware of held in detention in each European Union country as of 8 January 2004:

	Number
France	60
Belgium	9
Spain	4
Italy	1
Germany	1
Sweden	1
Netherlands	0
Luxemburg	0
Denmark	0
Portugal	0
Greece	0
Austria	0
Ireland	0
Finland	0

Intergovernmental Conference

Mr. Heathcoat-Amory: To ask the Secretary of State for Foreign and Commonwealth Affairs whether all member states agreed to the Intergovernmental Conference Final Declaration issued by the Italian Presidency. [146951]

Mr. MacShane: The Declaration on the Intergovernmental Conference was concluded on the Presidency's own authority and annexed to the European Council Conclusions. The main elements of it were, however, presented to the European Council before it concluded on 13 December 2003.

International Treaties

Mr. Austin Mitchell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will name the judicial body and its treaty or other international basis empowered to adjudicate and provide interpretations and judgments concerning *(a)* the international treaties comprising the core structure and operation of the principal Treaties of the European Community and Union and *(b)* a formal European Constitution, once agreed, ratified and operative, similar to that under current consideration. [146976]

Mr. MacShane: The European Court of Justice (ECJ) and the Court of First Instance, each within its own jurisdiction, ensure that the law is observed in the interpretation and application of the European Community Treaty, under the terms of its Article 220.

The powers of the ECJ in respect of the Treaty on European Union are set out in that Treaty's Article 46. The ECJ would be responsible for ensuring respect for the law in the interpretation and application of the Constitutional Treaty (draft Article 1.28 (1)).

Libya

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what discussions he has had with his *(a)* Libyan and *(b)* German counterparts concerning the seizure of the German-flagged ship BBC China; [146839]

(2) what part was played by British officials in the recent tracking and seizure of the German-flagged ship BBC China. [146840]

Mr. Straw *[holding answer 12 January 2004]:* It is our policy to co-operate with our allies in seeking to take action against the transport of goods which could contribute to the proliferation of weapons of mass destruction. The UK is an active participant in the Proliferation Security Initiative designed to improve international co-ordination in this area. I am withholding further information under exemption 1 of Part 2 of the Code of Practice on Access to Government Information.

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs when he expects that talks will be held with Libya about ending its programme for the development of weapons of mass destruction; which other countries he expects will be involved; and what role the International Atomic Energy Agency will play in the talks. [147071]

Mr. MacShane *[holding answer 12 January 2004]:* My right hon. Friend the Foreign Secretary has invited Libyan Foreign Minister Shalgam to visit London soon to discuss a range of bilateral and international issues. This will form part of the process of implementing the decision by Libya to dismantle its weapons of mass destruction programmes. Britain and the United States will now be taking forward the practical issues of verification and of the dismantling of these weapons in partnership with Libya and with the International Atomic Energy Agency (IAEA) and Organisation for Prohibition of Chemical Weapons (OPCW).

We have committed ourselves to helping with the preparation of Libya's returns to the IAEA and OPCW and to helping dismantle the programmes Libya has agreed to destroy. Within their respective remits, the responsibility for verifying Libya's declarations lies with the IAEA and the OPCW, and it is for the Libyan authorities to inform these organisations about the details of their programmes. Declarations, as always in these areas, will need to be detailed and comprehensive.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) from which country the BBC China set sail with the cargo of uranium enrichment equipment seized in Italian territorial waters in October 2003; and in which country the equipment was made; [147379]

(2) what happened to the cargo seized from the BBC China in Italy in October 2003. [147380]

Mr. Straw: I refer the right hon. Gentleman to the answer I gave him today (UIN146839 & 146840).

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what role Mr. Nelson Mandela played in the recent change in relations between Libya and the United States and the United Kingdom. [147410]

Mr. Straw: Mr. Mandela had no involvement in the recent discussions on Libya's weapons programme. These discussions only involved officials and experts from Libya, the United States and the United Kingdom.

Schengen Agreement

Mr. Spring: To ask the Secretary of State for Foreign and Commonwealth Affairs what parts of the Schengen acquis the United Kingdom has applied to participate in since 1997; and if he will make a statement. [145585]

Caroline Flint: I have been asked to reply.

In March 1999, the United Kingdom applied to participate in those parts of the Schengen acquis which relate to police and judicial co-operation, co-operation against drug trafficking and illegal immigration. The UK also applied to participate in the related provisions of the Schengen Information System. My right hon. Friend the then Home Secretary (Jack Straw) made a statement to Parliament on 12 March 1999 setting out this proposed partial participation in Schengen.

The United Kingdom's partial participation in Schengen was agreed by the JHA Council in its Decision of 29 May 2000 (Decision number 2000/365/EC). There has been no further application by the United Kingdom.

Sudan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Government of Sudan on its treatment of students who support Sudan Organisation Against Torture. [147408]

Mr. Mullin: Our embassy in Khartoum has raised the issue with the Government of Sudan who have acknowledged our concerns and have undertaken to look into the cases and report back to us.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Sudan on the recent arrests in Nyala, Sudan; and if he will make a statement. [147409]

Mr. Mullin: Our embassy in Khartoum has raised the issue with the Government of Sudan who have acknowledged our concerns and have undertaken to look into the cases and report back to us.

I discussed the human rights situation in Sudan generally, and in Darfur more specifically, with the Sudanese Ambassador on 2 December 2003. And my right hon. Friend the Secretary of State for International Development (Hilary Benn) raised our concerns with the President of Sudan on 10 December 2003.

INTERNATIONAL DEVELOPMENT

Andrew Smith

Norman Lamb: To ask the Secretary of State for International Development pursuant to his answer of 15 December 2003, *Official Report*, column 721W, what working arrangements there have been between Mr. Andrew Smith and his Department in Sierra Leone prior to the last 12 months. [146417]

Hilary Benn: There have been none.

Company Checks

Norman Lamb: To ask the Secretary of State for International Development what checks officials in his Department make on the identities of shareholders and partners in companies which are contracted to provide services for it overseas; and if he will make a statement. [146419]

Mr. Gareth Thomas: We routinely check the financial standing of companies through Companies House and Dun & Bradstreet reports. We do not normally check the identities of company shareholders or partners unless prompted to do so by our standard financial appraisal or other cause.

Developing Countries

Mr. Bercow: To ask the Secretary of State for International Development (1) what assessment he has made of the benefits achieved to date for developing countries from the World Trade Organisation agreement on Trade-Related Intellectual Property Rights and Public Health;. [146592]

(2) whether it is his policy to support compulsory licensing for export of all drugs for life-threatening diseases to least-developed countries. [146593]

Mr. Mike O'Brien: I have been asked to reply.

We welcome the Decision of the General Council of the WTO on 30 August 2003 which resolves the outstanding issue from the Doha Ministerial Declaration on the Trade-Related Property Rights Agreement (the TRIPS Agreement) and Public Health—the issue of how countries with insufficient or no manufacturing capacity in the pharmaceutical sector can make effective use of the compulsory licensing provisions within the WTO TRIPS Agreement.

The Decision effectively extends to countries with minimal or no domestic manufacturing capacity the existing flexibility within the TRIPS Agreement to issue compulsory licenses by allowing other countries to produce and export to them. The original TRIPS Agreement allowed for compulsory licensing only where such licensing was primarily for domestic use.

We are currently considering with our European partners how best to implement the new Decision both at EU and at UK level. Beyond our own implementation, we will monitor the wider implementation of the Decision in due course in order to ensure that the Decision is implemented effectively and delivers the intended benefits to developing countries. However, it is too early to make a substantive assessment of the benefits achieved to date for developing countries from the new Decision.

In the context of implementing the new Decision, the Government has supported the principle that pharmaceutical companies in developed countries should be able to act as suppliers under the new arrangements—which would include the export of drugs for life-threatening diseases to least-developed countries—if they so choose.

HIPC Initiative

Mr. Bercow: To ask the Secretary of State for International Development which countries taking part in the Heavily Indebted Poor Countries Initiative have reached completion point within the timescale established at their decision point. [147391]

Mr. Gareth Thomas: When the enhanced Heavily Indebted Poor Countries (HIPC) Initiative was launched in 1999, the fixed three-year performance period of the original HIPC framework was replaced by a 'floating' Completion Point. This means that Completion Point is triggered by the successful implementation of a set of pre-defined reform measures, rather than a set period of time. The Decision Point documents for HIPC countries give a prediction of when a country is expected to meet the floating Completion Point triggers, but these time-scales are intended to be only rough estimates. Of the nine countries that have reached Completion Point, only two (Mauritania and Uganda) did so at the date that had been predicted. Two further countries (Tanzania and Mozambique) reached Completion Point within five months of the date predicted at Decision Point. The remaining five countries (Mali, Benin, Bolivia, Burkina Faso and Guyana) missed their predicted Completion Point date by at least a year. Delay in reaching Completion Point is mostly due to poor policy performance. It should be noted, however, that there has been no delay to delivery of relief, as countries cease to make payments on their debt from Decision Point.

Special and Differential Treatment

Mr. Bercow: To ask the Secretary of State for International Development what discussions he has had since 17 September 2003 with *(a)* the World Trade Organisation, *(b)* the European Commission and *(c)* the United States about the use of special and differential treatment. [146585]

Mr. Mike O'Brien: I have been asked to reply.

It is important that WTO rules more fully reflect different WTO Members' implementation capacities and stages of development. We are therefore disappointed at the lack of progress which has been made in addressing Special and Differential Treatment issues post-Doha.

We had hoped to see agreement in Cancun to at least an initial package of measures, however limited, which might then have opened the way to a wider dialogue on Special and Differential Treatment within the WTO, perhaps through the creation of an expert working group. In the event, no such package of measures

was agreed and no progress made on establishing a wider dialogue, through an expert working group or otherwise.

We will continue to press the case for appropriate Special and Differential Treatment within the WTO system with all relevant interlocutors.

Zimbabwe

Ms Keeble: To ask the Secretary of State for International Development what assessment has been made of the impact on health standards of the strike by doctors and nurses in Zimbabwe. [146756]

Mr. Gareth Thomas: Even before the doctors and nurses went on strike three months ago, the coverage and quality of health services in Zimbabwe were being compromised by severe shortages of skilled doctors, nurses, and other professional staff. Declining numbers due to AIDS mortality and migration has led to vacancy rates of 40 per cent. for nurses, 55 per cent. for doctors, and 90 per cent. for pharmacists. Those who remained saw their standard of living drastically eroded by inflation, which now stands at 700 per cent. per annum.

During the doctors' and nurses' strike the Ministry of Health and Child Welfare attempted to limit damage by deploying military medical personnel and Cuban doctors. The doctors' strike came to an end early this month when substantial increases in salaries and allowances were agreed.

The health impacts of the strike and the ongoing human resources crisis have not been quantified, but recent trends in health status in Zimbabwe are alarming. In less than 10 years, life expectancy at birth declined from 50 to less than 35 years, and mortality among children under five rose by more than 50 per cent. HIV prevalence is currently 25 per cent. among those aged 15–49 years. There are over 3000 AIDS-related deaths per week, and more than half a million children have been orphaned by AIDS.

Ms Keeble: To ask the Secretary of State for International Development what assessment has been made of the request by the UN Office for the Co-ordination of Humanitarian Affairs for non-food aid for Zimbabwe. [146757]

Mr. Gareth Thomas: The UN Office for the Co-ordination of Humanitarian Affairs (OCHA) recently released an update on the UN Consolidated Appeals Process in Southern Africa. DFID agrees with OCHA's assessment that while food shortages remain the most immediate humanitarian concern in Zimbabwe, other factors affecting and threatening the basic needs of the Zimbabwean people should not be underestimated or neglected. These include the crippling effect of HIV/AIDS on households and communities, the lack of agricultural inputs, and the rapid decline of basic social services such as health care and education.

DFID is committing approximately £35 million to Zimbabwe this financial year in support of both food and non-food initiatives through UN agencies and other channels. Approximately £28 million is going towards humanitarian relief programmes, including some support to subsistence farmers to enable them to plant food crops to feed themselves, and the provision of safe and clean water to vulnerable urban populations. Our other main programmes help to tackle the HIV/AIDS crisis, and support the health sector. No funding goes through the Government of Zimbabwe to ensure the funds are not abused.

NORTHERN IRELAND

Car Theft

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many cases involving the theft of *(a)* vehicles and *(b)* property from vehicles were reported during December 2003 in each of the Park and Ride car parks operated under the auspices of the Department of Regional Development in the Belfast area. [147044]

Mr. Spellar: I have asked the Chief Executive of Roads Service to write to the hon. Gentleman in response to this question. A copy of the letter will be placed in the Library.

Costello Report

David Burnside: To ask the Secretary of State for Northern Ireland when he will publish the Costello report on the future selection and transfer procedure between primary and secondary education in Northern Ireland. [147234]

Jane Kennedy: The Costello report deals with many complex issues and I am giving it careful consideration. I will make an announcement as soon as possible about the publication of the report and the shape of future transfer and post primary arrangements.

Dental Care

Lady Hermon: To ask the Secretary of State for Northern Ireland how many dental practices in each Northern Ireland health authority area have ceased providing general dental services in each year since 1997; and if he will make a statement. [147383]

Angela Smith: The information requested is not available. The Department will be developing a new strategy for primary care dentistry, taking account of the recent reviews of the Dental Workplace and the Community Dental Service, and an important part of any new system of delivery will be to ensure that patients are able to access health service dental care.

Motorsport Circuit

David Burnside: To ask the Secretary of State for Northern Ireland if he will make a statement on publicly funded support for a motorsport circuit for Northern Ireland. [R] [146647]

Angela Smith: Publicly funded support for a motorsport circuit for Northern Ireland must be considered in the context of the development of motorsports in Northern Ireland.

Responsibility for the development of motorsports in Northern Ireland rests with the relevant governing bodies as represented by the 2&4 Wheel Motorsport Steering Group Ltd. This Group is currently engaged in

an 'Expressions of Interest' exercise in relation to the development of motorsports facilities, including the possibility of a regional motorsports facility. It would be premature to comment on funding implications in advance of the completion of this exercise.

CABINET OFFICE

Departmental Relocation

Ms Walley: To ask the Minister for the Cabinet Office (1) what assessment his Department has made of the benefits of relocation of staff to North Staffordshire: and if he will make a statement; [146868]

(2) what assessment his Office has made of the effect of possible relocation of staff in his Office to North Staffordshire on *(a)* job creation, *(b)* sustainable development, *(c)* the local economy and *(d)* tackling regional economic disparities; and if he will make a statement; [146897]

(3) what plans he has to establish procedures for assessing the impact of possible re-location of staff in the Office to the regions; and if he will make a statement; [146928]

(4) what assessment he has made of the effect of proposals to relocate Government jobs on the Government's ability to meet *(a)* their policy objectives and *(b)* departmental public service agreements. [146987]

Mr. Alexander: I refer my hon. Friend the Member for Stoke-on-Trent, North to the answer that the Chief Secretary to the Treasury gave on 12 January 2004, *Official Report*, column 516W.

Illegal Drugs

Paul Flynn: To ask the Minister for the Cabinet Office whether his Strategy Unit has produced reports in the last two years on a strategy for reducing harm resulting from the use of illegal drugs. [146752]

Mr. Alexander: The Strategy Unit has been working closely with the Home Office and other key Departments in undertaking a study on high-harm-causing drugs.

The study is a review of the impact of interventions on the drug supply chain from international production to distribution within the UK.

The study will report privately to the Prime Minister and the Home Secretary.

HOUSE OF COMMONS COMMISSION

House Tours

38. **Judy Mallaber:** To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission what plans he has to improve access for tours of the House by constituents. [147113]

Sir Archy Kirkwood: A detailed report on the first year of operations since the introduction of the Central Tours Office and the new sitting hours in January last year is being prepared for the Administration Committee. The Committee will consider the report, taking into account views expressed by Members, and will then advise the Commission.

SCOTLAND

Oil and Gas Industry

6. **Mr. Doran:** To ask the Secretary of State for Scotland if he will make a statement on the impact of the North Sea oil and gas industry on the Scottish economy. [146396]

Mr. Darling: The Government recognise the continuing vital role of the North Sea oil and gas industry for the Scottish economy and to the UK as a whole in terms of jobs, investment and its contribution to the national income.

Cannabis

7. **Mr. Tynan:** To ask the Secretary of State for Scotland what recent discussions he has had with the Scottish Executive regarding the reclassification of cannabis. [146397]

Mrs. McGuire: The legislation governing the classification of drugs is reserved to the UK Government and is the responsibility of my right hon. Friend the Home Secretary. The Home Office is working closely with the Scottish Executive to ensure a coordinated approach to the reclassification of cannabis, which will take effect from 29 January.

Elections

8. **Ann Winterton:** To ask the Secretary of State for Scotland if he will make a statement on the findings of the Electoral Commission in its report on elections in Scotland. [146398]

Mrs. McGuire: I met, in November, the Chairman of the Electoral Commission who briefed me on the official report on last year's Scottish Parliament and local government elections. I very much welcome this report. My right hon. Friend the Secretary of State, will consider very carefully all of the recommendations made by the Commission.

Pensioners (Means-tested Benefits)

9. **Angela Watkinson:** To ask the Secretary of State for Scotland how many pensioner households in Scotland are in receipt of means-tested benefits. [146399]

Mr. Darling: The latest figure indicates that 320,000 pensioners are receiving income-related benefits in Scotland.

Mr. Rosindell: To ask the Secretary of State for Scotland how many pensioner households in Scotland are in receipt of means-tested benefits. [147711]

Mrs. McGuire: The latest figure indicates that 320,000 pensioners in Scotland are receiving income-related benefits.

Fisheries Council

10. **Sir Archy Kirkwood:** To ask the Secretary of State for Scotland if he will make a statement on the outcome of last month's EU Fisheries Council and its consequences for the North Sea fleet in Scotland. [146400]

Mrs. McGuire: I refer the hon. Member to the answer given by my hon. Friend the Parliamentary Under-Secretary of State, Environment, Food and Rural Affairs, to his question on 8 January. He may also like to refer to the record of a statement in the Scottish Parliament made by Mr. Ross Finnie MSP on 7 January.

Civil Service Jobs (Dispersal)

11. **Mr. MacDonald:** To ask the Secretary of State for Scotland what recent steps the Government has taken to promote the dispersal of civil service jobs from central London to Scotland. [146401]

Mr. Darling: I am determined that Scotland will continue to get its fair share of posts created by UK Departments or dispersed from London, and I have encouraged Cabinet colleagues to consider what Scotland has to offer when they are reviewing relocation options.

Defence Establishments

12. **Mr. Peter Atkinson:** To ask the Secretary of State for Scotland what assessment he has made of the contribution of defence establishments in Scotland to the economy of Scotland. [146402]

Mrs. McGuire: While my right hon. Friend and I are well aware that defence establishments make a significant contribution to the Scottish economy, such assessments are a matter for the Secretary of State for Defence and the Scottish Executive.

Type 45 Destroyers

13. **John Robertson:** To ask the Secretary of State for Scotland what representations he has *(a)* received from stakeholders in Scotland and *(b)* made to the Ministry of Defence in connection with the orders for Type 45 destroyers. [146403]

Mr. Darling: I have neither received nor made any specific representations in connection with the Type 45 destroyer programme.

Defence White Paper

14. **Sir Teddy Taylor:** To ask the Secretary of State for Scotland what recent meetings he has had with the Scottish Executive on the economic impact on Scotland of the Defence White Paper. [146404]

Mr. Darling: I regularly meet Ministers in the Scottish Executive to discuss a range of issues, including the Scottish economy.

Innovation and Enterprise

15. **Mr. Luke:** To ask the Secretary of State for Scotland if he will make a statement on innovation and enterprise in Scotland. [146405]

Mrs. McGuire: Innovation and enterprise are at the heart of productivity growth and social gain. Scotland has gained an international reputation as a centre of innovation and expertise in life sciences and other technologies.

The Chancellor's recent pre-Budget report announced a number of measures, which build on existing programmes to promote innovation and enterprise in Scotland and across the UK. These include a widening of the eligibility for research and development tax credits, reforms to reduce the regulatory burden on enterprise and measures to overcome barriers facing small business when raising finance.

Art Acquisition

Norman Baker: To ask the Secretary of State for Scotland how much his Department has spent on the acquisition of works of art in each year since 1997, broken down by amounts spent on *(a)* paintings and *(b)* sculpture; what the single most expensive piece of art purchased by his Department since 1997 was; how much it cost; and what the total revenue raised by his Department through sales of its works of art has been since 1997. [142362]

Mrs. McGuire: The Scotland Office was established on 1 July 1999.

Since that date, the office has spent £3,055 on works of art. The most expensive item cost £720. No works of sculpture have been acquired and no departmental-owned works of art have been sold during this period.

Departmental Identity Cards

Mr. Webb: To ask the Secretary of State for Scotland what assessment he has made of the implications of the introduction of compulsory identity cards for his Department. [144557]

Mrs. McGuire: I do not consider that the introduction of a national identity card scheme will have any particular implications for the Scotland Office. Decisions on the use of identity cards to access devolved services in Scotland will be a matter for the Scottish Executive.

Give as You Earn Scheme

John Barrett: To ask the Secretary of State for Scotland how many and what percentage of staff in his Department contribute to a charity through the Give as You Earn scheme; how much money is donated to charity per month by staff in his Department through the scheme; and what steps he is taking to encourage greater participation in the scheme by staff in his Department. [143901]

Mrs. McGuire: A small number of staff in the Scotland Office currently contribute just over £200 per month to charities through the Give As You Earn scheme. Further details cannot be provided so as to protect the privacy of the individuals concerned.

Information about the Give As You Earn scheme is available on the departmental intranet site and periodic reminders are issued about the facility. Staff may, of course, make donations to charities by other means.

HOME DEPARTMENT

Airwave Police Radio System

Bob Russell: To ask the Secretary of State for the Home Department what representations he has received from *(a)* the Essex Police Authority and *(b)* others on funding by the Home Office for the Airwave radio system; and what changes have been made in the level of funding to be made available for the system in Essex. [146626]

Ms Blears *[holding answer 8 January 2004]:* Essex Police Authority and several other Forces have written about funding of their 2004–05 costs for optional services over and above the basic service. The Home Office is currently establishing the funding needs for each force and will inform Essex Police Authority of changes to its settlement in the near future.

Arson

Norman Lamb: To ask the Secretary of State for the Home Department how many instances of arson there have been in England and Wales in each of the last five years. [146421]

Ms Blears: The available information is given in the table.

Number of offences of arson recorded by the police in England and Wales

	Number
1998–99[1]	47,273
1999–2000	53,794
2000–01	52,818
2001–02[2]	60,470
2002–03[2]	53,200

[1] There was a change of counting rules for recorded crime on 1 April 1998, which had the effect of increasing the number of crimes counted. Numbers of offences for years before and after this date are therefore not directly comparable.
[2] The National Crime Recording Standard (NCRS) was introduced across England and Wales in April 2002. Some police forces adopted the standard prior to this date. Broadly, the NCRS had the effect of increasing the number of crimes recorded by the police. Therefore, following the introduction of the standard numbers of recorded crimes are not comparable with previous years.

Ball Bearing Guns

Mr. David Atkinson: To ask the Secretary of State for the Home Department what plans he has to introduce measures to deal with the use of ball bearing guns in public; and if he will make a statement. [146764]

Caroline Flint: Under the provisions of the Anti-Social Behaviour Act 2003 it will be an offence to have an imitation firearm in a public place without reasonable excuse. We expect this provision to come into force on 20 January. The issue of controls on imitation firearms will be dealt with in the review of firearms legislation which I intend to launch shortly.

Boris Berezovsky

Dr. Julian Lewis: To ask the Secretary of State for the Home Department if he will make a statement on the outcome of police investigations into the claims made during the hearing of the extradition case against Boris Berezovsky that an assassin had been sent from Russia to attack him. [146730]

Ms Blears: The Commissioner of Police of the Metropolis informs me that the Metropolitan Police Service was made aware of an alleged threat to Boris Berezovsky. Inquiries made were unable to either substantiate this information or find evidence of any criminal offences having been committed. Investigations into this matter have been concluded.

Community Support Officers

Tom Brake: To ask the Secretary of State for the Home Department how many community support officers will be in post in the London borough of Sutton by the end of March 2004. [146000]

Ms Blears: The allocation of Community Support Officers (CSOs) within the Metropolitan Police Service is a matter for the Commissioner of Police of the Metropolis.

The Commissioner has informed me that he plans to deploy 17 CSOs in Sutton by the end of March 2004.

Crime Reduction Initiatives

Dr. Kumar: To ask the Secretary of State for the Home Department what funding has been made available to local communities to support interventions that *(a)* disrupt local drug markets by tackling both the supply and demand, *(b)* tackle drug-related crime and *(c)* address associated anti-social behaviour in (i) Middlesbrough South and Cleveland, East (ii) the North East and (iii) England. [144753]

Caroline Flint: In December 2002, the Government announced in the Updated Drug Strategy substantial direct annual spending to tackle drug misuse. Details are set out in the following table.

£ million

	2003–04	*2004–05*	*2005–06*
Protecting young people	149	155	163
Reducing supply	380	380	380
Safeguarding communities[1]	212	297	367
Drug treatment[2]	503	512	573
Total	1,244	1,344	1,483

[1] Includes expenditure strengthening delivery.
[2] Includes mainstream spending, prison treatment and pooled budgets.

Regional breakdowns of financial allocations to local communities are not available in the form requested. However the table shows funding streams allocated directly to the Drug Action Teams in Middlesbrough, and in Redcar and Cleveland.

Regional funding 2003–04

£

	Middlesbrough allocation	*Redcar and Cleveland allocation*
DAT Development Funding	35,000	34,000
Pooled Treatment Budget	1,113,000	765,000
Throughcare and Aftercare	133,000	35,000
Capacity Building Funding	350,000	—

In addition to this, national funding provided to, for example, the Police, Probation and Prison Services, is used to tackle the drug-related issues in question.

A breakdown of direct allocations by Crime and Disorder Reduction Partnerships against drug-related anti-social behaviour is not available.

Department Policies

Ms Buck: To ask the Secretary of State for the Home Department if he will make a statement on the impact of his Department's policies on the constituency of Regent's Park and Kensington North since 1997. [145422]

Ms Blears: Most of the policies initiated by the Home Office since 1997 have had an impact on the Regent's Park and Kensington North constituency as on other parts of the country. Our policies in the areas of crime reduction, anti-social behaviour and policing are providing direct benefits to the people of Regent's Park and Kensington North.

It is not possible to give details back to 1997, but policies and initiatives in recent years in the Crime and Disorder Reduction Partnership (CDRP) areas of Kensington and Chelsea and Westminster have included:

Crime Reduction Initiatives

Initiatives that have been funded in Kensington and Chelsea and City of Westminster for crime reduction purposes (total amount of funding awarded).

Name of initiative	*Year*	*City of Westminster (£)*	*Kensington and Chelsea (£)*
CCTV—Round 1	2000–03	1,205,000	117,000
CCTV—Round 2	2001–03	65,738	281,000
Reducing burglary initiative	2002–03	—	59,582
Communities against drugs	2001–02	277,800	199,400
	2002–03	956,047	199,400
Safer communities initiative	2002–03	162,581	96,144
Partnership development fund (PDF)	2001–02	—	12,500
Small retailers in deprived areas (SRDA)	2003–04	21,023	21,023
Building safer communities fund (BSC)	2003–04	455,792	304,805
Basic command unit fund (BCU)	2003–04	433,000	232,000

Interventions funded by crime reduction allocations included:

Westminster: CCTV cameras and a mobile CCTV system, an initiative to tackle drug related crime from a health, community and environmental angle, street wardens and action against drugs.

Kensington and Chelsea: CCTV in North Kensington crime hot spots and purchase of a mobile CCTV van, tackling vandalism and anti-social behaviour in the Delgarno Neighbourhood, a hardening and repair of burgled properties initiative, action against drugs aimed at young people, community outreach on domestic violence and youth diversion programmes.

Statistics published on the Metropolitan police website show a fall in crime over the past year.

Street Crime

The Metropolitan police service has been part of the street crime initiative since its launch in March 2002. Westminster is one of the priority London street crime boroughs. There were 1,752 robberies in Westminster during 2002–03, a reduction of 36.6 per cent. on 2001–02. In Kensington and Chelsea there were 673 robberies in 2002–03, a reduction of 43.4 per cent. on 2001–02. Overall robbery reduced in London by 21 per cent. comparing 2002–03 with 2001–02.

Positive Action for Young People (PAYP)

Central London Connexions was launched in June 2002, following a pilot period. Connexions has provided considerable support to help young people in the Regent's Park and Kensington North area to participate and achieve in education, employment and training in partnership with youth services, schools, colleges and other providers. Personal advisers (PAs) are placed in many voluntary and statutory youth clubs providing support to young people including music, art and sports projects, and through PAs in detached youth work teams.

PAYP programmes have been particularly successful on Regent's Park and Delgarno estates.

From April to September 2003, across the boroughs of Camden, Kensington and Chelsea and Westminster, 11,341 interventions took place with young people through Connexions support to approximately 6,000 young people. An additional 7,184 young people took part in PAYP activities in the area.

Anti-Social Behaviour

Westminster: The City of Westminster was granted £25,000 in 2002–03 for a designated controlled drinking areas scheme.

Kensington and Chelsea: In 2003–04, funding of £22,414 has been allocated from the Anti-Social Behaviour Unit to enable the CDRP to commence recruitment of an anti-social behaviour (ASB) specialist.

Remaining funds will be used to contribute towards the development of a web-based anti-social behaviour case tracking tool.

Policing

Government grant (excluding targeted initiatives) for the Metropolitan police force for 2003–04 is £1,764.05 million, an increase of 5.2 per cent. or £87.73 million over 2002–03.

On top of this, the Metropolitan police will benefit from a number of targeted initiatives, set out in the table:

Metropolitan police funding— selected specific grants

£ million

	2001–02	*2002–03*	*2003–04*	*Total*
Crime fighting fund	43.05	65.89	70.46	179.4
Community support officers	—	8	15	23
Airwave	—	45.69	15.02	60.71
Street crime	—	14.20	8.01	22.21

In addition, the Metropolitan police will also receive in 2003–04:

£41.24 million in capital funding in 2003–04, plus up to £40 million capital funds for the C3i project.

The force has also benefited from extra funding for DNA work—around £9.3 million this year.

£0.20 million from the premises improvement fund.

£62.0 million funding for counter-terrorism—£15.0 million for community support officers and £47.0 million towards the wider counter-terrorism programme.

Between 1997 and 2003, the number of police officers in the Metropolitan police force increased from 26,677 to 28,845.

The introduction of community support officers (CSOs) in 2002 is helping to tackle crime and anti-social behaviour on the streets.

Regent's Park and Kensington North constituency is served by two Operational Command Units (OCUs). Borough of Camden OCU covers Regent's Park. It will have a total of 38 CSOs by the end of March 2004. The OCU of Kensington and Chelsea (of which Kensington North form only a part) will have a total of 42 CSOs by the end of March 2004.

The Royal Borough of Kensington and Chelsea's Community Safety Team has allocated an additional 10 CSOs for 2004–05 for the St. Charles Ward in North Kensington. Funding for this has come from the Neighbourhood Renewal Fund.

Drug Crime

Paul Flynn: To ask the Secretary of State for the Home Department what recent reports his Department has evaluated on methods to reduce drug crime. [146753]

Caroline Flint: As part of the Criminal Justice Interventions Programme, the Government keep the evidence on effective means of tackling drug related crime (both in the UK and abroad) under constant review.

The Home Office Research, Development and Statistics Directorate has, in the past, undertaken evaluations of initiatives designed to reduce drug related crime, and research reports relating to Drug Testing (and Drug Treatment and Testing Orders), Arrest Referral and prisoners' drug treatment have been published by the Department over the past two years.

Forensic Science Service

Laura Moffatt: To ask the Secretary of State for the Home Department what proportion of the Forensic Science Service is contracted out to private operators. [146537]

Ms Blears: The Forensic Science Service (FSS) does not contract out work undertaken in provision of forensic science services to the police service and law enforcement agencies to private operators. The FSS uses private operators solely for the supply of non-scientific support services unrelated to forensic sciences.

Mr. Best: To ask the Secretary of State for the Home Department where, and for how long, DNA samples are held by the Forensic Science Service. [146203]

Ms Blears: Retention periods depend on the purpose for which the sample was taken, and are as follows:

Crime scene samples on unsolved cases may be kept indefinitely, especially for the more serious cases. For crime scene samples on solved cases the usual retention period is seven years, but it may be up to 30 years for serious crimes in case of a possible miscarriage of justice.

Following amendment of Police and Criminal Evidence Act 1984 by the Criminal Justice and Police Act 2001 samples of suspects can now be held indefinitely.

Where individuals have volunteered to provide a sample for intelligence purposes these may also be retained indefinitely provided the individual has given their written consent for its retention.

In all cases samples are either stored by the Forensic Science Service (FSS) laboratory that dealt with the case or in the FSS central archive in Birmingham.

Gun Crime

David Davis: To ask the Secretary of State for the Home Department what proportion of gun crimes was drug-related in the last year for which figures are available. [146833]

Caroline Flint: Statistics on the proportion of gun crime which is drugs-related are not collected centrally.

Mr. Paice: To ask the Secretary of State for the Home Department how many people have been *(a)* cautioned and *(b)* prosecuted for possession of (i) unlicensed firearms and (ii) shotguns in each of the last five years; in how many instances in each case the offence was limited to possession and not connected with the weapon's use in other crimes; and how many cases related to failure to renew the appropriate certificate. [147397]

Caroline Flint *[holding answer 12 January 2004]:* The available information is given in the following table. The statistics collected centrally do not enable those offences limited to possession to be distinguished from those connected with the weapon's use in other offences. Nor is it known how many cases related to failure to renew the appropriate certificate.

Persons cautioned and those proceeded against for possession of unlicensed firearms, England and Wales

	Possession of unlicensed firearms		*Possession of unlicensed shotgun*	
	Persons cautioned	*Persons proceeded against*	*Persons cautioned*	*Persons proceeded against*
1998	157	350	243	199
1999	147	316	132	118
2000	149	[1]272	242	[1]109
2001	117	217	233	125
2002	94	254	153	112

[1] Excludes figures for Staffordshire.

Statistics for 2003 will be published in the autumn.

Identity Cards

Mr. Laws: To ask the Secretary of State for the Home Department what expenditure has been allocated for the *(a)* assessment and *(b)* introduction of identity cards in each year from 2003–04 to 2007–08; and if he will make a statement. [146009]

Fiona Mactaggart: In the current financial year, the Home Office budget for work on identity cards, which also includes work on shorter term measures to counter identity fraud, is £2.5 million.

Our current best estimates for the three year set-up costs for a scheme are £36 million, £60 million and £90 million. The timing of this expenditure will depend on Parliament's approval of legislation.

IT Contracts

Mr. Sayeed: To ask the Secretary of State for the Home Department if he will list information technology contracts in his Department with a value of above £20 million in each of the last 10 years; what the inception date for each system was; when it became fully functional; when it became fully debugged; and what the cost of over-runs has been. [146195]

Mr. Blunkett: I am unable to provide the hon. Member with a complete answer as central records are not held on the information sought, and to obtain the requested information in the time given would incur disproportionate cost.

I am, however, able to provide the following information on information technology contracts let within the last 10 years originally valued at over £20 million by the Home Office and its Agencies (Prison Service, Forensic Science Service and UK Passport Service):

Contract	*Inception date*	*Fully functional*
1. National Probation Service Information Systems Strategy (NPSIS): implementation of IT infrastructure and casement management applications. Expired.	1994	Infrastructure roll out substantially complete in 2001–2002.
2. NPSIS (National Probation Service Information Systems Strategy): implementation of IT infrastructure and case management applications.	October 2001	Infrastructure service handover December 2001, upgrade schedule for completion mid 2004.
3. Core Home Office infrastructure implementation and services (HOITS)?expired.	August 1994	November 1994
4. Sirius: successor to HOITS infrastructure services and applications (notably correspondence handling, enterprise resource planning (ERP) and electronic data records management (EDRMS).	October 2000	Infrastructure service handover February 2001, correspondence handling complete, ERP and EDRMS in progress.
5. Quantum: Prison Service infrastructure services and applications	February 2000	Infrastructure roll out completed mid 2003, application under redevelopment.
6. Casework Programme: Immigration Service infrastructure services and case management system.	April 1996	Infrastructure service operational. Main casement application failed and superseded.
7. PASS[1]: UK Passport service passport management service.	October 1998	End 1999
8. CRB[1]: Criminal Records Bureau, application management, records checking and disclosure certificate generation services.	August 2000	High level disclosure service started March 2002, low level disclosures pending.

[1] Business service contracts underpinned by IT systems

M6 Toll Road

Mr. Jenkins: To ask the Secretary of State for the Home Department who polices the M6 Toll Road; and who is meeting the cost. [146992]

Caroline Flint: The M6 Toll Road is policed by the Central Motorway police group (CMPG), which comprises officers from Staffordshire police, Warwickshire police, West Midlands police, and the West Mercia Constabulary. The cost is met from normal police funds.

Merseyside Crime

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what issues have been specified by Merseyside police as affecting the incidence of *(a)* domestic burglary, *(b)* vehicle crime and *(c)* robbery in their local plan. [146266]

Ms Blears: Merseyside Police's Annual Policing Plan 2003–04 sets out how the force will enhance the use of the National Intelligence Model to target criminals and their networks whose operations have a direct impact on volume crime (burglary, vehicle crime and violent crime, including robbery). Lessons from the street crime initiative have been applied to tackling burglary and vehicle crime. Increased use of police powers to stop and search and targeting known offenders have had a positive impact on both burglary and vehicle crime on Merseyside. In addition, the implementation of new burglary packs issued to officers attending reported burglaries and extra work undertaken by crime scene investigators have contributed to improved performance. Feedback from user satisfaction surveys has also enabled the force to tailor its response to communities' needs.

Merseyside Crime Initiative Unit

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on the role and work of the Merseyside Street Crime Initiative Unit. [146239]

Ms Blears: Robbery in Merseyside reduced by 5 per cent. in 2002–03 compared to 2001–02. This has been achieved by effective partnership working across all agencies. Overall strategic management of street crime is by the Multi Agency Group (MAG). At an operational level, this is supported by Joint Agency Groups (JAGs) and the Robbery Reduction Team. In the Robbery Reduction Team police and Crown Prosecution Service are co-located and the Premium Service provided.

National Centre for Policing Excellence

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on the work of the National Centre for Policing Excellence. [146262]

Ms Blears: The National Centre for Policing Excellence (NCPE) was launched in April 2003 to increase the professional capacity of the police service. Its functions include delivering training and advice on specialist law enforcement and technical and analytical support in major crime. It also has a major role in formulating national good practice in operational policing and issuing Codes of Practice and Guidance.

In 2002–03, it produced a knowledge map on street robbery which has been available to all forces on the Criminal Justice Extranet. A Code of Practice on the Police Use of Firearms and less lethal weapons was issued at the beginning of December 2003.

Police

Mr. Hancock: To ask the Secretary of State for the Home Department if he will bring into force section 25 of the Police Reform Act 2002 handling of complaints. [146172]

Ms Blears: Section 25 of the Police Reform Act has already been enacted and was brought into force (except subsection (4) on 1 October 2002. The intention is that the Secretary of State will be making regulations which will come into force on 1 April 2004.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department by what means police *(a)* forces and *(b)* authorities seek to develop a clear understanding of the communities they serve. [146263]

Ms Blears: Under section 96 of the Police Act 1996, police authorities have a statutory obligation to consult with their communities. However, recent research conducted by the Home Office Research and Statistics Directorate concluded that there was scope to enhance engagement with communities.

Provision of a citizen focused policing service is a key priority within the National Policing Plan, published in November 2003, and is fundamental to the on-going process and direction of police reform. Building a police service that is responsive to the diverse needs of the communities it serves requires police forces to develop a clear understanding of those communities.

We have invested £1 million in a joint action research project between the Home Office and the Association of Police Authorities to help police authorities and forces engage more effectively with their local communities.

A major consultation exercise on police reform was launched on 4 November 2003 with the publication of "Policing: Building Safer Communities Together". The broad vision behind the paper is to improve community engagement in policing. It is underpinned by the desire to see local communities play a greater role in policing/community safety decisions and solutions in their neighbourhoods.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on the police reform programme launched in 2001. [146271]

Ms Blears: The White Paper, Policing a New Century, published in December 2001, set out the Government's intentions for the future of policing in England and Wales. Good progress has been made in implementing the Police Reform Programme. We now have a clear and understood legislative structure in place under the Police Reform Act 2002 to ensure best practice is embedded in the Service through Regulations, Codes of Practice and Guidance, and, linked to that, the ability to direct forces where their performance is consistently poor.

There is now a more clear focus on performance management within the Policing Performance Assessment Framework which is being developed, and the Police Standards Unit is working with forces to improve performance and identify good practice. The National Centre for Policing Excellence was established in April 2003.

As well as record numbers of police officers and police staff, we now have more than 1,900 community support officers (CSO). We have provided the necessary powers for CSOs and police staff to facilitate greater flexibility for forces in the use of resources and to release officers for front line duties. A major pay and conditions package has been implemented to provide a fairer, more flexible and modernised system of pay and rewards.

The second National Policing Plan was published on 4 November 2003 and sets out the Home Secretary's key policing priorities as well as a strategic framework for local policing plans. The first police science and technology strategy, published in January 2003 provides an overarching vision of how we will address not only our immediate policing needs, but also the future capability. We have invested in the use of new technology. DNA matching and Automatic Numberplate Recognition are important tools to achieve greater effectiveness. The National Intelligence Model is becoming embedded in forces, with the aim that all forces are compliant with the common minimum standards by April 2004.

Work is under way to develop leadership and management capacity at all levels in the police service. We are working towards creating the new Police Leadership Centre, which will bring together all the strands of work on police leadership.

Building on these and other successes, we wish to move the reform programme further. On 4 November 2003 we published a consultation document, "Policing: Building Safer Communities Together", in which we set out the broad direction for future reform, aimed particularly at:

- Increasing community engagement.
- Providing greater accountability.
- Improving operational effectiveness in tackling crime, including serious and organised.
- Further modernising the police service.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what steps are being taken to close the gap between the best and worst performing police forces. [146274]

Ms Blears: The Home Office's Public Service Agreements commit it to improving the performance of all police forces, including significantly reducing the gap between the best and worst performing forces. The National Policing Plan 2004–07 set out the performance gap target which has been agreed. It is a fixed target requiring each force's performance in reducing crime

and investigating crime to be no more than 10 per cent. below that of the average performance of its Most Similar Force comparators by 2005–06.

All forces are aware of the improvements in performance that are required, and to help police forces and authorities improve police performance and gauge progress, performance data is now available on-line to allow them to access regular updates on performance.

The Police Standards Unit (PSU) is currently working with forces who have been identified as having specific performance problems to help deliver improvements.

Programmes of work are developed in consultation with the force and in liaison with Her Majesty's Inspectorate of Constabulary (HMIC), and are designed to provide practical help to enhance organisational capacity and capability.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how the proportion of time spent on frontline duty by the police has changed in the last five years. [146275]

Ms Blears: This information is not available. However, for the first time, all forces will be contributing data towards the calculation of the amount of time spent by police officers on front line duties for the financial year 2003–04. The results of this will be available later this year.

As indicated in paragraph 2.6 of the National Policing Plan 2004–07, a preliminary assessment of 35 forces outside London for 2002–03 gave an average figure of 61 per cent. This is not a baseline for future years. A number of initiatives are in train including, work force modernisation and reducing bureaucracy that will impact on the amount of time spent on front line policing and the Government look to the police service to ensure the proportion rises.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment has been made of the effect of the work of the steering group reducing bureaucracy in the police force. [146278]

Ms Blears: I receive regular reports on the work of the Steering Group, co-chaired by the Association of Chief Police Officers (ACPO) and the Home Office, which was set up to oversee the work on reducing bureaucracy in the police service. Among the achievements since the Group first met in October 2002, the national roll out of the fixed penalty notice scheme is scheduled to be completed by April 2004; there are currently 19 performance indicators compared with 51 in 1997; over 4,600 forms have been made obsolete in 21 forces; approximately 20 forces are using mobile telephones and handheld computers to cut down on the time officers spend returning to the station to fill in forms; and all 43 forces in England and Wales now have the capacity to undertake video identity parades to speed up the identification of suspects. I am looking to the steering group to make further substantial impact in four key areas in particular over the conning months. These are information technology; work force modernisation; efficiency; and frontline policing activity.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what steps are being taken to make the police force an attractive career for ethnic minorities. [146279]

Ms Blears: The Government are committed to achieving a culturally diverse work force in the police service that is representative of the local communities it serves. We are engaged with the leadership of the police service in addressing diversity and promoting race equality in the areas of recruitment, training and development and in the conduct of the officers and staff. We support fully the Commission for Racial Equality's investigation of these issues.

The National Recruitment Standards programme includes assessment processes which test candidates' attitudes towards race and diversity vigorously through interviews, role play and written assessment. This should exclude anyone with racist tendencies or those who do not respect differences and diversity. Those who do not score sufficiently highly in respect for race and diversity are not offered a job, irrespective of how well they do in the rest of the selection process. These processes are already in place in a number of forces and will be implemented in the remainder of the service by summer 2004. We assess candidates for unacceptable attitudes in every exercise.

I shall further support this with a new action plan "Breaking Through" which is being launched later this month and which contains a series of actions and examples of promising practice to help forces improve the recruitment, retention and progression of minority ethnic staff.

A new round of the CouldYou Police recruitment campaign has just been launched aimed, in particular, at the recruitment of women and ethnic minorities. The campaign is supported by outreach work pilots in four forces aimed at increasing the interest of ethnic minority communities in the police service as a credible and rewarding career choice.

Fundamental changes to the way in which probationer constables are trained are under way. The focus will be on delivery of practice-based training within the local community rather than in residential police training centres. This new approach is already being piloted in several areas of the country. Improvements are also being made to police training generally to improve awareness of race and diversity issues and increase opportunities for community involvement. There will be rigorous assessment of standards.

There are procedures under the Police Act 1996 and the Police (Misconduct) Regulations 1999 to deal with conduct which falls below the required standard. These procedures can be invoked by way of a complaint from a member of the public or a report or allegation from any other person. This includes any complaint or allegation of racial discrimination or attitudes. The Police Reform Act 2002 introduces a new complaints system to come into force on 1 April 2004, under which serious racial discrimination is a category of a complaint that must be referred to the Independent Police Complaints Commission, which will decide how such a complaint will be dealt with.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what the targets are for increasing the number of female officers in the most senior ranks of the police force. [146280]

Ms Blears: There are no targets to increase the number of female officers in the most senior ranks of the Police Service. Proposals for the Policing Performance Assessment Framework (Annex C of the National Policing Plan 2004–07) include measures of overall strength, retention and promotion of female officers.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what research has been conducted on the attitude of the public towards the police, with particular reference to racism. [146273]

Ms Blears: The British Crime Survey and the Home Office Citizenship Survey both ask questions about people's attitudes towards the police and refer to racism. Both surveys establish the ethnic group of the respondents:

The most recent relevant results from the British Crime Survey can be found in: Crime in England and Wales 2001/2002: Supplementary Volume. Chapter 7. (Home Office Statistical Bulletin 01/03, Flood-Page and Matthews 2003).

The most recent relevant results from the Home Office Citizenship Survey can be found in: 2001 Home Office Citizenship Survey: people, families and communities. Chapters 2 and 3. (Home Office Research Study 270, Attwood et al 2003).

Other Home Office studies, drawing in the perceptions and experiences of the public, have focused on key issues within police-community relations. These include: The Views of the Public on Stops and Searches (Police Research Series paper 129, Stone and Pettigrew 2000);

Attitudes of People from Minority Ethnic Communities towards a Career in the Police Service(Police Research Series paper 136, Stone and Tuffin 2000); and

Public Perceptions of Police Accountability and Decision-making (Home Office On-line Report 38/03, Docking 2003).

The Home Office is also currently carrying out, or has commissioned, further research in this area. These on-going projects seek to: understand the impact of the Stephen Lawrence Inquiry on the police; review the impact of police community and race relations training; examine the police handling of racist incidents; and evaluate the phased implementation of the Lawrence recommendation 61 (the recording of police stops).

Mr. Oaten: To ask the Secretary of State for the Home Department what assessment he has made of links between an increase in the number of police officers and a reduction in crime. [143403]

Ms Blears: The number of police officers has increased by 7 per cent. from 127,158 in March 1997 to 136,386 in August 2003. Evidence from the British Crime Survey over a similar period (between 1997 and 2002–03) indicates that burglary has fallen by 39 per cent., vehicle crime by 31 per cent., violent crime by 24 per cent. while crime overall declined by 25 per cent.

The Government are committed to maximising the benefits of this increase. Working with the Service and others, a police reform agenda focused on community engagement, greater local accountability, operational effectiveness and workforce modernisation will produce further improvements.

Police Funding (Cumbria)

Dr. Jack Cunningham: To ask the Secretary of State for the Home Department what representations he has received from Cumbria Police Authority on the 2004–05 Provisional Grant Settlement; what reply he has sent; and if he will make a statement. [146946]

Ms Blears: We received representations from the Treasurer of Cumbria Police Authority on 22 December. The period of consultation on the provisional settlement closed on 9 January. All representations received will be carefully considered and will be taken into account.

I shall send my right hon. Friend a copy of my reply to Cumbria Police Authority as soon as it is available.

Police Funding (Wales)

Chris Ruane: To ask the Secretary of State for the Home Department if he will set out the budgets for each police force in Wales since 1979 adjusted for inflation figures. [143033]

Ms Blears: The available information is set out in the following table.

£000[1]

	Dyfed Powys	*Gwent*	*North Wales*	*South Wales*
1990–1[2, 3]	44,554	47,084	62,966	148,702
1991–92[2]	46,890	48,475	67,099	156,126
1992–93[2]	50,335	50,206	71,907	164,102
1993–94[2]	52,056	51,682	72,853	163,391
1994–95[2]	54,935	52,964	75,505	163,944
1995–96	55,188	59,346	78,755	183,311
1996–97	56,037	72,418	79,992	174,381
1997–98	56,075	72,474	80,044	174,500
1998–99	56,586	73,138	80,774	176,090
1999–2000	59,783	76,628	85,362	182,376
2000–01	62,261	80,309	88,625	188,903
2001–02	64,676	82,979	92,000	194,321
2002–03[4]	65,332	84,396	93,455	195,006
2003–04	69,335	89,520	101,850	195,650

[1] Budgets are shown in real terms using Treasury deflator as at 30 September 2003. 2002–03:100.
[2] Police Authorities in Wales, prior to 1995–96, were not precepting authorities and therefore did not have independent budgets. They received Home Office police grant and levied the rest of the income from their constituent counties. The figures from 1990–91 to 1994–95 represent net current expenditure by police authorities in Wales. Subsequent figures are for police authority budgets.
[3] Figures are not available for individual police authorities on a consistent basis prior to 1990–91.
[4] Budgets for 2002–03 are not directly comparable with 2001–02 owing to changes in funding arrangements for NCS/NCIS, which have been funded centrally rather than locally since 2002–03.
Source:
Welsh Assembly Government.

Recorded Crime

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department by what percentage recorded crime levels have changed in the past five years. [146270]

Ms Blears: Police recorded crime is affected by changes in recorded practice. Revisions to the Home Office counting rules in April 1998 and the introduction of the National Crime Recording Standard in April 2002, have resulted in substantially more crimes being recorded. This is because more categories of crime have

been introduced into the coverage of recorded crime, and the police are now recording a higher proportion of crimes reported to them.

When factoring out these changes in order to produce a fairer like-for-like comparison, total recorded crime remained broadly unchanged between 1997–98 and 2002–03.

Stoke Heath Young Offenders Institution

Dr. Vis: To ask the Secretary of State for the Home Department how many children received into Stoke Heath Young Offenders' Institution in the past year were on the Child Protection Register. [145093]

Paul Goggins: The Local Youth Offending Team is in every case where a child is received into a secure training facility from court required to confirm whether the child's name has been placed on the child protection register. This information assists in the creation of an individual sentence plan.

Figures are not held centrally or collated locally at Stoke Heath Young Offender Institution. Examination of the records of all the young people who have been received into that establishment over the past year could not be undertaken without disproportionate cost.

Terrorism Act

Ross Cranston: To ask the Secretary of State for the Home Department how many people have been arrested for terrorist offences under the Terrorism Act 2000 since 11 September 2001; and how many of them *(a)* have been charged, *(b)* have been released without charge, *(c)* have been bailed, *(d)* are still in custody, *(e)* were prosecuted in court under the Act, *(f)* were convicted under the Act and *(g)* were handed over to immigration officials. [145921]

Mr. Blunkett: Police records show that since 11 September 2001, 530 people have been arrested under the Terrorism Act 2000 and that 94 of those have been charged with offences under that Act resulting in five convictions to date.

54 people have been released directly into the custody of immigration services. A further 71 of those arrested under the Act have been charged under other legislation.

263 individuals were released without charge or further sanction. Information on any further action taken is not collated centrally and could be provided only at disproportionate cost.

Young Offenders (Education)

Dr. Vis: To ask the Secretary of State for the Home Department whether children held in segregation units in young offender institutions attend normal classes for education. [145094]

Paul Goggins: All children held in segregation units in young offender institutions are required to be given access to education. They will be given as much access to normal classes as is practicable, taking into account the reasons for their segregation and the risks in each case as well as the facilities and resources available locally.

TRANSPORT

Air Safety

Mr. Wilshire: To ask the Secretary of State for Transport (1) which airlines were subject during 2003 to safety assessment of foreign aircraft ramp checks by the Civil Aviation Authority acting on their own initiative rather than at the direction of his Department; [147558]

(2) if he will list the UK airports at which safety assessment of foreign aircraft ramp checks were carried out during 2003, indicating the number of aircraft checked at each airport; [147559]

(3) what criteria are used by his Department when deciding which foreign airlines and aircraft should be subject to safety assessment of foreign aircraft ramp checks; [147560]

(4) how many safety assessment of foreign aircraft ramp checks have been carried out at UK airports on behalf of his Department in each of the last five years. [147561]

Mr. McNulty: The Civil Aviation Authority carry out a programme of ramp inspections on the Department's behalf. We discuss that programme regularly with the Authority advising them of any information we have about potential safety concerns relating to particular aircraft, foreign airlines or the oversight provided by foreign regulatory authorities. The Authority organises visits to airports to maximise the number of inspections they can carry out, taking account of priorities as they arise; during such visits the Authority may inspect any aircraft which gives ground for concern. The Authority also makes specific visits for inspections of particular flights when requested to do so.

Inspections are carried out at the most appropriate airport, taking into account the routes operated by the airlines concerned. In 2003, inspections took place at the following airports:

Airport	*Number of safety inspections*
Birmingham	1
Bournemouth	1
Bristol	8
Cardiff	1
East Midlands	2
Edinburgh	1
Exeter	9
Filton	1
Glasgow	3
Liverpool	1
London City	12
London Gatwick	51
London Heathrow	76
London Luton	11
London Stansted	17

Airport	Number of safety inspections
Manchester	13
Mansion	2
Norwich	2
Prestwick	1

Note:
These figures include 10 inspections of corporate and privately operated aircraft.

I refer to my answer to the hon. Member of 8 January 2004, *Official Report*, column 499W, which lists those airlines which have had permits to operate to the UK refused or suspended. In the case of other airlines we have not had the need to suspend or restrict permits and therefore it would not be appropriate to publish their names.

The number of inspections carried out on aircraft operated by foreign airlines in the last five years is as follows:

	Number of Inspections
1999	103
2000	256
2001	221
2002	193
2003	203

Mr. Wilshire: To ask the Secretary of State for Transport (1) if he will list the foreign airlines that are not banned from UK airspace but are banned from airspace elsewhere in Europe, indicating *(a)* where, *(b)* when and *(c)* for what reason these bans operated; and whether any of these airlines have operated in UK airspace while banned elsewhere; [147567]

(2) pursuant to his answers of 8 January 2004, *Official Report*, columns 429–30W, on British airspace, whether the standards that have to be met for the issue of a permit to operate a foreign aircraft in UK airspace are above the minimum required by the International Civil Aviation Organisation; [147568]

(3) on British airspace, if he will list the foreign airlines that would be banned from UK airspace if they were to apply for a permit; [147570]

(4) on British airspace, which foreign airlines would have had their applications for a permit turned down had they made one since January 2000. [147571]

Mr. McNulty: I refer the hon. Member to my answer of 12 January 2004. *Official Report*, columns 545–46W, given to the hon. Member for Caithness, Sutherland and Easter Ross (John Thurso). This explains the basis on which international civil aviation is governed and the conditions on which UK permits are issued to foreign airlines. That answer also explains why we are not able to give detailed information on permit action taken elsewhere in Europe.

Each application for a permit is considered on its merits and we could not prejudge our reaction to applications that foreign airlines might make in the future. There are a variety of reasons why permits have been refused, suspended or revoked and a range of permit restrictions possible, as demonstrated in the list included in the answer I gave the hon. Member on 8 January 2004, *Official Report*, column 429W. The decisions not to allow services under the safety supervision of Equatorial Guinea, Gambia, Liberia and Tajikistan to operate to the UK were taken on the basis of information received about the ability of the aeronautical authorities of those countries to oversee the safety of their airlines and/or aircraft on their register. Those concerns continue, but we would be prepared to reconsider our position in the light of any additional information.

In the case of Gambia, we have issued a permit to Gambian International Airlines but only on the basis that the airline contracts with an acceptable non-Gambian airline to provide the aircraft and crew and to operate the flights on its behalf (called wet-leasing). In this case it has wet-leased an aircraft from Futura of Spain, and the Spanish authorities retain responsibility for the safety and operation of the aircraft.

Mr. Wilshire: To ask the Secretary of State for Transport if he will list the foreign airlines whose aircraft have been subject to one or more safety assessment of foreign aircraft ramp checks during each of the past five years indicating how many aircraft of each airline were tested. [147569]

Mr. McNulty: The Civil Aviation Authority carry out a programme of ramp inspections on the Department's behalf. We discuss that programme regularly with the Authority advising them of any information we have about potential safety concerns relating to particular aircraft, foreign airlines or the oversight provided by foreign regulatory authorities. The Authority organises visits to airports to maximise the number of inspections they can carry out, taking account of priorities as they arise; during such visits the Authority may inspect any aircraft which gives ground for concern. The Authority also makes specific visits for inspections of particular flights when requested to do so.

Inspections are carried out at the most appropriate airport, taking into account the routes operated by the airlines concerned. In 2003, inspections took place at the following airports:

Airport	Number of safety inspections
Birmingham	1
Bournemouth	1
Bristol	8
Cardiff	1
East Midlands	2
Edinburgh	1
Exeter	9
Filton	1
Glasgow	3
Liverpool	1
London City	12
London Gatwick	51
London Heathrow	76
London Luton	11
London Stansted	17
Manchester	13
Mansion	2
Norwich	2
Prestwick	1

These figures include 10 inspections of corporate and privately operated aircraft.

I refer to my answer to the hon. Member of 8 January 2004, *Official Report*, column 499W, which lists those airlines which have had permits to operate to the UK refused or suspended. In the case of other airlines we have not had the need to suspend or restrict permits and therefore it would not be appropriate to publish their names.

The number of inspections carried out on aircraft operated by foreign airlines in the last five years is as follows:

	Number of inspections
1999	103
2000	256
2001	221
2002	193
2003	203

Buses

Joyce Quin: To ask the Secretary of State for Transport if he will list, at constant prices, the spending on public transport support for buses for each year since 1985 in *(a)* England, *(b)* Scotland, *(c)* Wales, *(d)* English metropolitan areas outside London, *(e)* shire counties and *(f)* London. [147420]

Mr. McNulty: The information, in constant 2002–03 prices, is shown in the following table.

£ million

	England	*Scotland*	*Wales*	*English Met areas*	*English shire counties*	*London*
1985–86	841	50	22	406	170	264
1986–87	677	58	17	329	143	205
1987–88	526	38	14	218	122	187
1988–89	498	34	12	182	127	189
1989–90	408	24	13	152	128	128
1990–91	423	17	13	139	128	155
1991–92	486	26	13	146	131	209

1993–94	307	27	11	126	107	74
1994–95	297	27	10	123	107	67
1995–96	259	30	11	119	104	35
1996–97	233	31	10	123	97	14
1997–98	209	26	11	111	97	1
1998–99	255	25	12	121	121	13
1999–2000	263	27	14	116	136	11
2000–01	353	29	16	125	142	87
2001–02	458	33	17	123	145	190
2002–03[1]	618	32	17	121	142	355

[1] Provisional.

Joyce Quin: To ask the Secretary of State for Transport what information he has collated on the change in the number of passenger journeys by bus for each year since 1985 in each English metropolitan area outside London. [147421]

Mr. McNulty: The information is shown in the following table.

Million

	Tyne and Wear	*West Yorkshire*	*South Yorkshire*	*Merseyside*	*Greater Manchester*	*West Midlands*
1985–86	287	291	341	305	357	487
1986–87	257	304	268	258	267	456
1987–88	243	297	237	219	310	426
1988–89	247	296	225	207	297	422
1989–90	244	294	192	211	291	417
1990–91	230	263	191	191	270	403
1991–92	220	240	177	191	260	389
1992–93	189	231	176	178	252	356
1993–94	182	232	166	166	236	355
1994–95	170	222	163	168	226	381
1995–96	168	219	158	165	224	358
1996–97	165	207	150	163	212	349
1997–98	161	196	144	151	211	368
1998–99	154	186	135	150	217	353
1999–2000	151	180	130	149	199	353
2000–01	146	189	131	142	204	353
2001–02	141	181	128	142	205	352
2002–03[1]	138	181	128	144	209	350

[1] Provisional

Motorways

Mr. Chope: To ask the Secretary of State for Transport if he will list in respect of each motorway the number of occasions in each of the last five years when a carriageway has been closed for more than two hours as a result of *(a)* an accident and *(b)* an incident other than an accident. [145529]

Mr. Jamieson *[holding answer 5 January 2004]:* The information requested has been placed in the Libraries of the House.

Commercial Vehicle Parking

Mr. Hancock: To ask the Secretary of State for Transport what research he has *(a)* commissioned and *(b)* evaluated on the availability of overnight parking facilities for commercial vehicles in each region of the UK. [147330]

Mr. Jamieson: The Road Traffic Regulation Act 1984 confers powers on local authorities to make provision for on and off street parking facilities, including facilities for commercial vehicles if these are considered necessary. We have not commissioned any research to

evaluate the availability of overnight parking facilities for commercial vehicles. However, the Highways Agency is engaged in a pilot study in conjunction with the road haulage industry aimed at providing dedicated rest areas for lorry drivers away from the motorway network.

Departmental Relocation

Ms Walley: To ask the Secretary of State for Transport (1) what assessment his Department has made of the benefits of relocation of staff to North Staffordshire; and if he will make a statement; [146862]

(2) what assessment he has made of the effect of proposals to relocate Government jobs on the Department's ability to meet *(a)* departmental policy objectives and *(b)* departmental public service agreements; [146878]

(3) what assessment his Department has made of the effect of possible relocation of staff in his Department to North Staffordshire on *(a)* job creation, *(b)* sustainable development, *(c)* the local economy and *(d)* tackling regional economic disparities; and if he will make a statement; [146891]

(4) what plans he has to establish procedures for assessing the impact of possible re-location of staff in his Department to the regions; and if he will make a statement. [146922]

Mr. McNulty: I refer my hon. Friend to the reply given by my right hon. Friend the Chief Secretary on 12 January 2004, *Official Report*, column 516W.

Ms Walley: To ask the Secretary of State for Transport how many staff in his Department work in *(a)* the West Midlands and *(b)* North Staffordshire. [146907]

Mr. McNulty: The latest available figures for the number of staff in the Department for Transport that work in *(a)* the West Midlands and *(b)* North Staffordshire is shown in the following table:

Location	*Number of staff*
West Midlands	1,127
North Staffordshire	38
Total	1,165

Lane Rental Trials

Mr. Damian Green: To ask the Secretary of State for Transport how the Government intends to consult interested parties on next steps when the lane rental trials in Camden and Middlesbrough end. [147095]

Mr. Jamieson: The lane rental trials in Camden and Middlesbrough are due to end on 31 March. Any decision on whether to roll out lane rental more widely will need to be taken in the context of changes to the existing legislative regime for utility street works resulting from the Traffic Management Bill, including the introduction of permit schemes. We intend consulting widely with utilities, local authorities, utility regulators and other interested parties when drawing up regulations which would allow for permit schemes, and we would consult similarly widely before extending lane rental.

M5

Mr. Drew: To ask the Secretary of State for Transport if he will publish the resurfacing schedule for the M5; and what account it takes of requests to deal with excessive noise nuisance. [146477]

Mr. Jamieson: Resurfacing schedules are established on an annual basis, based upon an assessment of surface condition and availability of funds. Next year's resurfacing will be determined as part of the Highways Agency's business plan development.

The 10 Year Plan for Transport includes a commitment to use quieter surfacing materials where possible during routine resurfacing. Other noise reduction measures, such as noise fencing, are considered on an individual basis.

Railways

Mr. Austin Mitchell: To ask the Secretary of State for Transport how much public subsidy was given to each railway company in each year since 1997. [146536]

Mr. McNulty: Details of the subsidy paid to each train operating company, in each year, are set out in the Strategic Rail Authority's annual report, copies of which have been placed in the Libraries of the House.

Mr. Peter Duncan: To ask the Secretary of State for Transport what the projected investment in rail infrastructure is in Scotland over the next five years. [147685]

Mr. McNulty: Network Rail's June 2003 Business Plan sets out £1.6 billion of investment in maintenance and renewals for Scottish routes (excluding the West Coast Main Line and East Coast Main Line in Scotland) over the period 2004–05 to 2008–09. The Business Plan is currently being reviewed to take into account the Rail Regulator's Final Conclusions on the Interim Review of Track Access Charges, which were published on 12 December 2003. The SRA's investment proposals are set out in the Strategic Plan. The latest edition was published last year and is available in the House Library. In addition, the Scottish Executive may facilitate the development and improvement of passenger rail services.

Scotrail

Mr. Peter Duncan: To ask the Secretary of State for Transport how much Government funding is provided to Scotrail in 2003–04 in respect of its sleeper services to London. [147686]

Mr. McNulty: This is a matter for the Scottish Executive, which is responsible for the franchise arrangements for cross-border sleeper services.

Speed Cameras

Mr. Baron: To ask the Secretary of State for Transport how much of the money raised in fines by the Essex Safety Camera Partnership was spent on traffic-calming measures and other safety projects in Essex,

other than the installation and operating of speed cameras, in each of the last six years for *(a)* Billericay and district, *(b)* Basildon district and *(c)* Essex; and what percentage this represented of the total money raised in fines for each year. [147564]

Mr. Jamieson: Fine revenue from the cost recovery system can only be used to fund safety camera operations and not for any other purposes. Other funding sources are available to local authorities to use on other road safety measures.

Mr. Chope: To ask the Secretary of State for Transport how many speed enforcement cameras have been *(a)* removed, *(b)* relocated and *(c)* disabled as a result of his recent letter to safety camera partnerships; and if he will place a copy of his letter in the Library. [147757]

Mr. Jamieson: The letter from the Department for Transport to the partnerships, dated 19 December, was sent by the Head of Road Safety Division. It asked partnerships to confirm that they are adhering strictly to the guidance and rules of the safety camera netting off arrangement in siting the cameras and ensuring all requirements relating to speed limit setting and signing are in place. I shall keep the House informed.

A copy of the letter has been placed in the Library of the House.

Mr. Chope: To ask the Secretary of State for Transport pursuant to his answer of 22 December 2003, *Official Report*, column 52W, if he will set out in respect of each safety camera partnership the last quarter for which monitoring information and data has been received by *(a)* his Department and *(b)* its consultants; and if he will place a copy in the Library. [147759]

Mr. Jamieson: The results of the last complete year's monitoring to 31 March 2003 will be contained in the next annual report of the safety camera programme that is due to be published in March and will be placed in the Library of the House.

Traffic Management Bill

Mr. Chope: To ask the Secretary of State for Transport whether it is the policy of the Government that traffic officers appointed under the Traffic Management Bill should be subject to positive vetting. [145537]

Mr. Jamieson: The safety and protection of the travelling public is of paramount importance to the Government.

The level of security and criminal record checks that the Highways Agency is expected to apply are equivalent to those that exist for staff currently employed by the Police service, such as Traffic Police and Community Support Officers.

As well as undertaking a check against security service records, the Highways Agency is also in the process of registering with the Criminal Records Bureau (CRB). Registration with the CRB will enable the Agency to pick up all criminal convictions, and carry out checks against relevant departmental and police records.

DEFENCE

Armed Forces Accommodation

Mr. Hancock: To ask the Secretary of State for Defence what procedures his Department uses to ensure that service accommodation is managed and maintained to standards that are acceptable to the tenants. [146831]

Mr. Caplin: I refer the hon. Member to the Defence Housing Executive's Key Targets for Financial Year 2003–04, set out in my written ministerial statement of 2 July 2003, *Official Report*, column 19WS. The Key Targets include allocation times, repairs, upgrades and customer satisfaction. Full details are set out in the DHE Corporate Plan 2003, copies of which are available in the Library of the House.

Army Redress (Appeals)

Mr. Keetch: To ask the Secretary of State for Defence what the procedures are for *(a)* officers and *(b)* other ranks in the Army to appeal against army redress decisions; and if he will make a statement. [145730]

Mr. Caplin: The procedures governing appeals against army redress decisions are contained within section 180 of the Army Act 1955, Chapter 5 of Queen's Regulations and Army General and Administrative Instructions, Volume 2, Chapter 70. Officers and other ranks who make a complaint and who do not obtain the redress to which they think they are entitled, may submit their complaint to the Defence Council (the Army Board acting as the Defence Council). The procedures require the complaint to proceed through a series of levels in the chain of command, any of which may resolve the matter to the satisfaction of the complainant, before it is considered by the Defence Council. If officers do not obtain from the Defence Council the redress they seek, they have the further opportunity to require the Defence Council to make a report on the complaint to Her Majesty and she has the power to look into the case further, acting on the advice of my right hon. Friend the Secretary of State for Defence.

Art Acquisition

Norman Baker: To ask the Secretary of State for Defence how much his Department has spent on the acquisition of works of art in each year since 1997, broken down by amounts spent on *(a)* paintings and *(b)* sculpture; what the single most expensive piece of art purchased by his Department since 1997 has been; how much it cost; and what the total revenue raised by his Department through sales of works of art has been since 1997. [142358]

Mr. Caplin: Since 1997 the Ministry of Defence has purchased one painting—a portrait of Admiral Leach, at a cost of £5,000. No works of sculpture have been purchased, and no works of art have been sold.

Cluster Munitions

Harry Cohen: To ask the Secretary of State for Defence how many of the cluster artillery shells purchased from BAE Systems in 2003 have been used; how many remain in storage; and what the period of possible utility is of the unused ones. [146990]

Mr. Ingram: No cluster artillery shells purchased from BAE Systems in 2003 have been used in Iraq during Operation Telic. Shells purchased from BAE Systems have been put into store to maintain operational stock levels. The ammunition used during Operation Telic was from a procurement made in 1996; therefore the full quantity ordered remains in storage. This ammunition has a shelf life of 10 years.

Defence Housing Executive

Mr. Soames: To ask the Secretary of State for Defence what recourse is available to armed forces personnel who consider that complaints and problems relating to their accommodation have not been dealt with adequately by the Defence Housing Executive. [147283]

Mr. Caplin: The Defence Housing Executive (DHE) has a 5-step complaints procedure which directs the occupant through the organisation from local DHE office level to the Chief Executive. If still unsatisfied, the occupant can write to the Deputy Chief of Defence Staff (Personnel), DHE's owner. This procedure is fully explained in the Occupants Handbook, a copy of which is provided to all occupants of Service family housing.

Serving personnel are also able to raise matters through their chain of command or make a formal complaint under the Service redress of grievance procedure.

The DHE Occupants Handbook also lists bodies that may be consulted for independent advice, such as Citizens' Advice Bureaux and Service welfare organisations. Leaflets containing information about complaints are on display in community facilities in DHE estates, and reminders are published from time to time in DHE's customer magazine 'Living in Families Quarters'.

Departmental Advertising

Mr. Gerald Howarth: To ask the Secretary of State for Defence what the total expenditure on information campaigns and advertising was for his Department for each year since 1997. [145673]

Mr. Caplin: Details of the Ministry of Defence's expenditure on advertising and publicity have historically been included in the annual Departmental Performance Reports, copies of which have been placed in the Library of the House. For 1996–97 the information is shown on page 49 Cm 3781; for 1997–98, the information is shown on page 49, Cm 4170; for 1999–2000 the information is shown on page 60, Cm 5000; for 2000–01 the information is shown on page 68, Cm 5290 and for 2001–02 the information is shown on page 71, Cm 5661.

Figures for 1998–99 were not provided in the Annual Performance Report and are as follows:

Category	*Expenditure (£ million)*
Recruitment	
Royal Navy/Royal Fleet Auxiliary	6.65
Army	11.77
Royal Air Force	10.17
Civilian	3.27
PR, marketing and business support services	0.84
Chief of Public Relations expenditure	2.39
Sales promotion	1.06
Scholarships	0.38
National Employers Liaison Committee (Territorial Army)	1.05

The introduction of Resource Accounting and Budgeting in the Ministry of Defence has changed the way we account for and record our expenditure. I can confirm that the final outturn for publicity and recruitment, which includes advertising, for 2002–03 was £52.5 million. However, the detailed breakdown could be provided only at disproportionate cost.

Depleted Uranium Oversight Board

Ms Walley: To ask the Secretary of State for Defence what proposals he has to reconfigure the Depleted Uranium Oversight Board. [146988]

Mr. Caplin: The Ministry of Defence has no proposals to reconfigure the Depleted Uranium Oversight Board (DUOB).

Flying Hours (RAF Marham)

Mr. Gerald Howarth: To ask the Secretary of State for Defence, how many hours on average were flown by RAF pilots based at RAF Marham in each month over the past two years [141295]

Mr. Ingram *[pursuant to the answer, 4 December 2003, Official Report, column 127W]:* The information provided was incorrect.

The information in the following table shows the correct number of hours flown on average by pilots based at RAF Marham, by month. These figures include hours flown by exchange pilots from foreign air forces serving with RAF Squadrons based at the station, as these are not recorded separately. On average there are two such pilots at the station, and they would normally fly at the same rate as RAF pilots. The figures also include hours flown by Marham-based pilots deployed on Operation TELIC, hence the increase in April 2003.

Month	*Average hours per pilot*
December 2001	12.02
January 2002	18.54
February 2002	15.14
March 2002	19.24
April 2002	18.49
May 2002	19.46
June 2002	17.75
July 2002	16.23
August 2002	15.85
September 2002	19.36
October 2002	20.51
November 2002	14.53
December 2002	12.63
January 2003	18.16
February 2003	11.27
March 2003	10.66
April 2003	27.43
May 2003	16.10
June 2003	21.39
July 2003	20.41

Month	Average hours per pilot
August 2003	14.03
September 2003	17.80
October 2003	18.19

Future Army Structure

Mr. Soames: To ask the Secretary of State for Defence if he will make a statement on the Future Army Structure. [147726]

Mr. Ingram: I refer the hon. Member to the Defence White Paper, 'Delivering Security in a Changing World', published on 11 December 2003, and in particular Chapter 4 'Armed Forces Capabilities', which sets out the latest position on the Future Army Structure.

Iraq

Mr. Carmichael: To ask the Secretary of State for Defence what steps are being taken to ensure the safety of civilian contractors working for the allied forces in Iraq. [145278]

Mr. Ingram: I refer the hon. Member to the answer I gave on 18 November 2003, *Official Report*, column 758W, to the hon. Member for Romford (Mr. Rosindell).

IT Contracts

Mr. Sayeed: To ask the Secretary of State for Defence if he will list information technology contracts in his Department with a value of above £20 million in each of the last 10 years; what the inception date for each system was; when it became fully functional; when it became fully debugged; and what the cost of over-runs has been. [146189]

Mr. Ingram: This information is not held centrally and could be answered only at disproportionate cost.

Jaguar

Mr. Soames: To ask the Secretary of State for Defence when he plans to withdraw the RAF's Jaguar aircraft from service. [147282]

Mr. Ingram: Based on current predictions it is expected that the RAF's Jaguar fleet will be retired around the end of this decade.

King's Troop, Royal Horse Artillery

Mark Tami: To ask the Secretary of State for Defence (1) what the operational role is of the King's Troop, the Royal Horse Artillery; [142712]

(2) what the cost to public funds in 2003–04 is of the King's Troop, the Royal Horse Artillery; [142713]

(3) what his plans are for the future of the King's Troop, the Royal Horse Artillery. [142714]

Mr. Ingram: In addition to its ceremonial role, the King's Troop, the Royal Horse Artillery provides personnel to support the Royal Artillery Corps and other units. Most recently, members of the King's Troop deployed with Close Support and Depth Fire Artillery units on Operation Telic. No changes are currently planned to this role.

The cost to public funds in the last financial year (2002–03) was £5.78 million. This includes expenditure on pay, building works, food and clothing.

Parliamentary Questions

Mr. Alan Williams: To ask the Secretary of State for Defence how many parliamentary questions to his Department have waited more than four sitting weeks for a reply in Session 2002–03. [140792]

Mr. Hoon: The information requested is not held centrally and could be provided only at disproportionate cost. However, as a guide, officials have calculated a figure based on the number of parliamentary questions tabled between 8 September to 18 September 2003 and 7 October to 20 November 2003. According to our records, 898 parliamentary questions were tabled during this period and of this number, 34 questions were answered more than four sitting weeks later.

Defence Ministers aim to answer named day written questions on the day named and ordinary written questions within five sitting days.

Recruitment (Security Clearance)

Mr. Barnes: To ask the Secretary of State for Defence how many people were refused security clearance for entry to *(a)* the Royal Navy, *(b)* the Royal Air Force and *(c)* the Army in each of the last five years. [147259]

Mr. Ingram: Electronic records capable of showing those refused security clearance for entry to the Services were started during 2001. There is no practical means of obtaining and collating this information for the years prior to 2002. In 2002, six potential Royal Navy recruits, two potential Royal Air Force recruits and 38 potential Army recruits were refused security clearance. In 2003, 11 potential Royal Navy recruits, five potential Royal Air Force recruits and 40 potential Army recruits were refused security clearance.

Sea Harrier

Mr. Soames: To ask the Secretary of State for Defence when the first Sea Harrier Squadron will be withdrawn from service; and what plans he has for the disposal of the squadron's aircraft. [147281]

Mr. Ingram: I refer the hon. Member to the answer I gave on 25 June 2003, *Official Report*, columns 879–80W, to the hon. Member for North Essex (Mr. Jenkin).

The first Sea Harrier Squadron will be withdrawn from service on 31 March 2004.

Service Pensions

Mr. Gerald Howarth: To ask the Secretary of State for Defence how many ex-service personnel who are entitled to a preserved pension are not claiming that to which they are entitled. [146957]

Mr. Caplin: The total number of pensions currently in payment under the Armed Forces Pension Scheme is in the region of 342,000 (this includes pensions in payment

to former Service personnel, their spouses and dependants). As at 30 November 2003, 504 ex-service personnel across the three Services have not claimed a preserved pension award to which they were entitled at age 60.

Tornado

Norman Lamb: To ask the Secretary of State for Defence when the RAF's last Tornado GR4 aircraft are expected to be retired; what aircraft type is earmarked to replace the Tornado GR4 in its role; and if he will make a statement. [147548]

Mr. Ingram: We currently expect the Tornado GR4 to leave service around the end of the next decade.

The Future Offensive Air System is planned to replace the offensive air capability currently provided by the Tornado GR4. No final decision has been taken on how the Future Offensive Air System requirement might best be met. We are currently looking at a potential mix of platforms including Long Range Cruise Missiles, Uninhabited Combat Air Vehicles and manned aircraft.

Unexploded Cluster Bombs

Mr. Hancock: To ask the Secretary of State for Defence how much compensation is paid to families of *(a)* adults and *(b)* children under 16 years of age, who are (i) killed and (ii) injured as a result of unexploded British cluster bombs in (A) Kosovo, (B) Afghanistan and (C) Iraq; and if he will make a statement. [146168]

Mr. Ingram: When compensation claims are submitted, they are considered on the basis of whether or not the Ministry of Defence has a legal liability to pay compensation. Where there is a legal liability to pay compensation, we do so. The amount of compensation paid is calculated on the basis of the severity of the injury together with any financial loss. The amount payable for financial loss to an adult would likely exceed that payable to a juvenile.

CONSTITUTIONAL AFFAIRS

Judges (Appeals)

27. **Vera Baird:** To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on the number of successful appeals made against individual judges. [147123]

Mr. Leslie: Judicial decisions are not a matter in which the Government should become involved, and the Department for Constitutional Affairs does not routinely monitor the outcome of appeals in relation to decisions made by particular judges. The fact that an appeal has been successful does not in itself entail any criticism of the original judge.

Supreme Court

28. **Mr. Chaytor:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what representations he has received on the proposal for the creation of a supreme court. [147125]

Mr. Leslie: I have received a range of representations on the new Supreme Court in response to the consultation paper issued last July. Details of responses received will be published shortly.

House of Lords

29. **Mr. Luff:** To ask the Parliamentary Secretary, Department for Constitutional Affairs whether he plans to have further consultation on his proposals for reform of the House of Lords. [147126]

Mr. Leslie: The public consultation on proposals for reform of the House of Lords ended on 12 December, and the responses are being considered. The Government does not intend to repeat this consultation. Beyond this Bill, we have made clear that there is more work to be done.

32. **Kevin Brennan:** To ask the Parliamentary under Secretary of State if he will make a statement on his plans for further reform of the House of Lords. [147129]

Mr. Leslie: The Government intends to introduce legislation to remove the remaining hereditary peers and place the Appointments Commission on a statutory footing as soon as Parliamentary time allows. The Government has repeatedly stated that this Bill does not mark the end of the road for House of Lords reform.

Court of Protection

30. **Mr. Kidney:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what recent representations he has received about the efficiency of the Court of Protection. [147127]

Mr. Lammy: No representations have been received on the court of Protection, but 26 have been made to my noble Friend Lord Filkin on the Public Guardianship Office, which is the administrative arm of the Court, since he took over ministerial responsibility for it last summer.

Solicitors

31. **David Taylor:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what initiatives are planned to improve the oversight of supervision of solicitors; and if he will make a statement. [147128]

Mr. Lammy: We expect to appoint a Legal Services Complaints Commissioner with powers to oversee the Law Society's complaints handling in the very near future. The powers of the LSCC can include: setting targets for the handling of complaints; making recommendations about complaints handling; requiring a failing body to submit a plan for complaints handling and levying fines if the body fails to submit a plan or comply with the agreed plan to improve complaints handling.

Witnesses and Victims (Court Evidence)

33. **Mrs. Betty Williams:** To ask the Parliamentary Under-Secretary of State, Department for Constitutional Affairs, what measures are being taken to encourage witnesses and victims to come forward to give evidence in court. [147130]

Mr. Leslie: Last July, the Government published a National Strategy setting out the steps we are taking to deliver improved services to victims and witnesses in the Criminal Justice System.

At its heart is the Domestic Violence, Crime and Victims Bill, introduced last November and containing a number of measures aimed at encouraging more witnesses to come to court and give evidence.

Correspondence

Mr. Wilkinson: To ask the Parliamentary Secretary, Department for Constitutional Affairs if the Lord Chancellor will answer the letter to him from the hon. Member for Ruislip-Northwood dated 28 November 2003, regarding the case of his constituent, Mr. J. Lawrence. [146952]

Mr. Leslie: My Department is currently considering the matters raised by the hon. Member in his letter of 28 November 2003. The Secretary of State and Lord Chancellor will write to the hon. Member as soon as possible.

IT Contracts

Mr. Sayeed: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will list information technology contracts in his Department with a value of above £20 million in each of the last 10 years; what the inception date for each system was; when it became fully functional; when it became fully debugged; and what the cost of over-runs has been. [146198]

Mr. Leslie: The information for my Department is as follows:

LOCCS (various court-based IT systems):

The EDS (LOGCS) contract was awarded to EDS in September 1996, to provide IT systems to Crown and county courts. The lifetime cost of the contract is assessed at £210 million.

The initial rollout of equipment to courts was completed in August 2001. The contract was fully functional from award. The contract includes provisions to test software prior to release, and to fix software 'bugs' which are attributable to supplier software.

The LOCCS rollout was completed to time, and subsequent major work programmes have been delivered to time.

A major provision of new IT equipment to the Crown Court (and those county courts co-located with crown court buildings) under the LOCCS contract was agreed in 2003. This is part of the Government's commitment to modernising the Criminal Justice System. This programme of change had replaced the equipment and significantly enhanced the IT functionality available at 31 Crown and County Court centres by the end of 2003 and is on schedule to be completed in all of the 109 sites within scope by 2006. An extension to this rollout of a further 59 stand alone county courts is being planned. These additional sites will also be completed in 2006.

ARAMIS (Resource Accounting and Management Information System):

This is a PFI contract for the provision of accounting, financial, HR/payroll and management information services. It was awarded in December 1997 and runs until January 2007. Its current anticipated life-time cost is £207.7 million, which includes enhancements to the service during 2003.

Most services have IT elements and are delivered across an IT infrastructure provided through the contract. However, the IT system elements of the contract are not separated out from the main business functions. All the services are being provided within the lifetime of the contract, and major work programmes have been delivered to time. Debugging of the IT system elements is a process which continues through the lifetime of the contract.

Libra (magistrates' courts IT systems):

The original contract with Fujitsu Systems for Libra included provision for infrastructure and Office Automation, a bespoke case management software application and systems integration.

This contract with Fujitsu Services for the delivery of Libra has been varied twice since it was awarded in December 1998. This has resulted in changes to the baseline making it inappropriate to compare spend to date across an original and two variants of the contract. The actual spend against the original contract can be summarised as follows:

Original ICL Contract December 1998: Total contracted charges expected to arise over contract life of 10.5 years—£184 million

Negotiated ICL Contract May 2000: Total contracted charges expected to arise over contract life of 14.5 years—£319 million

Negotiated Fujitsu Services Contract July 2002: Total contract charges expected to arise over contract life of 8.5 years—£232 million

Total contracted charges paid by year ending December 2003—£127 million

Libra is now being sourced through three separate contracts, one to provide the underlying infrastructure and Office Automation Services, one to supply a new case management application and the third to deploy that application and integrate all systems. These include, where necessary, provisions to test the software and to fix any "bugs" which are attributable to supplier software prior to release.

The contract signed with Fujitsu Services in July 2002 included the provision of Libra infrastructure and Office Automation only. The roll-out of these was successfully completed in September 2003.

A further contract was signed with STL in January 2003 for £37 million to provide a case management software application. The first release of this application is due in November 2004 with two further enhancements to be completed before November 2005. STL will continue to provide support and enhancement services through to 2008.

A contract was also signed with Accenture in October 2003 for £38 million to deploy the new application to the Magistrates' courts (planned completion by the end of 2005) and to provide on-going systems integration services through to 2008.

Ministerial Meetings

Mr. Rosindell: To ask the Parliamentary Secretary, Department for Constitutional Affairs on how many occasions the Secretary of State met the Secretary of State for Home Affairs to discuss *(a)* asylum seekers and *(b)* reform of the criminal justice system in the last 12 months. [146673]

Mr. Lammy: In the last 12 months the Secretary of State for Constitutional Affairs has met the Secretary of State for Home Affairs to discuss asylum seekers on eight separate occasions and on 15 separate occasions to discuss reform of the criminal justice system. They will also have discussed these issues in the context of other meetings.

WORK AND PENSIONS

Benefit Payments (Pensioners)

Mr. Willetts: To ask the Secretary of State for Work and Pensions what recent estimate he has made of the amount of unclaimed benefits due to pensioners. [146748]

Malcolm Wicks: The latest estimates of the amount of unclaimed benefits for pensioners eligible for income-related benefits relate to financial year 2000–01. These cover Minimum Income Guarantee, Housing Benefit and Council Tax Benefit and are available in the DWP report "Income Related Benefits Estimates of Take-up in 2000–01". A copy of the publication is held in the Library. Statistics covering 2001–02 will be released in February.

No estimates are available of the amount of 'unclaimed' State Pension. This is because anyone eligible for a State Pension can choose to defer taking it, and then receive a higher amount once they begin claiming. Therefore, pension that is so far unclaimed may be being deliberately deferred.

Information relating to unclaimed disability benefits is not available.

We are unable to provide any reliable estimate of the number of unclaimed Winter Fuel Payments because some people aged 60 or over are excluded, others choose not to claim and payments are based on household composition. However, most people are paid automatically.

Child Support Agency

Mr. Goodman: To ask the Secretary of State for Work and Pensions further to the letter to the hon. Member for Wycombe of 18 December 2003, from Doug Smith, Chief Executive of the Child Support Agency, for what reason it is not possible to provide information concerning anomalies, inaccuracies and incomplete data contained in records held by the Child Support Agency before the CSA's data migration strategy is finalised. [147062]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member.

Letter from Doug Smith to Mr. Paul Goodman, dated 13 January 2004:

In replying to your recent Parliamentary questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

In response to my reply to you dated 18 December 2003 you asked for the reason why it is not possible to provide information concerning anomalies, inaccuracies and incomplete data contained in records held by the Child Support Agency before the CSA's data migration strategy is finalised.

That is because as part of finalising the data migration strategy we are continuing to research the likely number of "anomalies, inaccuracies and incomplete data" associated with each of the options being explored.

Disability Living Allowance

Mr. Gray: To ask the Secretary of State for Work and Pensions how many sufferers from *(a)* Chronic Fatigue Syndrome and *(b)* Multiple Sclerosis were awarded disability living allowance in the last five years; and what percentage of those applying that represented in each case. [146609]

Maria Eagle: The required information is in the following table.

Number of new awards each year to people whose main disabling condition is Multiple Sclerosis or Chronic Fatigue Syndrome

Thousand

Year ending	*All new awards*	*New awards where main disabling condition is Multiple Sclerosis*	*Percentage of new awards*	*New awards where main disabling condition is Chronic Fatigue Syndrome*	*Percentage of new awards*
31 August 1999	218.9	3.1	1.4	1.5	0.7
31 August 2000	226.1	3.5	1.5	1.7	0.7
31 August 2001	250.4	3.5	1.4	2.0	0.8
31 August 2002	256.0	3.1	1.2	2.3	0.9
31 August 2003	262.5	2.8	1.1	2.2	0.8

Notes:

1. Figures are in thousands and rounded to the nearest hundred.
2. Total number of applications by disabling condition are unavailable.
3. In order to count 'sufferers', people with multiple awards during the year are counted only once.

Source:

IAD Information Centre, 5 per cent. sample.

Mr. Gray: To ask the Secretary of State for Work and Pensions (1) if he will make a statement on his Department's policy on chronic fatigue syndrome in relation to benefits; [146633]

(2) what assessment he has made of the suitability of Disability Living Allowance application forms for those suffering from variable conditions; [146610]

(3) how many officials dealing with Disability Living Allowance have specialist knowledge of chronic fatigue syndrome; [146608]

(4) what recent discussions he has had with the Disability Living Allowance Appeals Service on how to deal with variable conditions. [146611]

Maria Eagle: People with chronic fatigue syndrome are entitled to social security benefits if they meet the usual qualifying conditions for them. For Disability Living Allowance, entitlement depends on the effects that severe physical or mental disability have on a person's need for personal care and/or their ability to walk, and not on particular disabilities or diagnoses.

The Disability Living Allowance claim form is designed to enable all disabled people to give full details of the effects of their disabilities on their need for personal care and ability to walk, and specifically asks for as much detail as possible about variations in their condition. In view of the concern disabled people have expressed about the length and complexity of the form, we are developing and trialling a number of new style claim packs which will give even better opportunities for people to detail how their disabilities affect them on a day to day basis.

Some 1,180 decision makers decide claims for Disability Living Allowance. All of them receive specific training on the causes, manifestations and management of chronic fatigue syndrome. Guidance about the effects of particular disabilities is available to decision makers in the Disability Handbook published by the Department's Corporate Medical Group. The section on chronic fatigue syndrome was written and compiled following consultation with experts in this area of medicine including the Myalgic Encephalomyelitis Association. Decision makers can also seek advice from the Department's medical services doctors, all of whom are trained disability analysts with specialist knowledge of assessing the effects of disability and who receive specific guidance on assessing the effects of chronic fatigue syndrome as one of their training modules.

There have been no recent discussions with the Appeals Service on how to deal with Disability Living Allowance claims from people with variable conditions. The Appeals Service is an independent body and it would not be appropriate to seek to influence how they might deal generally with cases involving particular disabilities. On individual cases being considered by the Appeals Service, however, it is open to the Department to express its views about whether the conditions for entitlement to benefit are, or are not, met. In this connection, the recent judgment of the House of Lords in the case of "Moyna" ([2003] UKHL 44) confirmed that the correct approach to entitlement to Disability Living Allowance for people with variable conditions is to take a "broad view". This judgment is binding on both decision makers and the Appeals Service.

TRADE AND INDUSTRY

Business Start-ups

Dr. Kumar: To ask the Secretary of State for Trade and Industry what steps are being taken to help people in the North East who are 50 and over who are not working to set up their own businesses. [144769]

Jacqui Smith: Self-employment provision is delivered on behalf of the Government primarily through the Small Business Service by Business Link Operators, and their network of providers.

This provision is aimed at all who want to start-up, without any form of prejudice, and regardless of their employment status. They work hard to create effective and efficient referral mechanisms (commonly known as brokerage) to ensure that each customer gets appropriate support for their needs—regardless of ethnic origin, age, gender, sexual orientation or residential location.

Business Links in the NE work with all potential partners and stakeholders, including Jobcentre Plus, who deliver the self-employment option of New Deal 50+ through their network of providers.

The standard model in New Deal provides:

An initial awareness session for potential participants during the New Deal "Gateway" period;

A period of supported business planning with a business expert, and

A period of "test trading", whereby participants start their business while continuing to receive benefits to help them over any initial transitional hurdles. This period can last up to a maximum of 26 weeks.

New Deal is just one of many support programmes for budding entrepreneurs. A range of initiatives exist within programmes, focussed upon "deprived areas" (Employment Zones, Action Teams and New Deal for Communities) and groups, and advice and support is also provided by the Small Business Service (DTI), with funding from the European Social Fund and the Prince's Trust Business Programme (which is partly funded by DWP) underpinning much of the support.

NE Business Links all seek to provide on-going support for all who come through this process.

The Regional Development Agency, One North East are currently providing funding to the national organisation for promoting enterprise amongst the over 50s, PRIME to the tune of £185,550 to provide assistance to promote/assist self employment/business start-up to people over 50 in the North East.

This has a special focus on those who are economically inactive, unemployed, and/or a financially and socially excluded background.

This is delivered thought local partner organisations which contract with PRIME to supply marketing and outreach programmes, as well as business start-up services from pre-start up advice through to post start-up support and mentoring.

The project also makes available PRIME loans to provide "last resort" start-up finance to non-working people over the age of 50 for promising business ventures. ONE NE's funding also provides the resources for the PRIME regional development officer, who has specific responsibility to co-ordinate delivery of the PRIME initiative in the North East region. It also provides financial incentives to PRIME loan associates and their approved contractees to target the economically inactive and unemployed over 50s. Business Link Tees Valley, which covers my hon. Friend's constituency, is one such loan associate.

NE Business Links actively work with their networks of enterprise training and development providers to ensure that information, advice and assistance is provided to people aged above 50, which match their individual circumstances. The PRIME scheme is introduced to people where appropriate.

Business Support Schemes

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how much was been spent on *(a)* regional venture capital funds, *(b)* Faraday Centres, *(c)* University Challenge Seed Funds, *(d)* SMART schemes and *(e)* Enterprise areas in each year since each was established. [146146]

Nigel Griffiths: The information is as follows:

(a) Regional Venture Capital Funds:

Regional Venture Capital Funds were launched in 2001. DTI spend has been as follows:

Year	*£ million*
2001–02	2.1
2002–03	9.1
Total	11.1

(b) Faraday Centres:

There is no Faraday Centres scheme, but the DTI supports Faraday Partnerships. Faraday Partnerships aim to bring new products and processes, based on the UK science base, to the market more effectively. DTI and the Research Councils support 23 of the 24 Faraday Partnerships: the other is supported by the Scottish Executive and DEFRA.

DTI spend on Faraday Partnerships to date has been:

Year	*£*
2000–01	1,915,311
2001–02	3,351,631
2002–03	5,903,343
2003–04[1]	2,904,500
Total	14,074,786

[1] First two quarters

(c) University Challenge:

University Challenge has had the following amounts allocated to it:

Year	*£ million*
1999–2000	10
2000–01	10
2001–02	20
2002–03	5

There are no current plans for any future separate funding for University Challenge. The sorts of activities which UC funded will in future be supported through the expanded Higher Education Innovation Fund.

(d) Smart (including SPUR):

DTI expenditure on Smart (including the SPUR scheme which was fully incorporated into Smart in 1997) has been as follows:

£ million

Financial Year	*Expenditure*
1988–89	3.0
1989–90	5.0
1990–91	9.0
1991–92	12.3
1992–93	18.0
1993–94	21.5
1994–95	21.9
1995–96	20.1
1996–97	20.5
1997–98	25.8
1998–99	24.9
1999–2000	26.5
2000–01	27.3
2001–02	23.7
2002–03	32.1

(e) Enterprise Areas:

Enterprise Areas are not a scheme but are a designation of the 1,997 most deprived wards in the UK. A range of policy measures are available to help people and businesses in Enterprise Areas. They provide a focus for local and regional organisations to tackle market failures and the barriers to enterprise that their communities face.

Government is encouraging key organisations; Local Authorities, RDAs; Business Link Operators and Local Strategic Partnerships to work with the business community to raise awareness of the help and support available and to co-ordinate their activities in order to target their efforts on Enterprise Areas.

Company Administration

Mr. Drew: To ask the Secretary of State for Trade and Industry if she will investigate the fees paid to firms charged with undertaking the receipt of companies into administration. [146496]

Mr. Sutcliffe: Neither my right hon. Friends the Secretary of State nor the Chancellor of the Exchequer have any power to intervene in the fees charged by administrators. Rule 2.47 of the Insolvency Rules 1986 sets out the basis for fixing their remuneration and, where it is not fixed by the creditors' committee or the creditors, the administrator may apply to the court.

Debarred Directors

Mr. Mike Hancock: To ask the Secretary of State for Trade and Industry in what circumstances she is able to take action to debar directors of companies; and what plans she has to extend those powers. [146514]

Mr. Sutcliffe: Following a company going into liquidation, administration or administrative receivership or an investigation into its affairs under the Companies Act 1985 or Financial Services and Markets Act 2000, if it appears to the Secretary of State that it is expedient in the public interest, she may apply to the court for an order (or accept an undertaking) under the Companies Directors Disqualification Act 1986 which disqualifies an individual from being a director of any company for a period of up to 15 years.

The court may also disqualify a director who is guilty of certain offences in relation to companies, persistent breaches of company legislation or a breach of competition law.

There no plans to amend these powers.

Democratic Republic of the Congo

Norman Lamb: To ask the Secretary of State for Trade and Industry how officials from her Department made contact with the British-based companies alleged to have breached Organisation for Economic Cooperation and Development business ethics guidelines in the last report of the UN Panel of Experts on the Illegal Exploitation of the Natural Resources and Other Forms of Wealth of the Democratic Republic of the Congo; what responses have been received so far; whether responses will be placed in the Library; and if she will make a statement. [146414]

Mr. Mike O'Brien: The National Contact Point (NCP) for the OECD Guidelines for Multinational Enterprises contacted some of the companies mentioned in Schedule 3 of the UN Panel report directly, the remaining companies made contact with the NCP. In all cases this resulted in face-to-face discussions with either the company or their legal representatives. In all cases the companies denied any wrongdoing and indicated their willingness to act in accordance with the OECD Guidelines. In the absence of evidence of specific instances of breaching the Guidelines, the companies have not—been in a position to respond substantively to the allegations by the UN Panel. All communications with the Panel are undertaken within the confidentiality provisions of the Guidelines and consequently the Government will be unable to place a copy of any response in the Library. My hon. Friend, the Parliamentary Under Secretary of State for Foreign and Commonwealth Affairs (Mr. Mullin) made a statement to the House on 17 December 2003, *Official Report*, columns 142–44WS, regarding the UN Panel of Experts report and I have nothing to add to that statement at this time.

Norman Lamb: To ask the Secretary of State for Trade and Industry what response her Department has received to its request to the UN Panel of Experts on the

Illegal Exploitation of the Natural Resources and Other Forms of Wealth of the Democratic Republic of the Congo for further information and evidence on the allegations against British-based companies contained in its last report; whether this information can still be provided by the UN following the disbandment of the Panel of Experts on 31 October 2003; what the process is for obtaining information from a UN Panel of Experts which has been disbanded; if she will place a copy of her Department's request to the UN Panel of Experts' response in the Library once it is received; whether her Department made representations to the UN with regard to the disbandment of the Panel; and if she will make a statement. [146415]

Mr. Mike O'Brien: Following oral requests by the UK Mission at the UN to the Chairman of the Panel of Experts for evidence of specific instances of breaching the OECD Guidelines, a letter was sent to the UN Secretariat on 17 November and resent again a week later. To date there has been no reply to either letter.

The National Contact Point (NCP) has repeatedly attempted to telephone the Political Secretary to the Panel and has left messages without response. Consequently we are about to make further representations to Ambassador Kassem who chaired the panel to provide the necessary evidence.

Members of the panel indicated in April 2003 that they were in possession of a good deal of documentary evidence, none of which has, thus far, been provided. We believe the disbanding of the panel should not necessarily affect the early availability or provision of this documentation. As you will be aware from the ministerial statement made by my hon. Friend, the Parliamentary Under Secretary of State for Foreign and Commonwealth Affairs on 17 December 2003, *Official Report,* columns 142–44WS, NCPs from all countries involved have been assured that this information would be provided and are frustrated that this has not yet happened.

All communications with the Panel have been conducted under the confidentiality provisions of the Guidelines and consequently the Government will be unable to place a copy of the request, or any response, in the Library.

My department made no representations to the UN with regard to the disbandment of the Panel, whose original time-limited mandate had already been extended on several occasions

Departmental Grants

Brian Cotter: To ask the Secretary of State for Trade and Industry how much money has been spent by her Department in establishing the Benchmark Index for business. [145512]

Nigel Griffiths: £4 million was spent before this financial year, with a further £0.5 million allocated up to 31 March 2004.

The DTI Small Business Service's Benchmark Index service enables companies to assess where they stand against their competitors in about 80 different aspects of performance. Around 9,000 benchmarks have been carried out.

Brian Cotter: To ask the Secretary of State for Trade and Industry how much funding has been provided by her Department to fund the Connect website for small businesses. [145516]

Nigel Griffiths: The CONNECT website has been funded to a total of £125,000.

Departmental Relocation

Ms Walley: To ask the Secretary of State for Trade and Industry how many staff in her Department work in *(a)* the West Midlands and *(b)* North Staffordshire. [146905]

Ms Hewitt: Three hundred and eighty nine DTI staff work in the West Midlands and a further 25 in Staffordshire.

ECGD

Malcolm Bruce: To ask the Secretary of State for Trade and Industry which unrecovered claims outstanding with the Export Credits Guarantee Department her Department has established as unrecoverable; who the debtor is in each case; what the amount of outstanding debt is in each case; and what the project type is. [144807]

Mike O'Brien: It would not be possible to provide the majority of this information except at disproportionate cost. Some of the information could not be disclosed in any event, as to do so could prejudice negotiations ECGD is having or will have about recovering debt. Furthermore, it is only possible to say with confidence what is unrecoverable once recovery action is complete.

Economic Partnership Agreements

Mr. Bercow: To ask the Secretary of State for Trade and Industry if she will list Economic Partnership Agreements with the African, Caribbean and Pacific countries. [146636]

Mr. Mike O'Brien: The requirement for Economic Partnership Agreements (EPAs) negotiations is set out in the EU/ACP Cotonou Agreement. No EPA has yet been agreed between the EU and an ACP region. Phase 1 of the negotiations began in September 2002. The EU announced the launch of EPA negotiations with the Western and Central African regions—CEMAC (Central African Economic and Monetary Community) and ECOWAS (Economic Community of Western African States) in October 2003. Launches of negotiations between the EU and other ACP regions are expected to take place later this year. EPAs are expected to enter into force on 1 January 2008.

Mr. Bercow: To ask the Secretary of State for Trade and Industry what assessment she has made of the effect of the economic partnership agreements with the African, Caribbean and Pacific countries on the economies of the *(a)* ACP countries and *(b)* European Union members. [146638]

Mr. Mike O'Brien: My officials regularly seek progress updates from EU (European Union) officials on the required Sustainable Impact Assessments on the effect of the Economic Partnership Agreements (EPAs) with the African, Caribbean and Pacific (ACP) states.

The first phase of this work is currently being finalised by the EU and is expected to be published on the EU's website later this month. My officials will liaise with the EU on issues arising from this assessment work.

Electrical Waste Directive

Clive Efford: To ask the Secretary of State for Trade and Industry if she will make a statement on the implications of the waste electrical and electronic equipment directive for *(a)* manufacturers and *(b)* retailers. [146983]

Mr. Timms: The implications of the EU directive on waste electrical and electronic equipment (WEEE) for local authorities, manufacturers, retailers and others are set out in a consultation paper which the Government published on 25 November 2003. This is available at or may be downloaded from the Department's website at http://www.dti.gov.uk/sustainability/weee/index.htm. Copies are available in the House Library.

This consultation paper invites views on the Government's preferred approach to implementing the directive. It includes proposals for implementation of the directive's provisions on producer responsibility and retailer take-back.

The WEEE directive places no obligations on local authorities. The Government have made clear that there will be no new unfinanced burdens on local authorities as a result of the directive. However, the Government aim to encourage increased separate collection of WEEE in line with the directive's objectives and, in this context, it makes sense to build on existing collection activity at civic amenity sites. The Government wish to encourage local authorities to consider upgrading and/or introducing WEEE collection facilities at their amenity sites. It is proposed that money will be made available, via a fund, into which local authorities may bid to finance improved or greater separate collection of WEEE at their civic amenity sites.

The consultation suggests that this fund would be provided through a retailer take-back compliance scheme. The Government propose that the retailer scheme should provide funding initially of at least £5 million for civic amenity site upgrades in each of the five financial years between 2005–10, with an interim review in 2008, when the directive is expected to be revised. It is expected that most of the early expenditure would relate to capital costs and any initial operating costs.

The Government have included in its consultation package a report by consultants Network Recycling on the scope for upgrading and expanding WEEE collection at civic amenity sites around the UK. In summary, this report indicates that over half of civic amenity sites currently collect some WEEE and that there is significant scope for expanding this on the basis of site space available. It suggests that the baseline costs of such upgrades are in the region of £6–12 million, depending on the approach taken; and that on-going staffing and training costs could be in the region of £4–9 million per annum.

Energy Consumption

Norman Baker: To ask the Secretary of State for Trade and Industry how much energy was consumed per person in *(a)* the UK and *(b)* other EU countries in 2001. [147404]

Mr. Timms: Data on EU and worldwide energy consumption are collated annually by the International Energy Agency. The final consumption data for all EU countries relating to 2001, are shown in the table. Final consumption excludes energy used for transformation into other forms of energy.

Country	*Final consumption of energy per person, in tonnes of oil equivalent during 2001*
Austria	3.17
Belgium	4.19
Denmark	2.83
Finland	4.86
France	2.89
Germany	2.99
Greece	1.83
Ireland	3.05
Italy	2.32
Luxembourg	8.55
Netherlands	3.76
Portugal	1.95
Spain	2.32
Sweden	3.92
UK	2.75
Average for all EU countries	2.82

Energy Efficiency

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry by how much energy efficiency has improved in *(a)* the UK, *(b)* England, *(c)* Scotland and *(d)* Wales in each year since 1997. [146124]

Mr. Bradshaw: I have been asked to reply.

At present, figures are available only for the household sector, and for the UK as a whole. Figures for UK industry will be available in the spring. The household figures are:

Household energy efficiency

	Improvement on previous year (percentage)
1997	2.2
1998	0.5
1999	1.3
2000	2.1
2001	2.5
2002	2.5

The figures for 2002 are provisional.

The figures fluctuate considerably from year to year, but no more than historically, with the average annual improvement over this particular period very similar to that for the whole period from 1990, around 1.7 per cent. pa.

Energy Research and Development

Llew Smith: To ask the Secretary of State for Trade and Industry how much was spent on research, demonstration and development, since July 2001, on *(a)* active solar power, *(b)* passive solar power, *(c)* wave power, *(d)* tidal power, *(e)* geothermal powers, *(f)* onshore wind powers, *(g)* offshore wind powers, *(h)* biomass energy, *(i)* hydrogen conversion technologies, *(j)* fuel cells, *(k)* nuclear fission, *(l)* nuclear fusion, *(m)* clean coal, *(n)* combined heat and power and *(o)* combined-cycle gas by (i) the Department and (ii) relevant publicly owned utilities in each year since 1991; and what payments have been made to (A) Euratom, (B) the European Commission's joint research centres and (C) the International Atomic Energy Agency in each year since 1991. [146582]

Mr. Timms: Available information is set out in the tables.

£ million

	1991–92	*1992–93*	*1993–94*	*1994–95*	*1995–96*	*1996–97*	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*
Solar—Active (including PV)	0.1	0.3	0.1	0.9	0.7	0.6	0.7	0.9	1.7	1.7	2.0	5.3
Solar—Passive	2.8	2.6	2.9	2.2	1.6	1.5	1.3	0.5	0.1	0.0	0.0	0.0
Wave	0.6	0.4	0.3	0.2	0.1	0.1	0.0	0.2	0.0	0.5	0.9	0.9
Tidal	2.4	2.1	0.7	0.3	0.3	0.0	0.0	0.0	0.0	0.0	0.4	2.4
Geo Themal	2.0	1.5	1.4	0.4	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0
Wind—Onshore	8.1	10.6	9.0	4.0	4.2	2.9	1.6	1.3	1.1	0.9	1.3	0.9
Wind—Offshore	0.3	0.1	0.2	0.0	0.0	0.0	0.0	0.1	0.1	0.4	0.4	0.8
Biomass	1.5	2.4	3.0	3.4	3.2	2.6	1.9	1.8	2.2	1.8	1.8	1.9
Fuel Cells	0.4	0.5	1.1	1.3	1.6	1.2	1.2	1.6	1.6	1.8	1.7	1.4
Nuclear (see Note 2)	93.6	85.5	76.9	28.4	21.7	21.4	17.6	14.2	16.8	16.8	16.4	16.7
Clean Coal	7.4	6.8	12.0	8.0	7.8	6.9	3.1	2.9	2.5	4.3	4.4	4.5
Combined Heat and Power	0.3	9.3	0.4	0.5	0.5	0.7	1.0	1.3	1.9	2.5	2.8	3.0

Notes:

1. Separate research programmes do not yet exist for hydrogen conversion technologies or combined-cycle gas.
2. Of DTI's total spend on nuclear R&D given above, about £15 million annually is on fusion research; there is. also some additional expenditure in support of Meteorological Office emergency response arrangements which currently accounts for approximately £2.1 million. Fusion expenditure for 2003–04 is £15.6 million. The Research Councils expenditure on fission was ca 300k pa in 2001–2 and 2002–3. In addition, £5 million has also been earmarked for fission research but has not yet been awarded.
3. The table sets out identified Government spend and excludes, for example, spending by Research Councils. Spending by relevant publicly owned utilities could not be separated in the manner requested without disproportionate cost.
4. DTI's sustainable energy R&D programme also includes support for activitieswhich are not technology specific, for example, export, commercialisation, marketing and international activities.
5. For combined heat and power, Govewrnment expenditure is through DEFRA.

Payment appropriations from EC Budget to Euratom and to the European Commission's joint research centre 1991–2003

€ million

	1991	*1992*	*1993*	*1994*	*1995*	*1996*	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
JRC	261	257	257	269	240	234	232	236	243	259	249	250	n/a
Euratom	-	-	-	-	156	235	261	176	426	173	187	200	86

Notes:

1. EC budget payments to Euratom began in 1995.
2. Euratom spending. Figures are based on payment appropriations in the available EC budget documents for 2001–2003 and reflect spending on the specific programme (Euratom) for research and training in the field of nuclear energy.
3. The main Euratom activities fall under budget titles 6 (Energy and Transport) and 8 (Research), as well as some external actions lines. The figures presented are based on payments made.
4. Nuclear expenditure currently accounts for approximately 28 per cent. of the JRC's budget.

My Department annually pays the UK's assessed contributions to the Regular Budget and to the Technical Co-operation Fund of the International Atomic Energy Agency (IAEA). These are as follows:

Annual payments to the International Atomic Energy Agency from 1995—2004[1]

		£ million
1995	Regular Budget Subscription	8.0
	Technical Co-operation Fund	1.9
1996	Regular Budget Subscription	9.1
	Technical Co-operation Fund	2.2
1997	Regular Budget Subscription	7.7
	Technical Co-operation Fund	2.3
1998	Regular Budget Subscription	6.0
	Technical Co-operation Fund	2.5
1999	Regular Budget Subscription	6.1
	Technical Co-operation Fund	2.3
2000	Regular Budget Subscription	6.3
	Technical Co-operation Fund	2.4
2001	Regular Budget Subscription	6.6
	Technical Co-operation Fund	2.6
2002	Regular Budget Subscription	[2]7.5
	Technical Co-operation Fund	2.5
2003	Regular Budget Subscription	8.0
2004	Regular Budget Subscription	[3]7.6
	Technicial Co-operation Fund	[3]2.3

[1] Comparable figures for years before 1995 are unavailable.
[2] Corrected figure from that stated in Hansard 16 January 2003: column 792W.
[3] Provisional

In addition to the regular annual payments, my Department has made additional small voluntary contributions, which are summarised annually as follows.

Voluntary contributions to the IAFA from 1999—2003[1]

	£ million
1999	0.2
2000	0.1
2001	0.3
2002	0.5
2003	[2]0.8

[1] Comparable figures for years before 1999 are unavailable.
[2] Provisional

European Constitution

Llew Smith: To ask the Secretary of State for Trade and Industry what the United Kingdom's policy is in the negotiations on the new European Constitution on the integration and scope of Euratom within the Constitution's framework. [147023]

Mr. Timms: The Convention on the Future of Europe proposed that the Euratom Treaty should remain separate from a new Constitutional Treaty for the EU. The Government was content with this as a basis for discussions in the context of the negotiations at the IGC. During the negotiations, a draft Protocol was considered which would be annexed to the new Constitutional Treaty, incorporating some of its institutional and financial provisions into the Euratom Treaty. As the IGC did not reach final agreement at the December Council, the Irish Presidency are now looking at how to take negotiations forward and will be reporting back at the Spring Council.

European Standard Funds

Adam Price: To ask the Secretary of State for Trade and Industry if she will publish the mid-term verification of additionality document on the European Standard Funds submitted by her Department to the European Commission. [147727]

Jacqui Smith: There is no requirement and therefore no intention to publish the mid-term additionality verification documents produced by DTI for the UK Objective 1 areas.

The verification data supplied to the Commission for the mid-term additionality exercise showed that average annual expenditure in the period 2000–02 was equal to or better than that forecast in the 2000–06 ex-ante tables published in the original Single Programming Documents for each Objective 1 area.

Flexible Working

Mr. Jim Cunningham: To ask the Secretary of State for Trade and Industry what steps her Department is taking to ensure that workers who take up flexible working options do not suffer from *(a)* poor career prospects and *(b)* poor job security [146947]

Mr. Sutcliffe: According to the Labour Force Survey Spring 2003, 5.5 million employees work through some form of flexible working arrangement—equivalent to 22 per cent. of employees.

The Department surveyed employers and employees on work-life balance in January 2003, and specifically addressed the issues of job security and progression:

> The study of employers revealed that they largely reject the notion that flexible working can have an adverse impact on an employee's chances of promotion. Three-quarters (74 per cent.) of employers agreed that people who work flexibly are just as likely to be promoted as those that do not, while 15 per cent. neither agreed nor disagreed or did not know. The study of employees has only preliminary findings currently available, which can be found on the Internet (www.dti.gov.uk/er/emar/). We expect to publish the full report soon.

The Government are seeking to affect a culture change in the workplace where flexible working is seen as the norm and there is no question of poor career prospects or job security. We are looking to do this in two main ways:

> Through the DTI's Work-Life Balance Campaign we are encouraging employers to offer flexible working opportunities across the workforce. In April 2003 a new law giving parents the right to request flexible working was introduced, placing a statutory duty on employers to consider the request seriously. This was targeted legislation for parents of young and disabled children as they face particular challenges.

The DTI is collecting evidence from a number of sources to monitor the impact of its action to promote flexible working practices:

> We continue to work with key intermediaries, such as Working Families and Maternity Alliance, who are collating data through member/supporter surveys. The Department has commissioned questions specifically relating to job security and progression which currently appear in the Office of National Statistics' Omnibus survey. The results of these are due in spring 2004. To provide a direct comparison over time, it is planned that both Work-Life Balance surveys will be repeated in 2005.

The information collected will contribute towards the review of the flexible working law that the Government have said will begin in 2006. This provides time for the legislation to bed down and have effect, alongside the on-going promotion of best practice. Collected information will also provide early warning of any problems or unintended consequences associated to flexible working and for the development of future policy.

Mr. Jim Cunningham: To ask the Secretary of State for Trade and Industry how her Department plans to promote flexible working, with particular reference to male workers. [146948]

Mr. Sutcliffe: In addition to the detail I provided in my answer to my hon. Friend on 5 December 2003, *Official Report*, column 446W, I can confirm that as part of the on-going awareness raising campaign, adverts specifically targeting fathers are appearing in national newspapers throughout January, covering news and sport sections, with another burst of activity planned for March.

The Work-Life Balance Challenge Fund has also recently supported projects promoting flexible working in oil and engineering companies, which are traditionally considered to be male dominated industrial sectors.

Friction Dynamex

Mr. Hancock: To ask the Secretary of State for Trade and Industry what representations she has received following *(a)* the dismissal of workers at Friction Dynamex and *(b)* their failure to receive money awarded to them by the industrial tribunal; and if she will make a statement. [146829]

Mr. Sutcliffe: Throughout the dispute at Friction Dynamics and the subsequent tribunal process representations have been received on a number of issues from the TUC, the workers involved, the T&G union representing the workers, other interested unions, MPs and individuals.

Graffiti

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what research her Department has carried out into the use of washable solvents in aerosol paint sprays as a means of combating graffiti. [142840]

Alun Michael: I have been asked to reply.

No such research has been carried out.

Industrial Disease

Mr. Clapham: To ask the Secretary of State for Trade and Industry what estimate she has made of the number of claims that could be lodged for chronic obstructive pulmonary disease; and if she will make a statement. [147200]

Nigel Griffiths: As of 4 January 2004, we have received over 383,000 claims and these continue to come in at a rate of around 8,000 per week. If it continued at the present rate, the level of claims will reach approximately 480,000.

Industrial Tribunals

Mr. Hancock: To ask the Secretary of State for Trade and Industry how many workers who won their cases, since 1997, at industrial tribunals have failed to receive payments awarded; what sums have been defaulted upon in each case; what steps she is taking to resolve the problem; and if she will make a statement. [146513]

Mr. Sutcliffe: I regret that the information requested is not available. Individuals who do not receive sums awarded to them by employment tribunals are entitled to enforce those awards through the civil courts.

Iraq

Mr. Gardiner: To ask the Secretary of State for Trade and Industry what progress has been made since September on negotiations with the European Commission to reinstate the Generalised System of Preferences in Iraq. [145606]

Mr. Mike O'Brien: The UK has continued to make representation to the European Commission on Iraq's eligibility under the Generalised System of Preferences (GSP), conveying the UK Government's wish to re-instate GSP in Iraq as soon as possible. The UK will continue to press for progress on this matter. DG Trade in the Commission have indicated their agreement of the importance of re-establishing GSP in Iraq as soon as possible.

With Iraq, the situation remains the same and a suitable body to take responsibility for the necessary administration of GSP has still to be identified.

Local Newspapers

Mr. Austin Mitchell: To ask the Secretary of State for Trade and Industry what proportion of regional and local newspapers are owned by the five largest newspaper groups; and what proportion were owned by those groups in *(a)* 1990 and *(b)* 1997. [146822]

Mr. Sutcliffe: This information cannot be provided from official statistics. However, some industry statistics relating to the question are available through the Newspaper Society.

Manufacturing Advisory Service

Mr. Jim Cunningham: To ask the Secretary of State for Trade and Industry what assessment she has made of the work of the Manufacturing Advisory Service within Coventry and the West Midlands since it was established; and what steps her Department is taking to ensure more manufacturers engage with their local MAS centres. [147242]

Jacqui Smith *[holding answer 12 January 2004]:* Since its launch in September 2002, the Manufacturing Advisory Service's regional centre in the West Midlands has achieved considerable success as a source of advice and support for manufacturers. It has responded to 2,377 inquiries from firms seeking advice, visited 895 companies to carry out initial health checks and completed 395 in depth consultancies in the West Midlands. It has worked with 88 companies in Coventry and 200 in the Coventry and Warwickshire Business Link catchment area, accounting for 4.3 per cent. and 9.9 per cent. respectively of the total number of manufacturers it has engaged with.

All the regional centres of the service have active programmes for marketing their services to local manufacturing firms. This, combined with the excellent reputation that the service has achieved among manufacturers, has resulted in a sustained and substantial increase in demand for its services. So far the MAS has dealt with approximately 15,500 inquiries and carried out over 4,500 diagnostic and advisory visits. The actual total value added it has given UK manufacturers is now approaching £30 million.

Ofgem

David Cairns: To ask the Secretary of State for Trade and Industry what happens to the money raised in fines levied by Ofgem from power companies found guilty of erroneously transferring customers. [147422]

Mr. Timms: Section 59(10) of the Utilities Act 2000 requires that any sums received by Ofgem following the imposition of a financial penalty should be paid into the Consolidated Fund.

Photovoltaic Cells

Ian Lucas: To ask the Secretary of State for Trade and Industry what estimate she has made of the number of photovoltaic cells *(a)* currently in use in the UK and *(b)* which will be in use in (i) 2005, (ii) 2006 and (iii) 2007. [147048]

Mr. Timms: Installed capacity at the end of 2002 was 4.14MW. Figures for 2003 are not yet available, but we expect capacity to have increased to around 6MW. By the end of the first phase of the Major Photovoltaics Demonstration Programme in 2005–06, we would expect that to have increased to between 12 and 15 MW. Predictions beyond that timescale are much less certain.

Ian Lucas: To ask the Secretary of State for Trade and Industry what grants are available to promote the use of photovoltaic cells by *(a)* industry and commerce and *(b)* domestic consumers; and how much has been paid in grants in each case in each of the last three years for which figures are available. [147049]

Mr. Timms: The £20 million first phase of the Major Photovoltaic Demonstration Programme is open to all applicants, including industry, commerce and domestic consumers. The programme was launched in April 2002, and in the first year, £428,000 was paid out in grants to small-scale applicants (Stream 1, less than 5kW each). However, total grant committed was £1,220,000 for Stream 1 and £5,610,000 for Stream 2 (group housing and medium/large-scale non-residential buildings). There is normally a delay of three to 12 months between applications being approved and the PV systems being installed, depending on size.

So far during the second year of the programme, £730,000 of grants have been paid out for Stream 1 and £260,000 for Stream 2. Grants committed in the second year to end December are £1,700,000 for Stream 1 and £5,300,000 for Stream 2. Under Stream 1, about 70 per cent. of grants are going to domestic consumers, and about 6 per cent. to small and medium-sized enterprises. Under Stream 2, about 10 per cent. of grants have gone to industry and commerce.

Post Offices

Malcolm Bruce: To ask the Secretary of State for Trade and Industry how many *(a)* urban and *(b)* rural post offices there are in each constituency; and how many post offices in each (i) constituency and (ii) region (A) have closed and (B) are expected to close as part of the Government's modernisation of the post office network. [147067]

Mr. Timms *[holding answer 12 January 2004]:* Post Office Ltd. produces lists, updated annually, of post offices, classified as urban or rural, in each parliamentary constituency. The most recent list showing the position as at the end of April 2003 is available in the Library of the House. Post Office Ltd. expects that up to 3,000 urban sub post offices could close under the network reinvention programme but there is no list and the precise number of closures under the programme will not be known until it ends.

Final decisions on post office closure arrangements are an operational matter for Post Office Ltd. and I have asked its Chief Executive to respond directly to the hon. Member on the number of closures under the urban reinvention programme.

Mr. Weir: To ask the Secretary of State for Trade and Industry how many sub-post offices in Scotland have been scheduled for closure by the Post Office under the Network Reinvention Scheme in each of the last four months, broken down by parliamentary constituency. [147469]

Mr. Timms: Proposals put out to consultation for, and subsequent decisions on post office closures under the urban reinvention programme are an operational matter for Post Office Ltd. and I have asked the Chief Executive to reply direct to the hon. Member.

Mr. Weir: To ask the Secretary of State for Trade and Industry which sub-post offices in Scotland scheduled for closure under the Network Reinvention Scheme remained open following public consultation on the proposal. [147470]

Mr. Timms: Decisions on post office closure proposals under the urban reinvention programme following public consultation are an operational matter for Post Office Ltd. and I have asked the Chief Executive to reply direct to the hon. Member.

Power Cuts (Yorkshire)

David Davis: To ask the Secretary of State for Trade and Industry how many power cuts there have been in *(a)* the area for which Yorkshire Electricity provides power and *(b)* Haltemprice and Howden in each of the last five years; and what estimate she has made the cost to local businesses in each case. [147243]

Mr. Timms: Yorkshire Electricity Distribution Ltd. have advised that the number of interruptions affecting one or more customers per annum are as follows:

	(a) Yorkshire Electricity area	*(b) Haltemprice and Howden (including surrounding areas)*
1999	10,430	429
2000	10,995	438
2001	11,549	486
2002	13,581	446
2003	12,109	417

In 1999, Ofgem estimated that the value of each undelivered MWh of electricity represented around £3,000 in lost output to the economy. Quantifying the loss to a local area would be very difficult since it would be necessary to establish the monetary loss to each business on each occasion.

Strikes (Dismissal)

Mr. Hancock: To ask the Secretary of State for Trade and Industry how many workers have been dismissed after striking for longer than eight weeks in each year since 1997; and which companies were involved in each case. [146830]

Mr. Sutcliffe: This information is not collated in official statistics. Protections were established by the Employment Relations Act 1999 against unfair dismissal for striking workers for an eight-week period from the start of official, lawfully organised industrial action. Only one case that we are aware of, that of Mr J. Davies *v.* Friction Dynamics, has arisen under the jurisdiction and an employment tribunal found in favour of the workers. Analyses by the Office of National Statistics suggest that over a three-year period 93 per cent. of strikes lasted less than eight weeks.

Tax Avoidance

Mr. Austin Mitchell: To ask the Secretary of State for Trade and Industry if she will bring forward legislation preventing auditors from selling tax avoidance schemes to their audit clients. [146534]

Mr. Sutcliffe: No. The Government concluded in January 2003, in the light of the Report of the Coordinating Group on Audit and Accounting Issues, that standards on auditor independence, including on the provision of non-audit services to audit clients, should be set by the Auditing Practices Board (APB). The Government invited the APB to look in particular at the provision of a number of non-audit services including taxation services. Following this, the APB published a consultation paper, "Draft Ethical Standards for Auditors", in November 2003. Paragraphs 4.40 to 4.52 of the consultation paper and paragraphs 51 to 66 of draft Ethical Standard 5 address the provision of tax services by audit firms to their audit clients. In addition, the revised Combined Code on Corporate Governance, published by the Financial Reporting Council in July 2003, places on the audit committee in a listed company responsibility for developing and implementing policy on the engagement of the external auditor to supply non-audit services.

Uzbekistan

Mrs. Mahon: To ask the Secretary of State for Trade and Industry if she will make a statement on trade relations with Uzbekistan since 2001. [145756]

Mr. Mike O'Brien: The UK's trade with Uzbekistan is at a relatively low level. Bilateral trade totalled £36 million in 2002. Uzbekistan is a difficult market for exporters and investors. The Uzbek-British Trade and Industry Council (UBTIC) meets annually to discuss issues related to the development of bilateral trade.

World Trade

Mr. Bercow: To ask the Secretary of State for Trade and Industry (1)what discussions she has had since 17 September 2003 with *(a)* the World Trade Organisation, *(b)* the European Commission and *(c)* the United States about the use of special and differential treatment; [146584]

(2) what progress has been made with the establishment of an expert working group on special and differential treatment to report to the General Council of the World Trade Organisation. [146644]

Mr. Mike O'Brien: It is important that WTO rules more fully reflect different WTO members' implementation capacities and stages of development. We are therefore disappointed at the lack of progress which has been made in addressing special and differential treatment issues post-Doha.

We had hoped to see agreement in Cancun to at least an initial package of measures, however limited, which might then have opened the way to a wider dialogue on special and differential treatment within the WTO, perhaps through the creation of an expert working group. In the event, no such package of measures was agreed and no progress made on establishing a wider dialogue, through an expert working group or otherwise.

We will continue to press the case for appropriate special and differential treatment within the WTO system with all relevant interlocutors.

HEALTH

Agency Staff

Mr. Burstow: To ask the Secretary of State for Health what the estimated cost to the NHS of timesheet fraud by agency staff was in each of the last six years. [147258]

Mr. Hutton: Estimated figures of timesheet fraud by agency staff across the whole national health service are not available. The Counter Fraud and Security Management Service has, however, investigated cases of timesheet fraud committed by both bank and agency staff that have resulted in 33 criminal prosecutions. Information will be sent to the NHS in England and Wales on how to improve systems and stop the fraudulent practices.

Animal Insulin

Mrs. Calton: To ask the Secretary of State for Health (1) what assessment he has made of the continuing availability of animal insulin; [147016]

(2) what assessment he has made of the difference in cost to the NHS of prescriptions of animal insulin as compared to GM insulin per 1,000 prescriptions; [147017]

(3) what assessment he has made of the benefits of GM insulin as against animal insulin. [147019]

Ms Rosie Winterton: There are two companies supplying animal insulin in the United Kingdom. The Department is in regular contact with these companies and both have confirmed that they will continue to supply animal insulin for the foreseeable future.

There has been no assessment or forecast made of the difference in cost of prescriptions of animal and genetically modified insulin per 1,000 prescriptions. However, the table shows the number of prescription items that were dispensed in the community in England, and their cost, in the 12 months ended June 2003 and the average net ingredient cost per item.

Number of prescription items, net ingredient cost and average net ingredient cost per item of insulins that were dispensed in the community in England for the 12 months ending June 2003

	Number of prescription items (£000)	*Net ingredient cost (£000)*	*Average net ingredient cost per item (£)*
Highly purified animal	128.1	4,217.2	32.92
Human sequence (GM insulin)	3,522.0	150,528.8	42.74
All insulins	3,650.0	154,746.0	42.40

Notes:

1. The data are from the Prescription Cost Analysis (PCA) system which covers all prescription items that are dispensed in the community in England. This does not include drugs dispensed in hospitals or private prescriptions.

2. Insulins are those defined in the British National Formulary (BNF) paragraph 6.1.1, "Insulins". Insulin drugs have been grouped into highly purified animal and human sequence (GM) insulin in line with the British National Formulary (BNF)
3. Doctors write prescriptions on a prescription form. Each single item written on the form is counted as a prescription item. The net ingredient cost refers to the cost (which the dispenser is reimbursed) of the drug before discounts and does not include drugs dispensed in hospitals or private prescriptions.

Choice and Plurality Policies

Mr. Blizzard: To ask the Secretary of State for Health what estimate he has made of the percentage of patients on waiting lists who will accept the offer of an alternative provider under the Choice and Plurality policies; and what assessment he has made of the capacity available to meet the demand. [140620]

Mr. Hutton: All strategic health authorities have completed robust plans for the implementation of choice for patients waiting six months for elective surgery during April 2004 to December 2005. The plans anticipate that some 85,000 patients who have waited over six months will accept the choice of moving to another hospital for further treatment. From December 2005, choice will be offered at general practitioner referral, benefiting 10 million patients each year.

Mr. Blizzard: To ask the Secretary of State for Health whether alternative medicine will be available to patients within the NHS under the Choice and Plurality policies. [140622]

Mr. Hutton: The need to develop a framework for access to complementary medicines was raised by the task groups in the National Consultation on Choice, Equity and Responsiveness. This suggestion will need further exploration and development and the Department will bring forward proposals for action in 2004.

Civil Servants (Disabilities)

Mr. Goodman: To ask the Secretary of State for Health what progress has been made in meeting targets for the proportion of people with disabilities in senior posts in his Department. [146004]

Ms Rosie Winterton: The latest staffing data, as at 1 April 2003, shows that in the Department and its agencies there are nine senior civil servants who have declared that they have a disability. This represents 2.4 per cent. of the total number of senior civil servants in the Department on that date.

Statistical information about senior civil servants with disabilities is available on the Civil Service Statistics website at www.civil-service.gov.uk/statistics/documents/pdf/disability-oct03.pdf.

This information is also available in the Library.

Paediatric Continence

Mr. Drew: To ask the Secretary of State for Health (1) what research has been conducted on links between bowel and bladder problems in children and child abuse; [146723]

(2) how many parents have been *(a)* accused of and *(b)* admitted to abuse of their child as a result of nocturnal enuresis or daytime wetting; [146724]

(3) what research the Department has conducted into the prevalence of continence conditions in *(a)* children of offenders, *(b)* children in care, *(c)* children of asylum seekers and *(d)* children in lower socio-economic groups; [146725]

(4) which primary care trusts have dedicated paediatric continence services. [146726]

Dr. Ladyman: The Department of Health has not commissioned any recent research on links between bowel and bladder problems in children and child abuse.

Data on the number of parents accused, and admitting to abuse of their children as result of enuresis are not collected centrally.

A study published in 1997, based on data from the national study of health and growth, found that a father's social class was associated with enuresis only in girls, with a higher prevalence in those whose fathers were manual workers.

"Good practice in continence services", issued by the Department in April 2000, provides guidance to primary care trusts (PCTs) on continence services. This includes that PCTs should have specialist continence services in place, which provide patients with an individual assessment of their needs. Provision of these services in England is a matter for PCTs, which are responsible for determining the level of services required to meet the needs of their local populations. The Department does not monitor provision in this level of detail.

Toilet training for children is considered in the Department of Health guide, "Birth to Five", available free to first time mothers and at www.doh.gov.uk/birthtofive/. The Department has not commissioned any recent research on toilet training for children.

Continuing Care

Mr. Hammond: To ask the Secretary of State for Health what the reasons are for the delay in publishing the Continuing Care (National Health Service Responsibilities) Directions 2003. [147036]

Dr. Ladyman: As a result of amendments made to the Delayed Discharges (Continuing Care) Directions in response to external consultation with key stakeholders, the Continuing Care (National Health Service Responsibilities) Directions required consequential amendments, and further consultation. This has delayed the expected date of publication.

Dementia

Mr. Djanogly: To ask the Secretary of State for Health how many people with dementia live in residential care *(a)* in Cambridgeshire and *(b)* in England; and how many people with dementia in residential care are funded by the NHS. [146439]

Dr. Ladyman: There were 160 adults aged 18 and over with dementia receiving residential care in Cambridgeshire and an estimated 16,000 in England in 2001–02.

Information on the number of people with dementia in residential care funded by the national health service is not available.

Departmental Job Losses

Tim Loughton: To ask the Secretary of State for Health when the results of the Executive Agency review into job losses in his Department will be published. [143055]

Mr. Hutton: The Department's review of its arm's length bodies will take place in the first half of 2004 and will cover executive non-departmental public bodies and special health authorities as well as executive agencies. No decision has yet been taken on publication of the results of the review.

Departmental Staff

Mr. Russell Brown: To ask the Secretary of State for Health what percentage of staff employed within his Department are over 55 years of age; and what *(a)* number and *(b)* percentage of staff recruited over the last 12 months are over 55 years of age. [145931]

Ms Rosie Winterton: The information requested is as follows:

Percentage of staff over 55 years of age: 7.26

Number of staff over 55 years of age: 378

Percentage of staff over 55 years of age recruited over the past 12 months: 3.52

The Department has implemented the recommendations of the Government's "Winning the Generation Game" report. Equality of opportunity for all staff is a key feature of the Department's employment policy. There are no age barriers to employment and retirement age is determined on business needs only.

Drug Prices

Tim Loughton: To ask the Secretary of State for Health what figure has been used by his Department in calculating drug price inflation in each of the last six years. [144144]

Mr. Hutton: The figures that reflect drug price inflation in each of the last six years are shown in the table.

	Percentage growth due to price
1997–98	4.60
1998–99	3.87
1999–2000	7.94
2000–01	1.74
2001–02	2.17
2002–03	6.26

Tim Loughton: To ask the Secretary of State for Health what the total NHS drugs bill was in each of the last six years. [144149]

Mr. Hutton: The total National Health Service drug spend for the last six years is shown in the tables.

£ million

Cash	*Primary Care*		*HCHS*	*Total Drug Spend*	
Year	*Gross outturn*	*Net outturn*	*outturn*	*Gross Outturn*	*Net Outturn*
1997–98	4,107	4,085	1,088	5,195	5,173
1998–99	4,356	4,339	1,211	5,567	5,550
1999–2000	4,851	4,833	1,369	6,220	6,202
2000–01	5,168	5,161	1,530	6,698	6,691
2001–02	5,559	5,552	1,740	7,298	7,292
2002–03	6,217	6,209	2,013	8,230	8,222

Note:

Cash Figures:

1. Primary care figures include amounts paid to pharmacy and appliance contractors by the PPA and amounts authorised for dispensing doctors and personal administration in England, for financial years April to March. The data do not cover costs for drugs dispensed in hospital, drugs prescribed in hospitals but dispensed in the community or private prescriptions. Note, Primary Care actual drug cost = Net ingredient cost + VAT + container costs—discount allowance.
2. Primary Care NET figures include Pharmaceutical Price Regulation Scheme (PPRS) receipt savings.
3. Hospital and Community Health Services expenditure on drugs includes medical gases.

Source:

NB. Resource figures have been available only for the last three years.

£ million

Resource	*Primary Care Drug Spend*		*HCHS*	*Total Drug Spend*	
Year	*Gross outturn*	*Net outturn*	*outturn*	*Gross Outturn*	*Net Outturn*
2000–01	5,160	5,158	1,530	6,690	6,688
2001–02	5,714	5,707	1,740	7,454	7,447
2002–03	6,349	6,344	2,013	8,362	8,357

Note:

Resource Figures:

1. The total actual cost of drugs and appliances prescribed by GP/Nurses within England plus any central budget expenditure or locally authorised payments.
2. Primary Care NET figures include Pharmaceutical Price Regulation Scheme (PPRS) receipt savings.
3. Hospital and Community Health Services expenditure on drugs includes medical gases.
4. 2002–03 figures are provisional and are still to be confirmed with accounts.

Emergency Readmissions

Sandra Gidley: To ask the Secretary of State for Health what percentage of discharged patients aged 75 years and over were readmitted within one month as emergencies in each quarter since 1997. [147308]

Dr. Ladyman: The Department collects information on emergency re-admissions to hospital within 28 days of discharge. Between 1997 and 2002, this information was collected for those patients aged 75 and over.

Monitoring information is now collected on an all ages basis to avoid perverse incentives that could lead to older people being denied care in hospital when this is necessary.

The information requested is shown in the tables.

Financial year	Quarter	Number of people aged 75 and over discharged from hospital	Number of people aged 75 and over readmitted as an emergency within 28 days of discharge	Rate of 28 day emergency readmission for people aged over 75 (%)
2003–04	Q2			
2003–04	Q1			
2002–03	Q4			
2002–03	Q3			
2002–03	Q2			
2002–03	Q1			
2001–02	Q4	437,034	31,493	7.2
2001–02	Q3	429,124	31,427	7.3
2001–02	Q2	422,143	30,083	7.1
2001–02	Q1	408,817	29,878	7.3
2000–01	Q4	409,335	31,538	7.7
2000–01	Q3	411,137	29,896	7.3
2000–01	Q2	406,761	28,820	7.1
2000–01	01	390,010	28,735	7.4
1999–2000	Q4	377,277	28,611	7.6
1999–2000	Q3	368,244	26,523	7.2
1999–2000	Q2	368,329	26,758	7.3
1999–2000	Q1	346,079	26,702	7.7
1998–99	Q4	365,801	29,933	8.2
1998–99	Q3	361,266	29,110	8.1
1998–99	Q2	357,275	28,839	8.1
1998–99	Q1	342,787	29,213	8.5
1997–98	Q4	343,170	24,435	7.1
1997–98	Q3	335,188	23,771	7.1
1997–98	Q2	333,781	22,385	6.7
1997–98	Q1	326,996	23,557	7.2
1996–97	Q4	339,389	23,625	7.0

Financial year	Quarter	Number of people of all ages discharged from hospital	Number of people of all ages readmitted as an emergency within 28 days of discharge	Rate of 28 day emergency readmission for people of all ages (%)
2003–04	Q2	2,405,479	131,981	5.5
2003–04	Q1	2,402,573	135,153	5.6
2002–03	Q4	2,501,481	138,742	5.5
2002–03	Q3	2,429,606	131,704	5.4
2002–03	Q2	2,334,696	124,176	5.3
2002–03	Q1	2,313,818	125,085	5.4

Gas Price Increases

Mr. Burstow: To ask the Secretary of State for Health what assessment he has made of the impact on the NHS of planned increases in gas prices; and what assumptions were made in the comprehensive spending review about the cost of gas and electricity supplies to the NHS. [146354]

Mr. Hutton: National health service gas is bought on a variety of contract options, contract start dates and differing indices. This limits exposure to severe increases across the portfolio, although individual sites may have experiences significantly above or below average, largely due to timing.

The total actual increases in gas costs for the NHS in 2003–04 will be approximately £7 million over and above the 2002–03 figure. If all gas had been bought at the highest peak prices so far in 2003–04, the increase would have been approximately £15.1 million.

As far as I am aware there are no further planned increases in gas prices beyond usual market forces.

In the comprehensive spending review, in 1998 and subsequent spending reviews in 2000 and 2002, there has been no special provision for inflation in gas and electricity prices. These have been covered by the general prices inflation.

General Practitioners

Mr. Burstow: To ask the Secretary of State for Health how many *(a)* general practitioner partnerships and *(b)* single-handed practices have closed in (i) England and (ii) each strategic health authority in each of the last six years. [144319]

Mr. Hutton: This information is not collected. Successive annual censuses, published as "Statistics for General Medical practitioners in England", which is available at www.doh.gov.uk/public/stats1.htm, shows a steady trend towards larger partnerships with more general practitioners working in the national health service than ever before.

Dr. Murrison: To ask the Secretary of State for Health what assessment he has made of the need for general practitioner pay adjustments in areas not covered by the new General Medical Services contract. [144447]

Mr. Hutton: The benefits of the new general medical services (GMS) contract are potentially available to all general practitioners. However, over 40 per cent. of GPs have opted, over a period of time, for locally agreed personal medical services (PMS) contracts. In order that these GPs can also benefit from the key provisions of the new QMS contract, it has already been agreed, and communicated to the profession, that similar benefits will also be available to PMS practices. The benefits for which they will be eligible are:

- Comparable new investment to that proposed for QMS
- Comparable investment for delivering quality outcomes
- Improved seniority pay
- Improved pension benefits
- Increased investment in and modification to information management and technology systems
- More flexible premises arrangements
- The same ability to opt out of out of hour responsibilities

Therefore, comparable arrangements will be available to all GPs under either the new QMS or PMS contracts.

Mr. Bailey: To ask the Secretary of State for Health what estimate he has made of the number of general practitioners who will retire in the next five years. [144604]

Mr. Hutton: Information on the estimated number of general practitioners who will retire in the next five years is not available.

NHS Land

Mr. Burstow: To ask the Secretary of State for Health how much NHS land his Department is planning to sell at the latest date for which figures are available. [144944]

Mr. Hutton: The planned receipts from land sales are £185 million for 2004–05 and £140 million for 2005–06, as set out in the Department's Capital Investment Strategy.

Learning Disabilities

Mr. Blizzard: To ask the Secretary of State for Health what plans he has to provide earmarked funding to local authorities to *(a)* increase capacity and *(b)* modernise services for adults with learning disability. [146735]

Dr. Ladyman: We have no such plans.

Our proposals for improving services for people with learning disabilities, their families and carers are set out in the White Paper, "Valuing People: A New Strategy for Learning Disability for the 21st Century" (Cm 5086), published in March 2001. The White Paper announced the creation of two new funds to support its priorities, the Implementation Support Fund from April 2001 and the Learning Disability Development Fund from April 2002. Our annual report on learning disability, "Making Change Happen" (HC 514), published in April 2003, announced that the Support Fund would continue until March 2006; the Development Fund will also continue until March 2006. A copy of the report was sent to all English hon. and right hon. Members.

In addition, over £3 billion a year is spent on health and social care provision for people with learning disabilities. People with learning disabilities also use mainstream health and social services and benefit from increased expenditure on those services.

National Service Framework for Older People

Mr. Key: To ask the Secretary of State for Health what arrangements are in place to monitor the implementation of the national service framework for older people; what proportion of primary care trusts (PCTs) have implemented it; by what date PCTs should have implemented it; and what sanctions will be applied to PCTs that fail to do so. [146576]

Dr. Ladyman: The main service development milestones in the national service framework (NSF) for older people: specialist stroke services, joined-up mental health services for older people and more intermediate care services by April 2004, and the development of integratedfalls services by April 2005, are being monitored centrally as these are specific targets in "Improvement, Expansion and Reform": the priorities and planning framework for 2003 to 2006. The Commission for Health Audit and Inspection, with the Audit Commission and the Commission for Social Care Inspection will be conducting a study in 2005 to determine how well the NSF is being implemented.

Overall responsibility for ensuring that the NSF is implemented rests with individual strategic health authorities.

Mr. Key: To ask the Secretary of State for Health if he will make a statement on the implementation of the national service framework for older people. [146577]

Dr. Ladyman: Good progress is being made with the implementation of the national service framework (NSF). The majority of organisations met the early milestones putting in place the structures and people needed for implementation.

The three key NSF milestones regarding the development of specialist stroke services, joined-up mental health services for older people and integrated falls services, and capacity assumptions for intermediate care services are included in the priorities and planning framework for 2003 to 2006 as "must do" targets. Most strategic health authorities are planning to meet these milestones. An on-going dialogue is taking place with the few who are not.

NHS Beds

Tim Loughton: To ask the Secretary of State for Health what proportion of NHS beds are single room beds, broken down by hospital trust. [145045]

Mr. Hutton: The data requested has been placed in the Library. The proportion of single rooms will vary from trust to trust depending on the services provided. Where primary care trusts have beds it is usually in a single hospital and where this provides mental health services, treatment patterns are likely to dictate a high proportion of single rooms.

NHS Finance

Mr. Simmonds: To ask the Secretary of State for Health what the per capita expenditure was in each health authority in England and Wales in each year since 2000. [144630]

Mr. Hutton: Information relating to the per capita expenditure by English health authorities for 2000–01 and 2001–02 has been placed in the Library. Information relating to the strategic health authorities for 2002–03 (the latest year available) has also been placed in the Library. Information for Wales is a matter for the National Assembly for Wales.

NHS Professionals

Tim Loughton: To ask the Secretary of State for Health how many staff have been recruited through NHS Professionals since its inception. [145668]

Mr. Hutton: A total of 63,363 temporary staff members have been recruited through NHS Professionals to date, of whom 60,463 were nurses, midwives or health visitors and 2,900 were doctors.

NHS Staff

Mr. Burstow: To ask the Secretary of State for Health how many applications to train as *(a)* general practitioners, *(b)* social workers and *(c)* physiotherapists have been received in each of the last six years. [144290]

Mr. Hutton: The national recruitment office for general practitioner training collects data on the number of applications and applicants to train as a GP. It has been in existence for 12 months and holds data for recruitment to GP training posts to commence August 2003 and February 2004. These are shown in table 1.

Prior to March 2003, information on the number of applications and applicants to train as a GP was not collected centrally. Information on the number of applicants for February 2004 is not yet available.

1. Applications and applicants to train as a GP August 2003 and February 2004

	August 2003 posts	*February 2004 posts*
Number of applications	4,339	4,602
Number of applicants	2,373	—

Notes:
1. August 2003 figures include English deaneries only. Northwestern deanery does not recruit to February posts.
2. For February 2004, some deaneries re-advertised unfilled posts. This data is not available yet.

Information on the total number of applications and applicants to train as social workers in England is not available centrally. However, the General Social Care Council collects information on applications made via the social work admissions system (SWAS) and this is shown in table 2. Only about 50 per cent. of all applications were made through SWAS, with the remainder made through the Universities and Colleges Admissions System (UCAS), or directly to colleges and universities. Comparable UCAS data is not available. Until 1998, data on applications was only collected on a United Kingdom-wide basis.

2. Applications through the Social Work Admissions System in England 1997–2002 for the Diploma in Social Work (DipSW)

	Number of applications
1997	n/a
1998	4,800
1999	4,049
2000	3,667
2001	3,678
2002	3,880

The number of applications and applicants to physiotherapy courses through UCAS by year of entry is shown in table 3.

3. Applications and applicants through UCAS in England 1997–2002 to train in physiotherapy

	Main scheme applications	*Main scheme applicants*
1997	28,428	7,057
1998	27,829	6,589
1999	26,162	6,184
2000	24,849	6,077
2001	21,535	5,383
2002	22,629	5,683

Note:
Each applicant can make up to six choices on the UCAS form for physiotherapy courses at different higher education institutions.

Tim Loughton: To ask the Secretary of State for Health how many members of staff have left NHS Estates (Inventures) in each of the last three years. [145021]

Mr. Hutton: The number of Inventures permanent civil servants leaving central Government for 2001–02, 2002–03 and 2003–04 was 28, 53 and 34 respectively.

Tim Loughton: To ask the Secretary of State for Health how many non-clinical staff are employed in each primary care trust in England, broken down by grade. [145937]

Mr. Hutton *[holding answer 5 January 2003]*: The information requested has been placed in the Library.

Midwives

Mr. Burstow: To ask the Secretary of State for Health (1) how many United Kingdom trained nurses were not registered to practise in the UK in each year since 1996; [147245]

(2) how many United Kingdom trained midwives were not practising in the United Kingdom in each year since 1996. [147246]

Mr. Hutton: The Department of Health does not collect the information requested.

The Nursing and Midwifery Council collects information on the number of midwives intending to practise in the United Kingdom as a proportion of effective midwives. This information can be found at www.nmc-uk.org.

Pain Management

Mr. Burstow: To ask the Secretary of State for Health what the waiting-time was *(a)* from written referral from general practitioner to first out-patient appointment with a pain management consultant and *(b)* for patients waiting for elective admission where the main specialty is pain management in (i) England, (ii) each NHS region and (iii) each strategic health authority in each of the last five years. [146217]

Mr. Hutton: The information requested has been placed in the Library.

Physician's Assistants

Mr. Bailey: To ask the Secretary of State for Health what assessment he has made of the potential role of physicians' assistants in the UK. [144603]

Mr. Hutton: The Department has commissioned an independent evaluation of the role of physician assistant. The evaluation began February 2003 and will run until 2005.

In the meantime, the national health service is developing roles similar to that of the physician assistant. These are being termed practitioner-level roles, and are designed to provide early assessment, diagnosis, and initiation of treatment, and so help improve the quality and timeliness of the care patients receive.

The Department is evaluating the success of these roles through a series of national trials in surgery, emergency care and anaesthetics. It is planned to include primary care in the trials, early in 2004. The trials will assess the benefits of the new ways of working for both patients and staff. The assessment will include measures of improved access to care, and of the reduction in the number of health care professionals a person has to see before treatment.

Population Growth

Ms Oona King: To ask the Secretary of State for Health (1) what assessment he has made of the impact population growth will have on East London primary care trusts reaching their capitation funding targets in the current

three year funding period to 2005–06; and whether there will be adjustments to national resource allocation policy to recognise population growth; [146411]

(2) whether additional health funding provided to meet population growth will be provided in advance of population increases. [146412]

Mr. Hutton: An assessment of the impact on capitation funding targets for primary care trusts in East London has been made using population projections produced by the Greater London Authority.

We are considering whether further analysis is needed and whether additional funding is necessary to meet the health needs of rapidly growing populations in these areas.

Professor Sir Roy Meadow

Tim Loughton: To ask the Secretary of State for Health whether Professor Sir Roy Meadow *(a)* holds a post in and *(b)* receives a retainer from his Department. [144995]

Dr. Ladyman: Professor Sir Roy Meadow neither holds a post in, nor does he receive a retainer from the Department.

Professor Sir Roy Meadow was invited to be a consultant adviser to the Chief Medical Officer by Sir Kenneth Calman in April 1997. The post of consultant adviser was part of an established system which Sir Kenneth used as a means to gain advice at short notice. There were approximately 50 advisers covering different specialities. The advisers were paid an honorarium of in the region of £750 per annum. The post would usually last for three years, but Sir Roy resigned due to retirement with effect from the end of December 1998. He was therefore in post for 20 months. The present Chief Medical Officer, Sir Liam Donaldson, dismantled the consultant adviser system. He prefers instead to work through medical Royal Colleges, specialist associations and other networks of experts to identify the best people to advise on the particular issue covered.

Public Services

Mr. Burstow: To ask the Secretary of State for Health whether he has received a copy of the report by the Royal Statistical Society's Working Party on performance monitoring in the Public Services, Performance indicators: Good, Bad, and Ugly; and if he will make a statement. [146336]

Mr. Hutton: The Royal Statistical Society has called for independent scrutiny of performance data. The Commission for Health Improvement is already the independent regulator of national health service performance and is responsible for developing indicators and publishing NHS performance ratings. Ministers are not responsible for their calculation and publication.

From April 2004, responsibility for the rating process will pass over to the independent Commission for Healthcare Audit and Inspection.

Respiratory Disease

Mr. Burstow: To ask the Secretary of State for Health (1) what estimate he has made of the cost to the NHS of treating and managing chronic obstructive pulmonary disease in each of the last five years; [146213]

(2) how many finished consultant episodes there have been for chronic obstructive pulmonary disease for *(a)* England, *(b)* each NHS region and *(c)* each strategic health authority in each year since 1996, broken down by age. [146215]

Dr. Ladyman: The Department of Health does not have precise estimates of the cost of treating respiratory disease. However it was recently estimated that respiratory disease accounts for approximately 6 per cent. of hospital expenditure, 13 per cent. of primary care expenditure and 12 per cent. of pharmaceutical expenditure.

Details of the Primary Diagnosis of chronic obstructive pulmonary disease count of Finished Consultant Episodes by region and strategic health authority of treatment and age grouping in national health service hospitals in England from 1996–97 to 2002–03, have been placed in the Library.

Sexual Intercourse

Mr. Beggs: To ask the Secretary of State for Health how he intends to measure the success of the Investing for Health target for the percentage of young people who have not experienced sexual intercourse before the age of 16. [145317]

Angela Smith: I have been asked to reply.

This will be determined from the Young Persons Behaviour and Attitudes Survey.

The results of the latest survey are likely to be available in Spring 2004.

South and East Dorset PCT

Mr. Chope: To ask the Secretary of State for Health (1) if he will correct the information on the NHS website relating to bed occupancy in the South and East Dorset Primary Care Trust; [147565]

(2) for what reason his Department refused the request of the South and East Dorset Primary Care Trust that inaccurate information in relation to the trust on the NHS website should be corrected. [147566]

Ms Rosie Winterton: Information on average daily bed availability and occupancy during 2002–03 was published on the Department of Health website on 11 September 2003. Final information for South and East Dorset Primary Care Trust was supplied on 2 July and no amendments were received after publication.

Information on bed availability and occupancy is published as final data and is generally not subject to further amendment once published. Any requests for major amendments would be considered on merit while maintaining the balance between ensuring consistency in published data and accuracy.

Speech Therapy

Ian Lucas: To ask the Secretary of State for Health how many vacant posts for speech therapists there are in the NHS in England. [147089]
